VOLUNTARY ANNOUNCEMENT
BUSINESS UPDATE

This announcement is made by Smart Digital Technology Group Limited (the "**Company**") on a voluntary basis to provide the shareholders of the Company (the "**Shareholders**") and potential investors of the Company with an update on the latest business development of the Company and its subsidiaries (the "**Group**").

BUSINESS UPDATE

The board (the "**Board**") of directors (the "**Directors**") of the Company is pleased to announce that on 10 March 2026 (after trading hours), the Company entered into a mobile phone direct-to-satellite cooperation intention agreement (the "**Mobile Phone Direct-to-Satellite Cooperation Intention Agreement**") with Sparklinka Limited ("**Sparklinka**"). Meanwhile, the Company entered into a satellite factory leasing and strategic cooperation intention agreement (the "**Satellite Factory Leasing Strategic Cooperation Intention Agreement**") with Beijing Commsat Technology Development Co., Ltd. ("**COMMSAT**").

Both the Mobile Phone Direct-to-Satellite Cooperation Intention Agreement and the Satellite Factory Leasing Strategic Cooperation Intention Agreement are not legally binding on the parties, save for the provisions relating to confidentiality and the applicable law.

Background of Sparklinka

Sparklinka is a satellite communication company incorporated and operating in Hong Kong, aiming to build the world's first cost-effective direct-to-call satellite constellation. With Hong Kong and the Middle East as its dual hubs, the company extends its reach along the Belt and Road to emerging markets to create a space-based 4G/5G network with global coverage. The core team of Sparklinka comprises senior experts in satellite communication with international vision and an average of over 20 years of industry experience. They have been deeply involved in the design and operation of mainstream domestic constellation systems, the construction of global ground station networks, and the commercial implementation of transnational projects.

Background of COMMSAT

COMMSAT is a company established in the People's Republic of China with limited liabilities, and its principal businesses include customized commercial satellite, constellation core services, industry terminal applications, and aerospace technology education. COMMSAT has successfully launched a total of 8 satellites, all of which are operating in orbit. It is the first private enterprise to achieve independent R&D and in-orbit verification of a hundred-kilogram-class satellite, and has participated in the new infrastructure initiative for the national "Satellite Internet". COMMSAT possesses a satellite factory and is a commercial satellite enterprise with an annual production capacity of 100 satellites, and it has obtained the approval from the National Development and Reform Commission.

To the best of the Directors' knowledge, information and belief, having made all reasonable enquiries, Sparklinka, COMMSAT and their respective ultimate beneficial owners are independent third parties and not connected persons of the Company or any of its subsidiaries.

Reasons for and Benefits of Entering into the Mobile Phone Direct-to-Satellite Cooperation Intention Agreement and the Satellite Factory Leasing Strategic Cooperation Intention Agreement

The Board is of the view that the Group has been actively seeking growth and expanding its business across various sectors in recent years to establish the core competitiveness of the Company. The Group will collaborate with Sparklinka to research, develop, and manufacture a trial satellite supporting mobile phone direct connectivity. The communication tests and technical verification of the trial satellite will be conducted in the Middle East, Central Asia, and Southeast Asia. Entering into the Mobile Phone Direct-to-Satellite Cooperation Intention Agreement allows the Group and Sparklinka to establish a long-term and stable strategic partnership, thus to promote collaboration and development in satellite communication services for both parties. While the business of COMMSAT involves customized commercial satellite, constellation core services, and so on. By leasing its facilities, the Group is able to carry out production and manufacture for its overseas satellite orders acquired, and achieve stable production management, order fulfillment, and quality control for the Group's upcoming satellite communication business, thereby fostering the long-term development of the Group in satellite construction and satellite communication operations. The Board believes that the Satellite Factory Leasing Strategic Cooperation Intention Agreement and the Mobile Phone Direct-to-Satellite Cooperation Intention Agreement will broaden the Group's future revenue base and are expected to enhance the investment returns to Shareholders.

The publication of this announcement is to provide updated information on the business development of the Group to the Shareholders and potential investors of the Company.

Based on the current information, if the transactions in respect of the New Business mentioned above materializes, such transactions may constitute disclosable transactions of the Company under Chapter 14 of the Listing Rules. The Company will make further announcement(s) in this regard as and when required in accordance with the Listing Rules.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the Shares.

By Order of the Board
Smart Digital Technology Group Limited
Mr. Jing Xufeng
Chairman

Hong Kong, 10 March 2026
