VOLUNTARY ANNOUNCEMENT
ENTERING INTO OF STRATEGIC COOPERATION AGREEMENT

This announcement is made by Beijing Saimo Technology Co., Ltd. (the "**Company**") on a voluntary basis.

The board (the "**Board**") of directors (the "**Directors**") of the Company is pleased to announce that the Company entered into a strategic cooperation (the "**Strategic Cooperation**") agreement (the "**Strategic Cooperation Agreement**") with SGS-CSTC Standards Technical Services (Shanghai) Co., Ltd. (通標標準技術服務(上海)有限公司) ("**SGS-CSTC**") on 7 August 2025, pursuant to which, both parties will establish a long-term and stable strategic partnership based on the principles of complementary advantages, synergistic innovation, and mutual benefit. The term of the cooperation is three years from the date of signing.

Pursuant to the Strategic Cooperation Agreement, the collaboration between both parties shall include, but not be limited to: supporting the global expansion of automotive enterprises in China, jointly providing overseas regulatory compliance advisory services, promoting mutual recognition and synergistic utilization of overseas and domestic laboratory resources, jointly advancing the development of functional safety (FuSa) and safety of the intended functionality (SOTIF) and safety validation framework construction, and conducting specialized cooperation on major projects.

SGS-CSTC is an internationally recognized testing, inspection, and certification organization, renowned as a benchmark for sustainability, quality, and integrity. It is also the first third-party sino-foreign joint-venture inspection organization in China accredited by China National Accreditation Service for Conformity Assessment (CNAS) under ISO 17020, with its laboratories accredited by many authoritative institutions. To the best of the Directors' knowledge, information and belief after making all reasonable enquiries, SGS-CSTC and its ultimate beneficial owners are third parties independent of the Company and connected persons of the Company. The entering into of the Strategic Cooperation Agreement does not

constitute a notifiable transaction of the Company under Chapter 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

The Company believes that the entering into of the Strategic Cooperation Agreement will facilitate the integration of the Company's intelligent connected simulation testing tool chain with SGS-CSTC's international certification resources, enabling the provision of one-stop testing and certification services to automotive enterprise clients, so as to jointly address the regulatory barriers faced by Chinese automotive companies in expanding into international markets and to seize early opportunities in the global intelligent vehicle market.

The Strategic Cooperation Agreement serves as a framework and intentional agreement on the intention and basic principles of the cooperation between both parties, and the specific cooperation arrangements will be subject to a formal agreement to be signed by both parties. Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.

By order of the Board
Beijing Saimo Technology Co., Ltd.
Hu Dalin
Chairman of the Board and Executive Director

Hong Kong, 8 August 2025
