3. SEGMENT INFORMATION

The Group has determined its operating segments based upon the reports reviewed by the chief operating decision-maker when allocating resources and assessing performance of the Group.

The Group's principal operating activities occur in Macau, which is the primary geographic area in which the Group is domiciled. The Group reviews the results of operations for each of its properties being MGM MACAU and MGM COTAI. Each of the properties derives its revenue primarily from casino, hotel rooms, food and beverage and retail operations. MGM MACAU and MGM COTAI have been aggregated into one reportable segment on the basis that they have similar economic characteristics, customers, services and products provided, and the regulatory environment in which they operate.

Adjusted EBITDA is considered to be the primary profit measure for the reportable segment. Adjusted EBITDA is profit before finance costs, income tax expense, depreciation and amortization, loss on disposal/write-off of property and equipment and other assets, interest income, net foreign currency difference, share-based payments, pre-opening costs and corporate expenses which mainly include administrative expenses of the corporate office and license fee paid to a related company.

The Unsecured Senior Notes are general unsecured obligations of the Company. The Unsecured Senior Notes rank equally in right of payment with all of the Company's existing and future unsecured senior indebtedness. The Unsecured Senior Notes are subordinated to all of the Company's future secured indebtedness, if any, to the extent of the value of the collateral securing any such debt and rank senior to all of the Company's future subordinated indebtedness, if any. None of the Company's subsidiaries have guaranteed the Unsecured Senior Notes.

The Unsecured Senior Notes contain covenants that limit the ability of the Company to, among other things, whether directly or indirectly, (1) consolidate or merge with or into another entity; or (2) sell, assign, transfer, convey or otherwise dispose of all or substantially all of the properties or assets of the Company and its subsidiaries.

The Unsecured Senior Notes provide for certain events of default, including certain insolvency related proceedings relating to the Group. If the Company experiences a change of control and a ratings event, each holder of the Unsecured Senior Notes will have the right to require the Company to repurchase all or any part of that holder's Unsecured Senior Notes at 101% of their principal amount plus accrued and unpaid interest, if any, but not including the date of such repurchase in accordance with the terms of the Indentures. The circumstances that will constitute a change of control include the occurrence of any of the following: (1) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of the properties or assets of the Company and its subsidiaries, taken as a whole, to any "person" (as that term is used in Section 13(d)(3) of the United States Securities Exchange Act of 1934, as amended), other than to MGM Resorts International or a related party thereof as described in the Indentures; (2) the adoption of a plan relating to the liquidation or dissolution of the Company or any successor thereto; (3) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any "person" (as that term is used in Section 13(d)(3) of the United States Securities Exchange Act of 1934, as amended), other than MGM Resorts International and any of its related parties (as described in the Indentures) becomes the beneficial owner, directly or indirectly, of more than 50% of the outstanding voting stock of the Company, measured by voting power rather than number of equity interests; or (4) the first day on which the Company ceases to own, directly or indirectly, at least 60% of the outstanding equity interests of (and at least a 60% economic interest in) MGM Grand Paradise.

Under the Indentures, certain events relating to the loss, termination, rescission, revocation or modification of the Group's gaming license in Macau, where such events have a material adverse effect on the financial condition, business, properties, or results of operations of the Group, taken as a whole, may result in a special put option triggering event. If the special put option triggering event occurs, each holder of the Unsecured Senior Notes will have the right to require the Group to repurchase all or any part of such holder's Unsecured Senior Notes at a purchase price in cash equal to 100% of the principal amount thereof, plus accrued and unpaid interest, if any, and Additional Amounts (as defined in the Indentures), if any, calculated up to, but not including, the date of repurchase. Within ten days following the occurrence of a special put option triggering event, the Company shall mail a notice to each holder of the Unsecured Senior Notes stating the repurchase date which shall be no earlier than ten days nor later than sixty days from the date such notice is mailed.

Events of Default

The 2025 Revolving Credit Facility contains certain events of default and certain insolvency related proceedings relating to the Group. If the Group does not own or manage casino or gaming areas or operate casino games of fortune and chance for a period of ten consecutive days or more and such event has a material adverse effect on the financial condition, business, properties, or results of operations of the Group, taken as a whole, or in case of termination, rescission, revocation or modification of any gaming concession which has a material adverse effect on the financial condition, business, properties, or results of operations of the Group, taken as a whole, excluding any termination or rescission resulting from or in connection with any renewal, tender or other process conducted by the Macau Government in connection with the granting or renewal of any gaming concession; provided that such renewal, tender or other process results in the granting or renewal of the relevant gaming concession, an event of default will be triggered. Under the applicable acceleration provisions, if an event of default is outstanding, the facility agent may, and must if so instructed by the majority lenders, by notice to the Company, cancel all or any part of the total commitments; or declare that all or part of any amounts outstanding under the finance documents are immediately due and payable; or payable on demand by the facility agent acting on the instructions of the majority lenders.

We conduct business with a focus on creating economic benefits across our properties on the Macau Peninsula and Cotai. We continue to implement the following business strategies to enhance our position as the leading developer and operator of two integrated casino, hotel and entertainment resorts in Macau:

- Develop and diversify our offerings to cater to different market segments;

- Position our luxurious resorts and gaming areas to attract ultra-high end customers, while maintaining our focus on the high margin premium mass market gaming segment; and

Our competitive strengths and operating strategies are aligned with the Macau Government's emphasis on developing international tourist markets and non-gaming offerings. MGM Grand Paradise has committed to make a total investment of MOP19.7 billion (equivalent to approximately HK\$19.1 billion) over the duration of the Concession Contract, of which MOP18 billion (equivalent to approximately HK\$17.5 billion) (approximately 91%) is expected to be directed towards the development of international tourist markets and non-gaming projects and programming to drive tourism to the region.

Since 2023, we expanded our overseas sales networks and we expect to continue leveraging the extensive sales network of MGM Resorts International to further our reach into international markets. We also increased our non-gaming offerings in terms of entertainment, art, gastronomy, meetings, incentives, conferences and exhibitions ("MICE") and wellness tourism through redesign and upgrade of facilities in MGM MACAU and MGM COTAI. In particular, our Poly MGM Museum, residency show "Macau 2049" and Fantasy Box have expanded our non-gaming offerings and become Macau's latest world-class tourism attractions.

FACTORS AFFECTING OUR RESULTS OF OPERATIONS AND FINANCIAL POSITION

Our results of operations and the period-to-period comparability of our financial results are affected by a number of factors, including:

Macau Gaming Market and Tourism

Macau is one of the largest casino gaming markets in the world. Additional capacity continues to be added with several new large-scale integrated resorts being opened in Cotai in recent years. Infrastructure investment and growth in room supply have been supporting increased visitation, including overnight visitors, to Macau.

Customers travelling to Macau are typically from nearby regions in Asia including mainland China, Hong Kong, Taiwan, South Korea and Japan. According to the DSEC, approximately 71.6% and 69.0% of visitors to Macau were from mainland China in the first half of 2025 and 2024, respectively.

Total visitor arrivals into Macau increased by 14.9% and total visitation from mainland China to Macau increased by 19.3% for the six months ended June 30, 2025, respectively, over the comparable period in 2024. Macau gross gaming revenue increased by 4.4% to HK\$115.3 billion for the six months ended June 30, 2025 over the comparable period in 2024.

We are optimistic about the long-term growth of the Macau market due to:

- The financial investments made to date and the investments committed to be made during the 10-year term of the new gaming concessions by the six gaming concessionaires to provide superior and diversified gaming and non-gaming offerings to enhance the position of Macau as a world class tourism center;
- The infrastructure improvements in Macau and the Greater Bay area, such as the opening of the Hong Kong-Zhuhai-Macau bridge; the expansion of the Macau Airport; the opening of the fourth Macau-Taipa bridge (“Macau Bridge”); the opening of Qingmao border and Hengqin border 24-hour checkpoints; the ongoing expansion of the Macau Light Rapid Transit System; the ongoing expansion of the China High Speed Rail routes to Zhuhai border gate from key cities in mainland China; launch of additional direct flights between Macau and international destinations. All these improvements facilitate more convenient travel to Macau;

- The development of Hengqin into a tourism island which, together with Macau, have been designated as a key tourism hub by the Chinese Government;
- The rolling-out of favorable measures by the Chinese Government aimed at supporting recovery and growth in Macau and Hong Kong, including expansion of cities in the individual visa scheme;
- The continuous growth of mainland China outbound tourism, particularly in light of the growing middle class with increasing wealth and demand for travel and leisure experiences; and
- The strong efforts to promote Macau as a safe and quality tourism destination by the Macau Government.

Nonetheless, the Macau gaming market and tourism is affected by numerous factors, such as economic disruption or uncertainty in mainland China; changes in gaming laws and regulations in Macau; global trade tensions; restriction on exit visas from mainland China for travel to Macau and Hong Kong; anti-smoking legislation; anti-corruption campaigns; currency transfer restrictions; depreciation of the renminbi against the US\$; introduction of a border currency declaration system; monetary outflow policies and legislation on cross-border gambling. These factors may affect the number of visitors and amount of capital outflow from mainland China to Macau. Outbreaks of highly infectious diseases and extreme weather conditions, such as typhoons, also affect the number of visitors to Macau.

Competition

There are six gaming operators and 30 casinos in Macau as at June 30, 2025. Driven by the premium mass market which both MGM MACAU and MGM COTAI are well positioned to capture, we have maintained our market position, despite more intense competition in the Macau gaming market. Our overall gaming market share was 16.2% for the six months ended June 30, 2025, compared to 16.5% for the six months ended June 30, 2024 and 15.8% for the year ended December 31, 2024.

Our competition is not geographically limited to the Macau market. We compete with similar businesses in other parts of the world including, but not limited to, integrated resorts in Cambodia, Vietnam, South Korea, Singapore, the Philippines, Australia and Las Vegas.

Gaming Patrons

Our results of operations are substantially dependent upon casino revenue in the main floor gaming, VIP gaming and slot machines gaming operations. Our gaming patrons include main floor players and VIP players.

Main Floor Table Gaming Operations

Main floor table gaming operations in the Macau market are also referred to as the “mass market gaming operation”. Main floor players, including the premium mass market players we aim to attract, come to our properties for a variety of reasons, including our dual locations in the Macau market, direct marketing efforts, brand recognition, the quality and comfort of our mass market gaming floors, and our non-gaming offerings. The main floor business is the most profitable part of our operations as well as for the Macau gaming market as a whole. Our mass market gaming operation accounted for 87% of our GGR for the six months ended June 30, 2025. Unlike VIP players, main floor players, including premium and mass market players, do not receive commissions from the Group.

We have made continuous efforts to improve the gaming experience of our premium and mass market players by renovating the dedicated exclusive gaming spaces for their use. Subject to DICJ’s approval, we continue to reallocate tables between our main floor and VIP gaming areas to maximize our yield. We leveraged our Golden Lion Club as a vehicle to attract and retain those high value main floor players through exclusive customer service and promotions.

VIP Gaming Operations

The majority of our VIP casino players are sourced directly through our own marketing channels. These in-house VIP players typically receive a commission and an allowance for hotel rooms, food and beverage based upon a percentage of their rolling chip turnover. Our VIP clients may also come under our gaming promoters’ programs.

We selectively grant credit to certain gaming customers whose level of play and financial resources meet our approval criteria. In order to minimize the credit risk with approved gaming customers, the Group has a designated management team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover all receivables. We conduct a number of credit checking procedures including the receipt of various signed documents from each credit recipient. If permitted by applicable laws, these documents may aid in legally enforcing collections in countries where the gaming customers reside. The Group has a legally enforceable right to set off the receivables against the deposits, commissions and incentives liabilities that are to be settled simultaneously. We generally do not charge interest for credit granted but require a personal cheque or other acceptable form of security. The Group regularly reviews the recoverable amount of each individual debt to ensure that adequate loss allowances are made for irrecoverable amounts. We have been successful in collecting some receivables previously considered to be at risk of recoverability.

Non-Gaming Attractions and Branding Activities

We recognize the importance of brand awareness in growing our business. We have enhanced our marketing activities to take advantage of our internationally recognized brand. Brand-building initiatives are driven through promotions, events, strategic alliances and public relations activities. We continue to improve our customer experience by enhancing our hotel rooms, food, beverage, retail and entertainment offerings, and expanding and refurbishing our non-gaming areas.

Hospitality

MGM MACAU opened in December 2007 and the resort features 585 hotel rooms comprising 468 standard guestrooms, 99 luxury suites and 18 private luxury villas as at June 30, 2025. MGM COTAI opened in February 2018, and the resort features 1,418 hotel rooms comprising 1,248 standard guestrooms, 99 luxury suites, 16 skylofts, 28 Emerald villas and 27 The Mansion villas as at June 30, 2025. The expansive and unique offerings associated with The Mansion and Emerald Villa were designed to better position the Group to acquire high-end customers. In addition, the resorts offer luxurious amenities, including 8 diverse restaurants, retail outlets, approximately 1,600 square meters of meeting space and other non-gaming offerings at MGM MACAU and 12 diverse restaurants and bars, retail outlets, approximately 2,870 square meters of meeting space and other non-gaming offerings at MGM COTAI.

Our hospitality services and premium quality facilities are highly recognized by world-class awards. In the first half of 2025, our resorts have received a total of seven Forbes Travel Guide Five-Star Awards, two One-Diamond awards from the Black Pearl Restaurant Guide, and two One Star in the MICHELIN Guide Hong Kong and Macau. We are proactive in addressing customer preferences, and, as a result, have been undertaking renovation and development works to upgrade and expand our hotel, food and beverage and MICE offerings.

Arts and Culture

Precious works of art can be found throughout MGM MACAU including the massive “Fiori di Paradiso Ceiling” by renowned artist Dale Chihuly, which is located at the hotel lobby. Additional artwork, including lion sculptures and paintings by local and international artists are located elsewhere on the grounds. On November 2, 2024, MGM China, in collaboration with Poly Culture Group Corporation Limited, officially opened the world-class Poly MGM Museum at MGM MACAU. The prestigious inaugural exhibition, “The Maritime Silk Road — Discover the Mystical Seas and Encounter the Treasures of the Ancient Trade Route”, showcases artifacts, artworks and cultural relics. Segment Information

The Group has determined its operating segments based upon the reports reviewed by the chief operating decision-maker when allocating resources and assessing performance of the Group.

The Group’s principal operating activities occur in Macau, which is the primary geographic area in which the Group is domiciled. The Group reviews the results of operations for each of its properties being MGM MACAU and MGM COTAI. Each of the properties derives its revenue primarily from casino, hotel rooms, food and beverage and retail operations. MGM MACAU and MGM COTAI have been aggregated into one reportable segment on the basis that they have similar economic characteristics, customers, services and products provided, and the regulatory environment in which they operate. Adjusted EBITDA is considered to be the primary profit measure for the reportable segment.

Adjusted EBITDA

Adjusted EBITDA is profit before finance costs, income tax expense, depreciation and amortization, loss on disposal/write-off of property and equipment and other assets, interest income, net foreign currency difference, share-based payments, pre-opening costs and corporate expenses which mainly include administrative expenses of the corporate office and license fee paid to a related company. Adjusted EBITDA is used by management as the primary measure of the Group’s operating performance and to compare our operating performance with that of our competitors. Adjusted EBITDA should not be considered in isolation, construed as an alternative to profit or operating profit as reported under IFRS Accounting Standards or other combined operations or cash flow data, or interpreted as an alternative to cash flow as a measure of liquidity. Adjusted EBITDA presented in this announcement may not be comparable to other similarly titled measures of other companies operating in the gaming or other business sectors.

Inventories consumed increased by 16.6% to HK\$628.4 million for the six months ended June 30, 2025 as compared to the six months ended June 30, 2024. The increase is mainly due to an increase in consumption of inventories and supplies in response to our business activities.

Staff costs

Staff costs increased by 8.8% to HK\$2,480.3 million for the six months ended June 30, 2025 as compared to the six months ended June 30, 2024. The increase was primarily due to general salary increments and increased headcount, as compared to the six months ended June 30, 2024.

Other expenses and losses slightly increased by 0.9% to HK\$1,696.9 million for the six months ended June 30, 2025 as compared to the six months ended June 30, 2024, which mainly resulted from:

Advertising and promotion expense. Advertising and promotion expense increased by 2.9% from HK\$719.8 million for the six months ended June 30, 2024 to HK\$740.4 million for the six months ended June 30, 2025. The increase resulted from expanded marketing activities during the current period.

Depreciation and amortization

Depreciation and amortization increased by 9.4% to HK\$1,007.8 million for the six months ended June 30, 2025 as compared to the six months ended June 30, 2024. Finance costs

Total finance costs decreased from HK\$838.6 million for the six months ended June 30, 2024 to HK\$793.2 million for the six months ended June 30, 2025. The decrease was primarily due to:

Additionally, the weighted average interest rate declined from 6.7% to 4.7%, reflecting a lower HIBOR plus margin; and
- decrease of HK\$13.0 million attributable to the cancellation of MGM Resorts International Revolving Credit Facility on March 20, 2024.

Net foreign currency loss

Net foreign currency loss increased from HK\$7.0 million for the six months ended June 30, 2024 to HK\$207.0 million for the six months ended June 30, 2025. The increase was primarily attributable to US dollar denominated senior notes where the Hong Kong dollar weakened against the US dollar in the current period.

Income tax expense

MGM Grand Paradise has been granted an exemption from Macau Complementary Tax for profits generated from gaming operations and entered into a tax concession arrangement with the Macau Government to make annual payments based upon a pre-determined rate in lieu of Macau Complementary Tax otherwise payable by the shareholders of MGM Grand Paradise on dividend distributions received by them from gaming profit. Income tax expense in the current and prior periods primarily related to the provision for the payment in lieu of Macau Complementary Tax on dividends.

The 2025 Notes, the 2027 Notes and the 2031 Notes were issued pursuant to an indenture, dated June 18, 2020, March 31, 2021 and June 26, 2024, respectively, between the Company and Wilmington Savings Fund Society, FSB, as trustee.

The Unsecured Senior Notes are general unsecured obligations of the Company. The Unsecured Senior Notes rank equally in right of payment with all of the Company's existing and future unsecured senior indebtedness. The Unsecured Senior Notes are subordinated to all of the Company's future secured indebtedness, if any, to the extent of the value of the collateral securing any such debt and rank senior to all of the Company's future subordinated indebtedness, if any. None of the Company's subsidiaries have guaranteed the Unsecured Senior Notes.

The Unsecured Senior Notes contain covenants that limit the ability of the Company to, among other things, whether directly or indirectly, (1) consolidate or merge with or into another entity; or (2) sell, assign, transfer, convey or otherwise dispose of all or substantially all of the properties or assets of the Company and its subsidiaries.

The Unsecured Senior Notes provide for certain events of default, including certain insolvency related proceedings relating to the Group. If the Company experiences a change of control and a ratings event, each holder of the Unsecured Senior Notes will have the right to require the Company to repurchase all or any part of that holder's Unsecured Senior Notes at 101% of their principal amount plus accrued and unpaid interest, if any, but not including the date of such repurchase in accordance with the terms of the Indentures. The circumstances that will constitute a change of control include the occurrence of any of the following: (1) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of the properties or assets of the Company and its subsidiaries, taken as a whole, to any "person" (as that term is used in Section 13(d)(3) of the United States Securities Exchange Act of 1934, as amended), other than to MGM Resorts International or a related party thereof as described in the Indentures; (2) the adoption of a plan relating to the liquidation or dissolution of the Company or any successor thereto; (3) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any "person" (as that term is used in Section 13(d)(3) of the United States Securities Exchange Act of 1934, as amended), other than MGM Resorts International and any of its related parties (as described in the Indentures) becomes the beneficial owner, directly or indirectly, of more than 50% of the outstanding voting stock of the Company, measured by voting power rather than number of equity interests; or (4) the first day on which the Company ceases to own, directly or indirectly, at least 60% of the outstanding equity interests of (and at least a 60% economic interest in) MGM Grand Paradise.

Under the Indentures, certain events relating to the loss, termination, rescission, revocation or modification of the Group's gaming license in Macau, where such events have a material adverse effect on the financial condition, business, properties, or results of operations of the Group, taken as a whole, may result in a special put option triggering event. If the special put option triggering event occurs, each holder of the Unsecured Senior Notes will have the right to require the Group to repurchase all or any part of such holder's Unsecured Senior Notes at a purchase price in cash equal to 100% of the principal amount thereof, plus accrued and unpaid interest, if any, and Additional Amounts (as defined in the Indentures), if any, calculated up to, but not including, the date of repurchase. Within ten days following the occurrence of a special put option triggering event, the Company shall mail a notice to each holder of the Unsecured Senior Notes stating the repurchase date which shall be no earlier than ten days nor later than sixty days from the date such notice is mailed.

As at the date of this announcement, the Company has no secured indebtedness and no subordinated indebtedness.

Unsecured Credit Facilities

2025 Revolving Credit Facility

Overview

On April 15, 2025, the Company entered into agreements with certain lenders pursuant to which the lenders agreed to make available to the Company a revolving credit facility in an aggregate amount of up to HK\$23.40 billion with a final maturity date of April 15, 2030. The proceeds of the 2025 Revolving Credit Facility were used to refinance the Revolving Credit Facility and Second Revolving Credit Facility, for ongoing working capital needs and general corporate purposes of the Group. With effect from April 22, 2025, the date of the first utilization of the 2025 Revolving Credit Facility, the amounts due under the Revolving Credit Facility and Second Revolving Credit Facility have been replaced in full and the total commitments thereof cancelled.

Principal and Interest

The 2025 Revolving Credit Facility bears interest at a floating rate per annum based on HIBOR plus a margin (in the range of 1.625% to 2.75%), which will be determined based upon the Company's leverage ratio.

As at June 30, 2025, HK\$17.00 billion of the 2025 Revolving Credit Facility was undrawn and available for utilization up to and including the date falling one month prior to the final maturity date of April 15, 2030. Each drawdown is to be repaid in full no later than April 15, 2030. As at June 30, 2025, the Group paid interest at HIBOR plus 2.00% per annum.

General Covenants

The 2025 Revolving Credit Facility contains general covenants restricting the ability of the obligor group (the Company and certain of its subsidiaries, namely the "Restricted Group") from incurring liens or engaging in certain asset dispositions. With the approval of the lenders there are certain permitted exceptions to these restrictions.

Financial Covenants

The leverage ratio under the 2025 Revolving Credit Facility is required to be no greater than 4.5 to 1.0 at each quarter end. In addition, the Group is required to maintain an interest coverage ratio of no less than 2.5 to 1.0 at each quarter end.

Compliance with Covenants

The Group has complied with the general and financial covenants under the 2025 Revolving Credit Facility for the six months ended June 30, 2025.

Cancellation

Pursuant to the 2025 Revolving Credit Facility, the total commitments shall be cancelled immediately and all outstanding loans, together with accrued interest and all other amounts accrued under the finance documents shall become immediately due and payable if a Change of Control occurs or there is a sale of all or substantially all of the assets or business of the Group. Change of Control is defined as: MGM Resorts International ceases to be the legal and beneficial owner directly or indirectly of more than 50% of the issued ordinary share capital of the Company; or the Company ceases to be the beneficial owner directly or indirectly of all of the entire issued share capital of MGM Grand Paradise (other than any portion of the share capital of MGM Grand Paradise with only nominal economic interests created for the purposes of complying with Macanese ownership requirements).

Events of Default

The 2025 Revolving Credit Facility contains certain events of default and certain insolvency related proceedings relating to the Group. If the Group does not own or manage casino or gaming areas or operate casino games of fortune and chance for a period of ten consecutive days or more and such event has a material adverse effect on the financial condition, business, properties, or results of operations of the Group, taken as a whole, or in case of termination, rescission, revocation or modification of any gaming concession which has a material adverse effect on the financial condition, business, properties, or results of operations of the Group, taken as a whole, excluding any termination or rescission resulting from or in connection with any renewal, tender or other process conducted by the Macau Government in connection with the granting or renewal of any gaming concession; provided that such renewal, tender or other process results in the granting or renewal of the relevant gaming concession, an event of default will be triggered. Under the applicable acceleration provisions, if an event of default is outstanding, the facility agent may, and must if so instructed by the majority lenders, by notice to the Company, cancel all or any part of the total commitments; or declare that all or part of any amounts outstanding under the finance documents are immediately due and payable; or payable on demand by the facility agent acting on the instructions of the majority lenders.

Security and Guarantees

No security or guarantees were provided in relation to the 2025 Revolving Credit Facility.

MARKET RISK

The Group's activities expose it primarily to market risk arising from changes in foreign currency exchange rates and interest rates.

Foreign Currency Exchange Risk

The Group's principal operations are primarily conducted and recorded in HK\$. The financial statements of foreign operations are translated into HK\$ which is the Company's functional and presentation currency. The cash received from gaming activities is primarily in HK\$. Our operating expenses and capital expenditures are primarily denominated in MOP and HK\$. MOP is pegged to the HK\$ at a constant rate and accordingly we do not expect fluctuations in the values of these currencies to have a material impact on our operations. The Group holds bank balances, cash, deposits and borrowings denominated in foreign currencies, and consequently exposure to exchange rate fluctuations arise. The majority of our foreign currency exposure comprises liabilities denominated in US\$ including US\$2.0 billion of issued senior notes. The HK\$ is pegged to the US\$ and has historically remained stable. We manage foreign currency exchange risk attributable to these liabilities by closely monitoring the movement of the foreign exchange rates and by utilizing hedging agreements when we consider it necessary. There were no foreign currency hedging transactions undertaken by the Group during the six months ended June 30, 2025 and 2024.

Interest Rate Risk

The Company manages market interest rate risk through a mix of long-term fixed rate borrowings under its unsecured senior notes and variable rate borrowings under the 2025 Revolving Credit Facility, and by utilizing interest rate swap agreements when considered necessary. Market interest rate fluctuation may lead to higher or lower interest expense for variable rate borrowings or cause us to incur additional expenses by hedging interest rate exposures of our debt or exposure to hedging counterparties' failure to pay under any such hedging arrangements. A change in market interest rates generally does not have an impact upon the Company's future earnings and cash flow for fixed rate debt instruments. As fixed rate borrowings mature, and if additional debt is acquired to fund the debt repayment, future earnings and cash flow may be affected by changes in market interest rates. This effect would be realized in the periods subsequent to periods when the debt matures. There were no interest rate swap agreements entered into by the Group during the six months ended June 30, 2025 and 2024.

OFF BALANCE SHEET ARRANGEMENTS

The Group has not entered into any transactions with special purpose entities nor do we engage in any transactions involving derivatives that would be considered speculative positions. The Group does not have any retained or contingent interest in assets transferred to an unconsolidated entity.

OTHER LIQUIDITY MATTERS

In the ordinary course of business, in response to market demands, we continue to incur capital expenditures on enhancements and refinements to our resorts.

Taking into consideration our financial resources, including the Group's cash and cash equivalents, available undrawn unsecured credit facility and internally generated funds, the Group believes it is able to meet its financial obligations as they fall due for the following twelve months from the end of the reporting period.

EMPLOYEES AND REMUNERATION POLICY

As at June 30, 2025, the Group employed 13,556 (December 31, 2024: 13,327) full-time and part-time employees in Macau, Hong Kong and Zhuhai which includes MGM MACAU, MGM COTAI and shared services team members.

The Group's remuneration philosophy is a market-based job compensation grading approach, which we believe is the best strategy to fulfill the Company's fundamental goal of attracting and retaining a diverse and highly skilled workforce. To accomplish this, the Company intends our remuneration system to be:

- Competitive — in the local labor market, considering both MGM China's market niche and the larger industries in which we compete for talent.
- Comprehensive — to be viewed through the lens of total rewards, including, among others, base pay, health benefits, incentive pay, bonus, equity and retirement plans.
- Objective — to be consistent with local market rates.
- Developmental — to encourage career and professional development within the workforce and retain quality talents.

A group-wide performance based incentive program has been implemented since 2011 for all managerial level employees. The objective of developing such an incentive bonus program is to focus all members of the team in creating and sustaining the enterprise value of the Group. The program consists of several components, including share options and restricted stock units, designed to encourage targeted individuals and groups based upon clear and measurable objectives designed to support the Group's strategy.

In addition to the above performance incentives, it is customary in Macau to provide additional months of salary to line staff during the Chinese New Year period as a gratuity for their hard work during the year. Such additional bonus is subject to the Board's discretion.

During the six months ended June 30, 2025, the Company repurchased the aggregate number of shares equivalent to the aggregate number of all such new shares being issued previously in accordance with Rule 10.06 of the Listing Rules, and all repurchased shares were subsequently cancelled. The total issued share capital of the Company remains the same. The Board considered that such repurchases were made for the benefit of the Company and its Shareholders as a whole with the view of maintaining the same total issued share capital and enhancing stability of the Company's share capital and hence the net value of the Company and its assets and/or earnings per Share.

Save as disclosed above, there was no repurchase, sale or redemption by the Company, or any of its subsidiaries, of any listed securities of the Company during the six months ended June 30, 2025.
