Application for Listing

Application will be made to the Listing Committee of the Stock Exchange for the listing of, and permission to deal in, the Placing Shares on the Stock Exchange.

RANKING OF THE PLACING SHARES

The Placing Shares will rank, upon allotment and issue, pari passu in all respects with each other, among themselves and with the other H Shares in issue on the date of allotment and issue of the Placing Shares.

GENERAL MANDATE TO ISSUE THE PLACING SHARES

Under the General Mandate, the Board is authorised to allot and issue up to 15,897,543 H Shares. Up to the date of this announcement, 1,730,000 Shares have been allotted and issued under the General Mandate. As such, the General Mandate is sufficient for allotment and issue of the maximum of 1,994,800 Placing Shares. The Board has approved the Placing under the General Mandate and the issue of the Placing Shares is not subject to the approval of the Shareholders.

REASONS FOR THE PLACING AND USE OF PROCEEDS

The Company is a leading hydrogen energy storage and transport equipment manufacturer in China. The Company develops and manufactures hydrogen energy core equipment used in the entire industrial value chain of hydrogen energy, which consists of its production, storage, transportation, refuelling and use.

The gross proceeds from the Placing are expected to be approximately HK\$100.00 million. The net proceeds from the Placing (after deducting all fees, costs and expenses properly incurred by the Company (including without limitation, the Placing Agent's commission, the Stock Exchange trading fee, the SFC transaction levy and the AFRC transaction levy) to be borne by the Company, and other expenses incurred by the Company, in connection with the Placing) are expected to be approximately HK\$98.49 million. The net Placing Price, after deducting such fees, costs and expenses, is expected to be approximately HK\$49.37.

The Company presently intends to use the net proceeds from the Placing as to (i) approximately 72% for working capital and general corporate purposes to support the Group's business operation and growth, including but not limited to (a) payment of salaries, social insurance contributions, housing provident fund and other employee-related expenses, (b) payments to suppliers and service providers, and (c) other operating expenses; (ii) approximately 20% for repayment of amounts outstanding under existing credit facilities; and (iii) approximately 8% for financing investments and cooperation in hydrogen projects in the PRC and overseas. Such net proceeds from the Placing are anticipated to be fully utilized by December 31, 2027.

As disclosed in the circular of the Company dated July 29, 2025 in relation to the issuance of warrants and warrant shares by the Company (the "**Warrants Issuance**"), the Company has been actively engaged in preliminary collaborations on approximately 7 hydrogen projects across multiple geographies, including China, Australia, Morocco, the United Arab Emirates and Malaysia. These initiatives represent a diverse and strategically positioned portfolio, with potential aggregate investments of over HK\$600 million as the projects progress and mature in the coming two years.

In addition, the Company has also identified and explored other promising overseas hydrogen projects in Egypt and Brazil on investments in integrated hydrogen production and refueling demonstration stations and water electrolysis hydrogen equipment manufacturing plant with an aggregated investment amount of approximately USD20 million, equivalent to approximately HK\$156 million. Such hydrogen projects are at preliminary stage and the Company's ongoing investment and expansion, the aforementioned funding needs represent only a present scope of identified opportunities and conservative estimate of investment amounts and are expected to grow as the Company continues to promote such hydrogen projects and identifies further opportunities in promising hydrogen energy investment projects and their development.

Considering that (i) the funding gap resulting from the reallocation of HK\$78.1 million in net proceeds from the Global Offering and (ii) the warrants have a term of 18 months, the Directors considered that the Placing would be in the interests of the Company to raise additional equity funding to broaden its shareholder base, strengthen the Group's capital base and enhance its financial position and net assets base for long-term development and growth.

The Directors (including the independent non-executive Directors) consider that the Placing Price and the terms and conditions of the Placing Agreement (including the Placing Agent's commission) are fair and reasonable and are in the interests of the Company and the Shareholders as a whole.
