VOLUNTARY ANNOUNCEMENT
SIGNING OF A SALES CONTRACT FOR AUTONOMOUS VEHICLES

This announcement is made by Minieye Technology Co., Ltd (the "**Company**", together with its subsidiaries, the "**Group**") on a voluntary basis to provide its shareholders and potential investors with information in relation to the latest development regarding the Company.

The board of directors (the "**Board**") of the Company is pleased to announce that the Company has recently formally entered into a sales contract (the "**Contract**") with Ideas Group Pty Ltd ("**Ideas Group**"). Pursuant to the Contract, Ideas Group will purchase a batch of Bamboo Robovan from the Group, with the total quantity of 1,600 units, which are mainly for deployment in Australia and Southeast Asia.

REASONS FOR AND BENEFITS OF ENTERING INTO THE CONTRACT

This Contract represents the high recognition of the Group's autonomous driving technologies, product maturity and commercial solutions by overseas customers. It marks an important milestone for the Group's driverless logistics vehicle business to achieve large-scale overseas deployment.

Ideas Group's procurement is mainly targeted at its target markets in Australia and Southeast Asia. The signing of the Contract will help the Group quickly establish a solid presence in Australia and Southeast Asia, effectively expand its overseas footprint, and enhance the international influence and competitiveness of the Group's autonomous vehicle products.

The Board believes that the entering into the Contract will further strengthen the Group's layout in the overseas driverless logistics market, enhance the international influence and competitiveness of the Group's autonomous vehicle products, and accelerate the large-scale commercial application of the Group's autonomous driving technologies in overseas markets.

This will also help the Group accumulate valuable overseas operation experience, expand its global customer base and market channels, and lay a solid foundation for the Group's long-term development in the global smart logistics and autonomous driving industry, which is in line with the long-term development strategy of the Group and the overall interests of the Company and its shareholders.

INFORMATION ON IDEAS GROUP

Established in August 2019, Ideas Group was founded to address the unique logistical challenges of the Australian continent – from dense coastal cities to remote inland operations. Ideas Group partners with global technology leaders to bring the most advanced L4 autonomous delivery vehicles, fully homologated and compliant with local regulations, to the Australian market.

As at the date of this announcement, Ideas Group and its ultimate beneficial owners are independent third parties independent of the Company and its connected persons (as defined under the Listing Rules).

ABOUT THE GROUP'S BUSINESS

The Group is committed to shaping an automotive intelligence ecosystem through technological innovations to improve road safety and enhance driving experiences. We focus on the innovation and implementation of technologies in intelligent driving, intelligent cabin, smart mobility, and smart logistics. Leveraging our full-stack in-house platform technology, integrated hardware-software R&D capabilities and advanced mass production capability, and adhering to the strategy of "customer-first, scenario-focused, iterative product development, and boundary expansion", we continue to develop solutions with improving automation level, striving to become a key driver of intelligent transformation in the industry.

By order of the Board
