REASONS FOR AND BENEFITS OF THE ACQUISITION

The principal activity of the Company is investment holding. The Group is principally engaged in the marketing, sales and distribution of finished nutritional products in the PRC. The Group sells its nutritional products under its proprietary brands, namely “紐曼思” and “紐曼斯” (in English, “Nemans”), which can be broadly categorised into five main types, namely algal oil DHA, probiotics, vitamins, multi-nutrients and algal calcium products.

In view of the Group’s available surplus cash and the prevailing low interest rate environment, the Group has been seeking suitable investment opportunities to enhance the overall return on its idle funds and improve capital efficiency. The Acquisition of shares in XtalPi, one of the market leaders in the drug discovery solutions industry, represents such an opportunity.

The Directors hold positive views towards the financial performance and future prospect of the XtalPi. The Acquisition is expected to offer potential capital appreciation from any future increase in the share price of XtalPi, thereby contributing to the enhancement of the Group’s overall investment returns.

As the Acquisition was made in the open market at prevailing market price, the Directors are of the view that the terms of the Acquisition are fair and reasonable and in the interests of the Company and the Shareholders as a whole.
