Jiangsu Lopal Tech. Group Co., Ltd.

ANNOUNCEMENT ON PRODUCTION REDUCTION AND MAINTENANCE OF PARTIAL PRODUCTION LINES OF A CONTROLLED SUBSIDIARY

The board of directors and all directors of the Company warrant that the content of this announcement does not contain any false records, misleading statements or material omissions, and jointly and severally accept responsibility for the authenticity, accuracy and completeness of its content.

Since the fourth quarter of 2025, the lithium iron phosphate production lines at Changzhou Liyuan New Energy Technology Co., Ltd. (常州鋰源新能源科技有限公司) (hereinafter referred to as "Changzhou Liyuan"), a controlled subsidiary of Jiangsu Lopal Tech. Group Co., Ltd. (hereinafter referred to as the "Company"), have been operating at overcapacity. To ensure the safe, stable, and efficient operation of the lithium iron phosphate production lines, Changzhou Liyuan will implement scheduled production reduction and maintenance on certain production lines from January 1, 2026. The maintenance period is expected to last for one month.

The partial production reduction and maintenance is undertaken to safeguard the continuous and stable operation of the lithium iron phosphate production lines. The maintenance is projected to reduce Changzhou Liyuan's lithium iron phosphate output by approximately 5,000 tons. It is not expected to have a material impact on the Company's 2026 operating performance. The Company will continue to monitor the progress of the production reduction and maintenance in accordance with relevant regulations and fulfill its information disclosure obligations in a timely manner. All investors are advised to remain alert to investment risks.

The announcement is hereby made.

The board of directors of Jiangsu Lopal Tech. Group Co., Ltd.
