ANNOUNCEMENT IN RELATION TO PUBLIC FLOAT

This announcement is made by FIT Hon Teng Limited (the "**Company**", and together with its subsidiaries, the "**Group**"). Reference is made to the announcement of the Company dated January 2, 2026 (the "**Announcement**"). Unless otherwise defined in this announcement, capitalized terms used herein shall have the same meanings as those defined in the Announcement.

As disclosed in the Announcement, with effect from January 1, 2026, the Company has relied on the Alternative Threshold instead of the Initial Prescribed Threshold (as defined under the Listing Rules) for the purpose of compliance with the minimum public float prescribed under Rule 13.32B of the Listing Rules.

Following amendments to the definition of "the public" under Rule 8.24 of the Listing Rules which became effective on August 4, 2025, all ungranted shares held by the trustee of the Company's restricted share award scheme for eligible participants who are neither (i) core connected persons of the Company nor (ii) persons not recognized as members of "the public" under Rule 8.24 of the Listing Rules (the "**First Restricted Share Award Scheme**") ceased to be regarded as shares held by the public. As a result, the percentage of the Company's public float fell below the applicable Initial Prescribed Threshold of 20.48% and was approximately 20.43% as at January 1, 2026, as calculated in accordance with the amended Listing Rules.

In addition to the reasons disclosed in the Announcement, the Company considers that reliance on the Alternative Threshold provides greater flexibility in administering the First Restricted Share Award Scheme and adapting to regulatory changes affecting its public float.
