FUTURE OUTLOOK AND BUSINESS STRATEGIES

Shanxi Province is one of the economically underdeveloped provinces in China where higher education resources in the province are relatively scarce. It is however growing at a rapid rate. The private higher education industry in Shanxi Province is also growing rapidly. In 2021, one independent college in Shanxi Province was transformed to become a public higher education institution according to the “Report of Department of Education of Shanxi Province on the Transfer of Independent Colleges” (《山西省教育廳關於全省獨立學院轉設的報告》) and “Jiaofahan (2021) No. 10” document. After an adjustment period to this transformation of independent colleges, the total revenue of private higher education providers in Shanxi Province is expected to maintain steady growth. The Group believes that it can benefit from the increasing demand for private higher education.

The Group intends to continue to expand its business and school network. To achieve such goals, the Group plans to pursue the following business strategies: (i) increase the College’s capacity and student number and improve the teaching and living environment by building new facilities; (ii) expand operations through acquisition; (iii) further improve and diversify the College’s curriculum offerings and course design and continue to provide practical training to students; (iv) expand the scope of educational service offerings to capture additional growth opportunities; and (v) continue to build and improve highly qualified teaching team.

With a view to creating synergies with the College in China and complying with the Qualification Requirement as further described in the section headed “Contractual Arrangements” in the prospectus of the Company dated 30 June 2021 (the “**Prospectus**”), the Group also plans to expand its network abroad by establishing a degree-granting higher education institution in the State of California in the United States (the “**US School**”) offering bachelor of science in business administration programme and bachelor of science in marketing programme. The Group engaged an agent, who is principally engaged in education consultancy and California Bureau for Private Postsecondary Education (the “**BPPE**”) licensing services, to assist the Group in establishing General Business University of California Incorporated, the operating entity for the US School, and filing applications with the BPPE regarding the establishment of the US School in June 2021.

On 30 January 2024, the Company was notified by the BPPE that, in accordance with the California Private Postsecondary Education Act, the California Education Code (CEC) and California Code of Regulations, Title 5 (5CCR), the Company’s application to operate a degree-awarding higher education institution in California, USA, was rejected. We are still in the process of looking for appropriate new agents to assist us, while the Company does not believe the rejection will pose any significant adverse impact to the Company.

LATEST REGULATORY DEVELOPMENTS

Pursuant to the Decision on Amending the Law for Promoting Private Education of the PRC (《關於修改〈中華人民共和國民辦教育促進法〉的決定》) (the “**2016 Decision**”), which became effective on 1 September 2017, private schools will no longer be classified as either schools for which the school sponsor(s) require reasonable returns or schools for which the school sponsor(s) do not require reasonable returns. Instead, the school sponsor(s) of a private school may choose for the school to be a for-profit private school or a non-profit private school, with the exception that the schools providing compulsory education must be non-profit. The school sponsors of for-profit private schools are allowed to receive income from the operation of the school and the balance of running such schools. By contrast, the school sponsors of non-profit private schools are prohibited from receiving income from the operation of the school and the balance of running such schools shall be only used for the operation of the schools. In addition, for-profit private schools are entitled to have discretion in determining the fees collected from the students in accordance with the market conditions while the fee collection of non-profit private schools shall be subject to provincial government regulation. For details of the 2016 Decision, including the key differences between a for-profit private school and a non-profit private school under the 2016 Decision, please see “Regulatory Overview – Regulations on Private Education in the PRC – The Law for Promoting Private Education and the Implementation Rules for the Law for Promoting Private Education” of the Prospectus.

On 11 July 2018, the General Office of the People’s Government of Shanxi Province promulgated Several Opinions of the General Office of People’s Government of Shanxi Province on Supporting and Regulating the Development of Education by Social Forces and Promoting the Healthy and Orderly Development of Private Education (《山西省人民政府辦公廳關於支援和規範社會力量興辦教育促進民辦教育健康有序發展的若干意見》), according to which, school sponsors can freely elect to establish for-profit schools or non-profit schools with the exception that private schools providing compulsory education must be non-profit. Sponsors of non-profit private schools do not obtain school operating income, and operating balances are all used for running schools; for-profit private schools sponsors can obtain school operating income, and distribution of the school balances are based on relevant state regulations. Private schools which provided education services other than compulsory education and were approved for establishment before 7 November 2016 can freely elect to establish for-profit schools or non-profit schools.

On 30 December 2019, the Department of Education of Shanxi Province, the Department of Human Resources and Social Security of Shanxi Province, the Department of Civil Affairs of Shanxi Province, the Office of the Organisation Committee of Shanxi Province and the Administration for Market Regulation of Shanxi Province jointly issued the Implementation Measures of Classified Registration of Private Schools in Shanxi Province (《山西省民辦學校分類登記實施辦法》) (the “**Shanxi Measures**”), which includes the requirements and procedures of approval for establishment, classified registration, change of registered events, termination and cancelation of registration, classified registration of existing private schools. For an existing private school, if it chooses to register as a non-profit private school, it shall amend its articles of association in accordance with the relevant laws, continue its school operation, and complete the new registration formalities; if it chooses to register as for-profit private

school, it shall make financial settlement, clarify the ownership of the schools' land, buildings and accumulations and pay the relevant taxes and fees, the capital contribution of the sponsor before the liquidation shall be the paid-in capital, the asset appreciation, school accumulation, creditor or debtor's rights and obligations shall be borne by the private school after the re-registration unless otherwise specified, the private school shall also apply for registering as a for-profit private school and obtain the permit for operating a private school, and then register with the local branch of the State Administration for Market Regulation.

On 30 December 2019, the Department of Education of Shanxi Province, the Department of Human Resources and Social Security of Shanxi Province and the Administration for Market Regulation of Shanxi Province jointly issued the Implementation Measures on the Supervision and Administration of For-Profit Private Schools of Shanxi Province (《山西省營利性民辦學校監督管理實施辦法》), which resembles the rules at the national level to a large extent.

According to the Notice on Further Standardising the Collection of Education Fees of Non-Profit Private Schools (《關於進一步規範非營利性民辦學校學歷教育收費的通知》), which was jointly promulgated by the Development and Reform Commission of Shanxi Province, the Department of Human Resources and Social Security of Shanxi Province and the Administration for Market Regulation of Shanxi Province on 29 October 2019, the education fees collected by non-profit private schools include tuition fees and boarding fees, and non-profit private schools can refer to the relevant regulations of public schools at the same level to provide students with optional service charge items and substitute charge items on the premise of students' willingness. For tuition fees and boarding fees, if they are included in the Shanxi Provincial Price Catalog, the fees are decided by the government, if not, the non-profit private schools can decide independently. Pursuant to the Implementation Measures on the Supervision and Administration of For-Profit Private Schools of Shanxi Province, the items and standards charged by for-profit private schools are determined independently by the school based on factors such as school cost and market demand and shall disclose to the public.

In the event that the College successfully registers as a for-profit private school, the potential impact of the 2016 Decision includes the following:

- the rights and interests of the sponsors of the College will be protected in more definitive and favourable ways: the 2016 Decision provides that the school sponsors of for-profit private schools can obtain the schools' operating profits, and the remaining assets upon liquidation after the settlement of the school's indebtedness in accordance with the PRC Company Law and other relevant laws and administrative regulations, and the standards and types of the fees should be publicised to the public and subject to supervision by relevant competent authorities;
- the College shall have the discretion to determine the amount of fees to be charged in accordance with the 2016 Decision. If the College is registered as a for-profit private school, the College would be entitled to make its own decisions about the standards and types of the fees to be charged by the College based on the College's operating costs and market demand;

- the College may enjoy support from certain PRC government policies: the 2016 Decision stipulates that the governments at or above the county level in the PRC can provide various policy support to for-profit schools, such as preferential tax policies and student loans;
- there may be increased uncertainty about the extent of the benefits to be provided by the government supporting measures: according to the 2016 Decision, while land will be supplied to non-profit private schools by the government through allocation or other means, for-profit private schools are not expected to enjoy the same treatment as public schools and non-profit private schools; and
- the College will be subject to the requirements of applying for re-registration: the 2016 Decision also requires that private schools choosing to register as for-profit schools shall carry out financial settlement procedures, clarify property ownership, pay the relevant taxes and fees, and re-apply for registration.

According to the Group's consultation with the Department of Education of Shanxi Province which is the competent authority to confirm such matters as advised by the PRC legal advisers, (i) before the College is elected to be a for-profit private school, the current articles of association of the College will continue to be legal, effective and enforceable, and the College can operate in accordance with it; and (ii) non-profit schools are expected to enjoy more favourable policies. As advised by the PRC legal advisers, despite the aforesaid implementing rules relating to 2016 Decision, there remain uncertainties in the interpretation and implementation of the 2016 Decision with respect to various aspects of the operations of a for-profit school and whether such implementation regulations would have any material adverse impact on the Group's business. In particular, (i) specific procedures regarding the conversion of an existing private school into a for-profit school have not yet been promulgated by local authorities in Shanxi Province; and (ii) specific conditions or requirements in respect of any preferential tax treatment and the treatment of the land use rights which for-profit schools may enjoy have not been promulgated by relevant authorities. In addition, there are uncertainties regarding the interpretation and enforcement of the 2016 Decision and relevant regulations by government authorities.

The Directors of the Group understand that the specific provisions have not yet been promulgated and there currently is no timeline for implementation. However, taking into account that (i) the College was legally established in 2004 and is validly existing under the current PRC laws, the Directors consider that the College's situation will be a factor to be taken into account when the local government formalises such specific provisions and it would be unlikely that they would impose any special provisions which the College would not be able to achieve.
