POSITIVE PROFIT ALERT

This announcement is made by Q Technology (Group) Company Limited (the "**Company**", together with its subsidiaries, the "**Group**") pursuant to Rule 13.09(2)(a) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Listing Rules**") and Part XIVA of the Securities and Futures Ordinance (Chapter 571, Laws of Hong Kong).

The board of directors of the Company (the "**Board**") wishes to inform the shareholders of the Company (the "**Shareholders**") and potential investors that, based on the information currently available to the Company and the preliminary review by the Board on the unaudited management accounts of the Group for the year ended 31 December 2025 (the "**Year**"), it is expected that the consolidated profit of the Group for the Year increased by approximately 400% to 450% as compared to the consolidated profit of the Group of approximately RMB279,068,000 for the year ended 31 December 2024 (the "**Corresponding Period**").

The Board believes that the expected significant year-on-year increase in the consolidated profit is primarily due to the following factors: (i) the Group remains unwavering in advancing the Strategic Plan for the Five-Year (2021-2025) Operation and Development of Q Technology (Group) Company Limited (《丘鈦科技(集團)有限公司五年(2021-2025年)經營發展戰略規劃》) and accelerating the business development of intelligent vision products in non-handset fields. During the Year, the rapid growth of the global intelligent driving and Internet of Things (IoT) smart terminal industries has driven significant increases in both the demand volume and product specifications for camera modules. The Group maintains strong collaborative relationships with globally leading intelligent driving solution providers, handheld imaging device brands, and other leading IoT smart terminal brands, which has enabled the Group to achieve a year-on-year doubling in sales volume of camera modules applied in other fields, thereby contributing to steady year-on-year growth in the Group's revenue; (ii) the Group continues to adhere to a business strategy focused on mid-to-high-end camera modules and fingerprint recognition modules. Sales volumes of periscope camera modules, optical image stabilization camera modules, and ultrasonic fingerprint recognition modules recorded substantial year-on-year growth. The expansion in scale of high-end products has effectively enhanced the added value of the Group's products. Meanwhile, the Group vigorously promotes intelligent transformation and digital upgrading initiatives, achieving significant progress in operational efficiency, development capabilities, quality assurance, and delivery performance compared to the Corresponding Period. The steady growth in revenue, improvement in the product mix, and effective optimization of internal operations collectively contributed to a notable enhancement in the Group's gross profit margin; and (iii) during the Year, the Group completed disposal of approximately 51.08% equity interest in Kunshan Q Tech Microelectronic (India) Private Limited, a subsidiary of the Company (the "**Transaction**"), from which the Group recorded a gain. Meanwhile, the operating performance of an associate of the Group improved compared to the Corresponding Period, resulting in a share of profits from associates attributable to the Company, whereas a share of losses from associates was recorded in the Corresponding Period.

The information contained in this announcement is only based on the information currently available to the Company and the preliminary review by the Board on the unaudited management accounts of the Group for the Year, which have not been reviewed or audited by the independent auditors and/or the audit committee of the Company. Therefore, the actual financial results of the Group for the Year may differ from what is disclosed in this announcement. Shareholders and potential investors are advised to read carefully about the announcement of the Company for the annual results for the Year, which is expected to be published in mid-to-late March 2026 in accordance with the requirements of the Listing Rules.

Shareholders and potential investors are advised to exercise caution when dealing in the shares of the Company.

By Order of the Board
