MANAGEMENT DISCUSSION AND ANALYSIS

INTERIM RESULTS

During the Period, the Company recorded a loss of approximately HK$2,814,000 (six months ended 30 September 2024: loss of approximately HK$3,088,000), representing a decrease in loss for the Period of approximately HK$274,000 as compared with the six months ended 30 September 2024 (the "**Corresponding Period**") mainly due to the increase of net investment gain during the Period and the decrease in general and administrative expenses for the Period.

Net investment gain of approximately HK$106,000 was recognised for the Period while net investment gain of approximately HK$39,000 was recognised for the Corresponding Period. The general and administrative expenses for the Period amounted to approximately HK$2,914,000, representing a decrease by approximately HK$210,000 as compared with that for the Corresponding Period, which was mainly due to lower legal and professional fees and staff costs (including directors' emoluments), which outweighed the increase of investment management fee.

BUSINESS REVIEW AND PROSPECTS

The path of global economy recovery in 2025 remains fraught with challenges, shaped by uncertainties and drastic changes.

China-U.S. relations were volatile. Tensions escalated once again following a confrontation over controls on rare earth exports, a move that came in response to the U.S. threatening to impose additional tariffs on Chinese goods. The situation was alleviated after a face-to-face meeting between the two heads of state, who agreed to extend the temporary trade truce for 1 year.

Furthermore, geopolitical conflicts continued to create instability. Although a ceasefire ended the Israeli-Palestinian conflict which persisted for over 2 years, the ongoing conflict between Russia and Ukraine remained a major source of global supply chain disruption for businesses worldwide.

The Hong Kong stock market became increasingly volatile, with the Hang Seng Index experiencing significant daily price swings. This turbulence is anticipated to persist due to evolving Chinese and U.S. tariff policies.

Looking ahead, the Hong Kong economy is expected to remain vulnerable in 2025. According to the statistics published by the Government of Hong Kong, the Hong Kong economy continued to improve in the third quarter of 2025, with real GDP rising by 0.7% in the third quarter on a seasonally adjusted quarter-to-quarter comparison. However, the seasonally adjusted unemployment rate increased from 3.5% to 3.9% in the third quarter, with the underemployment rising from 1.4% to 1.6%.

During the six months period ended 30 September 2025, the Company invested in several short-term U.S. Treasury positions to secure lower-risk returns.

Despite the volatility of the worldwide economy and investment market, the Board continued to adopt a relatively cautious approach for the Company's investments and business development, and has been closely monitoring the business and industry development of potential investment targets. Going forward, the Board shall continue to stay well informed of global economic and investment market trends and examine the Hong Kong market situation vigilantly in order to make necessary adjustments to the investment strategies as and when appropriate.

A brief description of the business and financial information of the investments held by the Company as at 30 September 2025 is as follows:

The Directors are of the view that with the very strong financial position of the U.S. government, U.S. Treasury Bills could provide a steady interest income to investors. The Directors considered U.S. Treasury Bills as a lower-risk security. Treasury bills are debt obligations issued by the U.S. Department of the Treasury. Treasury securities are considered one of the safest investments because they are backed by the full faith and credit of the U.S. government. The Company would increase or reduce the holdings on the U.S. Treasury Bills, depending on a number of factors including the investment environment.

The Company did not have any acquisitions and disposals of subsidiaries, associates and joint ventures during the Period.

CONTINUING CONNECTED TRANSACTION – APPOINTMENT OF INVESTMENT MANAGER

The Investment Manager is regarded as a connected person of the Company under Rule 14A.08 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Listing Rules**"). Accordingly, the transaction under the Investment Management Agreement constituted a continuing connected transaction of the Company. The maximum annual aggregate amount of the investment management fee and related expenses to be paid by the Company to SSHK pursuant to the Investment Management Agreement shall not exceed HK$480,000 per annum, which is less than HK$3,000,000 and 5% in respect of each of the percentage ratios prescribed under Rule 14.07 of the Listing Rules. The transaction contemplated under the Investment Management Agreement is therefore fully exempt from shareholders' approval, annual review and all disclosure requirements pursuant to Rule 14A.76(1)(c) of the Listing Rules.
