UPDATE ON DEVELOPMENT OF EQUIPMENT FOR SEMICONDUCTOR

This announcement is made by Productive Technologies Company Limited (the "**Company**") on a voluntary basis to keep the shareholders and potential investors of the Company informed of the latest business development of the Company.

Reference is made to the announcement of the Company dated October 28, 2025 in relation to the development of the equipment for semiconductor (the "**Announcement**"). Unless the context requires otherwise, the capitalized terms contained herein will have the same meanings as those defined in the Announcement.

SUCCESSFUL DELIVERY OF SEMICONDUCTOR CLEANING EQUIPMENT TO CUSTOMER

The Company has successfully delivered a 12-inch high-temperature sulfuric acid cleaning equipment (the "**Equipment**") to a customer. The Equipment is widely used in critical cleaning processes for advanced 28/14/7 nm nodes, and the market is currently mainly dominated by overseas equipment suppliers. Through preliminary testing and verification, the Equipment developed by the Company has achieved technical performance on par with comparable overseas equipment. It features domestically leading and internationally first-class high-temperature control capabilities, supporting high-temperature sulfuric acid cleaning processes up to 190°C. Meanwhile, the Equipment incorporates integrated and compatible designs with flexible application configurations, providing customers with more comprehensive and competitive solutions.

In addition, the Company has recently successfully delivered five single wafer cleaning equipment to four customers, including: the successful delivery of one OCTOPUS equipment (the "**OCTOPUS Equipment**") to a 12-inch wafer foundry customer for critical cleaning steps in its 28nm process; and the successful delivery of one OCTOPUS Equipment and one CUBE equipment (the "**CUBE Equipment**") to a 12-inch high-performance analog and power device fab customer. Among the successfully delivered orders mentioned above, two

equipment orders were repeat orders from existing customers. The Company has also secured a repeat order for one OCTOPUS Equipment, which is scheduled for imminent delivery. Revenue from the above orders has not yet been recognized. To the best of the Directors' knowledge, information and belief, having made all reasonable enquiries, these customers and their ultimate beneficial owners are third parties independent of the Company and its connected persons as at the date of this announcement.

Going forward, the Company will continue to focus on fulfilling orders and ensuring successful acceptance of the semiconductor cleaning equipment. The Company will also leverage the expertise of our technical team in semiconductor wet processing technology to expand the adoption of our equipment by high-quality semiconductor customers in critical application areas.

GENERAL

The transactions contemplated under the equipment delivery do not constitute notifiable transactions of the Company under Chapter 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. The Company will make further announcement(s) as and when appropriate if required.

Shareholders and potential investors are advised to exercise caution when dealing in the securities of the Company.

By Order of the Board
Productive Technologies Company Limited
Liu Erzhuang
Chairman and Chief Executive Officer

Hong Kong, February 11, 2026

As at the date hereof, the Board comprises eight Directors, of whom three are executive Directors, namely Dr. Liu Erzhuang (Chairman), Mr. Tan Jue and Mr. Liu Zhihai; two are non-executive Directors, namely Mr. Cao Xiaohui and Mr. Lin Yukai; and three are independent non-executive Directors, namely Ms. Ge Aiji, Mr. Chau Shing Yim David, and Mr. Wang Guoping.
