UPDATE IN RELATION TO THE DISCLAIMER OF OPINION ON GOING CONCERN SET OUT IN THE ANNUAL REPORT FOR THE YEAR ENDED 31 DECEMBER 2024

This announcement is made by Sunshine Oilsands Ltd. (the "**Company**") pursuant to Rules 13.09 and 13.25(1)(b) of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited and the Inside Information Provisions under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

Reference is made to the announcement of the Company (HKEX: 2012) dated August 8, 2025 (the "**Announcement"**) in relation to the Company's business update. Unless the context requires otherwise, capitalised terms used in this announcement shall have the same meaning as defined in the Announcement.

The announcement was meant to be an update in relation to the disclaimer of opinion solely on the going concern basis of preparation of financial statements ("**going concern**") for the year ended 31 December 2024 (the "**Disclaimer of Opinion**") and management's separate assessment on going concern as set out in the annual report of the Company (the "**Annual Report**") published on 30 April 2025 with details of upcoming plans of corporate actions and capital raise. The Company would like to supplement the announcement with the following additional information:

1) The Company experienced delay in resumption as the suspension of production significantly affected the Company's ability to raise funds for completion of the necessary repair and maintenance ("**R&M**") work to meet Alberta Energy Regulator's ("**AER**") requirement. The R&M work includes, amongst other things, repair of tank with leakages and insufficient containment, manage vegetation to mitigate fire risk by reducing the availability of flammable fuels, repair of turbine steam generators and leak detection installation on pipelines. Meanwhile the Company has already completed smaller scale repair work.

**For identification purposes only*

2) As mentioned in our previous announcement dated 9 May 2025, the Company has been diligently proceeding with the Nobao asset acquisition ("**NAA**") and the Company has gathered prospective investors who have expressed interests to invest after the completion of the NAA. At the same time, the Company carried out detailed and thorough due diligence on the Target Company's financial, technology, project operation, remote monitoring, business model, assets valuation aspects, etc. and valuation work of the Target Company.

3) It is expected that the Company will be able to raise funds within two months after the NAA to fund the required R&M work. Once the R&M work is completed, the Company can resume production after AER inspection certifies that the R&M work is satisfactory.

4) Apart from the financial support from the substantial shareholders, the Company is also exploring different fund raising opportunities. During the process, the management is aware that reducing the leverage of the Company would be beneficial for its fund raising exercise. Therefore recently, the Company was actively engaged in settlement of creditors through issuance of shares.

5) According to the announcement dated May 14, 2025 in relation to a notice received by the Company from AER, the Company has since then filed an appeal and stay application of the Order and is waiting for reply from AER. We expect efforts and communication to be around the order rather than resumption of production until the appeal is completed which according to legal advice, time required for the completion of the appeal is unknown. It could take 6 months or more for the AER to determine whether the appeal application is accepted. Therefore, there could be further delay for the discussion of production resumption with AER. Taking into account all information and factors available at the moment, the management expects that the Company could resume production by end 1Q2026. Our estimate of timing to complete the R&M was based on a number of factors including but not limited to timing when funds will become available, preliminary budget to complete the required R&M work, availability of third party vendors for the R&M, progress of appeal with AER, etc.

The Company will issue further announcement as and when appropriate.
