Note: The Company completed the acquisition of 100% equity interest in China Energy Hangjin Energy Co., Ltd. ("**Hangjin Energy**") in February 2025. The major operational data of the Company shown in the table above incorporates the relevant business volumes of Hangjin Energy, and the major operational data of the Company for the corresponding period last year have been restated.

In July 2025, the main reason for the year-on-year increase in loading volume at Huanghua Port of the Company was due to the increase in arrival of resources. The main reason for the year-on-year decrease in polypropylene sales was due to the timely adjustment of product sales volume based on the changes in the market demand and prices of polyolefin products.

From January to July 2025, the main reasons for the year-on-year decrease in shipping volume and shipment turnover were due to structural adjustment to the shipping business and changes in route structure. The main reason for the year-on-year increase in polyethylene sales and polypropylene sales was due to the lower base resulting from the scheduled maintenance of the coal-to-olefin production equipment in the same period last year.

The major operational data above was calculated based on the internal statistics of the Company. Operational data may show major differences from month to month. The factors giving rise to such differences include, among others, changes in weather, equipment overhaul, seasonal factors and safety inspection. The major operational data may somewhat differ from the data disclosed in the relative periodic reports. Investors are hereby reminded of the risks that may result from inappropriate reliance upon or utilization of the information given above.
