VOLUNTARY ANNOUNCEMENT

This announcement is made by Q Technology (Group) Company Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) on a voluntary basis. Unless otherwise specified, the statistical basis for sales volume of products referred to in this announcement shall be consistent with those set forth in the announcement of the Company dated 11 November 2025.

The board (the “**Board**”) of directors (the “**Director(s)**”) of the Company wishes to announce that the sales volume of major products of the Group and Kunshan Q Tech Microelectronics (India) Private Limited (“**Q Tech India**”), an associate of the Company, in December 2025 is as follows:

I. The Sales Volume of Major Products of the Group

Product Categories	December 2025 (’000 units)	Change Month-on- Month (“MoM”) (%)	Change Year- on-Year (“YoY”) (%)

–Among which Camera Modules below 32 Megapixels	26,976	23.7	116.2
–Among which Camera Modules of 32 Megapixels and above	16,104	–0.9	–11.1

Total Sales Volume of Fingerprint Recognition Modules	17,947	0.9	–12.0

The YoY and MoM increase in the total sales volume of camera module products was mainly attributable to the rising demand from overseas customers and the continuous expansion in supply share, resulting in significant growth in the sales volume of camera modules below 32 megapixels. Meanwhile, sales volume of camera modules for other fields have continued to improve, with the Group's camera modules used in the Internet of Things (IoT) and smart vehicles both experiencing substantial year-on-year growth in sales volume.

The YoY decrease in the sales volume of fingerprint recognition module products was mainly attributable to the fact that some products manufactured and sold by Q Tech India have not been included in the Group's sales volume since 26 September 2025 (inclusive), whereas no such situation occurred in the same period last year.

The sales volume of major products of the Group for the period from January to December 2025 is as follows:
