畅捷通信息技術股份有限公司

CHANJET INFORMATION TECHNOLOGY COMPANY LIMITED*

(A joint stock company incorporated in the People's Republic of China with limited liability)

(Stock Code: 1588)

ANNOUNCEMENT ON FINANCIAL INFORMATION FOR THE FIRST QUARTER OF 2026

This announcement is made by Chanjet Information Technology Company Limited (the "**Company**") pursuant to Rule 13.09(2)(a) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

The controlling shareholder of the Company, Yonyou Network Technology Co., Ltd., will announce its unaudited first quarterly results for the three months ended 31 March 2026 (the "**Reporting Period**") on the Shanghai Stock Exchange on 25 April 2026, which include the unaudited financial information of the Company and its subsidiaries (the "**Group**") for the Reporting Period. In order to ensure that all shareholders of the Company have fair and timely access to the information of the Company, the Company hereby announces the following unaudited financial information prepared under the Accounting Standards for Business Enterprises issued by the Ministry of Finance of the People's Republic of China.

During the Reporting Period, the Group achieved operating revenue of RMB267.54 million, representing an increase of 13% as compared with the same period of last year, of which revenue generated from cloud subscriptions was RMB200.66 million, representing an increase of 17% as compared with the same period of last year. Revenue generated from cloud subscriptions accounted for 75% of the total revenue of the Group. The Group recorded a net profit attributable to shareholders of the parent of RMB19.10 million, representing an increase of 3% compared to the net profit of RMB18.61 million in the same period of last year, which was mainly due to that (i) the Group firmly advanced the "AI-foremost" strategy, continuously enhanced product competitiveness, and vigorously expanded of market coverage, resulting in sustained revenue growth; and (ii) the research and development expenses increased by RMB7.77 million compared to the same period of previous year, mainly because some research and development expenditures in the same period of previous year met the conditions for capitalization and were capitalized, while this project ended capitalization in June 2025. During the Reporting Period, all related research and development expenses were fully expensed.

As at 31 March 2026, the total assets of the Group were RMB1,940.02 million, representing an increase of 2% as compared with RMB1,893.69 million at the end of last year.

During the Reporting Period, the Group continued to focus on the two major fields of digital intelligent finance and taxation and digital intelligent business for micro and small scale enterprises ("**MSEs**"). Firmly adhering to the principle of customer success, the Group deeply implemented the "AI-foremost" strategy, accelerated the global development, enhanced the intelligence of products and strengthened their competitiveness, firmly committed to ecological co-prosperity, transitioning from application services to ecological platform services, promoted the scalable development of businesses, and continuously enhanced operating efficiency and profitability.

At the product level, the Group has developed a new Agentic-ERP architecture based on AI-native and agent technologies, and launched "CClaw (暢龍蝦)", an enterprise-grade AI Agent designed specifically for MSEs. The Group has also established a commercial system for the AI power center, which will adopt a value-added service model featuring a comprehensive "MCP+TOKEN" billing. "CClaw" can autonomously plan, invoke, and execute relevant services based on the needs of MSEs, helping them achieve comprehensive AI-driven upgrades in digital intelligent finance and taxation, as well as digital intelligent business. In the field of digital intelligent finance and taxation, Chanjet Easy Accounting Agent (易代賬) has released a new version, completing four major capability upgrades: intelligent bookkeeping, automated tax filing, intelligent compliance and intelligent profit mining, effectively helping bookkeeping firms improve efficiency, control risks, and increase revenue. In the field of digital intelligent business, "CClaw" has been launched for core products such as T+Cloud, Chanjet Good Business and Finance (好業財), and Good Business (好生意). Leveraging its capabilities for independent planning and rapid orchestration, it has significantly enhanced the intelligence level of these products.

At the marketing level, the Group has continued to vigorously expand channel network layouts through distribution channels to build a diversified distributor network on a large scale. The Group has continued to promote digital marketing and refined operation solutions based on AI technology, improved the capability of value-added distribution service providers to acquire and convert business opportunities, thereby driving steady business growth and supporting the digital intelligent transformation and upgrading of MSEs. In the direct sales channel, the Group has deepened the full-chain implementation of AI empowerment to build integrated growth capabilities. Through multi-channel collaboration, the Group has continuously enhanced the quality of business opportunities, promoted customer stratified operation and differentiated conversion paths, optimized transaction efficiency, gradually increased the proportion of high average sales price business, optimized business structure, and ensured sustained and rapid business growth. In the cooperative sales channels, the Group has deepened collaborative development with strategic ecosystem partners to achieve mutual empowerment and jointly elevate customer value. The Group has continued to strengthen in-depth cooperation with strategic partners such as IaaS service providers, telecom operators, banks, and industrial internet platforms. Through joint solutions involving product integration and capability embedding, the Group promotes the large-scale implementation of digital intelligent finance and taxation, as well as digital intelligent business. At the same time, the Group continues to expand the scale with low/zero-code developers and ISV ecosystems, strengthen product integration and scenario

co-creation, and launches a new CLI (Command-Line Interface) tool. This tool will encapsulate over 1,000 functional points across the entire product line of Chanjet into a simple and intuitive CLI, enhancing AI invocation capabilities and expanding the new ecosystem of the AI era.

During the Reporting Period, the number of new paying enterprise users of the Group's cloud service business was over 61,000, representing an increase of 38% as compared with the same period of last year. As of the end of the Reporting Period, the number of accumulated paying enterprise users of cloud service business reached 1,022,000. The board of directors of the Company considers that the overall business operation of the Group has maintained a sound momentum of development.

The financial information for the Reporting Period in this announcement is prepared based on the consolidated management accounts of the Group which are neither audited nor reviewed by the auditors of the Company. **Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.**

On behalf of the Board
