# VOLUNTARY ANNOUNCEMENT
# MEDICAL IMAGING DATA CO-CONSTRUCTION COOPERATION PROJECT

This announcement is made by the board (the "**Board**") of directors (the "**Directors**") of Jiangxi Rimag Group Co., Ltd. (the "**Company**", together with its subsidiaries collectively referred to as the "**Group**") on a voluntary basis.

The Board is pleased to announce that, in October 2025, Beijing Rimag Sunshine Medical Information Technology Co Ltd. (北京一脈陽光醫學信息技術有限公司) ("**Beijing Rimag**"), a subsidiary of the Group, jointly signed the Data Co-construction Cooperation Agreement with Beijing Data Pioneer Zone Service Co., Ltd. (北京數據先行區服務有限公司) ("**Beijing Pioneer Zone**") and Beijing International Computing Power Service Co., Ltd. (北京國際算力服務有限公司) ("**Beijing Computing Power**"). Beijing Pioneer Zone is the operational entity of the pilot program of the Beijing Artificial Intelligence Data Sandbox (the "**Data Sandbox**") authorized by the Beijing Municipal Bureau of Economy and Information Technology, responsible for providing data processing, compliance review and model training support. Beijing Computing Power provides technical infrastructure such as trusted storage and computing power resources.

This collaboration aims that, leveraging the compliance regulatory framework of the Data Sandbox, and based on medical imaging data resources provided by Beijing Rimag, data processing and compliance verification undertaken by Beijing Pioneer Zone, and computing power and storage support provided by Beijing Computing Power, the three parties jointly establish a high-quality medical imaging database, conduct large-model training, and explore innovative application scenarios for medical imaging data.

It is worth mentioning that, on late October 2025, the medical imaging database jointly established by the three parties successfully realized its first commercialization contract execution within the Data Sandbox by providing an external large-model training with a service fee of RMB10 million, which marks a substantial breakthrough achieved by the Group in promoting the marketization and value realization of medical imaging data elements.

This cooperation not only promotes the value transformation of the Group's data assets through a compliant and novel co-construction mechanism, but also further deepens the Group's strategic layout in the data business sector, strengthening its comprehensive competitiveness in AI-based medical imaging. The rapid realization of commercial revenue has verified the market potential of this cooperation model and injected new impetus into the sustainable development of the Group.

The Board believes that, this cooperation aligns with the national policies in respect of market-oriented allocation of data elements and is expected to have a positive effect on the business development of the Group.

**Shareholders of the Company and potential investors are advised to exercise caution when dealing in the shares of the Company.**

By order of the Board
**Jiangxi Rimag Group Co., Ltd.**
**江西一脈陽光集團股份有限公司**
**Mr. CHEN Zhaoyang**
*Chairman of the Board, Executive Director and Chief Executive Officer*

Hong Kong, November 3, 2025

*As at the date of this announcement, the Board comprises Mr. CHEN Zhaoyang, Ms. HE Yingfei, Mr. FENG Xie and Mr. LI Feiyu as executive Directors, Mr. LIU Senlin and Mr. GUO Tao as non-executive Directors, and Mr. WU Xiaohui, Mr. LUO Yi and Ms. CHEN Yifei as independent non-executive Directors.*
