FINANCIAL HIGHLIGHTS

Notes:

- (1) No gross profit margin can be determined for character licensing business segment. Segment gross profit margin for each year is calculated based on the revenue attributable to the Group's e-commerce and other business deducting cost of inventories sold divided by the revenue attributable to the Group's e-commerce and other business for the respective year.
- (2) Net loss margin for each year is calculated based on net loss divided by revenue for the respective year.
- (3) Return on equity equals to loss for the year divided by total equity as at the end of the relevant year.
- (4) Return on total assets equals to loss for the year divided by total assets as at the end of the relevant year.
- (5) Current ratio is calculated based on the total current assets divided by the total current liabilities as at the end of the respective year.
- (6) Quick ratio is calculated based on total current assets less inventories, divided by the total current liabilities as at the end of the respective year.
- (7) Gearing ratio is calculated based on the total interest-bearing borrowings divided by total equity as at the end of the respective year.
- (8) Net debt to equity ratio is calculated based on net debt as at the end of the respective year divided by total equity as at the end of the respective year. Net debt includes all interest-bearing borrowings (if any), net of cash and cash equivalents (including the time deposits with original maturity over three months).
- (9) The Group was in a net cash position, as the amount of cash and cash equivalents (including the time deposits with original maturity over three months) exceeded the total interest-bearing borrowings of the Group, such that the net debt to equity ratio is not applicable.

CHAIRMAN'S STATEMENT

Dear Shareholders and Investors,

It is my pleasure that herein I, Hui Ha Lam, founder of B.Duck Semk Holdings International Limited (“**Company**” or “**B.Duck Semk**”, together with its subsidiaries and/or structured entities, the “**Group**”) and father of B.Duck, am presenting to you the annual report of the Group for the year ended 31 December 2025.

After two decades of swimming, a little yellow duck born in 2005 has grown into more than just an IP symbol in 2025 and has become an emotional connection that transcends cultures and generations. This year, we elevated our brand vision from “Be Playful” to “Make A Playful World”. This is not merely a simple change in slogan but also a strategic leap from “participating in joy” to “creating a joyful world”.

In 2025, China’s IP consumer market has been undergoing a quiet yet profound revolution. As young adults who have been living in material abundance and regard emotional consumption as a necessity become the main consuming force, IPs are no longer a decoration for commodities only. Instead, they serve as vessels for emotions, badges of identity, and social currency. According to the China Licensing Industry Development White Paper in 2025 (《2025中國授權行業發展白皮書》) published by the Brand Licensing Committee of the China Toy Association, the total domestic retail sales of licensed goods in China for 2024 reached RMB155.09 billion, representing a year-on-year increase of 10.7% and maintaining its growth momentum for seven consecutive years. We have been deeply cultivating this blue ocean for years.

For the year ended 31 December 2025, the revenue of the Group reached HK\$172.5 million, representing a year-on-year increase of 34.2%. These figures represent a milestone achievement in our transformation from a “single IP operator” to an “ecological platform for the whole IP industry chain”.

Among the Top Global Licensors 2025 published by The License Global, B.Duck Semk ranked 46th in the world with retail sales of USD700 million, marking a powerful global debut for a Chinese IP. We recognize, however, that this ranking only demonstrates our results and the true competitive advantage lies in “the reasons why licensees choose us”.

By the end of 2025, we had partnered with 619 licensees, with a total of over 50,000 SKUs. From digital scenarios on JD.com and Baidu Map to daily penetration with C’estbon, Lacesar, and Mengniu Zhenguoli, and from the virtual world of Honor of Kings and Identity V to business settings with China Everbright Bank and Huawei notebooks, B.Duck Semk has embedded itself in every part of consumers’ daily lives. In the year, the Group’s revenue from character licensing business reached HK\$80.6 million, representing a year-on-year increase of 34.2%. This is not only a numerical sum but also a validation of the business logic that “IP is infrastructure”.

CHAIRMAN'S STATEMENT

IP licensing is “borrowing a boat for sailing” while merchandise retail is “building the boat itself for voyage”. The launch of our 20th anniversary series in 2025 is an experiment on “how emotional value can be touched”. The PapaDuck series satisfies the need for “healing” and the Work Life series responds to the desire for “resonance”, while the Rainbow series captures the impulse for “self-indulgence”. The 20th-anniversary pop-up store at Joy City, Jing’an, Shanghai serves as a sales venue as well as an “emotional convergence point” where fans and IP meet. With full coverage across Tmall, JD.com and Douyin and synergy of offline self-operated stores, affiliated stores and franchise stores, we are building a retail network that is “within easy reach, anytime, anywhere”. In 2025, the Group’s revenue from e-commerce and other business reached HK\$91.9 million, representing a year-on-year increase of 34.3%. Every transaction reflects the realization of emotional value. In early 2026, we entered into a comprehensive strategic cooperation agreement with Haers, the global leader in cup and flask industry, to jointly pioneer a new trendy consumer market driven by IP. The collaboration will enable the Group to embark on a large-scale expansion of self-operated product categories, achieve greater user penetration across diverse daily life scenarios of IP, and establish a replicable cross-category IP operation model.

The cultural tourism industry is undergoing a transformation from “viewing scenery” to “experiencing scenery,” and IP serves as the catalyst that makes the scenery “alive”. In 2025, we made a bold attempt and “planted” a little yellow duck at Huangguoshu Waterfall in Guizhou by establishing the world’s first B.Duck-themed rafting adventure park. This attempt goes beyond simple logo branding and represents a comprehensive IP empowerment spanning planning, design and operational support. Through offering rafting, dining, amusement, camping, treehouse lodging and other experiences, the park allows visitors to “play in Huangguoshu, stay in Huangguoshu”.

The inflatable PapaDuck-themed amusement park at Qianhai Stone Park in Shenzhen successfully challenged the Guinness World Record with the sum of its length, width and height reaching 83.972 meters. This is not only a record-breaking achievement but also a “social currency” and a “photo spot” for young people to take photos, share and recommend to others. The establishment of a joint venture with a fund under Fosun International signifies that our cultural tourism model has become “replicable”. The layout of more than 100 B.Duck Playful World City Funs Carnival worldwide supports the hypothesis that IP + cultural tourism is a sustainable business model rather than a fleeting marketing gimmick. In 2025, the Group’s revenue from LBE business amounted to HK\$25.5 million. Behind every figure lie the genuine smiles and return visits of our guests.

CHAIRMAN'S STATEMENT

In 2025, we completed our strategic upgrade from “B.Duck Solo” to an “IP Ensemble”. Distinctive IPs, namely Goose, Aotu World, and Good Good Family, collectively form an “IP spectrum” targeting diverse age groups and interest communities. The strategic acquisition of Hidden Wooo marked a pivotal move in the upgrade. Founded in 2021, this trendy toy operator has amassed over 5 million followers among Gen Z with its IPs such as Cimmy, SLLO, and diudiu baby and has sold over 10 million trendy toys. The acquisition of Hidden Wooo implies a rapid expansion from IP portfolio to merchandise retail business, alongside a financial investment.

Cultural going global is fundamentally about “emotional exporting”. The appearance of the little yellow duck B.Duck on Grab’s ride-hailing APP in Bangkok, Thailand and in TVOE stores across Russia, represents the commercial value as well as a “joyous narrative” from China. In 2025, Thailand became the “model market” for our overseas expansion strategy. B.Duck Playful World City Funs Carnival made its debut in Bangkok, with collaborative campaigns alongside Grab, GQ Apparel, and Fuku Matcha receiving considerable online engagement. In 2025, the Group’s overseas revenue recorded a year-on-year increase of 143.0%. The figures demonstrate the synergy of supply chain advantages, cultural resonance, and localized operations. We believe that the globalization of Chinese IPs is not about “stepping out” but “integrating”, which involves integration into the daily life of local consumers and becoming part of their emotional memories.

For an IP, twenty years marks a milestone worth looking back at and an even more significant starting point for a fresh start. Our ambition extends beyond simply making B.Duck beloved; we also aim to transform “joyful” into a sustainable business language and a cultural symbol that transcends borders.

We would like to extend our gratitude to every partner for their trust and collaboration, and to every shareholder and investor for their support and companionship. What we are writing is a coming-of-age story of a company and also a reflection of the footprint of China’s IP industry going global.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is principally engaged in (i) the character licensing business: the creation, design, licensing, brand management and marketing of self-created B.Duck Family Characters across multi-channels, where the Group licenses the B.Duck Family Characters and brands to its licensees, provides them with product design application services and allows them to incorporate these designs into their products and services offering; and (ii) the e-commerce and other business: the design, development, procurement and retail sales of the Group's B.Duck Family Characters-featured products through multi-channels including operation of mobile games.

Character Licensing Business

The Group's character licensing business can be broadly divided into five service types, namely (i) merchandise licensing; (ii) location-based entertainment ("LBE") licensing; (iii) content and media licensing; (iv) promotion licensing; and (v) design consultation, which are interrelated and complementary to each other, with each of them being provided on a single, multi-service or integrated basis.

E-commerce and Other Business

The Group's e-commerce and other business mainly involves the sale of B.Duck Family Characters-featured products through third party e-commerce platforms and offline sales channels. Seeing the potential synergies to be generated from the Group's character licensing business, the Group began to explore the possibility of designing and selling its own products on e-commerce platforms. In 2015, the Group launched the first online flagship store on Tmall, a well-known business-to-customer online shopping platform in China. Following the success of this flagship store, the Group subsequently expanded to other e-commerce platforms, such as JD.com, VIP.com, HKTVmall and Douyin, to offer its products and enable customers to make online payments with direct shipping to their designated locations.

The following table sets forth a breakdown of revenue by business segments:

	FY2025 HK\$'000	FY2024 HK\$'000
Character licensing business	80,622	60,070
E-commerce and other business	91,913	68,456
Total	172,535	128,526

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Revenue by Business Segment

The Group's revenue from the character licensing business increased by approximately HK\$20.6 million or approximately 34.2% from approximately HK\$60.1 million for the year ended 31 December 2024 ("FY2024") to approximately HK\$80.6 million for the year ended 31 December 2025 ("FY2025"). The increase was primarily attributed to an increase in royalty charged and excess royalty charged to licensees under merchandise licensing. With growing emphasis on intellectual property ("IP") in China, the Group is encountering increasingly fierce market competition. To address this, the Group not only introduced additional incentives to attract new licensees across various product categories but also expanded into overseas markets, including Brazil and South Africa, to strengthen its presence in the licensing industry.

The following table sets forth the movement of the number of licensees (exclusive of licensing agents) with which the Group had established business relationship during FY2025:

As at the end of FY2025	As at the end of FY2024
619	530

The Group's revenue from the e-commerce and other business increased by approximately HK\$23.4 million or approximately 34.3% from approximately HK\$68.5 million for FY2024 to approximately HK\$91.9 million for FY2025. The increase was primarily driven by the Group's ongoing promotional efforts on e-commerce platforms, as well as its continued expansion into additional e-commerce platforms across the PRC and Southeast Asia. The Group engaged multiple domestic OEM suppliers to handle product manufacturing and has procured products from licensees under its character licensing business for sale through third-party e-commerce platforms, such as Tmall, JD.com, VIP.com, HKTVmall and Douyin. Moving forward, the Group will remain focused on developing overseas e-commerce sales platforms, including markets such as Thailand, Indonesia, Vietnam, the Philippines, Malaysia, and Singapore. The overseas e-commerce business is still in its growth phase, presenting significant opportunities and potential for further expansion.

MANAGEMENT DISCUSSION AND ANALYSIS

Revenue by IPs

The Group's B.Duck Family Characters are targeted at consumers aged between 15 and 34 years old who are brand conscious and possess qualities such as trendiness, high purchasing power, tech-savviness and affinity with social media primarily located in Asia.

The following table sets forth a breakdown of the Group's revenue by IP character under its character licensing business:

	FY 2025		FY 2024	
	HK\$'000	%	HK\$'000	%
The Group's self-created IP characters				
B.Duck	72,261	89.6	52,040	86.6
Buffy	3,396	4.2	3,203	5.4
B.Duck Baby	3,442	4.3	4,155	6.9
	79,099	98.1	59,398	98.9
Licensed Characters	1,523	1.9	673	1.1
Total	80,622	100	60,070	100

B.Duck products are the Group's major product type. Revenue from B.Duck products, which contributed 89.6% of its licensing revenue in FY2025, increased by approximately 38.9% from approximately HK\$52.0 million for FY2024 to approximately HK\$72.3 million for FY2025.

Cost of Inventories Sold and Employee Benefit Expenses

Cost of inventories sold (comprising primarily cost of inventories for the Group's e-commerce and other business) amounted to approximately HK\$36.5 million and HK\$38.8 million for FY2024 and FY2025, respectively, which accounted for approximately 19.9% and 18.2% of its total operating expenses (comprising employee benefit expenses, depreciation and amortisation, promotion costs, online platform usage fees, cost of inventories sold and other expenses) for the respective years. The Group generally sets the price of the merchandise it offers to its customers based on the merchandise procurement costs plus a profit margin. When the prices offered to the Group by its suppliers fluctuate, the selling prices of the merchandises would be adjusted correspondingly. However, there is no guarantee that the Group can fully translate the additional procurement costs into higher prices for customers and the results of operation may therefore be adversely affected. In addition, any rise in the merchandise selling price due to increase in procurement costs may render the merchandise less competitive in the market and lead to a possible decrease in the Group's profit margin.

MANAGEMENT DISCUSSION AND ANALYSIS

Employee Benefit Expenses

The employee benefit expenses (primarily comprising salaries and allowances) amounted to approximately HK\$64.6 million and HK\$78.5 million for FY2024 and FY2025, respectively, representing approximately 35.3% and 36.8% of the Group's total operating expenses (comprising employee benefit expenses, depreciation and amortisation, promotion costs, online platform usage fees, cost of inventories sold and other expenses) for the respective years. We are dedicated to the research and development and production of games and sales of derivative merchandizes, and establish design team which applies AI techniques, so as to strengthen our creativity. Moreover, the Group provides key employees with awarded shares with incentives for continued operation and development of the Group.

	FY2025		FY2024	
	Revenue HK\$'000	Employee benefit expenses HK\$'000	Revenue HK\$'000	Employee benefit expenses HK\$'000

Total	172,535	78,450	128,526	64,604

Net Impairment Losses on Financial Assets and Contract Assets

The Group recorded net impairment losses on financial assets and contract assets of approximately HK\$3.0 million and HK\$53.8 million for FY2024 and FY2025, respectively. The significant increase in FY2025 was mainly attributable to the expected credit loss on the consideration receivables from the trademark transfer, as further detailed below.

In 2022, the Group entered into a trademark transfer agreement (“**Trademark Transfer Agreement**”) with Boogie Bear Brand Co., Ltd. (the “**Transferee**”) for the transfer of 161 registered trademarks in the PRC comprising all classes in relation to “巴菲鴨”, Bath’N Duck and the head image of Bath’N Duck (with the exception of class 43) for a consideration of HK\$88 million with Lixun Group Limited (“**Lixun**”) being the guarantor of this transaction.

MANAGEMENT DISCUSSION AND ANALYSIS

The consideration of HK\$88 million was agreed to be payable by the Transferee to the Group with a down payment of HK\$8,800,000 within two months from the date of the Trademark Transfer Agreement and four instalments of HK\$19.8 million each on or before 31 December for each of the calendar years from 2023 to 2026.

The Group subsequently negotiated with the Transferee in 2023 and rescheduled the payment timetable as HK\$6 million to be paid on or before 31 March 2024, HK\$14 million to be paid on or before 30 June 2025, HK\$20 million to be paid on or before 31 March 2026, HK\$20 million to be paid on or before 31 March 2027 and HK\$19.2 million to be paid on or before 31 March 2028.

The Transferee paid HK\$2 million to the Group in March 2025 but failed to make the payment of the remaining HK\$12 million on or before 30 June 2025. Subsequent to 31 December 2025, the Transferee paid HK\$4.3 million to the Group in March 2026.

The Group has been in regular conversations with the management of the Transferee and Lixun to follow up on the payments for this transaction. Considering the fact that Lixun is one of the Group's largest customer and the Group has received merchandise licensing and design consultation service fee of approximately RMB89.0 million in previous 5 years from 2021 to 2025, the management adopted a relatively mild approach in the follow up actions with the Transferee and Lixun over the payments for this transaction, such as not to immediately exercise the other rights under the Trademark Transfer Agreement.

As a results, as stipulated in HKFRS 9, this default event, together with the historical repayment pattern, provides objective evidence that the receivable has been classified as credit-impaired. As a result, there was an expected credit loss of the consideration receivable from transfer of trademarks of approximately HK\$50.0 million in FY2025.

Other Income

Other income decreased by approximately 22.7% from approximately HK\$10.4 million for FY2024 to approximately HK\$8.0 million for FY2025, primarily due to the decrease in the compensation received from legal action against third parties for infringement of the Group's trademark.

MANAGEMENT DISCUSSION AND ANALYSIS

Promotion Costs

The Group's promotion costs primarily comprise costs incurred for promotional campaigns, advertisements, brand management and marketing activities. For FY2024 and FY2025, the Group's promotion costs amounted to approximately HK\$18.4 million and HK\$26.5 million, respectively. The increase was primarily attributed to the launch of various large-scale physical events, including themed carnivals, pop-up events, and international festivals, which significantly enhanced the B.Duck brand's influence and business momentum, as well as increased investment in e-commerce promotions to further drive online sales and market penetration.

	2025		2024	
	Revenue	Promotion costs	Revenue	Promotion costs
	HK\$'000	HK\$'000	HK\$'000	HK\$'000
Character licencing business	80,622	7,129	60,070	5,425
E-commerce and other business:	91,913	19,367	68,456	13,001
– E-commerce sales in China (Apparels, gifts and accessories)	74,309	13,468	59,592	10,267
– E-commerce sales in overseas markets (Apparels, gifts and accessories, etc.)	8,906	1,504	4,687	691
– E-commerce sales in China (Trendy toys)	2,872	2,557	3,253	639
– Others	5,826	1,838	924	1,404
Total	172,535	26,496	128,526	18,426

Online Platform Usage Fees

The Group's online platform usage fees primarily represent sales commission and service fees payable to the e-commerce platforms for the Group's online sales under the e-commerce and other business. For FY2024 and FY2025, online platform usage fees amounted to approximately HK\$10.2 million and HK\$11.1 million, respectively. The increase in online platform usage fees was primarily attributed to the Group's expansion of e-commerce operations.

Operating Loss

As a result of the above, the Group's operating loss increased by approximately 64.7% from operating loss of approximately HK\$52.2 million for FY2024 to approximately HK\$86.1 million for FY2025.

MANAGEMENT DISCUSSION AND ANALYSIS

Other Expenses

The following table sets forth a breakdown of the Group's other expenses:

	FY2025		FY2024	
	HK\$'000	%	HK\$'000	%
Travelling and transportation	6,268	15.1	7,995	21.1
Office and office co-sharing expenses	6,706	16.2	4,977	13.1
Legal and professional fees	11,677	28.2	16,397	43.3
Auditor's remuneration	1,818	4.4	1,650	4.4
Agency fees	6,866	16.6	162	0.4
Building management fee and rental expenses	3,891	9.4	2,518	6.7
Licensing fee	205	0.5	47	0.1
Others <i>(Note)</i>	4,001	9.6	4,138	10.9
	41,432	100.0	37,884	100.0

Note: Others include, among others, repair and maintenance, insurance expenses, decoration expenses, sample fees, utilities and testing fees, etc.

Legal and professional fees mainly relate to legal costs incurred in (i) the protection of trademarks, and (ii) legal proceedings of the Group. Agency fees represent (i) the commission of licensing agents; and (ii) licensing fee for the licensed characters obtained from independent licensors. Such expenses increased for FY2025 primarily resulting from increase in agency fees and partially offset by reduced legal and professional fees associated with the Group's legal proceedings.

Finance (Costs)/Income, Net

Finance (costs)/income changed from a net finance income of approximately HK\$1.5 million in FY2024 to a marginal net finance cost in FY2025.

Income Tax Expense

The income tax position shifted from an income tax credit of approximately HK\$1.4 million in FY2024 to an income tax expense of approximately HK\$3.6 million in FY2025, representing a change of approximately HK\$5.0 million. This was primarily due to an increase in income tax in FY2025 compared to FY2024.

MANAGEMENT DISCUSSION AND ANALYSIS

Non-HKFRS Financial Measures

Adjusted net loss under non-HKFRS financial measures is defined as the loss for the year attributable to equity holders of the Company excluding share award scheme (the “**Share Award Scheme**”) expenses. As Share Award Scheme expenses is non-recurring in nature and not related to the performance of the Group’s operation, the directors of the Company (the “**Director(s)**”) consider that the presentation of the Group’s adjusted net loss under non-HKFRS financial measures by eliminating the impact of Share Award Scheme expenses can better reflect the operational performance during the respective years.

Furthermore, the Group’s management also uses the non-HKFRS financial measures to assess the Group’s operating performance and formulate business plans. The Group believes that the non-HKFRS financial measures provide useful information to the investors about its core business operations, which they can use to evaluate the Group’s operating results and understand its consolidated results of operations in the same manner as the management. The following table sets forth a reconciliation of the Group’s adjusted net loss under non-HKFRS financial measures for the years indicated to that prepared in accordance with HKFRS measures:

	FY2025 HK\$’000	FY2024 HK\$’000
Loss for the year attributable to equity holders of the Company	(87,700)	(46,404)
Add:		
Share Award Scheme expenses	4,246	5,899
Adjusted net loss under non-HKFRS financial measures	(83,454)	(40,505)

Having said the above, the presentation of the non-HKFRS financial measures is not intended to be considered in isolation or as substitute for the financial information prepared and presented in accordance with HKFRS measures. The non-HKFRS financial measures have limitations as analytical tools and the Group’s non-HKFRS financial measures may differ from the non-HKFRS financial measures used by other companies, and therefore the comparability of such information may be limited. The investors are encouraged to review the Group’s financial information in its entirety.

Loss for the Year

As a result of the above, the Group’s loss for the year increased by approximately 81.8% from a loss of approximately HK\$49.3 million for FY2024 to a loss of approximately HK\$89.7 million for FY2025.

MANAGEMENT DISCUSSION AND ANALYSIS

LIQUIDITY AND FINANCIAL RESOURCES AND CAPITAL STRUCTURE

The Group funded its cash requirements principally from cash generated from its operating activities and financing activities. As at 31 December 2025, the Group had cash and cash equivalents of HK\$58.8 million, compared to the cash and cash equivalents of HK\$23.0 million as at 31 December 2024. As at 31 December 2025, the Group's cash and cash equivalents were mainly denominated in Renminbi, United States Dollar and Hong Kong Dollar.

As at 31 December 2025, the Group had total borrowings of HK\$50.9 million, compared to the total borrowings of HK\$45.9 million as at 31 December 2024. As at 31 December 2025, the Group's total borrowings were mainly denominated in HK\$, with weighted average effective interest rates was 4.50% per annum.

As at 31 December 2025, the Group had lease liabilities of HK\$10.9 million, compared to the lease liabilities of HK\$17.3 million as at 31 December 2024.

The board of Directors (the “**Board**”) will evaluate the Group's capital structure from time to time based on the Group's operations, its business growth, the relevant funding requirements and available financial resources.

The shares of the Company (the “**Shares**”) were successfully listed on The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) on 17 January 2022 (the “**Listing Date**”). Since then and up to 31 December 2025, the Company's capital structure has not changed. The Company's equity only consists of ordinary Shares.

As at 31 December 2025, the issued share capital of the Company amounted to US\$24,524.825 divided into 980,993,000 Shares of US\$0.000025 each.

TREASURY POLICY

The Group continues to manage its financial position carefully and maintains conservative policies in cash and financial management. The Group's liquidity and financing requirements are frequently reviewed. The Board closely monitors the Group's liquidity position to ensure that the Group can meet its funding requirements for business development.

Assets, Financial Resources and Capital Expenditures

The Group adopts a prudent funding and treasury policy with regard to its overall business operations. A variety of the below resources are maintained to meet its working capital:

MANAGEMENT DISCUSSION AND ANALYSIS

– Current assets and current liabilities

The Group's net current assets decreased from approximately HK\$85.8 million as at 31 December 2024 to approximately HK\$59.9 million as at 31 December 2025. The decrease in net current assets was primarily attributable to the decrease in contract assets, deposits, prepayments and other receivables, together with the increase in trade payables, accruals and other payables and bank and other borrowings.

– Trade receivables and contract assets

As at 31 December 2025, the Group had gross trade receivables and contract assets amounting to approximately HK\$70.3 million (31 December 2024: HK\$57.6 million) and approximately HK\$7.0 million (31 December 2024: HK\$20.9 million) respectively, and loss allowance amounting to approximately HK\$21.7 million (31 December 2024: HK\$19.7 million). The total amount of net trade receivables and contract assets represented approximately 22.7% (31 December 2024: 20.1%) of the total assets.

As at 31 December 2025, net trade receivables and contract assets decreased to approximately HK\$55.6 million from approximately HK\$58.8 million as at 31 December 2024, primarily because there were more timely payment collection from customers.

Provision for expected credit loss is made when the Group is not expected to collect all amounts due. The provision is determined by grouping together debtors with similar risk characteristics and collectively, or individually assessing them for likelihood of recovery. The provision matrix is determined based on the Group's historical observed default rates over the expected life of the trade receivables with similar credit risk characteristics and is adjusted for forward-looking estimates. In making the judgement, the Group's management considers available reasonable and supportive forwarding-looking information such as actual or expected significant changes in the operating results of customers, and actual or expected significant adverse changes in business and customers' financial position. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed by the Group's management.

– Inventories

The Group's inventories comprise finished goods. The Group's inventories increased from approximately HK\$13.9 million as at 31 December 2024 to approximately HK\$26.0 million as at 31 December 2025, primarily due to increase in procurement to support the growth in the e-commerce business.

– Cash and cash equivalents and time deposits at bank

The Group's cash and cash equivalents and time deposits at bank primarily comprise cash at bank and were denominated in HK\$ and RMB. Cash and cash equivalents and time deposits at bank decreased from approximately HK\$63.0 million as at 31 December 2024 to approximately HK\$58.8 million as at 31 December 2025, primarily due to repayment of lease liabilities and the purchase of property, plant and equipment.

MANAGEMENT DISCUSSION AND ANALYSIS

– Right-of-use assets

The Group's right-of-use assets comprise the initial measurement of the corresponding lease liability in relation to its office, lease payments made at or before the commencement date and any initial direct costs. The Group's right-of-use assets are depreciated starting at the commencement date over the shorter period of useful life of the underlying asset and lease term. The Group's right-of-use assets decreased from approximately HK\$16.3 million as at 31 December 2024 to approximately HK\$10.2 million as at 31 December 2025, primarily due to the depreciation of such assets resulting from usage of offices and lease payments.

– Intangible assets

The Group's intangible assets consist mainly of trademarks. The Group's intangible assets slightly decreased from approximately HK\$3.3 million as at 31 December 2024 to approximately HK\$2.9 million as at 31 December 2025, primarily due to amortisation of the trademarks through continuing usage.

– Bank and other borrowings

The following table sets forth a breakdown of the Group's borrowings as at the dates indicated:

	As at	
	31 December 2025	31 December 2024
	HK\$'000	HK\$'000
Non-current portion		
Other loan – secured	907	–
Current portion		
Bank borrowings – secured	46,461	45,923
Other loan – secured	3,546	–
	50,007	45,923
	50,914	45,923

The Group's bank and other borrowings as at 31 December 2025 were denominated in HK\$ and RMB with fixed interest rates ranging from 3.1% to 14.4% per annum. As at 31 December 2025, the weighted average effective interest rate of bank borrowing was 4.50% per annum.

PLEDGE OF ASSETS

The Group has certain assets with an aggregate net carrying amount of approximately HK\$3.8 million pledged for bank and other borrowing as of 31 December 2025 (31 December 2024: Nil).

MANAGEMENT DISCUSSION AND ANALYSIS

GEARING RATIO

As at 31 December 2025 and 31 December 2024, the Group's gearing ratio was 45.6% and 23.8%, respectively. The gearing ratio is calculated based on the total interest-bearing borrowings divided by total equity.

CONTINGENT LIABILITIES

In May 2021, a third party (the “**Claimant**”) has lodged a claim to seek compensation of RMB55,000,000 (equivalent to approximately HK\$59,393,000), with the allegation of the Group and a retailer of the Group's licensed products (the “**Licensee**”) for causing unfair competition and infringement of certain registered trademarks (the “**Claimant's Trademarks**”) by sales of kitchen utensils, towels, and shoes and apparels bearing the trademarks of the Group (the “**Alleged Trademarks**”), which were alleged to be similar to the Claimant's Trademarks.

Judgement of the first hearing from the Jiangsu Suzhou Intermediate People's Court (the “**Judgement**”) on 30 December 2022 held that the Group and the Licensee were liable to pay sums of RMB6,000,000 and RMB1,000,000 respectively (equivalent to approximately HK\$6,479,000 and HK\$1,080,000 respectively) for damages to the Claimant.

On 19 January 2023, the Group has lodged an appeal (the “**Appeal**”) against the Judgment. During 2023, the Claimant's Trademarks were invalidated by the China National Intellectual Property Administration and the Claimant's appeal against the invalidation claim has been rejected in June 2024. Based on the opinions from the legal advisors of the Group, there is a high probability that the Judgement can be overturned. Furthermore, should the Group fail to overturn the Judgement in the Appeal, potential exposure shall be limited to the gains of the Group resulted from the sales of goods of certain class bearing the Alleged Trademarks.

On 21 December 2025, the Jiangsu Higher People's Court issued a final ruling (the “**Final Ruling**”), setting aside the first-instance judgement rendered by the Jiangsu Suzhou Intermediate People's Court on 30 December 2022, and granting the Claimant's withdrawal of the lawsuit. As a result, the case has been concluded with the Claimant's withdrawal, and the Group's and the Licensee's liabilities for compensation under the case have been discharged.

In summary, the case has been finally resolved and will not have any material adverse impact on the financial position and operating results of the Group.

MANAGEMENT DISCUSSION AND ANALYSIS

FOREIGN EXCHANGE RISK MANAGEMENT

The Group operates principally in Hong Kong and Mainland China and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to United States dollar (“US\$”) and RMB. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities. The Group does not hold or issue any derivative financial instruments to manage its exposure to foreign currency risk. Majority of the revenue generated, and cost incurred from the local operations are primarily transacted in local functional currency and therefore foreign exchange transactional risks are minimal. Management manages its foreign exchange risks by performing regular review and monitoring its foreign exchange exposure.

CAPITAL EXPENDITURES AND COMMITMENTS

The Group’s capital expenditures consist of (i) purchases of property, plant and equipment; and (ii) purchases of intangible assets mainly financed by internal resources. As at 31 December 2025, the Group did not have any material capital commitments.

HUMAN RESOURCES

As of 31 December 2025, the Group had a total of 225 employees, including 85 licensing and sales personnel, 67 designers and personnel specializing in Artificial Intelligence Generated Content (“AIGC”) and 73 administrative and others personnel. For FY2025, the Group incurred staff costs (including remuneration, payrolls, allowances and benefits) of approximately HK\$78.5 million (FY2024: HK\$64.6 million).

The establishment of an AIGC team has been instrumental in streamlining design processes, allowing the Group to reduce the number of staff designers while maintaining high-quality output. This shift not only helps in cost management but also enables designers to focus on high-value tasks that require human creativity and judgment. Concurrently, the Group has a dedicated merchandise management team that ensures new products align with current market trends and consumer preferences. By leveraging AI for design and human expertise for market analysis, the Group is well-positioned to launch trendy products that resonate with the audience, thereby driving business growth and reinforcing brand influence. This dual approach enables the Group to balance innovation with operational efficiency, ensuring that products remain competitive and appealing in a rapidly evolving market landscape.

The Group recruits the employees based on a number of factors such as their relevant work experience, educational background, language ability and vacancies. Competitive remuneration package is offered to retain elite employees, including salaries, medical insurance, discretionary bonuses as well as mandatory provident fund schemes for employees in Hong Kong. The Group also provides training to certain employees to strengthen staff commitment and enhance their skills and technical knowledge at work. The Company has also adopted a share option scheme and the Share Award Scheme to recognise and acknowledge the contributions made by the Group’s employees, to attract skilled and experienced personnel, to incentivise them to stay with the Company and to motivate them to strive for the future development and expansion of the Company and its subsidiaries, by providing them with the opportunity to acquire equity interests in the Company.

MANAGEMENT DISCUSSION AND ANALYSIS

As at 31 December 2025, the Group had 225 full-time employees. The following table sets forth a breakdown of its employees by functions and by geographical location as at 31 December 2025:

Number of employees by functions	Hong Kong and overseas	Mainland China	Total
Management	5	2	7
Design	6	53	59
AIGC	–	8	8
Licensing	3	33	36
Sales	1	48	49
Branding	1	17	18
Human resources and administration	3	17	20
Finance	2	8	10
Merchandise management	–	18	18
Total	21	204	225

FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

Save as disclosed above, the Group did not have other plans for material investments or capital assets as of 31 December 2025.

SIGNIFICANT INVESTMENTS HELD

The Group did not hold any significant investment as at 31 December 2025.

MATERIAL ACQUISITIONS OR DISPOSALS OF SUBSIDIARIES, ASSOCIATES OR JOINT VENTURES

Except for the establishment of Wuxi Binhu Sindo Cultural Tourism Development Co., Ltd.* (無錫濱湖星德文旅有限公司), a non-wholly-owned subsidiary of the Company, on 5 September 2025 (“**Establishment of JV**”), the Group did not have any other, material acquisitions or disposals of subsidiaries, associates, or joint ventures during FY2025. More details of the Establishment of JV were set out in the Company’s announcement dated 2 July 2025.

EVENT AFTER REPORTING PERIOD

On 28 January 2026, the Company entered into a placing agreement with Grand China Securities Limited (the “**Placing Agent**”), pursuant to which the Placing Agent agreed to procure, on a best effort basis, not less than six placees to subscribe for new Shares (the “**Placing**”). The Placing was completed on 25 February 2026, with a total of 27,362,000 new Shares being issued at a placing price of HK\$0.74 per Share under the general mandate granted to the Directors by the Company’s shareholders (the “**Shareholders**”) at the annual general meeting held on 26 May 2025. The gross proceeds from the Placing amounted to approximately HK\$20.2 million, and the net proceeds after deducting related expenses were approximately HK\$19.8 million. Details of the Placing are set out in the Company’s announcements dated 28 January 2026 and 25 February 2026.

Except for the above mentioned, there were no other material events subsequent to 31 December 2025 which would materially affect the Group’s operating and financial performance as of the date of this annual report.

FUTURE OUTLOOK

This year marks the 20th anniversary of the birth of B.Duck, and B.Duck SEMK is undergoing a transformation from a “single IP operator” to an “IP ecosystem platform.” Over the past two decades, B.Duck SEMK has demonstrated the commercial value of Chinese IPs with a little yellow duck. In the future, the Group aims to show the global influence of Chinese IPs with the entire ecosystem.

With the global retail sales of licensed consumer products exceeding \$307.9 billion and the licensing market in China recording a growth for seven consecutive years, what the Group witnessing is not the twilight of a golden age but the dawn of a new era, in which Chinese IPs are evolving from a follower to a trendsetter.

1. IP Ecosystem: Enabling the Family to Thrive

The growth of a single IP is ultimately limited while the value of an IP portfolio lies in network effects. B.Duck SEMK is building an IP spectrum targeting all age groups and covering all consumption scenarios by not only piling up IPs but by personifying each IP with unique emotional appeal and a clear target audience.

The classic IPs in the B.Duck family are characters with distinct appearances that serve as the projections of different personalities and emotions containers. Through personified positioning and operation, these IPs have evolved from “being seen” to “being recognized”. Other IP characters incubated by the Group, which offer profound insights into the emotional appeal with today’s youth, will continue to engage with fans. The addition of Hidden Wooo serves as a key piece of the puzzle in reaching Gen Z. IPs such as Cimmy, SLLO, and diudiu baby, together with B.Duck, have formed a dual-engine approach of “classic + trendy”, covering the entire customer base from parents and children to young adults.

2. Fun and Trendy Creation: Retail Serving as a Must-visit Place for Fans

In 2026, B.Duck SEMK will officially launch the “Fun and Trendy Creation Project” and built a brand-new retail brand, “iPlayful”, which is a global platform for fun and trendy IP merchandise. This platform serves as a brand-new consumer-centric retail ecosystem driven by IP value instead of a traditional way of selling goods. Every store shall act as a must-visit place for fans, where fans can form a genuine bonding with their favorite IPs.

Brand experience stores are benchmarks for brand image, centers for immersive experiences, and hot spots for fans while pop-up stores are the primary venues for market testing, buzz marketing, and new product launches. Theme park stores act as platforms for immersive experiences, scenario-based integration, and traffic conversion. Through continuous operation and deep market engagement, we aim to build a strong brand presence and form a retail network that is extensive in coverage, diverse in format, and highly synergistic.

3. AI: An Amplifier for Creativity

B.Duck SEMK has established AI-driven business division in August 2023. For over two years since then, the Group has completed a four-stage evolution, progressing from model training to process automation, to AI Agent, and finally toward cross-departmental co-creation. AI is not here to replace creativity, but to unleash it.

Through continuous iteration, the proprietary AI model of B.Duck SEMK is able to accurately recreate the standard visual identity of B.Duck. This goes beyond simple AI-generated imagery by representing the digital preservation of brand assets. By profoundly empowering graphic design, product design, stock image creation, brand promotion, and social media outreach, AIGC reshapes the paradigm of content production and team collaboration. Designers are now turning from executor to planner. In the future, B.Duck SEMK will continue to optimize and promote the B.Duck AI application platform, enabling every licensee and partner to experience the productivity leap brought by AI.

4. Location-based Cultural Tourism: A Ubiquitous Touch of Joy

B.Duck SEMK is building a multi-dimensional integrated model comprising “small city parks + medium amusement parks + large cultural tourism attractions”. Small city parks serve as high-frequency brand touchpoints which offer a ubiquitous touch of joyful experiences. Medium amusement parks act as flagship projects that realize the deep integration of IP and cultural tourism, creating a replicable business model. Large cultural tourism attractions, anchored by the Huangguoshu B.Duck Colorful Rafting Park, serve as strategic vantage points to elevate the brand positioning. B.Duck SEMK is committed to turning every cultural tourism project into a local traffic engine and a landmark that transforms a “one-time visit” into “repeated visits”.

5. Globalization: Enabling Chinese IPs to Truly “Travel” the World

Going global is more than just “selling Chinese products overseas” and is about “integrating Chinese IPs into the world”. It is not about exporting but a dialogue to establish an emotional connection with local youth through local languages, local channels, and local contexts. Capitalizing China’s robust supply chain advantages, B.Duck SEMK have been selling their products through offline retail channels such as LoFt in Thailand and have established a presence on international e-commerce platforms including Lazada, TikTok, and Amazon. Meanwhile, the Group is establishing licensing partnerships with overseas brands to bring B.Duck into more international consumption settings. The success achieved in B.Duck Playful World City Funs Carnival in Bangkok, Thailand, has demonstrated the cross-cultural adaptability of the “IP + cultural tourism” model. In the future, B.Duck SEMK will replicate this model in more overseas cities, making B.Duck a joyful landmark for local youth.

The golden age of Chinese IPs has just begun. B.Duck SEMK is continuously expanding the width and depth of its business through a three-dimensional strategy of “IP licensing + merchandise retail + location-based cultural tourism” with an aim to create an IP-based ecological commercial portfolio.

CONFIRMATION OF INDEPENDENCE OF INDEPENDENT NON-EXECUTIVE DIRECTORS

The Company has received an annual confirmation of independence from each of the independent non-executive Directors. The Company has assessed their independence in accordance with Rule 3.13 of the Listing Rules and considers that all independent non-executive Directors remain independent.

REMUNERATION POLICIES

During the year ended 31 December 2025, the remuneration policy for employees of the Group was applied based on their responsibilities, qualifications, performance, experience and seniority. The policy will be reviewed periodically.

The Group’s emolument policy and structure for all remuneration of the Directors and senior management of the Group are reviewed by the Remuneration Committee, approved by the Board and authorised by the Shareholders at the annual general meetings of the Company, based on the Group’s performance, the executives’ respective contributions to the Group and comparable market practices.

DIRECTORS’ INTERESTS IN TRANSACTIONS, ARRANGEMENTS OR CONTRACTS OF SIGNIFICANCE

Save for transactions as disclosed in the section headed “Continuing Connected Transactions” in this report and note 33 to the consolidated financial statements, no other transaction, arrangements or contract of significance to the business of the Group to which the Company or any of its holding company, subsidiaries or fellow subsidiaries was a party, and in which a Director or any entity connected with a Director had a material interest, whether directly or indirectly, was entered into or subsisted at 31 December 2025 or at any time during the year ended 31 December 2025.

REPORT OF THE DIRECTORS

CONTRACTS OF SIGNIFICANCE

Save for transactions as disclosed in the section headed “Continuing Connected Transactions” in this report, no other contract of significance (whether for the provision of services to the Company or not) was entered into or subsisted between the Company, or any of its subsidiaries, and the controlling shareholder(s) (as defined in the Listing Rules) of the Company or any of its subsidiaries as at 31 December 2025 or at any time during the year ended 31 December 2025.

MANAGEMENT CONTRACTS

No contract concerning the management and administration of the whole or any substantial part of the business of the Company was entered into or existed as at 31 December 2025 or at any time during the year ended 31 December 2025.

CHARITABLE DONATIONS

The Group did not made any donation during the year ended 31 December 2025 (2024: HK\$0.1 million).

PERMITTED INDEMNITY PROVISION

The Company has arranged for appropriate insurance cover for Directors’ and officers’ liabilities in respect of legal actions against its Directors and senior management arising out of corporate activities.

Pursuant to the Articles, every Director shall be indemnified and secured harmless out of the assets and profits of the Company from and against all actions, costs, charges, losses, damages and expenses which they or any of them shall or may incur or sustain by or by reason of any act done, concurred in or omitted in or about the execution of their duty, or supposed duty, in their respective offices; provided that such indemnity shall not extend to any matter in respect of any fraud or dishonesty which may attach to any of said persons.

In accordance with the provisions of Section 470 of the Companies Ordinance (Chapter 622 of the Laws of Hong Kong), the aforesaid approved indemnity clause for the benefit of the Directors was effective during the year ended 31 December 2025 and at the time when this report prepared by the Directors was adopted in accordance with Section 391(1)(a) of the Companies Ordinance (Chapter 622 of the Laws of Hong Kong).

Save for the above, at no time during the year ended 31 December 2025 and up to the date of this annual report, there was or is, any permitted indemnity provision (as defined in section 9 of the Companies (Directors’ Report) Regulation (Chapter 622D of the Laws of Hong Kong)) being in force for the benefit at any of the Directors (whether made by the Company or otherwise) or any of the directors of an associated company (if made by the Company).

REPORT OF THE DIRECTORS

DIRECTORS' EMOLUMENTS

Details of the Directors' emoluments are set out in note 7(b) to the consolidated financial statements. The Remuneration Committee will review and recommend to the Board the remuneration and compensation packages (including incentive plans) of the Directors and senior management members, by reference to, among other things, market level of remuneration and compensation paid by comparable companies, the respective responsibilities of the Directors and senior management team, as well as the overall performance of the Group. The executive Directors and senior management may also be granted options under the share option scheme of the Company (the "**Share Option Scheme**").

SHARE SCHEMES

Share Option Scheme

The Company adopted the Share Option Scheme on 20 December 2021. No option under the Share Option Scheme has been granted since its adoption.

Summary of the principal terms of the Share Option Scheme is as follow:

(a) Purpose of the Share Option Scheme

The purpose of the Share Option Scheme is to recognise and acknowledge the contributions made by the Group's employees, to attract skilled and experienced personnel, to incentivise them to stay with the Company and to motivate them to strive for the future development and expansion of the Company and its subsidiaries, by providing them with the opportunity to acquire equity interests in the Company.

(b) Participants of the Share Option Scheme and the basis of determining the eligibility of the participants

The Board may from time to time grants options to any individual who is an employee of the Group (including executive Directors) or any entity in which the Company holds any equity interest and such other persons who has or will contribute to the Company as approved by the Board from time to time on the basis of their contribution to the development and growth of the Group.

(c) Subscription price

The subscription price per Share at which a grantee may subscribe for Shares upon exercise of an option shall be a price determined by the Board in its sole and absolute discretion but in any event shall be at least the highest of: (i) the closing price of the Shares as stated in the Stock Exchange's daily quotations sheets on the date on which the option is offered, which must be a business day; (ii) the average of the closing prices of the Shares as stated in the Stock Exchange's daily quotation sheets for the five business days immediately preceding the date of grant of the option; and (iii) the par value of the Shares.

REPORT OF THE DIRECTORS

(d) Grant price of options and acceptance of an offer

An option shall be deemed to have been granted to (subject to certain restrictions in the Share Option Scheme), and accepted by, the grantee and to have taken effect after the Company receives the offer letter signed by the grantee together with a remittance in favour of the Company of HK\$1.00 or the equivalent amount in any currency by way of consideration for the grant of the option on or before the last day for acceptance as defined by the Board.

(e) Maximum number of Shares available for issue

The total number of Shares available for issue under the Share Option Scheme is 100,000,000 Shares, representing approximately 9.92% of the Shares in issue as at the date of this annual report.

(f) Maximum entitlement of each participant

Unless approved by the Shareholders in general meeting in the manner prescribed in the Listing Rules, the Board shall not grant options to any grantee if the acceptance of those options would result in the total number of shares issued and to be issued to that grantee on exercise of his/her options during any 12-month period exceeding 1% of the total Shares then in issue.

(g) Term of subscription of Shares upon exercise of the options

An option may be exercised in accordance with the terms of the Share Option Scheme at any time during a period as the Board may determine which shall not exceed ten years from the date of grant subject to the provisions of early termination thereof.

(h) Minimum period for which an option must be held before it can be exercised

The Board may in its absolute discretion set a minimum period for which an option must be held before an option can be exercised.

(i) Remaining life of the Share Option Scheme

The Share Option Scheme will remain in force for a period of ten (10) years commencing on 17 January 2022, subject to early termination provisions contained in the Share Option Scheme. The remaining term of the Share Option Scheme is approximately 5.8 years as at the date of this annual report.

The number of options available for grant under the limit of the Share Option Scheme as at 1 January 2025 and 31 December 2025 were 100,000,000 and 100,000,000, respectively.

SHARE AWARD SCHEME

On 5 September 2022, the Company adopted a share award scheme (the “**Share Award Scheme**”) as amended and supplemented by an amendment deed dated 8 September 2022 (the “**Amendment Deed**”) entered into between the Company and the trustee who was appointed by the Company to assist with the administration of the Share Award Scheme (the “**Trustee**”). According to the Amendment Deed, the Shares that may be awarded to a selected participant under the Share Award Scheme comprise only existing Shares.

Summary of the principal terms of the Share Award Scheme is as follows:

(a) Purpose of the Share Award Scheme

The purposes and objectives of the Share Award Scheme are: (i) to recognise the contributions by certain eligible participants and to provide them with incentives in order to retain them for the continual operation and development of the Group; and (ii) to attract suitable personnel for further development of the Group.

(b) Participants of the Share Award Scheme

The eligible participants under the Share Award Scheme include:

- (i) any employees of the Group;
- (ii) any employees of the holding companies, fellow subsidiaries or associated companies of the Company;
- (iii) any persons who provide services to any members of the Group on a continuing or recurring basis in its ordinary and usual course of business which are in the interests of the long-term growth of the Group; and/or
- (iv) such other persons permitted by the Listing Rules to be participants of the Share Award Scheme, provided that such eligible participant is not a connected person of the Group.

(c) Maximum number of Shares available for issue

Pursuant to the Amendment Deed, the Share Awarded Scheme does not involve any award of new Shares. Therefore, there are no Shares available for issue under the Share Award Scheme.

REPORT OF THE DIRECTORS

(d) Grant price and subscription price of Awarded Shares

The Board may, from time to time, subject to the provisions of the Share Award Scheme, grant such number of existing Shares as award shares (the “**Awarded Shares**”) to any selected participant at no consideration and in such number and on and subject to such terms and conditions as it may in its absolute discretion determine.

(e) Maximum number of Awarded Shares for grant

The Board shall not make any further award of Awarded Shares which will result in the aggregate number of the existing Shares awarded by the Board under the Share Award Scheme exceeding ten (10%) per cent of the issued share capital of the Company from time to time. The maximum number of Awarded Shares available for grant under the Share Award Scheme was 100,835,500, which represented 10% of the issued Shares of the Company as at the date of this annual report.

(f) Maximum entitlement of each participant

The maximum number of Shares which may be awarded to a selected participant under the Share Award Scheme shall not exceed one per cent (1%) of the issued share capital of the Company in any 12-month period.

(g) Vesting of Awarded Shares under the Share Award Scheme

Subject to the terms and conditions of the Share Award Scheme and the fulfillment of all vesting conditions to the vesting of the Awarded Shares on such selected participant as specified in the Share Award Scheme and the relevant grant instrument, the Awarded Shares held by the Trustee on behalf of the selected participant shall vest in such selected participant in accordance with the applicable vesting schedule, and the Trustee shall cause the Awarded Shares to be transferred to such selected participant in accordance with the terms of the Share Award Scheme. Where a selected participant subsequently becomes a connected person of the Company prior to vesting of the Awarded Shares, such vesting of the Awarded Shares will be subject to compliance by the Company of requirements under Chapter 14A of the Listing Rules, where applicable, and the Remuneration Committee shall have absolute discretion to alter the vesting, or terminate the award, of such Awarded Shares where such requirements would, in the opinion of the Remuneration Committee, be burdensome on the Company.

(h) Remaining life of the Share Award Scheme

Subject to any early termination as may be determined by the Board pursuant to the rules of the Share Award Scheme, the Share Award Scheme shall be valid and effective for a term of ten (10) years commencing on its adoption date, i.e. 5 September 2022. The remaining term of the Share Award Scheme is approximately 6.4 years as at the date of this annual report.

REPORT OF THE DIRECTORS

REPORT OF THE DIRECTORS

RETIREMENT BENEFITS SCHEME

The Group only operates defined contribution pension schemes. The Group has arranged for its Hong Kong employees to join the Mandatory Provident Fund Scheme (“**MPF Scheme**”), a defined contribution scheme managed by an independent trustee. Under the MPF Scheme, the Group (the employer) and its employees make monthly contributions to the scheme generally at 5% of the employees’ earnings as defined under the Mandatory Provident Fund legislation. The monthly contributions of each of the employer and the employee are subject to a maximum contribution of HK\$1,500 per month (for period after 1 June 2014) and thereafter contributions are voluntary. The Group has no further obligation for postretirement benefits beyond the contributions.

As stipulated by rules and regulations in Mainland China, the employees of the Group’s subsidiaries which operate in Mainland China are required to participate in central pension schemes operated by the local municipal government and the central government, respectively. These subsidiaries are required to contribute a certain percentage of payroll costs to the central pension schemes.

No forfeited contribution (by the Group on behalf of its employees who leave the scheme prior to vesting fully in such contributions) is available to be utilised by the Group to reduce the contributions payable in the future years or to reduce the Group’s existing level of contributions to the pension scheme.

Particulars of retirement benefits plan of the Group for the year ended 31 December 2025 are set out in note 7 to the consolidated financial statements in this annual report.

The Directors are not aware of any business or interest of the Directors nor the controlling shareholder of the Company (as defined in the Listing Rules) nor any of their respective associates that compete or may compete with the business of the Group and any other conflicts of interest which any such person has or may have with the Group during the year ended 31 December 2025.

REPORT OF THE DIRECTORS

PRE-EMPTIVE RIGHTS

There is no provision for pre-emptive rights under the Articles or applicable laws of the Cayman Islands that requires the Company to offer new Shares on a pro-rata basis to its existing Shareholders.

TAX RELIEF AND EXEMPTION

The Directors are not aware of any tax relief or exemption available to the Shareholders by reason of their holding of the Company's listed securities.

PURCHASE, REDEMPTION OR SALE OF LISTED SECURITIES OF THE COMPANY

Neither the Company nor any of its subsidiaries purchased, redeemed or sold any of the Company's listed securities (including treasury shares (as defined in the Listing Rules)) during the year ended 31 December 2025. The Company did not hold any treasury shares (as defined in the Listing Rules) as of 31 December 2025.

CONTINUING CONNECTED TRANSACTIONS

During the year ended 31 December 2025, the Group has carried out the following continuing connected transactions that are subject to the annual review and annual reporting requirements under Chapter 14A of the Listing Rules.

Merchandise Supply Framework Agreement

The Company entered into a merchandise supply framework agreement (the “**Merchandise Supply Framework Agreement**”) with ENS Toys on 22 November 2024 for a term commenced from 1 January 2025 and ended on 31 December 2025. Pursuant to the Merchandise Supply Framework Agreement, the Company agreed to, and procured other members of the Group to, purchase merchandise (including but not limited to apparel and toys) from ENS Toys, subject to the cap of HK\$36,000,000. The actual transaction amount under the Merchandise Supply Framework Agreement was approximately HK\$35,460,000.

Merchandise Supply and Related Services Master Framework Agreement

The Company entered into a merchandise supply and related services master framework agreement (the “**Merchandise Supply and Related Services Master Framework Agreement**”) with ENS Toys, ENS Apparel (Huizhou) Co., Ltd.* (盈森服飾(惠州)有限公司) (“**ENS Apparel**”) and ISA Global Licensing Limited (意高品牌國際有限公司) (“**ISA Global**”) on 7 November 2025 for a term commenced from 1 January 2026 and ending on 31 December 2026. Pursuant to the Merchandise Supply and Related Services Master Framework Agreement, the Company has agreed to, and will procure other members of the Group to, purchase (i) toys, related products, and warehousing and logistics services, from ENS Toys; (ii) apparel and related products from ENS Apparel; and (iii) warehousing services from ISA Global, subject to the cap of HK\$48,290,000.

As (i) each of ENS Toys and ENS Apparel is ultimately wholly-owned by Mr. Hui Ha Lam, executive Director, chairman of the Board, chief executive officer and one of the controlling shareholders of the Company, and (ii) ISA Global is a majority-controlled company of Mr. Hui Ha Lam, each of ENS Toys, ENS Apparel and ISA Global is considered as an associate of Mr. Hui Ha Lam and a connected person of the Company under the Listing Rules. Accordingly, the entering into of the Merchandise Supply Framework Agreement and the Merchandise Supply and Related Services Master Framework Agreement as well as the transactions contemplated thereunder constitute continuing connected transactions of the Company under Chapter 14A of the Listing Rules.

The products will be priced on normal commercial terms and in the ordinary course of the Group’s business with reference to the market price of the same or comparable kind of merchandise provided by independent third parties which are not connected with (within the meaning of the Listing Rules) any Directors, chief executive or substantial shareholders (within the meaning of the Listing Rules) of the Company or any of its subsidiaries or any of their respective associates and not connected person(s) of the Company (the “**Independent Third Parties**”). Prior to entering into any transaction with ENS Toys, ENS Apparel, or ISA Global (as the case may be), the Group’s purchasing department will obtain quotes from at least two Independent Third Parties for merchandise of the same or comparable type and quantity. A summary report comparing these quotes with those from ENS Toys, ENS Apparel or ISA Global will be submitted to the Group’s product planning department for approval.

The WFOE is a company established under the laws of the PRC with limited liability which will enjoy the entire economic interests and benefits of the OPCO through the Structured Contracts. As of the date of this annual report, it is indirectly wholly-owned by the Company. The WFOE, alongside its consolidated subsidiaries, is engaged in development, publishing and operation of online game business.

The OPCO

The OPCO was established under the laws of the PRC with limited liability on 24 August 2023. As of the date of this annual report, the OPCO is wholly-owned by the Registered Owner, Mr. Wu Shuhong. Mr. Wu Shuhong is the sole director of the OPCO with 20 years of experience in financial management and corporate governance.

The OPCO is an investment holding company and is the majority shareholder of Shenzhen Dequ Technology Co., Ltd.* (深圳德趣科技有限公司) (“**Dequ Technology**”), which is principally engaged in the Prohibited Businesses (as defined below), including development, publication and operation of online game business, such as mobile online game and WeChat mini program games, which also engages in (i) proprietary research and customization of thematic IP games; (ii) game licensing; (iii) private domain camps; and (iv) online and offline retail of designer toys primarily to game players. Quanzhou Dequ Technology Co., Ltd.* (泉州德趣科技有限公司) (“**Quanzhou Dequ**”), which was owned as to 51% by Dequ Technology and 49% by Fujian Lisen Yingke Trading Co., Ltd.* (福建利森盈科貿易有限公司) at the establishment of the Contractual Arrangements, intends to engage in the development and operation of gaming live streaming and e-commerce live streaming. The OPCO Group does not have any interest in other entities as subsidiaries or associates, save for Dequ Technology and Quanzhou Dequ and the Company undertakes that the OPCO Group will not establish other subsidiaries that engage in the non-Prohibited Businesses (as defined below).

REPORT OF THE DIRECTORS

The Registered Owner

The Registered Owner of the OPCO is Mr. Wu Shuhong, a PRC national. Mr. Wu Shuhong is a cousin of Mr. Hui, who is the executive Director, chairman of the Board, chief executive officer and one of the controlling shareholders of the Company. Mr. Wu Shuhong is therefore a deemed connected person of the Company.

Dequ Technology

Dequ Technology was established under the laws of the PRC with limited liability on 16 February 2023. Dequ Technology was owned as to 51% by the OPCO and 49% by Shenzhen Dream Studio Technology Co., Ltd. (深圳市夢作坊科技有限公司) (“**Dream Studio**”) at the establishment of the Contractual Arrangements. Dream Studio is owned as to 56.25%, 24.50% and 19.25% by Mr. Wu Mingliao, Shenzhen Dream Technology Management Partnership (Limited Partnership)* (深圳市夢見科技管理合夥企業(有限合夥)), which is ultimately controlled by Mr. Wu Mingliao, and Shenzhen iDreamSky Technology Co., Ltd.* (深圳市創夢天地科技有限公司), which is controlled by iDreamSky Technology Holdings Limited (stock code: 1119) through contractual arrangements, respectively. The Company and Dream Studio shall have the right to nominate and appoint two directors and one director of Dequ Technology, respectively. The board of directors of Dequ Technology comprises three executive directors, namely Mr. Wu Shuhong, Mr. Wu Mingliao (吳明聊) and Mr. Lyu Xingyuan (呂行遠), and is chaired by Mr. Wu Shuhong. Mr. Wu Mingliao has 16 years of experience in online game development and publishing, and is currently the vice president of the Company. Mr. Lyu Xingyuan has 9 years of experience in investment management and finance, and is currently the chief investment officer of the Company. Save for Mr. Wu Mingliao, who is currently the vice president of the Company, to the best of the Directors’ knowledge, information and belief, having made all reasonable enquiries, all other ultimate beneficial owners of Dream Studio are Independent Third Parties.

The senior management of Dequ Technology comprises Mr. Hou Yong (侯勇) as the general manager and one financial officer. The general manager was nominated by Dream Studio, and his appointment was approved by the board of directors of Dequ Technology. The financial officer is assigned by the Company through the OPCO. Mr. Hou Yong has over 15 years of experience in the online game business and has participated in the development of multiple mobile games with major mobile game publishers in the PRC.

REPORT OF THE DIRECTORS

Quanzhou Dequ

Quanzhou Dequ was established under the laws of the PRC with limited liability on 2 April 2024. Quanzhou Dequ was owned as to 51% by Dequ Technology and 49% by Fujian Lisen Yingke Trading Co., Ltd.* (福建利森盈科貿易有限公司), which is a wholly-owned subsidiary of Lixun Group Co., Ltd.* (利訊集團有限公司) being a customer of the Company. Lixun Group Co., Ltd. is ultimately owned by Mr. Huang Lipeng (黃利鵬), Ms. Yuan Hongqing (袁紅青), Mr. Huang Huoming (黃火明), Ms. Huang Jiafen (黃佳芬) and Ms. Ye Qiaomei (葉巧梅). To the best of the Directors' knowledge, information and belief, having made all reasonable enquiries, all of the ultimate beneficial owners of Lixun Group Co., Ltd. are Independent Third Parties.

Mr. Wu Shuhong, as nominated and appointed by the Company through Dequ Technology, is the sole director of Quanzhou Dequ. The senior management of Quanzhou Dequ comprises the general manager, Mr. Wu Shuhong and financial officer, Mr. Zhang Qingchuan (張慶川). Mr. Zhang Qingchuan has over 10 years of experience in financial management and is currently the financial manager of a subsidiary of Lixun Group Co., Ltd. The general manager of Quanzhou Dequ was nominated by the Company through Dequ Technology and the financial officer was nominated by Fujian Lisen Yingke Trading Co., Ltd., and their appointments are approved by the shareholders of Quanzhou Dequ. To the best of the Directors' knowledge, information and belief, having made all reasonable enquiries, Mr. Zhang Qingchuan is an Independent Third Party.

Save as disclosed above, the board of directors and management team of the OPCO, Dequ Technology and Quanzhou Dequ have no other relationship with the Company.

3. Shareholding Structure under the Contractual Arrangements

Set forth below is the simplified diagram illustrating the Contractual Arrangements:

Note: Fujian Lisen Yingke Trading Co., Ltd. is a wholly-owned subsidiary of Lixun Group Co., Ltd., being a customer of the Company. Lixun Group Co., Ltd. is ultimately owned by Mr. Huang Lipeng, Ms. Yuan Hongqing, Mr. Huang Huoming, Ms. Huang Jiafen and Ms. Ye Qiaomei.

As a result of the Contractual Arrangements, the Group treated each of the OPCO, Dequ Technology and Quanzhou Dequ as a controlled entity and consolidate the financial position and results of operations of the OPCO Group in the consolidated financial statements of the Group in accordance with Hong Kong Financial Reporting Standards.

4. Reasons for Use of Contractual Arrangements

Dequ Technology is dedicated to the research, development and production of games and sales of derivative merchandises. Dequ Technology is principally engaged in Prohibited Businesses (as defined below), including development, publication and operation of online game business, such as mobile online game and WeChat mini program games, which also engages in (i) proprietary research and customization of thematic IP games; (ii) game licensing; (iii) private domain camps; and (iv) online and offline retail of designer toys primarily to game players. The Group regards Dequ Technology as an important carrier in the layout of the internet grand entertainment industry, with an aim to maximize the development of the commercial value of the Company's IPs. Dequ Technology launched an online game with the Company's IPs involved in 2024.

Quanzhou Dequ intended to engage in the development and operation of gaming live streaming and e-commerce live streaming, in order to further maximize the development of the commercial value of the Company's IPs.

Foreign investment activities in the PRC are mainly governed by the Catalogue of Industries for Encouraging Foreign Investment 《鼓勵外商投資產業目錄》 (the “**Encouraging Catalogue**”) and the Special Administrative Measures (Negative List) for the Access of Foreign Investment 《外商投資准入特別管理措施(負面清單)》 (the “**Negative List**”) which were promulgated and amended from time to time jointly by the MOFCOM and the NDRC, the Foreign Investment Law and their respective implementation rules and subsidiary regulations. The Negative List and the Encouraging Catalogue divide industries into four categories in terms of foreign investment, namely, “encouraged”, “restricted”, “prohibited” and “permitted” (the last category of which includes all industries not listed under the “encouraged”, “restricted” and “prohibited” categories).

REPORT OF THE DIRECTORS

The Regulations on the Administration of Internet Publishing Services (《網絡出版服務管理規定》) (the “**Internet Publishing Regulations**”), jointly issued by the State Administration of Press, Publication, Radio, Film and Television and MIIT on February 4, 2016 and which took effect on March 10, 2016, regulates a broad range of activities related to the “internet publishing services” providing “internet publications”, including online games, to the public through information networks. The Internet Publishing Regulations provides that any entity that is engaged in internet publishing services must obtain an Internet Publishing Service License (網絡出版服務許可證) and requires that prior to internet publishing of online games, an entity shall apply with the publishing authority of the province, autonomous region or centrally-administered municipality where it is situated, which shall, after its examination and consent, forward the same to the State Administration of Press, Publication, Radio, Film and Television for examination and approval. According to the Internet Publishing Regulations, Sino-foreign equity joint ventures, Sino-foreign cooperative joint ventures and foreign entities shall not engage in internet publishing services.

The principal business of the OPCO Group includes the development, publication and operation of online games, and the development and operation of gaming live streaming and e-commerce live streaming (the “**Prohibited Businesses**”). Both the internet publishing services (including the online game publishing) and internet culture operation (including the online game operation, gaming live streaming and e-commerce live streaming) fall within the prohibited categories in the Negative List. Each of Dequ Technology and Quanzhou Dequ is in the course of applying for an ICP License, which is required for the provision of internet information service, a type of “value-added telecommunication service”. According to the Negative List, foreign investors are “restricted” from holding more than 50% equity interests in any enterprise holding an ICP License. The OPCO is an investment holding company and does not carry out Prohibited Businesses, which are carried out by Dequ Technology and will also be carried out by Quanzhou Dequ in the future.

REPORT OF THE DIRECTORS

As the applicable PRC laws and regulations in force prohibits foreign investment in the above business operation of the OPCO Group, in line with the common practice in the industries which are subject to foreign investment restrictions, the Group intends to adopt the Contractual Arrangements with respect to the OPCO Group, which have enabled the Group, through the WFOE, to obtain effective control over, and receive all the economic benefits generated by, the businesses operated by the OPCO Group, which in turn operate the Prohibited Businesses through itself and its subsidiaries.

Accordingly, for the purpose of operating the online games in compliance with applicable PRC laws and regulations, the Company would not be currently allowed to hold any equity interests in the OPCO given that the OPCO Group operates the foreign-prohibited businesses. Based on this and the advice of the PRC Legal Adviser on the PRC foreign investment restriction policies, the Directors are of the view that the Contractual Arrangements and the OPCO Group's corporate structure as a whole are narrowly tailored to achieve the business purpose of the Group and minimize the potential conflict with relevant PRC laws and regulations. The Company will closely monitor any future development and will take all necessary actions to comply with applicable laws, regulations and specific requirements or guidance, including reorganizing the corporate structure, if required in the future. The Company will unwind and terminate the Contractual Arrangements wholly or partly once its businesses are no longer prohibited or restricted from foreign investment and to the extent permissible under PRC Laws. In addition, based on the foregoing and the advice of the PRC Legal Adviser, the Directors are also of the view that Contractual Arrangements may only be used to the extent necessary to address any limits on foreign ownership and the Company met the requirement of directly holding the maximum permitted interest in the OPCO as set out in the guidance letter HKEx GL77-14.

REPORT OF THE DIRECTORS

5. Information on the Structured Contracts

Principal terms of each of the Structured Contracts are set out as follows:

(1) Exclusive Technical Service Agreement

Parties: (a) the WFOE; and
(b) the OPCO

The OPCO and the WFOE entered into an exclusive technical service agreement (the “**Exclusive Technical Service Agreement**”) with the following terms:

Term: The Exclusive Technical Service Agreement shall remain effective from the execution date and shall remain valid unless being terminated in accordance with the terms therein.

The Exclusive Technical Service Agreement shall be terminated in the event that (i) upon the WFOE gives a prior notice in writing or (ii) upon the event that it becomes permitted under PRC laws for the WFOE to directly hold the equity interest in the OPCO, and the WFOE or its designated entity has obtained all the equity interest in the OPCO.

Subject: The OPCO agrees to engage the WFOE as its exclusive service provider to the extent permitted under applicable PRC laws in exchange for service fees to provide, including but not limited to, online game service and network culture operation. Pursuant to the Exclusive Technical Service Agreement, the OPCO shall pay to the WFOE a service fee before 15 April of each calendar year for the services provided in the preceding year. The service fee shall be equivalent to the net profit attributable to the OPCO in the financial year.

The WFOE shall have exclusive proprietary rights to IP (including but not limited to copyright, patent, technical secret and trade secret) in the work outcomes jointly developed by the WFOE and the OPCO or the work outcomes developed by the OPCO independently but relying on the services provided by the WFOE pursuant to the Exclusive Technical Service Agreement. The OPCO could only apply for the IP rights in accordance with the terms stated in the Exclusive Technical Service Agreement, including obtaining prior consent from the WFOE.

(2) Exclusive Option Agreement

- Parties:
- (a) the Registered Owner;
 - (b) the WFOE; and
 - (c) the OPCO

The Registered Owner, the WFOE and the OPCO entered into an exclusive option agreement (the “**Exclusive Option Agreement**”) with the following terms:

Term: The Exclusive Option Agreement shall remain effective from the execution date and terminate when all the equity interests in the OPCO have been legally transferred to the WFOE or its designee in accordance with the terms of the Exclusive Option Agreement.

Subject: The OPCO irrevocably grants the WFOE an exclusive right to purchase or nominate any individuals/entities to purchase all or part of its assets at the purchase price which shall be the permissible minimum under the applicable PRC laws.

Each of the Registered Owner and the OPCO irrevocably and unconditionally grants, to the WFOE or any individuals/entities designated by the WFOE, the exclusive conversion options and asset purchase options to purchase (at any time, in one or more times), to the extent permitted under relevant PRC Laws, all or part of the shares and/or assets in the OPCO.

REPORT OF THE DIRECTORS

The Registered Owner shall be prohibited from selling, offering to sell, transferring, pledging or otherwise disposing of all or part of his equity interests in the OPCO, or granting others a right to purchase such equity interests, without the prior written consent from the WFOE.

The OPCO shall be prohibited from selling, offering to sell, transferring, pledging or otherwise disposing of all or part of its assets, or granting others a right to purchase such assets, without the prior written consent from the WFOE.

Without the prior written consent of the WFOE, the Registered Owner shall not sell, transfer, mortgage or dispose of in any manner any assets of the OPCO (except in the ordinary course of business or disposal to the WFOE or parties designated by the WFOE), or legal or beneficial interest in the business or revenues of the OPCO, or allow the creation of any security interest thereon.

The Registered Owner shall, and the Registered Owner has undertaken to, return any income, profit distribution, dividends and bonus they received from the OPCO to the WFOE.

REPORT OF THE DIRECTORS

(3) Loan Agreement

- Parties:
- (a) the WFOE, as lender;
 - (b) the OPCO, as borrower; and
 - (c) the Registered Owner, as guarantor

The WFOE, the OPCO and the Registered Owner entered into a loan agreement (the “**Loan Agreement**”) with the following terms:

Principal: The WFOE shall provide a loan, at nil interest rate, in an aggregate amount of RMB5.1 million to the OPCO to pay up the registered capital of Dequ Technology. The Registered Owner agrees to pledge all of the OPCO’s equity interests held by it to the WFOE to guarantee the performance under the Loan Agreement.

Term: The Loan Agreement shall remain effective from the execution date. There is no repayment date under the Loan Agreement, except for when the WFOE is allowed to hold equity interests in Dequ Technology that the loan shall be repaid. The repayment obligation under the Loan Agreement would be fulfilled when the WFOE or its designee upon it is permitted under the PRC laws (i) exercises the share options under the Equity Interest Pledge Agreement (as defined below) to acquire the entire equity interest held by the Registered Owner in the OPCO or (ii) acquires the entire equity interest held by the OPCO in Dequ Technology by offsetting the loan amount of RMB5.1 million.

Any tax arising from the loan shall be borne by the WFOE.

The PRC Legal Adviser is of the opinion that the Loan Agreement, including the offsetting arrangement set out above, is permitted and feasible under the PRC laws.

REPORT OF THE DIRECTORS

(4) Power of Attorney on Shareholder's Voting Rights and the Power of Attorney

- Parties:
- (a) the Registered Owner;
 - (b) the WFOE; and
 - (c) the OPCO

The OPCO, the Registered Owner, and the WFOE entered into a power of attorney on shareholder's voting rights (the “**Power of Attorney on Shareholders' Voting Rights**”), and the Registered Owner signed a power of attorney (the “**Power of Attorney**”) with the following terms:

Term: The Power of Attorney on Shareholder's Voting Rights shall remain effective and terminate upon the WFOE gives a prior notice in writing. If the Registered Owner transfers all its equity interests in the OPCO with the prior consent of the WFOE, the Registered Owner will no longer be a party to the Power of Attorney on Shareholder's Voting Rights, but the obligations and commitments of other parties under the agreement will not be adversely affected.

The Power of Attorney shall remain effective and terminate upon the Registered Owner's ceasing to be a shareholder of the OPCO.

Subject: The Registered Owner irrevocably appoints designee(s) (including a liquidator replacing its directors) of the WFOE, to act as its attorney on its behalf to exercise all rights in connection with matters concerning its rights as shareholder of the OPCO, including but not limited to:

- (a) holding and attending shareholder's meeting of the OPCO as representative(s) of the Registered Owner;
- (b) representing the Registered Owner in the exercise of voting right and veto right on all matters requiring the decisions of shareholders;

- (c) voting as shareholders as contemplated under the articles of association of the company; and
- (d) signing relevant equity transfer agreements, asset transfer agreements (if applicable), and other relevant documents on behalf of the Registered Owner, and handling relevant government approvals, registrations and filings.

(5) The Equity Interest Pledge Agreement

- Parties:
- (a) the Registered Owner, as pledger;
 - (b) the WFOE, as pledgee; and
 - (c) the OPCO

The Registered Owner, the WFOE and the OPCO entered into an equity interest pledge agreement (the “**Equity Interest Pledge Agreement**”) with the following terms:

Term: Effective upon execution of the Equity Interest Pledge Agreement and shall remain valid until all the contractual obligations among the Registered Owner, the WFOE and the OPCO under the Equity Interest Pledge Agreement have been fully discharged and that all outstanding loans have been fully repaid.

Subject: The Registered Owner agrees to pledge all of its shares in the OPCO to the WFOE as a security interest to guarantee the payment of outstanding loans of the OPCO.

During the period of pledge, without the prior written consent of the WFOE, the Registered Owner shall not create or agree to create any new pledge or other security on the equity interests of the OPCO, nor assign or transfer any of the equity interests in the OPCO.

REPORT OF THE DIRECTORS

(6) Spousal Consent

Party: the spouse of the Registered Owner

The spouse of the Registered Owner executed an irrevocable undertaking with the following terms:

Subject: The spouse of the Registered Owner expressly undertakes that, among others, (i) not to take any action with the intent to interfere with the arrangements mentioned above, including making any claim that such equity interest constitutes the property or community property; and (ii) to unconditionally and irrevocably waive any and all rights or entitlements whatsoever to such equity interest that may be granted to the spouse according to any applicable laws.

(7) Disputes Resolutions, Succession and Liquidation Under the Structured Contracts

Disputes resolutions

The Contractual Arrangements are governed by and shall be construed in accordance with the PRC laws. In the event of any dispute arising under or in connection with the Structured Contracts and the parties failing to reach an agreement within 30 days after the relevant dispute arises, the relevant dispute shall be submitted to Suzhou Arbitration Committee (蘇州仲裁委員會) in accordance with the then effective arbitration rules. The arbitration award shall be final and binding on all parties. Any party shall have the right to apply to courts with competent jurisdiction for enforcement of arbitration awards after the relevant arbitration award comes into effect. During the dispute settlement period, except for the matters in dispute, the parties shall continue to exercise their respective rights and perform their respective obligations under the Structured Contracts. In support of the arbitration pending formation of the arbitral tribunal or in appropriate cases, the courts in Hong Kong, the Cayman Islands, the PRC and the location where the OPCO' principal assets are located shall have the jurisdiction to grant interim remedies over the assets of the OPCO.

Succession

The provisions set out in the Contractual Arrangements are also binding on the successors of the parties, as if the successors were a signing party to the Contractual Arrangements. Although the Contractual Arrangements do not specify the identity of successors, under the PRC Civil Code (《中華人民共和國民法典》), the statutory successors include the spouse, children, parents, brothers, sisters, paternal grandparents and the maternal grandparents, and any breach by the successors would be deemed to be a breach of the Contractual Arrangements.

Liquidation

In the event of a mandatory liquidation of the OPCO as required by the PRC laws, the Registered Owner shall transfer the proceeds they received from liquidation as a gift to the WFOE or its designee(s) to the extent permitted by the PRC laws.

Unwinding the structure under the Contractual Arrangements

The Company will unwind the structure created as a result of the Contractual Arrangements as soon as the PRC laws allow the Prohibited Businesses to be operated without such structure, and the WFOE may acquire the equity interest in the OPCO held by the Registered Owner and/or the assets of the OPCO to the extent as permitted by the then applicable PRC laws. In the event the WFOE exercises the right under the Exclusive Option Agreement to acquire the equity interest in the OPCO held by the Registered Owners and/or the assets of OPCO to unwind the structure under the Contractual Arrangements, the Registered Owner and the OPCO undertake to return to the WFOE or its designated entity any consideration received.

(8) Loss Sharing

Under the relevant PRC laws and regulations, none of the Company and the WFOE is legally required to share the losses of, or provide financial support to, the OPCO. Further, the OPCO is a limited liability company and shall be solely liable for its own debts and losses with assets and properties owned by it. Nevertheless, the WFOE intends to continuously provide to or assist the OPCO in obtaining financial support when deemed necessary. In addition, given that the Group conducts the Prohibited Businesses in the PRC through the OPCO Group, and that their financial position and results of operations are consolidated into the Group's financial statements under the applicable accounting principles, the Company's business, financial position and results of operations would be adversely affected if the OPCO Group suffers losses.

(9) Conflict of Interests

The Registered Owner gives its irrevocable undertakings in the Powers of Attorney on Shareholder's Voting Rights which address potential conflicts of interests that may arise in connection with the Contractual Arrangements. Pursuant to the Powers of Attorney on Shareholder's Voting Rights, the Registered Owner will irrevocably appoint any person as designated by the WFOE as its representative, to act as its attorney on its behalf to exercise all rights in connection with matters concerning its rights as shareholder of the OPCO, including but not limited to: (i) holding and attending shareholder's meeting of the OPCO as representative(s) of the Registered Owner; (ii) representing the Registered Owner in the exercise of voting right and veto right on all matters requiring the decisions of shareholders; (iii) voting as shareholders as contemplated under the articles of association of the company; and (iv) signing relevant equity transfer agreements, asset transfer agreements (if applicable), and other relevant documents on behalf of the Registered Owner, and handling relevant government approvals, registrations and filings. Therefore, it is unlikely that there will be potential conflicts of interests between the Company and the Registered Owner.

6. Internal Control Measures to Be Implemented by the Group

The Structured Contracts contain certain provisions in order to exercise effective control over and to safeguard the assets of the OPCO Group.

In addition to the internal control measures as provided in the Structured Contracts, it is the intention of the Company, to implement, through the WFOE, additional internal control measures against the OPCO Group as appropriate, having regard to the internal control measures adopted by the Group from time to time, which may include but not limited to:

- (a) major issues arising from the implementation and compliance with the Contractual Arrangements or any regulatory enquiries from government authorities will be submitted to the Board, if necessary, for review and discussion on an occurrence basis;
- (b) the Board will review the overall performance of and compliance with the Contractual Arrangements at least once a year;
- (c) the Company will disclose the overall performance of and compliance with the Contractual Arrangements in its annual reports; and
- (d) the Company will engage external legal advisers or other professional advisers, if necessary, to assist the Board to review the implementation of the Contractual Arrangements, review the legal compliance of the WFOE and the OPCO Group to deal with specific issues or matters arising from the Contractual Arrangements.

REPORT OF THE DIRECTORS

To maintain effective control in the ownership and operations of Dequ Technology and Quanzhou Dequ by the Company, the Company has implemented additional internal control measures against Dequ Technology and Quanzhou Dequ, which include:

(I) Dequ Technology

- (a) the Company shall have the right to nominate and appoint two directors, and Dream Studio shall have the right to nominate and appoint one director, to the board of directors of Dequ Technology. The Company, through its control over the majority members of the board of directors of Dequ Technology, has the overall control, including the appointment and removal, of the senior management of Dequ Technology;
- (b) the company seal of Dequ Technology shall be kept and affixed by the directors of Dequ Technology who are appointed by the Company; and
- (c) the entering into of transaction(s) of RMB1 million or above shall be subject to the approval of the board of directors of Dequ Technology.

(II) Quanzhou Dequ

- (a) the following matters, among others, shall be approved by Dequ Technology as the majority shareholder of Quanzhou Dequ: (i) the operation policies and investment plans; (ii) the election and replacement of director; (iii) share transfer and capital injection by the shareholders; (iv) merger, division, change in corporate form, dissolution and liquidation; and (v) appointment and dismissal of managers, deputy managers, directors and financial officers;
- (b) the sole director of Quanzhou Dequ, as nominated and appointed by the Company through Dequ Technology, has the power to, among others, act according to the shareholders' resolutions, formulate the annual budget and the fundamental management rules of Quanzhou Dequ;

REPORT OF THE DIRECTORS

- (c) company seal of Quanzhou Dequ shall be kept and affixed by the general manager of Quanzhou Dequ, who is appointed by the Company through Dequ Technology;
- (d) the financial officer of Quanzhou Dequ is responsible for assessing the financial implications of the entering into of loans, guarantees and investments by Quanzhou Dequ, and the entering into of these transactions shall be approved by the general manager of Quanzhou Dequ, who is appointed by the Company through Dequ Technology;
- (e) all payments of Quanzhou Dequ shall require the approval from both the Company and Fujian Lisen Yingke Trading Co., Ltd.;
- (f) the Company shall have the right to, and the financial officer of Quanzhou Dequ shall have the duty to, collect monthly management accounts, bank statements, cash balances and major operational data of Quanzhou Dequ within 15 days after each month end for review. The Company will seek explanations from the senior management of Quanzhou Dequ on any material fluctuations of the aforesaid collected items;
- (g) Quanzhou Dequ must assist and facilitate the Company to conduct all on-site internal audits if required by the Company; and
- (h) if the financial officer of Quanzhou Dequ fails to discharge his duties and responsibilities, Dequ Technology, being the majority shareholder of Quanzhou Dequ, shall have the power to remove the financial officer.

The Board was of the view that given (i) the Company was the majority shareholder of Dequ Technology and Quanzhou Dequ; (ii) the majority of the directors of Dequ Technology was nominated and appointed by the Company; (iii) the sole director of Quanzhou Dequ was nominated and appointed by Dequ Technology; and (iv) the implementation of the above additional internal control measures, the Group would, pursuant to the Contractual Arrangements, receive the economic benefits derived by Dequ Technology and Quanzhou Dequ which they were entitled to by virtue of the equity interests they hold.

REPORT OF THE DIRECTORS

7. Compliance of Contractual Arrangements with PRC Laws, Rules and Regulations

The PRC Legal Adviser was of the opinion that:

- (i) the Structured Contracts are legal and valid, binding on the signatories and enforceable;
- (ii) the Structured Contracts are not contrary to the articles of association of the signatory;
- (iii) except that the establishment of the pledge rights under the Equity Interest Pledge Agreement is subject to registration with the relevant governmental authorities, and the exercise of the exclusive purchase rights of the OPCO or its designee shall be subject to the corresponding approval, filing or registration procedures in accordance with the provisions of the PRC laws, the execution of the above agreements and related documents do not require the administrative permission or approval of other governmental authorities, and will not be vetoed or terminated by the relevant governmental authorities; and
- (iv) the Structured Contracts do not exist in the circumstances of invalidation of the PRC Civil Code and there is no violation of Chinese laws and relevant regulations of industry authorities.

The PRC Legal Adviser also advised the Company that there are uncertainties regarding the interpretation and application of current and future PRC laws and regulations, and accordingly, there can be no assurance that the PRC regulatory authorities will not in the future take a view that is contrary to or otherwise different from the above opinion.

The Structured Contracts, as confirmed by the parties thereto, would be entered into for the purpose of realizing the commercial purpose of the parties, and are narrowly tailored to the extent possible to minimize potential conflict with applicable existing PRC laws and regulations. Furthermore, the PRC Civil Code came into effect on January 1, 2021, which no longer specifies “concealing illegal intentions with a lawful form” as the statutory circumstances of a void contract but stipulates certain circumstances which will lead to the invalidation of civil juristic acts, including but not limited to a civil juristic act performed by a person having no capacity for civil conducts, a civil juristic act performed by the actor and the counterparty based on false expression of intention, a civil juristic act violates the mandatory provisions of laws and administrative regulations, a civil juristic act violates of public order and morals, etc. The provisions on the validity of civil juristic acts also apply to the validity of contracts. As such, the Structured Contracts would not fall within the above circumstances which will result in the invalidity of the Structured Contracts.

Based on the above, the Directors believe that the Structured Contracts are unlikely to be deemed ineffective or invalid under the relevant PRC laws and regulations, subject to certain issues discussed in the paragraphs headed “Risk Factors in Relation to the Contractual Arrangements” herein.

8. The Board’s view on the Contractual Arrangements

By entering into the Structured Contracts, the Group, through the WFOE, shall enjoy the entire economic interests and benefits generated by the OPCO, since:

- (i) service fees which are equivalent to the net profit attributable to the OPCO in the financial year are payable by the OPCO to the WFOE under the Exclusive Technical Service Agreement;
- (ii) the WFOE shall have exclusive proprietary rights to intellectual property (including but not limited to copyright, patent, technical secret and trade secret) in the work outcomes jointly developed by the WFOE and the OPCO or the work outcomes developed by the OPCO independently but relying on the services provided by the WFOE; and

REPORT OF THE DIRECTORS

- (iii) without the prior written consent of the WFOE, the Registered Owner shall not sell, transfer, mortgage or dispose of in any manner any assets of the OPCO (except in the ordinary course of business), or legal or beneficial interest in the business or revenues of the OPCO, or allow the creation of any security interest thereon; and pursuant to the Power of Attorney and Power of Attorney on Shareholder's Voting Rights, the Registered Owner has irrevocably appointed designee(s) of the WFOE to act as its attorney on its behalf to exercise all rights in connection with matters concerning its rights as shareholder of the OPCO, including but not limited to the exercise of voting and veto rights on all matters requiring the decisions of shareholders.

As stipulated under the paragraphs headed "Reasons for Use of Contractual Arrangements" herein, for the purpose of operating the online games in compliance with applicable PRC laws and regulations, the Company would not be currently allowed to hold any equity interests in the OPCO given that the OPCO Group operates the foreign-prohibited business. The Board (including the independent non-executive Directors) is of the view that the Structured Contracts, when viewed in totality, are in compliance with the requirements set out in the Stock Exchange's Guidance Letter HKEx GL77-14, and being narrowly tailored to achieve the transactions contemplated under the Contractual Arrangements and to minimize the potential conflicts with and are enforceable under the relevant PRC laws. The Board confirms that appropriate arrangements have been made to protect the interests of the Group in the OPCO in the event of the OPCO's or the Registered Owner's (as the case may be) liquidation, dissolution, bankruptcy or termination to avoid any practical difficulties in enforcing the Contractual Arrangements. The Contractual Arrangements and the transactions contemplated thereunder are fundamental to the Group's legal structure and business operations, and such transactions have been or will be entered into in the Group's ordinary and usual course of business. The terms of the Structured Contracts are fair and reasonable and on normal commercial terms or better, and the entering into of such agreements is in the interests of the Group and the Shareholders as a whole, and as such would enable the WFOE to gain control over the OPCO and entitle it to the economic interests and benefits of the OPCO Group.

REPORT OF THE DIRECTORS

The Board (including the independent non-executive Directors) further believes that save for such issues as disclosed in the paragraphs headed “Risk Factors in Relation to the Contractual Arrangements – Certain terms of the Contractual Arrangements may not be enforceable under PRC laws”, the Structured Contracts conferring significant control and economic benefits from the OPCO to the Company are enforceable under the relevant PRC laws, and that the Contractual Arrangements will provide a mechanism that enables the WFOE to exercise effective control over the OPCO based on the following reasons:

- (i) The Directors have consulted with the PRC Legal Adviser in respect of their views on the Structured Contracts as stipulated under paragraphs headed “Compliance of Contractual Arrangements with PRC Laws, Rules and Regulations”.
- (ii) The Directors undertake that they shall consult the PRC Legal Adviser from time to time to check if there are any legal developments in the PRC affecting the Contractual Arrangements, and shall, where necessary, immediately report to the Board and provide it with appropriate advice and recommendations to enable it to timely determine if any modification or amendment needs to be made in compliance with the updated legal requirements.

As a result, the Contractual Arrangements enable the Group to:

- (i) irrevocably exercise such voting rights as entitled by shareholders of the OPCO;
- (ii) exercise effective financial and operational control over the OPCO;
- (iii) receive substantially all such economic interest returns generated by the OPCO through the fees charged for the services provided by the WFOE;
- (iv) obtain an irrevocable and exclusive right to purchase all or part of the equity interests in the OPCO from the shareholder(s) at the minimum consideration permitted by PRC laws; and
- (v) obtain a pledge over the entire equity interests of the OPCO from its respective equity holders to secure performance of the OPCO’s obligations under the Contractual Arrangements.

REPORT OF THE DIRECTORS

The Board (including the independent non-executive Directors), based on the advice of the PRC Legal Adviser, considers that the use of Contractual Arrangements is in compliance with the relevant PRC laws and regulations currently in effect and are legally binding and enforceable. As a result of the Contractual Arrangements, the Group is able to exert effective control over the OPCO as it has rights to exercise power over the OPCO (as entitled by its equity holder), receive variable returns from its arrangements with the OPCO, and has the ability to affect those returns through its power over the OPCO. Consequently, the Group will treat each of the OPCO, Dequ Technology and Quanzhou Dequ as a controlled entity and consolidate the financial position and results of operations of the OPCO Group in the consolidated financial statements of the Group in accordance with Hong Kong Financial Reporting Standards. The Company has discussed with the Company's auditors and the Company's auditors concurred with management's assessment and conclusion on the accounting treatment.

9. Risk Factors in Relation to the Contractual Arrangements

The Group believes the following risks are associated with the Contractual Arrangements:

- (1). **If the PRC government finds that the Contractual Arrangements that allow the Company to consolidate the results of operations, assets and liabilities, and cash flows of the OPCO which operates the Prohibited Businesses do not comply with the applicable PRC laws and regulations, the Company could be subject to penalties and its business may be materially and adversely affected**

On March 15, 2019, the National People's Congress promulgated the Foreign Investment Law, and the Implementation Rules to the PRC Foreign Investment Law came into effect as of January 1, 2020, which clarified and elaborated the relevant provisions of the Foreign Investment Law.

While the Foreign Investment Law does not define contractual arrangements as a form of foreign investment explicitly, it has a catch-all provision under the definition of "foreign investment" that includes investments made by foreign investors in the PRC through other means as provided by laws, administrative regulations or the State Council.

REPORT OF THE DIRECTORS

Notwithstanding the PRC Legal Adviser is of the view that the Contractual Arrangements are valid, legal and binding on and enforceable against all the signing parties to the Contractual Arrangements, the PRC laws and regulations are still evolving and the interpretation and application of current and future PRC laws and regulations may change from time to time; accordingly, the PRC regulatory authorities may take a view that is contrary to the opinion of the PRC Legal Adviser. It is uncertain whether any other new PRC laws or regulations relating to the OPCO structures will be adopted or if adopted, what they would provide. If the Company or its OPCO is found to be in violation of any existing or future PRC laws or regulations, or fails to obtain or maintain any of the required permits or approvals, the relevant PRC regulatory authorities would have discretion to take action in dealing with such violations or failures in accordance with relevant PRC laws and regulations, including:

- revoking the Group's business and operating licenses;
- discontinuing or restricting the Group's operations;
- imposing fines or confiscating any of the Group's income that they deem to have been obtained through illegal operations;
- imposing conditions or requirements with which the Company or the OPCO may not be able to comply;
- requiring the Group or the OPCO to restructure the relevant ownership structure or operations; or
- taking other regulatory or enforcement actions in accordance with relevant PRC laws and regulations.

The imposition of any of these penalties could have a material and adverse effect on the Group's business, financial condition and results of operations. If any of these penalties results in the Group's inability to direct the activities of OPCO that most significantly impact its economic performance, and/or the Group's failure to receive the economic benefits from the OPCO, the Company may not be able to consolidate the entity in its consolidated financial statements.

REPORT OF THE DIRECTORS

The Company cannot guarantee the Shareholders that future laws and regulations will not provide for contractual arrangements as a form of such foreign investment. Therefore, there can be no assurance that the Company's control over the OPCO through the Contractual Arrangements will not be deemed as foreign investment in the future. In the event that any possible implementing regulations of the Foreign Investment Law, or any other future laws, administrative regulations or provisions deem contractual arrangements as a means of foreign investment, or as otherwise in violation of such laws, administrative regulations or provisions, the Contractual Arrangements may be deemed as invalid and illegal, and the Group may be required to unwind the Contractual Arrangements and/or dispose of any affected business. Also, if future laws, administrative regulations or provisions mandate further actions to be taken with respect to the Contractual Arrangements, the Group may face substantial uncertainties as to whether the Group can complete such actions in a timely manner, or at all.

(2). Certain terms of the Contractual Arrangements may not be enforceable under PRC laws

The Contractual Arrangements provide that the arbitration tribunal may award remedies over the shares and/or assets of the OPCO or injunctive relief (e.g. for the conduct of business or to compel the transfer of assets) or order the winding up of the OPCO, and any party may apply to the courts of Hong Kong, the Cayman Islands (being the place of incorporation of the Company) and China (being the place of incorporation of the OPCO and the place where the principal assets of the WFOE or the OPCO is located) for interim remedies or injunctive relief. However, pursuant to the PRC laws, the arbitration tribunal may have no power to grant the aforementioned remedies or injunctive relief or to order the winding up of the OPCO. As a result, in the event that the OPCO or the Registered Owner breaches the terms of the Contractual Arrangements, the WFOE may not be able to obtain sufficient remedies in a timely manner, and its ability to exert effective control over the OPCO could be materially and adversely affected.

REPORT OF THE DIRECTORS

(3). The Contractual Arrangements may not be as effective in providing control over the OPCO as equity ownership

The Group has relied and expects to continue to rely on the Contractual Arrangements with the OPCO and the Registered Owner to operate the Prohibited Businesses. If the Company had equity ownership of the OPCO, the Company would be able to exercise its rights as a shareholder to effect changes in the board of directors of the OPCO, which in turn could effect changes, subject to any applicable fiduciary obligations, at the management level. However, under the Contractual Arrangements, the Group relies on the performance by the OPCO and the Registered Owner of their obligations under the contracts to exercise control over the OPCO. However, the Registered Owner may not act in the best interests of the Group or may not perform its obligations under these contracts. Such risks exist throughout the period in which the Group intends to operate its business through the Contractual Arrangements with the OPCO. The Company may replace the registered owner of the OPCO at any time pursuant to the Contractual Arrangements with the OPCO and the Registered Owner. However, if any dispute relating to these contracts remains unresolved, the Group will have to enforce its rights under these contracts through the operation of PRC law and courts and will be subject to uncertainties with respect to the outcome of such disputes. Therefore, the Contractual Arrangements with the OPCO may not be as effective in ensuring the Company's control over the relevant portion of its business operations as equity ownership would be.

- (4). Any failure by the OPCO or the Registered Owner to perform their obligations under the Contractual Arrangements would potentially lead to the Group having to incur additional costs and expend material resources to enforce such arrangements, and/or temporary or permanent loss of control over the Prohibited Businesses and the revenue from these businesses

If the OPCO or the Registered Owner fail to perform their respective obligations under the Contractual Arrangements, the Group may have to incur additional costs and expend material resources to enforce such arrangements, and/or this may lead to the Group's temporary or permanent loss of control over the Prohibited Businesses and the revenue from these businesses. The Group may also have to rely on legal remedies under PRC law, including seeking specific performance or injunctive relief, and claiming damages, which the Company cannot guarantee the Shareholders will be effective. For example, if the Registered Owner refuses to transfer its equity interest in the OPCO to the Company or its designee when the WFOE exercises the purchase option pursuant to the Contractual Arrangements, or if it otherwise acts in bad faith towards the Group, the Group may have to take legal actions to compel it to perform its contractual obligations. In the event the Group is unable to enforce the Contractual Arrangements, the Company may not be able to exert effective control over the OPCO, and the Group's ability to conduct its businesses may be negatively affected, which may have a material and adverse effect on the Group's financial condition and results of operations.

- (5). The Registered Owner may have potential conflicts of interest with the Group, which may materially and adversely affect the Group's business and financial condition

The Registered Owner may have potential conflicts of interest with the Group. The Registered Owner may breach, or cause the OPCO to breach, or refuse to renew, the Contractual Arrangements the Group has with him and the OPCO, which would have a material and adverse effect on the Company's ability to effectively control the OPCO Group and receive substantially all the economic benefits from it. The Company cannot guarantee the Shareholders that when conflicts of interest arise, the Registered Owner will act in the best interests of the Group or such conflicts will be resolved in the Group's favor. If the Group cannot resolve any conflict of interest or dispute between the Group and the Registered Owner, the Group would have to rely on legal proceedings, which could result in disruption of its business and subject the Group to substantial uncertainty as to the outcome of any such legal proceedings.

REPORT OF THE DIRECTORS

- (6). **The Contractual Arrangements may subject the Company to scrutiny by the PRC tax authorities and may result in a finding that the Company owes additional taxes or is ineligible for tax exemptions, or both, which could substantially increase taxes owed and thereby reduce profit attributable to equity shareholders of the Company**

Under PRC laws and regulations, arrangements and transactions among related parties may be subject to audit or challenge by the PRC tax authorities. The Company could face material and adverse tax consequences if the PRC tax authorities determine that the Structured Contracts entered into with the OPCO do not represent an arm's-length price and adjust any of those entities' income in the form of a transfer pricing adjustment. A transfer pricing adjustment could increase tax liabilities of the Company. In addition, PRC tax authorities may form the view that the OPCO has improperly minimized their tax obligations, and the Company may not be able to rectify any such incident within the limited timeline required by PRC tax authorities. As a result, the PRC tax authorities may impose late payment fees and other penalties on the Company for underpaid taxes in accordance with relevant PRC laws and regulations, which could materially and adversely affect business, financial condition and results of operations of the Company.

- (7). **If any of the WFOE or OPCO becomes the subject of a bankruptcy or liquidation proceeding, the Company may lose the ability to use and enjoy certain important assets, which could materially and adversely affect its businesses**

The OPCO is expected to contribute a portion of the Group's revenue. The Contractual Arrangements contain terms that specifically obligate the Registered Owner to ensure the valid existence of the OPCO and restrict the disposition of material assets or any equity interest of the OPCO. However, in the event the Registered Owner breaches the terms of the Contractual Arrangements and voluntarily liquidates the OPCO, or the OPCO declares bankruptcy and all or part of its assets become subject to liens or rights of third-party creditors, or are otherwise disposed of without the Company's consent, the Group may be unable to operate some or all of its business, which could have a material adverse effect on the Group's business, financial condition and results of operations. Furthermore, if the OPCO undergoes a voluntary or involuntary liquidation proceeding, its equity holders or unrelated third-party creditors may claim rights to some or all of the assets of the OPCO, thereby hindering the Group's ability to operate its business.

REPORT OF THE DIRECTORS

- (8). **The Company's exercise of the option to acquire the equity interests of the OPCO may be subject to certain limitations and the ownership transfer may incur substantial costs**

In case the WFOE exercises its option to acquire all or part of the equity interest in the OPCO under the Exclusive Option Agreement, such acquisition may only be conducted to the extent as permitted by the applicable PRC laws and will be subject to necessary approvals or relevant procedures under applicable PRC laws. In addition, the aforementioned acquisitions may be subject to a permissible minimum price (such as an appraised value for the equity interest in the OPCO) or other limitations as imposed by applicable PRC laws. Further, a substantial amount of other costs (if any) and time may be involved in acquiring and transferring the ownership of the OPCO, which may have a material adverse impact on the WFOE and/or the Company's businesses, prospects and profitability.

- (9). **The Company does not have any insurance which covers the risks relating to the Contractual Arrangements and the transactions contemplated thereunder**

The insurance of the Group does not cover the risks relating to the Contractual Arrangements and the transactions contemplated thereunder and the Company has no intention to purchase any new insurance in this regard. If any risk arises from the Contractual Arrangements in the future, such as those affecting the enforceability of the Contractual Arrangements and the relevant agreements for the transactions contemplated thereunder and the operation of Contractual Arrangements, the results of the Group may be adversely affected. However, the Group will monitor the relevant legal and operational environment from time to time to comply with the applicable laws and regulations. The Company will continue evaluating the feasibility, cost and benefit of insuring the transactions contemplated under the Contractual Arrangements.

10. Listing Rules Implications

The Registered Owner, being a cousin of Mr. Hui Ha Lam, is a deemed connected person of the Company. Therefore, the continuing transactions under the Contractual Arrangements should constitute continuing connected transactions for the Company under Chapter 14A of the Listing Rules, and such transactions should be subject to all applicable reporting, annual review, announcement and independent shareholders' approval requirements under Chapter 14A of the Listing Rules.

However, the Directors (including the independent non-executive Directors) are of the view that it is inappropriate for the Company to (a) set an annual cap for the transactions under the Contractual Arrangements under Rule 14A.53 of the Listing Rules; or (b) limit the term of the Contractual Arrangements to a fixed term under Rule 14A.52 of the Listing Rules on the following grounds:

- (i) the Contractual Arrangements and the transactions contemplated thereunder are fundamental to the Group's legal structure and business operations as the adoption of the Contractual Arrangements enables the Group to continue, through the WFOE, to maintain effective control over, and receive all the economic benefits generated by, the businesses operated by the OPCO and operate the Prohibited Businesses;
- (ii) the Contractual Arrangements are entered into for the benefit of the Group. Unlike typical connected transactions, since the Registered Owner acts as shareholder of the OPCO to facilitate the arrangements whereby economic benefits from the OPCO are transferred to the Company, there is no concern of leakage of economic benefits to connected persons to the detriment of minority shareholders of the Company under the Contractual Arrangements;
- (iii) the Directors (including independent non-executive Directors) consider that the Contractual Arrangements are on normal commercial terms or on terms more favorable to the Group, in the ordinary and usual course of business of the Group and are fair and reasonable or to the advantage of the Group, and are in the interests of the Company and the Shareholders as a whole;

REPORT OF THE DIRECTORS

- (iv) the Structured Contracts will be approved by the Independent Shareholders at the general meeting of the Company. In particular, in the circular to be dispatched to the Independent Shareholders, the Independent Financial Adviser would have advised the Independent Shareholders on, among other things, the terms of the Structured Contracts, including but not limited to the absence of annual cap and fixed term of the Structured Contracts. As such, each of the Independent Shareholders has been given an opportunity to consider and vote on the Structured Contracts after having benefit of the recommendation of the Independent Financial Adviser on the Structured Contracts; and
- (v) taking into account (i) the transactions are fundamental to the Group's legal structure in holding the OPCO and the management of the Prohibited Businesses of the OPCO in the PRC, (ii) the transactions contemplated under the Structured Contracts are on normal commercial terms, fair and reasonable and in the interests of the Company and the Shareholders as a whole, and (iii) the Independent Shareholders have been given a chance to vote on the Structured Contracts having received recommendation from the Independent Financial Adviser, there is no presumption of undue influence that justifies an additional layer of check and balance prescribed by the Listing Rules. It is impractical and unduly burdensome and adds to the additional cost and administrative burden on the Company to require the Company to adopt an annual cap or set a definite term to the Structured Contracts which may be otherwise detrimental to the commercial interest of the Company.

11. Application for Waivers from Strict Compliance with Chapter 14A of the Listing Rules

The Company has applied for, and the Stock Exchange has granted, a waiver (the “**Waiver**”) from strict compliance with (i) the requirement of setting an annual cap for the transactions under the Structured Contracts under Rule 14A.53 of the Listing Rules, and (ii) the requirement of fixing a definite term of the Structured Contracts under Rule 14A.52 of the Listing Rules, for so long as the Shares are listed on the Stock Exchange. Pursuant to the requirements under Rule 14A.52 of the Listing Rules, the Company has appointed the Independent Financial Adviser who is of the view that it is fair and reasonable and in the interests of the Company and the Shareholders as a whole to enter into the Structured Contracts without a fixed term exceeding three years.

The Company has applied for the Waiver for the following reasons:

- (i) the Contractual Arrangements would enable the Group to, through the WFOE, obtain effective control over, and receive all the economic benefits generated by, the businesses operated by the OPCO Group. The principal business of the OPCO Group includes the Prohibited Businesses. The OPCO Group does not have any interest in other entities as subsidiaries or associates, save for Dequ Technology and Quanzhou Dequ. The OPCO is an investment holding company and does not carry out Prohibited Businesses, which are carried out by Dequ Technology and will also be carried out by Quanzhou Dequ in the future. The Company undertakes that the OPCO Group will not establish other subsidiaries that engage in the non-Prohibited Businesses. Setting annual caps on the transactions under the Contractual Arrangements would be unnecessary and impractical as it might (a) limit the potential ability of the Group to operate the business and enjoy the economic interests and benefits to be generated by the OPCO Group; and (b) incur additional costs and administrative burdens arising from monitoring and ensuring that the amounts of transactions are within the annual caps;
- (ii) the Group is ineligible to hold any equity interest in the OPCO due to the foreign ownership restrictions under the applicable PRC laws and regulations;

REPORT OF THE DIRECTORS

- (iii) the Contractual Arrangements are intended to be long term arrangements that it would be unduly burdensome and impracticable for the parties thereto to renew such arrangements every three years or less, whereas a comparatively long duration of the Contractual Arrangements without a fixed term would provide stability to the Group's operations and potentially extend the period of income to be derived from the businesses operated by the OPCO Group; and
- (iv) the Directors are of the view that it is justifiable and normal business practice for agreements of this type to be of a term of more than three years. Such transactions will be entered into in the ordinary and usual course of business of the Group on normal commercial terms, are fair and reasonable and in the interests of the Company and the Shareholders as a whole.

The Waiver is granted by the Stock Exchange for so long as the Shares are listed on the Stock Exchange and subject to the following conditions:

(i) No change without independent non-executive Directors' approval

Except as described below, no change to the Contractual Arrangements will be made without the approval of the independent non-executive Directors.

(ii) No change without Independent Shareholders' approval

Except as described below, no changes to the Structured Contracts will be made without the approval of the Independent Shareholders. Once the Independent Shareholders' approval of any change has been obtained, no further announcement or approval of the Independent Shareholders will be required under Chapter 14A of the Listing Rules unless and until further changes are proposed.

(iii) Economic benefits and flexibility

The Contractual Arrangements shall continue to enable the Group to receive the economic benefits derived by the OPCO Group which they are entitled to by virtue of the equity interests they hold through: (a) the options to acquire, all or part of the entire equity interests in the OPCO for nil consideration or minimum amount of consideration permitted by applicable PRC laws and regulations; (b) the business structure under which the profit generated by the OPCO Group are substantially retained by the Group such that no annual cap shall be set on the amount of service fee payable to the WFOE under the Exclusive Technical Service Agreement; and (c) the WFOE's right to control the management and operation of, as well as, in substance, all of the voting rights of the OPCO.

(iv) **Renewal and replication**

On the basis that the Contractual Arrangements provide a framework for the relationship between the Group and the OPCO Group, that framework may be renewed and/or reproduced upon the expiry of the existing arrangements or in relation to any existing or new wholly foreign owned enterprise or operating company (including branch company), without obtaining the approval of the Shareholders, on substantially the same terms and conditions as the Contractual Arrangements. Such renewal or replication would be on the condition that the new framework would have substantially the same terms and conditions as the existing Contractual Arrangements. The directors, chief executives or substantial shareholders of any existing or new wholly foreign owned enterprise or operating company engaging in the same business as that of the Group which the Group may establish will, upon renewal and/or reproduction of the Contractual Arrangements, be treated as connected persons of the Company and transactions between these connected persons and the Company other than those under similar contractual arrangements shall comply with Chapter 14A of the Listing Rules. This renewal/replication is subject to relevant PRC laws, regulations and approvals.

(v) **Ongoing reporting and approvals**

The Group will disclose details relating to the Contractual Arrangements on an ongoing basis as follows:

- (a) the Contractual Arrangements in place during each financial period will be disclosed in the annual reports and accounts of the Company in accordance with the relevant provisions of the Listing Rules.
- (b) the independent non-executive Directors will review the Contractual Arrangements annually and confirm in the annual report of the Company for the relevant year that: (1) the transactions carried out during such year have been entered into in accordance with the relevant provisions of the Contractual Arrangements; (2) no dividends or other distributions have been made by OPCO to the holders of its equity interests which are not otherwise subsequently assigned or transferred to the Group; and (3) any new contracts entered into, renewed or reproduced between the Group and the OPCO Group during the relevant financial period above are fair and reasonable, or advantageous, so far as the Group is concerned and in the best interests of the Company and Shareholders as a whole.

REPORT OF THE DIRECTORS

- (c) the Company's auditor will carry out review procedures annually on the transactions carried out pursuant to the Contractual Arrangements and will provide a letter to the Directors confirming that the transactions have received the approval of the Directors and have been entered into in accordance with the relevant Contractual Arrangements and that no dividends or other distributions have been made by the OPCO to the holders of their equity interests which are not otherwise subsequently assigned or transferred to the Group.
- (d) for the purposes of the Chapter 14A of the Listing Rules, and in particular the definition of "connected person", the OPCO will be treated as the Company's subsidiary, and the directors, chief executives or substantial shareholders (as defined in the Listing Rules) of the OPCO and its respective associates will be treated as connected persons of the Company, and transactions between these connected persons of the Group, other than those under the Contractual Arrangements, will be subject to the requirements under Chapter 14A of the Listing Rules.
- (e) the OPCO will, for as long as the Shares are listed on the Stock Exchange, provide the Group's management and the Company's auditor with full access to its relevant records for the purpose of reporting on the connected transactions.

12. Material changes in, and unwinding of, the Contractual Arrangements

During the year ended 31 December 2025 and up to the date of this annual report, there were the following changes in the Contractual Arrangements:

- (i) on 11 June 2025, Quanzhou Dequ was deregistered;
- (ii) on 2 December 2025, following an increase in Dequ Technology's registered capital, the OPCO's equity interest in Dequ Technology was reduced from 51% to 19.5%, while Dream Studio's equity interest was increased from 49% to 80.5%; resulting in the OPCO Group being deconsolidated from the Group's consolidated financial statements as from the year ended 31 December 2025; and
- (iii) on 6 February 2026, the OPCO transferred its entire equity interest in Dequ Technology to Semk Licensing (Shenzhen) Limited, an indirect wholly-owned subsidiary of the Company, upon which the Contractual Arrangements were unwound.

REPORT OF THE DIRECTORS

Annual Review by the Independent Non-executive Directors and the Auditor

During the year ended 31 December 2025, the independent non-executive Directors have reviewed all of the above non-exempt continuing connected transactions, and confirmed that they have:

- (i) been entered into in the usual and ordinary course of business of the Group;
- (ii) been conducted based on normal or better commercial terms; or been entered into based on the terms no less favorable than those available from or provided by independent third parties; and
- (iii) been carried out according to the agreements for related transactions with terms that are fair and reasonable and in line with the interests of the Company and its shareholders as a whole.

During the year ended 31 December 2025, independent non-executive Directors have also reviewed the above Contractual Arrangements and confirmed that:

- (i) the transactions carried out during the year ended 31 December 2025 have been entered into in accordance with the relevant provisions of the Contractual Arrangements;
- (ii) no dividends or other distributions have been made by the Structured Entities to the holders of their equity interests which are not otherwise subsequently assigned or transferred to the Group; and
- (iii) any new contracts entered into, renewed or reproduced between the Group and the Structured Entities are fair and reasonable, or advantageous, so far as the Group is concerned and in the interests of the Shareholders as a whole.

REPORT OF THE DIRECTORS

The Company's auditor was engaged to report on the continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 (Revised) "Assurance Engagements Other Than Audits or Reviews of Historical Financial Information" and with reference to Practice Note 740 (Revised) "Auditor's Letter on Continuing Connected Transactions under the Listing Rules" issued by the Hong Kong Institute of Certified Public Accountants. The auditor has issued an unqualified letter to the Board containing their findings and conclusions in respect of the above continuing connected transactions under Rule 14A.56 of the Listing Rules:

- (i) nothing has come to its attention that causes it to believe that the disclosed continuing connected transactions have not been approved by the Board;
- (ii) nothing has come to its attention that causes it to believe that the transactions were not entered into, in all material respects, in accordance with the relevant agreements governing such transactions;
- (iii) with respect to the aggregate amount of the continuing connected transactions (other than those transactions with the Structured Entities under the Contractual Arrangements, nothing has come to its attention that causes it to believe that the disclosed continuing connected transactions have exceeded their respective annual caps set by the Company; and
- (iv) with respect of the disclosed continuing connected transactions with the Structured Entities under the Contractual Arrangements, nothing has come to its attention that causes it to believe that dividends or other distributions have been made by the Structured Entities to the holders of the equity interests of the Structured Entities which are not otherwise subsequently assigned or transferred to the Group.

Save as disclosed above, during the year ended 31 December 2025, the Group has not entered into any connected transaction or continuing connected transaction which should be disclosed pursuant to the requirements of Chapter 14A of the Listing Rules. The Company has complied with the disclosure requirements set out in Chapter 14A of the Listing Rules.

REPORT OF THE DIRECTORS

RELATED PARTY TRANSACTIONS

Details of material related party transactions of the Group undertaken in the usual course of business are set out in note 33 to the consolidated financial statements.

Certain related party transactions set out in note 33 to the consolidated financial statements are regarded as connected transactions or continuing connected transactions of the Group. Save for those as disclosed in the section headed “Continuing Connected Transactions” above, none of the related party transactions is required to be disclosed under Chapter 14A of the Listing Rules.

CORPORATE GOVERNANCE

The Company is committed to maintaining high standards of corporate governance practices. Principal corporate governance practices of the Company are set out in the section headed “Corporate Governance Report” on pages 110 to 133 of this annual report.

USE OF PROCEEDS FROM GLOBAL OFFERING

The Shares have been listed on the Stock Exchange since 17 January 2022. Based on the offer price of HK\$2.05 per Share, the net proceeds from the global offering, after deducting listing related expenses, amounted to approximately HK\$206.8 million (the “**Net Proceeds**”).

The Group utilised such Net Proceeds for the purposes set out in the section headed “Future Plans and Use of Proceeds” in the Prospectus. As at 31 December 2025, the Net Proceeds were fully utilised.

REPORT OF THE DIRECTORS

The table below sets out the planned application of the Net Proceeds:

REPORT OF THE DIRECTORS

SUFFICIENCY OF PUBLIC FLOAT

Based on information that is publicly available to the Company and to the best knowledge of the Directors, the Directors confirm that the Company maintained the public float as required under the Listing Rules since the Listing Date and has continued to maintain such float as at the date of this annual report.

AUDIT COMMITTEE

The Audit Committee has reviewed with the management the accounting principles and practices adopted by the Group and the audited consolidated financial statements of the Group for the year ended 31 December 2025. There is no disagreement between the Board and the Audit Committee regarding the accounting treatment adopted by the Company.

AUDITOR

The Shares have been listed on the Stock Exchange since 17 January 2022 and there has been no change in auditor of the Company since the Listing Date. The financial statements for the year ended 31 December 2025 have been audited by PricewaterhouseCoopers, who will retire and, being eligible, offer themselves for re-appointment at the AGM. A resolution will be proposed at the AGM to re-appoint PricewaterhouseCoopers as auditor of the Company.

On behalf of the Board

CORPORATE GOVERNANCE REPORT

The Company is committed to maintaining high corporate governance standards. The Board believes that high corporate governance standards are essential in providing a framework for the Company to safeguard the interests of shareholders of the Company and to enhance corporate value and accountability.

CORPORATE GOVERNANCE PRACTICE

The Company's corporate governance practices are based on principles and code provisions as set out in the Corporate Governance Code as set out in Part 2 of Appendix C1 to the Listing Rules (the "CG Code"). During the year ended 31 December 2025, save for the deviation from code provisions C.2.1 and D.1.2 of the CG Code as disclosed below, the Board considers that, the Company has complied, to the extent applicable and permissible, with the code provisions as set out in the CG Code and the Directors will use their best endeavours to procure the Company to comply with the CG Code and make disclosure of deviation from the CG Code in accordance with the Listing Rules.

Code provision C.2.1 of the CG Code stipulates that the roles of chairman and chief executive should be segregated and should not be performed by the same individual. Mr. Hui Ha Lam ("Mr. Hui") is the chairman of the Board and the chief executive officer of the Company. Considering that Mr. Hui has been operating and managing the Group since its foundation, the Board believes that it is in the best interest of the Group to have Mr. Hui taking up both roles for effective management and business development. Therefore, the Board considers that the deviation from code provision C.2.1 of the CG Code is appropriate in such circumstance. The Board will continue to review and consider splitting the roles of chairman and chief executive officer at a time when it is appropriate and suitable by taking into account the circumstances of the Group as a whole.

In respect of code provision D.1.2 of the CG Code, the Company did not provide all members of the Board with monthly updates. However, the Company has based on business situation, provided to the Board from time to time, updated business information to enable the Board as a whole and each Director to discharge their duties. The Company considers that such business information arising out of the ordinary business provided to the Board from time to time instead of monthly updates are sufficient for the Board to discharge its duties. In the event if there are any significant updates, the Company will update all the Directors as early as practicable for discussion and resolution.

CORPORATE GOVERNANCE REPORT

BOARD OF DIRECTORS

The Board oversees the Group's businesses, strategic decisions and performance and takes decisions objectively in the best interest of the Company. The Directors are responsible for ensuring the Group keeps proper accounting records which disclose at any time the financial position of the Group from which the financial statements of the Group could be prepared in accordance with statutory requirements and the appropriate accounting policies. The Board has delegated the authority and responsibilities for day-to-day management and operation of the Group to the senior management of the Group. To oversee particular aspects of the Company's affairs, the Board has established three Board committees including the Audit Committee, the Remuneration Committee and the Nomination Committee. The Board has delegated to the Board committees responsibilities as set out in their respective terms of reference. All Board committees are provided with sufficient resources to perform their duties. The Board regularly reviews the contribution required from a Director to perform his/her responsibilities to the Company, and whether the Director is spending sufficient time performing them.

Board Composition

The Board currently comprises seven Directors, consisting of three executive Directors, a non-executive Director and three independent non-executive Directors:

Name	Length of tenure as at	
	31 December 2025	Current period
	(years)	of appointment
Executive Directors		
Mr. HUI Ha Lam <i>(Chairman of the Board and Chief Executive Officer)</i> <i>(appointed on 10 December 2020 & re-designated on 28 April 2021)</i>	5.1	From 17 January 2025 to 16 January 2028
Mr. KWOK Chun Kit <i>(appointed on 28 April 2021)</i>	4.7	From 17 January 2025 to 16 January 2028
Mr. LYU Xingyuan <i>(appointed on 11 July 2025)</i>	0.5	From 11 July 2025 to 10 July 2028

CORPORATE GOVERNANCE REPORT

Name	Length of tenure as at	
	31 December 2025 (years)	Current period of appointment
Non-executive Director		
Ms. XU Wenya <i>(appointed on 8 September 2025)</i>	0.3	From 8 September 2025 to 7 September 2028

Mr. WU Di <i>(appointed on 1 August 2025)</i>	0.4	From 1 August 2025 to 31 July 2028

The Board members have no financial, business, family or other material/relevant relationships with each other. Such balanced board composition is formed to ensure strong independence exists across the Board and has met the requirement under the Listing Rules for the Board to have at least one-third of its members comprising independent non-executive Directors. The biographical information of the Directors is set out on pages 38 to 45 under the section headed “Biographies of Directors and Senior Management”.

Chairman and Chief Executive Officer

Code provision C.2.1 of the CG Code stipulates that the roles of chairman and chief executive should be segregated and should not be performed by the same individual. Mr. Hui Ha Lam is the chairman of the Board and the chief executive officer of the Company. Considering that Mr. Hui has been operating and managing the Group since its foundation, the Board believes that it is in the best interest of the Group to have Mr. Hui taking up both roles for effective management and business development. As about half of the Board members are independent non-executive Directors, the Board considers that this structure will not impair the balance of power and authority between the Board and the management of the Group. Furthermore, as Mr. Hui is the founder of the Group and has substantial professional experience in the industry, the Board believes that the appointment of Mr. Hui to the combined role of Chairman and Group Chief Executive Officer is beneficial to the sustainable development of the Group, and for the long-term interests of the shareholders. Therefore, the Board considers that the deviation from code provision C.2.1 of the CG Code is appropriate in such circumstance. The Board will continue to review and consider splitting the roles of chairman and chief executive officer at a time when it is appropriate and suitable by taking into account the circumstances of the Group as a whole.

Independent Non-Executive Directors

During the year ended 31 December 2025 and up to the date of this annual report, the Board at all times met the requirements of the Listing Rules relating to the appointment of at least three independent non-executive Directors representing at least one-third of the Board with one of whom possessing appropriate professional qualifications or accounting or related financial management expertise. The Company has received a confirmation of independence from each of the independent non-executive Directors. The Board has assessed their independence in accordance with Rule 3.13 of the Listing Rules and concluded that all independent non-executive Directors are independent.

Term of Appointment of Non-executive Directors

Ms. Xu Wenya, a non-executive Director, has signed a letter of appointment issued by the Company for an initial term of three years commencing from 8 September 2025 (subject to termination in certain circumstances as stipulated in the her letter of appointment). Ms. Leung Ping Fun Anita, an independent non-executive Director, has signed a letter of appointment issued by the Company for an initial term of three years, commencing from 20 December 2024 (subject to termination in certain circumstances as stipulated in her letter of appointment). Prof. Chan Ka Yin Karen, *JP*, an independent non-executive Director, has signed a letter of appointment issued the Company for an initial term of three years, commencing from 2 January 2025 (subject to termination in certain circumstances as stipulated in her letter of appointment). Mr. Wu Di, an independent non-executive Director, has signed a letter of appointment issued by the Company for an initial term of three years, commencing from 1 August 2025 (subject to termination in certain circumstances as stipulated in his letter of appointment). Each of such appointment is subject to retirement by rotation and re-election at annual general meetings of the Company pursuant to the Articles.

DIRECTORS' CONTINUOUS TRAINING AND PROFESSIONAL DEVELOPMENT

Directors must keep abreast of their collective responsibilities. All Directors are aware of their responsibilities to the Shareholders and have exercised their duties with care, skill and diligence, in pursuit of the development of the Group. All Board members, namely, Mr. Hui Ha Lam, Mr. Kwok Chun Kit, Mr. Lyu Xingyuan, Ms. Xu Wenya, Ms. Leung Ping Fun Anita, Prof. Chan Ka Yin Karen, *JP*, and Mr. Wu Di, had participated in continuous professional development with respect to directors' duties, and/or had perused reading materials and updated information on the latest developments of the Listing Rules and other applicable regulatory requirements to ensure compliance and enhance their awareness of good corporate governance practice. All Directors had provided their relevant training records for the year ended 31 December 2025 to the Company.

Mr. Lyu Xingyuan, Ms. Xu Wenya and Mr. Wu Di obtained legal advice referred to in Rule 3.09D of the Listing Rules on 10 July 2025, 8 September 2025 and 29 July 2025, respectively. Each of them confirmed that they understand their obligations as directors of the Company, including the possible consequences of making a false declaration or giving false information to the Stock Exchange.

Ms. Xu Wenya, as a first-time director, will complete no less than 24 hours of continuous professional development required by Rule 3.09H of the Listing Rules within 18 months of the date of her appointment as a non-executive Director. Mr. Wu Di, as a first-time director who has served as a director of an issuer listed on the Shenzhen Stock Exchange within the three years prior to his appointment as an independent non-executive Director, will complete no less than 12 hours of continuous professional development required by Rule 3.09H of the Listing Rules within 18 months of the date of his appointment.

CORPORATE GOVERNANCE REPORT

The Company will continuously update the Directors on the latest developments regarding the Listing Rules and other applicable regulatory and statutory requirements from time to time, to ensure compliance and enhance their awareness of good corporate governance practices.

The Board intends to hold Board meetings regularly at least four times a year at approximately quarterly intervals. Notices of not less than fourteen days will be given for all regular Board meetings to provide all Directors with an opportunity to attend and propose matters to be discussed in the meeting agenda.

CORPORATE GOVERNANCE REPORT

For other Board and Board committee meetings, reasonable notice will generally be given. The agenda and accompanying documents are dispatched to the Directors or Board committee members at least three days before the meetings to ensure that they have sufficient time to review the documents and be adequately prepared for the meetings.

When Directors or Board committee members are unable to attend a meeting, they will be advised of the matters to be discussed and given an opportunity to make their views known to the Chairman prior to the meeting. Minutes of the Board meetings and Board committee meetings will be recorded in sufficient detail to include the matters considered by the Board and the Board committee and the decisions reached, including any concerns raised by the Directors. Draft minutes of each Board meeting and Board committee meeting will be sent to the Directors for comments within a reasonable time after the date on which the meeting is held.

In addition to Board and Board committee meetings, the chairman of the Board met with the independent non-executive Directors without the presence of other Directors during the year ended 31 December 2025.

AUDIT COMMITTEE

The Company established the Audit Committee on 15 December 2021 with written terms of reference in compliance with the Listing Rules and the CG Code. The Audit Committee comprises all independent non-executive Directors, namely Mr. Wu Di, Ms. Leung Ping Fun Anita and Prof. Chan Ka Yin Karen, *JP*, with Mr. Wu Di being the chairman of the Audit Committee.

The primary responsibilities of the Audit Committee include, among others, (i) providing an independent view of the effectiveness of the financial reporting process, internal control, compliance and risk management systems of the Group, (ii) nominating and monitoring the work of external auditors; (iii) overseeing the audit process and performing other duties and responsibilities as assigned by the Board; (iv) developing and reviewing the Group's policies and practices on corporate governance with legal and regulatory requirements and requirements under the Listing Rules; and (v) developing, reviewing and monitoring the code of conduct applicable to the Group's Directors and employees.

- (i) discussed with the Company’s auditor on the audit planning.

The Audit Committee has reviewed the consolidated financial statements of the Group for the year ended 31 December 2025 and is of the opinion that such consolidated financial statements complied with the applicable accounting standards, the Listing Rules, other applicable legal requirements and that adequate disclosures have been made.

CORPORATE GOVERNANCE REPORT

REMUNERATION COMMITTEE

The Company established the Remuneration Committee on 15 December 2021 with written terms of reference in compliance with the Listing Rules as well as the CG Code.

The Remuneration Committee comprises three members, namely Ms. Leung Ping Fun Anita, Mr. Hui Ha Lam and Mr. Wu Di, out of whom Ms. Leung Ping Fun Anita and Mr. Wu Di are independent non-executive Directors whilst Mr. Hui Ha Lam is an executive Director. The chairperson of the Remuneration Committee is Ms. Leung Ping Fun Anita.

The Remuneration Committee has adopted the approach under code provision E.1.2(c)(ii) under the CG Code to make recommendations to the Board on remuneration packages of the Directors and the members of senior management. The Remuneration Committee will review and recommend the Board the remuneration and compensation packages (including incentive plans) of the Directors and senior management members, by reference to, among other things, market level of remuneration and compensation paid by comparable companies, the respective responsibilities of the Directors and senior management team, as well as the overall performance of the Company. The executive Directors and senior management may also be granted options under the share option scheme of the Company.

The primary responsibilities of the Remuneration Committee include, among others, (i) making recommendations to the Board on the Group's policy and structure for all remuneration of Directors and senior management members and on the establishment of a formal and transparent procedure for developing policies on such remuneration; (ii) reviewing and approving the management's remuneration proposals with reference to the Board's corporate goals and objectives resolved by the Board from time to time; (iii) making recommendations to the Board on the terms of specific remuneration packages, bonuses and other forms of compensation payable to the Group's Directors and senior management members; and (iv) reviewing and/or approving matters relating to share schemes of the Company.

Five Remuneration Committee meetings were held during the year ended 31 December 2025 and the attendance records of the members of the Remuneration Committee at the Remuneration Committee meetings have been set out in the paragraph headed "Board Meetings and General Meetings" of this Corporate Governance Report.

The work performed by the Remuneration Committee during the year ended 31 December 2025 mainly included: (i) the assessment of the performance of executive Directors; (ii) the review of the remuneration packages of Directors and senior management; (iii) consideration of the remuneration package of the proposed Directors; and (iv) making recommendations to the Board.

NOMINATION COMMITTEE

The Company established the Nomination Committee on 15 December 2021 with written terms of reference in line with the CG Code. The Nomination Committee comprises three members, namely Mr. Hui Ha Lam, Ms. Leung Ping Fun Anita and Prof. Chan Ka Yin Karen, *JP*, out of whom Mr. Hui Ha Lam is an executive Director while Ms. Leung Ping Fun Anita and Prof. Chan Ka Yin Karen, *JP* are independent non-executive Directors. The chairman of the Nomination Committee is Mr. Hui Ha Lam.

The primarily responsibilities of the Nomination Committee include, among others, (i) reviewing the structure, size and composition of the Board; (ii) making recommendations to the Board regarding candidates to fill vacancies on the Board and/or in senior management team; (iii) assessing the independence of independent non-executive Directors; and (iv) overseeing the process for evaluating the performance of the Board.

Five Nomination Committee meetings were held during the year ended 31 December 2025 and the attendance records of the members of the Nomination Committee at the Nomination Committee meetings have been set out in the paragraph headed “Board Meetings and General Meetings” of this Corporate Governance Report.

The work performed by the Nomination Committee during the year ended 31 December 2025 mainly included: (i) review of the structure and composition of the Board (including the skills, knowledge and experience); (ii) review of the implementation and effectiveness of the Company’s board diversity policy (the “**Board Diversity Policy**”); (iii) assessment of the independence of the independent non-executive Directors; (iv) consideration of the re-election of retiring Directors; (v) nomination of candidates for directorships; and (vi) making recommendations to the Board for approval. The Nomination Committee considered that an appropriate balance of diverse perspectives on the Board is maintained.

BOARD DIVERSITY POLICY AND NOMINATION POLICY

The Board has adopted the Board Diversity Policy since 15 December 2021 and will review its composition on a yearly basis. The Company recognises and embraces the benefits of having a diverse Board to enhance the quality of its performance. With a view to achieving a sustainable and balanced development, the Company sees increasing diversity at the Board level as an essential element in supporting the attainment of its strategic objectives and its sustainable development. All Board appointments will be based on meritocracy and candidates will be considered against appropriate criteria, having due regard for the benefits of diversity on the Board. The Company commits to selecting the best person for the role. Selection of candidates will be based on a range of diversity perspectives, and measurable objectives, including but not limited to gender, age, cultural background and ethnicity, in addition to educational background, professional experience, skills, knowledge and length of service.

CORPORATE GOVERNANCE REPORT

When identifying potential candidates to the Board, the Nomination Committee and the Board will, among others, (i) consider the current level of representation of female members on the Board and the senior management when making recommendations for nominees as well as succession planning to the Board and senior management; (ii) consider the criteria that promotes diversity by making reference to the code of practices on employment published by the Equal Opportunities Commission from time to time; (iii) communicate this Board Diversity Policy to the Nomination Committee and encourage a cooperative approach to ensure diversity on the Board. The Company will also take into consideration factors based on its own business model and specific needs from time to time in determining the optimum composition of the Board.

As at the date of this annual report, the Board comprised seven Directors, three of whom are female. The Company targets to avoid a single gender Board and will timely review the gender diversity of the Board in accordance with the business development of the Group. The Company believes the balance of gender on the Board would bring more inspiration to the Board and enhance the business development of the Group, thus gender diversity is the essential factor for the Company to select suitable candidate as a Director.

The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board. The Nomination Committee will review and monitor the implementation and effectiveness of the Board Diversity Policy annually.

To ensure changes to the Board composition can be managed without undue disruption, there should be a formal, considered and transparent procedure for selection, appointment and re-appointment of Directors, as well as plans in place for orderly succession (if considered necessary), including periodical review of such plans. For filling a casual vacancy, the Nomination Committee shall make recommendations for the Board's consideration and approval. For proposing candidates to stand for election at a general meeting, the Nomination Committee shall make nominations to the Board for its consideration and recommendation. The Nomination Committee shall then evaluate such candidate based on the criteria as set out in the nomination policy and recommend to appoint the appropriate candidate for directorship. The appointment of a new Director (to be an additional Director or fill a casual vacancy as and when it arises) or any re-appointment of Directors is a matter for decision by the Board upon the recommendation of the proposed candidate by the Nomination Committee.

CORPORATE GOVERNANCE REPORT

Selection of Board candidates shall be based on amongst others, character and integrity, qualifications, willingness to devote adequate time and a range of diversity perspectives with reference to the Company's business model and specific needs. Selection and recommendation of candidates will be based on the nomination procedures and the process and criteria adopted by the Nomination Committee and a number of perspectives, including but not limited to gender, age, cultural and educational background, industry experience, technical and professional skills and/or qualifications, knowledge, length of services, personal integrity and time commitments of the proposed candidates. The Company will deploy multiple channels for identifying suitable candidates, including referral from Directors, Shareholders, management, advisors and external executive search firms. The Company should also take into account factors relating to its own business model and specific needs from time to time.

In designing the Board's composition, Board diversity has been considered from a number of aspects, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge, length of service and any other factors that the Board may consider relevant and applicable from time to time. The composition of the Board from diversified angles up to the date of this report and summarised as follows:

		No. of Directors
Gender:	Male	4
	Female	3
Ethnicity:	Chinese	7
Age Group:	31-40	2
	41-50	2
	51-60	2
	>60	1
Length of Service (year):	Less than 1	3
	1-10	4

For the purpose of implementation of the Board Diversity Policy, the following measurable objectives were adopted:

The Company should comply with the requirements on board composition in the Listing Rules from time to time. The number of independent non-executive Directors should be not less than three and one-third of the Board. At least one of the independent non-executive Directors must have appropriate professional qualifications or accounting or related financial management expertise. At least one Director should be the professional or have intensive experience of the industry on which the business of the Group is. The Board has achieved the measurable objectives under the Board Diversity Policy for the year ended 31 December 2025.

CORPORATE GOVERNANCE REPORT

As at the date of this report, the Board comprises 4 male Directors and 3 female Directors. The Nomination Committee considered that the Board had achieved gender diversity and possessed skill and expertise and a diverse mix appropriate for the business of the Company and will review the composition and diversity of the Board annually to ensure its continued effectiveness. Measures to develop a pipeline of potential successors to achieve gender diversity:

- The Board will identify potential successors internally, having regard to the industry expertise, leadership skills, decision making capabilities, communication skills and professional qualification of the staff.
- The Board will also consider outside sources such as head hunter and referral. The details of workforce composition were disclosed under Environmental, Social and Governance Report in this report.

The Board is not aware of any factors or circumstances which make achieving gender diversity across the workforce (including senior management) of the Group more challenging or less relevant.

WORKFORCE DIVERSITY POLICY

The Board adopted its workforce diversity policy (the “**Workforce Diversity Policy**”) on 29 August 2025. The summary of the Workforce Diversity Policy is set out below:

- The Group is committed to promoting workforce diversity across all levels, including senior management. Diversity encompasses, but is not limited to, gender, educational background, professional qualifications, skills, industry experience and other relevant attributes. In forming its perspective on diversity, the Group will take into account factors based on its own business model and specific needs from time to time.
- The Group is also committed to fostering gender empowerment, gender equality and gender diversity across its workforce, and providing equal opportunities in relation to recruitment, training and development, compensation and career and promotion opportunities.
- The Group prohibits discrimination on the grounds of race, gender, disability, nationality, religious belief, age, sexual orientation, family status or any other factor.
- All employment decisions of the Group (including recruitment, training and development, promotion and compensation) shall be made based on merit, qualifications and business needs, with due regard for the benefits of diversity of skills, experience and perspectives and free from discrimination or bias.

As at 31 December 2025, the male-to-female gender ratios for senior management, the workforce (including senior management) and the workforce (excluding senior management) were 6:1, 1:2.88 and 1:3.19, respectively.

MECHANISM TO ENSURE THAT THE BOARD OBTAINS INDEPENDENT OPINIONS AND PERSPECTIVES

The Board has established the following mechanism to ensure that the Board obtains independent opinions and perspectives:

- (i) where appropriate, the Company shall arrange suitable and sufficient resources to cover any matters relating to the obtaining of an independent advice or opinion by the Board, including but not limited to the engagement of a legal team or any other professionals for such purpose, where appropriate, at the Group's expenses;
- (ii) where appropriate, the Directors shall give at least three working days' notice to the Company Secretary of the Company to obtain an independent advice or opinion, including but not limited to engaging a professional team for such purpose;
- (iii) the Board is required to review its structure, size, composition (including skills, knowledge and experience) and diversity policy at least annually to ensure that the composition of the Board complies with the relevant requirements of the Listing Rules including maintaining a balanced mix of executive and non-executive directors (including independent non-executive directors) so that the Board has a strong element of independence which can effectively exercise independent judgment; and
- (iv) if all the independent non-executive Directors have served on the Board for more than nine years, the Company should consider to appoint a new independent non-executive director at the forthcoming annual general meeting.

The Board considers that the said mechanism has been operating effectively during the year ended 31 December 2025 and will continue to monitor the implementation and effectiveness of such mechanism on an annual basis.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE FUNCTIONS

The corporate governance functions were performed by the Board.

The corporate governance functions are to develop and review the Company's policies and practices on corporate governance to comply with the CG Code and other legal or regulatory requirements, to review and monitor the training and continuous professional development of Directors and senior management, to develop, review and monitor the code of conduct and compliance manual (if any) applicable to employees and Directors, and to review the Company's compliance with the CG Code and the disclosure in the Corporate Governance Report according to the code provisions set out in part 2 of Appendix C1 to the Listing Rules.

RISK MANAGEMENT AND INTERNAL CONTROLS

The Board acknowledges that it is responsible for the risk management and internal control systems and oversees such systems on an ongoing basis, while ensuring a review of the effectiveness of these systems of the Group is conducted at least annually. The scope of such review covers all material controls, including financial, operational and compliance controls. The Group's risk management and internal control systems are designed to managing risks rather than eliminating the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has delegated its responsibilities (with relevant authorities) of risk management and internal control to the Audit Committee, and management has provided a confirmation to the Audit Committee (and the Board) on the effectiveness of these systems for the year ended 31 December 2025.

CORPORATE GOVERNANCE REPORT

The Company adopted a series of risk management policies, measures and procedures designated to provide the management and staff of the Group to identify, assess, treat, monitor and communicate on key risks including strategic, financial, operational and compliance risk. The risk management process of the Company comprises of five activities, including determining context, risk assessment, risk treatment, risk monitoring and risk reporting. The relevant procedures are set out below:

Determine context

The Directors and senior management of the Group to determine the context of risks to be assessed.

Risk assessment

The Directors and senior management of the Group along with the department heads should hold a meeting annually to discuss and address the key risks faced by the Company using relevant and up-to-date information.

Risk treatment

The management of the Group should determine whether or not to reduce the current level of risk to an acceptable level through implementation of additional controls or risk mitigation actions.

Risk monitoring

Once an appropriate risk treatment has been determined, the Company's monitoring and review process should ensure that, among other things, the risk control and treatment measures are effective in both design and operation.

Risk reporting

The risk assessment results should be registered and such register should be approved by the Board.

The Group endeavours to uphold the integrity of its business by maintaining an internal control system into its organisational structure. The Group's internal control and risk management systems cover, among others, corporate governance, operations, management, legal matters, finance, auditing and ESG.

CORPORATE GOVERNANCE REPORT

Risk assessment and internal control review report is submitted to the Audit Committee and the Board annually. The Board, through the Audit Committee, had performed a review on the effectiveness of the Group's risk management and internal control systems, including, but not limited to, (i) the changes in the nature and extent of significant risks, and the Company's ability to respond to changes in its business and the external environment; (ii) the scope and quality of management's ongoing monitoring of risks and of the internal control systems, (iii) the extent and frequency of communication of monitoring results to the Audit Committee and the Board which enables them to assess control of the Company and the effectiveness of risk management, (iv) significant control failings or weaknesses that have been identified, and (v) the effectiveness of the Company's processes for financial reporting and the Listing Rules compliance, and concluded that the risk management and internal control systems were effective and adequate for the year ended 31 December 2025. No significant areas of concern that might affect the financial, operational, compliance controls, and risk management functions of the Group were identified. The scope of such review covers the adequacy of resources, staff qualification and experience, training programmes and budget of the Group's accounting and financial reporting functions as well as those relating to the Company's ESG performance and reporting.

WHISTLEBLOWING POLICY

The Company has adopted arrangement to facilitate employees and other stakeholders to raise concerns, in confidence, about possible improprieties in financial reporting, internal control or other matters. The Audit Committee shall review such arrangement regularly and ensure that proper arrangements are in place for fair and independent investigation of these matters and for appropriate follow-up action. During the year ended 31 December 2025, the Group did not receive any material whistleblowing incidents.

INSIDE INFORMATION

The Company is aware of and strictly complies with the requirements of the currently applicable laws, regulations and guidelines, including the obligations to disclose inside information under the SFO and the Listing Rules, and the Guidelines on Disclosure of Inside Information issued by the Securities and Futures Commission, at the time when the relevant businesses are transacted. The Group has established the authority and accountability, as well as the handling and dissemination procedures in relation to inside information, and has communicated to all relevant personnel and provided them with specific trainings in respect of the implementation of the continuous disclosure policy. The Board considers that the Company's handling and dissemination procedures and measures in relation to inside information are effective.

INTERNAL AUDIT FUNCTION

The Company does not have an internal audit department. The Board has reviewed the need for an internal audit function and is of the view that in light of the size, nature and complexity of the business of the Group, as opposed to diverting resources to establish a separate internal audit department, it would be more cost effective to appoint external independent professionals to perform independent review of the adequacy and effectiveness of the risk management and internal control systems of the Group. Nevertheless, the Board will continue to review at least annually the need for an internal audit department.

ANTI-CORRUPTION

The Group has established the Anti-fraud and Anti-corruption Policy and systems which prohibit any form of bribery or corruption. Accepting or offering advantages in any manner from or to clients, suppliers, or any person in connection with the Group's business is prohibited.

MODEL CODE FOR SECURITIES TRANSACTIONS

The Company has adopted the Model Code as its code of conduct for securities transactions by Directors. The Directors are reminded of their obligations under the required standard of dealings set out in the Model Code on a regular basis. Having made specific enquiries to all the Directors, all the Directors have confirmed that they have complied with the Model Code during the year ended 31 December 2025 and up to the date of this annual report.

The Group's senior management who, because of their offices in the Company are likely to possess inside information, have also been requested to comply with the Model Code for securities transactions. No incident of non-compliance with the Model Code by such employees was noted by the Company during the year ended 31 December 2025 and up to the date of this annual report.

DIRECTORS' AND AUDITOR'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Directors acknowledge their responsibility to prepare financial statements of the Group and other financial disclosures required under the Listing Rules and the Company's management will provide information and explanation to the Board to enable it to make informed assessments of the financial and other decisions. The Directors confirm that, to the best of their knowledge, information and belief, having made all reasonable enquiries, they are not aware of any material uncertainties relating to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE REPORT

DIRECTORS' AND OFFICERS' INSURANCE

The Company has arranged appropriate insurance cover in respect of potential legal actions against its Directors and officers.

COMPANY SECRETARY

The Company has engaged an external professional company secretarial services provider, Uni-1 Corporate Services Limited (“**Uni-1**”), to provide compliance and a full range of company secretarial services to the Group to assist the Group in coping with the changing regulatory environment and meeting various commercial needs.

Madam Mak Yuk Kiu (“**Madam Mak**”), the representative of Uni-1, was appointed as the named company secretary of the Company (“**Company Secretary**”) for the period from 23 October 2024 to 1 August 2025.

Mr. Sung Chi Keung (“**Mr. Sung**”), the then executive Director and the then Chief Financial Officer, served as the Company Secretary from 1 August 2025 to 2 April 2026.

Upon Mr. Sung’s resignation, Madam Mak was re-appointed as the Company Secretary, with effect from 2 April 2026.

Mr. Lyu Xingyuan, an executive Director, serves as the Company’s primary point of contact for the Company Secretary.

In compliance with Rule 3.29 of the Listing Rules, each of Madam Mak and Mr. Sung has completed not less than 15 hours of relevant professional training during the year ended 31 December 2025.

SHAREHOLDERS' COMMUNICATION POLICY

The Company considers that effective communication with Shareholders is essential for enhancing investor relations and investor understanding of the Group's business performance and strategies. The Company also recognizes the importance of transparency and timely disclosure of corporate information, which will enable its shareholders and investors to make the best investment decisions. The Company has adopted a Shareholders' Communication Policy to ensure that Shareholders' views and concerns are appropriately addressed. The Company endeavours to maintain an on-going dialogue with its shareholders and in particular, through annual general meetings and other general meetings. The general meetings of the Company provide a platform for communication between the Board and its shareholders. The chairman of the Board as well as chairmen of the Audit Committee, the Remuneration Committee and the Nomination Committee or, in their absence, other members of the respective committees, will be available to answer shareholders' questions at general meetings. The external auditor of the Company will also be invited to attend the annual general meetings of the Company to answer questions about the conduct of audit, the preparation and content of the auditor's report, the accounting policies and auditor independence.

To promote effective communication, the Company maintains a website, where information and updates on the Company's financial information, corporate governance practices, biographical information of the Board and other information are available for public access. Media interviews are available on a regular basis in order to facilitate communication between the Company, Shareholders and the investment community. Shareholders and the investment community may, at any time, direct questions, request for publicly available information and provide comments and suggestions to Directors or management of the Group. Such questions, requests and comments can be addressed to the Company Secretary by mail to Unit A6, 25/F, TML Tower, 3 Hoi Shing Road, Tsuen Wan, N.T., Hong Kong, or by email to info@semk.net.

Based on the above, the Board considered that the Company's Shareholders' Communication Policy was effectively implemented during the year ended 31 December 2025.

SHAREHOLDERS' RIGHTS

Convening of extraordinary general meeting on requisition by shareholders

The general meetings of the Company provide an opportunity for communication between the shareholders and the Board. An annual general meeting of the Company shall be held in each year and at the place as may be determined by the Board. Each general meeting, other than an annual general meeting, shall be called an extraordinary general meeting.

Article 12.3 of the Articles provides that general meetings shall be convened on the written requisition of any one or more members holding together, as at the date of deposit of the requisition, Shares representing not less than one-tenth of the voting rights, on a one vote per share basis, of the Company which carry the right of voting at general meetings of the Company. The written requisition shall be deposited at the principal office of the Company in Hong Kong or, in the event the Company ceases to have such a principal office, the registered office of the Company, specifying the objects of the meeting and the resolutions to be added to the meeting agenda, and signed by the requisitionist(s). If the Board does not within 21 days from the date of deposit of the requisition proceed duly to convene the meeting to be held within a further 21 days, the requisitionist(s) themselves or any of them representing more than one-half of the total voting rights of all of them, may convene the general meeting in the same manner, as nearly as possible, as that in which meetings may be convened by the Board provided that any meeting so convened shall not be held after the expiration of three months from the date of deposit of the requisition, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to them by the Company.

Putting forward proposals at General Meetings

Save for the procedures for the shareholders to convene an extraordinary general meeting, there are no provisions allowing shareholders to propose new resolutions at the general meetings under the Articles or the Companies Law of the Cayman Islands, as amended, modified and supplemented.

Shareholders may follow the procedures set out above to convene an extraordinary general meeting for any business specified in such written requisition.

CORPORATE GOVERNANCE REPORT

Putting forward enquiries to the Board

Shareholder(s) may at any time send their enquiries and concerns to the Board in writing through the Company Secretary by post at Unit A6, 25/F, TML Tower, 3 Hoi Shing Road, Tsuen Wan, N.T., Hong Kong or by email to info@semk.net.

DIVIDEND POLICY

The Company's dividend policy is set out in the Report of the Directors on page 48 of this annual report. In summary, the recommendation and payment of dividends are subject to the absolute discretion of the Board, with any final dividend declaration requiring Shareholders' approval. The Board takes into account various factors when considering dividend recommendations, including the Group's operations, earnings, financial condition, cash requirements and availability, capital expenditure, future development requirements, and other relevant factors at the time.

CONSTITUTIONAL DOCUMENTS

Pursuant to a special resolution of the then shareholders of the Company passed on 20 December 2021, the existing Articles were adopted, conditional upon and with effect from the Listing Date.

Save as disclosed above, there was no change in the Articles during the year ended 31 December 2025 and up to the date of this annual report.

The existing Articles are available on the websites of the Stock Exchange and the Company.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ABOUT THE REPORT

B.Duck Semk Holdings International Limited (the “**Company**”) and its subsidiaries (the “**Group**” or “**We**”) is pleased to present the fourth Environmental, Social and Governance (“**ESG**”) Report (the “**Report**”), capturing the ESG performance during the year ended 31 December 2025 (the “**Reporting Period**” or “**FY2025**”). The Report is designed to enable the shareholders, investors (including potential investors) and the public to have a more comprehensive understanding of the Group’s corporate governance and culture. The Group is willing to take up more social responsibilities in order to maintain the balance between the interest of shareholders and social benefits. Data contained in the Report is derived from various Company’s documents and report, as well as summary and statistical data provided by the Group. It is recommended that the Report is to read together with the Corporate Governance Report as laid down in the Group’s Annual Report for the year ended 31 December 2025.

REPORTING SCOPE AND BOUNDARY

The ESG Report shall be published both in Chinese and English on the website of the Stock Exchange. Should there be any discrepancy between the Chinese and the English versions, the English version shall prevail. The Report covers subsidiaries and operations (includes the character licensing business and e-commerce and other business) that contribute to the Group’s principal activities and have a significant influence on the Group’s ESG performance spanning over the period from 1 January 2025 to 31 December 2025. Unless otherwise specified, the environmental aspect in the Report covers the Group’s Headquarter in Shenzhen in the People’s Republic of China (the “**PRC**” or the “**Mainland China**”), and the Headquarter and principal place of business in Hong Kong. For the social aspect, all business units of the Group are covered, including those in the PRC, Hong Kong and Thailand.

REPORTING PRINCIPLES

This ESG Report demonstrates our sustainability initiatives during the reporting period from 1 January 2025 to 31 December 2025. The structure of the Report is by reference to the Environmental, Social and Governance Reporting Code (the “**ESG Reporting Code**”) under Appendix C2 to the Rules Governing the Listing of Securities (the “**Listing Rules**”) on The Stock Exchange of Hong Kong Limited (the “**SEHK**”), complying with basis of reporting principles, including materiality, quantitative, balance and consistency:

- “Materiality” Principle: Materiality assessment was conducted with key stakeholders to identify material issues during the Reporting Period, thereby adopting the confirmed material issues as the focus for the preparation of the ESG Report. The materiality of issues was reviewed and confirmed by the Board (the “**Board**”) of Directors (the “**Directors**”) and the Environmental, Social and Governance Working Group (the “**ESG Working Group**”) of the Company. For further details, please refer to the sections headed “Materiality Assessment” and “Stakeholders Communication”
- “Quantitative” Principle: Key performance indicators (“**KPIs**”) in respect of historical data need to be measurable. The issuer should set targets (which may be actual numerical figures or directional, forward-looking statements) to reduce a particular impact. In this way the effectiveness of ESG policies and management systems can be evaluated and validated. Quantitative information should be accompanied by a narrative, explaining its purpose, impacts, and giving comparative data where appropriate.
- “Balance” Principle: The Report should provide an unbiased picture of the issuer’s performance. The Report should avoid selections, omissions, or presentation formats that may inappropriately influence a decision or judgment by the readers.
- “Consistency” Principle: The issuer should use consistent methodologies to allow for meaningful comparisons of ESG data over time.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

BOARD STATEMENT

The Board has an overall responsibility for overseeing and determining the Group's environmental, social, and climate-related risks and opportunities impacting the Group, establishing and adopting the ESG Policy and targets of the Group, and reviewing the Group's performance annually against the ESG targets and revising the ESG strategies as appropriate if significant variance from the target is identified.

ESG Working Group comprises four members, including the Group's chief financial officer, human resources director, human resources manager, and senior compliance manager. The ESG Working Group serves as a supportive role to the Board in implementing the agreed ESG Policy, targets and strategies; conducting materiality assessments of environmental-related, climate-related, social-related risks and assessing how the Group adapts its business in light of climate change; collecting ESG data from different parties while preparing for the ESG report; and continuously monitoring of the implementation of measures to address the Group's ESG-related risks. The ESG Working Group has to report to the Board on a semi-annual basis on the ESG performance of the Group and the effectiveness of the ESG systems. The Group's governance structure for its sustainability matters is illustrated as follows:

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

MATERIALITY ASSESSMENT

The management and staff of the Group have participated in the preparation of the Report to assist the Group in reviewing the operations and identifying relevant ESG issues. ENVIRONMENTAL PROTECTION

Environmental Policy and Compliance

The Group recognises the importance of good environmental management and is committed to protecting and conserving the environment and natural resources. The Group strives to continuously improve its environmental performance for the management philosophy of sustainable development. In response to the global environmental protection trends, the Group implements the environmental protection policies to promote energy conservation, reduce emission of pollutants and to mitigate environmental risks, including compliance of the applicable local laws and regulations, ensuring efficient use of energy, water and other resources during operations, raising staff's awareness in environmental protection, and management monitoring of the implementation of environmental policies.

Emission

The Group recognises the importance of establishing a balance between economic development and environmental protection as the impacts of the environmental and climate related issues become more severe in recent years. In the Reporting Period, the Group is not aware of any material non-compliance environmental protection laws and regulations that had a significant impact on the Group relating to air and GHG emissions, discharges into water and land, and generation of hazardous and non-hazardous wastes. The Group strictly complies with environmental laws and regulations in Hong Kong and the Mainland China, including but not limited to:

- Air Pollution Control Ordinance (Cap. 311 of the Laws of Hong Kong);
- Waste Disposal Ordinance (Cap. 354 of the Laws of Hong Kong);
- Environmental Impact Assessment Ordinance (Cap. 499 of the Laws of Hong Kong);
- Environmental Protection Law (《中華人民共和國環境保護法》) in the PRC; and
- Atmospheric Pollution Prevention and Control Law (《中華人民共和國大氣污染防治法》) in the PRC.

No fines or non-monetary sanctions for non-compliance with relevant laws and regulations had been reported in the Reporting Period.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Air and GHG Emissions

The Group's core business does not directly generate significant air and GHG emissions. The most common emission from its daily business activities is GHG emissions. It is mainly generated from the consumption of purchased electricity at our headquarters and offices. Although the environmental impact is limited, the Group still strives to be more proactive on emission and energy reduction by its Environmental Policy and Emission Policy.

To properly manage GHG emissions, the Group actively adopts energy saving and electricity conservation measures as well as other measures, including:

- Encourage employees to switch off IT devices, such as computers and monitors when not in use;
- Maintain indoor temperature at an optimal level for comfort; and
- Check and clean electrical appliances, such as refrigerator, air conditioning, ventilation and paper shredder regularly to ensure they are maintained at an efficient operating state.

The Group's objective is to achieve net-zero target by 2060.

The emission data of GHG during the Reporting Period are set out as follows:

Scope of GHG Emissions	Unit	FY2025 ¹	FY2024
Scope 1 Direct GHG emission	tCO ₂ e	16.8	38.0
Scope 2 Energy Indirect GHG emissions	tCO ₂ e	128.6	112.7
Scope 3 Other indirect GHG emissions	tCO ₂ e	46.5	1.3
Total GHG emissions	tCO₂e	191.9	152.0
GHG emissions intensity	tCO₂e/employee	1.3	0.8

Note(s):

1. The calculation of the GHG emission is based on the "Corporate Accounting and Reporting Standard" from GHG protocol.
2. The increase in Scope 3 emissions compared to FY2024 reflects the expanded scope of categories and enhanced data collection methodology included in this year's calculation, as the Group continues to develop its value chain emissions measurement capabilities.
3. The total number of employees used for intensity calculation is the number at the end of the reporting period, unless stated otherwise.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Apart from GHG emissions, fuel consumption from motor vehicles can generate air pollutants such as nitrogen oxides, sulphur oxides and particulate matter. During the Reporting Period, the Group's operations in the PRC did not involve the use of company-owned vehicles as a result of operational restructuring, leading to a significant reduction in air pollutant emissions compared to the previous year. The air pollutant emissions from vehicles that remained in use during the period are set out below:

Types of air pollutants	Unit	FY2025	FY2024
Nitrogen oxides (NO _x)	kg	8.1	45.7
Sulphur oxides (SO _x)	kg	0.1	0.2
Particulate Matter (PM)	kg	0.6	4.0

Waste Management

The Group does not generate any hazardous wastes, including chemical wastes, clinical wastes and hazardous chemicals, in the ordinary course of business. Non-hazardous waste produced from the operations of the Group is mainly comprised of general office consumables which have no significant impact on the environment. The Group's wastes are mainly classified into two categories, including general wastes (household wastes) and recyclable wastes. The Group maintains a Waste Management Policy focused on reducing office waste and enhancing recycling efficiency. This includes initiatives to minimise single-use items and promote recycling practices among staff. We are reviewing our waste reduction strategies and exploring opportunities to set measurable targets as our data collection matures.

The summary of non-hazardous wastes produced by the Group during the Reporting Period and their intensity are as follows:

Non-hazardous waste	Unit	FY2025	FY2024
Total non-hazardous waste produced	tonnes	1.0	3.6
Non-hazardous waste intensity¹	tonnes/employee	0.01	0.02

Note(s): The total number of employees used for intensity calculation is the number at the end of the reporting period, unless stated otherwise.

In summary, to the best of its Directors' knowledge, there was no material non-compliance with the applicable local rules and regulations relating to air emissions, GHG emissions, water and land discharges, and generation of hazardous and non-hazardous wastes in all material aspects. The Group's objective is to achieve 15% reduction of non-hazardous wastes by year 2031 from a base year of 2021, major reduction measures including to eliminate single use plastic from the Group's operation, to make all the Group's event paperless and set up recycling points for material recycling.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Use of Resources

The Group grasps every opportunity to encourage its employees in supporting the green initiatives in daily operations and incorporating environmental sustainability into its business operation. Due to the nature of the office's operations and business, the major resources consumed by the Group are electricity, water and paper.

Energy Consumption

The direct and indirect energies consumption by type are set out as follows:

Energy and Resources Use	Unit	FY2025	FY2024
Direct energy consumption (Petrol) ¹	kWh	55,959	137,911
Indirect energy consumption (Purchased electricity for operation in headquarters)	kWh	198,641	200,509
Indirect energy consumption (Purchased electricity for electric vehicles)	kWh	2,141	2,155
Total energy consumption	kWh	256,741	340,575
Energy consumption intensity²	kWh/employee	1,689	1,892

Note(s):

1. Conversion factors reference to the Energy Statistics Manual issued by the International Energy Agency, unless stated otherwise.
2. The total number of employees used for intensity calculation is the number at the end of the reporting period, unless stated otherwise.

The Group is committed to instilling the awareness of resources conservation and environmental protection into the work and life of every employee. The Group seeks business partners who also share the philosophy and commitment to environment conservation and compliance with the applicable environmental laws and regulations. The Group believes that these initiatives are capable to reflect its commitment to offering the best quality of services while maintaining the least adverse environmental impact on the planet.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Water Consumption

With respect to water conservation, the Group encourages all employees and customers to develop the habit of conserving water consciously. Pantry and washrooms are posted with environmental messages to remind employees the importance and urgency of water conservation.

Apart from education, the utility facilities are maintained regularly for service, to ensure that water seepage or leaking pipelines are replaced or repaired on a timely basis.

In the production process, water curtain cabins are employed so that wastewater can be recycled for the purpose of controlling air pollution in the spraying procedure.

The water consumption data are set out as follows:

Water Resources	Unit	FY2025	FY2024
Total water consumption	Cubic metre	162.17	191.8
Water consumption intensity ¹	Cubic metre/employee	1.5	1.1

Note(s): The total number of employees used for intensity calculation is the number at the end of the reporting period, unless stated otherwise.

During the Reporting Period, there is no issue in sourcing water, and the Group planned to achieve 15% water reduction in water consumption by year 2031 from a base year of 2021.

Packaging Material

Due to the business nature of the Group, the management believe that it is not applicable to the Group. Moreover, the Group's products are packaged by the suppliers and the Group will continue to adopt the principles of defective packaging and green packaging for procurement and selecting suppliers.

The Environment and Natural Resources

The principal business activities of the Group do not have a significant impact on the environment and natural resources. Despite this, the Group is committed to sustainability by seeking to reduce the environmental impact of its operations, with a particular focus on the reduction of GHG emissions and preservation of resources.

Employees are well-informed of the green measures adopted by the Group through regular meetings and sending them emails and relevant materials to advocate their awareness and behavioural change. The Group encourages all employees to participate in different kinds of recycling activities and minimise the use of natural resources. The Group will continue to reduce emissions and wastes on an ongoing basis in order to minimise the Group's impacts of activities on the environment and natural resources.

As mentioned in the above sections, the Group has implemented various measures to protect water resources and reduce waste. The Group is also devoted to green office and resources conservation in order to contribute to the sustainable development of mankind.

EMPLOYMENT AND LABOUR PRACTICES

Employment

The Group values the vocational well-being of its staff, as we believe greater creativity and productivity are cultivated in happy workplaces. The Group ensures strict compliance with regulations to safeguard its employees' lawful rights. Employees of the Group in Hong Kong are covered by the Employment Ordinance (Chapter 57 of the Laws of Hong Kong), the Mandatory Provident Fund Schemes Ordinance (Chapter 485 of the Laws of Hong Kong) and the Minimum Wage Ordinance (Chapter 608 of the Laws of Hong Kong); while employees in the Mainland China are covered by the Labour Contract Law (《中華人民共和國勞動合同法》) of the PRC, the Social Insurance Law (《中華人民共和國社會保險法》), the Juvenile Protection Act (《未成年人保護法》), the Measures for Paid Annual Leave (《帶薪年休假辦法》), the Minimum Wage Regulations (《最低工資條例》), and the female labours are also protected by the Female Workers' Labour Protection Regulations (《女職工勞動保護規定》) of the PRC, and employees in Thailand are covered by the Labour Protection Act.

The management regularly reviews the Group's remuneration and benefits policies in reference to the market standards and is committed to safeguarding the rights and interests of the employee including but not limited to policies regarding compensation and dismissal, recruitment and promotion, working hours, rest periods, equal opportunity, diversity, anti-discrimination, and other benefits and welfare. Remuneration and benefits have been adjusted in accordance with the employees' individual performance, contribution and market conditions. Remuneration packages include holidays, annual leave, medical scheme, group insurance, mandatory provident fund and discretionary bonus.

In the recruitment process, the appointment of employees at all levels of the Group was based on academic qualifications, integrity, abilities and experience required for the position. Recruitment was conducted mainly through job posting. Candidates are vetted by the human resources department and reviewed by the heads of the hiring department. All appointments are submitted to the general manager for approval to ensure the decisions are fair and reasonable.

The Group encourages differences and individuality in employees, with the philosophy that diversity can bring new ideas, dynamics and challenges to the operations; but discourages all forms of discrimination on gender, age, family status, sexual orientation, disability, race and religion. The Group is committed to supporting the employees to maintain a family-friendly work environment and strives to make sure employees and business partners comply with laws and regulations, follow ethical business practices and respect equal opportunities in employment.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

During the Reporting Period, the Group continues to strictly observe the applicable laws and regulations and follow the employment policies relating to recruitment and promotion, compensation and dismissal, working hours, rest periods, equal opportunity, diversity, anti-discrimination, and other benefits and welfare, by providing competitive remuneration package, including internal promotion opportunities and performance-based bonus, so as to recruit and retain experienced employees.

The Group had a total number of 225 employees as at 31 December 2025. The employee compositions by gender, age group and geographical region were as follows:

Employee Structure	Number of employees as at 31 December 2025	Percentage of employees as at 31 December 2025	Number of employees as at 31 December 2024	Percentage of employees as at 31 December 2024

Promotion and Career Development

The promotion of the Group's employees is subject to review regularly. The Group has established objective performance indicators for annual performance evaluation.

During the Reporting Period, the employee turnover rate of the Group was 61%. Those employees who left the Group were in their own accord. The Group was not aware of any material non-compliance with laws and regulations relating to employment and labour practices that had a significant impact on the Group relating to compensation and dismissal, recruitment and promotion, working hours, rest periods, equal opportunity, diversity, antidiscrimination, and other benefits and welfare for the Reporting Period.

The following table sets for the turnover rates of the Group's employees for the Reporting Period:

Summary of Employee Data	FY2025		FY2024	
	Number of employees resigned	Turnover rates ¹	Number of employees resigned	Turnover rates ¹
By gender				
Male	49	77.8%	39	54.9%
Female	35	26.0%	73	65.2%

Note(s): Calculation of turnover rate for each of the categories = Number of employees who left in the category during the Reporting Period/(Number of employees in the category at the end of the previous reporting period + Number of employees in the category at the end of this reporting period)/2 × 100%.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Health and Safety

The Group has been attaching great importance to a comfortable and safe working environment for the employees which protect them from potential occupational hazards and health and safety risks, in order to achieve zero tolerance of accidents and injuries.

As employees' health and safety are of paramount importance to the operation of the Group, the Group has accordingly formulated a series of relevant personnel management policy to provide employees with a healthy, positive and motivative working atmosphere.

The Group maintains the risk management system including identification, prevention and management of risks and hazards throughout the workplaces as well as follow-up actions for accidents or personal injuries. The Group has taken the following measures:

- Maintaining a safe working environment which poses no threat to health under the Group's control;
- Irregularly participating in occupational health and safety related seminars; and
- Conducting fire drills and emergency evacuation simulations to raise employees' awareness of fire prevention and to equip employees with appropriate knowledge and skills in the event of emergency.

Additionally, the Group provides induction programs and safety training programs to new employees such that they can be familiar with the corporate policies in relation to health and safety matters upon joining the Group.

Work injury cases $\leq$ 3 days	0	0	0
Work injury cases $>$ 3 days	0	0	0
Fatalities	0	0	0
Lost days due to work injury	0	0	0

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

During the Reporting Period, the Group did not record any work-related injury or fatality of employees, nor any lost days due to work injury. The Group is not aware of any material non-compliance with the relevant laws and regulations relating to providing a safe working environment and protecting employees from occupational hazards. The relevant laws and regulations include, but are not limited to, the Employment Ordinance of Hong Kong, the Labor Law of the People's Republic of China, the Production Safety Law of the People's Republic of China, the Law of the People's Republic of China on the Prevention and Treatment of Occupational Diseases in the PRC, and the Occupational Safety, Health and Environment Act in Thailand.

Development and Training

The Group sees each position of the Group to be of unique professional and technical needs. Thus, a comprehensive training scheme is in place to provide support and coaching to the employees.

For every new joiner, the Group provides proper orientation training and mentoring in order to help them adapt to the new working environment quickly. Mentoring and guidance in relation to the operating procedures and technical production requirements will be provided by senior staff or supervisor in each production unit.

The Group acknowledges the importance of continuous training and development of employees and encourages on-the-job training in each department. At the end of each year, all departments are required to draw up a training plan for the next year based on the specific need and nature of work in the department. Based on the nature and need of job duties, employees of certain positions will receive professional training from external institutes so that they can master the knowledge and skills required in the position. The Group also provides training subsidy to employees attending approved training courses related to the job.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

A total of 219 training hours were conducted in the Reporting Period, and training hours (categorised by gender and employee category) are shown below:

Labour Standards

The Group strictly prohibits the use of child and forced labour. Through the well-established recruitment policies, including verifying the identity documents of all applicants by the human resources department during the recruitment process, the Group ensured that its employees are all above the minimum legal working age and no forced labour is hired. In case any irregularities in ages, identities and/or validities of employment status were found, employment will be terminated immediately, and the Group will report the incident to relevant authorities. The Group has complied with all applicable laws and regulations in relation to employment matters during the Reporting Period, the relevant laws and regulations include, but are not limited to the Employment Ordinance of Hong Kong, the Provisions on the Prohibition of the Use of Child Labour (《禁止使用童工規定》) of the PRC and the Labour Protection Act in Thailand.

Operating Practices

The Group is determined to disseminate the pursuit of sustainability into the core business which is regarded as part of the responsibility of an accountable corporate citizen. A series of management systems and procedures have been developed in alignment with the Corporate Governance requirements required by the SEHK. Furthermore, the Group encourages all business partners to incorporate those sustainability practices and policies into their operation thoroughly in order to work together in pursuit of sustainable development.

Supply Chain Management

The Group understands that supply chain management has always been one of the key aspects of the Group's operation. The supply chain management team not only considers economic and commercial benefits during the tendering processes but also evaluates the suppliers' and contractors' track record relating to legal and regulatory compliance which include safeguarding workers' health and safety and mitigating environmental impacts.

In addition to purchasing products and services according to the specified standards, the Group has established a sound supplier management system to manage the key links of the supply chain, including provisions about supplier admittance, supplier assessment and supplier evaluation, etc.

To maintain a good corporate control and governance, the Group has developed a series of management system and procedures in alignment with the Corporate Governance requirements required by the SEHK and is obliged to terminate the cooperation contract with suppliers that may cause or have caused serious legal violation.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The Group believes in sourcing from local suppliers where possible and where procurement from overseas suppliers is required, it will be based on the suppliers' availability and capability. For the Reporting Period, the Group worked closely with 4 suppliers, all of them are located in the PRC. When selecting new suppliers, the Group considers their environmental practices alongside other commercial factors. We encourage our partners to adopt responsible environmental management and may, where appropriate, give preference to suppliers with relevant credentials. The Group continuously evaluates the environmental performance of its suppliers. The Group may terminate the contract with suppliers that refuse to address situations that cause significant harm to the environment.

Product Responsibility

The Group has been dedicated in providing high product quality and professional services with the highest degree of integrity and pursuit of excellence to its customers. The Company has set different systems and procedures such as the Store Standard Operating Procedures, the Customer Service Handling Procedures for Return and Exchange and the Customer Complaints System to standardise store operations, promote follow-ups, handling and feedback of various issues.

The Company continues to improve the customer complaint handling system, and set up a customer service centre to investigate and follow up customer complaints about the Group's products and service. Customer service staff will be arranged based on the complaint types and deal with issues such as product quality, product after-sales and employee service attitudes, and within a limited time scale, communicate the Group's responses with the complainant in a timely manner. For products are defected or other quality problems, the Group will conduct product return or exchange depending on the severity of the problem. Meanwhile, the Company's quality inspection team will track and supervise the complaint processing results, so that customer demands can be resolved satisfactorily.

During the Reporting Period, there were no material recalls, significant complaints against the products, or any material amount of sales return for safety and health reasons.

Privacy Protection and Intellectual Property

The Group is committed to comply with the privacy laws and regulations. The Group undertakes to strictly comply with the requirements of the Personal Data (Privacy) Ordinance (Chapter 486 of the Laws of Hong Kong), the Corporate Finance Consultant Code of Conduct, the Personal Information Protection Law of the PRC (《中華人民共和國個人信息保護法》), the Personal Data Protection Act of Thailand and local legislations, to ensure that all data are securely kept in the internal system with access control. The Group has separated the customer data from other ordinary information to protect customers' privacy. Meanwhile, only authorised personnel can access the personal data collected from the Group's customers. Through internal training and confidential agreements with employees, the Group emphasises confidentiality obligations and the legal consequences of the breaches of relevant rules.

While striving for excellent quality and high-tech quality, the Group complies with the requirements of the Patents Ordinance (Cap. 514) of Hong Kong, the Patent Law of the PRC (《中華人民共和國專利法》) and the Patent Act in Thailand, focusing on protecting original designs and legally obtaining copyrights. Also, the staff periodically check the Hong Kong Intellectual Property Journal and other international source, the Group will raise objection accordingly if there is new application of trademark registration which is likely to make confuse with the Group's trademarks. To improve productivity and market competitiveness, the Group has obtained relevant patents for its products and has used them in its operations. The Group also will conclude an e-commerce platform agreement with customers to achieve the consumer data protection.

During the Reporting Period, the Group is not aware of any incidents of non-compliance with regulations and/or voluntary codes concerning the Group's products and services relating to health and safety, advertising, labelling and privacy matters.

Anti-corruption

The Group is committed to upholding high standards of business integrity, honesty and transparency in all its business dealings and strictly prohibits any form of fraud or corruption, and is committed to the prevention, deterrence, detection and investigation of all forms of fraud and corruption. The Group arranges anti-corruption training programmes for Board members and employees to reinforce our commitment to business integrity.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The Group observed the related laws and regulations that have significant impact on the Group relating to bribery, extortion, fraud and money laundering, such as the Prevention of Bribery Ordinance (Chapter 201 of Criminal Laws) of Hong Kong, the Criminal Law of the PRC (《中華人民共和國刑法》), the Regulations of the PRC for Suppression of Corruption (《中華人民共和國懲治貪污條例》) and the Organic Act on Counter Corruption of Thailand. During the Reporting Period, the Group complied with the relevant laws and regulations relating to bribery, extortion, fraud and money laundering mentioned above, as well as the “Anti-Fraud and Anti-corruption Policy” set up by the Group, and there were no cases of anti-corruption.

Under the Group’s whistleblowing policy, employees and other stakeholders of the Company may anonymously report any suspected or actual events of bribery and corruption to the Company’s compliance manager, without the threat of dismissal or retaliation. The compliance manager who receives the reports will promptly act to evaluate the issue and investigate the issue where appropriate. The results of the investigation will be reported to the Group’s Audit Committee accordingly.

During the Reporting Period, the Group did not receive any complaints from employees and/or other stakeholders of the Group.

COMMUNITY INVESTMENTS

Being a socially responsible company, the Group actively strives to contribute to a better society through active involvement in the community, by putting the best effort into helping the employees and local communities through company events and outdoor activities.

The Group believes that a good corporate culture and harmonic working environment will help to achieve the work-life balance of the employees. In the coming future, the Group will continue to attach great importance to the well-being of the staff and community.

CLIMATE RESILIENCE

The Group acknowledges that climate change presents both risks and opportunities that could impact our business model, strategy, and financial performance. As a brand owner and operator with a presence in physical retail (through licensed stores) and a significant e-commerce channel, we are committed to understanding and building resilience against these climate-related factors. Our climate-related governance, strategy, risk management, and metrics are overseen by the Board and implemented by the ESG Working Group.

Governance

The Board of Directors (the “**Board**”) has ultimate responsibility for overseeing the Group’s management of climate-related risks and opportunities. The Board integrates climate considerations into its strategic planning, reviewing the potential impacts on our brand value, supply chain, and operational locations. The Board receives regular updates from the ESG Working Group on climate-related developments, risk assessments, and progress against our targets.

The ESG Working Group is responsible for implementing the Board’s strategy on climate resilience. This includes conducting materiality assessments of climate-related issues, coordinating data collection for key metrics, evaluating the effectiveness of our mitigation measures, and reporting findings to the Board semi-annually. To support informed decision-making, the Board and ESG Working Group stay abreast of climate-related regulations and market trends.

Strategy

Our strategy for managing climate-related issues is informed by an ongoing process of climate scenario analysis. This helps us assess the potential resilience of our business model under different future conditions. We have considered both a **2°C or lower scenario** (aligned with the goals of the Paris Agreement) and a higher-emissions scenario to understand a range of potential physical and transition risks. Our analysis covers the following time horizons:

- **Short-term:** 0 – 5 years
- **Medium-term:** 5 – 10 years
- **Long-term:** 10+ years

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The insights from this analysis are used to inform our business strategy, from supply chain management to our e-commerce platform development. While our direct operations (headquarters) have a limited physical footprint, we recognise that our value chain – including licensed manufacturing, logistics partners, and retail points – faces potential climate-related disruptions.

Risk Management

Our overall risk management framework includes a process for identifying, assessing, and managing climate-related risks. The ESG Working Group, in coordination with relevant departments such as supply chain and operations, conducts periodic reviews to evaluate the potential likelihood and impact of these risks. This process is overseen by the Board. The findings from our scenario analysis are integrated into this risk assessment, helping us to prioritise and develop appropriate mitigation strategies. This integration process is ongoing, with preliminary steps taken to align our climate risk identification with our enterprise risk management system.

The following table outlines the significant climate-related risks and opportunities identified as relevant to our business:

Climate-related Risk/ Opportunity	Description	Potential Financial Impact	Steps Taken to Manage
Physical Risk: Acute	Increased frequency and severity of extreme weather events (e.g., typhoons, floods) could disrupt logistics, delay shipments to e-commerce customers, and impact the operations of licensed stores in affected regions.	– Revenue decrease from sales disruption. – Increased operating costs for contingency logistics.	– Maintain and periodically test business continuity plans for key operational hubs and e-commerce platforms. – Work with logistics partners to understand their resilience and develop contingency shipping routes.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Climate-related Risk/ Opportunity	Description	Potential Financial Impact	Steps Taken to Manage
Physical Risk: Chronic	Long-term changes in climate patterns, such as sustained temperature increases, could affect working conditions in offices and increase energy consumption for cooling. It may also impact the stability of regions where our key suppliers or licensees are based.	– Increased administrative and energy costs. – Potential for decreased workforce productivity.	– Active energy management in our offices, including maintaining optimal indoor temperatures. – Continue to monitor the geographical concentration of our suppliers and licensees as part of supply chain management.
Transition Risk: Policy and Legal	Stricter environmental regulations, including carbon pricing or mandatory climate-related disclosures, could increase compliance costs. New requirements for product sustainability or extended producer responsibility (EPR) schemes for packaging may impact our licensed products.	– Increased compliance and administrative costs. – Higher costs for raw materials or sustainable packaging options.	– Proactively monitor evolving regulations in our key markets (Hong Kong, Mainland China). – Continue to develop our data collection systems for GHG emissions to meet evolving disclosure requirements. – Engage with suppliers and licensees on the principles of defective and green packaging.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Climate-related Risk/ Opportunity	Description	Potential Financial Impact	Steps Taken to Manage
Transition Risk: Market and Reputation	Shifts in consumer preference towards more sustainable brands could impact the appeal of our products. Our reputation could be affected if our value chain is not seen as managing its environmental impact responsibly.	– Revenue decrease if brand perception declines. – Potential loss of market share to more sustainable competitors.	– Uphold our commitment to responsible operations. – Our materiality assessment and stakeholder communication help us understand and respond to evolving stakeholder expectations. – Continue to build on our ESG disclosures to transparently communicate our performance.
Opportunity: Resource Efficiency	Enhancing energy efficiency in our offices reduces operational costs and emissions. Engaging with licensees and suppliers on efficient packaging design can reduce material use and waste.	– Reduced operating costs through energy savings. – Potential cost reductions in the value chain.	– Implemented green office policies (e.g., switching off equipment, efficient appliances). – Encourage suppliers to adopt principles of defective packaging and green packaging.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Climate-related Risk/ Opportunity	Description	Potential Financial Impact	Steps Taken to Manage
Opportunity: Products and Markets	Growing consumer demand for sustainable products creates opportunities to enhance brand value. We can explore collaborations with licensees to develop products made from more sustainable materials or with enhanced eco-credentials.	– Revenue growth through new, differentiated product lines. – Enhanced brand loyalty and customer satisfaction.	– The Group is committed to understanding market trends and will continue to explore opportunities to integrate sustainability considerations into our brand and product development.

Metrics and Targets

We use key metrics to assess and manage our climate-related performance. GHG emissions are a critical metric for understanding our impact and are integrated into our strategic planning. We track our emissions across:

- Scope 1: Direct emissions from sources owned or controlled by the Group, primarily arising from fuel consumption for company vehicles.
- Scope 2: Indirect emissions from the generation of purchased electricity consumed by the Group (e.g., in our headquarters and offices).
- Scope 3: Other indirect emissions that occur in our value chain. In FY2025, we have made a preliminary disclosure of selected Scope 3 categories based on currently available data. This initial calculation, conducted in accordance with the GHG Protocol, reflects the nature of our transport-intensive supply chain and the geographic distribution of our business activities. We will continue to refine our Scope 3 methodologies as data collection processes evolve.

The details of our GHG emissions, energy consumption, and other relevant data for FY2025 are set out in the “Environmental Protection” section of this report, under “Air and GHG Emissions” and “Use of Resources.” Our progress against these metrics is reviewed by the Board and ESG Working Group to inform our ongoing strategy for climate resilience. Our long-term aspiration is to contribute to a net-zero future, and we will continue to evaluate appropriate targets as our understanding of our climate-related impacts matures.

Currently, climate-related considerations are not factored into the remuneration of the Group’s directors or senior management. The Group’s core business does not directly generate significant carbon emissions, and the Board considers that the existing remuneration policies are sufficient to incentivise management to achieve the Group’s overall strategic objectives. As climate disclosure requirements evolve and the Group’s operations expand, the Board will continue to review the appropriateness of incorporating climate-related performance metrics into remuneration policies.

The Group does not currently apply an internal carbon pricing mechanism in its decision-making processes. Given the nature of the Group’s business and its limited direct carbon emissions, the Board considers that the implementation of internal carbon pricing is not necessary at this stage. The Group will continue to monitor relevant developments and reassess when appropriate.

INDEPENDENT AUDITOR'S REPORT

To the Members of B.Duck Semk Holdings International Limited
(incorporated in the Cayman Islands with limited liability)

Opinion

What we have audited

The consolidated financial statements of B.Duck Semk Holdings International Limited (the “**Company**”) and its subsidiaries (the “**Group**”), which are set out on pages 171 to 263, comprise:

- the consolidated statement of financial position as at 31 December 2025;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, comprising material accounting policy information and other explanatory information.

Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with HKFRS Accounting Standards as issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) as issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “**Code**”), as applicable to audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with the Code.

INDEPENDENT AUDITOR'S REPORT

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter identified in our audit is related to expected credit losses on consideration receivables from transfer of trademarks, trade receivables and contract assets.

Key Audit Matter	How our audit addressed the Key Audit Matter
Expected credit losses on consideration receivables from transfer of trademarks trade receivables and contract assets Refer to Notes 4(b), 5(c), 20 and 21 to the consolidated financial statements. As at 31 December 2025, the Group had consideration receivables from transfer of trademarks, trade receivables and contract assets with gross carrying amount HK\$69,520,000, HK\$70,355,000, and HK\$6,957,000 respectively, and expected credit loss allowance amounting to HK\$52,162,000, HK\$21,566,000 and HK\$102,000 respectively.	Our audit procedures relating to management's assessment of the expected credit losses on consideration receivables from transfer of trademarks, trade receivables and contract assets included: - We understood, evaluated and tested, on a sample basis, the internal controls over the Group's process in estimating the expected credit loss to determine the loss allowance for other receivables, trade receivables, contract assets and evaluated the inherent risk of material misstatement by considering the degree of estimation uncertainty and level of other inherent risk factors; For trade receivables and contract assets: - We understood and evaluated the modelling methodologies used by management for measuring expected credit losses; assessed key parameters and assumptions made by management with reference to the relevant historical credit loss data of the Group and observable external economic data;

INDEPENDENT AUDITOR'S REPORT

Key Audit Matters (continued)

Key Audit Matter	How our audit addressed the Key Audit Matter
Expected credit losses on consideration receivables from transfer of trademarks trade receivables and contract assets (continued) The Group provides expected credit loss allowance for trade receivables and contract assets based on the lifetime expected credit losses. Trade receivables and contract assets are grouped in accordance with credit risk characteristics to determine the expected credit loss. The management assesses the expected credit loss for contract assets and trade receivables individually or collectively, based on the consideration of probability of default, loss given default, exposure and forward-looking adjustments. For other receivables, the Group adopted a general 3-stage approach when providing expected credit loss allowance. Significant judgement is exercised by the management in making assumptions about risk of default and expected loss rates. In making such judgement, management needs to select the inputs to the expected credit losses calculations, based on the past collection history of the Group, existing market conditions as well as forward-looking estimates at the end of each reporting period, in developing its expectation of the ultimate realisation of the other receivables, trade receivables and contract assets. The assessment was an area of focus for the audit given the judgment exercised by the management, inherent uncertainties in this area and the significance of the related balances.	• We evaluated the reasonableness of grouping of trade receivables and contract assets against the nature of the risk characteristics; • We checked, on sample basis, the accuracy of ageing profile of trade receivables and contract assets and their settlement records, which are extracted from management's reports used by management in the expected credit losses assessment; • We evaluated the outcome of prior year assessment of the loss allowance, by checking receivable settlement records, to assess the effectiveness of management's estimation process; • We involved our in-house valuation experts in assessing the methodology and the underlying assumptions adopted by management in the estimation of expected credit losses for trade receivables and contract assets of individually assessed customers; • We assessed the appropriateness of management's process to identify significant changes of credit risks characteristics of specific customers and perform individual assessment of expected credit losses, in consideration of relevant factors, such as turnover days, settlement records and background of the customers;

Key Audit Matter	How our audit addressed the Key Audit Matter
Expected credit losses on consideration receivables from transfer of trademarks trade receivables and contract assets <i>(continued)</i>	- For forward looking estimates, we evaluated the appropriateness of economic indicators selected by management; evaluated the economic scenarios and the underlying probability weightings applied by management with reference to market data, our industry knowledge; and tested the resulting calculation of the economic indicators determined thereby; and - We tested the mathematical accuracy of the calculations of provision for expected credit losses. For consideration receivables from transfer of trademarks: - We assessed the appropriateness of the expected credit loss provisioning methodology and assumptions adopted by management with reference to market data and other relevant information; - We assessed the appropriateness of the management's identification of significant increase in credit risk for the other receivables, in consideration of the settlement pattern and other relevant information;

Expected credit losses on consideration receivables from transfer of trademarks trade receivables and contract assets <i>(continued)</i>	• We challenged management for the assumptions and data used in assessing the expected credit loss rate, corroborated explanations and involvement of inhouse valuation expert, through examining such as settlements record, default rate of comparable companies from public data, and other corresponding documents; and • We tested the mathematical accuracy of the calculations of provision for expected credit losses. Based on the procedures performed, we found the judgement and estimates made by management in respect of the expected credit loss on other receivables, trade receivables and contract assets to be supportable by available evidence.

Other Information

The directors of the Company are responsible for the other information. The other information comprises all of the information included in B.Duck Semk International Holdings Limited 2025 Annual Report (the “**annual report**”) other than the consolidated financial statements and our auditor’s report thereon. We have obtained some of the other information including Corporate Information, Financial Highlights, Report of the Directors and Financial Summary prior to the date of this auditor’s report. The remaining other information, including Chairman’s Statement, Major Licensees and Activities, Management Discussion and Analysis, Biographies of Directors and Senior Management, Corporate Governance Report, Environmental, Social and Governance Report and the other sections to be included in the annual report, is expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor’s report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the remaining other information to be included in the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to Audit Committee and take appropriate action considering our legal rights and obligations.

Responsibilities of Directors and the Audit Committee for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRS Accounting Standards as issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

INDEPENDENT AUDITOR'S REPORT

Responsibilities of Directors and the Audit Committee for the Consolidated Financial Statements (*continued*)

The Audit Committee is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

INDEPENDENT AUDITOR'S REPORT

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is LI Wang Kei (practising certificate number: P07765).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1 GENERAL INFORMATION

B.Duck Semk Holdings International Limited (the “**Company**”) was incorporated in the Cayman Islands (“**Cayman**”) on 10 December 2020 as an exempted company with limited liability under the Companies Act (Cap. 22, Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The address of its registered office is PO Box 309, Ugland House, Grand Cayman, KY1-1104, Cayman Islands.

The Company is an investment holding company. The Company and its subsidiaries (together, the “**Group**”) are principally engaged in the provision of licensing services, design consultation services and trading of licensed brand products in Hong Kong and the Mainland China (the “**Business**”).

Semk Products (Holdings) Limited is the ultimate holding company of the Company.

Mr. Hui Ha Lam is the ultimate controlling shareholder of the Group.

The consolidated financial statements are presented in Hong Kong dollars (HK\$) and all values are rounded to the nearest thousand (“**HK\$’000**”) unless otherwise stated.

2 SUMMARY OF ACCOUNTING POLICY INFORMATION

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

(a) Compliance with HKFRS Accounting Standards and HKCO

The consolidated financial statements of the Group have been prepared in accordance with all applicable HKFRS Accounting Standards as issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and disclosure requirements of the Hong Kong Companies Ordinance (Cap. 622).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.1 Basis of preparation *(continued)*

(a) Compliance with HKFRS Accounting Standards and HKCO *(continued)*

The consolidated financial statements have been prepared under the historical cost convention. The preparation of the consolidated financial statements in conformity with HKFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4.

(b) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for certain financial assets measured at fair value.

(c) Adoption of new or amended standards and interpretations that are effective on 1 January 2025

The following new and amended standards and interpretations apply for the first time to the Group's financial reporting period commencing on 1 January 2025:

HKAS 21 and HKFRS 1
(Amendments)

Lack of Exchangeability

The adoption of amendments to standards listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.1 Basis of preparation *(continued)*

- (d) New and amended standards and interpretations that have been issued but are not yet effective

The following new and amended standards and interpretations, which are potentially relevant to the Group's financial statements have been issued, but are not yet effective and have not been early adopted by the Group. The Group's current intention is to apply these changes on the date they become effective.

		Effective for accounting periods beginning on or after
HKFRS 9 and HKFRS 7 (Amendments)	Amendments to the Classification and Measurement of Financial Instruments	1 January 2026
Annual Improvements	Annual Improvements to HKFRS Accounting Standards – Volume 11	1 January 2026
HKFRS 9 and HKFRS 7 (Amendments)	Contracts Referencing Nature – dependent Electricity	1 January 2026
HKFRS 18	Presentation and Disclosure in Financial Statements	1 January 2027
HKFRS 19	Subsidiaries without Public Accountability: Disclosures	1 January 2027
Hong Kong Interpretation 5 (Amendments)	Presentation of Financial Statements – Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause	1 January 2027
HKFRS 10 and HKAS 28 (Amendments)	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.1 Basis of preparation *(continued)*

- (d) New and amended standards and interpretations that have been issued but are not yet effective *(continued)*

The Group has commenced, but not yet completed, an assessment of the impact of the new standards and amendments to standards on its results of operations and financial position. The Group is not yet in a position to state whether these new standards, amendments to standards and interpretations would have any significant impact on its results of operations and financial positions.

2.2 Summary of material accounting policies

2.2.1 Principles of consolidation

(a) *Subsidiaries*

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

(b) *Changes in ownership interests*

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.2 Summary of material accounting policies *(continued)*

2.2.1 Principles of consolidation *(continued)*

(b) Changes in ownership interests (continued)

When the Group ceases to consolidate for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRS Accounting Standards.

(c) Other structured entities through contractual arrangements

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only, and the relevant activities are directed by means of contractual arrangements.

The Group's major structured entities are disclosed in Note 33 to the consolidated financial statements.

According to the contractual arrangements, the Group is considered as the primary beneficiary of these entities and also has the power to direct the activities of these entities. As a result, the results of the operations, assets and liabilities of the Group's structured entities have been included in the Group's consolidated financial statements.

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.2 Summary of material accounting policies *(continued)*

2.2.2 Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the “**functional currency**”). The consolidated financial statements are presented in HK\$, which is the Company's functional currency and the Group's presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. They are deferred in equity if they relate to qualifying cash flow hedges and qualifying net investment hedges or are attributable to part of the net investment in a foreign operation.

Foreign exchange gains and losses that are related to borrowings are presented in the comprehensive income within “finance income” or “finance cost”. All other foreign exchange gains and losses are presented in the consolidated statement of comprehensive income on a net basis within “other (losses)/gains, net”.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equities classified as fair value through other comprehensive income are recognised in other comprehensive income.

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.2 Summary of material accounting policies *(continued)*

2.2.2 Foreign currency translation

(c) Group companies

The results and financial position of all the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) assets and liabilities for each statements of financial position presented are translated at the closing rate at the date of that statement of financial position;
- (ii) income and expenses for each statements of comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- (iii) all resulting currency translation differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.2 Summary of material accounting policies *(continued)*

2.2.3 Property, plant and equipment

All property, plant and equipment are stated at historical cost less accumulated depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged in the profit or loss during the financial period in which they are incurred.

Depreciation on plant and equipment is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives or, in the case of leasehold improvements and certain leased plant and equipment, the shorter lease term as follows:

Leasehold improvements	Lease terms or 5 years, whichever is shorter
Motor vehicles	5 years
Computer equipment	2 – 3 years
Equipment	2 – 3 years
Mold	5 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2.2.5).

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized within "other (losses)/gains, net" in the consolidated statements of comprehensive income.

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.2 Summary of material accounting policies *(continued)*

2.2.4 Intangible assets

(i) *Trademark*

Trademark that has a finite useful life are stated at cost less accumulated amortisation and impairment losses. Amortisation is calculated using the straight-line method to allocate the cost over their estimated useful lives of 10 years, based on validity of trademarks, expected economic benefits and useful life estimated by market comparable.

(ii) *Computer software*

Acquired software are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. Amortisation is calculated using the straight-line method to allocate the cost over their estimated useful lives of 10 years, based on expected economic benefits and useful life estimated by market comparable.

(iii) *License*

Acquired licenses and distribution rights are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. Amortisation is calculated on a straight-line basis over their estimated useful lives up to 3 years, based on expected economic benefits and useful life estimated by market comparable.

2.2.5 Impairment of non-financial assets

Property, plant and equipment, intangible assets and right-of-use assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

2.2 Summary of material accounting policies *(continued)*

2.2.6 Financial assets

(a) Classification

The Group classifies its financial assets to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

(b) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

(c) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

2.2 Summary of material accounting policies *(continued)*

2.2.6 Financial assets *(continued)*

(c) Measurement (continued)

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in "other (losses)/gains, net" together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the consolidated statement of comprehensive income.

(d) Credit loss allowance

The Group assesses on a forward looking basis the expected credit losses associated with its debt instruments carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 3.1(b) details how the Group determines whether there has been significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by HKFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

2.2.7 Inventories

Inventories, comprising licensed brand products, are stated at the lower of cost and net realisable value. Cost is determined using the first-in, first-out ("**FIFO**") method. The cost of finished goods comprises the cost of purchased inventory after deducting rebates or discounts. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.2 Summary of material accounting policies *(continued)*

2.2.8 Trade and other receivables

Trade receivables are amounts due from customers for services performed in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If no, they are presented as non-current assets.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method.

2.2.9 Cash and cash equivalents

For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents includes cash on hand and deposits held at call with financial institutions with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. In the consolidated statement of financial position, bank overdrafts are shown within borrowings in current liabilities.

2.2.10 Share capital and shares held for employee share scheme

Ordinary shares and non-redeemable participating preference shares are classified as equity, mandatorily redeemable preference shares are classified as liabilities.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Where any group company purchases the company's equity instruments, for example as the result of a share buy-back or a share-based payment plan, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the owners of the Company as treasury shares until the shares are cancelled or reissued. Where such ordinary shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the owner of the Company.

Shares held under trust by a financial institution ("**Trust**") are disclosed as treasury shares and deducted from contributed equity.

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.2 Summary of material accounting policies *(continued)*

2.2.11 Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

2.2.12 Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the drawdown occurs. To the extent there is no evidence that is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the consolidated statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs. Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

2.2.13 Current and deferred income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.2 Summary of material accounting policies *(continued)*

2.2.13 Current and deferred income tax *(continued)*

(a) Current income tax

The current income tax is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date in the country where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

(b) Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in foreign operations where the company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.2 Summary of material accounting policies *(continued)*

2.2.13 Current and deferred income tax *(continued)*

(b) Deferred income tax (continued)

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

2.2.14 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources will be required to settle the obligation, and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

2.2.15 Contingent liabilities

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably. A contingent liability is not recognised but is disclosed in the notes to the consolidated financial statements. When a change in the probability of an outflow occurs so that outflow is probable, they will then be recognised as a provision.

2.2 Summary of material accounting policies *(continued)*

2.2.16 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for goods and services supplied, stated net of discounts and returns. Revenue is recognised when control of goods or services is transferred to the customer.

Depending on the terms of the contract and the laws that apply to the contract, service may provide over time or at a point in time. Service is provided over time if the Group's performance:

- provides all of the benefits received and consumed simultaneously by the customer; or
- creates and enhances an asset that the customer controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If service transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains the service.

The progress towards complete satisfaction of the performance obligation is measured based on one of the following methods that best depict the Group's performance in satisfying the performance obligation:

- direct measurements of the value transferred by the Group to the customer; or
- the Group's efforts or inputs to the satisfaction of the performance obligation.

When determining the transaction price to be allocated for different performance obligations, the Group first determines the service fees that the Group entitles in the contract period and adjusts the transaction price for variable considerations. The Group includes in the transaction price some or all of an amount of variable considerations only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.2 Summary of material accounting policies *(continued)*

2.2.16 Revenue recognition *(continued)*

If a contract involves multiple services, the transaction price will be allocated to each performance obligation based on the stand-alone selling prices. Where these are not directly observable, they are estimated based on expected cost plus margin.

A receivable is recorded when the Group has an unconditional right to consideration. A right to consideration is unconditional if only the passage of time is required before payment of that consideration is due.

The following is description of the accounting policy for the principal revenue stream of the Group:

(a) Revenue from provision of licensing services

Revenue from provision of licensing services relates to granting licensees the right to use trademarks created, developed and registered by the Group in different categories of licensees' products and/or services, including license for use on (i) consumer products; (ii) promotional and marketing gifts (iii) entertainment, dining and leisure destinations and; (iv) online and offline media. The revenue from the provision of licensing services is recognised over the licensing period.

(b) Revenue from provision of design consultation services

Revenue from provision of design consultation services relates to provision of design consultation and brand management services to third parties and is recognised over time when the services are provided to the customer.

(c) Sales of licensed brand products

Revenue from the sales of licensed brand products primarily comprised of sales from self-operated retail platform and sales from wholesale market. Revenue is recognised when control of the products has transferred, being when the products are delivered to the customer, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been delivered to the specified location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.2 Summary of material accounting policies *(continued)*

2.2.16 Revenue recognition *(continued)*

(c) Sales of licensed brand products (continued)

Most of the Group's sales of licensed brand products are made to customers through online platform with the remaining portion of sales being made to wholesalers, for which revenue is recognised when control of the goods is transferred, being at the point the customer receives the goods at the agreed location.

Revenue from sales of licensed brand products is recognised based on the price specified in the contract, net of discounts, returns and value added taxes. Accumulative experience is used to estimate returns at the time of sale at a portfolio level (expected value method), and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur.

(d) LBE-related ticketing income

Revenue from visitor services at the Group's location-based entertainment venues is recognised when the Group satisfies its performance obligation by providing entertainment services to a visitor.

The Group's performance obligation is to provide an integrated entertainment service, which includes access to the venue and use of its game facilities. This is considered a single performance obligation.

The transaction price is the value determined based on the gross amount paid and expected usage by visitors for electronic tokens used to access the facilities. Revenue is recognised at a point in time, specifically when the visitor consumes the electronic tokens at the game facilities.

Amounts received from visitors for the purchase of electronic tokens prior to the consumption of the service are recognised as a contract liability.

The Group has determined that it is the principal in these transactions as it controls the entertainment service before it is transferred to the customer. Therefore, revenue is recognised on a gross basis. Amounts payable to third-party operators who manage the day-to-day operations of the venues are recognised as operating expenses.

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.2 Summary of material accounting policies *(continued)*

2.2.17 Other income

(a) Income from sample sales

Income from sample sales relates to selling of design prototypes to the customers. Such income is recognised at the point that the control of the deliverables has been transferred to the customer, being when the customer has accepted the deliverables and there is no unfulfilled obligation that could affect the customer's acceptance of the deliverables.

(b) Management fee income

The Group provides management services to related companies. Income is recognised over the contract period when the relevant services are provided by the Group and the related companies simultaneously receive and consume the benefits provided by the Group's performance.

2.2.18 Contract assets and contract liabilities

Upon entering into a contract with a customer, the Group obtains rights to receive consideration from the customer and assume performance obligations to transfer goods or services to the customer. The combination of those rights and performance obligations give rise to a net asset or net liability depending on the relationship between the remaining rights and the performance obligations. The contract is an asset and recognised as contract assets if the measure of the remaining conditional rights to consideration exceeds the satisfied performance obligations. Conversely, the contract is a liability and recognised as contract liabilities if consideration received (or an amount of consideration is due) from the customer exceeds the measure of the remaining unsatisfied performance obligations.

2.2 Summary of material accounting policies *(continued)*

2.2.19 Employee benefits

(a) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits and accumulating leave that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(b) Pension obligations

The Group operates a defined contribution plan in Hong Kong and pays contributions to privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Full time employees of the Mainland China entity participate in a government mandated multiemployer defined contribution plan pursuant to which certain pension benefits, medical care, unemployment insurance, employee housing fund and other welfare benefits are provided to employees. Chinese labour regulations require the entity to accrue for these benefits based on certain percentages of the employees' salaries. Management believes full time employees who have passed the probation period are entitled to such benefits.

(c) Bonus plan

The Group recognises a liability and an expense for bonuses based on a formula that takes into consideration the profit attributable to the Company's shareholder. The Group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

2.2 Summary of material accounting policies *(continued)*

2.2.19 Employee benefits *(continued)*

(d) Share based compensation

The Group operates a not defined Share Award Scheme (“**Share Award Scheme**”). Under the Share Award Scheme, the directors and certain employees of the Group are entitled to receive shares in the Company. The shares held under trust by the Trustee for the benefit of the director and employees, would be paid and the paid up consideration would be capitalised in the Company’s reserves. The Trustee has been instructed to buy shares from the market using the funds held by the Trustee to grant shares to the director and employees. The fair value of the employee services received in exchange for the grant of the share options and shares awarded is recognised as an employee benefits expense with a corresponding increase in equity.

2.2.20 Leases

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of real estate for which the Group is a lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.2 Summary of material accounting policies *(continued)*

2.2.20 Leases *(continued)*

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third-party financing, and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

If a readily observable amortising loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the Group entities use that rate as a starting point to determine the incremental borrowing rate.

Lease payments are allocated between principal and finance cost. The finance cost is charged to the consolidated statements of comprehensive income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.2 Summary of material accounting policies *(continued)*

2.2.20 Leases *(continued)*

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases of buildings are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.2 Summary of material accounting policies *(continued)*

2.2.1 Earnings per share

(a) *Basic earnings per share*

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares; and
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

(b) *Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares; and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

2.3 Summary of other accounting policies

2.3.1 Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the financial statements of the investee's net assets including goodwill.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 SUMMARY OF ACCOUNTING POLICY INFORMATION *(continued)*

2.3 Summary of other accounting policies *(continued)*

2.3.2 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision makers (“**CODM**”). The CODM, who are responsible for allocating resources and assessing performance of the operating segments, has been identified as directors that make strategic decisions.

2.3.3 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The Group has also entered into arrangements that do not meet the criteria for offsetting but still allow for the related amounts to be set off in certain circumstances, such as bankruptcy or the termination of a contract.

2.3.4 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are expensed in the period in which they are incurred.

2.3.5 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received, and the Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognised in profit or loss over the period necessary to match them with the costs that they are intended to compensate.

2.3.6 Interest income

Interest income is recognised using the effective interest method.

3 FINANCIAL RISK MANAGEMENT

3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk and fair value and cash flow interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

Management regularly manages the financial risks of the Group. Because of the simplicity of the financial structure and the current operations of the Group, no hedging activities are undertaken by management.

(a) Market risk

(i) *Foreign exchange risk*

The Group operates principally in Hong Kong and Mainland China and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to United States dollar ("USD") and Renminbi ("RMB"). Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities. The Group does not hold or issue any derivative financial instruments to manage its exposure to foreign currency risk.

Majority of the revenue generated, and cost incurred from the local operations are primarily transacted in local functional currency and therefore foreign exchange transactional risks are minimal.

Management manages its foreign exchange risks by performing regular review and monitoring its foreign exchange exposure. Management is of the view that the Group's exposure to US\$ is minimal since HK\$ is pegged to the US\$.

As at 31 December 2025 and 2024, if HK\$ had weakened/strengthened by 5% against RMB, with all other variables held constant, post-tax loss for the year would have been HK\$368,000 and HK\$1,251,000 higher/lower, respectively, mainly as a result of foreign exchange losses/gains on translation of foreign currency-denominated non-derivative financial assets and liabilities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3 FINANCIAL RISK MANAGEMENT *(continued)*

3.1 Financial risk factors *(continued)*

(a) Market risk *(continued)*

(ii) Fair value and cash flow interest rate risk

As at 31 December 2025 and 2024, except for bank borrowings and cash at bank, the Group is substantially independent from changes in market interest rates and the Group has no other significant interest bearing assets and liabilities.

The management considered that fluctuation of interest rates will not result in significant impact the Group's performance as the net assets that are subjected to variable interest rates are insignificant.

(b) Credit risk

The Group is exposed to credit risk in relation to its trade receivables, contract assets, deposits and other receivables, amounts due from related companies time deposits and cash and cash equivalents. The Group's maximum exposure to credit risk is the carrying amounts of these financial assets.

The credit risk on cash and cash equivalents are limited because cash are placed in banks with sound credit ratings.

The Group is exposed to concentration of credit risk as at 31 December 2025 that other receivables, contract assets and trade receivables which totalled approximately HK\$17,358,000 (2024: HK\$67,814,000) and HK\$39,699,000 (2024: HK\$39,143,000) respectively were due from the Group's top customer and a related party of that customer. These balances accounted in total for 24% (2024: 36%) of the total assets of the Group. The management considered the business relationship and the historical settlement pattern by the customer, as well as the inventory pledged for the other receivables, that the credit risk is manageable.

Receivables are written-off when there is no reasonable expectation of recovery.

Loss allowance for trade receivables and contract assets

The Group applied the simplified approach in HKFRS 9 to measuring expected credit loss which uses a lifetime expected credit loss for trade receivables and contract assets. Except for trade receivables and contract assets with known insolvencies or significant outstanding balances which are assessed individually, the Group determines the expected credit loss on the remaining balances by using a provision matrix grouped by common risk characteristic.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3 FINANCIAL RISK MANAGEMENT (continued)

3.1 Financial risk factors (continued)

(b) Credit risk (continued)

Measurement of expected credit loss

The expected loss rates are based on the payment profiles of sales over a period of 36 months and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Group has identified the unemployment rate of the countries in which it sells its goods and services to be the most relevant factors, and accordingly adjusts the historical loss rates based on expected changes in these factors.

3.1 Financial risk factors *(continued)*

(b) Credit risk *(continued)*

Other financial assets at amortised cost

The Group adopts general approach for other financial assets at amortised cost. The Group determines that there is significant increase in credit risk when there are contractual payments past due more than 30 days or other qualitative factors. The Group considers that these financial assets have not significantly increased in credit risk from initial recognition, expect for certain other receivables. These financial assets are classified in stage one and only consider 12-month expected credit losses. Considering the history of default, financial position of these debtors and forward looking factor, the expected credit loss is immaterial.

As at 31 December 2025, other receivables include an amount with a gross carrying amount of HK\$69,520,000 (2024: HK\$69,990,000) related to the consideration receivables from the sales of “Bath’N Duck” trademarks.

In 2022, the Group disposed of the “Bath’N Duck” trademarks to an independent third party (the “Buyer”) for a total consideration of HK\$88,000,000 (the “Sales of Trademarks”) which the Buyer is also the largest shareholder of the Group’s top customers (the “Guarantor”) over the years. In connection with the Sales of Trademark, the Guarantor has provided a corporate guarantee for the full consideration and the agreement of the Sales of Trademarks also included other protective rights for the Group in the event of default, details of which have been disclosed in the announcement made by the Company on 27 December 2022.

Pursuant to the agreement of the Sales of Trademarks, the consideration would be settled in instalments. After an initial payment of HK\$8,800,000 was made in early 2023, the repayment schedule was subsequently revised in December 2023 (“Revised Repayment Schedule”) by mutual agreement as a relief to the Buyer in view of the impact of the COVID-19 pandemic to their respective businesses.

(b) Credit risk *(continued)*

Other financial assets at amortised cost (continued)

The Buyer settled the first instalment of HK\$6,000,000 in accordance with the Revised Repayment Schedule in 2024. However, per the Revised Repayment Schedule, the Buyer was supposed to settle HK\$14,000,000 on 30 June 2025 which the Buyer was not able to pay HK\$2,000,000, which has constituted an event of default..

Based on the discussion between the management and the Buyer, the default is primarily attributed to Buyer's decision to delay the planned launch of a new product line utilizing the "Bath'N Duck" trademark, due to unfavorable market conditions. The directors have considered the significant and long-standing business relationship with the Guarantor, being the Group's top customer over the years. After careful consideration, the directors concluded that it is in the best interest of the Group not to pursue legal proceedings or exercise the other protective rights as stipulated in the agreement of the Sales of Trademarks at this stage. Nevertheless, the management is actively pursuing settlement and there is no revised repayment schedule being agreed as at the date of this report. Subsequent to year end and before the date of this report, the Buyer has further settled HK\$2,800,000 in relation to the outstanding balance.

Due to the default of the Buyer and the outstanding balance become overdue by more than 90 days as at 31 December 2025, the unsettled receivables arising from the Sales of Trademarks have therefore been classified as credit-impaired (Stage 3) based on the assessment by the directors. Consequently, the Group has recognised a lifetime expected credit loss (ECL) provision of HK\$52,162,000 (2024: HK\$2,176,000) against this receivable. The ECL was measured by estimating the present value of all cash shortfalls over the remaining life of the receivable, reflecting a range of possible outcomes.

(c) Liquidity risk

The Group measures and monitors its liquidity through the maintenance of prudent ratio regarding the liquidity structure of the overall assets, liabilities, loans and commitments of the Group. The Group also maintains a prudent level of liquid assets and committed banking facilities to ensure the availability of sufficient cash flows to meet any unexpected and material cash requirements in the ordinary course of business.

The directors of the Company have given careful consideration to its available liquid assets and sources of financing in assessing whether the Group will have sufficient financial resources to support its operation. As at 31 December 2025, the Group had net current assets HK\$59,873,000 and cash and cash equivalents of approximately HK\$58,848,000. Furthermore, the Group has completed a place of new shares subsequent to 31 December 2025 (Note 35). Therefore, the directors of the Company concluded that there are sufficient resources for the Group to meet its liabilities as they fall due and carry on its business without a significant curtailment of operations in the twelve months from 31 December 2025.

The following tables show the remaining contractual maturities at the end of the reporting period of the Company's financial liabilities based on contractual undiscounted cash flows and the earliest date the Company can be required to pay. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

The table below summarises the maturity analysis of bank borrowings with a repayment on demand clause based on agreed scheduled repayments set out in the loan agreements. The amounts include interest payments computed using contractual rates. Taking into account the Group's financial position, the directors do not consider that it is probable that the bank will exercise its discretion to demand immediate repayment. The directors believe that such term loans will be repaid in accordance with the scheduled repayment dates set out in the loan agreements.

3.2 Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may return capital to shareholder, issue new shares or sell assets to reduce debt.

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current and non-current borrowings' as shown in the consolidated statement of financial position) less cash and cash equivalents. Total capital is calculated as 'equity', as shown in the consolidated statement of financial position, plus net debt.

As at 31 December 2025 and 2024, the amount of cash and cash equivalents (including time deposits with original maturity over three months) exceeded that of total borrowings, the Group was at a net cash position. Thus, the gearing ratio is not applicable.

3.3 Fair value estimation

(a) Fair value hierarchy

Financial assets and financial liabilities measured at fair value in the consolidated statements of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level I that are observable for the asset or liability, either directly or indirectly.

Level 3: unobservable inputs for the asset or liability.

The carrying amounts of the Group's current financial assets, including trade and other receivables, amounts due from related parties, cash and cash equivalents, restricted cash and; current financial liabilities, including trade payables, other payables and accruals and borrowings, approximate their fair values as at the reporting date due to their short term maturities. The carrying value of non-current financial assets and liabilities approximate its fair value as at the reporting date.

The following table presents the Group's assets that are measured at fair value

	2025 HK\$'000	2024 HK\$'000
Recurring fair value measurements		
Level 3:		
Financial assets at fair value through profit and loss	10,016	9,000

There were no transfers of financial assets between the fair value hierarchy classification during the years ended 31 December 2025 and 2024.

3 FINANCIAL RISK MANAGEMENT (continued)

3.3 Fair value estimation (continued)

(b) Fair value measurement using significant unobservable inputs (Level 3)

Specific valuation techniques used to value financial instruments include:

- Discounted cash flow model and unobservable inputs mainly including assumptions of expected future cash flows and discount rate; and
- A combination of observable and unobservable inputs, including risk-free rate, discount rate, discount rate for lack of marketability, market multiples, etc.

Level 3 instruments of the Group's assets include unlisted equity investment.

The following table summarises the quantitative information about the significant unobservable inputs used in Level 3 fair value measurements:

Description	Fair value as at 31 December 2025 HK\$'000	Valuation technique	Unobservable input	Range of inputs	Relationship of unobservable inputs to fair value
Interests in unlisted equity	10,016	Discounted cash flow	Discount rate	20.04%	The higher the discount rate, the lower the fair value
			Growth rate	2.0%	The higher the growth rate, the higher the fair value

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The Group makes estimates and judgements concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and judgements that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(a) Revenue recognition

Revenue from provision of licensing services is recognised over time when the Group grants licensees the right to use the trademarks created, developed and registered by the Group. Revenue from provision of design consultation services is recognised over the period that the services are provided.

For contracts that include multiple performance obligations, the transaction price is allocated to the performance obligations on a relative stand-alone selling price basis. Management estimates the stand-alone selling price at contract inception based on observable prices of the services rendered in similar circumstances to others.

(b) Impairment of other receivables, trade receivables and contract assets

Provision for expected credit loss is made when the Group is not expected to collect all amounts due. The provision is determined by grouping together debtors with similar risk characteristics and collectively, or individually assessing them for likelihood of recovery. The provision matrix is determined based on the Group's historical observed default rates over the expected life of the trade receivables with similar credit risk characteristics and is adjusted for forward-looking estimates. In making the judgement, management considers reasonable and supportive forwarding-looking information available such as actual or expected significant changes in the operating results of customers and actual or expected significant adverse changes in business and customers' financial position. At every reporting date the historical observed default rates are updated and changes in the forward-looking estimates are analysed by the Group's management.

(c) Net realisable value of inventories

Net realisable value of inventories is the estimated selling prices in the ordinary course of business, less estimated selling expenses. These estimates are based on the current market condition and the historical experience of selling products of similar nature. It could change significantly as a result of changes in economic conditions in places where the Group operates and changes in customer taste and competitor actions in response to changes in market conditions. Management reassesses these estimates at each statement of financial position date.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS *(continued)*

(d) Fair value measurement of financial assets at fair value through profit or loss

The Group recognised the financial assets at fair value at recognition date as well as at each subsequent recording date. The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Group uses its judgment to select methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. Changes in these assumptions and estimates could materially affect the respective fair value of these financial instruments.

(e) Share-based payments

Judgement is exercised in the assessment of the fair value of the share-based payments to employees. In making its judgement, management considers the nature of services received and a wide range of factors such as the share price of the Company and other market performance conditions and non-vesting conditions.

(f) Income taxes

The Group is subject to income taxes in Hong Kong and the Mainland China. Significant judgement is required in determining the provision for income taxes. There are certain transactions and calculations for which the ultimate tax determination is uncertain. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred income tax assets and liabilities in the period in which such determination is made. Deferred income tax assets relating to certain temporary differences and tax losses are recognised when management considers it is likely that future taxable profits will be available against which the temporary differences or tax losses can be utilised. When the expectations are different from the original estimates, such differences will impact the recognition of deferred income tax assets and income tax charges in the period in which such estimates have been changed.

(b) Segment information

The directors have been identified as the CODM of the Group who review the Group's internal reporting in order to assess performance and allocate resources. The directors regard the Group's business as two reporting segments based on respective revenue and segment results, being profit after tax before unallocated expenses for the purposes of allocating resources and assessing performance. These reports are prepared on the same basis as these consolidated financial statements. Information relating to segment assets and liabilities are not disclosed as such information not regularly reported to the CODM.

The CODM identifies two reportable segments considering the nature of products and services, namely Character licensing and E-commerce and other. The Character licensing business is mainly engaged in the provision of licensing services and design consultation services, whilst E-commerce and other business is mainly engaged in the trading of licensed brand products through online platforms and offline channels.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

11 LOSS PER SHARE

The calculation of the basic and diluted loss per share is as follows:

(a) Basic

Basic losses per share is calculated by dividing the loss attributable to equity holders of the Company by the weighted average number of ordinary shares in issue during the years ended 31 December 2025 and 2024.

There were no shares repurchased and cancelled or repurchased under Share Award Scheme for the year ended 31 December 2025 that were accounted at a time portion basis (2024: 19,007,000 shares repurchased and 8,244,000 shares repurchased under Share Award Scheme).

	For the year ended 31 December	
	2025	2024
Losses attributable to holders of the Company (HK\$'000)	(87,700)	(46,404)
Weighted average number of ordinary shares in issue	951,464,142	944,139,227
Basic losses per share (expressed in HK cents per share)	(9.2)	(4.9)

(b) Diluted

For the year ended 31 December 2025, the Company had potential ordinary shares being share awards (2024: same).

Diluted loss per share presented for the year ended 31 December 2025 is the basic loss per share as the inclusion of the potential ordinary shares in the calculation of dilutive loss per share would be anti-dilutive.

12 DIVIDEND

The Board has resolved not to propose any final dividend in respect of the year ended 31 December 2025.

24 CAPITAL RESERVE AND OTHER RESERVES (*continued*)

Note a – Capital reserve

Capital reserve as at 1 January 2021 and 31 December 2021 arose from the issuance of shares to the then shareholders of a subsidiary now comprising the Group during the year ended 31 December 2016. During the year ended 31 December 2021, capital reserve and combined capital amounted the net asset value of the subsidiaries acquired by the Company pursuant to the Reorganisation were reclassified to share capital and share premium of the Company.

Note b – Statutory reserve

Pursuant to the Mainland China regulations and respective Articles of Association, subsidiaries incorporated in the Mainland China incorporated company are required to transfer 10% of its profit for the year, as determined under the Mainland China Accounting Regulations, to a statutory common reserve fund until the fund balance exceeds 50% of their registered capital. The statutory common reserve fund can be used to offset previous years' losses, if any, and to increase capital.

Note c – Shares held for Share Award Scheme

The Board has appointed a Trustee to implement a Shares repurchase program to purchase a total of 32,700,000 shares on the market during the period from 13 September 2022 to 2 November 2023, for the purpose of the Share Award Scheme.

During the year ended 31 December 2025, the Trustee did not purchase any shares (2024: 8,244,000 shares repurchased for a consideration of HK\$9,660,000) including all related expenses and 8,560,000 shares were vested and transferred to the vestee (2024: Nil shares). As at 31 December 2025, there are in total 32,384,000 (2024: 40,944,000) shares held under the Trust.

25 SHARE AWARD SCHEME

Futu Trustee Limited, a company incorporated in Hong Kong and authorised to undertake trust business in accordance with the laws of Hong Kong, was appointed as the trustee (the “**Trustee**”) for the administration of the share award scheme (“**Share Award Scheme**”).

The aggregate number of shares granted by the Group (“**Awarded shares**”) currently permitted to be awarded under the Share Award Scheme is limited to 10% of the issued share capital of the Company to be refreshed automatically from time to time.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

25 SHARE AWARD SCHEME (*continued*)

Under the Share Award Scheme, the (i) employees of the Group; (ii) employees of holding companies, fellow subsidiaries or associated companies of the Company; and (iii) any persons who provide services to any members of the Group on a continuing or recurring basis in its ordinary and usual course of business (“**Eligible Participant**”) may be selected by the Board to participate in the share award scheme.

The Board may, from time to time, select any Eligible Participant for participation in the Share Award Scheme as a Selected Participant, and grant such number of Awarded Shares to any Selected Participant at no consideration and in such number and on and subject to such terms and conditions as it may in its absolute discretion determine.

The Trustee holds the shares for the benefits of the Selected Participants before the share awards are vested.

When a Selected Participant has satisfied all vesting conditions, which might include service and/or performance conditions, specified by the Board at the time of making the award and become entitled to the shares of the Company forming the subject of the award, the Trustee shall transfer the relevant vested Awarded shares to that Selected Participant employee at no cost.

The Trustee shall not exercise the voting rights in respect of any shares of the Company held under the Trust, including, inter alia, the Awarded shares and further shares of the Company acquired out of the income derived therefrom.

On 31 October 2023, 14,608,000 Awarded Shares were granted to the Selected Participants.

The fair value of the share awards was calculated based on market price of the Group’s shares at the respective grant date. The Group recognised an expense of approximately HK\$4,246,000 (2024: HK\$5,899,000) for the year ended 31 December 2025 in relation to share awards granted by the Company.

30 REDEMPTION LIABILITIES

During the year ended 31 December 2025, B.Duck Semk Tourism (Shenzhen) Co., Ltd. (“Semk Tourism (Shenzhen)”), a subsidiary of the Company, entered into an agreement with a third party, Wuxi Binhu NISCO Xingbo Venture Capital Partnership Enterprise (Limited Partnership) (“NISCO Xingbo”), a limited partnership of which the fund manager is a subsidiary of Fosun International Limited, to establish the Wuxi Binhu Sindo Cultural Tourism Development Co., Ltd. (“Wuxi Binhu Tourism”). Pursuant to the agreement, the subsidiary and NISCO Xingbo made capital contributions of RMB22,500,000 and RMB15,000,000, respectively.

Under the terms of the agreement, NISCO Xingbo holds put options that, upon the occurrence of certain events, unconditionally require the Company and/or Semk Tourism (Shenzhen) to purchase all of NISCO Xingbo’s equity interest in Wuxi Binhu Tourism.

The exercise price of these options is based on formulas designed to return NISCO Xingbo’s paid-in capital (RMB15,000,000) plus a return, generally calculated at 6% per annum, less any distributions received.

As at 31 December 2025, the financial liability was initially measured at RMB15,000,000 (equivalent to HK\$16,607,000), representing the present value of the redemption amount. This was recorded as a non-current liability with a corresponding charge to other reserves within equity.

34 LITIGATION

In May 2021, a third party (the “**Claimant**”) has lodged a claim to seek compensation of RMB55,000,000 (equivalent to approximately HK\$59,393,000), with the allegation of the Group and a retailer of the Group’s licensed products (the “**Licensee**”) for causing unfair competition and infringement of certain registered trademarks (the “**Claimant’s Trademarks**”) by sales of kitchen utensils, towels, and shoes and apparels bearing the trademarks of the Group (the “**Alleged Trademarks**”), which were alleged to be similar to the Claimant’s Trademarks.

Judgement of the first hearing from the Jiangsu Suzhou Intermediate People’s Court (the “**Judgement**”) on 30 December 2022 held that the Group and the Licensee were liable to pay sums of RMB6,000,000 and RMB1,000,000 respectively (equivalent to approximately HK\$6,479,000 and HK\$1,080,000 respectively) for damages to the Claimant.

On 19 January 2023, the Group has lodged an appeal (the “**Appeal**”) against the Judgement. During 2023, the Claimant’s Trademarks were invalidated by the China National Intellectual Property Administration and the Claimant’s appeal against the invalidation claim has been rejected in June 2024. Based on the opinion from the legal advisors of the Group, there is a high probability that the Judgement can be overturned.

On 21 December 2025, the Jiangsu Higher People’s Court issued a final ruling (the “**Final Ruling**”), setting aside the first-instance judgement rendered by the Jiangsu Suzhou Intermediate People’s Court on 30 December 2022, and granting the Claimant’s withdrawal of the lawsuit. As a result, the case has been concluded with the Claimant’s withdrawal, and the Group’s and the Licensee’s liabilities for compensation under the case have been discharged.
