CONTINUING CONNECTED TRANSACTION SHIPPING FRAMEWORK AGREEMENT

Shipping Framework Agreement

On 28 January 2026, the Company entered into the Shipping Framework Agreement with Minmetals Shipping in relation to the provision of ocean transport by Minmetals Shipping for the shipment of the products of the Group.

Minmetals Shipping is a wholly-owned subsidiary of CMC, the ultimate controlling shareholder of the Company, and is therefore an associate of CMC and a connected person of the Company under the Listing Rules. As a result, the Shipping Framework Agreement constitutes a continuing connected transaction for the Company.

As all of the relevant percentage ratios in respect of the Shipping Framework Agreement are more than 0.1% but less than 5%, the transaction constitutes a continuing connected transaction which is subject to the reporting, annual review and announcement requirements, but exempt from the independent shareholders' approval requirements, under Chapter 14A of the Listing Rules.

SHIPPING FRAMEWORK AGREEMENT

As part of the ordinary and usual course of business, the Group engages ocean transport from various shipping services providers and/or brokers for the shipment of its products, including copper, zinc and lead concentrates.

On 28 January 2026, the Company entered into the Shipping Framework Agreement with Minmetals Shipping in relation to the provision of ocean transport by Minmetals Shipping for the shipment of the products of the Group from time to time during the term of the Shipping Framework Agreement.

The principal terms of the Shipping Framework Agreement are set out below.

Parties	: (1) Company (2) Minmetals Shipping
Services to be purchased	: Provision of ocean transport for the shipment of the products of the Group from Peru and Australia to ports nominated by the Group pursuant to specific voyage charter party agreements on normal commercial terms to be negotiated by the parties on an arm's length basis from time to time
Term	: The period from 28 January 2026 to 31 January 2027
Pricing of sea freight	: Prices will be expressed in US Dollars determined on an arm's length basis and consistent with the prevailing international market practice and rates at the time for similar services which shall be based on the freight rate to be paid per wet metric ton, such rate to be inclusive of all port charges, pilotages, light dues, port agents' fees and all other dues usually paid by the relevant vessel. Freight rates are reasonably transparent and marginal pricing differentials are tendered by suppliers due to the competitive international shipping market. Other applicable rates will be as negotiated but will include, without limitation, load rates at an agreed rate of wet metric tons per weather workings days for the applicable port, discharge rates at an agreed rate of wet metric tons per weather working day with agreed laytime and demurrage and despatch rates at a rate of US Dollars per day, that are consistent with the current shipping market for similar services. Such pricing mechanism has been reviewed and considered by the executive committee of the Company and approved by the independent non-executive directors.
Payment terms	: Payment will be made in accordance with the terms of each voyage charter party provided always that 95% of the total payment will be paid on bill of lading weight at least 7 days from signing and release of bills of lading

If the Company wishes to engage ocean transport for the shipment of its products, the Company may advise Minmetals Shipping of its vessel requirements for the particular cargo. The Company may, in addition, place its requirements into the open market through a panel of shipping brokers selected by the Company. Minmetals Shipping may submit an offer to the Company in response to those requirements and the Company will evaluate the offer having regard to current freight market conditions and, where the requirements have been placed in the open market, offers submitted by other parties.

If selected by the Company, Minmetals Shipping shall fix a vessel under a voyage charter party agreement to be negotiated by the parties on commercial arm's length terms, but which will be consistent with the terms of the Shipping Framework Agreement and will include international terms for similar voyage charter party agreements addressing (without limitation) contract/shipment period and spread, nominated vessels, freight rates, payment terms and other usual conditions (including those dealing with laytime, demurrage, loading and discharging terms).

The terms of the Shipping Framework Agreement were arrived at after arm's length negotiations between the Company and Minmetals Shipping.

ANNUAL CAP

The maximum aggregate amount to be paid under the Shipping Framework Agreement for a calendar year during the term of the Shipping Framework Agreement is capped at US\$39 million for 2026. The Annual Cap was determined by reference to the agreed pricing principles set out in the Shipping Framework Agreement, projected production volumes and schedules of the Group, requirements of buyers including loading and discharging points and prevailing and projected international market sea freight rates for similar services from Peru and Australia.

The Company's logistics team within the marketing department will monitor the Annual Caps to ensure they will be within the applicable threshold, and will ensure the pricing of each individual transaction is determined in accordance with the pricing policies under the Shipping Framework Agreement.

All of the Company's continuing connected transactions, including their annual caps, are annually reviewed and discussed by the independent non-executive directors of the Company, to confirm that the transactions are:

1. in the ordinary and usual course of business of the Company;
2. either on normal commercial terms or better; and
3. in accordance with the terms of the relevant agreements of the Company are fair and reasonable and in the interests of the shareholders of the Company as a whole.

The auditor of the Company conducts an annual review of the transactions and provides such written confirmation to the Company's board of directors before release of the Company's annual report.

REASONS FOR AND BENEFITS OF THE SHIPPING FRAMEWORK AGREEMENT

The Group's principal activities include the production of copper, zinc, lead, molybdenum concentrates, cobalt, silver and gold, and as part of its ordinary and usual course of business the Group sells these products and requires ocean transport to deliver such products to its customers. Engaging the services of Minmetals Shipping pursuant to the Shipping Framework Agreement has the benefit of making additional shipping services available to the Company, therefore allowing the Company to maximise its delivery options and to consequently both (i) meet its obligations to customers in a timely manner and (ii) manage the production schedules and ensure efficient operations of Group members.

In view of the continuing nature of the transactions which are the subject of the Shipping Framework Agreement, the Directors (including the independent non-executive Directors) believe that the entering into of the Shipping Framework Agreement has the benefit of reducing the administrative burden and costs associated with compliance with laws and regulations to which the Group is subject.

The Directors who were in office at the time of approving the Shipping Framework Agreement (including the independent non-executive Directors but excluding the Interested Directors) are of the view that the Shipping Framework Agreement is on normal commercial terms, and is fair and reasonable and in the interests of the shareholders of the Company as a whole.

The Interested Directors, each holding position(s) at CMC and/or CMN, have abstained from voting on the Board resolution approving the Shipping Framework Agreement in order to avoid any possible conflict of interest issue. Mr QIAN Song and Mr YUE Wenjun, who were appointed as Directors with effect from 27 January 2026, did not take part in the Board voting on the Shipping Framework Agreement as their appointment occurred after the approval date of the Shipping Framework Agreement by the Board.

LISTING RULES IMPLICATIONS

Minmetals Shipping is a wholly-owned subsidiary of CMC, the ultimate controlling shareholder of the Company, and is therefore an associate of CMC and a connected person of the Company under the Listing Rules. As a result, the Shipping Framework Agreement constitutes a continuing connected transaction for the Company.

Pursuant to Rule 14A.76(1) of the Listing Rules, as all of the relevant percentage ratios in respect of the Shipping Framework Agreement are more than 0.1% but less than 5%, the transaction constitutes a continuing connected transaction which is subject to the reporting, annual review and announcement requirements, but exempt from the independent shareholders' approval requirements, under Chapter 14A of the Listing Rules.

The Shipping Framework Agreement also includes a provision which entitles the Company to suspend or terminate the Shipping Framework Agreement or any individual voyage charter party that has been entered into by the parties should the Company be unable to satisfy any requirements of the Listing Rules.

INFORMATION ABOUT THE GROUP

The Group is engaged in the exploration, development and mining of zinc, copper, gold, silver, molybdenum and lead deposits around the world.

INFORMATION ABOUT MINMETALS SHIPPING

Minmetals Shipping is a wholly-owned subsidiary of CMC, the ultimate controlling shareholder of the Company. Minmetals Shipping is principally engaged in the business of providing ocean transport for dry bulk cargo, break-bulk and containers for operations such as the Group and the shipping market in general.
