VOLUNTARY ANNOUNCEMENT – BUSINESS UPDATE

The board of directors (the "**Board**") of Beijing 51WORLD Digital Twin Technology Co., Ltd. (the "**Company**") is pleased to announce that, according to the "Physical AI Simulation and Data Platform Research Report in China (《中國物理AI仿真及數據平台研究報告》)" recently released by Frost & Sullivan, a global growth consultancy, one of the three core businesses of the Company, 51Sim, ranks first in the end-to-end high-level intelligent driving simulation and data platform market in China with a market share of 53.5%.

Benefiting from the outstanding performance in product R&D and market expansion of 51Sim in 2025, the number of collaborations between the Company and the top 10 automakers in China increased from 4 in 2024 to 8 in 2025, achieving a coverage rate of 80%. Beyond the leading Chinese automakers, 51Sim also established a highly penetrated industrial ecosystem network across the upstream and downstream industrial chain of high-level intelligent driving simulation in 2025, including Tier 1 suppliers, national-level core testing institutions and key universities. For instance, we have established cooperations with six national-level authoritative testing institutions, reaching a coverage rate of 100%.

Given 51Sim's extensive coverage across the high-level intelligent driving simulation industrial chain, coupled with the essential demand for completing the simulation testing of intelligent driving vehicles to be operated on road as stipulated in the "Access Review Requirements for Road Motor Vehicle Manufacturers (《道路機動車輛生產企業准入審查要求》)" (2026 New Version) and the expectations by Frost & Sullivan that the size of the physical AI simulation and data platform in China will reach RMB180.61 billion in 2030, the Company anticipates that 51Sim will unlock broader market opportunities and revenue growth potential.

Shareholders and investors of the Company are advised to note that this announcement is published as a voluntary announcement to inform the public of the latest business development of the Company. Shareholders and potential investors of the Company are reminded to exercise caution when dealing in the shares of the Company.

By order of the Board
Beijing 51WORLD Digital Twin Technology Co., Ltd.
北京五一視界數字孿生科技股份有限公司
