CHAIRMAN'S STATEMENT

To all Shareholders,

Thanks for your trust and support to Sundy Service Group Co. Ltd (the "**Company**", together with its subsidiaries, the "**Group**"). I am pleased to present the Group's audited annual results for the year ended 31 December 2025 (the "**Reporting Period**" or "**FY2025**") on behalf of the board (the "**Board**") of directors of the Company (the "**Directors**").

2025 marks the concluding year of China's 14th Five-Year Plan and a pivotal juncture for the real estate industry, as it undergoes a fundamental transition from old to new development models and from old to new growth drivers. Under the combined influence of policy guidance and market forces, China's real estate industry witnesses with a profound paradigm shift from incremental expansion to stock quality enhancement. Traditional residential development continues to contract, while urban renewal, which is exemplified by the redevelopment of old residential areas, revitalization of existing assets and industrial upgrading, has emerged as the core engine supporting industry stability and future growth. The real estate industry is gradually advancing toward a new stage of high-quality development that is people-centered and sustainably operated, exerting comprehensive and far-reaching impacts on the property management services industry. Against this backdrop, the Group has proactively aligned with the prevailing trends of industry transformation by continuously deepening the "Property+" strategy. We empower service upgrades through technology, drive asset value appreciation with professional expertise, focus on refined operations, and are committed to the primary objective of providing customer-centric premium service.

As at 31 December 2025, the Group had a total of 47 projects under management, with a total gross floor area (the "**GFA**") under management of 8.4 million sq.m. and a contracted GFA of 9.6 million sq.m. For the year ended 31 December 2025, the Group recorded revenue of RMB231.4 million. With the impact of expected credit loss (ECL), the profit for FY2025 was RMB17.4 million. The basic earnings per share of the Company (the "**Share**") was approximately RMB0.45 cents.

STEADY PROGRESS AND STRUCTURAL OPTIMIZATION

The Group remains firmly committed to deepening its presence in the Yangtze River Delta region by focusing on high-quality projects in core Yangtze River Delta cities, while continuously advancing the "One Body, Two Wings, Two Products (一體兩翼兩產品)" strategy. To promote refined operations, we are further optimizing our diversified lifestyle and urban services portfolio, including community-based elderly care, childcare, property management, housekeeping, catering, retail and other segments. In addition to fulfilling owners' existing needs, we are actively expanding into diversified businesses, innovating a broader range of services, and unlocking the latent value of community assets.

PROACTIVE SERVICES, QUALITY ENHANCEMENT

Adhering to the service philosophy of "Revitalise and beautify lives with its services" and the core development value of delivering premium services, the Group remains steadfastly customer-centric by reimagining the customer experience chain with the "Proactive Services" concept based on a standardized service system. This shifts our approach from passive response to anticipatory and forward-looking engagement, enabling us to offer owners a more diversified service experience, further elevate customer satisfaction and solidify our brand reputation.

DIGITAL INTELLIGENCE EMPOWERMENT, EFFICIENCY IMPROVEMENT

As deepening technology empowerment is clearly recognized as the inevitable trend for future development, the Group has consistently embraced the philosophy of integrating "Internet+" with "Property+". In value-added service ecosystems such as home living, property leasing and sales and community retail, the Group has integrated online and offline resources to enrich our portfolio of value-added products by utilization of digital intelligence. This allows owners to enjoy a seamless "one-click doorstep" service experience without leaving home, thereby boosting service efficiency and strengthening customer loyalty.

The Group will continue to uphold our original aspiration of providing premium services to customers, and relentlessly optimize service quality in strict compliance with national policy. Furthermore, the Group will adopt a proactive and resolute stance in expanding into new business domains, and will be poised for vibrant and sustained growth in this ever-changing market environment.

Lastly, on behalf of the Board, I would like to express my sincere gratitude to the shareholders and business partners of the Company who have always given support to the Group. Looking ahead, the Group will remain committed to actively expanding our business operations and improving our services, dedicated to delivering premium and diversified experiences for property owners while creating greater value for Shareholders.

Yu Yun
Chairman of the Board

Hong Kong, 31 March 2026

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is a reputable integrated property management service provider in the property management industry in Zhejiang province. Established in Hangzhou in 1995, the Group has three decades of experience in the property management service industry in the PRC. The Group is principally engaged in the provision of property management services, value-added services to non-property owners, community value-added services and other services. The Group's business covers a wide range of properties, including residential properties and non-residential properties, such as commercial office buildings, city complexes and industrial parks.

According to EH Consulting (億瀚智庫), the Group ranked 39th among the "Top 100 Chinese Property Service Enterprises" in 2025 in terms of comprehensive strength in property management. Additionally, we were honoured by EH Consulting with prestigious titles including "2025 Leading Enterprise in Competitiveness for Property Services in Hangzhou, China", "2025 Top 50 Best Employers in China's Property Management Industry" and "2025 Exemplary Employer in Hangzhou's Property Management Industry".

As at 31 December 2025, the Group had 21 subsidiaries and 27 branches covering 20 cities in the PRC, the majority of which are located in Zhejiang province, providing property management services to 47 properties, including 36 residential properties and 11 non-residential properties, with a total GFA under management of approximately 8.4 million sq.m. and a total contracted GFA of 9.6 million sq.m..

Note 1: Sundy Land Group includes Sundy Land Investment Co., Ltd.* (宋都基業投資股份有限公司) and its subsidiaries.

Value-added services to non-property owners

Value-added services to non-property owners covered development, construction, design and other processes of properties, which were mainly provided to non-property owners such as real estate developers. During the Reporting Period, the Group recorded RMB6.4 million, representing a decrease of 49.6% compared to RMB12.7 million in FY2024. The decrease was mainly due to the decrease in the number of the newly-entered real estate projects in the pipeline.

The Group benefited from the long-term cooperation with Sundy Land Group to acquire projects for value-added services to non-property owners. As at 31 December 2025, the recovered GFA was approximately 1.2 million sq.m..

Community value-added services

The Group actively developed community value-added services and created diversified life service scenarios based on the living needs of residents.

During the Reporting Period, the revenue from community value-added services reached RMB18.3 million, which was mainly from property repair and maintenance, waste cleaning, utility fee collection, community space services and retailing business.

Other business

The Group continued to operate Atour Hotel Hangzhou West Lake Hefang Street* (杭州西湖河坊街亞朵酒店) through its operating subsidiary, Hangzhou Sundy Jiahe Hotel Management Co., Ltd.* (杭州宋都嘉和酒店管理有限公司) ("**Sundy Jiahe**"). Revenue from the hotel business for FY2025 reached RMB18.9 million, which was primarily generated from hotel room charges, food services and sales of personal care products.

PROSPECTS

2025 represents a clear turning point for China's real estate industry. The property management industry has shifted from a model dominated by "scale first" to one that prioritises "quality and efficiency". In this challenging environment, the Group has proactively aligned with the prevailing industry trends by deepening our property services around the core values of "Professionalism, Quality, and Warmth", so as to strategically position itself amid evolving environment to identify and capture new growth opportunities.

Efforts will be dedicated to the following key areas:

CONTINUOUS OPTIMISATION OF MANAGEMENT MODELS

In 2026, we will implement the inverted pyramid management model, fundamentally reshaping the Company's organisational structure to empower frontline teams and bring resources closer to our customers. We will continue to place talent development at the core of our strategy, enhancing workforce capabilities, upgrading our talent pool, strengthening employee training programs and unlocking individual potential, thereby driving improvements in both quality and efficiency.

CONTINUOUS ELEVATION OF SERVICE QUALITY

The Group remains steadfastly customer-centric and focusing on responding to customer needs. We are strengthening three key service mindsets: proactive service anticipation, closed-loop accountability and lean operations excellence. Better service experience will be provided to customers due to the shift from passive response to anticipatory and forward-looking service delivery.

CONTINUOUS ADVANCEMENT OF DIGITAL AND INTELLIGENT EMPOWERMENT

The Group remains committed to deepening digital intelligence empowerment by rigorously implementing the strategy of integrating "Internet+" with "Property+". We will drive more precise and practical application of technology, actively explore innovative models such as human-machine collaboration, and achieve meaningful optimisation of operating costs and improvement of service experience.

FINANCIAL REVIEW

Revenue

In FY2025, the Group's revenue amounted to RMB231.4 million, representing a decrease of 6.5% as compared to RMB247.5 million in FY2024.

Property management services: Property management services primarily consist of security, cleaning, gardening, repair and maintenance of common areas and common facilities and ancillary services. The portfolio of the Group's managed properties comprises residential properties and non-residential properties. The Group recorded revenue of RMB187.8 million in FY2025, representing a year-on-year decrease of 4.3% as compared to RMB196.2 million in FY2024, accounting for 81.2% of the Group's total revenue in FY2025, which is the main source of revenue for the Group. The decline in revenue was mainly attributable to the reduction in the number of properties under management of the Group.

Value-added services to non-property owners: Value-added services to non-property owners are a range of value-added services the Group provides to non-property owners, primarily property developers. These services mainly include (i) consulting services, including advising property developers and property owners at the early and construction stages on project planning, design management and construction management; (ii) sales assistance services, which assist property developers in showcasing and marketing their properties, including display unit management and visitor reception for property development projects; and (iii) pre-delivery services, including unit cleaning before delivery, inspection services and security services for completed properties. The Group recorded revenue of RMB6.4 million in FY2025, representing a decrease of 49.6% as compared to RMB12.7 million in FY2024, accounting for 2.8% of the Group's total revenue in FY2025. The decrease in revenue was due to the continuing declining trend in the number of newly-entered real estate projects in the pipeline.

Community value-added services: Community value-added services are a spectrum of community value-added services the Group provides to customers, primarily property owners and residents, including property repair and maintenance, waste cleaning, utility fee collection, remodeling and decoration and community space services. The Group recorded revenue of RMB18.3 million in FY2025, representing a year-on-year decrease of 2.7% as compared to RMB18.8 million in FY2024, accounting for 7.9% of the Group's total revenue in FY2025. The revenue generated from community value-added services remained stable as compared with FY2024 as a result of the sustainable community value-added services to the projects under management.

Other businesses: Other businesses include our hotel business and long-term rental apartment business. The Group recorded revenue of RMB18.9 million in FY2025, representing a year-on-year decrease of 5.0% as compared to RMB19.9 million in FY2024, accounting for 8.1% of the Group's total revenue in FY2025. The slight decline in revenue from other businesses resulted from the impact of normal commercial competition in the field of the tourism industry.

Cost of sales

During the Reporting Period, the Group's cost of sales decreased by 13.9% from RMB190.1 million in FY2024 to RMB163.6 million in FY2025, primarily attributable to the Group's proactive exit from low-yield projects and the implementation of a revenue-driven cost management framework, which led to a reduction in project-related manpower and administrative expenses.

MANAGEMENT DISCUSSION AND ANALYSIS

Gross profit and gross profit margin

Based on the above factors, during the Reporting Period, the Group's overall gross profit increased by 18.1% from RMB57.4 million in FY2024 to RMB67.8 million in FY2025. The Group's gross profit margin increased by 6.1 percentage points from 23.2% in FY2024 to 29.3% in FY2025.

Gross profit of property management services increased by 34.0% from RMB35.6 million in FY2024 to RMB47.7 million in FY2025, and gross profit margin increased by 7.3 percentage points from 18.1% in FY2024 to 25.4% in FY2025, which was mainly due to the improvement of service quality, resulting from the enhancement of effective management of specific residential properties by the Group.

Gross profit of value-added services to non-property owners decreased by 62.9% from RMB7.0 million in FY2024 to RMB2.6 million in FY2025, and the gross profit margin decreased by 14.5 percentage points to 40.6% in FY2025 as compared to 55.1% in FY2024. Such decrease was mainly due to the decrease in the revenue from property management services with higher gross profit and pre-delivery services.

Gross profit of community value-added services grew by 27.6% from RMB9.8 million in FY2024 to RMB12.5 million in FY2025, and the gross profit margin increased by 16.2 percentage points from 52.1% in FY2024 to 68.3% in FY2025. The increase was mainly due to the expansion of business with higher gross profits.

Gross profit of other businesses decreased from RMB5.1 million in FY2024 to RMB5.0 million in FY2025, and the gross profit margin increased by 0.9 percentage points from 25.6% in FY2024 to 26.5% in FY2025. Such decrease was primarily attributable to the market volatility in the hotel industry.

Other income

During the Reporting Period, other income of the Group amounted to RMB0.7 million representing a decrease of 22.2% as compared to other income of RMB0.9 million in FY2024, which was mainly due to the decrease in income from government subsidies.

Selling and marketing expenses

The Group's selling and marketing expenses maintained steady at RMB1.1 million in FY2025.

Administrative expenses

During the Reporting Period, the Group's administrative expenses decreased by 17.8% from RMB28.1 million in FY2024 to RMB23.1 million in FY2025, mainly due to lower management fees.

Impairment loss on trade receivables

During the Reporting Period, the Group's impairment loss on trade receivables decreased from RMB19.8 million in FY2024 to RMB16.9 million in FY2025 by 14.6%. The decrease was primarily due to the decrease in the gross balance of trade receivables from third parties aged between two and three years as compared to the same period of last year.

Net finance income

During the Reporting Period, the Group's net finance income decreased from RMB2.0 million in FY2024 to RMB1.0 million in FY2025, primarily attributable to the decrease of interest income.

Share of profits and losses of an associate and joint ventures

During the Reporting Period, the Group recorded share of losses of its associate, namely Ningbo Hesheng City Service Development Co., Ltd.* (寧波和晟城市服務發展有限公司), of a total of approximately RMB153,000, mainly due to the downsizing of its scale of operations.

During the Reporting Period, the Group did not record share of profits/losses of its joint ventures, namely Hangzhou Honghe Environmental Engineering Co., Ltd.* (杭州宏合環境工程有限公司) and Ningbo Songjie Enterprise Management Partnership (Limited Partnership)* (寧波宋捷企業管理合夥企業(有限合夥)) ("**Ningbo Songjie**"), which was mainly due to the disposal of Ningbo Songjie during the Reporting Period.

Profit before tax

During the Reporting Period, the Group's profit before tax was RMB26.2 million, representing an increase of 111.3% from RMB12.4 million in FY2024, mainly due to the decrease in administrative expenses and costs.

Profit for the year

During the Reporting Period, the Group's profit for the year was RMB17.4 million, representing an increase of 123.1% from RMB7.8 million in FY2024.

Current assets, financial resources and current ratio

The Group maintained satisfactory financial position in FY2025. As at 31 December 2025, current assets were RMB527.9 million, representing a growth of 3.1% as compared with RMB511.9 million as at 31 December 2024, which was mainly due to the increase of trade and other receivables.

As at 31 December 2025, the Group's cash and cash equivalents were RMB139.3 million, representing a reduction of 20.4% as compared with RMB175.0 million for FY2024, which was mainly due to the subscription of wealth management products. The current ratio (calculated by dividing current assets by current liabilities) of the Group was 3.25 times as at 31 December 2025, which remained stable compared with the 3.27 times as at 31 December 2024.

As at 31 December 2025, the total equity of the Group was RMB410.6 million, as compared with RMB393.2 million as at 31 December 2024. This was mainly due to the growth in net profit and retained earnings.

Bank loans and other borrowings

During the Reporting Period, the Group did not have any bank loans or other borrowings.

Property, plant and equipment

As at 31 December 2025, the property, plant and equipment of the Group amounted to RMB9.4 million, representing a decline of 48.4% as compared with RMB18.2 million as at 31 December 2024, mainly due to the depreciation for the Reporting Period.

MANAGEMENT DISCUSSION AND ANALYSIS

Capital structure

There has been no change in capital structure of the Company during the year ended 31 December 2025. The capital of the Company comprises ordinary shares and other reserves.

Contingent liabilities

During the Reporting Period, the Group did not have any material contingent liabilities (31 December 2024: nil).

Treasury policy

To manage liquidity risk, the Board closely monitors the Group's liquidity position to ensure that the liquidity structure of the Group's assets, liabilities and other commitments can meet its funding requirements from time to time.

Pledged assets

As at 31 December 2025, the Group did not have any pledged assets (31 December 2024: nil).

Trade and other receivables

As at 31 December 2025, trade and other receivables amounted to RMB197.2 million, representing a growth of 15.8% as compared with RMB170.3 million as at 31 December 2024, mainly due to the growth of operations and the delayed settlement from third parties.

The table below sets forth the ageing analysis of trade receivables as at the dates indicated and the subsequent settlement of the trade receivables for the Reporting Period.

Total	**162,530**	142,551	5,468

In order to recover the long aged trade receivables, the Group has taken actions as below:

- For related parties (mainly members of Sundy Land Group), the Group regularly follows up with the corresponding units on the payment status and sends out reminders on a quarterly or semi-annual basis for trade receivables with longer ageing periods. Considering the long-term cooperations with Sundy Land Group and the fact that the Group has substantially benefited from such relationship to acquire various projects, as at the date of this report, the Group has no current plans to take out legal actions regarding such trade receivables. Meanwhile, the Group will continue to closely monitor the payment status and the recoverability of such trade receivables, and when necessary, for instance, if payment has not been settled according to the agreed schedule by the corresponding unit, the Group will consider and commence legal proceedings against the relevant related parties to recover the said trade receivables. The Group also actively negotiated with the related parties to deal with the receivables including but not limited to other payables covering the trade receivables and taking assets to cover the unpaid receivables.

- For third parties, based on the historical payment record of the customer(s) involved and the actual agreed payment date of the corresponding trade receivables, the Group has issued or will issue reminders to the customer setting out the deadline to settle the outstanding sum. If such customer does not settle the outstanding sum on or before the deadline, a formal demand letter will be issued. For those trade receivables which are not recovered after the said actions, the Group will commence legal proceedings accordingly. Taking into account the business nature of the Group, some independent third parties are property owners, according to industry practice, the Group also conducts regular activities to encourage such property owners to settle management fees in a timely manner, as well as report to the management the collection status of outstanding management fees on a daily basis.

Trade and other payables

As at 31 December 2025, trade and other payables amounted to RMB127.0 million, representing an increase of 3.3% as compared with RMB123.0 million as at 31 December 2024. This was mainly due to the increase in payables from related parties.

Human resources and remuneration policies

As at 31 December 2025, the Group employed a total of 402 employees (for the year ended 31 December 2024: 435 employees). During the Reporting Period, the staff costs of the Group were RMB53.4 million (2024: RMB60.7 million).

In determining remuneration of Directors and senior management of the Company, the Board will consider the level of skill, knowledge, involvement in the Group's affairs and performance of each Director, together with reference to the profitability of the Company, remuneration benchmarks in the industry, and prevailing market conditions.

The Group ensures that its employees are offered a competitive remuneration package. The Group had also adopted a share option scheme, details of which have been disclosed in the paragraph headed "Statutory and General Information – D. Other information – 1. Share Option Scheme" in Appendix IV of the prospectus of the Company dated 31 December 2020 (the "**Prospectus**").

MANAGEMENT DISCUSSION AND ANALYSIS

Significant investments, acquisitions and disposals

The Group's significant investments comprised wealth management products, details of which are set out below.

Wealth Management Product

a) As disclosed in the announcement of the Company dated 27 February 2025, Hangzhou Xingrun Enterprise Management Co., Ltd. ("**Hangzhou Xingrun**"), an indirect wholly-owned subsidiary of the Company, entered into a structured deposit product agreement with China Minsheng Bank Co., Ltd. ("**China Minsheng Bank**"), pursuant to which, Hangzhou Xingrun agreed to subscribe for a structured deposit product of RMB50.0 million from China Minsheng Bank by using the internal funds of the Group.

China Minsheng Bank is a commercial bank in the PRC, headquartered in Beijing. Its shares are listed on the Shanghai Stock Exchange (stock code: 600016). China Minsheng Bank is principally engaged in providing customers with various wholesale and retail banking products and services, and conducting capital businesses for itself and on behalf of customers.

The investment cost of the structured deposit product of China Minsheng Bank was RMB50.0 million. As disclosed in the announcement of the Company dated 29 May 2025, Hangzhou Xingrun redeemed the structured deposit product of China Minsheng Bank on 29 May 2025 and the total gain on investment in the structured deposit product of China Minsheng Bank was approximately RMB185,720.55 with an average annualised rate of return of approximately 1.51%.

b) As disclosed in the announcement of the Company dated 5 June 2025, Hangzhou Xingrun entered into a structured deposit product agreement with China Minsheng Bank, pursuant to which, Hangzhou Xingrun agreed to subscribe for a structured deposit product of RMB50.0 million from China Minsheng Bank by using the internal funds of the Group.

The investment cost of the structured deposit product of China Minsheng Bank was RMB50.0 million. c) As disclosed in the announcement of the Company dated 10 September 2025, Hangzhou Xingrun entered into a structured deposit product agreement with China Minsheng Bank, pursuant to which, Hangzhou Xingrun agreed to subscribe for a structured deposit product of RMB50.0 million from China Minsheng Bank by using the internal funds of the Group.

The investment cost of the structured deposit product of China Minsheng Bank was RMB50.0 million. Hangzhou Xingrun redeemed the structured deposit product of China Minsheng Bank on 11 December 2025 and the total gain on investment in the structured deposit product of China Minsheng Bank was approximately RMB229,788.44 with an average annualised rate of return of approximately 1.86%.

d) As disclosed in the announcement of the Company dated 22 December 2025, Hangzhou Xingrun entered into a structured deposit product agreement with China Minsheng Bank, pursuant to which, Hangzhou Xingrun agreed to subscribe for a structured deposit product of RMB24.8 million from China Minsheng Bank by using the internal funds of the Group.

The investment cost of the structured deposit product of China Minsheng Bank was RMB24.8 million. Hangzhou Xingrun redeemed the structured deposit product of China Minsheng Bank on 23 March 2026 and the total gain on investment in the structured deposit product of China Minsheng Bank was approximately RMB105,179.18 with an average annualised rate of return of approximately 1.78%.

The Company considers that the above structured deposit products generate a better return than letting its idle funds earn a fixed-term deposit interest with commercial banks in the PRC. Save as disclosed above, the Group did not hold any other significant investments, nor have any material acquisitions or disposals of subsidiaries, associates or joint ventures during the Reporting Period.

Foreign exchange risk exposure

The Group mainly operates its business in the PRC, and most of its business are conducted in RMB, and its exposure to foreign exchange risks is limited. However, as the proceeds from the listing of the shares of the Company (the "**Listing**") are denominated in Hong Kong dollar, the depreciation or appreciation of the Hong Kong dollar and interest rate adjustments will affect the performance of the Group. Therefore, the Group will closely monitor the exchange rate risks and interest rate risks involved, actively discuss foreign exchange hedging solutions with major banks, and use financial instruments to hedge the risks involved when necessary.

FINAL DIVIDEND

The Board does not recommend the payment of any final dividend for the year ended 31 December 2025 (2024: Nil).

(iii) held any directorship in any other public companies the securities of which are listed on any securities market in Hong Kong or overseas in the three years prior to the date of this report; and

(iv) have any interest in the Shares within the meaning of Part XV of the Securities and Futures Ordinance (Cap 571 of the Laws of Hong Kong) (the "**SFO**") or is a director or an employee of a company which has an interest or short position in the Shares and underlying shares of the Company.

Save as disclosed above, to the best of the knowledge, information and belief of the Directors after having made all reasonable enquiries, there were no other matters with respect to the appointment of the Directors that need to be brought to the attention of the Shareholders and there was no information relating to the Directors that was required to be disclosed pursuant to Rule 13.51(2) of the Listing Rules as at the date of this report.

SENIOR MANAGEMENT

Ms. CHEN Xiaomin (陳曉敏) ("Ms. Chen"), aged 47, is the chief financial officer of the Group. Ms. Chen joined the Group in June 2017, mainly responsible for the Group's financial management. Ms. Chen has 25 years of experience in accounting and finance field. From May 1999 to September 2003, she worked as an accounting supervisor at Greentown Property Service Group Co., Ltd. (綠城物業服務集團有限公司) (formerly known as Zhejiang Greentown Property Management Co., Ltd.* (浙江綠城物業管理有限公司)), a subsidiary of Greentown Service Group Co. Ltd.* (綠城服務集團有限公司) (a company listed on the Stock Exchange with stock code: 2869). From March 2008 to April 2015, she worked as an accounting manager at Zhejiang Boee Property Service Co., Ltd.* (浙江保億物業服務股份有限公司). From May 2015 to June 2017, she worked as an accounting manager at Hangzhou Landai Property Management Co., Ltd.* (杭州藍戴物業管理有限公司).

Ms. Chen graduated from Xi'an Jiaotong University majoring in accounting via online learning in December 2012.

REPORT OF DIRECTORS

The Board is pleased to present its report together with the audited consolidated financial statements of the Group for FY2025.

USE OF NET PROCEEDS FROM LISTING

Details of the use of net proceeds are set out in the paragraph headed "Management Discussion and Analysis – Use of Proceeds from the Listing and Future Plans for Material Investments or Capital Assets" on page 19 of this annual report.

PRINCIPAL BUSINESS

The Group is principally engaged in provision of property management services, value-added services to non-property owners, community value-added services and other businesses, namely hotel business in the PRC. The analysis of the Group's principal business during the Reporting Period is set out in Note 8 to the consolidated financial statements.

RESULTS

The results of the Group during the Reporting Period are set out in the consolidated statement of the profit or loss and other comprehensive income on page 104 of this annual report.

DIVIDEND POLICY

The Company has a dividend policy in effect. The Company may have the right to declare dividends in any currency to be paid to the Shareholders in general meeting in accordance with our dividend policy, but no dividend may be declared in excess of the amount recommended by the Board. The Articles of Association of the Company (the "**Articles of Association**") provides that dividends may be declared and paid out of profits of the Company, realised or unrealised, or from any reserve set aside from profits which the Directors determine is no longer needed. Subject to the Shareholders' approval by way of ordinary resolution and satisfaction of a solvency test, as prescribed in the Companies Act (As Revised) of the Cayman Islands, the Company may pay dividends and distributions out of its share premium account.

The Company will declare dividends, if any, in Hong Kong dollars with respect to its shares on a per-share basis and will pay such dividends in Hong Kong dollars. The amount of dividends actually distributed to Shareholders will depend upon its earnings and financial condition, operating requirements, capital requirements and any other conditions that the Directors may deem relevant and will be subject to the approval of the Shareholders save that an interim dividend may be paid by the Board if the Board is satisfied that such payment is justified by its profits.

BUSINESS REVIEW

Business review of the Group for the Reporting Period and the Group's prospects are set out in the sections headed "Chairman's Statement" and "Management Discussion and Analysis" on pages 6 to 10 of this annual report. The analysis of the Group during the Reporting Period using key indicators of financial performance is set out in the paragraph headed "Management Discussion and Analysis – Financial Review" on pages 11 to 17.

ENVIRONMENT POLICY AND PERFORMANCE

The Group recognises the importance of environmental protection and adopts stringent measures for environmental protection in order to ensure compliance with the prevailing environmental protection laws and regulations.

Given the nature of operations of the Group, the Group believes it is not subject to material environmental liability risk or compliance costs.

The Environmental, Social and Governance Report of the Company is set out in the sections headed "The Environmental, Social and Governance Report" on pages 61 to 98.

COMPLIANCE WITH RELEVANT LAWS AND REGULATIONS

The Company strictly complied with the following laws and regulations which may have a significant impact on its operations: (a) the laws and regulations relating to property management services: the laws, regulations and policies relating to qualifications of property management service companies, appointment, fees, outsourcing and long-term rental apartment business and hotel business; and (b) other significant laws and regulations of the PRC affecting the Group's business: the laws and regulations relating to foreign investment, foreign exchange, labour and social security, social insurance and housing fund, taxation, intellectual property, environment protection and fire control.

During the Reporting Period, there was no material breach of or non-compliance with the applicable laws and regulations by the Group.

None of the Directors has a service contract or a letter of appointment with the Group which is determinable by the Company within one year without the payment of compensation (other than statutory compensation).

DIRECTORS' INTERESTS IN TRANSACTIONS, ARRANGEMENTS OR CONTRACTS OF SIGNIFICANCE

Save as disclosed in the paragraph headed "Connected Transactions and Continuing Connected Transactions" in this annual report, during the Reporting Period, no Director had a material interest, either directly or indirectly, in any transaction, arrangement or contract of significance to the business of the Group to which the Company, any of its subsidiaries or fellow subsidiaries was a party.

MANAGEMENT CONTRACTS

No contracts concerning the management and administration of the whole or any substantial part of the business of the Company were entered into or existed during the Reporting Period.

EMOLUMENT POLICY

The primary duties of the Remuneration Committee are to make recommendations to the Board on the remuneration policies and structure for directors and senior management and on the establishment of a formal and transparent procedure for developing remuneration policies and to ensure that no director or any of his/her associates is involved in determining his/her own remuneration.

In determining remuneration of Directors and senior management of the Company, the Board will consider the remuneration level with reference to the skill, knowledge, involvement in the Group's affairs and performance of each Director, together with the profitability of the Company, remuneration benchmarks in the industry, and prevailing market conditions. Although climate-related considerations are not currently factored into our remuneration policies, our Board will consider when it is appropriate to include this factor on an annual basis.

Details of the emoluments of the Directors, and the five highest paid individuals during the Reporting Period are set out in Note 14 to the consolidated financial statements.

RETIREMENT AND EMPLOYEE BENEFITS SCHEME

Details of the retirement and employee benefits scheme of the Group are set out in Note 13 of the consolidated financial statements.

The Group is required to participate in a defined contribution scheme administered and operated by the local municipal governments (the "**Defined Contribution Scheme**"). The Group and its employees are required to make monthly contributions calculated at certain proportion of the employees' basic salaries to the Defined Contribution Scheme. The only obligation of the Group with respect to the Defined Contribution Scheme is to make the required contribution to the scheme. There is no forfeited contribution under the Defined Contribution Scheme available to reduce the existing level of contributions in future years.

CHANGES OF DIRECTORS AND DIRECTORS' INFORMATION

Save as disclosed in the section headed "Directors and Senior Management", there was no change to any information required to be disclosed in relation to any Director pursuant to Rule 13.51B of the Listing Rules up to the date of this annual report.

DIRECTORS' AND CHIEF EXECUTIVES' INTERESTS AND SHORT POSITIONS IN THE SHARES, UNDERLYING SHARES AND DEBENTURES

As at 31 December 2025, none of the Directors or chief executives of the Company had interests or short positions in the shares, underlying shares or debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO), which were required to be notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including interests and short positions in which they were taken or deemed to have under such provisions of the SFO), or which were recorded in the register required to be maintained pursuant to section 352 of the SFO, or which were required to be notified to the Company and the Stock Exchange pursuant to the Model Code.

DIRECTORS' RIGHTS TO ACQUIRE SHARES OR DEBENTURES

None of the Directors or their spouses or children under the age of 18, had been granted any right to subscribe for the equity or debt securities of the Company or any of its associated corporations, or had exercised any such right during the Reporting Period.

SUBSTANTIAL SHAREHOLDERS' INTERESTS AND SHORT POSITIONS IN THE SHARES AND UNDERLYING SHARES

As at 31 December 2025, to the best knowledge of the Directors, the following persons (other than the Directors and chief executive of the Company) had interests or short positions in the shares or underlying shares of the Company which were required to be disclosed to the Company pursuant to Divisions 2 and 3 of Part XV of the SFO and recorded in the register of the Company required to be maintained pursuant to section 336 of the SFO:

Note:

(1) Sundy Heye is wholly owned by Success Base, which is indirectly wholly owned by CMB Wing Lung. CMB Wing Lung is the trustee of The Yu Jianwu's Trust, which holds the entire issued share capital in Sundy Heye through its nominee companies on trust for the benefit of Mr. Yu and his family members.

(2) Fuyang Mingjin New Energy was wholly owned by Shanghai Mingjin New Energy, which was in turn wholly owned by Shanghai Mingjin International, and Shanghai Mingjin International was owned as to 90% by Wang Xiangyu. Accordingly, Shanghai Minjin New Energy, Shanghai Mingjin International and Wang Xiangyu are therefore be deemed or taken to be interested in the Shares in which Fuyang Mingjin New Energy is interested pursuant to the SFO.

(3) Southeast Fuyang was wholly owned by Southeast Xiamen, which was in turn owned as to 90% by Lin Mingqing. Accordingly, Southeast Xiamen and Lin Mingqing are therefore deemed or taken to be interested in the Shares in which Southeast Fuyang is interested pursuant to the SFO.

Save as disclosed above, as at 31 December 2025, to the best knowledge of the Directors, no any other person (other than the Directors and chief executive of the Company) had interests or short positions in the shares or underlying shares of the Company which were required to be disclosed pursuant to Divisions 2 and 3 of Part XV of the SFO or to be recorded in the register referred to in section 336 of the SFO.

SHARE OPTION SCHEME

On 21 December 2020, the Company conditionally approved and adopted the share option scheme (the "**Share Option Scheme**"). Summary of the principal terms of the Share Option Scheme are as set out below:

The Share Option Scheme is a share incentive scheme and was established to recognise and acknowledge the contributions the eligible participants of the Share Option Scheme (the "**Eligible Participants**") had or may have made to the Group. The Share Option Scheme will provide Eligible Participants with an opportunity to have a personal stake in the Company with the view to achieving the following objectives: (i) motivate the Eligible Participants to optimise their performance efficiency for the benefit of the Group; (ii) attract and retain or otherwise maintain on-going business relationship with the Eligible Participants whose contributions are or will be beneficial to the long-term growth of the Group; and (iii) for such purposes as the Board may approve from time to time.

REPORT OF DIRECTORS

The Eligible Participants include (i) any full-time or part-time employees, executives or officers of the Company or any of its subsidiaries; (ii) any directors (including executive, non-executive and independent non-executive directors) of the Company or any of its subsidiaries; and (iii) any advisers, consultants, suppliers, customers, agents and related entities to the Company or any of its subsidiaries.

The amount payable by the grantee of an option to the Company under the Share Option Scheme (the "**Option**") on acceptance of the offer for the grant of an Option is HK$1.00. An Option may be exercised in accordance with the terms of the Share Option Scheme at any time during a period as determined by the Board and not exceeding 10 years from the date of the grant. There is no minimum period for which an Option must be held before it can be exercised.

The total number of Shares issued and which may fall to be issued upon exercise of the Options granted under the Share Option Scheme and any other share option schemes of the Company (including both exercised and outstanding options) to each Eligible Participant in any 12-month period up to the date of grant shall not exceed 1% of the Shares in issue as of the date of grant.

The maximum number of Shares in respect of which options may be granted under the Share Option Scheme and under any other share option schemes of the Company must not in aggregate exceed 10% of the total number of Shares in issue immediately following the Listing, being 320,000,000 Shares. The Board may renew the said limit or grant beyond the 10% limit, subject to the issue of a circular by the Company and the approval of the Shareholders in general meeting and/or such other requirements prescribed by the Listing Rules from time to time. Notwithstanding the foregoing, the Shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and any other share option schemes of the Company at any time shall not exceed 30% of the Shares in issue from time to time.

The subscription price of a Share in respect of any Option shall be a price as the Board in its absolute discretion shall determine, save as such price will not be less than the highest of: (i) the official closing price of the Shares as stated in the Stock Exchange's daily quotation sheets on the date of grant, which must be a day on which the Stock Exchange is open for the business of dealing in securities; (ii) the average of the official closing prices of the Shares as stated in the Stock Exchange's daily quotation sheets for the five business days immediately preceding the date of grant; and (iii) the nominal value of a Share.

The Company by resolution in a general meeting or the Board may at any time terminate the operation of the Share Option Scheme and in such event no further Option will be offered but Option granted prior to such termination shall continue to be valid and exercisable in accordance with provisions of the Share Option Scheme. The Share Option Scheme shall be valid and effective for a period of 10 years from the Listing Date (i.e. 18 January 2021), after which no further options will be granted or offered.

For further details of the Share Option Scheme, please refer to the paragraph headed "Statutory and General Information – D. Other information – 1. Share Option Scheme" in Appendix IV to the Prospectus.

There were no share options outstanding under the Share Option Scheme nor were any Option granted, agreed to be granted, exercised, cancelled or lapsed under the Share Option Scheme for the period from the Listing Date to the date of this annual report.

EQUITY LINKED AGREEMENT

Save as disclosed in paragraph headed "Share Option Scheme" above, no equity-linked agreements were entered into by the Group or in existence during the Reporting Period.

PRE EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Articles of Association or the laws of the Cayman Islands that would oblige the Company to offer new shares on a pro-rata basis to the existing Shareholders.

NON-COMPETITION UNDERTAKING

Sundy Land Group (an associate of Mr. Yu, a Controlling Shareholder) is interested in the below entities (collectively, the "**Excluded Group**"), details of which are set out as follows:

1. Zhoushan Blue County Hotel Co., Ltd.* (舟山藍郡酒店有限公司) ("**Zhoushan Blue County**")

   As at 31 December 2025, Zhoushan Blue County is a wholly-owned subsidiary of Sundy Real Estate Agent, wholly owns Holiday Inn Express Zhoushan Dinghai* (舟山定海智選假日酒店) ("**Dinghai Holiday Inn**"). Dinghai Holiday Inn was established as an integral part of Zhoushan Blue County International development project* (舟山藍郡國際發展項目) by Sundy Land Group in Zhoushan, which are not likely to overlap with the target customers of the hotel business of the Group in Hangzhou.

   For further details of the Excluded Group, please refer to the section headed "Relationship with Controlling Shareholders" in the Prospectus. To safeguard the Group from any potential competition from the Controlling Shareholders (as defined below), each of the Controlling Shareholders entered into the Deed of Non-competition (as defined below) in favour of the Group with details as set out below.

   The Controlling Shareholders, Mr. Yu and Sundy Heye entered into a deed of non-competition (the "**Deed of Non-competition**") on 21 December 2020, pursuant to which, subject to certain exceptional circumstances, each of the Controlling Shareholders has unconditionally and irrevocably undertaken to and covenanted with the Group, among others:

   (i) he/it will not, and will procure his/its close associates and/or the companies controlled by him/it (other than members of the Group) not to, directly or indirectly, either on his/its own account or in conjunction with or on behalf of any person, firm or company, partnership, joint venture, or other contractual arrangement, among other things whether directly or indirectly, for profit or not, carry on, participate or be engaged in, invest in, acquire or hold (in each case whether as a shareholder, director, partner, agent, employee or otherwise and whether for interest, return or otherwise) or provide any form of assistance to any business which is or may be similar to or in competition with the business carried on or contemplated to be carried on by any member of the Group from time to time, including but not limited to the provision of property management services, value-added services to non-property owners, community value-added services and long-term rental apartment business (the "**Restricted Business**");

(ii) if he/it and/or any of his/its close associates has received, is offered or has identified any business investment or other business opportunity that competes or may compete, directly or indirectly, with the Restricted Business (the "**New Business Opportunity**"), he/it and/or any of his/its close associates shall (1) immediately give a notice in writing to the Company in respect of such New Business Opportunity, setting out all reasonably necessary information for the Group to make an informed assessment; and (2) use his/its/their best efforts to assist the Company in acquiring such New Business Opportunity at terms and conditions no less favourable than those available to him/it and/or his/its close associates;

(iii) neither he/it nor any of his/its close associates, directly or indirectly, carries out, participates or is engaged in, invests in, acquires or holds (in each case whether as a shareholder, director, partner, agent, employee or otherwise and whether for interest, return or otherwise) or is otherwise involved (other than through the Group) in the Restricted Business; and

(iv) for so long as he/it or any of his/its close associates, either alone or as a whole, remains the Controlling Shareholder or a Director: (1) he/it will not participate in, carry on or invest in any project or business opportunity that competes or may compete, directly or indirectly, with the business conducted by the Group from time to time; (2) he/it will, in accordance with the Articles of Association and the Listing Rules, declare his/its interests and, where required, abstain from voting at any board meeting and/or general meeting of the Company and not be counted as quorum where required, if there is any actual or potential conflict of interests; (3) he/it and his/its close associates (other than the Group) will not solicit any existing or then existing employee of the Group; (4) without the consent of the Company, he/it will not use any information pertaining to the business of the Group which may have come to his/its knowledge in his/its capacity as the Controlling Shareholder and/or a Director for any purposes; and (5) he/it will procure his/its close associates (other than the Group) not to participate in, carry on or invest in any project or business opportunity mentioned above.

For further details of the Deed of Non-competition, please refer to the section headed "Relationship with Controlling Shareholders" in the Prospectus.

The Controlling Shareholders confirmed that they and their close associates had complied with the Deed of Non-competition during the Reporting Period. The independent non-executive Directors had conducted such review during the Reporting Period and also reviewed the relevant undertakings and are satisfied that the Deed of Non-competition had been fully complied with.

DIRECTORS' INTEREST IN COMPETING BUSINESS

None of the Directors or their associates had any interest in any business which directly or indirectly competes or may compete with the businesses of the Group during the Reporting Period.

CONTROLLING SHAREHOLDERS' INTERESTS IN CONTRACTS

Save as disclosed in the paragraph headed "Connected Transactions and Continuing Connected Transactions" and Note 37 to the consolidated financial statements in this annual report, no Controlling Shareholder or any of its subsidiaries had a material interest, whether directly or indirectly, in any contract of significance to the business of the Group to which the Company or any of its subsidiaries was a party or any contracts of significance for the provision of services to the Company or any of its subsidiaries during the Reporting Period.

CONNECTED TRANSACTIONS AND CONTINUING CONNECTED TRANSACTIONS

During the Reporting Period, the Group entered into certain connected transactions subject to the reporting and announcement requirements, and continuing connected transactions subject to the reporting, annual review and announcement requirements under Chapter 14A of the Listing Rules.

Connected persons

(i) Sundy Land was principally engaged in property development and sales of properties. It was owned as to approximately 29.04% by Xingfu Jian Holdings (which was owned as to approximately 99.01% by Mr. Yu), approximately 9.74% by Mr. Yu and approximately 4.51% by Ms. Guo Yijuan (郭軼娟) ("**Ms. Guo**"), spouse of Mr. Yu. Therefore, Sundy Land is an associate of Mr. Yu, hence a connected person of the Company. Sundy Real Estate Agent is a wholly-owned subsidiary of Sundy Land, hence a connected person of the Company.

(ii) Zhejiang Zhizhonghe Industry Co., Ltd.* (浙江致中和實業有限公司) ("**Zhizhonghe Industry**") was principally engaged in manufacturing and sales of food and beverage, in particular, alcohol, Chinese herbal jelly (龜苓膏) and Chinese herbal tea (涼茶). It was wholly owned by Hangzhou Heye Investment Management Co., Ltd.* (杭州和業投資管理有限公司) ("**Heye Investment**"), a company owned as to 99.9% by Xingfu Jian Holdings (which was owned as to approximately 99.01% by Mr. Yu). Therefore, Zhizhonghe Industry was an associate of Mr. Yu, hence a connected person of the Company.

On 20 December 2022, Xingfu Jian Holdings had disposed of its approximately 99.9% equity interests in Heye Investment to an independent third party, i.e., Hangzhou Hechu Enterprise Management Co., Ltd.* (杭州和儲企業管理有限公司) ("**Hechu Enterprise Management**") and Zhizhonghe Industry ceased to be a connected person of the Company. Mr. Wu Yaohua (吳耀華) and Ms. Yu Aiwen (俞愛文) hold 90% and 10% of equity interests of Hechu Enterprise Management, respectively.

On 22 November 2023, Mr. Yu, Mr. Wu Yaohua (吳耀華) and Ms. Yu Aiwen (俞愛文) agreed that Mr. Wu Yaohua (吳耀華) and Ms. Yu Aiwen (俞愛文) will hold the entire equity interests of Hechu Enterprise Management for and on behalf of Mr. Yu. As such, Mr. Yu has control over Hechu Enterprise Management by virtue of his control over the exercise of its entire equity interest attached to the voting rights at the general meeting. Therefore, Zhizhonghe is an associate of a connected person of the Company, and thus a connected person of the Company.

(iii) Hangzhou Sundy Yangguang Kindergarten Co., Ltd.* (杭州宋都陽光幼兒園有限公司) ("**Sundy Yangguang Kindergarten**") was principally engaged in the provision of preschool education service. It was indirectly owned as to 40% by Zhejiang Heqi Supply Chain Management Co., Ltd.* (浙江和琪供應鏈管理有限公司), a company owned as to 100% by Xingfu Jian Holdings. Therefore, Sundy Yangguang Kindergarten is an associate of Mr. Yu, hence a connected person of the Company.

(iv) Hangzhou Sundy Real Estate Group Co., Ltd. (杭州宋都房地產集團有限公司) ("**Sundy Real Estate Group**") was principally engaged in real estate development and operation. It was owned as to 100% by Sundy Land Investment Co., Ltd. (宋都基業投資股份有限公司), which was in turn owned as to approximately 29.04% by Xingfu Jian Holdings (which was owned as to approximately 99.01% by Mr. Yu), approximately 9.74% by Mr. Yu and approximately 4.51% by Ms. Guo, spouse of Mr. Yu. Therefore, Sundy Real Estate Group is an associate of Mr. Yu, hence a connected person of the Company.

(v) Greenland Holdings Group Hangzhou Shuangta Real Estate Co., Ltd. (綠地控股集團杭州雙塔置業有限公司) ("**Greenland Holdings**") was principally engaged in real estate development and operation. It was indirectly owned as to 50% by Sundy Land, which is in turn owned as to approximately 29.04% by Xingfu Jian Holdings (which was owned as to approximately 99.01% by Mr. Yu), approximately 9.74% by Mr. Yu and approximately 4.51% by Ms. Guo, spouse of Mr. Yu. Therefore, Greenland Holdings is an associate of Mr. Yu, hence a connected person of the Company.

On 31 October 2025 (after trading hours), Sundy Property entered into an agreement for the acquisition of commercial parking lots with Sundy Real Estate Group, pursuant to which Sundy Property agreed to acquire and Sundy Real Estate Group agreed to dispose of the parking lots for a consideration of RMB10,586,700, which shall be paid in one lump sum through the internal resources of the Group. The term of use of the parking lots is from 31 October 2025 until 16 November 2047.

The acquisition of the parking lots was undertaken primarily as a robust measure for capital preservation and investment. This asset represents a premium operational asset, characterized by core advantages including low operating costs, high levels of operating income, and stable cash flows, enabling it to deliver sustained earnings contributions to the Company, which is in line with the Company's investment strategy for high-quality assets.

Details of the acquisition of the parking lots are set out in the announcement of the Company dated 31 October 2025.

2. Acquisition of Property

On 19 November 2025 (after trading hours), Hangzhou Hehong Property Service Co., Ltd. (杭州和宏物業服務有限公司) ("**Hangzhou Hehong**"), an indirect wholly-owned subsidiary of the Company, entered into the letter of intent with Greenland Holdings, pursuant to which Hangzhou Hehong agreed to acquire and Greenland Holdings agreed to dispose of a commercial property for a consideration of RMB6,648,276, which shall be settled in one lump sum by the internal resources of the Group upon the approval of the independent Shareholders at an extraordinary general meeting, which was obtained on 6 January 2026. The land use rights in the property shall expire on 19 October 2057.

The Company seeks to hold the property as a long-term investment. The acquisition of the property represents a good capital preservation and investment opportunity. In particular, the Company intends to generate a stable stream of rental income. Coupled with the anticipated appreciation driven by its robust foundation, the property is positioned for substantial capital gains.

Details of the acquisition of the property are set out in the announcement of the Company dated 19 November 2025 and the circular of the Company dated 15 December 2025.

CORPORATE GOVERNANCE REPORT

The Board is pleased to present the corporate governance report of the Company for FY2025.

CORPORATE GOVERNANCE PRACTICES

The Group is committed to maintaining high standards of corporate governance and achieving good corporate governance by an effective Board, segregation of duties with clear accountability, sound internal controls and risk management procedures and transparency to Shareholders in order to safeguard the interests of Shareholders and to enhance corporate value and accountability.

The Company has adopted the CG Code and Corporate Governance Report contained in the CG Code as its own corporate governance code.

The Company has complied with all applicable code provisions under the CG Code during the Reporting Period. The Company will continue to review and monitor its corporate governance practices to ensure compliance with the CG Code.

Our corporate culture is founded upon the principles of integrity, service excellence, and operational prudence. We recognise that as a property management services provider, our role extends beyond property maintenance to encompass the stewardship of people's homes, workplaces, and community spaces. We are dedicated to upholding a resilient, ethical, and service-oriented culture that delivers long-term value to our shareholders while fulfilling our responsibilities to the communities we serve. This culture remains the foundation upon which we build sustainable growth and operational resilience.

Core Cultural Pillars:

1. Customer-Centric Service: We foster a culture that prioritises the safety, comfort, and well-being of our residents and tenants. Every operational decision is guided by a commitment to responsiveness, respect and the delivery of consistent, high-quality services.

2. Integrity and Compliance: Adhering to the highest standards of ethical conduct, we maintain rigorous internal controls and comply fully with all applicable laws, regulations, and environmental, social, and governance requirements. We believe trust is earned through transparent financial management and lawful operations.

3. Respect for People: Our employees are our greatest asset. We cultivate an inclusive, safe and supportive workplace that values diversity, continuous learning, and professional development. A motivated and well-trained workforce is essential to delivering superior property management.

4. Operational Excellence: We embrace innovation and sustainable practices to enhance efficiency and reduce environmental impact. From energy conservation to waste management, our culture encourages proactive problem-solving and the adoption of smart building technologies.

5. Community Stewardship: Recognising our role within the broader community, we promote a culture of neighbourliness, safety, and social responsibility. We engage actively with stakeholders to ensure our managed properties contribute positively to the local environment.

This corporate culture is not aspirational alone; it is embedded within our strategic framework and risk management systems. Our Board oversees cultural alignment, ensuring that our business objectives are pursued without compromising our core values. Key performance indicators related to customer satisfaction, employee retention, and compliance metrics are regularly reviewed to assess cultural health.

BOARD OF DIRECTORS

Responsibilities

The Board is responsible for the overall leadership of the Group, oversees the Group's strategic decisions and monitors business and performance. The Board has delegated the authority and responsibility for day-to-day management and operation of the Group to the senior management of the Group. To oversee particular aspects of the Company's affairs, the Board has established three Board committees, including the Audit Committee, the Remuneration Committee and the Nomination Committee (collectively, the "**Board Committees**"). The Board has delegated to the Board Committees responsibilities as set out in their respective terms of reference.

All Directors shall ensure that they carry out their duties in good faith, in compliance with applicable laws and regulations, and in the interests of the Company and its Shareholders at all times.

We recognise that Board independence is key to good corporate governance. As part of our established governance framework, we have effective mechanisms that underpin a strong independent Board, ensuring that independent views and input from Directors are conveyed to the Board. The governance framework and mechanisms are kept under regular review to align with industry best practices, ensuring their effectiveness. During the Reporting Period, the Board conducted a review and considered that such mechanisms were properly implemented and were effective.

Board Performance

We regard board evaluation as a critical tool to assess Board effectiveness and efficiency, and we conduct it every two years. The objective of the evaluation is to ensure that the Board and its committees continue to act effectively in fulfilling the duties and responsibilities expected of them, and to develop action plans for improvement. The scope of the evaluation covered various aspects, including Board composition and expertise, information flow to Board members, Board process and effectiveness, and continuous development and training. In addition, the constituent, expertise and effectiveness of each of the Board committees is also evaluated. An internal performance evaluation on the Board and its committees will be conducted for the year ending 31 December 2026.

The terms of reference of the Nomination Committee are in compliance with the code provision B.3.1 of the CG Code. During the Reporting Period, the Nomination Committee has fulfilled its main responsibilities including to review the structure, size and composition of the Board and make recommendations to the Board on appointment, re-election and succession planning of Directors, and assessed the time commitment and contribution to the Board by each Director. The assessment considered each Director's ability to discharge their responsibilities, referencing factors such as participation in Board and Board Committee meetings, existing listed company directorships, other significant external time commitments, continuous professional development training undertaken and the results of the performance evaluation for the Board and its committees. The Nomination Committee is satisfied that each Director can discharge their responsibilities effectively.

The recommendations of the Nomination Committee will then be put to the Board for decision.

The written terms of reference and the details of duties of the Nomination Committee are available on the websites of the Stock Exchange and the Company.

During the Reporting Period, the Nomination Committee held two meetings, mainly to make recommendations to the Board on the appointment and resignation of Directors and the attendance record of the Nomination Committee is set out in the table below:

Name of directors	Attendance/ number of meetings held
Ms. YU Yun *(Chairman)*	2/2
Ms. YE Qian	2/2
Mr. ZHU Haoxian	2/2
Mr. HUANG Enze	2/2

BOARD DIVERSITY POLICY

The Board remains committed to enhance its operating efficiency and maintain high standards of corporate governance on a continuing basis and recognises the vital importance of the diversity of the Board with regard to the maintenance of competitive advantage and sustainable development. Therefore, the Company has adopted a board diversity policy. In designing the composition of the Board, the Company has taken into account the diversity of the Board, including but not limited to gender, age, cultural and educational background, professional experience, technical and professional skills and/or qualifications, knowledge, length of service and time to be devoted as a Director. The Company will consider its own business model and special needs from time to time as well. The ultimate decision will be made based on the contribution and merit that the selected candidates bring to the Board.

The Board strives to ensure the appropriate balance of skills, experience and diversity of perspectives that are essential for the implementation of the business strategies and effective operation of the Board. Up to the date of this annual report, the Board comprises seven members including two female Directors and five male Directors. The ages of the Directors range from 31 to 60. Their industry experience covers a wide range of fields such as real estate, investment and financing, accounting and auditing, film making and geological exploration. The Directors believe that the composition of the Board reflects the necessary diversity, whether considered in terms of gender, professional knowledge, skills and experience, and is appropriate to the requirements of the business development and effective leadership of the Group. The Directors are of the opinion that the present structure of the Board can ensure the independence and objectivity of the Board and provide a system of checks and balances to safeguard the interests of the Shareholders and the Company. Given that the Board considers it has already reached gender diversity, as at the date of this annual report, the Board has not set any numerical targets and timelines for achieving gender diversity on the Board. The Nomination Committee has reviewed the membership, structure and composition of the Board, and is of the opinion that the structure of the Board is reasonable, and the experiences and skills of the Directors in various aspects and fields can enable the Company to maintain a high standard of operation. The Board is mindful of the objectives for the factors as set out in the diversity policy for assessing the candidacy of the Board members and will ensure that any successors to the Board shall follow the diversity policy.

In addition to the Board level, the Company promotes gender diversity in all levels of its employees. 207 of its 402 employees as at 31 December 2025 are female, which represented 51.5% of the total number of employees (including 5 of its 17 senior management, which represented 29.4% of the total number of senior management). While the Company will continue to search for potential candidates for addition to the Board or senior management, the Company deemed the current gender ratio adequate and appropriate. As such, the Board has not specified any quotas or similar measurable objectives for achieving gender diversity, rather the focus is on identifying the right person for the right role whilst taking into account diversity in a range of areas, including gender.

The Company aims to maintain an appropriate balance of diverse perspectives that are relevant to the Company's business growth. The Company is also committed to ensuring that recruitment and selection practices at all levels (from the Board downwards) are appropriately structured so that a diverse range of candidates are considered. The Nomination Committee will discuss periodically and when necessary, agree on the measurable objectives for achieving diversity, including gender diversity, on the Board and recommend them to the Board for adoption. In particular, the Nomination Committee will identify and make recommendations to the Board to implement programs that will assist in the development of a broader and more diverse pool of skilled and experienced employees that, in time, will prepare them for Board positions.

REMUNERATION OF DIRECTORS

The Company has made full disclosure of the remunerations of Directors by name, amount and type in Note 14 to the consolidated financial statements. No Director has waived or agreed to waive any emoluments during the Reporting Period.

REMUNERATION OF SENIOR MANAGEMENT

The remuneration of senior management of the Company for the year ended 31 December 2025 falls under the following table:

Band of Remuneration	Number
Nil-RMB1,000,000	3
Over RMB1,000,000	–

DIRECTORS' RESPONSIBILITIES FOR FINANCIAL REPORTING IN RESPECT OF FINANCIAL STATEMENTS

The Directors acknowledge their responsibility for preparing the financial statements of the Group during the Reporting Period, which give a true and fair view of the affairs of the Company and the Group, and present a balanced, clear and comprehensive assessment of the Group's performance and prospects.

The management has provided to the Board such explanation and information as are necessary to enable the Board to carry out an informed assessment of the Group's financial statements, which are put to the Board for approval.

The Directors were not aware of any material uncertainties relating to events or conditions, which may cast significant doubt upon the Group's ability to continue as a going concern.

The statement by the Auditor regarding its reporting responsibilities for the consolidated financial statements of the Company is set out in the Independent Auditor's Report on pages 99 to 103 of this annual report.

RISK MANAGEMENT AND INTERNAL CONTROLS

The Board acknowledges its responsibility to ensure that sound risk management and internal control systems are established and maintained within the Group, as well as its responsibility to review its effectiveness. Such system aims to manage and reduce the business risks faced by the Group to an acceptable extent, but not eliminate the risks of failure to achieve business objectives. Moreover, it can only provide reasonable, and not absolute, assurance against material misstatement, loss or fraud.

The Board has authorised the Audit Committee to take charge of the on-going monitoring of the Group's risk management and internal control systems annually, as well as the annual review of its effectiveness. Such review covers all material control aspects during each financial year, including financial control, operation control, and compliance control.

CORPORATE GOVERNANCE REPORT

The Group's internal control system includes a well-established organisational structure with clearly defined lines of responsibility and authority. The day-to-day departmental operations are entrusted to individual departments which are accountable for their own conduct and performance and are required to operate their own department's business within the scope of the delegated authority and to implement and strictly adhere to the strategies and policies set by the Company from time to time. Each department is also required to keep the Board informed of material developments of the department's business and implementation of the policies and strategies set by the Board on a regular basis. All departments conduct internal control assessments annually to identify potential risks that may impact the business operation of the Group. Self-evaluations are conducted by checking key operational and financial processes, regulatory compliance, and information security.

The Group does not have an internal audit department. The Board and the Audit Committee have reviewed the need for an internal audit function and consider it more cost-effective to appoint external independent professionals to independently review and continuously evaluate the Group's internal monitoring systems and risk management systems, taking into account the size and nature of the Group. The Board will review the need for an internal audit function at least once a year.

The Group has established and oversees a whistleblower policy and a set of comprehensive procedures whereby employees, customers, suppliers and other concerned parties can report any actual or suspected occurrence of improper conduct involving the Company, and for such matters to be investigated and dealt with efficiently in an appropriate and transparent manner.

The Group has also set up an anti-corruption policy which sets out the principles and guidelines for the Company to promote and support anti-corruption laws and regulations, which sets out the basic standard of conduct which applies to all Directors and employees of the Company at all levels and external parties doing business with the Company and those acting in an agency or fiduciary capacity on behalf of the Company (e.g. agents, consultants and contractors). It also provides guidance to all employees on, among other matters, acceptance of advantages and handling of conflicts of interest when dealing with the Company's business.

The Company has adopted an inside information policy (the "**Inside Information Policy**") in accordance with the SFO and the Listing Rules to ensure the confidentiality of handling inside information and the publication of respective disclosures to the public as soon as practicable. The Company will make corresponding information disclosures timely with regard to information that is unlikely to maintain confidentiality, so as to ensure effective protection of the rights and interests of investors and stakeholders. In addition, only the Directors and delegated officers can act as the Group's spokesperson and respond to external enquiries about the Group's affairs. No incident of non-compliance with the procedure and internal controls as set out in the Inside Information Policy was noted by the Company during the Reporting Period.

During FY2025, the Board has reviewed the effectiveness of the Group's internal control and risk management systems to ensure that a sound system is maintained and operated by the management in compliance with the agreed procedures and standards. Accordingly, the Company considers the systems are effective and adequate. The review covered all material controls, including financial, operational and compliance controls and risk management functions. The management of the Company actively monitors the regional economy, trend of the property management services industry, reliance on continuing connected transactions and changes in applicable laws and regulations, and assesses income and expenditure and absorptive capacity of business expansions. The recommendations submitted by independent consultants have been accepted by the Company and implemented in stages, to further enhance the policies, procedures and practices of its internal controls and risk management.

AUDITOR'S REMUNERATION

During FY2025, the remuneration paid or payable to the Auditor is set out as follows:

	2025 RMB (Million)	2024 RMB (Million)
Audit services	**1.44**	1.40
Non-audit services		
– Agreed upon procedures of interim review	**0.30**	0.30
– Other non-audit services	**0**	0

COMPANY SECRETARY

In order to uphold good corporate governance and ensure compliance with the Listing Rules and the applicable Hong Kong laws, the Company engaged Ms. ZHANG Qisi (resigned on 19 March 2025), Ms. XU Xiaoli (appointed on 19 March 2025) and Mr. TSANG Ho Yin as joint company secretaries, primarily responsible for the corporate secretarial matters of the Company.

During the Reporting Period, the Company was informed by its joint company secretaries that they had complied with the requirement of 15 hours of relevant professional training for company secretaries as set out in Rule 3.29 of the Listing Rules.

COMMUNICATION WITH SHAREHOLDERS AND INVESTOR RELATIONS

The Company considers that effective communication with Shareholders is essential for enhancing investor relations and understanding of the Group's business, performance and strategies. The Company also recognizes the importance of timely and non-selective disclosure of information on the Company for the Shareholders and investors to make informed investment decisions.

The annual general meeting of the Company provides an opportunity for Shareholders to communicate directly with the Directors. The chairman of the Board and the chairman of the Board Committees attend the annual general meeting to answer Shareholders' questions. The Auditor also attends the annual general meeting to answer questions about the conduct of the audit, the preparation and content of the auditor's report, the accounting policies and the auditor's independence.

To promote effective communication and to build an inter-relationship and communication channel between the Company and the Shareholders, the Company adopts a Shareholders' communication policy and maintains a website at http://songduwuye.com, where announcements, annual reports and interim reports of the Company, as well as the up-to-date information on the Company's business operations and developments, financial information, corporate governance practices and other information are available for public access. The Company also maintains an email address ir9608@songduwuye.com, which provides a communication platform for Shareholders and investors.

The Board reviewed the implementation and effectiveness of the Shareholders' communication policy during the Reporting Period. After review, the Board considered that the Shareholders communication policy remained effective and was properly implemented given that multiple channels of communication were in place during the Reporting Period.

SHAREHOLDERS' RIGHTS

To safeguard the Shareholders' interests and rights, a separate resolution will be proposed for each issue at general meetings, including the election of individual directors.

All resolutions put forward at general meetings will be voted on by poll pursuant to the Listing Rules and the poll results will be posted on the websites of the Company and the Stock Exchange in a timely manner after each general meeting.

Also, the Shareholders have the right to put enquiries to the Board. All enquiries should be sent in writing by post to the principal place of business of the Company in Hong Kong or the headquarters and principal place of business in the PRC.

CONVENING AN EXTRAORDINARY GENERAL MEETING AND PUTTING FORWARD PROPOSALS

According to the Articles of Association, the Shareholders may put forward proposals at the general meeting of the Company for consideration. Any one or more member(s) of the Company holding at the date of deposit of the requisition not less than one-tenth of the paid-up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the company secretary of the Company, to require an extraordinary general meeting to be convened by the Company for the transaction of any business specified in such requisition; and such meeting shall be held within two months after the deposit of such requisition. If within 21 days of such deposit the Board fails to proceed to convene such meeting, the requisitionist(s) himself/herself (themselves) may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board to convene such general meeting shall be reimbursed to the requisitionist(s) by the Company.

As regards proposing a person for election as a Director, the procedures are available on the website of the Company.

CONSTITUTIONAL DOCUMENTS

There was no change to the memorandum of association of the Company and Articles of Association during the Reporting Period.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

1. ABOUT THE REPORT

Introduction

This report is the sixth environmental, social and governance ("**ESG**") report (the "**Report**") released by the Company. Adhering to the principles of materiality, quantitative, balance and consistency, it comprehensively illustrates the Company's management approach and work performance in respect of the environment, society and governance during the Reporting Period, and discusses the matters of concern to the stakeholders. Unless otherwise stated, the information presented in the Report represents the performance of the Company for the Reporting Period.

Scope of the Report

The scope of the Report focuses on the Group's principal businesses, which includes property management services, value-added services to non-property owners, community value-added services and other services, namely hotel business and long-term rental apartment business. The reporting scope of the Report was identified with reference to their ESG materiality to the Group, its principal businesses and major revenue sources. Unless specified otherwise, the ESG key performance indicator ("**KPI**") data is gathered and included under the Group's operational control mechanism. The Group will continue to extend the scope of disclosures as its data collection system and sustainable strategies further evolve.

There was no change to the reporting scope compared to the previous reporting period.

Basis and principles of the Report

The Report was prepared in accordance with the Environmental, Social and Governance Reporting Guide (the "**ESG Reporting Guide**") under Appendix C2 to the Listing Rules.

The Report followed the ESG Reporting Guide and applied the following principles:

Materiality:	In order to identify and assess the material concerns of our stakeholders, we have conducted materiality assessment surveys through a number of stakeholders engagement activities to determine the factors that have material impacts on our sustainable growth.
Quantitative:	The quantitative principle applies to all information in this Report. All performance indicators are provided with clear definitions and the unit measurement is clearly stated.
Balance:	The information and cases in the Report are from statistical reports, relevant documents and internal communication documents of the Group during the Reporting Period.
Consistency:	We have followed the ESG Reporting Guide in reporting. If there are any changes to the methodologies adopted in previous reports, the Group will add annotations to the corresponding contents of the Report to allow for meaningful comparisons of ESG data.

The Board provides oversight on matters relating to ESG by evaluating, prioritising and managing ESG-related issues that are material to the Group, and monitors the progress made towards its goals and targets.

Publication method

The Chinese and English versions of the Report can be downloaded from the website of the Stock Exchange (http://www.hkexnews.hk) and the Group's website (http://www.songduwuye.com/). For any comments or suggestions on the ESG performance of the Group, please email to ir9608@songduwuye. com.

Approval of the Report

The Report has been approved by the Board on 31 March 2026 and the Board is fully responsible for the contents of the Report.

2. SUSTAINABLE DEVELOPMENT MANAGEMENT

Sustainable development is the goal and the strategic principle covering all business sections of the Group. The Group is devoted to keeping a high level of sustainability in business operations, and promoting sustainable development in terms of corporate governance, environmental protection, labour rights and community development.

2.1 Statement of the Board

The Board puts great emphasis on the Group's ESG strategies and ESG-related internal control. To achieve the sustainable development management of ESG, the Board is fully responsible for the Group's sustainable work and assumes responsibility for the overall direction of the ESG strategies, initiatives and guidelines of the Group. The Board supervises the progress in the implementation of ESG-related issues and goals and indexes through accessing, prioritizing and managing ESG related issues that are important to the Group.

As the supervisory and management level of the Company, the Audit Committee is responsible for monitoring and reviewing the Group's ESG issues, supervising and managing the formation of ESG objectives and achievement of key performance indexes, monitoring and supervising the Company's communications with stakeholders, reviewing the ESG report according to the Listing Rules, and making recommendations to the Board annually.

2.2 ESG Management Structure

As the highest governance body of the Group on ESG issues, the Board is in charge of approving the Group's ESG management principles, strategies and annual goals. The content of the Report is reviewed and approved by the Board annually.

The Group has set up an ESG working group (the "**ESG Working Group**"), which includes core employees from functional departments. The ESG Working Group is authorised by the Board and responsible for assessing and determining whether the Group's ESG risk management and internal controls are effective, coordinating and promoting functional departments to implement ESG policies, and monitoring ESG work. As for communication with stakeholders, the ESG Working Group assists the Board to collect and respond to stakeholders' opinions on ESG matters. The Report is prepared by the ESG Working Group.

The Group will improve the ESG management structure to satisfy stakeholders' needs and implement ESG governance in the Group's daily management.

2.3 Communication with stakeholders

The ESG stakeholders of the Group mainly include investors, customers, employees, governments, suppliers and communities. Improving communication with stakeholders is an intrinsic requirement on the Group to fulfill its responsibilities to its stakeholders and is an important step for the Group to become a company with extensive social influence, and a key measure to optimise the Group's service system.

3. IDENTIFICATION OF MATERIAL ISSUES

In order to evaluate the stakeholders' concerns and expectations of the Group on ESG issues, we evaluated the importance of ESG issues through the following steps:

1) Identification of ESG issues

Based on the business features of the Group, national policies and the disclosure requirements of ESG Reporting Guide, we have identified 21 key ESG issues covering the environment, employment, products and services, communities, and corporate governance.

2) Stakeholders investigation

Through questionnaires and surveys, we have collected comments and suggestions from the Group's stakeholders on the importance of the issues in order to further identify the key ESG issues of the Group.

3) Management evaluation

Based on analysis of priority in the Group's annual business, we have sought comments and suggestions from the management and evaluated the importance of such issues to the Company.

4) Identifying the priority of ESG issues

Based on the two perspectives of "importance to the corporation" and "importance to stakeholders", we have identified the priority of 21 ESG issues, which are presented in the following matrix diagram. The assessment results were used as the focus of ESG report disclosure and an important basis for the Group to formulate its ESG strategies in the future.

During the Reporting Period, the results of the ESG assessment of the Group were as follows:

4. ENERGY SAVING, ENVIRONMENTAL PROTECTION AND GREEN DEVELOPMENT

The Group deeply implements green development concepts with an attitude of being responsible for society. We strictly abide by the Environmental Protection Law of the People's Republic of China, Law of the People's Republic of China on Prevention and Control of Atmospheric Pollution, the Law of the People's Republic of China on the Prevention and Control of Water Pollution, the Law of the People's Republic of China on the Prevention and Control of Solid Waste Pollution and other relevant laws and regulations and pay attention to the impacts of our own operating activities on the environment. During our routine operation, we publicise garbage classification and recycling, energy saving and environmental protection and continuously emphasise the importance of environmental protection to enhance the awareness of the Group on environmental protection.

4.1 Emissions Control and Disposal in Compliance with Regulation

Air Pollutant Emissions

The Group's air pollutant emissions are mainly generated from the consumption of fuels in the operation of vehicles during the daily operation. During the Reporting Period, the categories and emission data of the pollutants of the Group are set out below:

Air emissions	Unit	2025
Oxynitride (NOx)	g	**2,628.8**
Oxysulfide (SOx)	g	**57.2**
Particulate matter (PM)	g	**98.6**

Greenhouse Gas Emission

The Group was not involved in the consumption of natural gas, petrol for business vehicles during the Reporting Period. The Group's direct greenhouse gas emissions (Scope 1) are mainly generated from the consumption of various fuels in the operation of vehicles while the indirect greenhouse gas emissions (Scope 2) are mainly from the use of electricity in office and other working places.

The table below sets forth the total emissions and emission intensity of greenhouse gases of the Group for the Reporting Period:

Greenhouse Gas Emissions	Unit	2025
Direct greenhouse gas emissions (Scope 1)	Tons of carbon dioxide equivalent	**8.7**
Indirect greenhouse gas emissions (Scope 2)	Tons of carbon dioxide equivalent	**861.1**
Total greenhouse gas emissions	Tons of carbon dioxide equivalent	**869.8**
Intensity of greenhouse gas emissions	Tons of carbon dioxide equivalent/revenue of RMB million	**3.76**

* Our Group is yet to apply internal carbon pricing in assessing the costs of its greenhouse gas emissions and in its decision making.

Electricity consumption is the main source of indirect greenhouse gas emissions of the Group. In order to reduce and manage energy consumption efficiently, we encourage employees to reduce energy consumption by turning off office devices when they are not in use, making use of natural lighting in clear weather and turning off air conditioners when the temperature is appropriate.

The Group was not involved in violation of regulations with significant effects on the Group in terms of emissions during the Reporting Period.

Waste Management

The Group follows regulations on environmental protection, actively responds to the national policies and local policies on garbage classification and publicises garbage classification, collection and recycling.

During the service process, we mainly collect wastes under four categories, including kitchen waste containers (green), recyclable waste containers (blue), toxic and hazardous waste containers (red) and other waste containers (grey) or waste containers (yellow) based on local requirements. All waste containers are posted with guide pictures for the corresponding category to remind residents to correctly classify garbage. The classified waste is regularly cleared by professional clearing companies.

Office waste from routine operations refers to unrecyclable waste from production and operation (including living). We classify the office waste into hazardous waste, recyclable waste and unrecyclable waste.

a. Hazardous waste: Inflammable, explosive and radioactive waste with various hazards to the environment and personal safety.

b. Recyclable waste: Waste with recyclable value for other groups and individuals other than the Group.

c. Unrecyclable waste: Waste with no recyclable value for any groups and individuals.

For toxic and hazardous solid waste generated from the office of the Group, namely hazardous waste in the Directory of National Hazardous Wastes or those recognised as hazardous based on the identification standards and methods on hazardous wastes under national regulations, such as waste batteries, waste asbestos, waste fluorescent tubes, solvent buckets, cans and bottles, we require our employees to throw them into hazardous waste containers. The toxic and hazardous wastes generated during the Group's operation are waste toner cartridges and waste ink boxes in a small amount, which are recycled by qualified recyclers, with less impact on the environment. Therefore, total hazardous waste produced is not disclosed in the Report. For recyclable waste, they are regularly disposed of by the waste disposal agent based on the quantity. Meanwhile, we encourage double-sided printing to save the use of paper. For unrecyclable waste, we place them into other waste containers or entrust the waste disposal agent to clear them based on the quantity.

To reduce office waste, we carry out publicity in office areas, tea rooms, bulletin boards and other notable locations to enhance the awareness of employees on garbage classification. We arrange tutors on garbage classification, establish the "container leader" system and determine the responsibilities of individuals to provide guidance to employees on waste classification and promote mutual supervision and promotion among employees.

Due to the business characteristics of the Group, non-hazardous waste generated by the Group's operations and by customers/owners are collected and processed by the local municipal departments, and the Group is unable to separately measure the non-hazardous waste generated by the Group's operations. Therefore, total non-hazardous waste produced is not disclosed in the Report.

Wastewater management

The Group mainly provides services to residential projects. It has to pass the environmental appraisal opinions of governmental authorities during the design of commodity houses. Drainage pipes are not allowed for mixed discharge of rainwater and sewage and they should be discharged through separate pipes. A license on the discharge of urban sewage into drainage pipelines shall be obtained. It shall update the license on the discharge of sewage after the expiry of the license.

5. RESOURCES SAVING AND LOW CARBON OPERATION

The Group strives to practise green development concepts and strictly abides by the Law of the People's Republic of China on Energy Conservation and other relevant laws and regulations. The Group has established the quality, environment and occupational health management system in 2008 and consistently upgrades the management system based on environmental factors and external requirements. We always maintain compliant operation of systems, latest management systems and normalised compliant obligations and requirements of laws and regulations. We consistently emphasise the leadership, focus on property owners' concerns, establish three-level management and control documents, set up organisational structure, specify the working responsibilities and boundaries of the corresponding departments and require all departments and subsidiaries and regions to put service quality first and carry out household services. We always start from the concerns of property owners and practically solve the problems of property owners.

The Group actively responds to national policies on energy saving and emissions reduction and takes the requirements as set out therein as the energy use efficiency target to reduce consumption from the source. Based on relevant requirements of the Ministry of Housing and Urban-Rural Development (MOHURD), property construction companies adopt energy-saving and thermal insulation materials and conduct enclosure design on the main structure of commodity houses and heat water resources with solar energy or air source heat pumps to meet the daily demands of property owners. Upon the approval of projects under management, we proposed reasonable suggestions on corresponding designs on energy consumption, such as the divisional design on lighting and the adoption of LED light, to achieve the purpose of reducing energy consumption from the source.

Set out below is the summary of the total energy consumption of the Group during the Reporting Period, which was mainly used in offering public services for property owners:

	Unit	2025
Petroleum Gas	ton	**2.9**
Purchased Electricity	MWh	**1,482.1**

The water resources consumed by the Group are from municipal pipelines and it has no problem in sourcing water. Set out below is the summary of total water consumption of the Group during the Reporting Period, which was mainly used in providing public services:

	Unit	2025
Water Consumption	Cubic metre	**51,371.9**
	Cubic metre/revenue of RMB million	**221.8**

We attach importance to the saving and efficient utilisation of water resources during the service process. We mainly publicise water saving in major places for water sourcing, such as having reminders on saving water in public washrooms. Toilets and urinals are installed with press switches or inductive switches to save water resources.

During the Reporting Period, the total paper consumption of the Group which are mainly generated from offices of the operations in the PRC are set out below:

	Unit	2025
Paper Consumption	kg	**1,644**

Furthermore, we put forward energy saving and consumption reduction requirements for air conditioning and office consumables and establish relevant management systems, further strengthening the employees' green environmental awareness, and creating a good green office environment.

- Normalization of energy-saving office measures
  - ✓ Specifying the temperature of air conditioning to reduce inefficient energy consumption
  - ✓ Promoting paperless-unless-necessary office, and using recycled paper to print and copy
  - ✓ Replacing with energy-saving lamps in office areas
- Standardised green office management
  - ✓ Regularly checking office and business sites
  - ✓ Formulating reward and punishment mechanisms to conduct proper penalties for violations (public notification of criticism, etc.)
  - ✓ Formulating written guidance on specific matters of green office

The Group was not involved in violation of regulations with significant effects on the Group in terms of emissions during the Reporting Period.

In the future, we will:

- ✓ consistently pay attention to the Law of the People's Republic of China on Energy Conservation, the Environmental Protection Law of the People's Republic of China and other relevant requirements and dynamics recently released by the MOHURD and local competent authorities; and
- ✓ enhance the publicity of green and environmental protection and energy saving, actively create a green and energy-saving environmental protection atmosphere and create a working and living environment advocating "save more, waste less".

Due to the nature of the Group's businesses, packaging materials are not involved in daily operations. Therefore, total packaging material used for finished products is not applicable.

5.1 Actively respond to climate change

Climate is a global issue of widespread concern to the community today. The Group actively identifies potential risks brought about by climate change, closely monitors the issuance and dynamic development trends of national policies related to climate change, and describes the efforts and the future direction in response to climate change based on governance, strategy, risk management, indicators and targets.

Governance

An ESG working group has been established to assist the Board in overseeing, reviewing, and addressing sustainability-related issues, including climate change. The Group reviews its annual performance in climate change adaptation and the progress toward achieving targets to ensure the effectiveness of its climate-related risk management.

Strategies

In response to climate change, the Group faces physical risks such as flooding, extreme weather events, or rising temperatures, as well as transition risks arising from shifts in policy, regulation, and market dynamics. Adopting the risk categories recommended by the Task Force on Climate-related Financial Disclosures (TCFD), the Group identifies and analyses risks based on its business nature and operations. This process integrates national policies, industry trends, and stakeholder concerns to develop robust mitigation strategies, aiming to minimize the adverse impacts of climate change on the Group's business and financial performance.

Risk Categories		**Risk Description**	**Countermeasures**
Physical risks	Acute risks	Acute climatic events arising from climate change such as floods, snowstorms, and typhoons may cause damage to production facilities and pose occupational safety risks to employees, increasing operational uncertainties.	We have formulated natural disaster contingency plans with clear protocols for extreme weather such as thunderstorms and typhoons. Responses are triggered per the Emergency Preparedness and Response Control Procedures to minimize potential losses. Regular inspections and maintenance of property facilities are conducted to enhance climate resilience.
	Chronic risks	Long-term shifts in climate patterns, such as gradual changes in temperature and precipitation levels, as well as rising sea levels.	

Risk Categories		Risk Description	Countermeasures
Transition risks	Policy and Law	The introduction of new policies and regulations may lead to increased compliance costs and potential legal liabilities.	We closely monitor policy dynamics and regulatory shifts to promptly keep abreast of the changes in related laws and regulations. By proactive planning and aligning our operations with emerging requirements, we ensure incremental compliance and mitigate the risk of non-conformity.
	Technology	Adopting new technologies or equipment for climate adaptation may involve risks such as technical immaturity, equipment failure, or high maintenance costs.	We adopt a phased approach to technology integration, utilizing pilot projects to evaluate effectiveness and feasibility and mitigate large-scale deployment risks. We maintain long-term partnerships with technology providers to ensure our services remain adaptive to evolving technology environment and market demand.
	Market	As policy direction, market trends and low-carbon awareness strengthen, market preferences are shifting toward greener, low-carbon products and service models.	We consider the further integration of environmental and low-carbon strategies into our management framework. By enhancing consumer communication regarding our green attributes, we have fully upgraded our low-carbon management systems.
	Reputation	Increasing stakeholder scrutiny regarding climate action means that failure to meet expectations could adversely impact the Group's corporate reputation.	We continuously track evolving stakeholder expectations and proactively advance climate-related initiatives.

Opportunity Categories		Opportunity Description	Countermeasures
Opportunities	Technology	The application of smart technologies provides innovative solutions that enable enterprises to achieve green operations while reducing costs and enhancing efficiency.	We plan to launch products and services with environmentally friendly attributes and promote intelligent operations for our projects.
	Resource efficiency	By implementing various green operation measures related to energy conservation and emission reduction, water resource management, and waste management, the Group can reduce its operating costs.	We will adopt more efficient transportation methods, recycle and reuse resources, carry out commissioning and upgrades of the Group's existing operational facilities, as well as establish and utilise a digital energy consumption monitoring and management platform.

The relevant climate risks have had no substantial effect on our Company's financial position, financial performance and cash flows during the Reporting Period, nor do we expect such climate risks to affect our financial position, financial performance and cash flows in the short, medium or long term. Due to the nature of our services, our services and assets are not particularly prone to climate-related physical and transition risks and opportunities. Therefore, the extent to which our services and assets are vulnerable to such climate-related physical and transition risks and opportunities, nor the amount of capital expenditure, financing or investment deployed towards climate-related risks and opportunities, is not disclosed in the Report.

Risk Management

The Group is devoted to effectively managing and responding to risks on climate change in operation and formulating corresponding procedures on responding to emergencies on extreme weather and other physical risks. In case of extreme weather, the Quality Management Department of the Group arranges employees to release reminders and notes to property owners and actively carries out safety inspections on public facilities and equipment and carries out structural reinforcement, thermal insulation, cooling and other corresponding measures to prepare for emergencies based on the alarm and information released by national and local meteorological departments and governments as well as reports of local mainstream media. In addition, based on actual conditions on extreme weather, the Group initiates the corresponding handling measures based on the Procedures for Emergency Preparation and Response Control to minimise any potential losses.

For natural disasters caused by climate change, the Group carries out the following work:

- Conventional prevention and control

  Drawing on historical climate data and operational experience, the Group conducts regular inventory audits and facility safety inspections. We proactively procure essential supplies and implement precautionary measures such as anti-slip, anti-freeze, and thermal insulation protocols at strategic locations and critical nodes to ensure emergency readiness;

- Dedicated personnel for early warning

  A dedicated personnel of administrative department shall pay attention to climate change warning and issue tips and precautions to owners at the first opportunity;

- Unified deployment

  In anticipation of natural disasters, the regional branches initiate unified deployment by issuing emergency management notices. Each project site executes risk mitigation protocols in an orderly manner based on the Emergency Preparedness and Response Control Procedures and site-specific conditions, while maintaining real-time feedback and reporting to the Company.

Metrics and targets

In response to the global challenge of climate change, the Group systematically collects, calculates, and analyses carbon emissions and energy consumption data by adhering to the GHG Protocol Corporate Accounting and Reporting Standard based on the development planning of the Group, so as to ensure the consistency and comparability of our metrics. Following a comprehensive review of our prior-year carbon footprint and energy performance, the Group has formulated forward-looking emission reduction targets, which are cascaded to various management levels and project sites, with progress regularly evaluated to ensure accountability. We remain committed to the principles of transparency and responsibility, proactively disclosing our carbon emission metrics.

Our climate-related targets are as follows:

By 2026, the Group aims to maintain effective control over GHG emissions (Scope 1 and Scope 2), with a reduction of approximately 10% in gross GHG emission intensity as compared to 2025. We strive to achieve a year-on-year reduction in total energy consumption.

6. TALENT RECRUITMENT AND COMMON GROWTH

The Group strictly abides by the Civil Code of the People's Republic of China, the Labour Law of the People's Republic of China, the Labour Contract Law of the People's Republic of China, the Social Security Law of the People's Republic of China and other relevant laws and regulations of the state and gradually improves the human resources systems and management systems of the Group. We fully guarantee the legitimate interests of employees, distribute employees' remuneration with sufficient amount on time and contribute to social insurance and housing provident funds in a timely manner.

6.2 Remuneration mechanism

In accordance with relevant laws and regulations and following the basic principles of "one precondition", "two fairness" and "three matching", the Group has set out specific standards on the salary, bonus, welfare and other remunerations of employees. We pay monthly salary to our employees and distribute quarterly/annual performance-based bonuses based on their performance appraisal. Meanwhile, in order to stimulate and attract outstanding talents and access to external talent markets, improve the attractiveness of the Group to key talents and enhance the competitiveness of the Group in the talent market, we make exceptions to the regular position-based remuneration when we formulate the remuneration for employees who made outstanding contributions to the Group and individuals with extraordinary talent.

The Group puts people first and provides employees with effective care and guarantees. We endeavour to protect the remuneration, working hours, equal opportunities, diversity and anti-discrimination of employees, adhere to equal remuneration for equal work and equality of male and female employees, prohibit the employment of child labour and eliminate forced labour. We also make sure these are equal employment opportunities and labour guarantees for employees with different nationalities, races, genders, religions and cultural backgrounds. In terms of holidays and working hours, the Group abides by national laws and regulations of the PRC and compensates employees with overtime pay or leaves in case of working overtime.

6.3 Promotion Channels

The Group implements the Administrative System on Job Changes of Employees and other relevant rules. The promotion of employees shall meet the following conditions:

- Outstanding professional ethics, sense of responsibility and dedication as well as strong desire for success;
- Strong learning ability and problem-solving ability;
- Outstanding team spirit and influence on others; and
- Outstanding individual working ability and work output;

During the Reporting Period, 2 employees were promoted as middle management members through internal promotion.

In the future, the Group will:

- Continuously improve the management of talents pools and carry out the reserve and development of talent pools.

- Conduct normal debriefing reviews. We will arrange three parties' (human resources, superiors and business staff) debriefing reviews on employees having been promoted and becoming full-time employees and adjust the positions of disqualified employees on time.

The Group will also normalise the reporting review through a 360 degree full-dimension assessment mechanism. We shall carry out three-party (human resources, superiors, business) reporting review for promotion and regular staff quarterly, and adjust positions in time for unqualified personnel.

6.4 Anti-Child Labour and Forced Labour

In accordance with the Law of the People's Republic of China on the Protection of Minors, the Provisions on Prohibition of Child Labour and other laws and regulations of the PRC, the Group prohibits the employment of minors below 18 years old. We follow strict review procedures in recruitment, including verifying the identity cards and relevant valid certificates of applicants and background investigation on applicants to avoid misuse or use of information by mistakes. During the Reporting Period, the Group recorded no employment of child labour and other violations of laws and regulations.

If child labour or forced labour is found, we will stop his/her work immediately and carry out an investigation to identify the loophole, then implement remedial measures to prevent such incident from happening again.

During the Reporting Period, the Group recorded no labour disputes arising from the violation of laws and regulations or the employment of child labour or forced labour.

7. DEVELOPMENT AND TRAINING

7.1 Promoting employees' growth through trainings and development

During the Reporting Period, the Group gradually improved the training management system and formulated plans on induction tutoring on new employees, the establishment of lecturers team, the building of course base and in-service training for existing employees. It continuously developed trainings to meet the demand for diversified and hierarchical trainings as well as employees' demands for self-development. It has established training systems, structures and occupational development plans for employees with the characteristics of the Group.

During the Reporting Period, we also carried out:

7.2 Courses held for the new employees.

To help new employees understand and be familiar with the development history, corporate culture and common rules and systems of the Group, enhance their sense of belonging and recognition and better implementation of the instructions of the Group, we have held courses for new employees. By participating in the courses, new employees were able to quickly familiarise with each other and be integrated into the corporate environment.

7.3 Trainings on the corporate culture

To help new employees understand and be familiar with the development history, corporate culture and common rules and systems of the Group, enhance their sense of belonging and recognition and better implementation of the instructions of the Group, we have held courses for new employees. New and old employees reviewed the development history of the Group through on-site lectures and developed a better knowledge on the corporate missions, development visions, values and other core cultural concepts.

In the future, our training plan and goals are as follows:

- To establish a training system that aligns with our corporate strategy and to enhance organizational capabilities alongside employee professionalism, the Group will adopt "Empowering the Organization, Activating the Individual" as its core philosophy for 2026. This year, we will launch a comprehensive series of training programs and corporate culture initiatives designed to foster integration and cultural immersion among both new and long-standing employees. Centered on corporate culture development, we will introduce themed activities across four quarters, including the "Spring Trek", "Summer Cooling Relief", "Autumn Sports Meet", and "Corporate Culture Knowledge Competition." These initiatives are designed to encourage employees at all levels to internalize and practice our corporate values through active participation.

- Focusing on critical operational challenges and organizational needs, the Group will systematically advance specialized training programs, such as the "New Employee Integration Camp", "Key Positions Enhancement Program", "Project Manager Excellence Bootcamp" and "Mentorship & Knowledge Transfer" programs. By combining "External Benchmarking" with "Internal Knowledge Sharing", we continuously sharpen the practical expertise and business proficiency of our core teams. We are committed to revitalizing learning resources and fostering a high-performance culture. We are building an integrated "Cloud Classroom–Internal Trainers–Course Library" platform. By developing a Learning Supervision Mechanism, a Trainer Development Closed-loop, and a Course Certification System, we aim to optimize our learning ecosystem, and to cultivate a progressive atmosphere characterized by "Healthy Competition and Continuous Excellence."

8. CARING ABOUT HEALTH AND SAFETY

8.1 Providing a safe working environment

The Group attaches great importance to the health and safety of employees in the workplace. Our Group has obtained the International Quality Management System Certification for Occupational Healthy and Safety Management. In accordance with the Civil Law of the People's Republic of China, Fire Control Law of the People's Republic of China, Occupational Disease Prevention Law of the People's Republic of China, and other relevant laws and regulations, we have formulated a comprehensive administrative system and related systems in the aspects of employee health and safety, mainly including occupational safety education, entry examination, annual health examination, safety accident emergency management, etc. Meanwhile, in summer, we distribute allowances for high temperature to employees as an expression of gratitude to work under high temperature. We also distribute summer drinks, green bean soup and other cool drinks to the front-line staff. We provide employees with cotton overcoats, cotton gloves and heaters in the winter.

Based on the nature of the Group's work, employees are involved in occupational safety-related knowledge to varying degrees in their daily work. We have established relevant systems on the prevention of work-related injuries of employees. We enhance the occupational safety skills of employees through safety education, trainings on standard working procedures of project employees and other means and set out strict requirements on holding the work permits for operations, with details set out below:

- repairing and maintenance companies shall have business licenses and qualification certificates;
- for construction and repairing, working staff shall hold the work permits for operation;
- professional responsible persons shall be arranged on site;
- operators of repairing service plans shall hold aerial work permits and wear safety helmets and belts in aerial operation;
- special employees shall be arranged for operation with fire;
- employees shall hold the work permits for welding operation;
- elevator maintenance employees shall hold the work permits for operation;
- service quality and standards meet regulations or industrial standards;
- providing safety education for employees before taking positions and regularly organising safety trainings on employees; and
- conducting irregular safety inspections.

During the Reporting Period, the Group recorded no violations of regulations related to the working environment and employee health and safety.

The Group had no work-related fatalities reported for the years ended 31 December 2023 and 2024 and the Reporting Period. Nevertheless, there were 119 working days lost due to work injury during the Reporting Period.

To improve employees' happiness, the Group actively organised employees to participate in cultural and sports activities organised by local labour unions, and regularly carried out corporate culture activities in the enterprise. During the Reporting Period, we have carried out heart-warming activities covering various festivals, including traditional handmade activities for the Dragon Boat Festival and Mid-Autumn Festival, Women's Day Care Activities, in order to care for employees' physical and mental health with practical actions.

9. INTELLIGENT MANAGEMENT AND SINCERE SERVICES

9.1 Improving Service Quality

Based on the principles of people-oriented and service-oriented, the Group formulated the standardisation documents of property service quality management, including Management Standards for Cleaning Service, Management Standards for Greening Service, Management Standards for Customer Service, Security Service Management, etc. The Group strengthened service characteristics and quality control through the standardisation of documents.

For the quality management of services, the Group conducts quality inspections on the quality of services on a quarterly basis and is required to rectify problems within the accepted prescribed period for rectification. Meanwhile, we conduct inspections on projects under management through independent third parties and issue corresponding investigation reports. We will solve targeted quality issues of services and guarantee the stable output of the quality of services. We require adopting mobile technology systems with communities in maintaining records on routine inspections, customer service and reception, patrolling in the communities, accident and repairing reporting and other matters. We also monitor the quality of services through the 400 service hotline, handle and conduct call-backs on issues raised by property owners, irregularly inspect the service attitude of employees and point out their deficiencies to rectify and prevent them. We improve service quality through focusing on prevention with regulation as ancillary means, routine tutoring, control of nodes as well as other measures.

In the future, we will improve our service quality through the following measures:

- establish customer service groups, regularly conduct customer visits and provide familial services;
- reinforce and solidify basic service measures, carry out updating and iteration of services and products and provide functional services; and
- expand communication channels with customers and vigorously promote the official WeChat account of the Group besides the 400 customer hotline and smoothen online and offline communication platforms.

In terms of the protection of intellectual property rights, the Group attaches importance to the protection of the benefits of relevant owners of intellectual property rights. We are mainly involved in the protection of intellectual property rights on office software. We procure office software for our daily office work through official channels and strictly abide by relevant laws and regulations for their use in compliance with relevant laws and regulations.

For the protection of property owners' privacy, the Group strictly abides by the Law of the People's Republic of China on the Protection of Rights and Interests of Consumers, the Cybersecurity Law of the People's Republic of China and other relevant laws and regulations. We have established the information management system, specifying the requirements on the privacy of property owners and the legal right to investigate individual illegal activities in the system. We establish separate archives on property owners and set up a special archive room with special responsible persons. Anyone who needs to check the information on property owners has to register before entering the archive room. Computers with customers' archives and information require passwords and are under the professional protection of users. The Group implements an accountability system and it shall report to the general manager room for approval for copying, photocopying and borrowing property owners' information. For the change of property owners' information, the principal responsible person shall initiate the procedures and go through approvals level by level to the general manager room. The change shall be conducted by special employees and the front-line employees from projects under management shall have no right to change arbitrarily.

In the future, we will install surveillance cameras at the reception area and supervise and regulate the standard operation of working employees on the basis of following national laws to guarantee the safety of the electronic information of customers to the maximum extent. Meanwhile, we will monitor the areas for the storage of paper archives, check the corresponding records and effectively supervise persons entering and leaving the areas.

During the Reporting Period, the Group was not involved in violation of regulations in terms of liability for relevant products and services with significant effects.

9.2 Improving Customers' Satisfaction

To meet market expectations and guarantee the consistency of the quality of the Group, the Group has obtained the ISO9001 authentication certificate on international quality management system. We implement standard management in strict compliance with the requirements of systems in the overall operation and production process and conduct applicability and compliance appraisals on the systems each year. We accept the examination and recertification by professional agencies on system certification and the two parties sign contracts for mutual restrictions. Meanwhile, we consistently improve and enhance the quality of services according to the demands of property owners as the starting point to achieve the purpose of meeting market demands.

The Group has set up the 400-0050033 national service hotline and arranged special employees to answer customers' calls. We require our employees to keep effective records on customers' appeals and ask the organisations and employees involved to communicate and reply within half an hour and revert the results to the 400 hotline and carry out special call-backs. The case will be closed when property owners are satisfied with the results and call-backs are required if they are dissatisfied until meeting their satisfaction. For complaints out of reasonable scopes, they will be submitted to superior levels for joint signing before closing. Relevant organizations and individuals involved in deliberate postponement or avoidance or exceeding the required time limit without any good causes will be punished based on the performance of organizations. During the Reporting Period, we received 65 complaints. The closing rate of the complaints of the Reporting Period reached 100%. Also, we continue to follow up with those unhandled cases, so as to make sure property owners are satisfied with most of the results of handled complaints.

In order to obtain customers' opinions and feedback on the services of the Group, we conducted customer satisfaction surveys by means of internal sampling surveys and external third-party joint surveys to further improve customers' satisfaction through the constant improvement of services in the future.

Based on customers' satisfaction surveys and feedback, we responded to customer demands from the following aspects to improve customer satisfaction:

- Launching owner visits or seminars regularly, improving two-way communication, listening to owners' voices, and helping owners to solve problems;
- Further improving and expanding community cultural activities to enrich the lives of property owners; and
- Optimising the front-line management of the managed projects, protecting the rights and interests of customers, and taking privacy protection and security precautions through technological means.

Customer security and safety

The Group strictly complies with Law of the People's Republic of China on Protection of Consumer Rights and Interests, Network Security Law of the People's Republic of China, and other relevant laws and regulations, and in its work, it further understands the actual demands of customers and formulates scientific management standards to protect customers' rights and interests in information safety, personal safety, etc.

- A full-time personnel is designated to be responsible for the property owners' files. The property owners' archives are saved separately and have a separate archive room. Anyone who needs to check the property owners' information has to register before entering the archive room;
- The computers containing customer archives must be accessed by passwords, which are kept by the user; and
- Implementing an accountability mechanism. Copying and borrowing property owners' information must be reported to the general manager room, and must be approved before implementation. The property owners' information change shall be launched by the key personnel and approved by the general manager's office. Change is conducted by dedicated personnel, the front-line employees in managed projects are not allowed to change arbitrarily without authorisation.

In terms of the protection of community security, we integrate technical prevention and safety prevention to guarantee the safety of property owners. Technical prevention mainly consists of the boundary alarming system, internal monitoring system in the communities, access control system for residential buildings, barrier gate systems in the communities, fire prevention systems, facial recognition systems and other systems. We also arrange relevant employees, such as gate sentries, patrols, fire prevention and monitoring personnels and vehicle monitoring personnels, as supplements based on the composition of the systems. We supplement the deficiency of hardware facilities through facial recognition and the registration and verification of the entry and leaving of persons and vehicles to achieve community safety to the greatest extent. The Group supervises the duty performance of employees through intelligent software on the communities used by the Group and reviews the performance of tasks on each project under management each week. We also install anti-surveillance facilities on key positions to conduct sample inspections irregularly and handle issues spotted in time. Relevant responsible persons in cases of gross violations are punished based on management systems on award and punishment. We conduct appraisal on employees at all positions on a monthly basis to solve targeted issues.

For customer health care, the Group strictly implements the Management Standards for Environmental Sanitary Work Rules, and enhanced its performance in garbage classification and transportation, river cleaning, green belt maintenance, and disease control and prevention, and providing property owners with a clean, healthy and hygienic living environment.

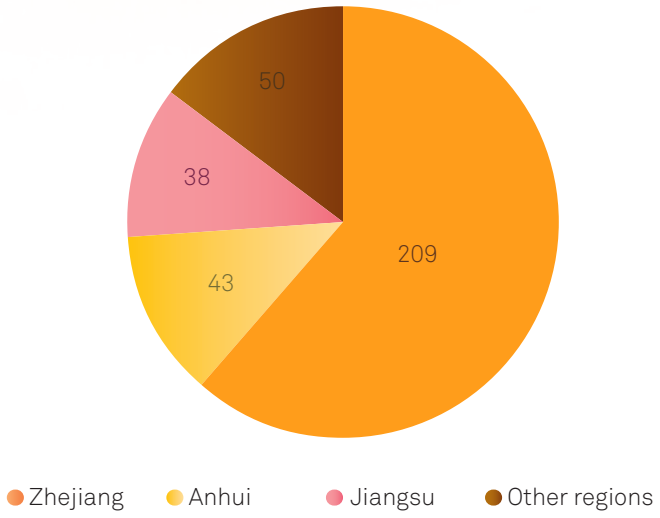
Due to the nature of the business of the Group, which does not involve the manufacturing of products, there were no products which had to be recalled for safety and health reasons during the Reporting Period.

10. SUPPLY CHAIN MANAGEMENT

The Group carries out close cooperation with different types of suppliers through the increasing improvement of the supply chain management system and strictly controls the selection of suppliers for materials procurement and services outsourcing to establish an efficient supply system. Our suppliers mainly include: service providers and subcontractors for cleaning, security, greening/gardening, architecture/decoration environment, fire prevention, equipment repairing and maintenance, energy saving, information, finance, legal, accounting, media and corporate planning and other comprehensive services. During the Reporting Period, the Group strengthens the assessment of suppliers' environmental and social factors based on the ISO9001 quality management system and ISO14001 environmental management system.

The Group has a total of 340 suppliers and the geographical distribution of suppliers is as follows:

Number of Suppliers by Geographical Distribution



10.1 Supplier management process

The Group strictly implements regulations and requirements in the supplier management process based on its Supplier Management Methods.

Supplier development

We collect market data based on the requirements of cost reduction, quality improvement, delivery time reduction, new product development, new business and service outsourcing to develop potential suppliers.

Supplier admission

We have formulated the admission requirements for all suppliers, and specific requirements are as follows:

(1) Having the independent ability to bear civil liability;

(2) Registered operation time for more than one year;

(3) Having a great business reputation;

(4) Having the equipment, resources and professional skills required to perform the contract;

(5) Having good records on paying taxes and social security funds under law;

(6) No major illegal records in business activities in the 3 years prior to the procurement;

(7) No legal disputes or cases in progress; and

(8) Suppliers whose qualifications have been eliminated by the Group are rejected for 2 years; suppliers in the blacklist are rejected for 3 years.

Appraisal on Suppliers

The Group conducts annual appraisals on all suppliers based on actual centralized procurement or outsourcing during the Reporting Period. Materials suppliers are appraised based on a weight of 50%, 20%, 15% and 15% on quality, delivery, price and cooperation, respectively; while outsourcing (including property outsourcing and service outsourcing) suppliers are appraised based on a weight of 70% and 30% on quality and service as well as business, respectively. The scoring standards on quality are set by the corresponding professional departments and are filed with the Audit and Supervision Center.

Based on appraisal results, we classify suppliers into the following levels: satisfied, qualified and unqualified. Suppliers will be considered as having withdrawn when they are involved in one of the following circumstances:

- being assessed as unqualified for two consecutive years;
- having quality issues in supply/service, failing to improve repeatedly or meet requirements after taking rectification measures;
- being involved in breaches of contracts or integrity and other activities with negative influence and failing to rectify such activities;
- being involved in false representations, forgery of documents, pretending shoddy goods to be of high quality, fraudulent pricing, breaching contracts, bribery and other breaches of business ethics during qualification verification, bidding or quoting of fees, performance of contracts and subsequent services; and
- suppliers voluntarily asking for withdrawal with reasonable grounds.

We are committed to conveying our notions of environmental protection, safety and corporate social responsibility to suppliers. When we cooperate, we inform suppliers to strengthen our cooperation in environmental and occupational health and safety protection. We conduct irregular monitoring and inspection over the material suppliers to monitor their performance in environment, health and safety. For the suppliers who do not meet our requirements, we will propose rectification suggestions; for suppliers that still fail to meet our requirements after rectification, we will take corresponding measures such as reducing orders, changing suppliers, etc., so as to manage the environmental and social risks of the supply chains.

Suppliers involved in one of the following circumstances will be listed on the blacklist and publicised in the announcement system of the Group. Procurement departments at all levels are prohibited to select such suppliers for procurement, outsourcing and bid inquiry. Suppliers on the blacklist are not allowed to apply to be included as suppliers within three years:

- being involved in falsification or defrauding in obtaining the registration qualification;
- being involved in bidding collusion or bribery;

- failing to conduct construction, provide products or outsource services based on drawings or bidding documents, resulting in safety accidents or potential safety hazards and refusing to rectify or failing to pass acceptance after rectification;
- failing to pass annual performance appraisal and refusing to rectify or failing to pass acceptance after rectification;
- being involved in significant quality defects or safety accidents within 2 years after the delivery of projects;
- terminating supply and services arbitrarily in the provision of products and services without the approval of the Group and resulting in significant results on the Group; and
- spreading rumors recklessly in the industry and seriously damaging the reputation of the Company.

11. INTEGRITY AND DEVOTED TO DUTY

The Group strictly abides by the Criminal Law of the People's Republic of China, the Law of the People's Republic of China Against Unfair Competition and other laws and regulations of the PRC and consistently improves relevant management mechanisms and systems on anti-corruption. The Group will sign the supplier integrity agreement upon entering into contracts with suppliers. During the Reporting Period, the Group arranged an anti-corruption training for directors and staff. We made "management integrity declarations" at the debriefing meeting in 2025 and arranged special inspection and audit employees on reviews. In addition, the Group established redline management standards on employees, out of which the relevant codes of conduct of employees specify details and punishment of embezzlement, corruption, bribery and other negative activities of employees. Employees involved in the abovementioned activities may be subject to pay cuts, demotion, removal or termination of their employment contracts. The direct responsible person or direct supervisor having known of the above activities of such employees but failed to report may receive verbal warning, demerit, notice of criticism, pay cuts or other punishment. All subsidiaries and branches of the Group arrange anti-corruption training every year. All employees are required to pass the test about the redline management standard after training. Meanwhile, the Group established independent inspection and reporting mailboxes which are safeguarded by special employees. We strictly keep the information of whistle-blowers confidential and require relevant employees to keep the information of whistle-blowers confidential. Relevant employees involved in divulging secrets will receive administrative punishment. The Group has established the special hotline: (0571) 86821030-808 and mailbox sdwyjubao@songdu.com for whistle-blowing. We also have reminders about the "ten prohibitions" of the Group in meeting rooms to promote anti-corruption.

During the Reporting Period, the Group was not involved in corruption cases or lawsuits and there is no pending legal case regarding corrupt practices brought against the Group or its employees.

12. GIVING BACK TO SOCIETY WITH CHARITABLE ACTIVITIES

The Group has been focusing on the quality of services. While achieving rapid corporate development, the Group always actively performs social responsibilities. The Group is devoted to creating a harmonious and happy community environment and a friendly neighbor atmosphere and creating a warm property management model for property owners.

We actively fulfill our corporate civil responsibility and encourage our staff to participate in voluntary service activities. As a cultural enterprise, the Group actively participates in provincial-level and municipal-level online and offline conferences, providing suggestions as a way of contributing to the rapid development of the community's cultural industry and fulfilling our responsibilities to the community.

In order to effectively perform the function of grassroots social governance, the Group has built a comprehensive urban service platform in old communities, based on the ten types of property management services provided in the old community including public cleaning, public order, public security, public greening, public maintenance, public services, ecological environment and emergency security as a foothold to improve standards, expand comprehensive operation services, comprehensive public services and comprehensive consulting services to achieve the service upgrade.

During the Reporting Period, in order to diversify the value-added services of the projects under the management of the Group, various activities have been carried out by the Group to meet the requests of property owners and increase their satisfaction of our services.

The Dragon Boat Festival

As the Dragon Boat Festival returns, the Group launched a series of diverse cultural activities to celebrate this millennium-old tradition. These initiatives were designed to provide property owners with an enriching holiday experience within their own communities, fostering a sense of warmth through traditional festivities and strengthening neighborly interaction and community cohesion.

The Sundy Fan Festival

The 2025 “Sundy Fan Festival” concluded as a resounding success, marking a season defined by joy, collective participation, and strengthened neighborly bonds. Through a diverse array of initiatives – ranging from interactive “Bubble Parties” and “Fun Fishing” sessions to essential community services and talent showcases – the Group continues to champion the creation of vibrant, warm living environments and strives to enhance the sense of belonging within our communities.

Summer Benefits for Frontline Staff

To demonstrate our commitment to the well-being of our frontline service personnel, the Group launched the "Red Synergy · Coolness in Tandem – Honoring Our Urban Guardians" high-temperature heat relief initiative. Members of the Group's senior management visited various project sites to distribute heatstroke prevention supplies and cooling essentials. This initiative serves as a formal recognition of the dedication and resilience of our frontline teams.

Mid-Autumn Festival

As the National Day celebrations coincided with the traditional Mid-Autumn Festival, the Group launched a series of "Home-Centric" community initiatives. Transforming our project sites into "Dual-Festival Jubilee Hubs," we curated diverse interactive experiences to foster a sense of belonging among residents through on-site activities including DIY Mooncake workshops, "Starlight Theater" gala evenings, Lantern Riddle challenges, Lantern-making sessions, and traditional folk games.

TO THE SHAREHOLDERS OF SUNDY SERVICE GROUP CO. LTD
(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Sundy Service Group Co. Ltd (the "**Company**") and its subsidiaries (collectively referred to as the "**Group**") set out on pages 104 to 192, which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (the "**IASB**") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("**HKSAs**") as issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "**Code**"), as applicable to audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTER

Key audit matter is the matter that, in our professional judgment, was of most significance in our audit of the consolidated financial statements of the current period. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

INDEPENDENT AUDITOR'S REPORT

KEY AUDIT MATTER (continued)

Key audit matter

Impairment on trade receivables (including related parties)

We identified impairment of trade receivables as a key audit matter due to the significance of these balances to the consolidated financial statements and the involvement of subjective judgment and estimates made by the directors of the Company in determining the expected credit loss ("**ECL**") for these balances.

As at 31 December 2025, the carrying amounts of the Group's trade receivables were approximately RMB162,530,000 (net of loss allowance of approximately RMB69,579,000), as set out in note 22 to the consolidated financial statements, which represented approximately 28% of total assets of the Group.

The directors of the Company assessed the impairment of trade receivables based on valuation performed by an independent professional valuer (the "**Valuer**").

Impairment of trade receivables was made using simplified approach under International Financial Reporting Standard 9. ECL on trade receivables are estimated based on a collective group basis assessment by its ageing and trade receivables with significant balances are estimated based on individual basis assessment. The management assessed that provision rates are based on internal credit rating as groupings for various debtors by their ageing, probability of default ("**PD**"), loss given default ("**LGD**"), customer's financial position and an assessment of both the current and forecast general economic conditions. At every reporting date, the observed loss rates are reassessed and changes in the forward-looking information are considered.

How our audit addressed the key audit matter

Our procedures in relation to the impairment of trade receivables included:

- Obtaining an understanding of the ECL model applied by the directors of the Company for the estimation of the impairment of trade receivables;
- Evaluating the competence, capabilities and objectivity of the Valuer;
- Understanding and challenging the Valuer's valuation methodology, significant assumptions adopted and significant unobservable inputs used in the valuation, including PD and LGD after taking into consideration of forward-looking information;
- Testing and verifying the data used by the management for the preparation of the ECL model, including ageing of trade receivables, on a sample basis, against services agreements, invoices and other supporting documents;
- Testing, on a sample basis, the mathematical accuracy of the calculation of ECL; and
- Evaluating the disclosures regarding the impairment of trade receivables and the exposure to credit risk of the Group in the consolidated financial statements.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the Company's annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards as issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matter. We describe this matter in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2025

1. GENERAL INFORMATION

Sundy Service Group Co. Ltd (the "**Company**") was incorporated and registered as an exempted company with limited liability in the Cayman Islands under the Companies Law of the Cayman Islands on 5 May 2017 and its shares are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "**Stock Exchange**") with effect from 18 January 2021. The addresses of the registered office and principal place of business of the Company are disclosed in the "Corporate Information" section of the annual report.

The Company is an investment holding company. The principal activities of its subsidiaries are set out in note 38 to the consolidated financial statements. The Company and its subsidiaries are collectively referred to as the "**Group**".

The consolidated financial statements are presented in Renminbi ("**RMB**"). RMB is the functional currency of the Company's subsidiaries established in the People's Republic of China (the "**PRC**"). The functional currency of the Company and the Company's subsidiaries outside the mainland China are Hong Kong dollars ("**HKD**"). The Group translates the financial statements of the Company and the Company's subsidiaries outside mainland China from HKD into RMB.

2. APPLICATION OF NEW AND AMENDMENTS TO IFRSs

In the current year, the Group has applied the following amendments to IFRS Accounting Standards ("**IFRSs**") (which include all applicable individual International Financial Reporting Standards, International Accounting Standards ("**IASs**") and interpretations) as issued by the International Accounting Standards Board (the "**IASB**") that are mandatorily effective for its accounting year beginning on or after 1 January 2025 for the preparation of the Group's consolidated financial statements:

Amendments to IAS 21	Lack of Exchangeability

The application of these amendments to IFRSs has had no material impact on the Group's financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2025

2. APPLICATION OF NEW AND AMENDMENTS TO IFRSs (continued)

New and amendments to IFRSs in issue but not yet effective

The Group has not early applied the following new and amendments to IFRSs that have been issued but are not yet effective:

Amendments to IFRS 9 and IFRS 7	Amendments to the Classification and Measurement of Financial Instruments[1]
Amendments to IFRS 9 and IFRS 7	Contracts Referencing Nature-dependent Electricity[1]
Annual Improvements to IFRS Accounting Standards – Volume 11	Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10 and IAS 7[1]
IFRS 18 and consequential amendments to other IFRSs	Presentation and Disclosure in Financial Statements[2]
IFRS 19 and subsequent amendments	Subsidiaries without Public Accountability: Disclosures[2]
Amendments to IAS 21	Translation to a Hyperinflationary Presentation Currency[2]
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture[3]

[1] Effective for annual periods beginning on or after 1 January 2026

[2] Effective for annual periods beginning on or after 1 January 2027

[3] Effective for annual periods beginning on or after a date to be determined

Except for the new and amendments to IFRSs mentioned below, the directors of the Company anticipate that the application of all other new and amendments to IFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

Amendments to IFRS 9 and IFRS 7 Amendments to the Classification and Measurement of Financial Instruments

The amendments to IFRS 9 clarify the recognition and derecognition for financial asset and financial liability and add an exception which permits an entity to deem a financial liability to be discharged before the settlement date if it is settled in cash using an electronic payment system if, and only if certain conditions are met. An entity that elects to apply the derecognition option would be required to apply it to all settlements made through the same electronic payment system.

The amendments also provide guidance on the assessment of whether the contractual cash flows of a financial asset are consistent with a basic lending arrangement. The amendments specify that an entity should focus on what an entity is being compensated for rather than the compensation amount. Contractual cash flows are inconsistent with a basic lending arrangement if they are indexed to a variable that is not a basic lending risk or cost. The amendments state that, in some cases, a contingent feature may give rise to contractual cash flows that are consistent with a basic lending arrangement both before and after the change in contractual cash flows, but the nature of the contingent event itself does not relate directly to changes in basic lending risks and costs. Furthermore, the description of the term “non-recourse” is enhanced and the characteristics of “contractually linked instruments” are clarified in the amendments.

2. APPLICATION OF NEW AND AMENDMENTS TO IFRSs (continued)

Amendments to IFRS 9 and IFRS 7 Amendments to the Classification and Measurement of Financial Instruments (continued)

The disclosure requirements in IFRS 7 Financial Instruments: Disclosures in respect of investments in equity instruments designated at fair value through other comprehensive income are amended. In particular, entities are required to disclose the fair value gain or loss presented in other comprehensive income during the period, showing separately those related to investments derecognised during the reporting period and those related to investments held at the end of the reporting period. An entity is also required to disclose any transfers of the cumulative gain or loss within equity related to the investments derecognised during the reporting period. In addition, the amendments introduce the requirements of qualitative and quantitative disclosure of contractual terms that could affect the contractual cash flow based on a contingent event not directly relating to basic lending risks and cost.

The amendments are effective for annual reporting periods beginning on or after 1 January 2026, with early application permitted. The amendments are required to be applied retrospectively, with specific exceptions. As a result of the clarification made by the amendments on the derecognition of financial assets and liabilities, the Company can only derecognise financial assets and financial liabilities settled via cheques on the date the cheques have been cleared in the recipient's/creditor's bank account.

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 Presentation and Disclosure in Financial Statements, which sets out requirements on presentation and disclosures in financial statements, will replace IAS 1 Presentation of Financial Statements. This new IFRSs, while carrying forward many of the requirements in IAS 1, introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss; provide disclosures on management-defined performance measures in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. In addition, some IAS 1 paragraphs have been moved to IAS 8 and IFRS 7. Minor amendments to IAS 7 Statement of Cash Flows and IAS 33 Earnings per Share are also made.

IFRS 18, and amendments to other standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted. The application of the new standard is expected to affect the presentation of the statement of profit or loss and disclosures in the future financial statements. The Group is in the process of assessing the detailed impact of IFRS 18 on the Group's consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION

These consolidated financial statements have been prepared in accordance with IFRSs issued by the IASB, and the applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Hong Kong Companies Ordinance.

These consolidated financial statements have been prepared under the historical cost convention, except for the investments that are measured at fair values at the end of each reporting period, as explained in the material accounting policy information set out below.

The preparation of consolidated financial statements in conformity with IFRSs requires the use of certain key assumptions and estimates. It also requires the directors to exercise its judgements in the process of applying the accounting policies. The areas involving critical judgements and areas where assumptions and estimates are significant to these consolidated financial statements, are disclosed in note 4 to the consolidated financial statements.

The material accounting policy information applied in the preparation of these consolidated financial statements are set out below.

Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 December. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties, to determine whether it has control. A potential voting right is considered only if the holder has the practical ability to exercise that right.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date the control ceases.

The gain or loss on the disposal of a subsidiary that results in a loss of control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that subsidiary; and (ii) the carrying amount of the asset (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company, and includes any related exchange reserve. Non-controlling interests (if any) are derecognised.

Intragroup transactions, balances and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Consolidation (continued)

Non-controlling interests represent the equity in subsidiaries not attributable, directly or indirectly, to the Company. Non-controlling interests are presented in the consolidated statement of financial position and consolidated statement of changes in equity within equity. Non-controlling interests are presented in the consolidated statement of profit or loss and other comprehensive income as an allocation of profit or loss and total comprehensive income for the year between the non-controlling shareholders and owners of the Company.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling shareholders even if this results in the non-controlling interests having a deficit balance.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions (i.e. transactions with owners in their capacity as owners). The carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

Business Combination and Goodwill

The acquisition method is used to account for the acquisition of a subsidiary in a business combination. The cost of acquisition is measured at the acquisition-date fair value of the assets given, equity instruments issued, liabilities incurred and contingent consideration. Acquisition related costs are recognised as expenses in the periods in which the costs are incurred and the services are received. Identifiable assets and liabilities of the subsidiary in the acquisition are measured at their acquisition-date fair values, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with IAS 12 *Incomes Taxes* ("**IAS 12**") and IAS 19 *Employee Benefits* respectively;

- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with IFRS 2 *Share-based Payment* at the acquisition date;

- assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard; and

- lease liabilities are recognised and measured at the present value of the remaining lease payments (as defined in IFRS 16 *Leases* ("**IFRS 16**")) as if the acquired leases were new leases at the acquisition date, except for leases for which (a) the lease term ends within 12 months of the acquisition date; or (b) the underlying asset is of low value. Right-of-use assets are recognised and measured at the same amount as the relevant lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Business Combination and Goodwill (continued)

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net amount of the identifiable assets acquired and the liabilities assumed as at acquisition date. If, after re-assessment, the net amount of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

In a business combination achieved in stages, the previously held equity interest in the subsidiary is remeasured at its acquisition-date fair value and the resulting gain or loss is recognised in consolidated profit or loss and other comprehensive income. The fair value is added to the cost of acquisition to calculate the goodwill.

If the changes in the value of the previously held equity interest in the subsidiary were recognised in other comprehensive income (for example, equity investments at fair value through other comprehensive income), the amount that was recognised in other comprehensive income is recognised on the same basis as would be required if the previously held equity interest were disposed of.

Goodwill arising on an acquisition of a business is measured at cost as established at the date of acquisition of the business less any accumulated impairment. For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination, which represents the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

A cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment annually or more frequently whenever there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit (or group of cash-generating units), except that the carrying value of an asset will not be reduced below the highest of its individual fair value less costs of disposal (if measurable), value in use (if determinable) and zero.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Business Combination and Goodwill (continued)

On disposal of the relevant cash-generating unit or any of the cash-generating unit within the group of cash-generating units, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal. When the Group disposes of an operation within the cash-generating unit (or a cash-generating unit within a group of cash-generating units), the amount of goodwill disposed of is measured on the basis of the relative values of the operation (or the cash-generating unit) disposed of and the portion of the cash-generating unit (or the group of cash-generating units) retained, unless the Group can demonstrate that some other method better reflects the goodwill associated with the operation disposed of.

The non-controlling interests in the subsidiary are initially measured at the non-controlling interests proportionate share of the recognised amounts of the acquiree's identifiable net assets at the acquisition date.

Joint Ventures

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

Investments in joint ventures are accounted for in the consolidated financial statements using the equity method and are initially recognised at cost. Identifiable assets and liabilities of the joint venture in an acquisition are measured at their fair values at the acquisition date. The excess of the cost of acquisition over the Group's share of the net fair value of the joint venture's identifiable assets and liabilities is recorded as goodwill. The goodwill is included in the carrying amount of the investment and is tested for impairment together with the investment at the end of each reporting period when there is objective evidence that the investment is impaired. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition, after reassessment, is recognised in consolidated profit or loss.

The Group's share of a joint venture's post-acquisition profits or losses and other comprehensive income is recognised in consolidated profit or loss and other comprehensive income. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in a joint venture equals or exceeds its interest in the joint venture, including any long-term interests that, in substance, form part of the Group's net investment in the joint venture, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint venture. If the joint venture subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Joint Ventures (continued)

The gain or loss on the disposal of a joint venture that results in a loss of joint control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that joint venture and (ii) the carrying amount of the Group's interest in that joint venture, and includes any exchange reserve. If an investment in a joint venture becomes an investment in an associate, the Group continues to apply the equity method and does not remeasure the retained interest.

Unrealised profits on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interests in the joint ventures. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of joint ventures have been changed where necessary to ensure consistency with the policies adopted by the Group.

The Group assesses whether there is any objective evidence that its net investment in the joint venture is impaired. When there is objective evidence of impairment, the entire carrying amount (including goodwill) of the investment is tested for impairment in accordance with IAS 36 *Impairment of Assets* ("**IAS 36**") as a single asset, by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. An impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the net investment in the joint venture. Accordingly, any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the net investment subsequently increases.

Associate

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of an entity but is not control or joint control over those policies. The existence and effect of potential voting rights that are currently exercisable or convertible, including potential voting rights held by other entities, are considered when assessing whether the Group has significant influence. In assessing whether a potential voting right contributes to significant influence, the holder's intention and financial ability to exercise or convert that right is not considered.

Investment in an associate is accounted for in the consolidated financial statements using the equity method and is initially recognised at cost. Identifiable assets and liabilities of the associate in an acquisition are measured at their fair values at the acquisition date. The excess of the cost of acquisition over the Group's share of the net fair value of the associate's identifiable assets and liabilities is recorded as goodwill. The goodwill is included in the carrying amount of the investment and is tested for impairment together with the investment at the end of each reporting period when there is objective evidence that the investment is impaired. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition, after reassessment, is recognised in consolidated profit or loss.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Associate (continued)

The Group's share of an associate's post-acquisition profits or losses and other comprehensive income is recognised in consolidated profit or loss and other comprehensive income. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any long-term interests that, in substance, form part of the Group's net investment in the associate, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after is share of the profits equals the share of losses not recognised.

The gain or loss on the disposal of an associate that results in a loss of significant influence represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that associate; and (ii) the carrying amount of the Group's interest in that associate plus any remaining goodwill relating to that associate, and includes any related exchange reserve. If an investment in an associate becomes an investment in a joint venture, the Group continues to apply the equity method and does not remeasure the retained interest.

Unrealised profits on transactions between the Group and its associate are eliminated to the extent of the Group's interest in the associate. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of the associate have been changed where necessary to ensure consistency with the policies adopted by the Group.

The Group assesses whether there is any objective evidence that its net investment in the associate is impaired. When there is objective evidence of impairment, the entire carrying amount (including goodwill) of the investment is tested for impairment in accordance with IAS 36 as a single asset, by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. An impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the net investment in the associate. Accordingly, any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the net investment subsequently increases.

Foreign Currency Translation

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "**functional currency**"). The consolidated financial statements are presented in RMB, which is different from the Company's functional currency, HKD. As the major revenue and assets of the Group are derived from operations in the PRC, RMB is chosen as the presentation currency to present the consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Foreign Currency Translation (continued)

(b) Transactions and balances in each entity's financial statements

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognised in profit or loss.

Non-monetary items (if any) that are measured at fair values in foreign currencies are translated using the exchange rates at the dates when the fair values are determined.

When a gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is recognised in other comprehensive income. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

(c) Translation on consolidation

The results and financial position of all the group entities that have a functional currency different from the Company's presentation currency are translated into the Company's presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- Income and expenses are translated at average exchange rates (unless exchange rates fluctuate significantly, in which case income and expenses are translated at the exchange rates on the transaction dates); and
- All resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange reserve.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

On disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation is reclassified from equity to profit or loss when the profit or loss on disposal is recognised.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

Depreciation of property, plant and equipment, other than construction in progress, is calculated at rates sufficient to write off their costs less their residual values over the estimated useful lives or annual rate on a straight-line basis. The principal annual rates are as follows:

Equipment and furniture	10% – 33.33%
Electronic equipment	20% – 33.33%
Motor vehicles	20% – 33.33%
Leasehold improvement	10% – 33.33%

The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at the end of each reporting period.

The gain or loss on disposal of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in profit or loss.

Intangible Assets

Intangible assets that are acquired by the Group and that have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment.

Intangible assets acquired in a business combination are recognised separately from goodwill and are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a business combination with finite useful lives are reported at cost less accumulated amortisation and any accumulated impairment, on the same basis as intangible assets that are acquired separately.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Intangible Assets (continued)

Amortisation of intangible assets with finite useful lives is charged to profit or loss on a straight-line basis over the assets' estimated useful lives. The following intangible assets with finite useful lives are amortised from the dates they are available for use and their estimated useful lives are as follows:

Trademark use rights	10 years
Customer relationship	5.5 years
Software	3 years

Both the periods and method of amortisation are reviewed annually.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gain or loss arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, is recognised in profit or loss when the asset is derecognised.

Leases

The Group as lessee

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group applies practical expedient not to separate non-lease components from lease component, and instead account for the lease component and any associated non-lease components as a single lease component.

A right-of-use asset and a lease liability are recognised at the commencement date of a lease when the leased asset is available for use by the Group. Right-of-use assets are stated at cost less accumulated depreciation and impairment losses. Depreciation of right-of-use assets is calculated at rates to write off their cost over the shorter of the asset's useful life and the lease term on a straight-line basis. The principal annual rate is as follows:

Land and buildings	7.5%

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Leases (continued)

The Group as lessee (continued)

Right-of-use assets are measured at cost comprising the amount of the initial measurement of the lease liabilities, lease payments prepaid, initial direct costs and the restoration costs. Lease liabilities include the net present value of the lease payments discounted using the interest rate implicit in the lease if that rate can be determined, or otherwise the Group's incremental borrowing rate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease term so as to produce a constant periodic rate of interest on the remaining balance of the lease liability.

The lease payments include (if any):

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liabilities and hence are charged to profit or loss in the accounting period in which they are incurred.

Payments associated with short-term leases and leases of low-value assets are recognised as expenses in profit or loss on a straight-line basis over the lease terms. Short-term leases are leases with an initial lease term of 12 months or less and do not have a purchase option. Low-value assets are assets of value, when new, below US$5,000.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Leases (continued)

The Group as lessee (continued)

The Group presents right-of-use assets, that do not meet the definition of investment property or inventory, as a separate line item on the consolidated statement of financial position.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

The Group as lessor

(a) Operating leases

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to the ownership of an underlying assets to the lessee. If this is not the case, the lease is classified as an operating lease. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis.

When the Group is an intermediate lessor, the sub-leases are classified as a finance lease or as an operating lease with reference to the right-of-use asset arising from the head lease. If the head lease is a variable lease that do not depend on an index or rate to which the Group applies the exemption described in lessee as aforesaid, then the Group classifies the sub-lease as an operating lease.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Property Held for Sale

Properties held for sale are stated at the lower of cost and net realisable value. Costs of properties include acquisition costs, prepaid land lease payments, construction costs, borrowing costs capitalised and other direct costs attributable to such properties. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

Inventories

Inventories are initially stated at cost and subsequently carried at the lower of cost and net realisable value. Cost is determined using the weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

Contract liabilities

A contract liability is recognised when the customer pays non-refundable consideration before the Group recognises the related revenue. A contract liability would also be recognised if the Group has an unconditional right to receive non-refundable consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised.

Recognition and Derecognition of Financial Instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when the Group becomes a party to the contractual provisions of the instruments.

Financial assets are derecognised when the contractual rights to receive cash flows from the assets expire; the Group transfers substantially all the risks and rewards of ownership of the assets; or the Group neither transfers nor retains substantially all the risks and rewards of ownership of the assets but has not retained control on the assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received is recognised in profit or loss.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid is recognised in profit or loss.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Financial Assets

Financial assets are recognised and derecognised on a trade date basis where the purchase or sale of an asset is under a contract whose terms require delivery of the asset within the timeframe established by the market concerned, and are initially recognised at fair value, plus directly attributable transaction costs except in the case of financial assets at fair value through profit or loss (the "**Financial assets at FVTPL**"). Transaction costs directly attributable to the acquisition of investments at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets of the Group are classified under the following categories:

(i) Financial assets at amortised cost

Financial assets (including trade and other receivables, restricted bank balances and cash and cash equivalents) are classified under this category if they satisfy both of the following conditions:

- the assets are held within a business model whose objective is to hold assets in order to collect contractual cash flows; and

- the contractual terms of the assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

They are subsequently measured at amortised cost using the effective interest method less loss allowance for expected credit losses.

(ii) Financial assets at FVTPL

Financial assets are classified under this category if they do not meet the conditions to be measured at amortised cost and the conditions of debt instruments at fair value through other comprehensive income unless the Group designates an equity investment that is not held for trading as financial assets at fair value through other comprehensive income on initial recognition.

Financial assets at FVTPL are subsequently measured at fair value with any gains or losses arising from changes in fair values recognised in profit or loss. The fair value gains or losses recognised in profit or loss are net of any interest income and dividend income. Interest income and dividend income are recognised in profit or loss.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Loss Allowances for Expected Credit Losses

The Group recognises loss allowances for expected credit losses on financial assets at amortised cost. Financial assets at FVTPL are not subject to the expected credit losses assessment. Expected credit losses are the weighted average of credit losses with the respective risks of a default occurring as the weights.

At the end of each reporting period, the Group measures the loss allowance for a financial instrument at an amount equal to the expected credit losses that result from all possible default events over the expected life of that financial instrument ("**lifetime expected credit losses**") for trade receivables, or if the credit risk on that financial instrument has increased significantly since initial recognition.

If, at the end of the reporting period, the credit risk on a financial instrument (other than trade receivables) has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to the portion of lifetime expected credit losses that represents the expected credit losses that result from default events on that financial instrument that are possible within 12 months after the reporting date ("**12-month ECL**").

(i) Significant increases in credit risk

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the reporting date with that assessed at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in a financial instrument's external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor;
- existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group;
- an actual or expected internal credit rating downgrade for the borrower;
- significant increases in credit risk on other financial instruments of the same borrower;

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Loss Allowances for Expected Credit Losses (continued)

(i) Significant increases in credit risk (continued)

- significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements, which are expected to reduce the borrower's economic incentive to make scheduled contractual payments or to otherwise have an effect on the probability of a default occurring; and

- significant adverse changes in the expected performance and behaviour of the borrower.

The Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if (i) the financial instrument has a low risk of default; (ii) the debtor has a strong capacity to meet its contractual cash flow obligations in the near term; and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the debtor to fulfil its contractual cash flow obligations.

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collateral held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate a more lagging default criterion is more appropriate.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Loss Allowances for Expected Credit Losses (continued)

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

(a) significant financial difficulty of the issuer or the borrower;

(b) a breach of contract, such as a default or past due event;

(c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or

(d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

ECL are a probability-weighted estimate of credit losses over the expected life of the financial instrument. The maximum period considered when estimating ECL is the maximum contractual period over which the Group is exposed to credit risk.

In measuring ECL, the Group takes into account reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forecasts of future economic conditions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Loss Allowances for Expected Credit Losses (continued)

(v) Measurement and recognition of ECL (continued)

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Where ECL is measured on a collective basis or cater for cases where evidence at the individual instrument level may not yet be available, the financial instruments are grouped on the following basis:

- Nature of financial instruments (i.e. the Group's trade and other receivables from individual customers, amounts due from related parties are each assessed as a separate group. Trade receivables from customers which significant balances are assessed for expected credit losses on an individual basis); and

- Past-due status.

The grouping is regularly reviewed by management of the Group to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables where the corresponding adjustment is recognised through a loss allowance account.

Cash and Cash Equivalents

Cash and cash equivalents represent cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term highly liquid investments which are readily convertible into known amounts of cash and subject to an insignificant risk of change in value, having been within three months of maturity at acquisition. Cash and cash equivalents are assessed for ECL in accordance with the policy set out in note 5(b).

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Financial Liabilities and Equity Instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under IFRSs. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

Financial liabilities

Financial liabilities (including trade and other payables) are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the group entities are recorded at the proceeds received, net of direct issue costs.

Revenue and Other Income Recognition

Income is classified by the Group as revenue when it arises from the sale of goods, the provision of services or the use by others of the Group's assets under leases in the ordinary course of the Group's business.

Revenue is recognised when control over a product or service is transferred to the customer at the amount of promised consideration specified in a contract to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties. For a contract where the period between the payment by the customer and the transfer of the promised product or service exceeds one year, the consideration is adjusted for the effect of a significant financing component. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

The Group recognises revenue when it satisfies a performance obligation by transferring control over a product or service to a customer. Depending on the terms of a contract and the laws that apply to that contract, a performance obligation can be satisfied over time or at a point in time. A performance obligation is satisfied over time if:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

FOR THE YEAR ENDED 31 DECEMBER 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Revenue and Other Income Recognition (continued)

If a performance obligation is satisfied over time, revenue is recognised by measuring the progress towards complete satisfaction of that performance obligation, using output method that depicts the Group's performance in transferring control of goods or services promised to a customer. Output method recognises revenue on the basis of direct measurement of the value to the customer of the goods or services transferred to date relative to the remaining goods or services promised under the contract. Otherwise, revenue is recognised at a point in time when the customer obtains control of the product or service.

Property management services

For property management services, the Group recognises revenue equal to the amount for which the Group has the right to invoice based on the value of the performance completed on a monthly basis.

For property management services income from properties managed under lump sum basis, where the Group acts as principal and is primarily responsible for providing the property management services to the property owners, the Group recognises the fee received or receivable from property owners, as its revenue and all related property management costs as its cost of sales.

Value-added services to non-property owners

Value-added services to non-property owners mainly include consulting services, sales assistance and pre-delivery services. The Group agrees the price for each service with the customers upfront and issues the monthly bill to the customers which varies based on the actual level of service completed in that month.

Community value-added services

Community value-added services mainly include property repair and maintenance, waste cleaning, society retailing, utility fee collection, remodelling and decoration and community space services. Revenue from services is recognised when the related community value-added services are rendered. Payment of the transaction is due immediately when the community value-added services are rendered to the customer.

Hotel business

Hotel business mainly includes hotel room charge and provision of food and beverage and ancillary services. Except for revenue from food and beverage and ancillary services which is recognised at the point in time when the services are rendered, revenue from other hotel business services is recognised over time in the accounting period in which the services are rendered.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Revenue and Other Income Recognition (continued)

Interest income is recognised using the effective interest method.

Dividend income is recognised when the shareholders' rights to receive payment are established.

Rental income is recognised on a straight-line basis over the lease term.

Employee Benefits

(a) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(b) Pension obligations

The Group contributes to defined contribution retirement schemes which are available to all employees. Contributions to the schemes by the Group and employees are calculated as a percentage of employees' basic salaries. The retirement benefit scheme cost charged in profit or loss represents contributions payable by the Group to the funds.

(c) Termination benefits

Termination benefits are recognised at the earlier of the dates when the Group can no longer withdraw the offer of those benefits and when the Group recognises restructuring costs and involves the payment of termination benefits.

Borrowing Costs

Borrowing costs are recognised in profit or loss in the year in which they are incurred.

Government Grants

A government grant is recognised when there is reasonable assurance that the Group will comply with the conditions attaching to it and that the grant will be received.

Government grants relating to income are deferred and recognised in profit or loss over the period to match them with the costs they are intended to compensate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Government Grants (continued)

Government grants that become receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Taxation

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which those deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and do not give rise to equal taxable and deductible temporary differences.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, an associate and joint ventures except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Taxation (continued)

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies IAS 12 requirements to recognise a deferred tax asset (to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised) and a deferred tax liability for all deductible and taxable temporary differences associated with the right-of-use assets and the lease liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Segment Reporting

Operating segments and the amounts of each segment item reported in the financial statements are identified from the financial information provided regularly to the Group's chief operating decision maker ("**CODM**", identified as the most senior executive management) for the purpose of allocating resources and assessing the performance of the Group's various lines of business.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of productions processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

Related Parties

A related party is a person or entity that is related to the Group.

(a) A person or a close member of that person's family is related to the Group if that person:

(i) has control or joint control over the Group;

(ii) has significant influence over the Group; or

(iii) is a member of the key management personnel of the Company or of a parent of the Company.

(b) An entity is related to the Group (reporting entity) if any of the following conditions applies:

(i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).

(ii) One entity is an associate or a joint venture of the other entity (or an associate or a joint venture of a member of a group of which the other entity is a member).

(iii) Both entities are joint ventures of the same third party.

(iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.

(v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.

(vi) The entity is controlled or jointly controlled by a person identified in (a).

(vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

(viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Company or to a parent of the Company.

(ix) Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Impairment of Assets (excluding Financial Instruments and Goodwill)

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of any impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value-in-use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro-rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Contingent Liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

Events after the Reporting Period

Events after the reporting period that provide additional information about the Group's conditions at the end of the reporting period or those that indicate the going concern assumption is not appropriate are adjusting events and are reflected in the consolidated financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

4. KEY ESTIMATES

Key Sources of Estimation Uncertainty

In the application of the Group's accounting policies, which are described in note 3, the management of the Group is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

4. KEY ESTIMATES (continued)

Key Sources of Estimation Uncertainty (continued)

The following is the key assumption concerning the future, and other key sources of estimation uncertainty at the end of each reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next twelve months.

(a) Impairment for trade and other receivables

The Group estimates impairment losses for bad and doubtful debts by using expected credit loss model. Expected credit loss on trade receivables are estimated based on a collective group basis assessment by its ageing and trade receivables with significant balances are estimated based on individual basis assessment. The management assessed that provision rates are based on internal credit rating as groupings for various debtors by their ageing, probability of default ("**PD**"), loss given default ("**LGD**"), customers' financial position and an assessment of both the current and forecast general economic conditions. At every reporting date, the observed loss rates are reassessed and changes in the forward-looking information are considered.

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group's trade receivables are disclosed in note 22.

The Group measures loss allowance equal to a 12-month ECL for other receivables. In determining the ECL of other receivables including amounts due from related parties, the management of the Company makes periodical individual assessment on the recoverability of the receivables by taking into account their past payment history, credit rating of the debtors and the forward-looking information that is available without undue cost or effort, and considering the debtors operate in industry. The amounts of ECL reflect changes in credit risk since initial recognition and is sensitive to changes in estimates. As at 31 December 2025, the aggregate carrying amount of other receivables were approximately RMB32.5 million (2024: RMB21.7 million). The information about the ECL and the Group's other receivables is disclosed in note 22.

Where the expectation is different from the original estimate, such difference will impact the carrying amount of trade and other receivables and doubtful debt expenses in the period in which such estimate has been changed.

(b) Fair value estimation

Financial assets at fair value through profit or loss are carried at the consolidated statement of financial position at fair value. The Group's financial controller works closely with the qualified external valuers to determine the appropriate valuation techniques and inputs for fair value measurements. The Group uses valuation techniques that include inputs that are not based on observable market data to estimate the financial assets at fair value through profit or loss which details are set out in note 6.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2025

4. KEY ESTIMATES (continued)

Key Sources of Estimation Uncertainty (continued)

(c) Recognition of deferred tax assets

Deferred tax assets in respect of deductible temporary differences are recognised and measured based on the expected manner of realisation or settlement of the carrying amount of the relevant assets and liabilities, using tax rates enacted or substantively enacted at the end of each reporting date. In determining the carrying amounts of deferred tax assets, expected taxable profits are estimated which involves a number of assumptions related to the operating environment of the Group and require a significant level of judgement on the part of the directors. Any change in such assumptions and judgement would affect the carrying amounts of deferred tax assets to be recognised and hence the net profit in future years.

(d) Property, plant and equipment and depreciation

The Group determines the estimated useful lives, residual values and related depreciation charges for the Group's property, plant and equipment. This estimate is based on the historical experience of the actual useful lives and residual values of property, plant and equipment of similar nature and functions. The Group will revise the depreciation charge where useful lives and residual values are different to those previously estimated, or it will write-off or write-down technically obsolete or non-strategic assets that have been abandoned or sold.

(e) Determination of the net realisable values of property held for sale

Properties held for sale are stated at the lower of cost and net realisable value in accordance with the material accounting policy as disclosed in note 3 to the consolidated financial statements. Management estimates the net realisable values of the Group's property held for sale based primarily on the latest market conditions. The Group carries out an review at the end of each reporting period by comparing the costs and recent prices for similar properties in similar locations and conditions.

5. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: foreign currency risk, credit risk, liquidity risk and interest rate risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(a) Foreign Currency Risk

The Group's businesses are principally conducted in RMB and most of its business transactions, assets and liabilities are principally denominated in the functional currencies of the group entities which is RMB. The Group is subject to foreign currency risk mainly arising from bank balances, which are denominated in Australian dollars. The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group will monitor its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

5. FINANCIAL RISK MANAGEMENT (continued)

(a) Foreign Currency Risk (continued)

The carrying amount of the Group's foreign currency denominated monetary assets at the end of each reporting period are as follows:

	2025 RMB'000	2024 RMB'000
Assets		
Australian dollars	**42,237**	43,241

Sensitivity analysis

The following table details the Group's sensitivity to a 5% (2024: 5%) increase and decrease in RMB against the relevant foreign currency 5% (2024: 5%) represents management assessment of the reasonably possible change in foreign exchange rates. The sensitivity rates include only outstanding foreign currency denominated monetary items and adjust their translation at the end of the reporting period for a 5% (2024: 5%) change in foreign currency rates. A positive number below indicates an increase in post-tax profit for the year where RMB weakens 5% (2024: 5%) against the relevant currency. For a 5% (2024: 5%) strengthening of RMB against the relevant currency, there would be an equal and opposite impact on the post-tax profit and the amounts below would be negative.

	2025 RMB'000	2024 RMB'000
Assets		
Australian dollars		
Impact on profit for the year	**(2,112)**	(2,162)

(b) Credit Risk

Credit risk refers to the risk that a counterparty will default on its contractual obligation resulting in a financial loss to the Group. The Group's credit risk is primarily attributable to cash at bank and trade and other receivables. Management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis. The Group does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets. However, the management of the Group will consider collateral or other credit enhancements should the need arise.

In order to minimise the credit risk with the customers, the management of the Group has delegated a team responsible for determination of credit limits and credit approvals. Before accepting any new corporate customer, the Group uses an internal credit scoring system to assess the potential customer's credit quality and defines credit limits by customer. Other monitoring procedures are in place to ensure that follow-up action is taken to recover overdue debts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced. In addition, the Group performs impairment assessment under ECL model upon application of IFRS 9 on trade balances based on collective and individual basis, and other debtor balances individually.

5. FINANCIAL RISK MANAGEMENT (continued)

(b) Credit Risk (continued)

The Group's significant concentration of credit risk by geographical location is the PRC, which accounted for 100% (2024: 100%) of the trade receivables as at 31 December 2025. The Group's significant concentration of credit risk primarily arises when it has significant exposure to related parties. As at 31 December 2025, 8% (2024: 10%) and 25% (2024: 19%) of the trade receivables are due from the largest related party and the five largest related parties from property management services and the corresponding value-added services. Apart from trade receivables from related parties, the Group has large number of customers and there was no significant concentrations of credit risk.

The Group's cash at bank is mainly held with well-known financial institutions. Management does not foresee any significant credit risks arising from these deposits and does not expect that these financial institutions will default and cause losses to the Group.

The Group applies the simplified approach to provide for expected credit loss ("**ECL**") prescribed by IFRS 9, which permits the use of the lifetime expected loss provision for trade receivables. ECL on trade receivables are estimated based on a collective group basis assessment by its ageing and trade receivables with significant balances are estimated based on individual basis assessment. The management assessed that provision rates are based on internal credit rating as groupings for various debtors by their ageing, PD, LGD, customer's financial position and an assessment of both the current and forecast general economic conditions. At every reporting date, the observed loss rates are reassessed and changes in the forward looking information are considered.

Trade receivables have been assessed for impairment on a collective basis based on different credit risk characteristics. Trade receivables are categorised as follows for assessment purpose:

- Trade receivables due from related parties
- Trade receivables due from third parties

For other receivables, the Group has applied 12-month ECL assessment in accordance with IFRS 9 to measure the loss allowance except for those balances that the management considered the credit risk has increased significantly and/or those balances that are considered to be credit impaired. The ECL on other receivables are assessed individually based on historical settlement records, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the end of reporting period.

5. FINANCIAL RISK MANAGEMENT (continued)

(b) Credit Risk (continued)

The Group's internal credit risk grading assessment comprises the following categories:

Internal credit rating	Description	Trade receivables	Other financial assets/other items
Low risk	The counterparty has a low risk of default of counterparties	Lifetime ECL – not credit-impaired	12-month ECL
Doubtful	There has been significant increase in credit risk since initial recognition through information developed internally or external resources	Lifetime ECL – not credit-impaired	Lifetime ECL – not credit-impaired
Loss	There is evidence indicating the asset is credit-impaired	Lifetime ECL – credit-impaired	Lifetime ECL – credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written off	Amount is written off

The tables below detail the credit risk exposures of the Group's financial assets and other items, which are subject to ECL assessment:

5. FINANCIAL RISK MANAGEMENT (continued)

(b) Credit Risk (continued)

Expected loss rates are based on internal credit rating as grouping for various debtors by their ageing, PD, LGD, customers' financial position and both the current and forecast general economic conditions. These rates are adjusted to reflect differences between economic conditions during the periods over which the historical data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables. The Group rebutted the presumption of default under ECL model for trade receivables over 90 days past due based on the historical continuous settlement by the trade debtors with the Group.

In addition to the credit risk management policy of trade and other receivables stated above, the Group considers the probability of default upon initial recognition of assets and considers whether there has been a significant increase in credit risk on an ongoing basis. To assess whether there has been a significant increase in credit risk, the Group compares the risk of default occurring on an asset as at the end of each reporting period with the risk of default as at the date of initial recognition. It considers reasonable and supportive forward-looking information that is available.

The movement in the allowance for impairment of trade receivables and other receivables during the year is as follows:

Impairment of trade receivables

	Note	**Lifetime ECL (not credit-impaired)** RMB'000	**Lifetime ECL (credit-impaired)** RMB'000	**Total** RMB'000
As at 1 January 2024		6,392	26,604	32,996
Disposal of subsidiary		(94)	–	(94)
Impairment losses recognised		7,055	12,769	19,824
Transfer to credit-impaired		(878)	878	–
As at 31 December 2024 and 1 January 2025		12,475	40,251	52,726
Impairment losses recognised		**10,821**	**6,032**	**16,853**
Transfer to credit-impaired		**(2,240)**	**2,240**	**–**
As at 31 December 2025	(i)	**21,056**	**48,523**	**69,579**

The following significant changes in the gross carrying amounts of trade receivables contributed to the increase in the loss allowance:

– Increase in the impairment loss allowance for the years ended 31 December 2025 and 2024 was mainly due to deterioration of ageing profile of trade receivables beyond 2 years.

(i) As at 31 December 2025, approximately RMB18,000,000 (2024: RMB20,500,000) of the gross carrying amount of trade receivables was individually determined to be impaired. The allowances for doubtful debts of approximately RMB60,282,000 (2024: RMB52,504,000) and approximately RMB9,297,000 (2024: RMB222,000) for trade receivables recognised as at 31 December 2025, were made at each reporting date based on a collective group basis assessment and an individual basis assessment respectively by their ageing, PD, LGD, customers' financial position and both the current and forecast general economic conditions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2025

5. FINANCIAL RISK MANAGEMENT (continued)

(b) Credit Risk (continued)

Impairment of other receivables

There was no recent history of default for financial assets included in deposit and other receivables. The Group has assessed that the ECL of deposits and other receivables is insignificant at the end of the reporting period under 12-month ECL model and therefore, in the opinion of directors of the Company, no loss allowance was recognised.

(c) Liquidity Risk

The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

The maturity analysis, based on undiscounted cash flows, of the Group's financial liabilities is as follows:

As at 31 December 2025	**Less than 1 year RMB'000**	**Between 1 and 2 years RMB'000**	**Between 2 and 5 years RMB'000**	**Total RMB'000**
Trade and other payables	**126,399**	**–**	**–**	**126,399**
	126,399	**–**	**–**	**126,399**

As at 31 December 2024	Less than 1 year RMB'000	Between 1 and 2 years RMB'000	Between 2 and 5 years RMB'000	Total RMB'000
Trade and other payables	122,994	–	–	122,994
	122,994	–	–	122,994

(d) Interest Rate Risk

The Group's interest-bearing financial instruments at variable rates at 31 December 2025 and 2024 are cash at bank, and the cash flow interest risk arising from the change of market interest rate on these balances is not considered significant.

The Group's interest-bearing financial instruments at fixed rates as at 31 December 2025 and 2024 are financial assets at FVTPL and exposed to fair value interest rate risk. No sensitivity analysis is presented since the directors consider the exposure of fair value interest rate risk arising from fixed rate financial assets at FVTPL will not be significant in the near future.

Overall, the Group's exposure to interest rate risk is not significant.

5. FINANCIAL RISK MANAGEMENT (continued)

(f) Fair Values

The carrying amounts of the Group's financial assets and financial liabilities at amortised cost as reflected in the consolidated statement of financial position approximate their respective fair values.

6. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following disclosures of fair value measurements use a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair value:

Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.

Level 2 inputs: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs: unobservable inputs for the asset or liability.

The Group's policy is to recognise transfers into and transfers out of any of the three levels as of the date of the event or change in circumstances that caused the transfer.

(b) Disclosure of valuation process used by the Group and valuation techniques and inputs used in fair value measurements:

The Group's financial controller is responsible for the fair value measurements of assets and liabilities required for financial reporting purposes, including level 3 fair value measurements. The Group's financial controller determine the appropriate valuation techniques and inputs used in fair value measurements. The Group's financial controller reports directly to the Board of Directors for these fair value measurements. Discussions of valuation processes and results are held between the Group's financial controller and the Board of Directors at least twice a year.

7. REVENUE (continued)

Revenue expected to be recognised in the future arising from the remaining performance obligation (unsatisfied or partially unsatisfied) at the end of respective periods

For property management services and value-added services to non-property owners, the Group recognises revenue in the amount to which the Group has the right to invoice that corresponds directly with the value of the performance completed to date. The Group has elected the practical expedient whereby it does not disclose the remaining performance obligations for these types of contracts. The majority of the property management agreements do not have a fixed term. The terms of the contracts for value-added services to non-property owners are generally set to expire when the counterparties notify the Group that the services are no longer required and has an original expected duration of one year or less. For community value-added services and rooms operation services in hotel business, services are rendered in a short period of time. For sales of food and beverage in hotels, the performance obligation is satisfied when the control of the food and beverage products is transferred, being at the point when the customer purchases the food and beverage items.

As permitted under IFRS 15, the Group does not disclose the remaining performance obligations for these types of contracts with reasons as disclosed above.

8. SEGMENT INFORMATION

(a) Segment Reporting

The Group manages its businesses by divisions, which are organised by business lines, including property management services and the corresponding value-added services, and hotel business. In a manner consistent with the way in which information is reported internally to the Group's CODM for the purposes of resource allocation and performance assessment, the Group has presented the following segments.

- Property management services and the corresponding value-added services: this segment includes revenue generated from property management services, value-added services to non-property owners and community value-added services, including consulting and pre-delivery service, and other services.

- Hotel business services: this segment includes revenue generated from hotel rooms operation services, leasing of commercial shopping arcades located within the hotel buildings, as well as provision of food and beverage and ancillary services in such premises.

8. SEGMENT INFORMATION (continued)

(b) Segment Results, Assets and Liabilities

For the purposes of assessing segment performance and allocating resources between segments, the Group's senior executive management monitors the results, assets and liabilities attributable to each reportable segment on the following bases:

Segment assets include all tangible, intangible assets and current assets managed directly by the segments. Segment liabilities include all contract liabilities, trade and other payables, lease liabilities and other liabilities attributable to the business operation and managed directly by the segments.

Revenue and expenses are allocated to the reportable segments with reference to sales generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation or amortisation of assets attributable to those segments. The measure used for reporting segment profit is profit before taxation. In addition to receiving segment information concerning profit before taxation, management is provided with segment information concerning revenue (including inter-segment sales), interest income, interest expenses, depreciation and amortisation, loss on disposal of a subsidiary, written off of property, plant and equipment, impairment losses, share of (loss)/profit arising from the activities of the Group's joint ventures and an associate, gain on disposal of investment in an associate, income tax expense, investment in joint ventures, investment in an associate and additions to non-current segment assets used by the segments in their operations. Inter-segment sales are priced with reference to prices charged to external parties for similar orders.

Note:

(i) Pursuant to the rules and regulations of the Cayman Islands and the British Virgin Islands (the "**BVI**"), the Group is not subject to any income tax in the Cayman Islands and the BVI.

For the years ended 31 December 2025 and 2024, Hong Kong Profits Tax is calculated under two-tier profits tax system where the first HK$2 million of estimated assessable profits is taxed at a reduced rate of 8.25% and the remaining of estimated assessable profits is taxed at 16.5%. No provision for Hong Kong Profits Tax has been made as the Group did not earn any income subject to the tax during the years ended 31 December 2025 and 2024.

Under the Law of the PRC on EIT (the "**EIT Law**") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25%. During the year, certain subsidiaries of the Group are entitled to a preferential income tax rate of 20% (2024: 20%) for small and micro enterprises with the first RMB1 million of annual taxable income eligible for 75% (2024: 75%) reduction and the income between RMB1 million and RMB3 million eligible for 75% (2024: 75%) reduction.

Notes:

(i) Impairment loss on trade receivables includes provision of loss allowance of related parties of approximately RMB20,180,000 (2024: RMB10,965,000) and reversal of loss allowance of independent third parties of approximately RMB3,327,000 (2024: provision of loss allowance of RMB8,859,000) for the year ended 31 December 2025.

(ii) Employees of the Group's PRC subsidiaries are required to participate in a defined contribution scheme administered and operated by the local municipal governments. The Group's PRC subsidiaries contribute funds to the scheme to fund the retirement benefits of the employees. The contributions are calculated based on a certain percentage of the employees' salaries as agreed by the local municipal governments. The Group's PRC subsidiaries and its employees are required to make monthly contributions. The only obligation of the Group with respect to the defined contribution scheme is to make the required contribution to the scheme. There is no forfeited contribution under the defined contribution scheme available to reduce the existing level of contributions in future years.

The Group has no other material obligation for the payment of retirement benefits associated with these schemes beyond the annual contributions described above.

Trade receivables are due when the receivables are recognised.

On 26 March 2024, the Company entered into the acquisition of properties and debts settlement framework agreement with Sundy Land Group (as defined in the circular of the Company dated 24 May 2024), an associate of Mr. Yu Jianwu ("**Mr. Yu**"), which is a connected person of the Company (the "**Acquisition of Properties and Debts Settlement Framework Agreement**"). Pursuant to the Acquisition of Properties and Debts Settlement Framework Agreement, the Company agreed to acquire and Sundy Land Group agreed to dispose of the Settlement Properties (as defined in the circular of the Company dated 24 May 2024) in an aggregate consideration of RMB100,050,000, which shall be offset against the total amount of trade receivables under the Property Managements and the Service Agreements for the year ended 31 December 2023, which were due and remained outstanding as at 26 March 2024 on a dollar-for-dollar basis. The transaction was approved by the independent shareholders of the Company at the extraordinary general meeting held on 14 June 2024. The Settlement Properties acquired by the Group to offset the trade receivables, which constitutes a major non-cash transaction, were transferred to the Group during the last quarter of 2024. Details of the Acquisition of Properties and Debts Settlement Framework Agreement were disclosed in the circular of the Company dated 24 May 2024.

(b) Other debtors mainly include (i) deposit for properties management paid to property owners' associations amounted to RMB4,007,000 (2024: RMB4,350,000); (ii) value-added tax recoverable amounted to RMB5,805,000 (2024: RMB7,252,000); (iii) consideration receivables for disposal of subsidiary amounted to RMBnil (2024: RMB2,765,000); (iv) other deposits for utilities service amounted to RMB677,000 (2024: RMB506,100); (v) a loan receivable with gross principal amount of RMB9,000,000 (2024: Nil) were due from one independent third party. The loan is interest-bearing at rates 3% per annum and were repayable on 4 January 2026 and therefore were classified as current assets as at 31 December 2025. All the loan receivable were subsequently settled on 4 January 2026; and (vi) payment on behalf by property owners' associations amounted to RMB1,444,000 (2024: RMBnil).

The Group performs impairment assessment under expected credit loss on other receivables and deposits, which are subject to impairment assessment under IFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition. The ECL are assessed individually for debtors by reference to credit rating of the debtors and forward-looking information that is available without undue cost or effort. The management assessed and considered ECL provision for other receivables is insignificant and no loss allowance is recognised.

(c) Deposits and prepayments mainly include (i) prepayments for maintenance services amounted to RMB1,337,000 (2024: RMB5,248,000); (ii) other deposits amounted to RMB109,000 (2024: RMB225,000); and (iii) prepayment for investment amounted to RMB3,500,000 (2024: RMBnil), for the proposed acquisition of the 100% equity interest of a unlisted company principally engaged in property management services.

29. DEFERRED TAX ASSETS/LIABILITIES (continued)

The following is the analysis of the deferred tax balances (after offset) for consolidated statement of financial position purposes:

	2025	2024
	RMB'000	RMB'000
Deferred tax liabilities	**–**	–
Deferred tax assets	**16,056**	12,629
	16,056	12,629

The Group concluded that the deferred tax asset would be recoverable using the estimated future taxable income expected from 2025 and 2024 onwards based on the approved business plans and budgets for the subsidiary.

At the end of the reporting period the Group has unused tax losses of RMB11,229,000 (2024: RMB13,522,000) available for offset against future profits. No deferred tax asset has been recognised in respect of RMB11,229,000 (2024: RMB13,522,000) due to the unpredictability of future profit streams. Included in unrecognised tax losses are losses of RMB11,229,000 (2024: RMB13,522,000) that will expire from 2028 to 2030 (2024: 2027 to 2029).

All the tax losses of subsidiaries in the Mainland China can be carried forward for a maximum period of five years. Pursuant to the Notice No. 8 issued by the Ministry of Finance and the State Administration of Taxation of the PRC on 6 February 2020, the maximum carried forward period of the tax losses affected by COVID-19 in certain difficult industries, such as hotel industry, is extended from five years to eight years.

According to the PRC's corporate income tax laws and implementation rules, dividends receivable by non-PRC corporate residents from PRC enterprises are subject to a 10% withholding tax, unless reduced by tax treaties or arrangements, for profits earned since 1 January 2008.

The Group has not recognised deferred tax liabilities as at 31 December 2025 in respect of undistributed earnings of RMB198,285,000 (2024: RMB186,082,000) as the Company controls the dividend policy of the subsidiaries and it has been determined that these profits will not be distributed in the foreseeable future.

32. RESERVES

(a) Group

Share premium

Share premium represents the difference between the consideration and the par value of the issued and paid-up shares of the Company.

Capital reserve

Capital reserve represents the reserve arose from the reorganisation of the Group for the purpose of the Company's Listing on the Stock Exchange.

PRC statutory reserves

Statutory reserves are established in accordance with the relevant PRC rules and regulations and the articles of association of the companies comprising the Group which are incorporated in the PRC. These statutory reserves are established until the reserve balance reaches 50% of their registered capital. Transfers to this reserve must be made before distribution of a dividend to equity holders.

For the entities concerned, statutory reserves can be used to cover previous years' losses, if any, and may be converted into capital in proportion to the existing equity interests of equity holders, provided that the balance of the reserve after such conversion is not less than 25% of the entity's registered capital.

Exchange reserve

The exchange reserve comprises all foreign exchange differences arising from the translation of the financial statements for operations outside of mainland China. The reserve is handled with in accordance with the accounting policies set out in note 3.

Capital management

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders by pricing products and services commensurately with the level of risk and by securing access to finance at a reasonable cost. The Group's overall strategy remained unchanged throughout the reporting periods.

The Group monitors its capital structure based on the adjusted net debt-to-capital ratio. For this purpose, adjusted net debt is defined as total debt (which includes interest-bearing loans and lease liabilities) plus unaccrued proposed dividends, less cash and cash equivalents. Adjusted capital represents total equity attributable to equity shareholders of the Company, less unaccrued proposed dividends.

As at 31 December 2025 and 2024, the Group maintained at net cash position.
