China's Lottery Market

During the reporting period (second half of 2024 to first half of 2025), China's lottery market demonstrated robust development. Particularly in the first half of 2025, national lottery sales revenue reached approximately RMB317.9 billion, setting a new historical record for the same period. The strong performance of the lottery market reflects sustained high consumer enthusiasm for lottery purchases. As an important source of government non-tax revenue, the growth in lottery public welfare funds will directly benefit various public welfare sectors, including social welfare and sports development.

According to data released by the Ministry of Finance, from July 2024 to June 2025, national lottery sales reached RMB632.862 billion, representing an increase of RMB18.587 billion year-on-year, up by 3.0%. Specifically, welfare lottery organizations recorded sales of RMB210.047 billion, a year-on-year increase of RMB403 million, or 0.2% growth. While sports lottery organizations achieved sales of RMB422.815 billion, an increase of RMB18.185 billion year-on-year, or 4.5% growth. Regarding various lottery product types, from July 2024 to June 2025, Lotto ("Lotto") sales reached RMB178.132 billion, a year-on-year decrease of 2.4%. Paper-based Scratch Card ("PSC") sales reached RMB120.430 billion, a year-on-year decrease of 8.5%. Single Match Games ("SMG") sales reached RMB293.145 billion, a year-on-year increase of 13.4%. KENO type Lottery ("KENO") sales reached RMB41.154 billion, a year-on-year decrease of 1.4%. The sales of Lotto, SMG, PSC and KENO accounted for 28.1%, 46.3%, 19.0%, and 6.5% of total lottery sales, respectively.

China's Ecotourism Market

Since 2025, China's tourism industry has maintained steady growth in market size, yet with notable divergence in growth rates and structural trends.

Scale and Growth Rate in 2025: Total market size is expected to exceed RMB7.3 trillion (2024: RMB5.75 trillion), representing a year-on-year increase of approximately 8.7%. Number of tourists: Expected to reach 6.07 billion (2024: 5.615 billion), reflecting an 8.1% year-on-year growth. Consumption Characteristics: Per-capita consumption growth slowed to 5%–6% (first half of 2025: RMB960), indicating a trend toward rationalized spending behavior.

中國彩票市場

回顧期內(2024年下半年至2025年上半年),中國彩票市場發展良好。尤其是2025年上半年,全國彩票銷售收入達到約人民幣3,179億元,刷新了歷史同期最高紀錄。彩票市場的強勁表現反映出消費者購彩熱情持續高漲,彩票公益金作為重要的政府非稅收入來源,其規模增長將直接惠及社會福利、體育事業等多個公益領域。

據財政部公佈的數據,2024年7月至2025年6月,全國共銷售彩票人民幣6,328.62億元,同比增加人民幣185.87億元,增長3.0%。其中,福利彩票機構銷售人民幣2,100.47億元,同比增加人民幣4.03億元,增長0.2%;體育彩票機構銷售人民幣4,228.15億元,同比增加人民幣181.85億元,增長4.5%。各類型彩票產品方面,2024年7月至2025年6月,樂透數字型彩票銷售人民幣1,781.32億元,同比下降2.4%;即開型彩票銷售人民幣1,204.30億元,同比下降2.4%;即開型彩票銷售人民幣2,931.45億元,同比下降1.4%。樂透數字型、競猜型、即開型、基諾型彩票銷售量分別佔彩票銷售總量的28.1%、46.3%、19.0%、6.5%。

中國生態旅遊市場

2025年以來,中國旅遊行業市場規模延續穩健增長,但增速與結構呈現顯著分化。

2025年規模與增速:預計總規模突破人民幣7.3萬億元(2024年:人民幣5.75萬億元),同比增長約8.7%;出遊人次:達60.7億人次(2024年:56.15億人次),同比增長8.1%;消費特徵:人均消費增速放緩至5%-6%(2025年上半年:人民幣960元),反映消費理性化趨勢。

Regional and Structural Opportunities: Regional growth shows divergence, with eastern regions focusing on quality upgrades: Fujian and Shanghai are prioritizing high-value-added sectors (immersive experiences, international hubs), targeting RMB750 billion in cultural and tourism value-added output. Central and western regions are expanding capacity: Sichuan plans to achieve RMB2 trillion in tourism spending by 2027, while Xinjiang aims to exceed RMB1 trillion in cultural, tourism, and sports revenue by 2030. Niche destinations include Hainan's marine tourism (targeting RMB40 billion by 2027) and Guiyang's summer resort and residency programs (targeting 350,000 visitors by 2027). Inbound Tourism Recovery: Inbound tourism is recovering, with a projected 156 million inbound tourists in 2025. Challenges Amid Opportunities: Rationalized consumption patterns are compressing profit margins: per-capita spending growth (15.2%) lags behind visitor growth (20.6%), while scenic spots' reliance on ticket-based revenue remains unresolved.

Overall, the tourism market will demonstrate characteristics of "aggregate growth with structural divergence": total scale will exceed RMB8 trillion, but the growth momentum will shift from "volume expansion" to "value deepening". Enterprises must focus on three strategic directions: (1) Deepening high-end customization and county-level cost-effective markets, aligning with the demands of elderly and Generation Z; (2) Technological efficiency enhancement: Increasing the proportion of digital investment through AI+ to resolve operational bottlenecks (Smart tourism represents a critical future development direction for the industry. Enterprises should amplify investments in Al-quided tours, VR scenic experiences, and intelligent itinerary planning to promote digital transformation and intelligent upgrading); and (3) Policy alignment: Capitalizing on green finance, land-use innovation, and inbound visa-free policies (Starting this year, the Ministry of Commerce will take the lead in implementing actions to improve the quality of service consumption and benefit the people, and propose a series of practical measures around key areas of cultural and tourism service consumption).

區域與結構性機會:區域增長分化,東部提質:福建、上海聚焦高附加值業態(沉浸式體驗、國際樞紐),目標文旅增加值人民幣7,500億元:中西部擴容:四川規劃2027年旅遊花費人民幣2萬億元,新疆目標2030年文旅體營收破萬億;特色目的地:海南海洋旅遊(2027年目標人民幣400億元)、貴陽避暑旅居(2027年目標35萬人次)。入境遊復蘇,2025年入境遊客預計達1.56億人次。在機遇面前,同樣面臨著挑戰,消費理性化壓縮利潤:人均消費增速(15.2%)低於人次增速(20.6%),景區門票經濟依賴症未解。

總體而言,旅遊市場將呈現「總量增長、結構分化」特徵:規模突破8萬億,但增長動能從「流量擴張」轉向「價值深耕」。企業需聚焦三大方向:1、深耕高端定制與縣域性價比市場,綁定銀髮/Z世代需求;2、技術提效:AI+提高數位化投入佔比,破解運營瓶頸(智慧旅遊是行業未來的重要發展方向。企業應加大在AI導遊、VR景區體驗智能行程規劃等領域的投入,推動旅遊企業的數位化知知和智能化升級)。3、政策綁定:搶抓綠色金融、用地創新與入境免簽紅利(今年起,商務部將牽頭實施服務消費提質惠民行動,圍繞文旅遊服務消費重點領域,提出一批務實舉措)。

Overseas Business

Following a period of stable yet unremarkable growth, the global economy exhibited complex and uneven dynamics between the second half of 2024 and the first half of 2025. Factors including geopolitical conflicts, trade tensions, and the increased frequency of extreme climate events have collectively heightened global economic uncertainty.

Fortunately, Southeast Asia's economies have maintained sustained growth. The International Monetary Fund (IMF) has predicted a 5.5% economic growth rate for the Philippines in 2025. The Philippine government's active promotion of a series of economic reform plans has, to some extent, stimulated economic development. In the consumer sector, the Philippines benefits from a large and youthful demographic structure, endowing its domestic consumer market with robust vitality that serves as a crucial factor supporting economic growth.

海外業務

全球經濟在經歷了一段穩定但乏善可陳的增長表現後,在2024年下半年至2025年上半年間呈現複雜且不均衡的態勢。地緣政治衝突、貿易緊張局勢和極端氣候事件的頻發等因素增加了全球經濟的不確定性。

值得慶倖的是,東南亞經濟持續保持增長。世界貨幣基金組織對菲律賓2025年的經濟增長率給出了5.5%的預測。菲律賓政府積極推動一系列經濟改革計劃,在一定程度上刺激了經濟的發展。在消費領域,菲律賓擁有龐大且年輕的人口結構,國內消費市場具備較強的活力,成為支撐經濟增長的重要力量。

The Group has established a strong presence in the Philippine market, developing two game products based on locally popular number-based games with nearly a century of heritage. These products have successfully passed testing and verification by designated professional organizations. Due to the impact of the Philippine government's mid-term elections in 2025, the project launch has been rescheduled to September 2025. During this extended preparation period, the Group has conducted further product enhancements to align with contemporary consumption preferences of young people through more fashionable positioning. Concurrently, the product launch will leverage comprehensive partnerships with two of the largest local payment platforms in the Philippines to enable rapid and efficient market promotion. The Group is confident that the product's competitive advantages, including low cost, high winning probability, and youth-oriented features, will drive strong financial performance post-launch.

Smart Retail

In recent years, the lottery industry has witnessed growing demand for digitalization and intelligentization in retail operations, driving transformative development through channel restructuring and innovative expansion. Lottery organizations have consistently intensified efforts in infrastructure development and standardized management of distribution channels.

The Group has pioneered the concept of "New Lottery Retail" within the industry, comprehensively applying innovative technologies such as smart hardware, the Internet of Things, big data, blockchain, and artificial intelligence to the operations, management, and marketing of lottery sales channels. A full suite of smart retail solutions has been developed, encompassing various smart terminal products alongside systems for intelligent store management, smart payments, Al-driven marketing, and big data services. These advancements are designed to comprehensively serve lottery organizations and sales outlets.

本集團深耕菲律賓市場,基於本地流行近百年的數字遊戲產品,已打造完成兩款遊戲產品,並通過指定專業機構的測試和驗證。受2025年菲律賓政府中期選舉的影響,專案上線時間調整為2025年9月。在上線調整的影時間,本集團進行了進一步的產品優化,以更時尚的形象貼近年輕人的消費習慣。同時,本次產品上線,將借助與菲律賓本地兩家最大支付平台的通力合作,快速、高效地進行市場推廣。本集團相信,在低成本、高東與本、年輕化的產品特性加持下,專案上線後將實現良好收益。

智能零售

近年來,彩票零售的數字化、智能化需求日益強烈,彩票行業面臨渠道重構和拓展創新的發展變革,彩票機構持續加大渠道基礎建設和規範管理的力度。

本集團在行業內率先提出彩票新零售的理念,將智能硬件、物聯網、大數據、區塊鏈和人工智能等創新科技全面應用於彩票銷售渠道的運營、管理和營銷等環節,已開發完成全面的智能零售解決方案,包括多種智能終端產品,以及智能店面管理、智能支付、智能營銷、大數據服務等系統,以全面服務於彩票機構和銷售網點。

Management Discussion and Analysis

管理層討論及分析

Video Lottery

Dongguan Tianyi Electronics Company Limited ("DGTY"), a subsidiary of the Group, was the exclusive equipment provider for the China Welfare Lottery Video Lottery ("Welfare VLT"), an instant electronic video lottery issued by China Welfare Lottery which was suspended in July 2020.

DGTY and Beijing China Lottery Online Technology Company Limited ("CLO") entered into a ten-year cooperative contract in 2005, pursuant to which DGTY would supply Welfare VLT terminal equipment to CLO and received commensurate remuneration for use. After the expiry of the mutual contract in 2015, CLO continued to conduct sales using the terminals of DGTY and generate ongoing revenue, but did not make any payment of remuneration for use to DGTY.

DGTY filed a civil lawsuit with the People's High Court of Beijing in 2016, demanding the payment of remuneration for use by CLO for its continued use of DGTY terminals after the expiry of the contract. In view of the fact that CLO continued to conduct lottery sales and generate revenue by using terminals owned by DGTY during a period of more than five years after the expiry of the contract and provisions under pertinent laws and regulations, the Group might take further legal action to protect its legal rights and interests.

China's Ecotourism Business

Project of Jiyuan Wangwu Shan and Wulongkou Scenic Area Project

During the reporting period, the team delegated by the Group maintained close collaboration with Jiyuan Cultural Tourism Group with full commitment and diligence. Significant advancements were made in enhancing scenic area management, service transformation, and marketing innovation, which have yielded notable results. As the cooperation agreement between both parties has been satisfactorily fulfilled, the services provided by the Group to Jiyuan Cultural Tourism Group were completed on 30 June 2025.

視頻彩票

本集團附屬公司東莞天意電子有限公司(「天意公司」)是中國福利彩票視頻型彩票(「中福在線」)的獨家設備提供商。「中福在線」是中國福利彩票發行的一款即開型電子視頻彩票,於2020年7月停售。

天意公司與北京中彩在線科技有限責任公司(「中彩在線公司」)於2005年簽訂了為期十年的合作合同,天意公司為中彩在線公司提供中福在線終端設備,並獲得相應的使用報酬。中彩在線公司在2015年雙方合同到期後,繼續使用天意公司的終端機進行銷售並持續獲得收益,卻未向天意公司支付任何使用報酬。

天意公司於2016年向北京市高級人民法院提起民事訴訟,要求中彩在線公司就合同到期後繼續使用天意公司終端機的行為支付使用報酬。鑒於中彩在線公司在合約到期後的5年多時間裏繼續使用所有權歸屬天意公司的終端設備進行彩票銷售並獲得收益的事實以及相關法規之規定,本集團將可能採取進一步的法律手段,以維護公司合法權益。

中國生態旅遊業務

濟源王屋山、五龍口景區項目

回顧期內,本集團委派的團隊與濟源市文旅遊集團緊密合作,盡職盡責;在景區管理提升、服務轉型、營銷創新等方面進行了大力度的推進,基礎上已取得了顯著效果。根據雙方合作協定已完滿完成,本集團向濟源市文旅遊集團提供的服務已於2025年6月30日終止。

Natural and Health Food Business

In 2024, China's medicated food industry (food-grade herbal products) surpassed RMB265 billion in market size, establishing itself as one of the world's largest natural health food markets. This growth reflects Chinese consumers' return to traditional health concepts and their appreciation for "dietary therapy". The Group continues to adapt its products and operations in response to market demands and development trends.

During the reporting period, the natural health food business maintained stable operations. Regarding product development, we will continue to deepen our focus on addressing core customer needs within the medicated food industry. Currently, Yongzhentang's premium first-harvest wolfberries and selectively sourced astragalus have received strong customer acclaim. The bar-packed wheat protein powder has also been well-received in the market. In the green tea beverage category, we are actively developing products incorporating Pu'er tea, Tieguanyin, and white tea.

In terms of operation, we have adopted a dual-track approach integrating online and offline channels. Online, we conduct promotion and sales through Forest Food flagship stores on Jingdong and Tmall, as well as via the official Forest Food mini-program platform. Offline, we collaborate with residential communities to capture private domain traffic, thereby expanding our consumer base.

In 2025, while the natural health food market continues to expand rapidly, it faces multiple structural challenges: False advertising and a crisis of trust — Cases of false advertising for health products have shown an average annual increase over the past three years; Standardization Gaps and Efficacy Disputes — Some products contain only half of the advertised active ingredients. Although more young consumers are willing to pay for wellness, most herbal beverages lack clinical validation, for example claims such as "alleviating eye fatigue" are not supported by scientific data; Homogeneous Competition and Innovation Bottlenecks, Supply Chain and Raw Material Risks and etc.

天然健康食品業務

2024年中國藥食同源產業規模已突破人民幣2,650億元,成為全球最大的天然健康食品市場之一。這一增長體現了中國消費者對傳統養生理念的回歸和對「食療」文化的認同。根據市場需求及發展趨勢對產品和運營做出調整。

回顧期內,天然健康食品業務平穩運行。產品方面我們將繼續深挖藥食同源客戶需求點,目前永貞堂頭茬精選枸杞和永貞堂精選黃芪品質得到客戶的高度認可。條狀小麥蛋白粉得到了市場上客戶的好評,在綠色茶飲方面我們也在研發普洱茶、鐵觀音、白茶等。

運營方面,我們採取線上線下雙軌並行,線上我們通過森林食品京東、天貓旗艦店,森林食品小程式官方平台進行推廣銷售,線下我們通過和社區合作吸收私域流量來提高我們消費客戶量。

2025年天然健康食品市場在快速擴張的同時,面臨多重結構性困境:虛假宣傳與信任危機,近三年保健品虛假宣傳案件年均增長。標準缺失與功效爭議:部分產品實際含量僅為宣稱值的一半,更多青年願為健康付費,但多數草本飲料缺乏臨床驗證,如「緩解眼疲勞」等宣稱無科學數據支撐。同質化競爭與創新瓶頸,供應鏈與原料風險等。

The market is transitioning from "high-end niche" to "mass health consumption", with the natural health food industry poised to enter a "diamond era". This evolution is driving the market toward a new phase of professionalization and scientific development. Future industry competition will no longer be confined to products alone but will expand to a comprehensive contest encompassing R&D capabilities, scenario innovation, and consumer experience. As cross-sector integration accelerates, scientific research deepens, and standardization systems improve, the natural health food market will evolve from "high-end niche" to "precision mass consumption". We will leverage forest food certification combined with blockchain traceability to establish health brand labels, build consumer trust, and enhance public brand recognition and value. Simultaneously, we will provide global consumers with health solutions that are more scientifically grounded and better aligned with modern lifestyles. In terms of promotion channels, we will continue to expand collaborations with additional private domain communities, distribution group leaders, and Xiaohongshu influencers. This approach aims to attract precisely targeted consumer groups through private channels, establishing a streamlined pathway from the company to group leaders and then to community consumers. This strategy is designed to increase our sales volume, expand operating revenue, and generate greater profits for the Company and its shareholders.

FUTURE OUTLOOK

In 2025, a subtle shift in global capital allocation is underway. The weakening US dollar and other uncertainties are driving capital flows from US markets to undervalued regions. China, leveraging its economic resilience and industrial dividends, has emerged as one of the primary destinations for increased foreign investment.

Domestic policies are actively exerting a dual-driven impact on capital markets. Under the sustained influence of "more proactive and assertive macroeconomic policies", China's economy achieved a GDP growth rate of 5.3% in the first half of 2025, demonstrating resilience beyond expectations despite external pressures. Meanwhile, the central bank has maintained reasonably ample liquidity by means of cutting reserve requirement ratio and reducing interest rate. New industrial drivers are rapidly gaining momentum, with Al hardware and large-scale models, robotics, and innovative pharmaceuticals which are representing new high-quality productive forces and growth, becoming new magnets for foreign investment.

展望未來

2025年,全球資本配置正在悄悄發生轉變,美元走弱等不確定性推動資金從美國市場流向估值窪地,而中國因經濟韌性與產業紅利,成為外資增配的主要目的地之一。

國內政策積極發力對資本市場形成雙重驅動。在「更加積極有為的宏觀政策」持續發力下,2025年上半年,中國經濟頂住外部壓力實現5.3%的GDP增速,展現出超預期的韌性。另一方面,央行通過降準降息等工具保持流動性合理充裕。產業新動能加速壯大,AI硬體和大模型、機器人以及創新藥等新質生產力加速成長,成為吸引外資的新磁極。

Amid this round of value reassessment driven by "policy support + technological breakthroughs", foreign capital's attitude towards Chinese assets is shifting from "tradable" to "investable". The northbound capital net inflow exceeding RMB80 billion in the first half of the year reflects international capital's long-term confidence in China's economic transformation and upgrading.

在這輪由「政策托底+科技突破」共同驅動的價值重估中,外資對中國資產的態度正從「可交易」轉向「可投資」,北向資金上半年淨流入超800億元,折射出國際資本對中國經濟轉型升級的長期信心。

According to Bloomberg, following the GDP growth rate in the second quarter of 2025 exceeding market expectations, at least nine foreign investment banks have raised their full-year economic growth forecasts for China in 2025 to a range of 4.8% to 5.1%.

根據彭博社,在2025年第二季度GDP增速高於市場預期後,至少9家外資投行將中國2025年全年經濟增長預測調升至4.8%-5.1%。

In recent years, China's lottery industry has undergone a high-quality development transformation, shifting from "pursuing quantity" to "enhancing quality", which has generated new momentum for the industry's growth. Lottery sales have consistently increased. In 2024, national lottery sales reached RMB623.486 billion, a year-on-year increase of 7.6%, setting a historical record. In the first half of 2025, national lottery sales amounted to RMB317.854 billion, a year-on-year growth of 3%, again achieving a record high for the same period.

近年來,中國彩票行業從「求量」向「增質」進行高質量發展轉型升級,為行業發展彙聚了新的動力,彩票銷量不斷增長。2024年全國共銷售彩票人民幣6,234.86億元,同比增長7.6%,創歷史新高。2025年上半年全國共銷售彩票人民幣3,178.54億元,同比增長3%,彩票銷售收入又創下了同期歷史新高。

Benefiting from the healthy development of China's lottery industry, as well as its technological advantages and service expertise in the sector, the Group's lottery business has maintained stable growth. Moving forward, the Group will continue to focus on its core lottery operations, further deepen its presence in key regions and critical segments, and pursue additional market opportunities to sustain its industry leadership. Simultaneously, the Group will expand its overseas lottery business by providing innovative lottery products and services to emerging economic markets abroad.

得益於中國彩票行業的健康發展,以及在彩票行業的技術優勢和服務經驗,本集團的彩票業務穩定發展。未來,本集團將繼續聚焦核心彩票業務,不斷深耕重點區域和重點領域,並爭取更多的市場機會,持續保持行業領先地位。同時,本集團將進一步發展海外彩票業務,為海外新興經濟市場提供創新的彩票產品和服務。

The Group will continue to integrate resources to advance the development of its ecotourism and natural health food businesses in China, cultivating new growth drivers and striving to deliver greater investment returns for shareholders.

本集團將繼續整合資源,推動中國生態旅遊和天然健康 食品業務發展,培育新的業務增長點,爭取為股東帶來 更大的投資回報。

INTERNAL CONTROL

The Board is responsible for establishing, maintaining and monitoring effective risk management and internal control systems of the Group. The management is delegated with the responsibility from time to time to implement the Board's policies on risk management and internal control. Detailed procedures are developed by the management. Each department is responsible for the assessment of individual types of risks arising under their areas of responsibilities and is also required to keep the senior management informed of material developments of the department's business and implementation of the policies and strategies set by the Board on a regular basis. The Group's internal control system is designed to provide cost-effectiveness and reasonable protection, which safeguards the Group's assets and maintains the integrity of the accounting and reporting systems. The Board periodically evaluates major controls and risks and where necessary, retain external professional services to evaluate or seek improvements to the internal control system. The Group has not maintained an internal audit department.

Since May 2024, the Company adopted the advice and recommendations from Zhonghui Anda Risk Services Limited to improve, the Company's internal controls and for procuring compliance with Chapters 14 and 14A of the Listing Rules (the "Internal Control Systems") which includes: (i) the proposed work done by the Directors to properly monitor, supervise and manage the business and affairs of the Company's subsidiaries and ensure that their assets and interests were properly safeguarded; and (ii) mechanism or arrangement details of the proposed measures and safeguards regarding the detection and prevention by the Company on events similar to the incidents in the past. The Board considers that the Internal Control Systems enable to carry out enough analysis and appraisal of the adequacy and effectiveness of the Group's risk management and internal control systems. The Board will continuously (at least annually) review the necessity of setting up an internal audit department. The Group's risk management and internal control systems include a well-established organisational structure with clearly defined lines of responsibility and authority of departments. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

本公司為處理相關不發表意見而採取之行動

誠如本年報第79至81頁所載獨立核數師報告中「不發表意見」及「不發表意見的依據」章節所披露,本公司核數師長青(香港)會計師事務所有限公司(「核數師」)已就本集團截至二零二五年六月三十日止年度之綜合財務報表不發表意見。本公司已採取行動處理相關審核保留意見。本公司為處理本集團截至二零二五年六月三十日止年度之綜合財務報表內的相關不發表意見而採取之行動載列如下:

持續經營

本公司董事在評估本集團是否有足夠財務資源以持續經營時,已審慎考慮本集團的未來流動資金及財務狀況及其可用的融資來源。本集團已採取若干計劃及措施以緩解流動資金狀況並改善本集團財務狀況,包括但不限於以下各項:

- (a) 在財務重組顧問凱晉企業顧問有限公司協助下,本公司正根據香港法例第622章《公司條例》第13部的規定,制訂涉及與債權人簽訂協議安排之債務重組方案(「債權人計劃」);
- (b) 本公司管理層一直與其顧問緊密合作,並持續與本 公司債權人商討以制定重組計劃;

- (c) on 24 July 2025, the Hong Kong High Court ordered that, among others, the Company be at liberty to convene a meeting of the creditors of the Company for the Creditors Scheme. Such creditors' meeting was adjourned to and held on 25 September 2025 whereas the Creditors Scheme was approved by the requisite statutory majorities of creditors with voting claims. The Company will now seek the approval and sanction of the Hong Kong High Court for the Creditors Scheme. The court hearing for sanctioning the Creditors Scheme is scheduled to be held on 15 October 2025;
- (c) 於二零二五年七月二十四日,香港高等法院頒令 (其中包括)准許本公司召開債權人會議以議決債權 人計劃。該債權人會議延期至並已於二零二五年九 月二十五日舉行,而債權人計劃已獲得所需法定多 數投票權債權人的批准。本公司現將尋求香港高等 法院對債權人計劃的批准及認可。批准債權人計劃 的法庭聽證會定於二零二五年十月十五日舉行:
- (d) since 18 December 2024, the new investor of the Company provided the working capital facility to China LotSynergy Group Limited (an indirect wholly-owned subsidiary of the Company) in the amount of up to HK\$15 million for the purpose of financing the general working capital requirements of the Group and the availability period of such facility is ending on 31 December 2025 or such later date as the parties may agree in writing;
- (d) 自二零二四年十二月十八日起,本公司的新投資者 向華彩集團有限公司(本公司的間接全資附屬公司) 提供最多1,500萬港元的營運資金額度,用於為本 集團的一般營運資金需求提供資金,該額度的有效 期至二零二五年十二月三十一日或訂約方協定的較 後日期;
- (e) the Group will continue to implement measures to speed up the collection of outstanding accounts and other receivables; and
- (e) 本集團將繼續採取措施以加快收回未償還之應收賬項及其他應收賬款;及
- (f) the Group will continue to take active measures to control administrative costs and maintain containment of capital expenditures.
- (f) 本集團將繼續採取積極措施以控制行政成本及節約 資本開支。

The directors of the Company have prepared a cash flow forecast of the Group for a period covered not less than twelve months from the date of approval of the consolidated financial statements. Based on the cash flow forecast which has assumed the successful implementation of the above measures, the directors of the Company are of the opinion that the Group will have sufficient working capital to meet its financial obligations as and when they fall due in the next twelve months from the date of approval for the consolidated financial statements. Accordingly, the consolidated financial statements have been prepared on a going concern basis.

本公司董事已就本集團自綜合財務報表通過日起不少於十二個月期間編製現金流預測。基於假設上述措施成功實行的現金流預測,本公司董事認為本集團將有充足營運資金在綜合財務報表通過後的未來十二個月內履行到期的財務責任。因此,綜合財務報表已按持續經營基準編製。

Notwithstanding the above, significant uncertainties exist as to whether management of the Company will be able to achieve its plans and measures as described above. Whether the Group will be able to continue as a going concern would depend upon the Group's ability to generate adequate financing and operating cash flows through the successful outcome of these measures.

儘管如此,本公司管理層能否實行其上述計劃及措施存 有重大不確定因素。本集團能否持續經營將視乎本集團 能否透過該等措施的成果產生足夠融資及營運現金流。

Based on the cash flow forecast of the Group prepared by the management and assuming success of the above measures, the directors of the Company are of the opinion that the Group would have effectively dealt with its liabilities. Accordingly, the directors of the Company consider it is appropriate to prepare the consolidated financial statements on a going concern basis. Should the Group be unable to continue as a going concern, adjustments would have to be made to write down the value of assets to their recoverable amounts, to provide for further liabilities which might arise and to reclassify non-current assets and non-current liabilities as current assets and current liabilities respectively. The effect of these adjustments has not been reflected in these consolidated financial statements.

根據管理層編製的本集團現金流量預測,在假設上述措施取得成功的前提下,董事認為,本集團將有效地處理其債務。因此,董事認為按持續經營基準編製綜合財務報表乃屬合理。倘本集團無法持續經營,則須作出調整,在可收回金額中撇減資產價值,為可能產生的進一步負債作出撥備及將非流動資產及非流動負債分別重新分類為流動資產及流動負債。該等調整的影響並無於綜合財務報表中反映。

Audit Committee's View Towards the Disclaimer of Opinion

The Audit Committee has reviewed the Disclaimer of Opinion relating to going concern. The Audit Committee has also discussed with the auditor the financial position of the Group, the measures taken and to be taken by the Company, and considered the auditor's rationale and understood their consideration in arriving the Disclaimer of Opinion. Based on the work and initial performance performed by the management in relation to the debt restructuring and the financial results for the year ended 30 June 2025, the Audit Committee agreed with the management views on going concern and the action plan of the Group as stated in Note 2 to the consolidated financial statements on pages 91 to 92 of this report, and concurs with the Board's view. The Audit Committee agree such action plan can effectively dealt with the Disclaimer of Opinion.

SANCTION OF THE CREDITORS SCHEME BY THE HONG KONG HIGH COURT

At the adjourned Scheme Meeting held on 25 September 2025, the Creditors Scheme was approved by the requisite statutory majorities of the Creditors with voting claims.

At the hearing at the Hong Kong High Court on 15 October 2025, the Hong Kong High Court has granted an order (the "Sanction Order") to approve and sanction the Creditors Scheme. The Company will arrange for the Sanction Order to be delivered to and registered with the Companies Registry of Hong Kong. Subject to the fulfillment of the conditions precedent of the Creditors Scheme, the Creditors Scheme shall become effective. The Company will work diligently with its restructuring adviser to satisfy the conditions precedent of the Creditors Scheme.

(Incorporated in Bermuda with limited liability)

DISCLAIMER OF OPINION

We were engaged to audit the consolidated financial statements of China Ecotourism Group Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 82 to 220, which comprise the consolidated statement of financial position as at 30 June 2025, and the consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

We do not express an opinion on the consolidated financial statements of the Group. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these consolidated financial statements. In all other respects, in our opinion, the consolidated financial statements have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR DISCLAIMER OF OPINION

We draw attention to Note 2 in the condensed consolidated financial statements of this announcement, which describes that the Group incurred a net loss of approximately HK\$73,087,000 for the year ended 30 June 2025, and, as of that date, the Group's current liabilities exceeded its current assets by approximately HK\$479,108,000, and its total liabilities exceeded its total assets by approximately HK\$491,415,000. The Group's total liabilities amounted to HK\$648,972,000 as at 30 June 2025. Since October 2023, the Group has defaulted on the repayment of mortgage loans and convertible bonds. resulting in the appointment of receivers by the bank in respect of the mortgaged property, and by the trustee of the convertible bonds in respect of the charged shares. Furthermore, the Company previously received a winding-up petition filed by a trustee of convertible bonds, which was finally withdrawn on 13 November 2024. However, on 11 March 2025, the Company received another winding-up petition (the "Petition"), which was filed in the Hong Kong High Court by the Hong Kong branch of a creditor bank in the PRC. The Petition relates to outstanding indebtedness of approximately HK\$78,543,000 (including accrued interest) as at the date of the

Independent Auditor's Report 獨立核數師報告

Petition. Following the joint application by way of consent summons, the Hong Kong High Court ordered, among other things, that the hearing of the Petition be adjourned to 1 December 2025. As of 30 June 2025, the Group may not be able to meet its liabilities in full unless it is able to generate sufficient cash flows from future operations and/or other sources, as it only had cash and bank balances of approximately HK\$59,176,000 and restricted bank deposits of approximately HK\$19,385,000. These events and conditions, along with other matters as set forth in Note 2 to the condensed consolidated financial statements, indicate the existence of material uncertainties which may cast significant doubt on the Group's ability to continue as a going concern.

The directors have certain plans and measures to improve the Group's liquidity and financial position, which are set out in Note 2 to the consolidated financial statements. The consolidated financial statements have been prepared on a going concern basis, the validity of which is dependent on the outcomes of these plans and measures, which are subject to multiple uncertainties, including (i) whether the Group can be successful to formulate a debt restructuring involving a scheme of arrangement to be entered into between the Company and the creditors under Part 13 of the Companies Ordinance (Chapter 622 of the Laws of Hong Kong); (ii) whether the Company is successful in implementing alternative capital raising initiatives to provide additional funds for the Group; and (iii) whether the Group is able to implement its cost control measures to attain positive cash flows from operations of the Group.

As a results of above multiple uncertainties, the potential interactions of these uncertainties, and the possible cumulative effect thereof, we were unable to assess the appropriateness or reasonableness of assumptions adopted in the Group's cash flow forecast in supporting the use of the going concern basis in the preparation of these consolidated financial statements. As a result of these limitations and uncertainties, we were unable to form an opinion as to whether the going concern basis of preparation is appropriate. Should the Group fail to achieve the abovementioned plans and measures, it might not be able to continue as a going concern and to settle its obligations and commitments, and adjustments may have to be made to write down the Group's assets to amounts that can be realised, to provide for any further liabilities which might arise and to reclassify non-current assets and non-current liabilities as current assets and current liabilities. The effects of these adjustments, which could be both material and pervasive, have not been reflected in these consolidated financial statements.

高等法院除其他事項外,下令將呈請的聆訊延期至二零二五年十二月一日。於二零二五年六月三十日,由於本集團僅有現金及銀行結餘約港幣59,176,000元及受限銀行存款約港幣19,385,000元,除非能夠從未來經營及/或其他來源產生足夠現金流量,否則本集團可能無法悉數償還其負債。這些事件與情況,連同簡明綜合財務報表附註2所載之其他事項,表明存在重大不確定性,可能對本集團持續經營之能力產生重大疑問。

董事已制定若干改善本集團流動性及財務狀況之計劃與措施(詳見綜合財務報表附註2)。本綜合財務報表乃按持續經營基準編製,而此基準之有效性取決於下列存在多重不確定性之計劃與措施成果,包括:(i)本集團能否根據《公司條例》(香港法例第622章)第13部與債權人完滿地達成協議安排之債務重組方案:(ii)本公司能否成功實施替代融資方案以獲取額外資金;及(iii)本集團能否落實成本控制措施以實現經營活動現金流轉正。

For the year ended 30 June 2025 截至二零二五年六月三十日止年度

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.1 Basis of preparation (continued)

2.1.1 Going concern

In preparing the consolidated financial statements, the directors of the Company have given careful consideration to the future liquidity of the Group, in light of the fact that the Group incurred a net loss of approximately HK\$73,087,000 for the year ended 30 June 2025, and, as of that date, the Group's current liabilities exceeded its current assets, and total liabilities exceeded its total assets by approximately HK\$479,108,000 and HK\$491,415,000 respectively. As at the date, the Group's total liabilities amounted to HK\$648,972,000.

Since October 2023, the Group defaulted in repayment of mortgage loans and convertible bonds resulting in appointment of receivers by the bank in respect of the mortgaged property and the trustee of convertible bonds in respect of the charged shares. Moreover, the Company previously received a winding-up petition filed by a trustee of convertible bonds, and on 13 November 2024 the petition was finally withdrawn. On 11 March 2025, the Company received another winding-up petition (the "Petition"), which was filed against the Company on 11 March 2025 at the Hong Kong High Court by the Hong Kong branch of a creditor bank in the PRC for the winding up of the Company. The Petition is relating to the outstanding indebtedness amount of approximately HK\$78,543,000 (including accrued interest) as at the date of the Petition. Following the joint application by way of consent summons, the Hong Kong High Court ordered that, among others, the hearing of the Petition be adjourned to 1 December 2025.

Currently, the Group might not be able to meet its liabilities in full unless it is able to generate sufficient cash flows from future operations and/or other sources, since as at 30 June 2025, the Group only had cash and bank balances of approximately HK\$59,176,000 and restricted bank deposits of approximately HK\$19,385,000. These events or conditions indicate the existence of material uncertainties which may cast significant doubt on the Group's ability to continue as a going concern.

2. 重要會計政策概要(續)

2.1 編製基準(續)

2.1.1 持續經營

於編製富合財務報表時,鑑於本集團截至二五年六月三十日止年度產生淨虧損約港幣73,087,000元,及截動資產和淨負債超過其總資產分別約港幣479,108,000元和港幣491,415,000元,本公司董事已審慎考慮本集團負債總額約港幣648,972,000元。

目前,除非能夠從未來經營及/或其他來源產生足夠的現金流,否則本集團將可能無法全額償還其負債,由於本集團於二零二五年六月三十日僅持有現金跟於二零二五年六月三十日僅持有,000元及受銀行結餘約港幣59,176,000元及受限制的銀行存款約港幣19,385,000元。此等事件或情況顯示存在重大不確定是重大疑慮。

For the year ended 30 June 2025 截至二零二五年六月三十日止年度

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.1 Basis of preparation (continued)

2.1.1 Going concern (continued)

In this regard, the management of the Company have identified various initiatives to address the Group's liquidity needs, which include the following:

- (a) the Company was in the course of formulating a debt restructuring involving a scheme of arrangement to be entered into between the Company and the creditors (the "Creditors Scheme") under Part 13 of the Companies Ordinance (Chapter 622 of the Laws of Hong Kong) with the assistance of its restructuring adviser, Acclime Corporate Advisory (Hong Kong) Limited;
- (b) the management of the Company has been working closely with its advisers and having ongoing discussions with the creditors of the Company to formulate a restructuring plan;
- on 24 July 2025, the Hong Kong High Court ordered that, among others, the Company be at liberty to convene a meeting of the creditors of the Company for the Creditors Scheme. Such creditors' meeting was adjourned to and held on 25 September 2025 whereas the Creditors Scheme was approved by the requisite statutory majorities of creditors with voting claims. The Company will now seek the approval and sanction of the Hong Kong High Court for the Creditors Scheme. The court hearing for sanctioning the Creditors Scheme is scheduled to be held on 15 October 2025;

2. 重要會計政策概要(續)

2.1 編製基準(續)

2.1.1 持續經營(續)

在此方面,本公司管理層已確定多項舉 措以解決本集團的流動資金需求,其中 包括:

- (a) 本公司正根據《公司條例》(香港 法例第622章)第13部的規定, 在財務重組顧問凱晉企業顧問有 限公司協助下,制定一項債務重 組涉及本公司與債權人簽訂協議 安排之債務重組方案(「債權人計 劃」);
- (b) 本公司管理階層一直與其顧問緊 密合作,並持續與本公司債權人 進行磋商以制定重組計劃;

For the year ended 30 June 2025 截至二零二五年六月三十日止年度

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.1 Basis of preparation (continued)

2.1.1 Going concern (continued)

- (d) since 18 December 2024, the new investor of the Company provided the working capital facility to China LotSynergy Group Limited (a direct whollyowned subsidiary of the Company) in the amount of up to HK\$15 million for the purpose of financing the general working capital requirements of the Group and the availability period of such facility is ending on 31 December 2025 or such later date as the parties may agree in writing;
- (e) the Group will continue to implement measures to speed up the collection of outstanding accounts and other receivables; and
- (f) the Group will continue to take active measures to control administrative costs and maintain containment of capital expenditures.

Based on the cash flow forecast of the Group prepared by the management and assuming success of the above measures, the directors of the Company are of the opinion that the Group would have effectively dealt with its liabilities. Accordingly, the directors of the Company consider it is appropriate to prepare the consolidated financial statements on a going concern basis. Should the Group be unable to continue as a going concern, adjustments would have to be made to write down the value of assets to their recoverable amounts, to provide for further liabilities which might arise and to reclassify non-current assets and noncurrent liabilities as current assets and current liabilities respectively. The effect of these adjustments has not been reflected in these consolidated financial statements.

2. 重要會計政策概要(續)

2.1 編製基準(續)

2.1.1 持續經營(續)

(d) 自二零二四年十二月十八日起,本公司的新投資者向華彩集風有限公司(本公司的全資附屬公司)提供最多1,500萬港元的營運資金額度,用於為本集團的一般營運資金需求提供資金,該額度的有效期至二零二五年十二月三十一日或訂約方協定的較後日期;

- (e) 本集團將繼續採取措施以加快收回未償還之應收賬款及其他應收 賬項;及
- (f) 本集團將繼續採取積極措施以控制行政成本及節約資本開支。

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.1 Basis of preparation (continued)

2.1.2 Application of new and amendments to Hong Kong Financial Reporting Standards ("HKFRS") and changes in other accounting policies
In the current year, the Group has applied the following amendments to HKFRS Accounting Standards issued by the HKICPA for the first time, which are mandatorily effective for the Group's annual period for the preparation of the consolidated financial statements:

> New and Amendments to HKFRS Accounting Standards in issue but not yet effective for the year ended 30 June 2025 (continued)

The Group is in the process of assessing the impact of these new and amendments to HKFRs Accounting Standards. So far it has concluded that the adoption of these standards is unlikely to have a significant impact on the consolidated financial statements except for HKFRS 18 Presentation and Disclosure in Financial Statements which is detailed below.

HKFRS 18 Presentation and Disclosure in Financial Statements

HKFRS 18 Presentation and Disclosure in Financial Statements, which sets out requirements on presentation and disclosures in financial statements, will replace HKAS 1 Presentation of Financial Statements. This new HKFRS Accounting Standard, while carrying forward many of the requirements in HKAS 1, introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss: provide disclosures on management-defined performance measures in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. In addition, some HKAS 1 paragraphs have been moved to HKAS 8 and HKFRS 7. Minor amendments to HKAS 7 Statement of Cash Flows and HKAS 33 Earnings per Share are also made.

HKFRS 18, and amendments to other standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted. The application of the new standard is expected to affect the presentation of the statement of profit or loss and disclosures in the future financial statements. The Group is in the process of assessing the detailed impact of HKFRS 18 on the Group's consolidated financial statements.

2.2 Principles of consolidation and equity accounting

2.2.1 Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity where the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

2.2.1 Subsidiaries (continued)

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred assets. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss, statement of comprehensive income, statement of changes in equity and statement of financial position respectively.

2.2.2 Associates

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

2.2.3 Joint arrangements

Investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement.

Interests in joint ventures are accounted for using the equity method, after initially being recognised at cost in the consolidated statement of financial position.

聯營公司為本集團對其有重大影響但不擁有控制權或共同控制權的所有實體。於一般情況下,本集團擁有介乎20%至50%的投票權。於初步按成本確認後,於聯營公司的投資採用權益會計法入賬。

2.2.3 合營安排

於合營安排的投資被分類為共同經營或 合營企業。該分類視乎各投資者的合約 權利及義務而非按合營安排的法定架構 確定。

2.2.4 Equity accounting

Under the equity method of accounting, the investments are initially recognised at cost, and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

Where the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity-accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equityaccounted investments is tested for impairment in accordance with the policy described in Note 2.9.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.2 Principles of consolidation and equity accounting (continued)

2.2.5 Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of the Company.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss or transferred to another category of equity as specified or permitted by applicable HKFRS Accounting Standard.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognized in other comprehensive income are reclassified to profit or loss where appropriate.

2.3 Investments in subsidiaries

Investments in subsidiaries are accounted for at cost less impairment. Cost includes directly attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving dividends from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

2.4 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors (the "Board") that makes strategic decisions.

2.5 Property, plant and equipment

Property, plant and equipment are stated at historical cost less depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.5 Property, plant and equipment (continued)

Owned properties are recognised at fair value based on periodic valuations by external valuers, less subsequent deprecation and impairment losses. A revaluation surplus is credited to revaluation reserve in shareholders' equity.

Increase in the carrying amounts arising on revaluation of owned properties are recognised, net of tax, in OCI and accumulated in reserves in shareholders' equity. To the extent that the increase reverses a decrease previously recognised in profit or loss, the increase is first recognised in profit or loss. Decrease that reverse previous increases of the same asset are first recognised in OCI to the extent of the remaining surplus attributable to the asset; all other decreases are charged to profit or loss. Each year, the difference between depreciation based on the revalued carrying amount of the asset charged to profit or loss and depreciation based on the asset's original cost, net of tax, is reclassified from the revaluation reserve to retained profits.

2.6 Intangible assets

(a) Goodwill

Goodwill is measured as described in Note 2.9. Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cashgenerating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes.

(b) Development costs

Development costs represent all direct costs incurred by the Group in setting up systems and networks, including the cost of equipment and development cost. Such assets are recognised as intangible assets only if all of the following conditions are met:

- the technical feasibility of completing the asset so that it will be available for use or sale;
- the intention to complete the asset and use or sell it;
- the ability to use or sell the asset;
- how the asset will generate probable future economic benefits. Among other things, the entity can demonstrate the existence of a market for the output of the asset or the asset itself or, if it is to be used internally, the usefulness of the asset;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the asset: and
- the ability to measure reliably the expenditure attributable to the asset during its development.

Development costs that do not fulfill the above conditions are recognised as expenses in the period in which it is incurred. Development costs which are implemented for its intended use and fulfill the above conditions are amortised on a straight-line basis over their estimated useful lives, which does not exceed ten years.

(b) 開發成本

開發成本指本集團於設立系統及網絡產生之所有直接成本,包括設備成本及開發成本。只有在符合以下所有條件時,該等資產方會獲確認為無形資產:

- 擁有使資產完成以供使用或銷售 之技術可行性;
- 擁有使資產完成並予以使用或銷售之意向;
- 擁有使用或銷售資產之能力;
- 資產將如何帶來未來經濟利益, 其中包括,實體可展示資產出品 或資產本身存有市場,或倘資產 供內部使用,則展示資產之可用 性;
- 具備充裕技術、財務及其他資源 以完成開發及使用或銷售該資 產;及
- 能可靠地計量於資產開發期間其 應佔之開支。

不符合上述條件之開發成本於其產生期間確認為開支。已實現其預定用途並符合上述條件之開發成本按其估計可使用年期(不多於十年)以直線法攤銷。

(c) Intellectual properties

Separately acquired intellectual properties are shown at historical cost. Intellectual properties acquired in a business combination are recognised at fair value at the acquisition date. They have a finite useful life and are carried at cost less accumulated amortisation and impairment losses. Amortisation is calculated using the straight-line method to allocate the cost of intellectual properties over their estimated useful lives of ten to fifteen years.

2.7 Impairment of non-financial assets

Goodwill and intangible assets that have an indefinite useful life or intangible assets not ready to use are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cashgenerating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

2.8 Leases

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

Contracts may contain both lease and non-lease components. The Group has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including insubstance fixed payments);
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

2.8 租賃

租賃於租賃資產可供本集團使用當日確認為使用權資產及相應負債。

合約可包含租賃及非租賃部分。本集團選擇 將租賃及非租賃部分入賬為單一租賃部分, 並無將兩者區分。

租賃產生的資產及負債初始以現值基準計量。租賃負債包括下列租賃付款的淨現值:

- 固定付款(包括實質上的固定付款);
- 基於指數或利率的可變租賃付款,採用 於開始日期的指數或利率初步計量;
- 本集團於剩餘價值擔保下預計應付的金額:
- 倘本集團合理確定行使購買選擇權,則 為該選擇權的行使價;及
- 倘租賃期反映本集團行使該選擇權,則 為終止租賃的罰款支出。

根據合理確定延續選擇權支付的租賃付款亦計入負債計量之內。

租賃付款使用租賃中隱含的利率進行貼現。 倘無法輕易確定該利率(為本集團租賃的一般 情況),則使用承租方的增量借款利率,即個 別承租方在類似經濟環境中按類似條款、抵 押及條件借入獲得與使用權資產具有類似價 值的資產所需資金而必須支付的利率。

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.8 Leases (continued)

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received;
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third party financing; and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Except for those that relate to a class of property, plant and equipment to which the Group applies the revaluation model, right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date less any lease incentives received;
- any initial direct costs; and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

2.8 和賃(續)

為釐定增量借款利率,本集團:

- 在可能情況下,使用個別承租方最近獲得的第三方融資為出發點作出調整,以 反映自獲得第三方融資以來融資條件的 變動;
- 使用累加法,首先就本集團所持有租賃 的信貸風險(最近並無第三方融資)調 整無風險利率;及
- 對租約作出特定調整,例如期限、國家、貨幣及抵押。

租賃付款於本金及財務成本之間作出分配。 財務成本在租賃期間於損益扣除,藉以令各 期間的負債餘額的息期利率一致。

除與本集團採用重估模式的物業、機器及設備有關者外,使用權資產按成本計量,包括 以下各項:

- 租賃負債的初始計量金額;
- 在開始日期或之前支付的任何租賃付款 減去已收任何租賃優惠;
- 任何初始直接成本;及
- 復原成本。

使用權資產一般於資產可使用年期或租賃期 (以較短者為準)按直線法計算折舊。倘本集 團合理確定行使購買選擇權,則使用權資產 於相關資產的可使用年期內予以折舊。

2.8 Leases (continued)

Right-of-use assets relate to a class of property, plant and equipment to which the Group applies the revaluation model, the Group has elected to apply that revaluation model to all of the right- of-use assets that relate to that class of property, plant and equipment.

Payments associated with short-term leases and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of twelve months or less.

Lease income from operating leases where the Group is a lessor is recognised in profit or loss on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognised as expense over the lease term on the same basis as lease income. The respective leased assets are included in the statement of financial position based on their nature. The Group did not need to make any adjustments to the accounting for assets held as lessor as a result of adopting the new leasing standard.

2.9 Financial assets

2.9.1 Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through OCI or through profit or loss); and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

2.9 Financial assets (continued)

2.9.1 Classification (continued)

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income ("FVOCI").

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

2.9.2 Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at FVTPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

2.9.2 Measurement (continued)

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in "Other gains/(losses) net". Impairment losses are presented as separate line item in the statement of profit or loss.
- FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in "Other gains/(losses) - net". Interest income from these financial assets is included in "other income" using the effective interest rate method. Foreign exchange gains and losses are presented in "Other gains/ (losses) – net" and impairment expenses are presented as separate line item in the statement of profit or loss.

• FVTPL: Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL and presented net within "Other gains/(losses) – net" in the period in which it arises.

Investments in equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investments. Dividends from such investments continue to be recognised in profit or loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at FVTPL are recognised in "Other gains/(losses) – net" in the statement of profit or loss as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at financial assets at FVOCI are not reported separately from other changes in fair value.

2.9.3 Impairment

The Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables and lease receivables, the Group applies the simplified approach permitted by HKFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

(iii) Credit-impaired financial assets

A financial asset is creditimpaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probabilityweighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

For a financial guarantee contract, the Group is required to make payments only in the event of a default by the debtor in accordance with the terms of the instrument that is guaranteed. Accordingly, the ECL is the present value of the expected payments to reimburse the holder for a credit loss that it incurs less any amounts that the Group expects to receive from the holder, the debtor or any other party.

2.10 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average method. The cost of finished goods and work in progress comprises design costs, raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity). It excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

2.11 Trade receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method.

2.10 存貨

存貨乃按成本及可變現淨值兩者中之較低者列賬。成本採用加權平均法釐定。製成品及在製品之成本包括設計成本、原材料、直接勞工、其他直接成本及相關生產固定開支(根據一般營運能力計算),惟不包括借貸成本。可變現淨值指日常業務過程中之估計售價減完成的估計成本及有必要作出銷售的估計成本。

2.11 應收貿易賬款

應收貿易賬款是於日常業務過程中向客戶銷售貨品或提供服務而應收之款項。倘貿易及其他應收賬款預計將在一年或一年以內(若更長則在業務正常經營週期內)收回,則歸類為流動資產。否則,在非流動資產中列報。

應收貿易賬款初步按已成為無條件之代價金額確認,除非其含有重大融資成份,在此情況下則按公平值確認。本集團持有應收貿易賬款之目的為收取合約現金流量,因此其後使用實際利息法按攤銷成本對其進行計量。

2.12 Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless the Group has the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

Covenants that the Group is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the Group is required to comply with after the reporting period do not affect the classification at the reporting date.

2.13 Current and deferred income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

(a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(b) Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary difference. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

2.13 Current and deferred income tax (continued)

(b) Deferred income tax (continued)
Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in foreign operations where the Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in OCI or directly in equity. In this case, the tax is also recognised in OCI or directly in equity, respectively.

2.14 Revenue recognition

Revenue from contracts with customers is recognised when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.14 Revenue recognition (continued)

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

For contracts that contain more than one performance obligations, the Group allocates the transaction price to each performance obligation on a relative standalone selling price basis.

The stand-alone selling price of the distinct good or service underlying each performance obligation is determined at contract inception. It represents the price at which the Group would sell a promised good or service separately to a customer. If a stand-alone selling price is not directly observable, the Group estimates it using appropriate techniques such that the transaction price ultimately allocated to any performance obligation reflects the amount of consideration to which the Group expects to be entitled in exchange for transferring the promised good or service to the customer.

2. 重要會計政策概要(續)

2.14 收入確認(續)

倘符合下列其中一項標準,則控制權在一段時間內轉移,而收益確認會參考一段時間內已完成相關履約責任的進度進行:

- 於本集團履約時,客戶同時取得並耗用本集團履約所提供的利益;
- 本集團的履約產生及提升一項資產,而 該項資產於本集團履約時由客戶控制; 或
- 本集團的履約並未產生對本集團有替代 用途的資產,且本集團對迄今已完成履 約的付款具有可強制執行的權利。

否則,收益會在當客戶獲得明確貨品或服務 的控制權時之時點確認。

合約負債指本集團因已向客戶收取代價(或已到期收取代價),而須向客戶轉讓貨品或服務的責任。

就包含多於一項履約責任的合約而言,本集 團按照相對獨立售價基準將交易價格分配至 各履約責任。

有關各履約責任的明確貨品或服務的獨立售價於合約開始時釐定。該價格指本集團將單獨向客戶出售承諾貨品或服務的價格。倘獨立售價不可直接觀察,本集團將使用適當技術進行估計,以使最終分配至任何履約責任的交易價格可反映本集團向客戶轉讓承諾貨品或服務預期有權獲得的代價金額。

2.14 Revenue recognition (continued)

(a) Sale of lottery terminals and related equipment

Revenue from sale of lottery terminals and related equipment is recognised when control of the goods has transferred, being when the products are delivered to the customers, the customer has accepted the products, the collection of the related consideration is probable and there is no unfulfilled obligation that could affect the customer's acceptance of the products.

- (b) Sale of natural and health food Revenue from sales of natural and health food is recognised at point in time when the products are delivered to the customers.
- Provision of (i) technical and maintenance services and (ii) operation and management services for ecotourism business Revenue from providing (i) technical and maintenance services and (ii) operation and management services for ecotourism business is recognised in the accounting period in which the services are rendered. For fixedprice contracts, revenue is recognised based on the actual service provided as a proportion of the total service to be provided because the customer receives and uses the benefits simultaneously.

3.1 財務風險因素

本集團之業務面對多項財務風險:市場風險(包括外匯風險、公平值利率風險、現金流量利率風險及價格風險)、信貸風險及流動資金風險。本集團之整體風險管理計劃集中於金融市場之不可預測事項,並尋求盡量減低對本集團財務表現之潛在不利影響。

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

3.1 Financial risk factors (continued)

Risk management is carried out by a central treasury department (Group Treasury) under policies approved by the Board. Group Treasury identifies, evaluates and hedges financial risks in close cooperation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investing of excess liquidity.

(a) Market risk

(i) Foreign exchange risk

The Group's foreign exchange risk arise from future commercial transactions and recognised assets and liabilities denominated in foreign currencies and are considered to be insignificant. This is due to the Group's transactions being generally denominated in the functional currency of the respective group entities.

The Group manages the foreign exchange exposure arising from its normal course of business activities and investments in foreign operations by funding its local operations and investments through cash flow generated from business transactions locally. Management monitors foreign exchange exposure closely and will consider hedging significant foreign currency exposure should the need arise.

The management of the Group considers that the exposure to the Group arising from foreign exchange risk is limited and no sensitivity analysis is therefore prepared.

The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of HIBOR arising from the Group's bank borrowings denominated in HK\$.

(b) Credit risk

The credit risk of the Group's financial assets, which comprise bank balances, trade receivables, lease receivables and financial assets included in deposits and other receivables arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

The Group reviews the recoverability of its financial assets periodically to ensure that potential credit risk of the counterparty is managed at an early stage and sufficient provision is made for possible defaults.

The credit risk on bank balances are limited because the counterparties are banks and financial institutions with high credit ratings assigned by international credit-rating agencies.

Since the Group trades only with recognised and creditworthy third parties, there is no requirement for collateral. At the end of the reporting period, the Group had certain concentrations of credit risk as 72% (2024: 61%) and 99% (2024: 98%) of the Group's accounts receivable were due from the Group's largest customer and the five largest customers, respectively.

While cash and cash equivalents are also subject to the impairment requirements of HKFRS 9, the identified impairment loss was immaterial.

(i) Accounts receivable
 Accounts receivable include trade receivables.

The Group applies the HKFRS 9 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all trade receivables and lease receivables.

To measure the expected credit losses, trade receivables and lease receivables have been assessed individually with outstanding significant balances exceeding HK\$10 million, the remaining balances are grouped based on shared credit risk characteristics and the days past due.

Except for trade receivables and lease receivables with significant outstanding balances, the Group determines the expected credit losses on the remaining balances by using a provision matrix. The expected loss rates are based on the payment profiles of sales or leases over a period of 36 months before 30 June 2025 or 1 July 2024 and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

In assessing whether there is a significant increase in credit risk, the Group compares risk of a default occurring on the loans and advances at the reporting date with the risk of default at the date of initial recognition. Especially the following

indicators are incorporated.

- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations;

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

3.1 Financial risk factors (continued)

(c) Liquidity risk

Ultimate responsibility for liquidity risk management rests with the Board, which has built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The following table details the Group's remaining contractual maturity for its financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank loans with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other financial liabilities are based on the agreed repayment dates.

3.3 Fair value estimation

The table below analyses the Group's financial instruments carried at fair value by level of the inputs to valuation techniques used to measure fair value. Such inputs are categorised to three levels within a fair value hierarchy as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group's financial assets and financial liabilities that are measured at fair value:

There were no transfer between levels 1, 2 and 3 during the year.

(a) Financial instruments in level 1

The fair value of financial instruments traded in active markets is based on quoted market prices at the end of the reporting period. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. These instruments are included in level 1.

年內第一級、第二級與第三級之間並無任何 轉換。

(a) 第一級之金融工具

在活躍市場買賣之金融工具之公平值乃 按報告期末之市場報價計算。倘報價可 容易及規律地從交易市場、經銷商、經 紀人、產業集團、股價服務機構或監管 機構中獲得,且該等報價反映按公平原 則磋商的實際及定期發生交易,則該市 場視為活躍。該等工具屬第一級。

For the year ended 30 June 2025 截至二零二五年六月三十日止年度

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

3.3 Fair value estimation (continued)

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

If one or more of the significant inputs are not based on observable market data, the instrument is included in level 3.

Level 2 fair value for fund investment has been determined based on the quote price given by the fund administrator by reference to the net asset value of the relevant fund investment.

3.3 公平值估計(續)

(b) 第二級之金融工具

並非在活躍市場買賣之金融工具(如場外交易衍生工具)之公平值採用估值技術產定。該等估值技術充分利用可獲得的可觀察市場數據,從而盡量減少依賴實體之特定估計數據。倘按公平值計量之工具的所有重大輸入值均可觀察獲得,則該項工具屬第二級。

倘一個或多個重大輸入值並非根據可 觀察市場數據釐定,則該項工具屬第三 級。

基金投資之第二級公平值乃按基金管理 人參考有關基金投資的資產淨值提供之 報價計算釐定。

The fair value represents the difference between the fair value of a subsidiary (affected by the fair value of the property under receivership and aggregated outstanding amount of the bank loan with accrued interest) and the amount of the loan from the finance company as at 30 June 2025 as detailed in notes 8, 32, 33 and 40.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(a) Going concern basis

These consolidated financial statements have been prepared on a going concern basis, the validity of which depends on the Group's ability to obtain sufficient future funding which are depends on the results of the measures undertaking by the Group as described in note 2.1.1 to the consolidated financial statements.

(b) Impairment of non-financial assets

The Group tests whether non-financial assets have suffered any impairment in accordance with the accounting policy stated in Note 2.9. Determining whether non-financial assets are impaired requires an estimate of the value-in-use of the asset. Estimating the value-in-use requires the Group to make an estimate of the expected future cash flows from the assets and also choose a suitable discount rate in order to calculate the present value of those cash flows. Where the actual future cash flows are less than expected, a material impairment loss may arise.

The carrying amount of property, plant and equipment as at 30 June 2025 was approximately HK\$4,402,000 (2024: HK\$4,133,000).

The carrying amount of right-of-use assets as at 30 June 2025 was approximately HK\$3,050,000 (2024: HK\$209,000).

The carrying amount of intangible assets as at 30 June 2025 was approximately HK\$7,274,000 (2024: HK\$9,965,000).

4. 重大會計估計及判斷

估計和判斷會被持續評估,其根據過往經驗以及其 他因素而作出,包括在有關情況下被視為對未來事 件之合理預期。

本集團對未來作出估算及假設。所得的會計估算顧 名思義極少與其實際結果相同。導致下個財政年度 的資產與負債賬面值須作出重大調整之重大風險估 算及假設討論如下。

(a) 持續經營的基礎

這些綜合財務報表是在持續經營的基礎上編制的,其有效性取決於本集團未來獲得充足資金的能力,而未來資金又取決於本集團採取綜合財務報表附註2.1.1所述的措施之結果。

(b) 非金融資產減值

本集團會按附註2.9所載會計政策,測試非金融資產有否出現減值。測試非金融資產有否出現減值的規議企之使用價值。估計使用價值時,本集團須估計該資產之預期未來現金流量,並須選擇適當之貼現率以計算該等現金流量之現值。若實際未來現金流量低於預期,則可能出現重大減值虧損。

於二零二五年六月三十日,使用權資產的賬面值約港幣3,050,000元(二零二四年:港幣209,000元)。

(c) Impairment of financial assets

The Group makes provision for impairment of receivables based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's historical credit loss as well as current and forward looking estimates at the end of each reporting period.

As at 30 June 2025, the carrying amount of accounts receivable was approximately HK\$16,317,000 (net of allowance for accounts receivable of approximately HK\$3,480,000) (2024: HK\$5,036,000 (net of allowance for accounts receivable of approximately HK\$12,649,000)).

4. 重大會計估計及判斷(續)

(c) 金融資產減值

本集團基於有關違約風險及預期虧損率之假設計提應收賬款之減值撥備。本集團於制定該等假設及選擇輸入值時需基於本集團之過往信貸虧損以及於各報告期末之當前及前瞻性估計作出判斷。

於二零二五年六月三十日,應收賬項賬面金額約為港幣16,317,000元(扣除應收賬項撥備約港幣3,480,000元)(二零二四年:港幣5,036,000元(扣除應收賬項撥備約港幣12,649,000元))。

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

(d) Valuation of derivatives

Due to the circumstances stated in notes 33 and 34, the Group recognises the derivative financial asset/liabilities measured at FVTPL based on the fair value of the property under receivership together with the carrying amount of the relevant assets and liabilities on the commencement date of the receivership, date of deconsolidation and at the end of the reporting period. The determination of the fair value of the property under receivership involves judgement and the change of its fair value may cause a material adjustment to the carrying amount of the derivative financial asset/liabilities measured at FVTPL at the end of each reporting period.

As at 30 June 2025, the carrying amount of derivative financial liabilities at FVTPL was approximately HK\$Nil (2024: HK\$252,767,000).

Total contract liabilities

(i) Significant changes in contract liabilities

Payments are usually received in advance under the contracts which are mainly from provision of technical and maintenance services. The significant increase in contract liabilities in the current year was mainly due to more projects awarded to the Group and more advances received from customers resulting an increase in contract liabilities.

(ii) Revenue recognised in relation to contract liabilities

Revenue recognised during the year ended 30 June 2025 that was included in the contract liability balance at the beginning of the year was approximately HK\$23,034,000 (for the year ended 30 June 2024: HK\$17,572,000).

(i) 合約負債的重大變化

提供技術及維修服務的合同付款一般會 提前收到。本年度合同負債的顯著增長 是由於本集團得到較多的項目及收到 較多的客戶預付款項,因此合約負債增 加。

(ii) 就合約負債確認之收入

於年初計入合約負債結餘並於二零二五年六月三十日止年度確認之收入約為港幣23,034,000元(截至二零二四年六月三十日止年度:港幣17,572,000元)。

11. INCOME TAX EXPENSE/(CREDIT)

Hong Kong Profits Tax is calculated at the rate of 16.5% (2024: 16.5%) on the estimated assessable profits for the year. No provision for Hong Kong Profits Tax has been made for the years ended 30 June 2025 and 2024 as the Group had no assessable profits arising in or derived from Hong Kong for both years.

The applicable enterprise income tax rate for PRC subsidiaries is 25% (2024: 25%) except for subsidiaries which are qualified as High and New Technology Enterprises and would be entitled to enjoy a beneficial tax rate of 15% (2024: 15%).

11. 所得税支出/(抵免)

香港利得税乃就年內於香港產生之估計應課税溢利按16.5%税率(二零二四年:16.5%)計算。由於本集團於截至二零二五年六月三十日止年度及截至二零二四年六月三十日止年度均無在香港產生或賺取任何應課税溢利,故此在上述兩個年度並無作出香港利得稅撥備。

For the year ended 30 June 2025 截至二零二五年六月三十日止年度

11. INCOME TAX EXPENSE/(CREDIT) (CONTINUED)

Under the Laws of the People's Republic of China on Enterprise Income Tax, PRC withholding income tax is applicable to dividends payable to investors that are "non-PRC tax resident enterprises", which do not have an establishment or place of business in the PRC, or which have such establishment or place of business but the relevant income is not effectively connected with the establishment or place of business, to the extent such dividends have their sources within the PRC. Under such circumstances, dividends distributed from a PRC subsidiary to non-PRC tax resident group entity in Hong Kong in respect of profits generated after 1 January 2008 shall be subject to the withholding tax at 10%, unless the Hong Kong company can be approved to enjoy a reduced rate of 5% pursuant to the Arrangement between the Mainland of China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes on Income.

11. 所得税支出/(抵免)(續)

根據中華人民共和國企業所得稅法,中國預扣所得稅適用於應付屬「非中國居民納稅企業」投資者的股息,該等非中國居民納稅企業於中國並無機構或營業地點,或其於中國設有機構或營業地點與該機構或營業地點無關,惟以該等情況下,中國附屬公司就二零零八年一月一日起所賺取溢剩約10%的預和稅,除非根據中國內地與香港特別行政區關於對所得稅避免雙重徵稅和防止偷漏稅的安排,香港公司可獲批准享有調低至5%的稅率。

(iv) Impairment assessment

As at 30 June 2025 and 2024, due to continuous poor performance of the cash-generating unit ("CGUs") "Provision of traditional computer lottery system and equipment" and "Ecotourism", the management of the Group concluded there was indication for impairment and conducted impairment assessment on recoverable amounts of certain property, plant and equipment, right-of-use asset, and intangible assets attributable to the CGUs.

The recoverable amount of the CGUs have been determined based on a value-in-use calculation. That calculation used a cash flow projections based on financial budgets approved by the management of the respective subsidiary covering the next 5 years with a pre-tax discount rate of 22% (2024: 13%). The annual growth rate used is 2.5% (2024: 3%), which is based on the industry growth forecasts and does not exceed the long-term average growth rate for the relevant industry. The cash flow projection was further extrapolated without any growth. Another key assumption for the value-in-use calculation is the budgeted gross margin, which is determined based on the CGUs' past performance, management expectations for the market development and taking into consideration of estimation uncertainties in the current year due to uncertainty on volatility in financial markets including potential disruptions of the Group's operations.

At 30 June 2025, the bank borrowings carry interest at range from 2.6% to 10.6% (2024: 3.6%) per annum.

At 30 June 2025, the Group's bank and other borrowings were secured by: (i) the Group's owned property with an aggregate carrying amount of approximately HK\$2,662,000 (2024: 2,615,000) and (ii) a personal guarantee provided by a director of the Company.

During the year ended 30 June 2024, the Group failed to meet the repayment terms for the secured bank loan of HK\$162,000,000, leading to a default on its obligations. Subsequently, the bank initiated legal action by issuing a writ of summons in court, seeking payment for all outstanding amounts owed and the surrender of the Property.

In May 2024, the court ruled in favor of the bank, upholding the claim and ordering the Group to settle all outstanding debts to the bank and surrender the Property. The bank loan was thus considered settled and derecognised for the year ended 30 June 2024.

於二零二五年六月三十日,銀行借貸按年利率介乎 2.6%至10.6%之間(二零二四年:3.6%)計息。

於二零二五年六月三十日,本集團的銀行及其他借款以:(i)本集團賬面總額約港幣2,662,000元(二零二四年:2,615,000)的自用物業及(ii)由本公司董事提供的個人擔保作為抵押。

截至二零二四年六月三十日止年度,本集團未能滿足有抵押銀行貸款港幣162,000,000元的償還條款,導致其債務違約。隨後,銀行向法院發出傳票,提起法律訴訟,要求支付所有欠款並交出財產。

於二零二四年五月,法院作出有利於債權人的裁決,維持債權人的主張,並命令集團償還債權人的所有未償債務並交出該房產。因此,截至二零二四年六月三十日止年度,銀行貸款被視為已結算並終止確認。

For the year ended 30 June 2025 截至二零二五年六月三十日止年度

33. BANK AND OTHER BORROWINGS (CONTINUED)

The default of the aforementioned bank loan has triggered a cross default clause on the secured loan from a finance company borrowed by Goldwide Limited ("Goldwide"), a subsidiary of the Company, which was considered disposed of during the year ended 30 June 2024 as detailed in note 42. This loan was secured by (i) a second mortgage over the Property and (ii) a corporate guarantee from the Company. The Group has not repaid the outstanding principal and interest when it became due for repayment.

Consequently, since the default of the secured bank loan and the loan from the finance company, the Group has recorded a liability due to the aforesaid corporate guarantee, the derivative financial liabilities at FVTPL of approximately HK\$31,688,000 and subsequently remeasured at fair value of HK\$83,990,000 at the end of the reporting period. The fair value represents the difference between the net asset of Goldwide (including the fair value of the Property and aggregated outstanding amount of the bank loan with accrued interest) and the amount of the loan from the finance company as at 30 June 2024.

On 20 December 2024, the Property was sold. The proceeds from this sale were applied towards the repayment of the outstanding principal amount of the Defaulted bank loans, which is HK\$162,000,000.

After the application of the sale proceeds, outstanding balances remained on both the Defaulted bank loans and a loan from a finance company, which had not yet been fully repaid. Accordingly, these outstanding amounts were reclassified from derivative financial liabilities at FVTPL to bank and other borrowings as of the date the Property was sold.

As at 30 June 2025, the outstanding principal amounts of the defaulted bank loans and the loan from a finance company were approximately HK\$60,688,000 and HK\$71,285,000, respectively. The accrued interest on these loans was approximately HK\$24,401,000 and HK\$22,611,000 respectively, and as detailed in Note 30.

33. 銀行及其他借貸(續)

上述銀行貸款的違約已觸發本公司附屬公司豫威有限公司(「豫威」)向一家金融公司借入的擔保貸款產生交叉違約條款,該貸款已於截至二零二四年六月三十日止年度被視為已處置詳情請參閱註42。該貸款由(i)該物業的第二抵押及(ii)本公司的公司擔保作為擔保。本集團於到期日未償還本金及利息。

因此,自擔保銀行貸款和金融公司的貸款違約後,本集團已在公平價值變動計入損益中記錄了因上述之公司擔保而產生的負債,以公平價值變動計入損益的衍生金融負債約為港幣31,688,000元,其後於報告期末以公平值重新計量為港幣83,990,000元。公平價值於二零二四年六月三十日,豫威的淨資產為(包括物業的公平價值和銀行貸款的累積未償還金額及應計利息)與金融公司貸款金額之間的差額。

二零二四年十二月二十日,該物業已被出售,出售 所得款項用於償還拖欠銀行貸款的未償還本金,即 港幣162,000,000元。

在運用銷售收益後,拖欠的銀行貸款和財務公司貸款仍有未償還餘額,尚未完全償還。因此,自該物業出售之日起,這些未償還金額從以公平值計入損益的衍生性金融負債重新分類為銀行借款和其他借款。

於二零二五年六月三十日,違約銀行貸款及來自財務公司的貸款的未償還本金額分別約為港幣60,688,000元及港幣71,285,000元,該等貸款的應計利息分別約為港幣24,401,000元及港幣22,611,000元,詳情載於附註30。

34. UNLISTED BONDS (CONTINUED)

On 5 May 2022, the Company reached an agreement with the holders of New Option 1 Bonds to further extend the maturity date from 7 November 2022 to 7 November 2023. 100% of New Option 1 Bonds was repayable in one lump sum on 7 November 2023 and bears interest at 7.0% per annum with effective from 5 May 2022. A share charge over all of the issued shares in the share capital of the Goldwide, a wholly-owned subsidiary of the Company and the registered owner of the Property, was provided as security by the Company in favour of the holders.

On 20 January 2023, an adjustment was made to the conversion price as a result of the Share Consolidation. The conversion price was adjusted to HK\$33.80 per share and the maximum number of shares that will be issued upon conversion of all the outstanding New Option 1 Bonds at the adjusted conversion price is 4,561,005 shares.

The New Option 1 Bonds contained two components, a liability component and derivatives (including conversion option) component before the maturity date. As at 30 June 2023, the effective interest rate of the liability component was 6.94% per annum. The derivatives component was measured at fair value with changes in fair value recognised in profit or loss. A binomial Model was used for valuation of the derivatives component.

As of 10 November 2023, the Group has not fulfilled the payment obligations for the principal amount and the last instalment of interest on the New Option 1 Bonds. On 20 December 2023, the holders of New Option 1 Bonds informed the Group that Joint and Several Receivers and Managers were appointed on 18 December 2023, over all shares of Goldwide pursuant to the share charge provided. Subsequently, they exercised their rights under the share charge to appoint new directors to deal with all affairs of Goldwide.

Consequently, the Group lost control over Goldwide, resulting in the reclassification of the convertible bonds as derivative financial liabilities at FVTPL upon the deconsolidation of Goldwide. The fair value represents the difference between the fair value of the shares of Goldwide pledged and the amount due on the convertible bonds.

34. 非上市债券(續)

於二零二二年五月五日,本公司與新選擇權1債券之持有人達成協議,將到期日由二零二二年十一月七日進一步延期至二零二三年十一月七日。所有新選擇權1債券應於二零二三年十一月七日一次性償還,並自二零二二年五月五日起按年息7.0%計息。本公司全資附屬及一間位於香港的物業的登記擁有人豫威的股本中所有已發行股份將由本公司以持有人為受益人提供作為擔保。

於二零二三年一月二十日,新選擇權1債券之換股價因股份合併進行了調整。換股價調整為每股份港幣33.80元,而所有尚未轉換之新選擇權1債券而發行的最高股份數目,於調整換股價後為4,561,005股股份。

新選擇權1債券包括兩個部分,在到期日前分別為負債部分及衍生工具(包括兑換選擇權)部分。截至二零二三年六月三十日,負債部分的實際年利率為6.94%。衍生工具部分按公平值計量,公平值變動於損益確認。衍生工具部分採用二項式模型而估值。

截至二零二三年十一月十日,本集團尚未履行新選擇權1債券之本金及最後一期利息的支付義務。二零二三年十二月二十日,新選擇權1債券的託管人通知本集團,根據豫威全部股份的股份押記,於二零二三年十二月十八日任命了聯合及個別接管人和管理人。隨後,他們根據股份押記行使權利,任命新董事處理豫威的所有事務。

因此,本集團失去了對豫威的控制權,導致終止綜合入賬豫威後,可轉股債券重新分類為按公平價入 賬損益計量之衍生金融負債。公平值是指已被抵押 的豫威股份與可換股債券金額之間的差額。

34. UNLISTED BONDS (CONTINUED)

Upon the Extraordinary Resolution to be passed, the unlisted Bonds will be issued in registered form, in denominations of HK\$1,000,000 and integral multiples of HK\$1,000 thereafter (each an "Authorised Denomination"). The bonds carry an interest rate of 7% per annum on the outstanding principal amount thereof, with interest accruing daily on a 365-day basis and payable annually in arrears and default interest rate at 2% per annum above the rate aforesaid. The maturity date of the New Bonds is 10 July 2025. These bonds represent direct, unsubordinated, unsecured, and unconditional obligations of the Company, ranking pari passu and without any preference or priority among themselves. Except as otherwise required by applicable law and subject to the negative pledge provisions relating to the creation or existence of security interests, the Company's payment obligations under the New Bonds will at all times rank at least equally with all of its other present and future unsecured and unsubordinated obligations. No application will be made for the listing of the New Bonds.

As disclosed in the announcement of the Company dated 30 May 2025, the Company intends to pursue a debt restructuring involving a scheme of arrangement to be entered into between the Company and the creditors. Given that the New Option 1 Bonds is governed by English law and the New Bonds will be governed by Hong Kong law, the Company considers that the Exchange Proposal, if materialized, will be able to save time and costs of the Company in implementing the proposed scheme of arrangement.

Deferred tax assets are recognised for tax loss carry-forwards to the extent that the realisation of the related tax benefit through future taxable profits is probable. At 30 June 2025, the Group did not recognise deferred income tax asset in respect of tax losses amounting to approximately HK\$534,774,000 (2024: HK\$900,782,000) that can be carried forward to offset against future taxable profits. Tax losses amounting to approximately HK\$124,527,000 (2024: HK\$475,069,000) will expire from 2025 to 2029 (2024: 2024 to 2028).

本公司會就結轉之稅務虧損確認遞延稅項資產,惟以未來有可能取得應課稅溢利令有關稅項福利得以變現之情況為限。於二零二五年六月三十日,本集團並無就可予結轉以抵銷未來應課稅溢利之稅務虧損約港幣534,774,000元(二零二四年:港幣900,782,000元)確認遞延所得稅資產。約港幣124,527,000元(二零二四年:港幣475,069,000元)之稅務虧損將於二零二五年至二零二九年(二零二四年:二零二四年至二零二八年)屆滿。

At 30 June 2025, deferred tax liabilities have not been provided for in the consolidated financial statements in respect of temporary differences attributable to accumulated profits of certain PRC subsidiaries amounting to approximately HK\$nil (2024: HK\$Nil) as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.
