The above unaudited pro forma statement of adjusted consolidated net tangible assets does not take into account the valuation surplus arising from the valuation of the Group's property interest. Valuation surplus has not been recorded in the Historical Financial Information of the Group and will not be recorded in the consolidated financial statements of the Group in the future periods as the Group's investment property is stated at cost less accumulated depreciation and impairment losses, if any. Had the valuation surplus been recorded in the Group's financial statements, additional annual depreciation of approximately RMB4,600,000 would be charged in profit or loss in future remaining useful lives.
