VOLUNTARY ANNOUNCEMENT PROPOSED TO ENTER INTO A STRATEGIC COOPERATION AGREEMENT WITH GCH AND TRADEGO TO PROMOTE THE ISSUANCE OF RWA

This announcement is made by Breton Technology Co., Ltd. (the "**Company**", together with its subsidiaries, collectively the "**Group**") on a voluntary basis to keep the shareholders of the Company (the "**Shareholders**") and potential investors abreast of the latest business development of the Group.

The board of directors (the "**Board**") of the Company is pleased to announce that on August 20, 2025, the Company entered into a strategic cooperation agreement (the "**Agreement**") with Golden Continent Holdings Limited ("**GCH**"), as well as TradeGo FinTech Limited ("**TradeGo**", stock code: 8017.HK) and its subsidiary TradaeGo Markets Limited.

GCH and its subsidiaries (including Golden Continent Securities Co., Limited and Golden Continent Asset Management Co., LTD, which hold Type 1, Type 4 and Type 9 licenses issued by the Securities and Futures Commission of Hong Kong) are professional financial institutions that boast experiences in asset securitisation and Real-World Asset (RWA) tokenization. TradeGo provides cloud-based market and trading integrated terminal products and system services for Hong Kong brokerage firms, its shares are listed on the GEM board of the Stock Exchange of Hong Kong Limited. TradeGo's licensed subsidiary, TradeGo Markets Limited, holds Type 1 and Type 7 licenses issued by the Securities and Futures Commission of Hong Kong. To the best of the knowledge, information and belief of the Company's directors after making all reasonable enquiries, GCH, Golden Continent Securities Co., Limited, Golden Continent Asset Management Co., LTD, TradeGo, TradeGo Markets Limited and their ultimate beneficial owners are independent third parties of the Company and its connected persons.

Pursuant to the Agreement, all parties will jointly promote: (1) tokenization of real-world assets (RWA) - packaging the Company's operating income rights from new energy engineering machinery, overseas mining green carbon reduction assets from photovoltaic power generation and energy storage, and other assets into divisible and auditable on-chain financial products; (2) Web3-compliant payment system, which integrates a stablecoin payment and trading system into the Company's business ecosystem; and (3) digital asset issuance and circulation under the Hong Kong regulatory framework, with GCH's licensed subsidiaries assisting in the compliant issuance of tokenized assets, and TradeGo's licensed subsidiaries acting as underwriters responsible for market distribution and subscription.

With the increasing acceptance of digital currency and decentralized finance by global institutions, RWA tokenization is fast becoming a key component of corporate financing and stablecoin investment strategies. By establishing a strategic partnership with GCH and TradeGo, the Group will leverage the respective strengths of all parties: built on the Company's physical foundation in the new energy industry, in combination with the expertise of the partners in the compliant financial sector, we will jointly explore innovative financial products and services such as asset tokenization, digital asset funds, and regulated stablecoins, thereby significantly enhancing asset liquidity and value conversion efficiency. This initiative will not only broaden the Group's diversified financing channels but also promote the transparent, standardised and global circulation of green and low-carbon assets. In the long run, the Group expects to further strengthen its market competitiveness in the integration of "new energy + digital finance" and create potential value-added returns for the Shareholders.

The transactions contemplated under the Agreement are subject to the execution of a legally binding definitive business agreement by all parties. If a definitive agreement is entered into, further announcement(s) will be made by the Company in accordance with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited in due course. Shareholders and potential investors are advised to exercise caution when dealing in the shares of the Company.

By order of the Board
Breton Technology Co., Ltd.
Mr. Chen Fangming
Chairman, General Manager and Executive Director
