A. The Group's investment in Property Development

The Weihai Property

The Weihai Property consists of three high rise hotel buildings with a total gross floor area of approximately 195,000 square metres, which were all originally intended for hotel use. The Group's management observed that Weihai has become an increasingly popular destination for the retired population in recent years which, coupled with the rapid growth of the tourism sector, has resulted in a consistent influx of migrants and an increased demand for properties. The Group's management considered such development in Weihai will continue to benefit its hotel industry and the local property market. In light of the above, the Group's management resolved in the financial year of 2017/2018 that approximately 130,000 square metres of the gross floor area of the Weihai Property shall be renovated and sold as serviced apartments.

Financing of development of the Weihai Property (Continued)

In November 2018, Weihai Runhe entered into an entrusted debt investment agreement with 亞聯盟資產管理有限公司, through Harbin Bank Tianjin Branch, pursuant to which Weihai Runhe obtained a loan facility of RMB660 million (equivalent to HK\$815 million) for a term of 3 years, bearing interest at 6.6% per annum. The final drawdown amount by Weihai Runhe was RMB500 million with the remaining undrawn facility amount lapsed.

The Group's management considered that the Weihai Property would be sufficiently financed through (i) the cash flow generated from pre-sale of the serviced apartments; (ii) loan facilities such as the facilities mentioned above; (iii) financing of the development costs by contractor for obtaining interest return from the Group; and (iv) other capital arrangements as may be entered into by the Group from time to time.
