Property development business (Continued)

The gross profit (“GP”) margin of property development business was decreased from 35% for the six months ended 30 June 2024 to 18% for the six months ended 30 June 2025. It was mainly because of 50% of the total revenue generated from the sales of commercial units, which contributed GP ratio of 34% to the Group, while it was being offset by the sales of residential units with lower GP ratio. As a result, the overall GP margin decreased as compared to the corresponding period in 2024.

Selling and distribution expenses

Selling and distribution expenses for the six months ended 30 June 2025 were approximately 56% lower than the corresponding period in 2024, which was mainly due to less promotional and marketing activities for property projects launched during the six months ended 30 June 2025.

Administrative expenses

Administrative expenses for the six months ended 30 June 2025 decreased by approximately 54% as compared to the corresponding period in 2024, which was mainly due to decreases in salaries and professional fee as a result of effective cost control measures implemented within the Group as compared with the corresponding period in 2024.

Net finance costs

Net finance costs	(9,500)	(17,453)

Net finance costs for the six months ended 30 June 2025 was lower than the corresponding period in 2024, which was mainly due to a decrease in interest rate for loans and borrowings, and as a result, a decrease in interest expenses during the six months ended 30 June 2025.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW (Continued)

Taxation

Tax expenses for the six months ended 30 June 2025 amounted to approximately RMB41,000 (2024 tax credit: RMB21,383,000), which was mainly attributable by deferred tax expenses of approximately RMB41,000 as a result of decrease in profit during the six months ended 30 June 2025.

Review of financial position

The decrease in investment of joint ventures of RMB110 million was mainly due to the transfer of 51% equity interest in Hanfang Yaoye to Feng Chaoling based on the court order during the six months ended 30 June 2025.

The increase of trade and other receivables of approximately RMB89.8 million was also mainly due to the recognition of receivables from Feng Chaoling based on the court order of approximately RMB105.6 million during the six months ended 30 June 2025.

FINANCIAL RESOURCES AND LIQUIDITY

As at 30 June 2025, the Group's net current assets amounted to approximately RMB1,120.4 million, which increased by RMB90.8 million as compared to 31 December 2024 because of an increase in development properties and prepaid costs of approximately RMB12.5 million and trade and other receivables of approximately RMB89.8 million and decrease in trade and other payables of approximately RMB28.0 million, partially offset by an increase in loans and borrowings (current) of approximately RMB4.9 million and contract liabilities of approximately RMB11.0 million. MANAGEMENT DISCUSSION AND ANALYSIS

PROSPECTS

Looking ahead to 2025, China's macro-economy is anticipated to maintain steady growth. Policy tailwinds, including the relaxation of purchase and lending restrictions across various cities, followed by the introduction of "three arrow" measures such as guaranteeing the delivery of properties, credit, debt issuance and equity financing, which are all favourable to real estate enterprises. The property market and investment sentiment is expected to gradually stabilise and recover. This aligns with the long-term guidance established at the 20th National Congress, emphasizing the principle of "housing is for living in and not for speculation". While urbanization continues and generates sustained demand, and the economies of third and fourth tier cities are expected to grow, the development of real estate is expected to become the focus of the market. The Group will actively accelerate its de-stocking of completed properties while exploring feasibility of assets revitalisation, including but not limited to changing of property use and sale of properties in its entirety.

The Group has applied the same accounting policies and methods of computation in its interim consolidated financial statements as in its 2024 annual financial statements, except for the following new standards and amendments which apply for the first time in 2025. However, not all are expected to impact the Group as they are either not relevant to the Group's activities or require accounting which is consistent with the Group's current accounting policies.

4. SEGMENT INFORMATION (Continued)

II. Clean room equipment, heat ventilation and air-conditioning products, and air purification integrated solutions (“Equipment manufacturing”)

A clean room provides an environment where the humidity, temperature and particles in the air are precisely controlled. Clean room equipment includes fan filter units, air showers, clean booths, pass boxes, clean hand dryers and clean benches, amongst others. Heat ventilation and air-conditioning products are essentially deflection grilles and air diffusers installed to channel and regulate the airflow into the environment within the building to ensure an even distribution of air within the confined space. Air purification equipment (also referred to as air cleaners) are electrical devices that remove solid and gaseous pollutants from the air such as formaldehyde and PM2.5 which may pose adverse health risks that include breathing difficulties, asthma and allergies. Through the function of air filters or sterilising systems built into each air purification equipment, the concentration of dust, contaminants, fine particles and volatile organic compounds in the air are reduced to the benefit of individuals within the immediate vicinity. Integrated with air purification systems, other solutions such as smart home equipment with integrated security system implementation services, renovation materials and supply and installation of smart door and window systems have been included in this segment.

The Group ceased Equipment manufacturing segment during the year ended 31 December 2024 and reclassified as discontinued operation for the period ended 30 June 2025 and 2024.

The Group’s Executive Chairman (Chief Operating Decision Maker) monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which in certain respects, as explained in the table below, is measured differently from operating profit or loss in the condensed consolidated financial statements.

Income taxes are managed on a group basis and are not allocated to operating segments.

Transfer prices between operating segments are on an arm’s length basis in a manner similar to transactions with third parties.

There are no inter-segment sales within the Group.

7. TAXATION (Continued)

Singapore and PRC income tax liabilities are calculated at the applicable rates in accordance with the relevant tax laws and regulations in Singapore and the PRC.

Pursuant to the PRC Enterprise Income Tax Law promulgated on 16 March 2007, the enterprise income tax for both domestic and foreign-invested enterprises have been unified at 25% effective from 1 January 2008.

According to the Implementation Rules of the Corporate Income Tax Law of PRC, the Company's subsidiaries in the PRC are levied a 10% withholding tax on dividends declared to their foreign investment holding companies arising from profit earned subsequent to 1 January 2008. In respect of dividends that are subject to the withholding tax, provision for withholding tax is recognised for the dividends that have been declared, and deferred tax liability is recognised for those to be declared in the foreseeable future.

Certain subsidiaries within the Group are paying corporate income tax on a deemed tax basis as agreed with the local tax authorities. The tax obligations are determined by applying the corporate income tax rate on the deemed profit generated. The deemed profit generated is calculated based on a deemed profit rate on the revenue generated by the subsidiaries.

Land appreciation tax ("LAT") is levied on properties in the PRC developed for sale by the Group at progressive rates ranging from 30% to 60% on the appreciation of land value, which under the applicable regulations is calculated based on the proceeds from the sale of properties less deductible expenditures which include lease charges of land use rights, borrowing costs and all property development expenditures.

The provision for LAT is based on management's best estimates according to the understanding of the requirements set forth in the relevant PRC tax laws and regulations. The actual LAT liabilities are subject to the determination by the tax authorities upon the completion of the property development projects. The Group has not finalised its LAT calculation and payments with the tax authorities for some of its property development projects. The final outcome could be different from the amounts that were initially recorded, and any differences will impact on the LAT expenses and the related provision in the period in which the difference realises.

23. DISPOSAL OF JOINT VENTURE

In prior year, Henan Weiye Construction Development Group Co., Ltd. (“Henan Weiye”) entered into a collaboration agreement (the “Collaboration Agreement”) with the equity owners of Hanfang Yaoye, Feng Chaoling (馮朝嶺), an Independent Third Party, in connection with the development of the land use rights in respect of a land parcel located in Zhengzhou City, Henan Province held by Hanfang Yaoye.

Pursuant to the Collaboration Agreement, Henan Weiye shall acquire 51% equity interests in Hanfang Yaoye. The ownership of such equity interests serves as security for the transfer of the land use rights to another company for the purpose of joint development of the land by the parties.

Subsequent to entering into the Collaboration Agreement, the Group sued Feng Chaoling for breach of the Collaboration Agreement. The Group won the respective court case and appealed from Feng Chaoling in final judgement in Henan Intermediate People’s Court. The final judgement in this case is the monetary claims against the shareholder at the amount of approximately RMB160,000,000 and buy back the 51% shareholding of Hanfang from the Group.

On February 2025, the Group transferred the 51% equity interest in Hanfang Yaoye to Feng Chaoling pursuant to the above court order. Thereafter the Group ceased to have any equity interest in Hanfang Yaoye. However, the Group has not yet received the Sum from Feng Chaoling. The Group has continued to seek legal advice and take appropriate actions to enforce the court order, including successfully obtaining the court order to freeze the assets of Feng Chaoling (including but not limited to his equity interest in Hanfang Yaoye).

As a result of the above transfer of the equity interest in Hanfang Yaoye, the Group no longer have any equity interest in Hanfang Yaoye, and hence, Hanfang Yaoye ceased to be accounted for as a joint venture of the Group for the period ended 30 June 2025. On the other hand, based on the court order the Group recognises a financial asset due from Feng Chaoling, less any expected credit loss.

On 31 January 2024, the Group disposed its entire interests in Hubei Nonggu Zhonglenglian Investment Co., Ltd (“Nonggu zhonglenglian”) at a cash consideration of RMB3,169,700. Nonggu zhonglenglian was engaged in trading of food, storage service, investment holding, technical consultation research and development technology in the PRC. The net equity interest of Nonggu zhonglenglian at the date of disposal was approximately RMB2,253,000. A gain of approximately RMB916,700 was resulted from the disposal of Nonggu zhonglenglian.
