Notes:

1. Basis of Preparation

The condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 “*Interim Financial Reporting*” issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) as well as with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities (the “Listing rules”) on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

2. Principal accounting policies

The condensed consolidated financial statements have been prepared on the historical cost basis, except for investment properties and certain financial instruments, which are measured at fair values.

Other than additional accounting policies resulting from application of amendments to HKFRS Accounting Standards, the accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 June 2025 are the same as those presented in the Group’s annual consolidated financial statements for the year ended 31 December 2024.

Application of amendments to HKFRS Accounting Standards

In the current interim period, the Group has applied the following amendments to a HKFRS Accounting Standard issued by HKICPA for the first time, which are mandatorily effective for the Group’s annual period beginning on 1 January 2025 for the preparation of the Group’s condensed consolidated financial statements:

Amendments to HKAS 21

Lack of Exchangeability

The application of the amendments to a HKFRS Accounting Standard in the current interim period has had no material impact on the Group’s financial positions and performance for the current and prior periods and/or on the disclosures set out in these condensed consolidated financial statements.

3. Segment Information

HKFRS 8 “Operating Segments” (“HKFRS 8”) requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the executive directors of the Company, who are the Chief Operating Decision Makers (“CODM”), in order to allocate resources to segments and to assess their performance. Specifically, the Group’s reportable segments under HKFRS 8 are organised into six main operating divisions – (i) laminates, (ii) PCBs, (iii) chemicals, (iv) properties, (v) investments (mainly investment income from debt instruments at fair value through other comprehensive income and equity instruments at fair value through profit or loss) and (vi) others (mainly including service income, manufacture and sale of magnetic products and hotel business).

The accounting policies the Group used for segment reporting under HKFRS 8 are the same as those used in its HKFRS consolidated financial statements. Segment results represent the profit earned by/loss from each segment with certain items not included (share of result of an associate, share of results of joint ventures, finance costs, impairment losses under expected loss model on loan receivable and unallocated corporate income and expenses). This is the measure reported to the CODM for the purpose of resource allocation and performance assessment.

3. Segment information – continued

Segment revenues and results by reportable segments are presented below:

	Laminates HK\$'000 (Unaudited)	PCBs HK\$'000 (Unaudited)	Chemicals HK\$'000 (Unaudited)	Properties HK\$'000 (Unaudited)	Investments HK\$'000 (Unaudited)	Others HK\$'000 (Unaudited)	Eliminations HK\$'000 (Unaudited)	Consolidated HK\$'000 (Unaudited)

Inter-segment sales are charged on a cost-plus basis with an arm's length margin.

4. Depreciation

During the reporting period, depreciation of approximately HK\$1,115,870,000 (six months ended 30 June 2024: HK\$956,030,000) was charged in respect of the Group's property, plant and equipment.

5. Other income, gains and losses

	Six months ended 30 June	
	2025	2024
	HK\$'000 (Unaudited)	HK\$'000 (Unaudited)
Other income, gains and losses include:		
Interest income from bank balances and deposits	20,088	34,914
Interest income on entrusted loans	3,324	4,846
Government grants	60,720	53,150
(Loss) gain on fair value changes of financial assets	(19,295)	136
Others	2,812	2,489
	<u>67,649</u>	<u>95,535</u>

6. Finance costs

	Six months ended 30 June	
	2025	2024
	HK\$'000 (Unaudited)	HK\$'000 (Unaudited)
Interest on bank borrowings	470,182	631,894
Interest on lease liabilities	366	100
Less: Amounts capitalised in the construction in progress	(6,221)	(6,730)
Amounts capitalised in the properties held for development	<u>(14,037)</u>	<u>(10,005)</u>
	<u>450,290</u>	<u>615,259</u>

Bank borrowing costs capitalised include bank borrowing costs arising from the general borrowing pool which were calculated by applying a weighted average capitalisation rate of 3.40% for the six months ended 30 June 2025 (six months ended 30 June 2024: 4.92%) per annum to expenditure on qualifying assets.

7. Income tax expense

	Six months ended 30 June	
	2025	2024
	HK\$'000	HK\$'000
	(Unaudited)	(Unaudited)
The amount comprises:		
PRC Enterprise Income Tax ("EIT")	264,098	255,920
PRC Land Appreciation Tax ("LAT")	2,068	722
Hong Kong Profits Tax	1,959	10,712
Taxation arising in other jurisdictions	22,880	22,521
Withholding tax in the PRC	74,185	31,189
	<hr/>	<hr/>
	365,190	321,064
Deferred taxation	(47,250)	96,175
	<hr/>	<hr/>
	317,940	417,239
	<hr/>	<hr/>

Under the Law of the PRC on EIT (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25% for both periods.

Under the EIT Law of the PRC, withholding tax of 5%–10% is imposed on dividends declared in respect of profits earned by subsidiaries in Mainland China from 1 January 2008 onwards.

Pursuant to the EIT Law, a High-New Technology Enterprise shall be entitled to a preferential tax rate of 15% for three years since it was officially endorsed. Certain subsidiaries of the Company in the PRC obtained official endorsement as a High-New Technology Enterprise and with the expiry dates on or before 2026 (2024: 2025).

The provision of LAT is estimated according to the requirements set forth in the relevant PRC tax laws and regulations. LAT has been levied at progressive rates ranging from 30% to 60% on the appreciation of land value, represented by the excess of sales proceeds of properties over prescribed direct costs. Prescribed direct costs are defined to include costs of land, development and construction costs, as well as certain costs relating to the property development. According to the State Administration of Taxation's official circulars, LAT shall be payable provisionally upon sales of the properties, followed by final ascertainment of the gain at the completion of the properties development.

Under the two-tiered profits tax rates regime of Hong Kong Profits Tax, the first HK\$2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%. Accordingly, the Hong Kong Profits Tax of the qualifying group entity is calculated at 8.25% on the first HK\$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2 million.

The Group is operating in certain jurisdictions where the Pillar Two Rules are effective. However, as the Group's estimated effective tax rates of all the jurisdictions in which the Group operates are higher than 15%, after taking into account the adjustments under the Pillar Two Rules based on management's best estimate, the management of the Group considered the Group is not liable to top-up tax under the Pillar Two Rules.

The Group is continuing to assess the impact of the Pillar Two income taxes legislation on its future financial performance.

Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

8. Interim dividend

The Directors have resolved to declare an interim dividend of HK\$0.69 per share for the six months ended 30 June 2025 (2024: interim dividend of HK\$0.40 per share for the six months ended 30 June 2024) to the shareholders of the Company whose names appear on the register of members of the Company on Wednesday, 17 December 2025. The dividend warrants will be dispatched on or around Wednesday, 7 January 2026.

9. Earnings per share

The calculations of basic and diluted earnings per share attributable to the owners of the Company are based on the following data:

	Six months ended 30 June	
	2025	2024
	<i>HK\$'000</i>	<i>HK\$'000</i>
	(Unaudited)	(Unaudited)
Earnings for the purpose of basic and diluted earnings per share	<u>2,581,649</u>	<u>1,506,928</u>
	Number of shares	
	30 June	30 June
	2025	2024
	(Unaudited)	(Unaudited)
Weighted average number of ordinary shares for the purpose of basic earnings per share	1,108,311,736	1,108,311,736
Add: Effect of potentially dilutive ordinary shares arising from share options	<u>—</u>	<u>—</u>
Weighted average number of ordinary shares for the purpose of diluted earnings per share	<u>1,108,311,736</u>	<u>1,108,311,736</u>

The Company's certain share options can potentially dilute basic earnings per share in the future, but are not included in the calculation of diluted earnings per share because they are antidilutive for the reporting periods presented.

10. Additions to property, plant and equipment

During the reporting period, the Group had addition of approximately HK\$2,083,932,000 (six months ended 30 June 2024: HK\$1,870,284,000) on property, plant and equipment.

11. Trade and other receivables and prepayments, entrusted loans and bills receivables

	30 June 2025	31 December 2024
	<i>HK\$'000</i>	<i>HK\$'000</i>
	(Unaudited)	(Audited)
Trade receivables	8,847,083	8,123,682
Less: Allowance for credit losses	<u>(983,079)</u>	<u>(938,732)</u>
Trade receivables, net	7,864,004	7,184,950
Advance to suppliers	256,583	204,025
Entrusted loans (<i>Note</i>)	148,485	148,066
Prepayment and deposits	385,107	344,389
Value added tax recoverables	864,980	744,227
Other receivables	<u>226,696</u>	<u>214,852</u>
	9,745,855	8,840,509
Less: Non-current portion of entrusted loans (<i>Note</i>)	<u>(135,122)</u>	<u>(134,740)</u>
	<u>9,610,733</u>	<u>8,705,769</u>

As at 1 January 2024, the gross carrying amount of trade receivables from contracts with customers amounted to HK\$7,634,086,000 with allowance for credit losses of HK\$1,090,600,000.

Note: The entrusted loans of HK\$148,485,000 (31 December 2024: HK\$148,066,000) are due from certain purchasers of properties developed by the Group in the PRC through four (31 December 2024: four) commercial banks in the PRC (the “Lending Agents”). The entrusted loans carry interest at variable rates ranging from 3.60% to 4.90% (31 December 2024: 3.43% to 4.90%) per annum, payable on monthly basis and the principal will be payable on or before 2034 (31 December 2024: 2034). The purchasers of the Group’s properties has pledged to the Lending Agents the respective properties purchased. These properties are located at Kunshan, PRC.

As at 30 June 2025, entrusted loans amounting to HK\$135,122,000 (31 December 2024: HK\$134,740,000) are in respect of repayments due after 12 months from the end of the reporting period and are classified as non-current assets.

11. Trade and other receivables and prepayments, entrusted loans and bills receivables – continued

The Group allows credit period of up to 120 days (31 December 2024: 120 days), depending on the products sold to its trade customers. The following is an aging analysis of trade receivables net of allowance for credit losses based on invoice date at the end of the reporting period:

	30 June 2025	31 December 2024
	<i>HK\$'000</i>	<i>HK\$'000</i>
	(Unaudited)	(Audited)
0–90 days	6,578,634	6,101,162
91–120 days	899,166	832,632
121–150 days	277,370	163,310
151–180 days	33,257	22,168
Over 180 days	75,577	65,678
	<u>7,864,004</u>	<u>7,184,950</u>

Bills receivables of the Group are all aged within 90 days (31 December 2024: 90 days) based on invoice date at the end of the reporting period.

12. Trade and other payables and bills payables

The following is an aging analysis of the trade payables based on invoice date at the end of the reporting period:

	30 June 2025	31 December 2024
	<i>HK\$'000</i>	<i>HK\$'000</i>
	(Unaudited)	(Audited)
0–90 days	2,151,887	2,080,291
91–180 days	405,616	377,978
Over 180 days	282,786	309,435
	<u>2,840,289</u>	<u>2,767,704</u>

Bills payables of the Group related to trade payables in which the Group has issued bills to the relevant suppliers for future settlement of trade payables, which are aged within 90 days (31 December 2024: 90 days) at the end of the reporting period. Included in bills payables as at 30 June 2025 was payables for acquisition of property, plant and equipment of HK\$47,033,000 (31 December 2024: HK\$107,380,000).

BUSINESS REVIEW

On behalf of the board of directors (the “Board”), I am delighted to present to our shareholders the results of Kingboard Holdings Limited and its subsidiaries (the “Group”) for the six months ended 30 June 2025 (the “Period”). During the Period, the electronics market saw strong demand, fueled by rapid advancements in high-tech sectors such as artificial intelligence (AI). AI-enabled electronic products exhibited particularly robust demand, driving growth for the Group’s laminate and printed circuit board (“PCB”)s products. Both segments recorded year-on-year earnings growth. The Group’s investment business also posted an increased profit compared to the previous year. Through the dedicated efforts of the Kingboard team, combined with the competitive advantages of the Group’s vertically integrated business model and diversified operations, the Group achieved a net profit exceeding 2.5 billion.

During the Period, Group revenue grew by 6% year-on-year to HK\$21,608.3 million, with net profit attributable to the Company’s owners increasing by 71% to HK\$2,581.6 million. The Board has resolved to declare of an interim dividend of HK69 cents per share.

FINANCIAL HIGHLIGHTS

	Six months ended 30 June		Change
	2025 <i>HK\$'million</i>	2024 <i>HK\$'million</i>	
Revenue	21,608.3	20,415.2	+6%
EBITDA	4,771.2	3,736.0	+28%
Profit before tax	3,174.0	2,138.7	+48%
Net profit attributable to owners of the Company	2,581.6	1,506.9	+71%
Basic earnings per share	HK\$2.329	HK\$1.360	+71%
Interim dividend per share	HK\$0.69	HK\$0.40	+73%
Net asset value per share	HK\$56.4	HK\$54.3	+4%
Net gearing	32%	30%	

PERFORMANCE

Laminates Division: During the Period, the positive effects of the central government's policies for stimulating electronics demand gradually materialised, boosting consumption in the traditional electronics market. This growth was further supported by rapid development in the AI industry and continued progress in the area of electric and smart vehicles, which increased demand for laminates. The laminates market has now shifted towards small-volume, high-diversity production. In response, the division actively developed new products to meet varying customer requirements in terms of performance and cost. Growth in data centres and cloud computing drove significant increases in thick copper foil usage. The new phase of the Lianzhou facility, delivering a monthly capacity of 1,500 tonnes of copper foil, became fully operational in the first half of 2025. This expansion substantially improved the Group's cost efficiency. The Laminates Division reported an 10% increase in revenue to HK\$9,760.0 million. Reduced energy consumption, and lowered labour costs via increased automation, as a result, earnings before interest, taxes, depreciation and amortisation ("EBITDA") rose 3% to HK\$1,639.8 million.

PCBs Division: During the Period, the Group's PCB factories operated at near full capacity, supported by very strong order pipelines. This performance was driven by sustained demand for electronic products and robust growth in computing infrastructure generated by high-performance computing servers and AI technologies. Ongoing advancements in electric and smart vehicles also provide impetus to order growth. Through coordinated developments across the upstream-to-downstream industrial chain, the Group ensured stable product quality, with its products adopted by renowned international brands. Continuous product development and production efficiency improvements enabled an increase in the proportion of high-end, high-value-added products compared to the previous year, contributing to a year-on-year rise in net profit. The management team consistently refined production techniques and increased facility automation to boost efficiency and reduce costs. Consequently, segment sales grew by 11% to HK\$6,451.1 million, while EBITDA rose by 8% to HK\$1,217.0 million.

Chemicals Division: During the Period, the Group's acetic acid project in Xingtai City, Hebei Province, with a yearly capacity of 800,000 tonnes, began operations in early 2025. The plant utilises advanced low-energy carbon capture technology developed by Tsinghua University's School of Environment and achieved a daily production capacity of 2,000 tonnes by the second quarter. The Hebei acetic acid plant is projected to achieve an annual output value of RMB3 billion. Sales of the division's another key chemical product, caustic soda, remained robust, with both sales volume and revenue growing year-on-year. Consequently, the division's revenue (including inter-segment sales) rose by 2% to HK\$6,665.2 million, while EBITDA increased by 4% to HK\$460.5 million.

Property Division: Due to fewer residential property deliveries, property sales revenue fell by 76% to HK\$46.4 million during the Period. Rental income also decreased by 9% to HK\$666.7 million, primarily attributable to a general market rental downturn and rent-free periods granted for certain newly signed leases. Consequently, the Property Division's revenue decreased by 22% to HK\$713.1 million, with EBITDA down by 66% to HK\$189.7 million after deducting an impairment loss provision of approximately HK\$323.5 million for the unsold residential properties held in the East China region.

LIQUIDITY AND CAPITAL RESOURCES

The Group's consolidated financial and liquidity position remained robust. As at 30 June 2025, Group net current assets and current ratio (i.e., current assets divided by current liabilities) were HK\$21,986.1 million (31 December 2024: HK\$19,989.8 million) and 2.02 (31 December 2024: 2.02) respectively.

The net working capital cycle increased to 75 days, as at 30 June 2025, from 71 days, as at 31 December 2024, on the following key metrics:

- Inventories, in terms of stock turnover days, were 44 days (31 December 2024: 45 days).
- Trade receivables, in terms of debtor turnover days, were 66 days (31 December 2024: 61 days).
- Trade and bills payable (excluding bills payable for property, plant and equipment), in terms of creditor turnover days, were 35 days (31 December 2024: 35 days).

The Group's net gearing ratio (ratio of bank borrowings net of bank balances and cash to total equity) was approximately 32% (31 December 2024: 28%). The ratio of short-term to long-term bank borrowings stood at 44%:56% (31 December 2024: 41%:59%). During the Period, the Group invested approximately HK\$1,900 million in new production capacity and HK\$200 million in property construction expenses. In June 2025, the Group completed a HK\$8-billion, five-year, sustainability-linked syndicated loan. With an initial target of raising HK\$6 billion, the facility received overwhelming response from the market, with final commitments from 26 international, mainland Chinese and local banks. Total subscriptions exceeded the initial target by more than 2.8 times and the facility was upsized to HK\$8 billion. The successful completion of the syndicated loan reflected the banking market's confidence in the Group's stable financial position and business prospects. It was also a testament to the Group's longstanding commitment to creating long-term value through sustainable development. Meanwhile, the Group remains committed to a prudent financial management policy. Throughout the Period, the Group did not have any material foreign exchange exposure. The Group's revenue, mostly denominated in Hong Kong dollars, RMB and US dollars, was fairly matched with the currency requirements of its operating expenses.

SUSTAINABLE DEVELOPMENT

Aligning with the national goals for energy conservation and emissions reduction, the Group has adopted a professional and systematic approach to installing distributed solar photovoltaics in all buildable areas within its facilities. As at 30 June 2025, the Group had invested a total of HK\$900 million in these initiatives. In the first half of 2025, these installations generated 100 million kWh of green electricity, yielding energy savings equivalent to 27,000 tonnes of standard coal and reducing carbon dioxide emissions by 60,000 tonnes. This translated into electricity cost savings of HK\$90 million based on current market rates. Furthermore, by 30 June 2025, the Group had invested approximately HK\$250 million in thermal energy recovery facilities. In the first half of 2025, these facilities reduced carbon dioxide emissions by 37,000 tonnes, equivalent to energy savings of 15,000 tonnes of standard coal and cost savings of HK\$95 million. Combined with cumulative savings of HK\$480 million as at 31 December 2024, the Group had achieved total savings of HK\$575 million by 30 June 2025. These initiatives will deliver sustained long-term benefits to the Group.

The Hebei acetic acid project employs advanced, energy-efficient carbon capture technology developed by Tsinghua University's School of Environment, capturing and recycling 200,000 tonnes of carbon dioxide annually. All captured carbon dioxide is reused within the acetic acid production system, achieving annual energy savings equivalent to 80,000 tonnes of standard coal. The project captures carbon dioxide from flue gases in its coal-fired plant and is currently the largest initiative of its kind in the national chemical industry. The technology has been certified to meet the highest international standards. This initiative supports the Group's green transformation and underscores its full commitment to achieving all its environmental, social and governance (ESG) goals.

PROSPECTS

Laminates Division: Entering 2025, robust demand from the electronics market, driven by the rise of AI technologies, has fueled the vigorous growth of multiple industry chains, including cloud data centres, robotics, autonomous driving, and smart wearable devices. The continuous upgrading of high-speed networks is further stimulating demand for electronic products. Benefiting from vertical integration and economies of scale, the Group is able to offer competitive product pricing. And through lean production, and a market-led and R&D-supported strategy, the Group is now expanding its market share of mid-to-high-end products, including high-frequency, high-speed, mid-to-high heat-resistant, halogen-free, and prepreg materials. The Group has also upgraded its laminates R&D centre, equipping it with cutting-edge technology. The centre has successfully developed various high-frequency, high-speed products for GPU motherboards in AI servers. Through coordinated development across its vertical industrial chain, the Group has engineered HVLP3 copper foil for AI servers and ultra-thin VLP copper foil for IC packaging substrates. By collaborating closely with premium customers, the Group has secured product certification among end-users. Its high-end laminate products have been certified for use by several world-leading Tier 1 automotive component manufacturers and key domestic and international telecommunications clients, positioning the Group to comprehensively meet the diverse needs of downstream customers in the future. Low Dk fibreglass yarn, used in high-end telecommunications, particularly for 5G, 6G communications, and AI servers, is currently in high demand with supply falling short. To address this, the first kiln for producing Low Dk fibreglass yarn at the Group's facility in Qingyuan City, Guangdong Province, already commenced production in the first half of 2025. Additional three kilns will begin producing Low Dk fibreglass yarn in the second half of 2025, including higher-value-added, second-generation Low Dk fibreglass yarn to meet the high-performance computing requirements driven by 5G, 6G communications and AI deployment. In 2026, the Group will construct a specialty fibreglass yarn factory within the Qingyuan industrial park, equipped with six kilns to producing Low Dk, Low CTE, Quartz fibreglass yarn, to expand its market share of high-end products and further strengthen its core competitiveness. Additionally, a project in Shaoguan City, Guangdong Province, with an annual capacity of 70,000 tonnes of electronic-grade fibreglass yarn and 96 million metres of electronic-grade fibreglass fabric, is scheduled to begin production in the second half of 2026. This project will alleviate capacity bottlenecks for downstream products, meet the growing demand for laminates and related electronic products, and reinforce Kingboard's leading position in the global laminates market, enabling it to maintain a competitive edge in a fiercely contested market. In 2024, the Group expanded its laminates production capacity in Thailand by 400,000 sheets per month, reaching a monthly capacity of 1 million sheets by the end of the year. The Group plans to further increase capacity in Thailand in two phases, each adding a further 400,000 sheets, to achieve upon completion a total monthly capacity of 1.8 million sheets. As the largest and most experienced laminate producer in Southeast Asia, the Group's capacity expansion is designed to meet the rising demand from overseas customers, including the international growth initiatives of PCB companies under Kingboard Holdings Limited.

PCBs Division: Driven by ongoing digital and intelligent transformation, the PCB industry is rapidly shifting toward high-performance, high-frequency, and green manufacturing. The Group will continue to actively develop higher-layer-count and advanced high-density interconnect (HDI) PCBs. Possessing superior craftsmanship, comprehensive certifications, and excellent quality capabilities, the Group holds multiple advantages in sectors such as automotive, telecommunications, and consumer electronics. The rise of Large Language Models (LLMs) has driven a surge in data processing demands, accelerating iterative hardware operations for servers and switches, injecting new vitality into the PCB industry. At the same time, the proliferation of electric vehicles has led to increased complexity in electronic control systems, significantly boosting the usage of PCBs. Kingboard Group has equipped itself with technologies related to PCB manufacturing for 6G wireless communications, AI servers, low-orbit satellites, 4D imaging mmWave radar, automotive high-end common control units, high-voltage fast-charging systems for new energy vehicles, and intelligent robots. The division will continue to strengthen the core competencies of its PCB brands, including Elec & Eltek, Techwise Circuits and Express Electronics. A project to expand monthly PCB production capacity by 1.2 million square feet in Thailand is set to commence operations in the second half of 2026. In Vietnam, a project to increase monthly PCB production capacity by 1.1 million square feet, with the first phase of 600,000 square feet per month, is expected to start production in the first half of 2026. The capacities to meet growing overseas customer demand and establish a broader Kingboard PCB network with greater industry penetration. The Group remains highly confident in the future prospects of its PCB business.

Chemicals Division: Strengthening environmental protection and promoting green transformation remain key national priorities for 2025. The Chemicals Division will spare no effort in ensuring production safety and compliance with emission standards while focusing on enhancing production efficiency and optimising resource use to reduce energy consumption. The caustic soda industry, a core product of the Chemicals Division, continues to enjoy robust market demand. The Group is developing a caustic soda project with an annual capacity of 340,000 tonnes in Beihai City, Guangxi, with the first phase of 200,000 tonnes set to commence production in the first half of 2026. Located in an industrial park with sufficient customer demand to absorb the capacity, all caustic soda products can be delivered via short-haul transport or pipelines, reducing transportation costs. Moreover, the average selling price of caustic soda in this region is higher than that in Hengyang, offering a distinct market advantage and supporting the Group's continued expansion of its chemical business. The Chemicals Division remains committed to harnessing technological innovation to drive enterprise upgrading and green, low-carbon, high-quality development.

Property Division: Having made no additions to its land reserves over the past six years, the division will continue to pursue a prudent business strategy. Certain residential projects in eastern China have successfully adopted a leasing-over-sale strategy, with the Puan Garden project in Huaqiao, Kunshan, achieving a 99% rental occupancy rate, generating cash inflows for the Group. The Group's investment properties, distributed across the eastern China, southern China, Hong Kong and United Kingdom, effectively diversify risk, with rental income providing a stable and consistent cash flow for the Group.

APPRECIATION

On behalf of the Board, I would like to take this opportunity to express my heartfelt gratitude to the Group's shareholders, clients, banks, management, and staff for their unwavering support during the Period.

CLOSURE OF REGISTER OF MEMBERS

The register of members of the Company will be closed from Tuesday, 16 December 2025 to Wednesday, 17 December 2025 (both days inclusive) during which period no transfers of shares will be registered. In order to qualify for receiving the interim dividend, the Company's shareholders are reminded to ensure that all transfers of shares, accompanied by the relevant share certificates and transfer forms, must be lodged with the Company's branch share registrar in Hong Kong, Tricor Investor Services Limited, at 17/F, Far East Finance Centre, 16 Harcourt Road, Hong Kong for registration not later than 4:00 p.m. on Monday, 15 December 2025.

PURCHASE, SALE OR REDEMPTION OF COMPANY'S LISTED SECURITIES

Neither the Company nor any of its subsidiaries had purchased, sold or redeemed any of the Company's listed securities during the six months ended 30 June 2025.

AUDIT COMMITTEE

The Audit Committee has reviewed with the management the accounting principles and practices adopted by the Group and discussed auditing, internal control and financial reporting matters including the review of the unaudited interim financial statements of the Group for the six months ended 30 June 2025.

COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

The Company had adopted and complied with the code provisions as set out in the Corporate Governance Code under Appendix C1 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") throughout the six months ended 30 June 2025.

COMPLIANCE WITH THE MODEL CODE

The Company has adopted a code of conduct regarding securities transactions by Directors on terms no less exacting than the required standard of the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix C3 to the Listing Rules (the “Model Code”). Having made specific enquiry of all Directors, each Director had confirmed that he or she has complied with the required standard set out in the Model Code and the code of conduct regarding Director’s securities transactions adopted by the Company throughout the six months ended 30 June 2025.

By Order of the Board
Kingboard Holdings Limited
Cheung Kwok Wing
Chairman

Hong Kong, 25 August 2025

As at the date of this announcement, the Board consists of Mr. Cheung Kwok Wing, Mr. Chang Wing Yiu, Mr. Cheung Kwong Kwan, Mr. Ho Yin Sang, Mr. Cheung Ka Shing, Ms. Ho Kin Fan and Mr. Chen Maosheng, being the executive Directors and Messrs. Cheung Ming Man, Chong Kin Ki, Chan Wing Kee and Stanley Chung Wai Cheong being the independent non-executive Directors.
