Chairman's Statement and Management Discussions

On 16 October 2025, the Group entered into a loan facility agreement ("Loan Facility Agreement") with Karl Thomson Financial Group Limited ("KTFG"). Mr. Lam Kwok Hing, an executive director and the ultimate controlling shareholder of the Company, and Mr. Nam Kwok Lun, an executive director of the Company, are the directors of KTFG. Pursuant to the Loan Facility Agreement, the Group provides an unsecured revolving loan facility of HK\$17,000,000 bearing interest at prime rate as announced from time to time by The Hong Kong and Shanghai Banking Corporation Limited for lending Hong Kong Dollars ("Prime Rate") for a term of two years commencing from the loan effective date and ending on 20 October 2027. Although Mr. Lam and Mr. Nam are directors of KTFG, neither of them is interested in any shares of KTFG or its holding companies. As such, KTFG is not a connected person of the Company under Chapter 14A.07 of Listing Rules.

To the best of the Director's knowledge, information and belief having made all reasonable enquiry, except for the Loan Facility Agreement, all other borrowers are independent third parties.

The carrying amount for each respective period is shown below:–

	As at 31/12/2025 HK\$'000	As at 31/12/2024 HK\$'000

Loan receivables, being one of the financial assets held by the Group, are subject to impairment review at each reporting date under HKFRS 9. When determining the impairment percentage, the Company will make reference to the default rates research report issued by Moody. The impairment losses made as of 31 December 2025 was approximately HK\$3,191,000 which on average was 8.8% to the outstanding loan amount.

The Company is always in the process of identifying suitable investments opportunity with steady income stream to pursue for the surplus cash resource on hand. Currently, the prevailing interest rate offered by The Hongkong and Shanghai Banking Corporation Limited for a 12 months a Hong Kong dollar fixed deposit savings is only 2.1% per annum. Loans granted to the three borrowers can generate an interest rate at 5% or above. By granting the loans to the borrowers, the Company could enhance the return on investment of its surplus cash resources.

Chairman's Statement and Management Discussions

The Company seeks to maintain a low-risk appetite and a balance between risk and return in a rational, stable and prudent manner. The Lender does not carry out large scale promotions and will not provide loan through the use of any intermediaries. The Group is highly selective of clients and only lends to those clients with good reference. Prior to entering into any loan agreement, the Group will take into consideration whether the borrower has recurring income, available assets as securities and results of court debt search reports. During the Period Under Review, there was no write-off of any loan receivables.

The acquisition of the bonds and/or certificate of deposits forms part of the Group's ordinary course of treasury activities in managing its financial assets. The bonds and/or certificate of deposits offer a better return when compared to fixed-term deposit interest rates offered by commercial banks in Hong Kong. Primary objective of these investments is to collect the contractual interest due and principal upon maturity. At time of investment, the Group will consider the acquisition prices, the coupon rate, the maturity date and the background of the issuers.

15. Investments at FVTPL

The Group's investment strategy is to pursue a balanced approach in exploring favourable short-term and long-term investments to, including but not limited to, (a) build a diversified portfolio which can deliver steady income to the Group; (b) offer potential capital gain and (c) invest in sector(s) with long term potential growth. The Group will strive to deliver a diversified investment portfolio which offers potential growth while maintaining a relatively prudent capital management approach.

As at 31 December 2025, the Group held 20 listed equity securities in Hong Kong with the fair value of approximately HK\$239.3 million.

Chairman's Statement and Management Discussions

Notes:

- (a) The principal business of the investee, China Mobile Limited ("China Mobile"), is the provision of communication and information services. As of 31 December 2025, the Group held 2,000,000 shares in China Mobile which represented approximately 0.01% of the total issued shares of China Mobile and approximately 8.03% of the Group's total assets. During the year, the fair value change of approximately HK\$10,200,000 represented unrealised fair value gain of approximately HK\$10,200,000. The Group received a dividend of approximately HK\$9,432,000 during the Period Under Review. China Mobile's revenue has grown steadily from approximately RMB848 billion in year 2021 to RMB1,050 billion in year 2025. For each financial year in last five years, its net profit after taxes was over RMB100 billion. Solid financial performance has demonstrated the strength of its management team. The dividend payout ratio was 75% in year 2025. The Board believes that the investment in China Mobile will bring steady income to the Group.
- (b) None of these investments represented more than 5% of the Group's total assets as at 31 December 2025.

16. Contract assets

The Group is entitled to invoice customers for construction of custom-built electroplating machinery and other industrial machinery based on achieving a series of performance-related milestones. The contract assets represent the amount which the Group is entitled to claim against the customers for the work completed but not yet billed. They are not billed because the agreed performance-related milestones are still under processed. When a performance-related milestone of a certain project is completed, such related contract assets will be transferred to trade receivables.

17. Creditors and accrued charges

The amount payable to creditors and accrued charges as at 31 December 2025 was approximately HK\$139,537,000 which was approximately HK\$15,447,000 higher than the Previous Period. Please refer to note 26 of the financial information of this annual report for more details. The increase was mainly due to the off-setting effect of (a) increase in trade creditors by approximately HK\$16,910,000 (b) decrease in provision for performance related incentive payments payable by approximately HK\$10,072,000 and (c) increase in commission payables to sales agents of HK\$5,272,000.

18. Contract liabilities

From time to time, customers will pay to the Group various performance related milestone payments in accordance with accepted purchase orders or agreed contracts. Contract liabilities represent the Group's obligations to transfer goods or services to customers for which the Group has already received consideration from the customers.

19. Deferred tax under non-current liabilities

The Group has recorded a deferred taxation of approximately HK\$29,214,000 as estimated taxation expenses in relation to the estimated recoverable amount from the Counterparty.

The balance of approximately HK\$2,605,000 represented deferred tax liabilities recognized for accelerated tax depreciation of approximately HK\$245,000, credit of approximately HK\$392,000 for impairment losses on assets, and withholding tax provision for dividend payable by a PRC subsidiary of approximately HK\$2,752,000.

Chairman's Statement and Management Discussions

BUSINESS REVIEW ON ELECTROPLATING EQUIPMENT (UNDER THE TRADE NAME OF "PAL")

Electroplating Equipment-Printed Circuit Boards ("PCB") Sector

This sector is traded through our subsidiary Process Automation International Ltd ("PAL").

During the Period Under Review, the revenue in this business area increased from HK\$211,209,000 in Previous Period to HK\$255,828,000, representing 21.1% rise. Out of this total revenue, from the perspective of installation location, nearly 54.6% were shipments made to PRC (22.7% in Previous Period), 11.8% were shipments made to Israel (nil in Previous Period) and 11.1% were shipments made to the Thailand (3.3% in Previous Period).

Global PCB market was rebound with 12.8% year-to-year growth in 2025, according to Prismark. Historically, two main markets driving our revenue in PCB sector are PCBs used in smartphone and car. While smartphone market maintained a steady growth, the uptick in year 2025 was due to the rising demand for PCBs used in AI servers, high-speed networking and automotive electronics.

According to a preliminary report released by IDC, worldwide smartphone shipments increased by 2.3% year over year in the fourth quarter of 2025 at shipment volume of approximately 336.3 million units. On an annual basis, worldwide shipments recorded a growth of 1.9%.

The rapid expansion of generative AI applications has boosted demand for AI servers and high-speed switches, both require the use of higher-layer count, high-density, and high-performance PCB. The more the layer, the more the electroplating process and hence, demand for electroplating equipment.

Chairman's Statement and Management Discussions

Strong growth segments identified for PCBs:

- AI servers: Many AI mainboards use hybrid architectures – a combination of 20-30 traditional multilayer core layers for power distribution and two to eight HDI layers for ultra-dense signal routing. That is why both multi-layer PCBs and HDI boards saw explosive demand.
- High-speed switches: Required ultra-high layer counts (38-48 layers), benefiting Taiwanese firms like Unimicron, Nan Ya PCB, Tripod, and Kinsus.
- Electric vehicles (EVs): PCB usage per car increased 3-5 times
- Low-orbit satellites & edge computing: Emerging applications boosted demand for high-frequency, high-speed PCBs.

Apart from the growing demand for multi-layer boards and HDI boards, in the carrier board sector, ABF carrier boards also benefited from strong demand for high-end AI chips, while BT carrier boards saw growth driven by a supercycle of simultaneous increases in supply and prices in the memory (RAM) market.

We expect the surging demand for PCBs will continue into year 2026.

Electroplating Equipment-Surface Finishing (“SF”) Sector

This sector is traded through our subsidiary PAL Surface Treatment Systems Ltd (“PSTS”).

The revenue of the SF sector has decreased by 10.6% from approximately HK\$88,300,000 in the Previous Period to approximately HK\$78,936,000 for the Period Under Review. Out of this total revenue, from the perspective of installation location, nearly 32.5% were shipments made to France (nil in Previous Period), 22.5% were shipments made to the USA (6.2% in Previous Period) and 19.4% were shipments made to Mexico (27.9% in Previous Period).

The revenue of SF sector, for past few years, was mainly streamed from multinational companies selling automotive parts.

According to a press release released by ACEA, global new car registrations has slightly increased by 1.8% in 2025. However, overall volumes remain well below pre-pandemic levels.

Electroplating in the automotive industry has declined in recent years mainly due to stricter environmental regulations, sustainability pressures, and the rise of alternative coating technologies such as PVD (Physical Vapor Deposition), which offer better adaptability for modern EV designs and greener production processes.

We expect revenue of SF sector in 2026 will be similar to the current year.

Outlook

More companies are turning to AI to reduce costs, improve accuracy, and accelerate workflows. The statistics show just how deeply AI has penetrated business operations—across industries and organization sizes. The growing usage of AI will benefit our electroplating equipment business. Based on our orders on hands, we expect to see a growth in revenue in next year. However, geoeconomic confrontation, interstate conflict and extreme weather may emerge as downside risks to the expected revenue growth.

BUSINESS REVIEW ON PROPERTY INVESTMENT SEGMENT

Investment properties held as at 31 December 2025:–

City	Property type	GFA (sq.m)	Occupancy rate at 31 December 2025 (%)	Occupancy rate at 31 December 2024 (%)
Shenzhen	Retail shops	3,493	19.0%	70.7%
Shenzhen	Office	12,720	55.7%	49.8%
Hong Kong	Office	1,788	100%	84.2%
Hong Kong	Car parks	NA	100%	83.3%

The occupancy rate is calculated based on lease agreements entered and are still subsisting on or before 31 December 2025.

The occupancy rates for retail shops located in Shenzhen has dropped significantly. Online shopping in China has significantly dampened the traditional retail rental market by reducing demand for physical store space, leading to falling rents and rising vacancy rates in shopping malls.

During the Period Under Review, the Group has recorded rental income of approximately HK\$14,448,000 (the Previous Period: HK\$13,174,000). The fair value of the underlying investment properties held as of 31 December 2025 was approximately HK\$587,873,000 (31 December 2024: HK\$689,387,000).

For the Period Under Review, the Group has recorded a loss on change in fair value of investment properties for approximately HK\$114.1 million, under which approximately HK\$84.7 million was attributable to the investment properties located in China and approximately HK\$29.4 million was attributable to the investment properties located in Hong Kong.

The market value of Shenzhen offices dropped quite significantly in 2025 mainly due to oversupply, persistently high vacancy rates (around 25-30%), and downward rental pressure caused by weak demand and cautious investment sentiment. Despite modest GDP growth, real estate investment contracted sharply, leaving landlords competing aggressively on rents.

In 2025, Hong Kong's office market is experiencing a slow recovery, with prime office demand in Central picking up while overall vacancies remain high due to significant new supply. High supply—roughly 3.5 million sq. ft. in 2025—continues to drive up total vacancy, which surpassed 17% in late 2025. Overall rents are facing continued downward pressure, though some prime buildings in Central are showing signs of stabilization, with some even recording rent increases.

Looking ahead, Shenzhen's office market is expected to remain under pressure, with vacancy rates hovering near 30%. The Group may have to offer incentives and/or rent cuts to drive absorption. On the other hands, Hong Kong is entering a measured recovery phase, with rents stabilizing.

Chairman's Statement and Management Discussions

TREASURY MANAGEMENT

Treasury management refers to investments in various financial assets, including but not limited to, debt instrument, listed stock and deposit products.

Investment policies and objectives

The acquisition of the bonds or debt instruments forms part of the Group's ordinary course of treasury activities in managing its financial assets. The bonds or debt instruments offer a better return when compared to fixed-term deposit interest rates offered by commercial banks in Hong Kong. Primary objective of these investments is to collect the contractual interest due and principal upon maturity. At time of investment, the Group will consider the acquisition prices, the coupon rate, the maturity date and the background of the issuers.

The Group's investment strategy in listed stock is to pursue a balanced approach in exploring favourable short-term and long-term investments to, including but not limited to, (a) build a diversified portfolio which can deliver steady income to the Group; (b) offer potential capital gain and (c) invest in sector(s) with long term potential growth. The Group will strive to deliver a diversified investment portfolio which offers potential growth while maintaining a relatively prudent capital management approach.

Risk management and control measures

1. *Concentration risk*

Concentration risk is the potential for significant losses in a portfolio due to an over-reliance on a single asset, sector, or market. The Group has a policy that investment in one single investee company (or investee group) will not exceed 20% or more of the Group's total assets and investment in one sector or market will not exceed 50% of the Group's total assets. As the market is ever changing, if there is a need to change these thresholds in the future, a board meeting will be convened to consider the then market situation and financial positions of the Group. Disclosure shall be made in its periodic financial reports.

2. *Counterparty risk or Issuer's risk*

Issuer risk is the specific risk that an issuer of a debt security (such as a bond or a certificate of deposit) will default on its payment obligations. At time of investment, the Group will consider the credit rating of the issuer or the financial product itself. When such issuer does not have any credit rating, the Group will evaluate their years of establishment, cash generating capabilities or whether there is any corporate guarantee offered by its parent company. Normally, only investee company (or investee group) with at least more than 10 years of establishment history and its financial statement (or the financial statement of the guarantor) demonstrates positive cash generating capabilities will be considered.

3. *Liquidity risk*

To avoid the risk that the Group cannot meet its short-term financial obligations when they are due, the Group will continuously:

- monitoring its cash flows by performing cashflow forecast,
- managing cash reserves by ensuring enough liquid assets are on hands and
- maintaining access to funding by establishing facilities with banks.

Chairman's Statement and Management Discussions

4. *Permissible and prohibited investments*

The Group will only invest in financial products which are regulated or issued by licensed financial institutes. Preference will be given to financial product which has a ready secondary market which will allow the Group to dispose such financial products when necessary. Prohibited investments include financial products which are not regulated or the underlying assets are located in sanctioned jurisdictions.

Approval oversight and mechanism

As disclosed in its 2024 Interim Report, with the growing revenue contribution from property investment, investment in debts instrument and listed shares, the Board has decided to report its business activities in three segments starting from year 2024. They are electroplating equipment, property investment and treasury management. An investment committee was established in April 2024 to review the Group's investments on regular basis.

1. *Board*

The Board holds the ultimate authority over investment decisions for the Group as a whole. It has delegated certain powers to Investment Committee.

2. *Investment committee*

The terms of reference of the Investment Committee are available on the websites of the Company and the Stock Exchange. The principal functions of the Investment Committee include:

- To review and recommend investment strategies, risk appetite and capital allocations to the Board
- To review, evaluate and approval investment in financial products as far as treasury management segment is concerned
- To assess and determine whether the investment is in the interests of the Company and the shareholders as a whole
- To monitor such investment activities by (a) reviewing reports on investment portfolio, (b) making reference to and reviewing the appropriateness of benchmarks and (c) reviewing the Group's liquidity and funding arrangements

The approval limit of Investment Committee is limited to major transactions as defined in Listing Rules and must not be a connected transaction. If the size of the investment exceeds the size tests of a major transaction, approval must be obtained from the Board before proceeding.

The Investment Committee will meet twice a year.

Chairman's Statement and Management Discussions

3. *Finance Department*

The responsibilities of the Finance Department are more on daily operations and will be:–

- To short-list relevant products for members of investment committee to consider. based on the investment strategies and risk appetite set out by the Investment Committee
- To oversee the execution of acquisition when a financial product is selected by members of investment committee
- To maintain and update the investment portfolio file
- To prepare cashflow forecast
- To prepare the review reports for investment committee meetings
- To set up and maintain banking facilities
- To pass relevant information to company secretarial team before the transaction

4. *Company Secretarial Team*

The Company Secretarial Team is mainly responsible for compliance issues. They are responsible for calculating size tests, making relevant disclosure announcement and submitting relevant forms to Stock Exchange in accordance with Listing Rules. If the transaction size falls outside the authority of Investment Committee, a board meeting will be convened to obtain necessary approval for the transaction before proceeding.

Investments in listed shares

The Group's investment strategy is to pursue a balanced approach in exploring favourable short-term and long-term investments to, including but not limited to, (a) build a diversified portfolio which can deliver steady income to the Group; (b) offer potential capital gain and (c) invest in sector(s) with long term potential growth. The Group will strive to deliver a diversified investment portfolio which offers potential growth while maintaining a relatively prudent capital management approach.

As at 31 December 2025, the fair value of the investments in listed shares was approximately HK\$239,298,000 (31 December 2024: HK\$209,975,000). During the Period Under Review, the Group has received dividend income of approximately HK\$13,172,000 (31 December 2024: HK\$12,017,000) from such investments.

The Group is holding a diversified portfolio which mainly composes of investees who would offer steady dividend payout. Shareholders are advised to refer to the table listed in point (2) under the heading "Other gain or loss" for details.

Chairman's Statement and Management Discussions

Investments in debt instruments

As at 31 December 2025, the carrying value of the investments in debt instruments was approximately HK\$263,851,000 (31 December 2024: HK\$415,442,000). During the Period Under Review, the Group has received interest income of approximately HK\$15,370,000 (31 December 2024: HK\$17,961,000) from such investments.

The Group is holding a diversified debt instruments and most of them are investment grade bonds with a relatively low default risk. The bonds or certificate of deposits offer a better return when compared to fixed-term deposit interest rates offered by commercial banks in Hong Kong. Primary objective of these investments is to collect the contractual interest due and principal upon maturity. At time of investment, the Group will consider the acquisition prices, the coupon rate, the maturity date and the background of the issuers.

Shareholders are advised to refer to the table listed in point (14) under the heading "Investment in debt instrument" for details.

Deposits

For spare fund which we have not yet identified suitable investments, the Group will place it under time deposit or certificate of deposits.

As at 31 December 2025, the fixed time deposits was approximately HK\$358,616,000 (31 December 2024: HK\$96,618,000).

Global growth is uneven, with current geopolitical tensions and trade policy shifts, the Group tends to hold more liquid assets and takes on a more prudent approach towards investments in treasury products.

MATERIAL ACQUISITION AND DISPOSAL

Material acquisitions of assets

Reference is made to the announcements of the Company dated 9 January 2025, 10 April 2025 and 8 July 2025 in relation to the acquisition of deposit products and bonds. Holdings as at 31 December 2025 were disclosed in the sections "Investments in debt instruments" and "Investments at FVTPL" above.

Apart from disclosure as above, the Group has not entered any material transaction during the Period Under Review.

EVENT AFTER THE REPORTING PERIOD

Chairman's Statement and Management Discussions

CONTROLLING SHAREHOLDER'S INTERESTS IN CONTRACTS OF SIGNIFICANCE

No controlling Shareholder or its subsidiaries had a material interest, either directly or indirectly, in any contract of significance, whether for the provision of services or otherwise, to the business of the Group, to which the Company or any of its subsidiaries was a party during the year.

BUSINESS STRATEGIES

Asia Tele-Net and Technology Corporation Limited is an investment holding company based in Asia. As an investment holding company, we hold investments in various disciplines.

For electroplating equipment segment

Through our brand "PAL", it is our mission to apply electroplating technologies in different applications or business segments so that the Group would grow segment by segment. This strategy would also help us to smooth out any, if not all, cyclical effect in one particular segment or particular market and hence to produce a more stable turnover and profitability level for the benefits of shareholders.

For property investment segment

With the properties held on hands, we will continue to seek rental income commensurate with what the market is offering.

For treasury management segment

Treasury management refers to investment in debt instrument, listed stock and deposit products.

The acquisition of the bonds or certificate of deposits forms part of the Group's ordinary course of treasury activities in managing its financial assets. The bonds or certificate of deposits offer a better return when compared to fixed-term deposit interest rates offered by commercial banks in Hong Kong. Primary objective of these investments is to collect the contractual interest due and principal upon maturity. At time of investment, the Group will consider the acquisition prices, the coupon rate, the maturity date and the background of the issuers.

The Group's investment strategy in listed stock is to pursue a balanced approach in exploring favourable short-term and long-term investments to, including but not limited to, (a) build a diversified portfolio which can deliver steady income to the Group; (b) offer potential capital gain and (c) invest in sector(s) with long term potential growth. The Group will strive to deliver a diversified investment portfolio which offers potential growth while maintaining a relatively prudent capital management approach

General

In the normal course of identifying business opportunities, the Company from time to time engages in discussions with other independent third parties for possible business co-operations. At present, the Board confirms that there are no negotiations or agreements relating to any intended acquisitions or realizations which are discloseable under Rule 13.23 of the Listing Rules, neither is the Board aware of any matter discloseable under the general obligation imposed by Rule 13.09 of the Listing Rules, which is or may be of a price-sensitive nature.

Directors' Report

The Directors present their annual report and the audited consolidated financial statements for the year ended 31 December 2025.

PRINCIPAL ACTIVITIES

The Company is an investment holding company mainly engaged in electroplating business, property investment and treasury management. The activities of its principal subsidiaries are set out in note 38 to the consolidated financial statements.

BUSINESS REVIEW

A business review as required under the Companies Ordinance (Chapter 622 of the laws of Hong Kong) is set out in the "Chairman's Statement and Management Discussion" on pages 4 to 22.

SEGMENTAL INFORMATION

An analysis of the Group's revenue and results by segments for the year ended 31 December 2025 is set out in note 6 to the consolidated financial statements.

PRINCIPAL RISKS AND UNCERTAINTIES

The following are the principal risks and uncertainties faced by the Company as required to be disclosed pursuant to the Companies Ordinance (Chapter 622 of the laws of Hong Kong) and are in addition to the matters referred to in the Chairman's Statement and Management Discussion and Analysis.

1. Economic climate and individual market performance

The economic conditions in each geographical area will have a general impact on consumer confidence in that particular geographical area which would in turn affect sales and results of the Group. While the Group has quite a wide footprint in its geographical coverage, we have focused markets in China, Taiwan, US and European countries. Any decline in the general economic conditions of these countries may bring negative effect to the financial results of the Group.

2. Customers' credit risk

Customers' credit risk is the risk of loss due to a customer's non-repayment for products or services the Group sold to them. In order to minimise the credit risk, management of the Group will review the financial strength and credit history of each customer and set up individualized credit limits in order to limit the exposure to each individual customer. Regular meeting is held to review any milestone payments which are fall due. Staff will contact customers and follow up payments which are fall due. In addition, the Group reviews the recoverable amount outstanding at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts.

Directors' Report

3. Contract fulfillment risk

The principal business of our key subsidiaries are sales of tailor-made electroplating equipment. Based on our past experience, staff will discuss and agree technical specifications required by the customers. There are chances that equipment sold may not meet all agreed specifications. In such cases, we will provide alternate designs to the customers and, depending on the circumstances, the incremental cost may or may not be borne by us. If such cases do arise, the profit margin of the Group will normally be reduced as the Group will incur additional cost and may face the risk of paying penalty to the customers due to late completion (depending if any penalty term is agreed).

4. Liquidity risk

In managing the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents which is adequate for the Group's operations.

5. Foreign Currency Risk

Most of the assets and liabilities in the Group were denominated in HK dollars, US dollars and Renminbi. As US dollars are packed with HK dollars, the foreign currency risk faced by the Group is limited. For Renminbi, its appreciation or depreciation will bring positive or negative impact to the Group. During the Period Under Review, Renminbi has appreciated for 2.5% which has brought a positive financial impact on the Group. The Group currently does not have any foreign currency hedging policy. However, the Group will continue to monitor foreign exchange exposure and will consider hedging arrangement should the need arises.

6. Equity Price Risk

Equity price risk is the risk that arises from securities price volatility – the risk of a decline in the value of a security. Securities prices can be very volatile and unpredictable subject to different market and economic factors both locally and internationally. While the Group has invested in certain listed securities in Hong Kong, the Group intends to build a diversified portfolio to mitigate risk from a particular industry or sector.

7. Issuer's risk over bond or certificate of deposit acquired

All bonds and certificates of deposits carry some degree of credit risk or the risk that the bond or certificate of deposit issuer may default on one or more payments before the bond or certificate of deposit reaches maturity. In the event of a default, the Group may lose some or all of the income it was entitled to, and even some or all of principal amount invested. To mitigate such risk, the Group would consider the credit rating of the issuers and issuers with investment grade are the preferred choices.

8. Price risk associated with investment properties

As the Group has held certain investment properties, the Group is subject to price risk which refers to the possibility of fluctuations in property values and rental income due to changes in economic conditions, interest rates, and demographic shifts. The Group is exposed to price risk as all investment properties are measured at fair value at each year end date and its rental income may be affected. The Group manages its exposure by monitoring the price movements and the changes in market conditions that may affect the value of these investments.

Please also refer to note 35 to the consolidated financial statements.

Directors' Report

RESULTS AND APPROPRIATIONS

The results of the Group for the year ended 31 December 2025 are set out in the consolidated statement of profit or loss and other comprehensive income on page 61. There was no significant change in the nature of the Group's principal activities during the year.

The Directors recommend the payment of a final dividend of HK\$0.02 per share for the Period Under Review. Together with an interim dividend of HK\$0.01 per share which was already paid, a total payment of HK\$0.03 per share will be distributed to shareholders for the Period Under Review.

SUMMARY FINANCIAL INFORMATION

A summary of the published results and assets, liabilities and non-controlling interests of the Group for the last five financial years, as extracted from the audited consolidated financial statements and restated/reclassified as appropriate, is set out on page 122.

SHARE CAPITAL

Details of the share capital of the Company are set out in note 30 to the consolidated financial statements.

PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES OF THE COMPANY

During the year ended 31 December 2025, the Company repurchased a total of 2,450,000 ordinary shares on the Stock Exchange at an average cost of HK\$0.915 per share for an aggregate consideration of approximately HK\$2,242,100 before expenses. The 700,000 shares repurchased in April and May 2025 were cancelled on 17 June 2025. The 1,750,000 shares repurchased for cancellation in December 2025 have not been cancelled yet as at 31 December 2025. The repurchase was effected for the enhancement of shareholder value in the long term. Details of the shares repurchased are as follow:

Month of purchase in 2025	No. of shares purchased	Purchase consideration per share		Aggregate consideration paid HK\$
		Highest price paid HK\$	Lowest price paid HK\$	
April	460,000	0.85	0.80	379,200
May	240,000	0.89	0.87	210,400
December	1,750,000	0.95	0.91	1,652,500
Total	2,450,000	0.95	0.80	2,242,100

Other than as disclosed above, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities (including sale of treasury shares) during the year. As at 31 December 2025, there were no treasury shares (as defined under the Listing Rules) held by the Company.

Directors' Report

RESERVES

Under The Companies Act 1981 of Bermuda, the Company's contributed surplus account is available for distribution. However, the Company cannot declare or pay a dividend, or make a distribution out of contributed surplus, if:

- (a) it is, or would after the payment be, unable to pay its liabilities as they become due; or
- (b) the realisable value of its assets would thereby be less than the aggregate of its liabilities and its issued share capital and share premium account.

In the opinion of the Directors, the Company's reserves available for distribution to its shareholders as at 31 December 2025 are approximately HK\$391,066,000, being the contributed surplus of approximately HK\$35,900,000 and retained profits of approximately HK\$355,166,000.

MAJOR CUSTOMERS AND SUPPLIERS

The five largest customers of the Group together accounted for approximately 47.3% of the Group's turnover, with the largest customer accounted for approximately 13.9%. The aggregate purchases attributable to the Group's five largest suppliers were less than 35.2% of the Group's purchases.

At no time during the year did a Director, an associate of a Director or a shareholder of the Company (which to the knowledge of the Directors owns more than 5% of the Company's share capital) have an interest in any of the Group's five largest customers or suppliers.

PROPERTY, PLANT & EQUIPMENT

Details of movements in the property, plant and equipment of the Group are set out in note 14 to the consolidated financial statements.

Attention is drawn to the section named "Property Investment" in the Chairman's Statement and Management Discussion and Analysis.

Mr. HONG Hui Lung

Directors' Report

In accordance with Clause 81(4) of the Company's Bye-laws, every Director, save for a Director holding office as Chairman or a Managing Director, shall be subject to retirement by rotation at each annual general meeting at least once every three year. In accordance with the code provision B.2.2 of Appendix C1 Corporate Governance Code, every director should be subject to retirement by rotation at least once every three years. Therefore, Mr. HONG Hui Lung should retire and offer himself for re-election at the forthcoming annual general meeting ("AGM").

The Director being proposed for re-election at the forthcoming AGM does not have a service contract with the Company or any of its subsidiaries which is not determinable by the Group within one year without payment of compensation (other than statutory compensation).

The Company has received from each of the Independent Non-executive Directors, an annual confirmation of his independence pursuant to Rule 3.13 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules"). Based on the confirmation received, the Board considers all of the Independent Non-executive Directors are independent.

DIRECTORS' AND SENIOR MANAGEMENT'S BIOGRAPHIES

Biographical details of the directors of the Company and the senior management of the Group are set out on pages 23 to 26 of the annual report.

DIRECTORS' SERVICE CONTRACTS

Each of the executive Directors had a service contract with the Company. These service contracts continued unless and until terminated by either the Company or the Directors giving to the other party 6 months' notice in writing.

Each of the Independent Non-executive Directors has signed a letter of appointment for a term of three years until terminated by not less than three months' notice in writing served by the Independent Non-executive Director to the Company or in accordance with the terms set out in the respective letters of appointment. Each of the Independent Non-executive Directors is entitled to a director's fee.

DIRECTORS' REMUNERATION

The remuneration committee of the Board considers and recommends to the Board the remuneration and other benefits paid by the Company to the Directors. The remuneration of all Directors is subject to regular monitoring by the remuneration committee to ensure that the levels of their remuneration and compensation are appropriate. Details of the Directors' remuneration are set out in note 11 to the consolidated financial statements.

Directors' Report

Please refer to the note under the section heading "Directors' and Chief Executives' Interests and Short Positions in Shares and Underlying Shares of the Company and its Associated Corporation" above.

Save as disclosed above, as at 31 December 2025, no person (other than the Director of the Company whose interests are set out under the heading "Directors' and Chief Executives' Interests and Short Positions in Shares and Underlying Shares of the Company and its Associated Corporation" above) had an interest or a short position in the shares and underlying shares of the Company that was required to be recorded under Section 336 of SFO.

CONTROLLING SHAREHOLDER'S INTERESTS IN CONTRACTS OF SIGNIFICANCE

As Mr. Lam Kwok Hing, the Chairman and Managing Director of the Company, is also the controlling shareholder, please refer to the section "Directors' interests in contracts of significance" above.

Directors' Report

SHARE OPTIONS

A summary of the Share Option Scheme (the "Scheme") which came into effect from 12 June 2015, disclosed in accordance with the Listing Rules is as follows:

(1) Purpose of the Scheme

The purpose of the Scheme is to enable the Company to grant option to the eligible participants as incentives and rewards for their contributions to the Company or such subsidiaries.

(2) Participants of the Scheme

The Board may, at its discretion, to grant options to any employees (whether full time or part time), executives or officers of the Company or any of the subsidiaries (including executive and non-executive Directors) and any business consultants, agents, financial or legal advisers who will contribute or have contributed to the Company or any of the subsidiaries.

(3) Total number of shares available for issue under the Scheme and % of issued share capital

From 1 January 2025 to 12 June 2025 (the effective period of the Scheme in 2025), the number of shares available for issue under the Scheme was 38,263,340 shares representing 10% of the issued share capital of the Company at the above period.

(4) Maximum entitlement of each participant under the Scheme

The maximum number of shares issuable under the Scheme to each participant in any 12-month period up to the date of grant shall not exceed 1% of the shares in issue unless it is approved by shareholders in a general meeting of the Company. Any share options granted to a substantial shareholder or an independent non-executive director of the Company or to any of their associates, in excess of 0.1% of the shares in issue and with an aggregate value (based on the closing price of the shares at the date of the grant) in excess of HK\$5,000,000, in any 12-month period, are subject to shareholders' approval in general meeting of the Company.

(5) The period within which the shares must be taken up under an option

The period during which an option may be exercised will be determined by the Board at its absolute discretion, save that no option may be exercised more than 10 years after it has been granted.

(6) The minimum period for which an option must be held before it can be exercised

There is no general requirement that an option must be held for any minimum period before it can be exercised but the Board is empowered to impose at its discretion any such minimum period at the time of grant of any particular option.

(7) The amount payable upon acceptance of option

HK\$1.00 is payable by each eligible participant to the Company on acceptance of the option on or before the 30th day after the option is offered.

Directors' Report

(8) The basis of determining the exercise price

The exercise price must be at least the higher of:

- (i) the closing price of the share as stated in the Stock Exchange's daily quotations sheet on the date of grant which must be a business day;
- (ii) the average of the closing prices of the shares as stated in the Stock Exchange's daily quotations sheet for the five business days immediately preceding the date of grant; and
- (iii) the nominal value of a share.

(9) The expiry date of the Scheme

The Scheme has been expired at the close of business of 12 June 2025.

RETIREMENT SCHEME

The Group operates a Mandatory Provident Fund Scheme ("MPF Scheme") under the Hong Kong Mandatory Provident Fund Schemes Ordinance for employees employed under the jurisdiction of the Hong Kong Employment Ordinance. The MPF Scheme is a defined contribution retirement scheme administered by independent trustees. Under the MPF Scheme, each of the employer and employee are required to make contributions of 5% of the employees' relevant income to the scheme, subject to a cap of monthly relevant income of HK\$30,000. Contributions made to the scheme are vested immediately.

The relevant PRC subsidiaries are required to make contributions to the state-managed schemes in the PRC based on a certain percentage of the monthly salaries of their current employees to fund the benefits. The employees are entitled to retirement pension calculated with reference to their basic salaries on retirement and their length of service in accordance with the relevant government regulations. The PRC government is responsible for the pension liability to these retired staff.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Company's Bye-laws, or the law of Bermuda, which would oblige the Company to offer new shares on a pro-rata basis to existing shareholders.

CORPORATE GOVERNANCE

The Company is committed to maintaining a high standard of corporate governance practices. Information on the corporate governance practices of the Company is set out in the "Corporate Governance Report" on pages 38 to 56.

Directors' Report

ENVIRONMENTAL POLICY

The Group is committed to minimise the impact of its activities on the environment. The key points of its strategy to achieve this are:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Implement a training program for its staff to raise awareness of environmental issues and enlist their support in improving the Company's performance.
- Meet or exceed all the environmental legislation that relates to the Company and its subsidiaries.
- Measure its impact on the environment and set targets for ongoing improvement.
- Will encourage the adoption of similar principles by its key suppliers.

SUFFICIENCY OF PUBLIC FLOAT

At the latest practicable date prior to the issue of this report, based on the information that is publicly available to the Company and within the knowledge of its Directors, the Company has maintained sufficient public floats of more than 25% of the issued share capital as required under the Listing Rules throughout the year ended 31 December 2025.

AUDITOR

A resolution will be submitted to the AGM of the Company to re-appoint Messrs. Deloitte Touche Tohmatsu as auditor of the Company.

CLOSURE OF SHARE REGISTER OF MEMBERS

The AGM is expected to be held on Friday, 26 June 2026. In order to determine the shareholders who will be qualified for attending and voting at the AGM, the register of members of the Company will be closed from Monday, 22 June 2026 to Friday, 26 June 2026, both days inclusive. All completed transfer documents together with the relevant share certificate(s) must be lodged with the Company's Hong Kong share registrar, Tricor Investor Services Limited, at 17/F, Far East Finance Centre, 16 Harcourt Road, Hong Kong no later than 4:30 p.m. on Thursday, 18 June 2026 for registration.

On behalf of the Board

Lam Kwok Hing MH, JP

Chairman and Managing Director

Hong Kong, 26 March 2026

Corporate Governance Report

The Company recognizes that good corporate governance is vital to the success of the Group and sustains development of the Group. The Company is committed to maintaining good corporate governance standard and practices with an emphasis on integrity, transparency and independence. The board of directors (the “Board”) believes that good corporate governance is essential to the success of the Company and the enhancement of shareholders’ value.

CORPORATE GOVERNANCE PRACTICES

The Company’s corporate governance practices are based on the principles and code provisions (“Code Provisions”) set out in the Corporate Governance Code (the “CG Code”) contained in Appendix C1 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Stock Exchange”) (“Listing Rules”).

During the financial year of 2025, the Company has complied with most of the CG Code, save for the following:

1. Under code provision B.2.2, every director should be subject to retirement by rotation at least once every three years. The Chairman of the Board of the Company is not subject to retirement by rotation pursuant to Clause 84(1) of the Company’s Bye-laws; and
2. Under code provision C.2.1, the role of the Chairman and the chief executive should be separate and should not be performed by the same individual. The Company does not at present have any officer with the title of “Chief Executive Officer” (“CEO”) but instead the duties of a CEO are performed by the Managing Director (“MD”). The positions of both Chairman and MD are currently held by Mr. Lam Kwok Hing.

The Board believes that vesting the roles of both Chairman and MD in the same person without rotation provides the Group with strong and consistent leadership and allows for more effective planning and execution of long-term business strategies. The balance of power and authorities is ensured by the operation of the senior management and the Board, which comprises experienced and high calibre individuals. In addition, through the supervision of the Board which comprised of three independent non-executive directors, representing half of the Board, the interests of the shareholders are adequately and fairly represented.

The Company periodically reviews its corporate governance practices to ensure they continue to meet the requirements of the CG Code during the year of 2025. The key corporate governance principles and practices of the Company are summarised in this report.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the “Model Code”) as set out in Appendix C3 to the Listing Rules as its code of conduct regarding Directors’ securities transaction.

Having made specific enquiry by the Company, all Directors have confirmed that they had complied with the Model Code throughout the year ended 31 December 2025.

Corporate Governance Report

THE BOARD

Responsibilities

As at the date of this annual report, the Board comprises of three Executive Directors, being Mr. Lam Kwok Hing (Chairman and Managing Director), Mr. Nam Kwok Lun (Deputy Chairman) and Ms. Yung Wai Ching; three Independent Non-executive Directors, being Mr. Cheung Kin Wai, Mr. Hong Hui Lung and Mr. Ng Chi Kin David. Biographical details, which include relationships among members of the Board, are provided in the “Directors & Senior Management Profile” section of the Annual Report. The composition of the Board is well balanced with the Directors having sound industry knowledge, extensive corporate and strategic planning experience and/or expertise relevant to the business of the Group. The Executive Directors and Independent Non-executive Directors bring a variety of experience and expertise to the Company.

There is a clear division of responsibilities between the Board and the management. The Board is responsible for providing high-level guidance and effective oversight of management while day-to-day management of the Group is delegated to the management team of each respective subsidiary. Generally speaking the Board is responsible for:

- Formulating the Group's long term strategy and monitoring the implementation thereof
- Approval of interim and year-end dividend
- Reviewing and approving the annual and interim reports
- Ensuring good corporate governance and compliance
- Monitoring the performance of the management
- Reviewing and approving any material acquisition and assets disposal
- Developing and reviewing the Group's policies and practices on corporate governance
- Evaluating and determining the Company's Environmental, Social and Governance (“ESG”)-related risks, and ensuring that appropriate and effective ESG risk management and internal control systems are in place

The Board delegates the authority and responsibility for implementing day-to-day operations, business strategies and management of the Group's businesses to the Executive Directors, senior management and certain specific responsibilities to the Board committees. The Board is committed to making decisions in the best interests of both the Company and its shareholders.

The Board acknowledges its responsibility for preparing the financial statements of the Company and the Group which give a true and fair view of the Group's affairs in accordance with statutory requirements and applicable accounting standards. The statement by the auditor of the Company about its reporting responsibilities for the consolidated financial statements of the Company is set out on pages 59 to 60 in the Independent Auditor's Report.

Corporate Governance Report

All Directors have full and timely access to all relevant information as well as the advice and service of the Company Secretary to ensure Board procedures and all applicable rules and regulations are followed.

Board Diversity Policy

The Company recognizes and embraces the importance of a diverse Board in its success. The Company believes that a diverse Board will leverage differences in thought, perspective, industry experience, knowledge & skills including – expertise in financial, global business, leadership, technology, mergers & acquisition, sales and marketing, risk and cyber security and other domains, which will ensure that the Company retains its competitive advantage.

The Nomination Committee is responsible for reviewing and assessing the composition and performance of the Board, as well as identifying appropriately qualified persons to occupy Board positions. The Nomination Committee will ensure that no person is discriminated against on grounds of religion, race, gender, pregnancy, childbirth or related medical conditions, national origin or ancestry, marital status, age, sexual orientation, or any other personal or physical attribute which does not speak to such person's ability to perform as a Board member.

As far as gender distribution is concerned, as at 31 December 2025, the Board comprised six directors, including one female director.

Composition

The Board has in its composition a balance of skills and experience necessary for independent decision making and fulfilling its business needs.

As at 31 December 2025, the Board comprised six members, including three Executive Directors and three Independent Non-executive Directors, as follows:

Executive Directors

Mr. LAM Kwok Hing *M.H., J.P. (Chairman and Managing Director)*

Mr. NAM Kwok Lun *(Deputy Chairman)*

Ms. YUNG Wai Ching

Independent Non-executive Directors

Mr. NG Chi Kin David

Mr. CHEUNG Kin Wai

Mr. HONG Hui Lung

Biographical details of the Directors are set out on pages 23 to 26.

During the year ended 31 December 2025 ("the Period Under Review"), the Board complied with the Rules 3.10(1) and (2) of the Listing Rules relating to the appointment of at least three independent non-executive directors and one of the independent non-executive directors has appropriate professional qualifications or accounting or related financial management expertise. The Board also complied with the Rule 3.10A of the Listing Rules so that independent non-executive directors representing at least one-third of the Board. All three Independent Non-Executive Directors are appointed for a specific term of three years. They are subject to retirement by rotation and re-election provisions of the Bye-laws.

Corporate Governance Report

The Company has received written annual confirmation from each Independent Non-executive Director of his independence pursuant to the requirements of the Listing Rules. The Company considers all Independent Non-executive Directors to be independent in accordance with the independence guidelines set out in the Listing Rules.

The Bye-laws of the Company requires that every Director, save for a Director holding office as Chairman or a Managing Director, shall be subject to retirement by rotation at each annual general meeting at least once every three year. The Directors to retire by rotation shall include any Director who wishes to retire and not to offer himself for re-election and those of the other Directors who have been longest in office since their election or re-election. A retiring Director is eligible for re-election. Any Director appointed by the Board to fill a casual vacancy shall hold office until the first general meeting of members after his appointment and be subject to re-election at such meeting and any Director appointed by the Board as an addition to the existing Board shall hold office until the next following annual general meeting and be eligible for re-election.

Board Meetings and General Meeting

During the Period Under Review, four board meetings, the annual general meeting (“AGM”) for the year 2025 and one special general meeting (“SGM”) were held with details of the Directors’ attendance set out below:

Directors	Attendance/Number of Meetings

Mr. HONG Hui Lung	4/4	1/1	1/1

Board Practices and Conduct of Meetings

The Board meets regularly, at least four times, throughout the year to formulate overall strategy of the Group, monitor its financial performance and maintain effective oversight over the management. Directors may participate either in person or through electronic means of communication. Notice of regular board meetings is sent to all directors at least 14 days prior to the meeting. For other board and committee meetings, reasonable notice is generally given.

Draft agenda of each board meeting is usually sent to all directors together with the notice of meeting in order to give them an opportunity to include any other matters in the agenda for discussion in the meeting. Board papers together with all appropriate, complete and reliable information are sent to directors at least 3 days before each board meeting to keep the directors apprised of the latest developments and financial position of the Group and to enable them to make informed decisions. The Board and each director also have separate and independent access to the senior management whenever necessary.

Corporate Governance Report

The Chairman and other relevant senior management normally attend regular board and committee meetings, and where necessary, other board and committee meetings to advise business developments, financial and accounting matters, statutory compliance, corporate governance and other major aspects of the Group. Draft minutes are normally circulated to directors for comment in due course after each meeting and the final copy, which is kept by the company secretary, is open for directors' inspection.

Any material transaction, which involves a conflict of interests for a substantial shareholder or a director, will be considered and dealt with by the Board at a duly convened board meeting. Except for those circumstances permitted by the Bye-laws, a director who has a material interest in any contract, transaction, arrangement or any other kind of proposal put forward to the Board for consideration abstains from voting on the relevant resolution and such director is not counted for quorum determination purpose.

Directors' Training

The Directors are encouraged to participate in continuous professional development to develop and refresh their knowledge and skills. The Company would provide a comprehensive induction package covering the summary of the responsibilities and liabilities of a director of a Hong Kong listed company, the Company's constitutional documents and the Guides on Directors' Duties issued by the Companies Registry to each newly appointed Director to ensure that he/she is sufficiently aware of his/her responsibilities and obligations under the Listing Rules and other regulatory requirements.

The Company Secretary reports from time to time the latest changes and development of the Listing Rules, corporate governance practices and other regulatory regime to the Directors with written reading materials on relevant topics, as well as organizes seminars on the professional knowledge and latest development of regulatory requirements related to director's duties and responsibilities.

During the year of 2025, all directors of the Company have participated in continuous professional development in order to refresh their knowledge and skills to ensure that their contribution to the Board remains informed and relevant. They either attended training programs and/or by reading newspaper and relevant materials on the topics related to roles and responsibilities of directors and corporate governance and regulations.

DELEGATION BY THE BOARD

The Directors are aware of their collective and individual responsibilities to the shareholders for the wellbeing and success of the Company.

To enhance the effectiveness of the management of the Company, the Board has established four committees, namely, the Audit Committee, the Nomination Committee, the Remuneration Committee and the Investment Committee to oversee corresponding aspects of the Company's affairs. All Board committees of the Company have defined written terms of reference.

BOARD COMMITTEES

Audit Committee

The Audit Committee was established in 1999 and comprises three Board members, all of whom are Independent Non-executive Directors. The Audit Committee has adopted terms of reference, which describes the authority and duties of the Committee, as quoted under code provision D.3.3 of the CG Code. The written terms of reference which describe the authority and duties of the Audit Committee were adopted in 1999 and revised on March 2012 and June 2025 to conform to the provisions of the CG Code. The terms of reference of the Audit Committee is posted on the Company's website and the Stock Exchange.

The Audit Committee is primarily responsible for the following duties:

- to make recommendation to the Board on the appointment, reappointment and removal of the external auditor, and to approve the audit fees and the terms of engagement of the external auditor, and any questions of their resignation or dismissal.
- to monitor the external auditor's independence and objectivity and the effectiveness of the audit process in accordance with applicable standards, and to discuss with the external auditor the nature and scope of the audit and reporting obligations before the audit commences.
- to monitor integrity of the Company's consolidated financial statements, annual report, accounts and the half-year report, and to review significant financial reporting judgments contained in them.
- to oversee the Company's financial reporting system, risk management and internal control systems.
- to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements by the Company.

The Audit Committee will meet at least twice each year. In 2025, the Audit Committee met twice considering the annual results of the Group for the financial year ended 31 December 2024 and the interim results of the Group for the 6 months ended 30 June 2025, assessing any changes in accounting policies and practices, major judgmental areas and compliance with applicable legal and accounting requirements and standards, discussing with the auditor of the Company on internal control and the re-appointment of the external auditor. The Audit Committee also provides an important link between the Board and the Company's auditors in matters coming within the scope of its terms of reference and keeps under review the independence and objectivity of the auditors.

There were two meetings held during the Period Under Review, details of attendance are set out below:

Audit Committee Members	Attendance/ Number of Meetings
<i>Independent Non-executive Directors</i>

Corporate Governance Report

The interim results for the six-months ended 30 June 2025 and the annual results for the financial year ended 31 December 2024 were reviewed by the Audit Committee before publication.

Nomination Committee

The Nomination Committee of the Company (the “Nomination Committee”) is established on 27 March 2012 and is composed of three independent non-executive directors and two executive director, namely Mr. Lam Kwok Hing (Chairman of the Nomination Committee), Ms. Yung Wai Ching, Mr. Cheung Kin Wai, Mr. Ng Chi Kin David and Mr. Hong Hui Lung.

In order to comply with the Revised CG Code, the Board adopted terms of reference of the Nomination Committee on 27 March 2012 and revised on June 2025 to conform to the provisions of the CG Code. The terms of reference of the Nomination Committee are available on the websites of the Company and the Stock Exchange.

The primary duties of the Nomination Committee are to review the structure, size and composition (including the skills, knowledge and experience and diversity profile) of the Board and make recommendations on any proposed changes to the Board to complement the Company’s corporate strategy; to identify individuals suitably qualified to become board members and select or make recommendations to the Board on the selection of individuals nominated for directorship, and to make recommendations to the Board on matters relating to the appointment or re-appointment of directors and succession plan for directors, in particular the Chairman and the Chief Executive Officer.

In June 2025, the Company adopted a Nomination Policy and a Workforce Diversity Policy. The Nomination Policy aims to set out the criteria and process in relation to the selection, appointment and reappointment of the Directors to provide guidance to the Nomination Committee. The Workforce Diversity Policy sets out the approach taken by the Board in workforce diversity that applies to all facets of employment in order to ensure that the Group retains its competitive advantage. The Nomination Committee reviews the Nomination Policy and Workforce Diversity Policy at least annually.

The Nomination Committee shall meet at least once per year according to its terms of reference. A Nomination Committee meeting was held during the Period Under Review, details of attendance are set out below:

Nomination Committee Members	Attendance/ Number of Meetings
Mr. LAM Kwok Hing <i>MH, JP (Chairman)</i>	1/1
Ms. YUNG Wai Ching	1/1
Mr. NG Chi Kin David	1/1
Mr. CHEUNG Kin Wai	1/1
Mr. HONG Hui Lung	1/1

During the Period Under Review, the Nomination Committee had reviewed (i) the structure, size and composition of the Board of Directors of the Company, (ii) the retirement and re-appointment arrangement of the Directors in the Company’s forthcoming annual general meeting, (iii) workforce diversity policy and (iv) nomination policy.

Corporate Governance Report

Remuneration Committee

The Company established the Remuneration Committee in February 2005 with terms of reference substantially the same as those contained in paragraph E.1.2 of the CG Code. The written terms of reference which describe the authority and duties of the Remuneration Committee were adopted in 2005 and revised on March 2012 and June 2025 to conform to the provisions of the CG Code. The terms of reference of the Remuneration Committee is posted on the Company's website and the Stock Exchange. A majority of the members of the Remuneration Committee is Independent Non-executive Directors and members of the Committee are listed as below.

In determining the emolument payable to directors, the Remuneration Committee takes into consideration factors such as salaries paid by comparable companies, time commitment and responsibilities of the directors, employment conditions elsewhere in the Group and the desirability of performance-based remuneration.

The Remuneration Committee is primarily responsible for the following duties:

- to determine the policy for the remuneration of executive directors, assessing performance of executive directors and approving the terms of executive directors' service contracts;
- to make recommendations to the Board on the Company's policy and structure for all remuneration of directors and senior management and on the establishment of a formal and transparent procedure for developing policy on such remuneration and to place recommendations before the Board concerning the total remuneration and/or benefits granted to the Directors from time to time;
- to review and approve the senior management's remuneration proposals with reference to the corporate goals and objectives resolved by the Board from time to time;
- to perform an advisory role to the Board and to make recommendations to the Board on the remuneration packages of individual executive directors and senior management, with the Board retaining the final authority to approve executive directors' and senior management's remuneration;
- to make recommendations to the Board on the remuneration of non-executive directors;
- to review and approve the compensation payable to executive directors and senior management in connection with any loss or termination of their office or appointment to ensure that such compensation is determined in accordance with relevant contractual terms and that such compensation is otherwise fair and not excessive; and
- to review and approve compensation arrangements relating to dismissal or removal of directors for misconduct to ensure that such arrangements are determined in accordance with relevant contractual terms and that any compensation payment is otherwise reasonable and appropriate.

The overriding objective of the remuneration policy is to ensure that the Company is able to attract, retain, and motivate a high-calibre team which is essential to the success of the Company.

Corporate Governance Report

The Remuneration Committee will meet at least once each year. Details of attendance are set out below:

BUSINESS STRATEGIES, COMPANY VALUES AND CULTURE

Business Strategies

Asia Tele-Net and Technology Corporation Limited is an investment holding company based in Asia. As an investment holding company, we hold investments in various disciplines.

For electroplating equipment segment

Through our brand “PAL”, it is our mission to apply electroplating technologies in different applications or business segments so that the Group would grow segment by segment. This strategy would also help us to smooth out any, if not all, cyclical effect in one particular segment or particular market and hence to produce a more stable turnover and profitability level for the benefits of shareholders.

For property investment segment

With the properties held on hands, we will continue to seek rental income commensurate with what the market is offering.

For treasury management segment

Treasury management refers to investments in various financial assets, including but not limited to, debt instrument, listed stock and deposit products.

The acquisition of the bonds forms part of the Group's ordinary course of treasury activities in managing its financial assets. The bonds offer a better return when compared to fixed-term deposit interest rates offered by commercial banks in Hong Kong. Primary objective of these investments is to collect the contractual interest due and principal upon maturity. At time of investment, the Group will consider the acquisition prices, the coupon rate, the maturity date and the background of the issuers.

The Group's investment strategy in listed stock is to pursue a balanced approach in exploring favourable short-term and long-term investments to, including but not limited to, (a) build a diversified portfolio which can deliver steady income to the Group; (b) offer potential capital gain and (c) invest in sector(s) with long term potential growth. The Group will strive to deliver a diversified investment portfolio which offers potential growth while maintaining a relatively prudent capital management approach.

Risk management and control measures

1. Concentration risk

Concentration risk is the potential for significant losses in a portfolio due to an over-reliance on a single asset, sector, or market. The Group has a policy that investment in one single investee company (or investee group) will not exceed 20% or more of the Group's total assets and investment in one sector or market will not exceed 50% of the Group's total assets. As the market is ever changing, if there is a need to change these thresholds in the future, a board meeting will be convened to consider the then market situation and financial positions of the Group. Disclosure shall be made in its periodic financial reports.

2. Counterparty risk or Issuer's risk

Issuer risk is the specific risk that an issuer of a debt security (such as a bond or a certificate of deposit) will default on its payment obligations. At time of investment, the Group will consider the credit rating of the issuer or the financial product itself. When such issuer does not have any credit rating, the Group will evaluate their years of establishment, cash generating capabilities or whether there is any corporate guarantee offered by its parent company. Normally, only investee company (or investee group) with at least more than 10 years of establishment history and its financial statement (or the financial statement of the guarantor) demonstrates positive cash generating capabilities will be considered.

3. Liquidity risk

To avoid the risk that the Group cannot meet its short-term financial obligations when they are due, the Group will continuously:

- monitoring its cash flows by performing cashflow forecast,
- managing cash reserves by ensuring enough liquid assets are on hands and
- maintaining access to funding by establishing facilities with banks.

4. Permissible and prohibited investments

The Group will only invest in financial products which are regulated or issued by licensed financial institutes. Preference will be given to financial product which has a ready secondary market which will allow the Group to dispose such financial products when necessary. Prohibited investments include financial products which are not regulated or the underlying assets are located in sanctioned jurisdictions.

Approval oversight and mechanism

As disclosed in its 2024 Interim Report, with the growing revenue contribution from property investment, investment in debts instrument and listed shares, the Board has decided to report its business activities in three segments starting from year 2024. They are electroplating equipment, property investment and treasury management. An investment committee was established in April 2024 to review the Group's investments on regular basis.

1. Board

The Board holds the ultimate authority over investment decisions for the Group as a whole. It has delegated certain powers to Investment Committee.

Corporate Governance Report

2. *Investment committee*

The terms of reference of the Investment Committee are available on the websites of the Company and the Stock Exchange. The principal functions of the Investment Committee include:

- To review and recommend investment strategies, risk appetite and capital allocations to the Board
- To review, evaluate and approval investment in financial products as far as treasury management segment is concerned
- To assess and determine whether the investment is in the interests of the Company and the shareholders as a whole
- To monitor such investment activities by (a) reviewing reports on investment portfolio, (b) making reference to and reviewing the appropriateness of benchmarks and (c) reviewing the Group's liquidity and funding arrangements

The approval limit of Investment Committee is limited to major transactions as defined in Listing Rules and must not be a connected transaction. If the size of the investment exceeds the size tests of a major transaction, approval must be obtained from the Board before proceeding.

The Investment Committee will meet twice a year.

3. *Finance Department*

The responsibilities of the Finance Department are more on daily operations and will be:-

- To short-list relevant products for members of investment committee to consider. based on the investment strategies and risk appetite set out by the Investment Committee
- To oversee the execution of acquisition when a financial product is selected by members of investment committee
- To maintain and update the investment portfolio file
- To prepare cashflow forecast
- To prepare the review reports for investment committee meetings
- To set up and maintain banking facilities
- To pass relevant information to company secretarial team before the transaction

4. *Company Secretarial Team*

The Company Secretarial Team is mainly responsible for compliance issues. They are responsible for calculating size tests, making relevant disclosure announcement and submitting relevant forms to Stock Exchange in accordance with Listing Rules. If the transaction size falls outside the authority of Investment Committee, a board meeting will be convened to obtain necessary approval for the transaction before proceeding.

Corporate Governance Report

General

In the normal course of identifying business opportunities, the Company from time to time engages in discussions with other independent third parties for possible business co-operations. At present, the Board confirms that there are no negotiations or agreements relating to any intended acquisitions or realizations which are discloseable under Rule 13.23 of the Listing Rules, neither is the Board aware of any matter discloseable under the general obligation imposed by Rule 13.09 of the Listing Rules, which is or may be of a price-sensitive nature.

The Audit Committee has set (i) three approval levels for the engagement of non-audit services; (ii) a list of pre-approved non-audit services and (iii) a list of prohibited non-audit service. Prior to the engagement of non-audit services with Deloitte, the chief financial officer (or person holding equivalent post) shall make sure only pre-approved non-audit services are engaged and relevant pre-approval is obtained if and where it is applicable. The chief financial officer (or person holding equivalent post) shall report the actual expenses incurred to Audit Committee members annually to ensure the agreed rules are complied with.

COMPANY SECRETARY

Ms. YUNG Wai Ching, the company secretary of the Company whose biography details are set out in the section headed "Directors & Senior Management Profile" in this annual report, confirmed that she had attained no less than 15 hours of relevant professional training during the year ended 31 December 2025.

LIABILITY INSURANCE OF DIRECTORS AND SENIOR MANAGEMENT

The Company has appropriate "Directors and Officers Liability Insurance" in place for its Directors and senior management, in order to safeguard them from any legal and compensation liabilities arising in the course of discharging their duties.

Corporate Governance Report

DIRECTORS' RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Board acknowledges that it is their responsibilities for:

- (i) overseeing the preparation of the consolidated financial statements of the Group with a view to ensuring such consolidated financial statements give a true and fair view of the state of affairs of the Group, and
- (ii) selecting suitable accounting policies and applying the selected accounting policies consistently with the support of reasonable and prudent judgment and estimates.

A statement by the auditor about his reporting responsibilities is set out on pages 59 to 60 of this Annual Report.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board is responsible for maintaining a sound and effective risk management and internal control system, in order to protect the interest of the Group and its shareholders. The risk management and internal control systems are designed to manage rather than eliminate the risks of failure to achieve the Group's business objectives, and can only provide reasonable, but not absolute assurance against material misstatements or losses.

The Group has established an Enterprise Risk Management Framework (the "ERM Framework") in order to implement risk management effectively. Our ERM Framework comprises two key elements: risk management structure and risk management process.

Risk Management Structure

The Board of Directors: The Board has a duty to ensure the effectiveness of the risk management and internal control systems of the Group (the "ERM system"). The Board oversees the ERM system, assess and evaluate the Group's business strategies and risk tolerance. The Board with assistance from the Audit Committee, reviews at least annually the effectiveness of the ERM system, the Board also monitors the ERM system in an on-going manner.

Audit Committee: The Audit Committee has the second highest responsibility for the ERM system after the Board. Audit Committee assists the Board in overseeing the Group's ERM system by providing support and advice, including on-going monitoring of the execution of risk management processes, reviewing the Group's risk register, reviewing and approving the internal control review plan and results.

Management: We select key management members across the Group who are involved in each of the business process as interviewees to identify the risks to form our risk universe. Each risk is assessed in terms of likelihood of occurrence and the significance of impact, taken into account the current internal controls in place to mitigate these risks. Assessment result was reported to the Audit Committee and the Board for the confirmation of our risk response strategies, based on their preferences towards risk, our available resources for risk mitigation and the current controls in place.

Corporate Governance Report

Risk Management Process

The ERM Framework defined the procedures for identifying, assessing, responding and monitoring risks and their changes.

- Define risk universe
- Identify risks
- Assess risks identified in terms of likelihood of occurrence and degree of impact
- Define action plans to mitigate risks (if any)
- Monitoring and report changes

In order to identify and prioritize material risks throughout the Group, Management communicates with each operating functions, collect significant risk factors that affect the Group from bottom to top, including strategic, operational, financial, reporting and compliance risks. Having identified all relevant risks, Management assesses the potential impact and possibilities of the risks and prioritize the risks. Appropriate internal control measures are then developed to mitigate the risks identified and the changes of risks in an on-going manner.

Through regular discussion with each operating functions, risk awareness are created amongst the employees. Employees are encouraged to report risks they identified, from their prospective, to the Management. Through this repeated exercise, our ERM System is further enhanced.

Main Features of our Risk Management and Internal Control Systems

On operational level, the management is responsible for maintaining an effective internal control system by

- Establishing clear internal control policies and procedures and to clearly define the responsibilities, authorities and accountabilities of each key positions;
- Establishing code of conduct by explaining the Group's requirements on integrity and ethical value to all staffs;
- Establishing whistle blowing mechanism in order to encourage employees to report incidents of misconduct or fraud;
- Establishing appropriate level of information technology access rights in order to avoid leakage of price sensitive information; and
- Establishing insider information disclosure policy to define a clear path of reporting channel and to assign a responsible person for disclosure purpose.

Corporate Governance Report

On risk-management level, the management communicates with each operating functions and consolidates significant risk factors that might affect the Group. A risk register was maintained to record the risks identified, with assessment of the potential impact and possibilities of occurrence for each risks identified. Based on the assessment, the management will develop appropriate internal control measures to mitigate the risks identified.

During the Period Under Review, the internal auditor has submitted review reports to the Audit Committee. The management has confirmed to the Board the effectiveness of the ERM Framework and ERM System. The Board has reviewed the reports and has considered the adequacy of resources, staff qualifications and experience, training programs and budget of the accounting, internal audit and financial reporting functions and was satisfied with their adequacy.

DIVIDEND POLICY

The Company has adopted a dividend policy (the “Dividend Policy”) on 18 April 2019. The Dividend Policy shall take effect retrospectively on 1 January 2019. Details of which are disclosed as follows:

1. In deciding whether to propose a dividend and in determining the dividend amount, the Board shall take into account, inter alia, the following factors:
 - (i) the Group’s actual and expected financial results;
 - (ii) the Group’s working capital requirements, capital expenditure requirements and future expansion plans;
 - (iii) the Group’s liquidity position;
 - (iv) retained earnings and distributable reserves of the Company and each of the members of the Group;
 - (v) the financial covenants to which the Group is subject and any restrictions on the payment of dividends that may be imposed by the Group’s lenders;

OPINION

We have audited the consolidated financial statements of Asia Tele-Net and Technology Corporation Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 61 to 121, which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with HKFRS Accounting Standards as issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") as issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), as applicable to audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

KEY AUDIT MATTERS *(Continued)*

Key audit matter

How our audit addressed the key audit matter

Valuation of investment properties

We identified the valuation of investment properties as a key audit matter as they are quantitatively significant to the consolidated financial statements as a whole and the significant judgment and estimates involved in the valuation.

As disclosed in note 16 to the consolidated financial statements, the Group's investment properties amounted to HK\$587,873,000 accounting for approximately 29% of the Group's total assets as at 31 December 2025.

The fair value of the Group's investment properties was carried out by an independent qualified valuer and determined by adopting the direct comparison approach with significant unobservable inputs.

Our procedures in relation to the valuation of the investment properties included:

- Evaluating the competence, capabilities and objectivity of the independent qualified valuer;
- Obtaining the valuation reports issued by the independent qualified valuer and holding discussion with management and the independent qualified valuer to understand the valuation technique, significant assumptions adopted and key inputs used in the valuation; and
- Assessing the reasonableness of the key inputs used by the independent qualified valuer by comparing to available market data.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRS Accounting Standards as issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Lam Shu Lung (practising certificate number: P07408).

2. APPLICATION OF NEW AND AMENDMENTS TO HKFRS ACCOUNTING STANDARDS

(Continued)

New and amendments to HKFRS Accounting Standards in issue but not yet effective *(Continued)*

HKFRS 18 introduces new requirements to present specified categories and defined subtotals in the consolidated statement of profit or loss, provide disclosures on management-defined performance measures in the notes to the consolidated financial statements, and improve aggregation and disaggregation. The application of HKFRS 18, and amendments to other standards, is expected to affect the presentation of the consolidated statement of profit or loss and other comprehensive income and disclosures in the future financial statements. The application of HKFRS 18 is not expected to have significant impact on the financial performance and financial positions of the Group in terms of recognition and measurement. However, it is expected to affect the structure and presentation of the consolidated statement of profit or loss and other comprehensive income.

Other than the above, the directors of the Company anticipate that the application of the other amendments to HKFRS Accounting Standards will have no material impact on the consolidated financial statements in the foreseeable future.

3. MATERIAL ACCOUNTING POLICY INFORMATION

The consolidated financial statements have been prepared in accordance with HKFRS Accounting Standards as issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain buildings and financial instruments that are measured at revalued amounts or fair values at the end of each reporting period, as explained in the accounting policies set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION *(Continued)*

Basis of consolidation *(Continued)*

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9 *Financial Instruments* ("HKFRS 9"). In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due. A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. A contract asset and a contract liability relating to the same contract are accounted for and presented on a net basis.

The progress towards complete satisfaction of a performance obligation is measured based on input method, which is to recognise revenue on the basis of the Group's efforts or inputs to the satisfaction of a performance obligation relative to the total expected inputs to the satisfaction of that performance obligation, that best depict the Group's performance in transferring control of goods or services.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at fair value. Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

Property, plant and equipment

Property, plant and equipment are tangible assets that are held for use in the production or supply of goods or services, or for administrative purposes. Property, plant and equipment are stated in the consolidated statement of financial position at cost or revalued amount less subsequent accumulated depreciation and subsequent accumulated impairment losses.

When the Group makes payments for ownership interests of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

Advantage has been taken of the transitional relief provided by paragraph 80AA of HKAS 16 *Property, Plant and Equipment* from the requirement to make regular revaluations of the Group's buildings which had been revalued prior to 30 September 1995. Prior to 30 September 1995, the revaluation increase arising on the revaluation of these assets was credited to the property revaluation reserve. Any future decreases in value of these assets will be dealt with as an expense to the extent that they exceed the balance, if any, on the revaluation reserve relating to a previous revaluation of the same asset. On the subsequent sale or retirement of a revalued asset, the corresponding revaluation surplus is transferred to retained profits.

Depreciation is recognised so as to write off the cost or revaluation of assets less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION *(Continued)*

Foreign currencies *(Continued)*

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's operations are translated into the presentation currency of the Group (i.e. HK\$) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during the period, in which case the exchange rates at the date of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of currency translation reserve (attributed to non-controlling interests as appropriate).

Borrowing costs

All borrowing costs that are not directly attributable to the acquisition, construction or production of qualifying assets, are recognised in profit or loss in the period in which they are incurred.

Taxation

Income tax expense represents the sum of current and deferred income tax expense.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from loss before taxation because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION *(Continued)*

Taxation *(Continued)*

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognised in profit or loss.

Employee benefits

Retirement benefit costs

Payments to defined contribution retirement benefits scheme/state-managed retirement benefits schemes/the Mandatory Provident Fund Scheme ("MPF Scheme") are charged as an expense when employees have rendered service entitling them to the contributions.

Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS Accounting Standard requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries and annual leave) after deducting any amount already paid.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established generally by regulation or convention in the marketplace concerned.

Financial assets and financial liabilities are initially measured at fair value except for trade debtors arising from contracts with customers which are initially measured in accordance with HKFRS 15 *Revenue from Contracts with Customers* ("HKFRS 15"). Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

3. MATERIAL ACCOUNTING POLICY INFORMATION *(Continued)*

Financial instruments *(Continued)*

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability to the net carrying amount on initial recognition.

Interest and dividend income which are derived from the Group's ordinary business are presented as revenue.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period.

All other financial assets are subsequently measured at FVTPL. Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss excludes any dividend earned on the financial asset and is included in the "other gains and losses" line item.

Impairment of financial assets and other items subject to impairment assessment under HKFRS 9

The Group performs impairment assessment under expected credit loss ("ECL") model on financial assets (including trade debtors, Deferred Consideration, loans receivable, investments in debt instruments, other debtors, amounts due from associates, bank deposits and bank balances), and other items (contract assets) which are subject to impairment assessment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

3. MATERIAL ACCOUNTING POLICY INFORMATION *(Continued)*

Financial instruments *(Continued)*

Financial assets *(Continued)*

Impairment of financial assets and other items subject to impairment assessment under HKFRS 9 (Continued)

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade debtors and contract assets. ECL on these assets are assessed individually by reference to past default experience and current past due exposure of the debtor, and an analysis of the debtor's current financial position taking into consideration of forward-looking information that is available without undue costs or effort.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. For the loan commitment, the date that the Group becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing impairment.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if (i) it has a low risk of default, (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an external credit rating of "investment grade" as per globally understood definitions.

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group). Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets and other items subject to impairment assessment under HKFRS 9 (Continued)

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

The measurement of ECL is a function of probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amounts, with the exception of trade debtors and loans receivables where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION *(Continued)*

Financial instruments *(Continued)*

Financial liabilities and equity *(Continued)*

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Financial liabilities at amortised cost

Financial liabilities including creditors and accrued charges, other payables and bank borrowings, are subsequently measured at amortised cost, using the effective interest method.

Derecognition

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation. Provisions for the expected cost of assurance-type warranty obligations under the relevant contracts with customers for sales of custom-built electroplating machinery and other industrial machinery are recognised at the date of sale of the relevant products, at the directors' best estimate of the expenditure required to settle the Group's obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

Impairment losses of property, plant and equipment

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment, to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss, if any.

Recoverable amount is the higher of fair value less costs of disposal and value in use. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at revalued amount under another standard, in which case the impairment loss is treated as a revaluation decrease under that standard.

4. CRITICAL ACCOUNTING JUDGMENT AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, the directors of the Company are required to make judgment, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgment in applying accounting policies

The following is the critical judgment, apart from those involving estimations (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Revenue recognition on contract works over time

Control of the asset is transferred over time when the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date. Judgment is required in determining whether the terms of the Group's contracts with customers in relation to contract works with no alternative use to the Group will create an enforceable right to payment for performance completed to date for the Group. The Group has considered the terms of the relevant contracts and opinion from external legal counsel. Based on the assessment by the Group's management, there is an enforceable right to payment in respect of the contracts for design, manufacturing and sales of custom-built electroplating machinery and other industrial machinery entered into by the Group. Accordingly, such revenue is recognised over time.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are set out as below.

Fair value of investment properties

Investment properties are stated at fair value based on the valuation performed by independent professional valuers. Fair value of investment properties is derived by direct comparison approach. The determination of the fair value involves certain inputs and estimates of market conditions which are set out in note 16. Changes to these assumptions would result in changes in the fair values of the Group's investment properties and the corresponding adjustments to profit or loss. As at 31 December 2025, the carrying amount of the Group's investment properties is HK\$587,873,000 (2024: HK\$689,387,000).

4. CRITICAL ACCOUNTING JUDGMENT AND KEY SOURCES OF ESTIMATION UNCERTAINTY

(Continued)

Key sources of estimation uncertainty (Continued)

Revenue recognition on contract works over time

Revenue from contract works in respect of design, manufacturing and sales of custom-built electroplating machinery and other industrial machinery, which is tailor made with customer's order and unique specifications, is recognised using input method, which is to recognise revenue on the basis of the Group's actual efforts or inputs to the satisfaction of a performance obligation relative to the total expected inputs to the satisfaction of that performance obligation. Accordingly, revenue recognition involves estimates being made to the actual inputs and the total expected inputs to the satisfaction of that performance obligation. Any change to the total expected inputs to the satisfaction of that performance obligation may have material impact on the contract revenue recognised in each accounting period over the contract term. The revenue from contract works amounted to HK\$334,764,000 (2024: HK\$299,509,000) for the year ended 31 December 2025.

5. REVENUE FROM CONTRACTS WITH CUSTOMERS *(Continued)*

Performance obligations for contracts with customers

The Group recognises revenue from the following sources:

(a) Sales of custom-built electroplating machinery and other industrial machinery to customers

The Group designs and sells custom-built electroplating machinery and other industrial machinery under contracts with customers. Such contracts are entered into before construction of the machinery begins. The machinery are tailor-made with customers' specification which does not have alternative use to the Group and the Group is entitled to payment for work performed up to date. The Group considers the design, manufacturing and installation of machinery, and the final acceptance by the customer, is as a single performance obligation under the relevant contract with a customer. Revenue from construction of custom-built electroplating machinery and other industrial machinery is recognised over time using input method, i.e. based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs. The directors consider that the input method is an appropriate measure of the progress towards complete satisfaction of these performance obligations under HKFRS 15. The Group applies the practical expedient of expensing all incremental costs, for example sales commission, to obtain a contract if these costs would otherwise have been fully amortised to profit or loss within one year.

The Group is entitled to invoice customers for construction of custom-built electroplating machinery and other industrial machinery based on achieving a series of performance-related milestones. Each contract work will normally involve two to six milestone payments, namely deposit payment (before commencement of construction work), shipment payment, arrival payment, installation completion payment, trial production payment and acceptance payment. The Group recognises a contract asset for any work performed. When a particular milestone is achieved, the Group will send to the customer an invoice for the related milestone payment in accordance with the agreed milestone payments as specified in the purchase order or contract. Any amount previously recognised as a contract asset is reclassified to trade debtors at the point upon the achievement of the particular milestone. If the milestone payment exceeds the revenue recognised to date under the input method, the Group recognises a contract liability for the difference. Warranties associated with the custom-built electroplating machinery and other industrial machinery cannot be purchased separately and they serve as an assurance that the products will comply with agreed-upon specifications. Accordingly, the Group accounts for warranties as provisions.

(b) Sales of spare parts of electroplating machinery

Revenue from sales of spare parts of electroplating machinery to the customers is recognised when control of the goods has transferred on receipt by the customer. A receivable is recognised by the Group when the goods are delivered to the customers as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due. The customers do not have the right of return/exchange for dissimilar goods.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

5. REVENUE FROM CONTRACTS WITH CUSTOMERS *(Continued)*

Performance obligations for contracts with customers *(Continued)*

(c) Provision of services – repairs, maintenance and modification

The Group provides services for repairs, maintenance and modification. Such services are recognised as a performance obligation satisfied over time as the Group's performance enhances an asset that the customer controls as the Group performs. Revenue is recognised for those services based on the stage of completion of the contract using input method.

The Group requires the deposit before the commencement of the relevant services for certain contracts. This would give rise to contract liabilities at the start of a contract until the revenue recognised on the relevant contract exceeds the amount of the deposit received.

The Group is entitled to invoice the customer in accordance with the relevant contracts and the Group allows a general credit period of one to two months for the amount invoiced.

Transaction price allocated to the remaining performance obligations for contracts with customers

All contracts with customers with unsatisfied performance obligations, including contracts relating to design, manufacturing and sales of custom-built electroplating machinery and other industrial machinery, contracts for provision of services in relation to repairs, maintenance and modification and sales of spare parts of electroplating machinery at 31 December 2025 and 2024 have original expected duration of one year or less. As permitted under HKFRS 15, the transaction price allocated to these unsatisfied performance obligations is not disclosed.

6. SEGMENT INFORMATION

The Group is internally organised based on the nature of business activities, namely: (i) electroplating equipment which generates revenue from provision of goods or services related to electroplating machinery, (ii) property investment which generates rental income and (iii) treasury management (which is, mainly, the investment in debt and equity investments and generates interest and dividend revenue). These are operating and reportable segments for the purpose of resources allocation and performance assessment.

14. PROPERTY, PLANT AND EQUIPMENT *(Continued)*

The above items of property, plant and equipment are depreciated on a straight-line basis after taking into account the residual values at the following rates per annum:

Leasehold land and buildings	over the shorter of 20 – 50 years or the term of the lease
Furniture and fixtures and leasehold improvements	25% or over the shorter of 25% or the term of the lease
Plant, machinery and equipment	12 $\frac{1}{2}$ % to 33 $\frac{1}{3}$ %
Motor vehicles	33 $\frac{1}{3}$ %

With regards to the prevailing condition of the property market in the PRC, the Group has performed an impairment assessment of the office premises in the PRC which are classified as property, plant and equipment and allocated to property investment segment. At 31 December 2025, the recoverable amount of the buildings amounted to HK\$27,757,000 (2024: HK\$31,405,000) which is based on its fair value less costs of disposal. Accordingly, impairment loss amounting to HK\$2,712,000 (2024: HK\$6,222,000) is recognised in profit or loss. The fair value of the properties are determined based on comparable market transactions that are categorised within level 3 of the fair value hierarchy.

15. RIGHT-OF-USE ASSETS

Net decrease in fair value recognised in profit or loss	(114,128)	(78,054)
At 31 December	587,873	689,387

The fair value of the Group's investment properties as at 31 December 2025 and 2024 have been arrived at on the basis of valuations carried out on that date by Avista Valuation Advisory Limited, an independent qualified valuer not connected with the Group, were arrived at by adopting the direct comparison approach as data available in the market to assess the market value of the investment properties. The direct comparison approach estimates the values of the properties based on the recent transaction prices for similar properties adjusted for nature, location and condition of the property. In estimating the fair value of the properties, the highest and best use of the properties is their current use.

The Group's finance department reviews the valuations performed by the independent qualified valuer for financial reporting purposes through holding discussion with the independent qualified valuer and assessing the property valuations movements when compared to the prior year valuation report. The results of the valuation are reported directly to the management of the Group.

16. INVESTMENT PROPERTIES (Continued)

Investment properties held by the Group	Fair value		Valuation technique	Significant unobservable inputs	Relationship
	2025 HK\$'000	2024 HK\$'000			
Office properties in Hong Kong	109,120	138,550	Direct comparison approach	Market unit rate, taking into account the recent transaction prices for similar properties adjusted for nature, location and conditions of the property, which ranged from approximately HK\$5,200 to HK\$13,200 (2024: HK\$6,700 to HK\$16,200) per square feet.	An increase in the market unit rate used would result in an increase in fair value, and vice versa.
Retail properties in the PRC	173,380	205,326	Direct comparison approach	Market unit rate, taking into account the recent transaction prices for similar properties adjusted for nature, location and conditions of the property, which ranged from approximately RMB54,000 to RMB72,000 (2024: RMB70,000 to RMB85,000) per square metre ("sqm").	An increase in the market unit rate used would result in an increase in fair value, and vice versa.
Office properties in the PRC	305,373	345,511	Direct comparison approach	Market unit rate, taking into account the recent transaction prices for similar properties adjusted for nature, location and conditions of the property, which ranged from approximately RMB20,000 to RMB24,000 (2024: RMB24,000 to RMB27,000) per sqm.	An increase in the market unit rate used would result in an increase in fair value, and vice versa.
	587,873	689,387			

The fair value measurement is categorised into Level 3 fair value hierarchy and there were no transfers into or out of Level 3 during the year.

As at 31 December 2025, the Group's investment properties amounted to HK\$58,240,000 (2024: HK\$70,950,000) have been pledged to secure banking facilities granted to the Group.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

17. DEFERRED CONSIDERATION

On 7 August 2011, a wholly-owned subsidiary of the Company entered into an agreement with an independent third party (together with its associates, defined as the "Counterparty") in relation to a re-development plan of two parcels of industrial lands located in Bao An District, Shenzhen, the PRC from industrial land into residential properties for resale. The Group has undertaken a series of negotiations with the Counterparty on the settlement scheme. On 28 June 2019 and 9 September 2019, the negotiation was finalised and the Group was offered a guaranteed cash consideration of RMB2,750,000,000 (equivalent to approximately HK\$3.1 billion) payable by six tranches which are due within on or before 6 January 2020 to on or before 5 January 2023. The Deferred Consideration is measured at amortised cost using the effective interest method, less any impairment. As at 31 December 2025 and 2024, the aggregate outstanding instalment payments amounted to RMB963,143,000 has been defaulted.

There are no other changes to the terms of the agreement or settlement scheme including the repayment terms and the late payment penalty terms since the default of the Counterparty, in which the Group is entitled to charge RMB50,000 per day for the first six months from the date of default and RMB100,000 per day from the seventh month from the date of default. Interest income of HK\$17,356,000 (2024: HK\$14,783,000) is recognised by applying the effective interest rate to the amortised cost of the Deferred Consideration.

Considering the credit quality and industry in which the Counterparty operates, the measurement of ECL considers only the amount and timing of cash flows that are expected from the foreclosure on the collaterals. As at 31 December 2025 and 2024, the outstanding amount of Deferred Consideration is secured by (i) the first charge of certain residential properties situated in Hong Kong owned by the Counterparty (which has been realised subsequent to 31 December 2025) and (ii) the Repayment Obligations (as defined in note 26). ECL of HK\$5,567,000 (2024: reversal for ECL of HK\$1,277,000) recognised for the year ended 31 December 2025 is mainly explained by the changes in the expected cash flows from the foreclosure of the collaterals.

As at 31 December 2025, the Deferred Consideration amounting to HK\$90,064,000 (2024: HK\$102,300,000) is expected to be recovered after more than one year and accordingly is classified as non-current assets. The remaining amount is classified as current assets.

18. LOANS RECEIVABLE

	2025 HK\$'000	2024 HK\$'000
Repayable within one year	17,070	9,982

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

18. LOANS RECEIVABLE *(Continued)*

As at 31 December 2025, the loan receivables carry annual interest ranging from 5% to 5.25% (2024: 5.25% to 8.875%) and contractually mature by July 2026 to March 2029 (2024: December 2025 to March 2029). Other than the loan receivables amounting to HK\$5,000,000 (2024: nil) which are unsecured, the remaining loan receivables were secured by mortgages of properties owned by the borrower or the spouse of the borrower, and cash security of HK\$1,000,000 (which is included in “other payables” as at 31 December 2025 and 2024).

Details of impairment assessment of loans receivable are set out in note 35.

19. INVESTMENTS IN DEBT INSTRUMENTS

Amount represents investments in listed bonds quoted in over-the-counter market. The bond investments are unsecured, carry annual coupon at 1.3% to 8% (2024: 0% to 8%) and mature in February 2026 to February 2033 (2024: January 2025 to February 2033). The investments are held within a business model whose objective is to hold the debt instruments in order to collect contractual cash flows and the contractual terms give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding and therefore are subsequently measured at amortised cost.

21. CONTRACT ASSETS/LIABILITIES (Continued)

At 1 January 2024, contract assets and contract liabilities amounted to HK\$64,148,000 and HK\$83,113,000 respectively. The increase in contract liabilities during the current year is due to the increase in number of ongoing projects during the current year.

The Group classifies these contract assets as current because the Group expects to realise them in its normal operating cycle. Details of impairment assessment of contract assets are set out in note 35.

The following table shows the amount of the revenue recognised during the year that was included in contract liabilities at the beginning of the year.

	2025 HK\$'000	2024 HK\$'000

22. DEBTORS AND PREPAYMENTS (Continued)

The following is an ageing analysis of trade debtors net of allowance for credit losses presented based on the invoice date at the end of the reporting period, which is approximated the respective recognition dates for sales of goods or respective dates of the achievement of the relevant milestone as stipulated in the relevant service contracts as appropriate:

	2025 HK\$'000	2024 HK\$'000
0 – 60 days	71,472	47,485
61 – 120 days	380	584
121 – 180 days	126	410
Over 180 days	1,714	1,617
	73,692	50,096

As at 31 December 2025, excluding credit-impaired trade debtors balance, included in the Group's trade debtors balance are debtors with gross amount of HK\$2,606,000 (2024: HK\$13,573,000) with allowance for credit losses of HK\$24,000 (2024: HK\$70,000) in aggregate which are past due as at the reporting date. Out of the past due balances, HK\$290,000 (2024: HK\$508,000) with allowance for credit losses of HK\$16,000 (2024: HK\$9,000) has been past due 90 days or more and is not considered as in default as these customers have a good business relationship with the Group with satisfactory settlement history of recurring overdue records and no history of default of these relevant customers. The Group does not hold any collateral over these balances.

Details of impairment assessment of trade debtors are set out in note 35.

23. INVESTMENTS AT FVTPL

Investments at FVTPL as at 31 December 2025 and 2024 represent equity securities listed in Hong Kong. The fair values of the investments are determined based on the quoted market bid prices available on the Stock Exchange.

24. AMOUNTS DUE FROM ASSOCIATES

Amounts due from associates are of non-trade nature and are unsecured, non-interest-bearing and repayable on demand.

At 31 December 2025, the Group had estimated unused tax losses and deductible temporary differences relating to asset impairment and loss in fair value of investment properties of HK\$437,963,000 (2024: HK\$513,893,000) and HK\$243,587,000 (2024: HK\$126,747,000) respectively available for offset against future profits. No deferred tax asset has been recognised due to the uncertainty of future profits streams. The tax losses may be carried forward indefinitely.

32. OPERATING LEASE ARRANGEMENTS

The Group leases out certain office properties in Hong Kong, and office and retail properties in the PRC under operating leases with rentals payable monthly. The leases typically run for an initial period of 15 months to 15 years (2024: 6 months to 15 years), with unilateral rights to extend the lease beyond initial period held by lessees only. Majority of the lease contracts contain market review clauses in the event the lessee exercises the option to extend. During the current year, revenue from operating leases amounted to HK\$14,448,000 (2024: HK\$13,174,000) is recognised and included in the amount is HK\$367,000 (2024: HK\$410,000) that relates to the variable lease payments determined based on the revenue generated by the lessees for certain retail units.

The Group is not exposed to foreign currency risk as a result of the lease arrangements, as all leases are denominated in the respective functional currencies of group entities. The lease contracts do not contain residual value guarantee and/or lessee's option to purchase the property at the end of lease term.

33. PLEDGE OF ASSETS

As at 31 December 2025, the Group's bank deposits and investment properties amounting to nil (2024: HK\$7,038,000) and HK\$58,240,000 (2024: HK\$70,950,000), respectively, were pledged to the bank for securing bank facilities to the Group.

34. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged for both years.

The capital structure of the Group consists of debt comprising bank borrowings and equity attributable to owners of the Company, comprising issued share capital and reserves. The directors of the Company review the capital structure on a continuous basis. As part of this review, the directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through the issuance of new shares or share buy-backs as well as addition or repayment of borrowings.

Financial risk management objectives and policies

The Group's major financial instruments include bank balances and cash, bank deposits, Deferred Consideration, loans receivable, trade debtors, other debtors, investments at FVTPL, investments in debt instruments, amounts due from associates, creditors and accrued charges, other payables, lease liabilities and bank borrowings. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Currency risk

At 31 December 2025, the Group has maintained the bank deposits in RMB and over 60% (2024: 40%) of bank deposit as at 31 December 2025 are denominated in RMB. On the other hand, certain subsidiaries of the Group have foreign currency sales and purchases. The Group is therefore exposed to foreign currency risk. In addition, certain debtors, bank deposits, bank balances, creditors and accrued charges are denominated in currencies other than the functional currency of the respective group entities. The Group currently does not have a foreign currency hedging policy. However, management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

The carrying amounts of the Group's major foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

	Assets		Liabilities	
	2025 HK\$'000	2024 HK\$'000	2025 HK\$'000	2024 HK\$'000

Financial risk management objectives and policies (Continued)

Currency risk (Continued)

At 31 December 2025, the carrying amounts of inter-company balances (assets) of certain group entities which were denominated in HKD (against RMB) is HK\$224,686,000 (2024: HK\$164,641,000).

The directors of the Company expect the foreign exchange exposure on USD against HKD to be minimal because HKD is pegged with USD under the Linked Exchange Rate System. Accordingly, no sensitivity analysis is presented.

Sensitivity analysis

The following table details the Group's sensitivity to a 10% (2024: 10%) increase and decrease in relevant foreign currencies against the functional currency of the relevant group entities. 10% (2024: 10%) is the sensitivity rate used that represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translations at the year end for a 10% (2024: 10%) change in foreign currency rates. A positive number below indicates a decrease in post-tax loss for the year where relevant currencies strengthen 10% (2024: 10%) against the functional currency of the relevant group entities. For a 10% (2024: 10%) weakening of relevant currencies against the functional currency of the relevant group entities, there would be an equal and opposite impact on the result.

	2025 HK\$'000	2024 HK\$'000
RMB against HKD	23,999	28,910
NTD against HKD	104	103
GBP against HKD	1,581	3,924
HKD against RMB	18,761	13,748

In the management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk as the year end exposure does not reflect the exposure during the year.

Interest rate risk

The Group is exposed to cash flow interest rate risk in relation to variable-rate loans receivable, bank balances and bank borrowings as at 31 December 2025 (details are set out in notes 18, 25 and 29). It is the Group's policy to keep its loans receivable at floating rate of interest so as to minimise the fair value interest rate risk.

The Group is exposed to fair value interest rate risk in relation to fixed-rate Deferred Consideration, loans receivable, investments in debt instruments, deposits placed with banks, lease liabilities and bank borrowings (details are set out in notes 17, 18, 19, 25, 28 and 29). The Group has not used any derivative contracts to hedge this exposure to interest rate risk.

The Group currently does not have any interest rate hedging policy. However, management monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arise.

Sensitivity analysis is not presented as the directors of the Company considers the effect of the interest rate fluctuations would not cause significant impact to the Group's loss after taxation.

35. FINANCIAL INSTRUMENTS *(Continued)*

Financial risk management objectives and policies *(Continued)*

Equity price risk

The Group is exposed to potential loss in market value resulting from an adverse change in prices through its investments at FVTPL. Management manages this exposure by closely monitoring the performance of the investments and market conditions. Management will consider diversifying the portfolio of investments as they consider appropriate. The Group's stock portfolio mainly comprise of blue chip companies which allows the Group to increase the return of the funds. At 31 December 2025, the largest equity investment within the Group's portfolio is a leading telecommunication service provider in the PRC which accounts for over 68% (2024: 70%) of the carrying amount of investments at FVTPL.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to equity price risks for investments at FVTPL at the end of the reporting period.

If the prices of the respective equity instruments had been 20% (2024: 20%) higher/lower, the Group's post-tax loss for the year ended 31 December 2025 would decrease/increase by HK\$39,963,000 (2024: HK\$35,066,000) as a result of the changes in fair value of investments at FVTPL.

In the management's opinion, the above sensitivity analysis is unrepresentative of the inherent risk as the year end exposure does not reflect the exposure during the year.

Credit risk and impairment assessment

Credit risk refers to the risk that the Group's counterparties default on their contractual obligations resulting in financial losses to the Group. The Group's credit risk exposure is primarily attributable to deposits placed with banks, investments in debt instruments, Deferred Consideration, trade debtors, contract assets, loans receivable and other debtors. The Group does not hold any collateral or other credit enhancements to cover its credit risk associated with its financial assets and contract assets, except that the credit risks associated with certain loan receivables and Deferred Consideration which is mitigated through obtaining collaterals from the counterparties.

The Group performed impairment assessment for financial assets and other items under ECL model. Information about the Group's credit risk management, credit risk exposure and the related impairment assessment, if applicable, are summarised as below.

Credit risk and impairment assessment *(Continued)*

Impairment assessment on financial assets and other items subject to ECL model (Continued)

ECL for all amounts are assessed individually. The internal credit rating categories are regularly reviewed by the management of the Group to ensure relevant information about specific debtors is updated.

The estimated loss rates are estimated based on historical credit loss experience of the debtors and forward-looking information (for example, the economic growth rates which reflect the general economic conditions of the industry in which the debtors operate) that is available without undue cost or effort or proxy to loss rates published by international credit-rating agencies. Such forward-looking information is used by the management of the Group to assess both the current as well as the forecast direction of conditions at the reporting date.

Deposits placed with banks

The Group only placed deposits in reputable banks with high credit ratings assigned by the international rating agencies. The credit risk is therefore limited and accordingly the ECL is considered negligible.

Investments in debt instruments

The Group has utilised its idle cash to invest in fixed income instruments. The Group only invests in bonds with investment grade assigned by internationally recognised credit rating agencies and/or issued by reputable companies or issuers with stable industry outlook. These issuers of the bonds are mainly financial institutions, United States Treasury and largest property companies in Hong Kong. The Group has reviewed the recent development of the issuers and takes appropriate investment decisions from time to time, including for example, during the current year the Group has disposed of an investment with high credit risk before its contractual maturity to reduce the Group's loss exposure. At 31 December 2025, the management of the Group has assessed that the ECL determined to be nil (2024: HK\$4,180,000).

Deferred Consideration

The Counterparty is engaged in the provision of construction services to property developers and property development business in the PRC. Starting from the second half of the financial year 2021, defaults by certain leaders in the PRC real estate market has affected the market demand and market price of the properties held by many property developers and increased the difficulty in obtaining financing for daily operation by them, which has resulted in liquidity problems of many industry players in this market, and the Counterparty is of no exception. In the past years, the Group has reduced the credit risk exposure of the credit-impaired Deferred Consideration amount through negotiation with the Counterparty for additional collaterals, with the objective to increase the possibility of recovery from the receivable amount.

Trade debtors and contract assets

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. The management closely monitors the subsequent settlement of the debts and does not grant long credit period to customers.

The Group has applied the simplified approach in HKFRS 9 to measure the loss allowance at lifetime ECL for trade debtors and contract assets. The Group determines the ECL on these items individually by reference to past default experience and current past due exposure of the debtor, and an analysis of the debtor's current financial position.

The Group had concentration of credit risk as 66% (2024: 68%) of the total trade debtors as at 31 December 2025 was due from the Group's five largest trade debtors. The Group's five largest trade debtors are multi-national companies or well-established corporations. In order to minimise the credit risk of those receivables, the management closely monitored the recoverability of the amounts due. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

– Impairment losses recognised	–	772	772
New financial assets originated	76	–	76
At 31 December 2025	76	3,244	3,320

The changes in lifetime ECL reversed for contract assets (not credit-impaired) during the current year is explained by impairment recognised for contract assets newly originated during the year net with the impairment loss for contract assets recognised at the beginning of the year of HK\$1,591,000 (2024: ECL reversed of HK\$3,976,000).

Loans receivable

The loans receivable were secured by assets provided by the borrowers. In order to minimise the credit risk, prior to advancing the loans or renegotiation of loan terms, the management of the Group closely evaluates the borrower's financial background and repayment abilities. The assessment is based on a close monitoring and evaluation of the collectability of each outstanding amount and the past collection history, to the extent available. The quality of the collateral has not significantly deteriorated during the current year. The Group requested for additional securities when the loan are matured and terms are renegotiated. The estimated realisable amount from the collaterals are considered in the loss given default for measurement of ECL and ECL amounting to HK\$3,191,000 (2024: HK\$9,866,000) has been provided.

Other debtors

The Group has taken into account the economic outlook of the industries in which the debtors operate, and concluded that there has been no significant increase in credit risk since initial recognition. The ECL on other debtors is considered to be insignificant.

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities and lease liabilities based on the agreed repayment terms. The table has been drawn up based on the undiscounted cash flows of financial liabilities, lease liabilities and other non-financial liabilities based on the earliest date on which the Group can be required to settle. The table includes both interest and principal cash flows.

35. FINANCIAL INSTRUMENTS *(Continued)*

Fair value measurements of financial instruments

The fair value of investments at FVTPL (listed in Hong Kong) are determined based on the quoted market bid prices available on the Stock Exchange and classified as Level 1 of the fair value hierarchy (unadjusted quoted prices in active markets for identical assets or liabilities that the entity can access at the measurement date).

The fair value of other financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis. The directors of the Company consider that the carrying amounts of the gross carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate to their fair values.

36. RETIREMENT BENEFITS SCHEMES/SHARE OPTION SCHEME

- (a) Since 1 December 2000, the Group has operated pension schemes under the rules and regulations of the Mandatory Provident Fund Schemes Ordinance for all qualifying employees in Hong Kong. The assets of the MPF Scheme are held separately in an independently managed fund. The Group has followed the minimum statutory contribution requirements of 5% of eligible employees' relevant aggregate income with a maximum monthly contribution of HK\$1,500 per person. The contributions are charged to profit or loss as incurred. The Group's liability is limited to the monthly contributions to the fund. The Group's contributions to MPF Scheme for its employees are fully and immediately vested in the employees once the contributions are made. Accordingly, there are no forfeited contribution under the MPF Scheme that may be used by the Group to reduce the existing level of contribution.

The relevant PRC subsidiaries are required to make contributions to the state-managed schemes in the PRC based on a certain percentage of the monthly salaries of their current employees to fund the benefits. The employees are entitled to retirement pension calculated with reference to their basic salaries on retirement and their length of service in accordance with the relevant government regulations.

The total cost of HK\$1,486,000 (2024: HK\$1,469,000) recognised to profit or loss represents contributions payable to these schemes by the Group in respect of the current year.

- (b) Pursuant to the Employment Ordinance, Chapter 57, the Group has the obligation to pay long service payments ("LSP") to qualifying employees in Hong Kong upon retirement, subject to a minimum of 5 years employment period, amounting to two-third of last monthly wages (before termination of employment) multiplied by years of service. Last monthly wages are capped at HK\$22,500 while the amount of long service payment shall not exceed HK\$390,000. This obligation is accounted for as a post-employment defined benefit plan. Under the Employment and Retirement Schemes Legislation (Offsetting Arrangement) (Amendment) Ordinance 2022 which was effective from 1 May 2025, any MPF benefits of an entity would no longer be eligible to offset against its obligations on LSP for the portion of the LSP accrued on or after 1 May 2025. Separately, the Hong Kong government has launched a 25-year subsidy scheme to subsidise employers after 1 May 2025. The unfunded LSP obligation at 31 December 2025 and 2024 and the current service cost during the years ended 31 December 2025 and 2024 is insignificant.

36. RETIREMENT BENEFITS SCHEMES/SHARE OPTION SCHEME *(Continued)*

- (c) The Company's share option scheme (the "Scheme") come into effect from 12 June 2015 for the primary purpose of providing incentives and rewards to any employees (whether full time or part time), executives or officers of the Company or any of the subsidiaries (including executive and non-executive directors) and any business consultants, agents, financial or legal advisers who will contribute or have contributed to the Company or any of the subsidiaries for their contributions to the Company or such subsidiaries. The Scheme has expired at the close of business of 12 June 2025.

The number of shares available for issue under the Scheme was 38,263,340 shares representing 10% of the issued share capital at 31 December 2024. The maximum number of shares issuable under the Scheme to each participant in any 12-month period up to the date of grant shall not exceed 1% of the shares unless it is approved by shareholders in a general meeting of the Company. Any share options granted a substantial shareholder or an independent non-executive director of the Company or to any of their associates, in excess of 0.1% of the shares in issue and with an aggregate value (based on the closing price of the shares at the date of the grant) in excess of HK\$5,000,000, in any 12-month period, are subject to shareholders' approval in general meeting of the Company.

The period during which an option may be exercised will be determined by the Board at its absolute discretion, save that no option may be exercised more than 10 years after it has been granted. There is no general requirement that an option must be held for any minimum period before it can be exercised but the board of directors of the Company is empowered to impose as its discretion any such minimum period at the time of grant of any particular option.

HK\$1.00 is payable by each eligible participant to the Company on acceptance of the option on or before the 30th day after the option is offered. The exercise price must be at least the higher of (i) the closing price of the share as stated in the Stock Exchange's daily quotations sheet on the date of grant which must be a business day; (ii) the average of the closing prices of the shares as stated in the Stock Exchange's daily quotations sheet for the five business days immediately preceding the date of grant; and (iii) the nominal value of a share.

No share option has been granted pursuant to the Scheme since its adoption by the Company up to the expiry of the Scheme.
