The board (the "Board") of directors ("Director(s)") of Kelfred Holdings Limited (the "Company") is pleased to present the unaudited condensed consolidated results of the Company and its subsidiaries (collectively, the "Group" or "we") for the six months ended 30 June 2025 (the "current period"), together with the comparative figures for the corresponding period in 2024 (the "previous period").

#### **BUSINESS REVIEW AND OUTLOOK**

During the six months ended 30 June 2025, the Group continued to be engaged in the manufacture and sale of eyewear products. We have two major production bases in Shenzhen and Jiangxi, the People's Republic of China (the "PRC"). The Group produces and sells a wide range of spectacle frames and sunglasses mainly through original design manufacturing ("ODM") and original equipment manufacturing ("OEM") business models. It offers integrated and customised services which include product design and development, raw materials procurement, production, quality control, packaging and delivery. In addition to the traditional OEM and ODM business models, the Group also offers its original brand manufacturing ("OBM") products under the brand "Miga". Leveraging on over 30 years of experience in the eyewear industry, the Group prides itself on its broad network of renowned and trusted customers worldwide (who are primarily international eyewear retailers, trading companies and licensed brand owners). It has produced quality eyewear products under its customers' designated brand names and sold the same to over 35 countries in the past few years, among which Europe accounted for the largest market of the Group.

For the six months ended 30 June 2025, the Group recorded a revenue of approximately HK\$242.5 million, representing an increase of approximately 22.8% as compared to the six months ended 30 June 2024, generated from sales of eyewear products.

The global eyewear market is driven by increasing demand for fashion. However, the economic landscape remains uncertain as when it moves into the second half of 2025 and looking ahead to 2026, mainly due to escalating conflicts and geopolitical tensions.

The Group remains vigilant in monitoring market trends, consumer behavior and regulatory developments. The Group will adapt its business strategies accordingly to seize emerging opportunities and mitigate potential risks. The Group recognizes the importance of sustainability and will continue to integrate this principle into the business practices. Besides, the Group will continue to implement cost saving measures, streamline our operations and optimize our supply chain to improve our financial performance.

While the eyewear business will continue to remain as the Group's core business, we are continuously exploring potential opportunities to achieve diversification in the business and income streams of the Group and mitigate the impact of any potential risks and uncertainties.

#### **FINANCIAL REVIEW**

#### Revenue

For the six months ended 30 June 2025, the Group's revenue increased to approximately HK\$242.5 million by approximately HK\$45.1 million or 22.8% as compared to approximately HK\$197.4 million for the six months ended 30 June 2024. The increase was primarily attributable to overall increase in the exported sales volume of spectacle frame and sunglasses driven by higher sales orders.

#### **Cost of sales**

The cost of sales of the Group increased by approximately HK\$31.7 million or 17.7%, from approximately HK\$179.6 million for the six months ended 30 June 2024 to approximately HK\$211.3 million for the six months ended 30 June 2025. Such increase was mainly attributable to the increase in sales volume, offset by the implementation of cost saving measures.

#### Gross profit and gross profit margin

Gross profit increased to approximately HK\$31.2 million for the six months ended 30 June 2025, by approximately HK\$13.4 million, or 75.3%, from approximately HK\$17.8 million for the six months ended 30 June 2024. The overall gross profit margin improved from approximately 9.0% for the six months ended 30 June 2024 to 12.9% for the six months ended 30 June 2025. The significant increase in gross profit and gross profit margin was mainly attributable to increase in sales order and the implementation of cost saving measures.

#### Other incomes, gains and losses

Other incomes, gains and losses decreased by approximately HK\$4.8 million from approximately HK\$6.5 million for the six months ended 30 June 2024 to approximately HK\$1.7 million for the six months ended 30 June 2025. Such decrease was primarily due to the exchange losses resulting from the appreciation of Renminbi ("**RMB**") for the current period, in contrast with the exchange gains resulting from the depreciation of RMB for the previous period.

#### **Selling and distribution expenses**

Selling and distribution expenses increased from approximately HK\$5.4 million for the six months ended 30 June 2024 to approximately HK\$7.2 million for the six months ended 30 June 2025, by approximately HK\$1.8 million or 33.3%. Such increase was primarily due to the increase in advertising and promotion expenses.

#### Administrative and other operating expenses

Administrative and other operating expenses decreased by approximately HK\$2.9 million or 9.5%, from approximately HK\$30.5 million for the six months ended 30 June 2024 to approximately HK\$27.6 million for the six months ended 30 June 2025, primarily due to the decrease in staff costs.

#### **Finance costs**

The Group's finance costs increased by approximately HK\$0.6 million or 66.7%, to approximately HK\$1.5 million for the six months ended 30 June 2025 as compared to approximately HK\$0.9 million for the six months ended 30 June 2024. The increase was primarily due to more utilisation of factoring of trade receivables of the Group as a whole as compared to the previous period.

#### Income tax (expense)/credit

The Group recorded income tax expense of approximately HK\$1.3 million for the six months ended 30 June 2025, compared to income tax credit of approximately HK\$0.2 million for the six months ended 30 June 2024, primarily due to the turnaround from temporary loss for the previous period to temporary assessable profit for the current period.

#### Loss for the period

As a result of the foregoing, the Group recorded a reduction in the net loss by approximately HK\$7.6 million or 61.8%, from approximately HK\$12.3 million for the previous period, to approximately HK\$4.7 million for the current period, primarily attributable to the improvement in gross profit generated from sale of eyewear products due to increase in sales order and the implementation of cost saving measures during the current period, offset by the exchange losses resulting from the appreciation of RMB for the current period, in contrast with the exchange gains resulting from the depreciation of RMB for the previous period.

#### **FINANCIAL POSITION**

As at 30 June 2025, the Group's total assets amounted to approximately HK\$245.6 million (31 December 2024: HK\$282.9 million) with net assets amounting to approximately HK\$156.4 million (31 December 2024: HK\$156.4 million). As at 30 June 2025, gearing ratio (total debts divided by the total equity) of the Group was approximately 5.8%, representing a decrease from that of approximately 8.0% as at 31 December 2024. Net debt to equity ratio (net debt, being its total debts net of bank and cash balances, divided by total equity) of the Group was not applicable due to a net cash position of the Group as at 30 June 2025 and 31 December 2024. As at 30 June 2025, current ratio of the Group was approximately 2.5 times, representing an increase of approximately 25.0% as compared to that of approximately 2.0 times as at the end of 2024. As at 30 June 2025, quick ratio of the Group was approximately 1.6 times, representing an increase of approximately 23.1% as compared to that of approximately 1.3 times as at the end of 2024.

During the six months ended 30 June 2025, the net assets and all of the above financial ratios remained stable or enhanced, mainly due to the improvement of the Group's operating income.

## LIQUIDITY AND FINANCIAL RESOURCES

The Group adopts a balanced approach to cash and financial management to ensure proper risk control, the lowering of costs of funds and to maintain an optimal level of liquidity that can meet its working capital needs and sustain the business at a healthy level, and implementing various growth strategies. The Group finances its operations and growth primarily through cash generated from operations, bank loans and finance lease arrangements.

As at 30 June 2025, the Group had bank and cash balances totalling approximately HK\$29.6 million, an increase by approximately HK\$1.8 million as compared to approximately HK\$27.8 million as at 31 December 2024, mainly attributable to the net cash generated from operating activities, offset by the purchase of property, plant and equipment and lease payments during the six months ended 30 June 2025.

Any unexpected disruption to the production bases due to power or water supply failure, machinery breakdown or other factors may cause delay or temporary suspension of the production and may make us unable to deliver the products to customers on time, leading to potential loss of customer confidence and reputation.

#### Market risk

As we rely on marketing and sales of products overseas, we are exposed to market risks including (i) global economic downturn in overseas markets which affect general consumer confidence; (ii) exchange rate fluctuation in foreign currencies; (iii) trade barriers; (iv) increased costs associated with understanding the overseas market trend and maintaining overseas marketing and sales activities; and (v) exposure to local economic, political, social and labour conditions in the overseas markets.
