Notes:

1. Traditional energy business includes thermal power, hydropower, power transmission and transformation and nuclear power business etc. In 2025, the value of newly-signed contracts of the traditional energy business in the construction and contracting segment of the Company declined year-on-year, primarily due to fluctuations in newly signed contracts of such business in overseas markets. However, it maintained the good growth momentum in the domestic market, and continued to achieve a relatively rapid growth of 20% in 2025 on the basis of the 49% high-speed growth in 2024.

2. New energy and comprehensive intelligence energy business includes wind power, solar power generation, biomass power generation, comprehensive intelligence energy, various energy storage (including pumped energy storage), hydrogen energy, geothermal and other new energy.

3. Urban construction business includes municipal, housing construction and real estate development etc.

4. Comprehensive transportation business includes highway, railway, urban rail transportation, airport, port and navigation etc.

5. The breakdowns shown in the above table may not add up to the total number due to rounding.

II. STATISTICS BASED ON REGIONAL DISTRIBUTION

Unit: billion Yuan Currency: RMB

Regional distribution	Total value of newly-signed contracts for the year	Increase/decrease over same period last year
Domestic	1,098.711	1.05%
Overseas	350.673	9.05%
Total	1,449.384	2.88%

The above-mentioned information is preliminary statistics. Since there are uncertainties, the abovementioned information may vary from the information to be disclosed in the periodic reports.
