PROFIT WARNING

This announcement is made by Minerva Group Holding Limited (“**Company**”, together with its subsidiaries, the “**Group**”) pursuant to Rule 13.09 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“**Listing Rules**”) and the Inside Information Provisions (as defined in the Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

The board (“**Board**”) of directors of the Company (“**Directors**”) wishes to announce that, based on the preliminary assessment of the latest available unaudited consolidated management accounts of the Group, the Group expects to record a consolidated net loss of no less than approximately HK\$25.1 million for the six months ended on 30 June 2025 (“**IR2025**”), as compared with the consolidated net loss of approximately HK\$14.1 million for the six months ended on 30 June 2024.

The expected loss for the year is primarily attributed to the (i) loss on fair value changes of financial assets at fair value through profit or loss (“**FVTPL**”) of approximately HK\$20.1 million, comprising mainly the unrealised loss on fair value changes in listed equity securities; and (ii) loss on disposal of loans and interest receivables of approximately HK\$11.6 million. The Group’s investment performance has been affected by the specific performance of certain sectors, particularly in the healthcare sector. Furthermore, the Group incurred loss on the disposal of loans and interest receivables by disposing of a portion of long-outstanding and defaulted loans to a third party to recover the loan principal.

The global economy continues to face uncertainty, including tariff wars. Hong Kong is projected to experience the largest rise in non-performing loans among Asia-Pacific markets in 2025, according to a Fitch Ratings report. Despite these challenges and market uncertainties, the Group will continue to diligently evaluate its risk management strategies and maintain an appropriate balance between risk and return over the long term. Additionally, the Group will exercise caution and prudence in its credit assessment and approval processes for its loan portfolio. The repayment performance of the loan portfolio will be closely monitored, and the repayment ability of borrowers will be carefully evaluated.

The Group is still in the course of estimating the fair value of unlisted investment funds, unlisted equity investment and investment property held by the Group as at 30 June 2025. It is anticipated that the Group will incur additional loss on fair value changes of financial assets at FVTPL due to the performance of unlisted equity investments, which has been influenced by the poor stock price performance of comparable healthcare companies as of 30 June 2025. Furthermore, an assessment of the expected credit loss allowance on loans and interest receivables related to the Group's money lending business for the IR2025 is being conducted. It is anticipated that the Group will increase the expected credit loss allowance, which has been influenced by the unfavorable loan market conditions in Hong Kong, as recorded by the Official Receiver's Office, the bankruptcy petitions presented and winding-up orders made by the Court continually increasing from 2022, and some of the Group's loan receivables defaulted on payments for IR2025.

The Group is still in the process of finalising its consolidated financial information for the IR2025. The information contained in this announcement is only based on a preliminary assessment made by the Board with reference to the information currently available, which has not been reviewed by the audit committee of the Board or the auditors of the Company and may be subject to change. Such information may also be subject to adjustment after further review and finalisation of the consolidated financial information for the IR2025. The shareholders and potential investors of the Company are advised to refer to the details of the Company's announcement of its results for the IR2025 to be published in or around late August 2025.

The shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.
