REASONS FOR AND BENEFITS OF THE FURTHER DISPOSALS

The Group's principal businesses are the provision of financial services, including securities and commodities and futures broking, corporate finance, asset management, money lending, property investment and proprietary investments.

The Further Disposals provided the Group with an opportunity to realise a portion of its investment in WeRide. The Further Disposals were made with reference to the prevailing market price at the time of the sale and will enable the Group to realise cash resources to fund general working capital and to fund further potential investments. The Further Disposals realised a gain of approximately US$0.8 million, being the difference between the aggregate consideration for the Further Disposals and the aggregate purchase price of the WeRide ADSs sold.

As the Further Disposals were made at the prevailing market price on the open market of the Nasdaq Stock Market, the Directors are of the view that the Further Disposals were fair and reasonable, on normal commercial terms and in the best interest of the Company and its Shareholders as a whole.
