

- As of April 15, 2026, we delivered over 300,000 units of our fully solid-state digital LiDAR E-platform products including E1 and E1R, hitting a new industry record. We rank first in the PRC LiDAR market in terms of delivery volume, demonstrating that our full-stack self-developed SPAD-SoC chip technology supports steady large-scale production and commercial shipment.
- We continue to strengthen strategic cooperation with leading enterprises in the robotic lawn mower industry. We work closely with Roborock to advance intelligent upgrading of new-generation products, and have elevated our partnership with Navimow to strategic level.
- According to statistics from third-party media ijiwei.com, our LiDAR products are installed on 42.3% of all LiDAR-equipped vehicles displayed at Beijing Auto Show 2026. We now serve more than 40 renowned automotive brands worldwide with over 80 vehicle models, leading the industry in both model coverage and brand cooperation.
- We have received the 2026 Strategic Partner Award by Geely Auto Group and obtained the qualification of Geely Global Strategic Supplier. Our cooperation covers dozens of vehicle models under multiple intelligent automotive brands of Geely Auto Group.
- We are once again listed on Morgan Stanley's Global Top 100 Humanoid Robot Value Chain. We are the only Chinese LiDAR enterprise included in both global and domestic humanoid robot industrial maps.

FINANCIAL HIGHLIGHTS FOR Q1 2026

	For the three months ended March 31, 2026		2025
	(Unaudited)		
	<i>(RMB in thousands, except for percentage)</i>

Total equity	<u>3,698,576</u>		<u>3,805,439</u>

MANAGEMENT COMMENTARY

RoboSense delivered a solid start to 2026, posting robust revenue growth while accelerating the industry shift to next-generation digital LiDAR. The Company's leadership at the center of physical AI – powering intelligent vehicles and a broad range of robotic platforms, from robotaxis and robovans to robotic lawn mowers, commercial cleaning systems, humanoid robots, and beyond, with our proprietary SPAD-SOC LiDAR chips, was reinforced in Q1 2026.

Key of Q1 2026 Highlights

- Revenue reached RMB458.8 million, up about 39.9% year-over-year.
- Total LiDAR shipments reached 330,300 units, surging about 204.1% year-over-year.
- Robotic LiDAR volumes significantly increased by 1,458.8% year-over-year to 185,500 units, accounting for about 56.2% of our shipments.
- RoboSense maintained leading global share across multiple robotic LiDAR niches and ranked among the top domestic suppliers for intelligent robots, robotic lawn mowers, and commercial cleaning systems.
- Active Camera solutions secured volume orders from leading European humanoid robot manufacturers, advancing robotic platforms from validation to full-scale mass production.
- Order backlog on hand exceeded 9 million units for ADAS.

RoboSense's revenue has long featured a seasonal pattern of lower sales volume of LiDAR products for ADAS applications in the first half of a year and higher shipment of LiDAR products for ADAS applications in the second half of a year. Our overall gross margin dropped slightly to 21.7% in Q1 2026 from 23.5% in Q1 2025, mainly attributable to higher overheads incurred in manufacturing our new EMX LiDAR products in the initial mass production stage. However, benefiting from concentrated deliveries of new automotive vehicles in the second half of the year, incremental market demand in the robotics sector, coupled with cost optimization of self-developed chips and improved capacity utilization, the Company's management team maintains full confidence in the Company's future development prospects.

In April 2026, RoboSense launched “Eocene”, its self-developed SPAD-SoC digital architecture platform, together with two breakthrough proprietary chips:

- Phoenix – Adopting a native integrated design with single chip and single optical path, it supports 2,160 lines and has passed AEC-Q100 automotive-grade qualification certification, with full qualification for automotive-grade mass production. Meanwhile, the 4-megapixel high-definition LiDAR solution built on Phoenix has secured design wins from leading automakers, and expects to realize mass production and vehicle installation within 2026.
- Peacock – It is the world's highest-resolution large-area array SPAD-SoC chip, as well as the highest-specification mass-producible area array chip in the current industry, meeting VGA-level 3D imaging standards. Products equipped with the Peacock chip have commenced small-batch delivery, and expects to kick off large-scale mass production in the third quarter of this year.

These in-house SPAD-SoC chips form the core technological moat that will drive LiDAR leadership for the next decade.

2026 marks a critical transition year for the global LiDAR industry, defined by a broad technological shift from traditional analog and mechanical LiDAR architectures to next-generation digital LiDAR systems. This industry transition raises the overall technical bar for LiDAR beam count and imaging resolution, which is essential to support safer and more reliable autonomous driving, and paves the way for broader adoption of L3 to L4 functionalities over the next few years. Legacy analog and mechanical LiDAR solutions are fundamentally limited by inherent hardware ceilings in resolution and beam density, making them unable to meet the evolving requirements of high-level autonomous driving.

RoboSense continues to lead the industry's digital transformation, anchored by our proprietary SPAD-SoC chip architecture. The Company is scheduled to start the mass production of our new in-house developed perception chips Phoenix and Peacock in the second half of the year. With our early-mover technology advantage, RoboSense is at the forefront of driving the industry-wide shift toward pure digital LiDAR.

We expect gradual gross margin improvement as more product lines migrate to our fully in-house chip solution, and our cost structure will be optimized step-by-step, supporting steady margin recovery over time.

Ultimately, this full-stack technological upgrade enables RoboSense to deliver higher-resolution, safer, and more reliable sensing solutions to our OEM and robotic customers, strengthening our long-term product value and market positioning amid the rapid evolution of physical AI.

Driven by new vehicle model ramps, explosive robotics demand, ongoing chip cost optimization, and rising capacity utilization, RoboSense maintains a confident long-term outlook. As an AI technology platform executing its dual-core automotive and robotics strategy, we are well positioned to capture the multi-year growth of the physical AI market – delivering sustained value for Shareholders while advancing a safer, smarter world.

Looking forward, RoboSense remains dedicated to innovation in AI algorithms and hardware technologies, while continuously reinforcing its leading positions in ADAS driving and the robotics industry. We are committed to becoming a global leading robotic technology platform company, and creating long-term and stable market value and social benefits for the industries.

UNAUDITED FINANCIAL RESULTS FOR Q1 2026

The following table sets forth the comparative figures for the three months ended March 31, 2025 and 2026:

	For the three months ended March 31,	
	2026	2025
	(Unaudited)	
	<i>(RMB in thousands)</i>	
Revenue	458,750	327,842
Cost of sales	(359,149)	(250,832)
Gross profit	99,601	77,010
Research and development expenses	(162,746)	(144,875)
Sales and marketing expenses	(35,986)	(28,135)
General and administrative expenses	(42,108)	(40,588)
Net reversal of impairment losses on financial assets	1,722	3,283
Other income	10,609	14,439
Other gains/(losses) – net	52,317	(2,169)
Operating loss	(76,591)	(121,035)
Finance income – net	13,085	22,294
Share of net (loss)/profit of an associate accounted for using the equity method	(321)	223
Loss before income tax	(63,827)	(98,518)
Income tax benefits/(expenses)	504	(268)
Net loss	(63,323)	(98,786)
(Loss)/profit attributable to:		
Owners of the Company	(64,224)	(99,593)
Non-controlling interests	901	807

	As of March 31, 2026 (Unaudited) <i>(RMB in thousands)</i>	As of December 31, 2025 (Audited)
Total current assets	4,418,326	4,637,880
Total non-current assets	<u>794,669</u>	<u>627,802</u>

MANAGEMENT DISCUSSION AND ANALYSIS

Three months ended March 31, 2026 compared to three months ended March 31, 2025

Revenue

	For the three months ended March 31,	
	2026	2025
	(Unaudited)	
	(RMB in thousands)	
Revenue from:		
Products	441,123	302,290
Solutions	9,964	21,545
Services and others	7,663	4,007
Total	458,750	327,842

Total revenue increased by about 39.9% to RMB458.8 million in Q1 2026 from RMB327.8 million in Q1 2025, mainly attributable to the increase in products. Revenue generated from products increased by about 45.9% to RMB441.1 million in Q1 2026 from RMB302.3 million in Q1 2025, mainly because the sales volume of LiDAR products increased by about 204.1% to approximately 330,300 units in Q1 2026 from approximately 108,600 units in Q1 2025.

Cost of Sales

Cost of sales increased by about 43.2% to RMB359.1 million in Q1 2026 from RMB250.8 million in Q1 2025. The year-on-year increase was mainly attributable to the increase in sales of products.

Gross Profit and Gross Margin

Gross profit increased by about 29.3% to RMB99.6 million in Q1 2026 from RMB77.0 million in Q1 2025. Overall gross margin decreased slightly to 21.7% in Q1 2026 from 23.5% in Q1 2025. The slight decline in overall gross margin was mainly attributable to higher overheads incurred in manufacturing our new EMX LiDAR products in the initial mass production stage.

R&D Expenses

R&D expenses increased by about 12.3% to RMB162.7 million in Q1 2026 from RMB144.9 million in Q1 2025, mainly attributable to the increase in employee benefit expenses, and the increase in design and development expenses and raw materials and consumables used in developing new products to be applied in robotic perception and manipulation functions.

Sales and Marketing Expenses

Sales and marketing expenses increased by about 27.9% to RMB36.0 million in Q1 2026 from RMB28.1 million in Q1 2025, mainly attributable to the increase in employee benefit expense.

General and Administrative Expenses

General and administrative expenses increased by about 3.7% to RMB42.1 million in Q1 2026 from RMB40.6 million in Q1 2025, mainly attributable to the increase in office and freight expenses, as well as traveling and other expenses.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

1 General information

RoboSense Technology Co., Ltd (the “**Company**”) and its subsidiaries (together, the “**Group**”) are principally engaged in (i) developing and producing LiDAR products for applications in advanced driver assistance systems (“**ADAS**”), as well as robotics and others, (ii) LiDAR perception solutions, combining LiDAR hardware and AI perception software, and (iii) services in the People’s Republic of China (the “**PRC**”).

The Company is an investment holding company and was incorporated in the Cayman Islands on June 23, 2021 as an exempted company with limited liability. The address of the Company’s registered office is the offices of Maples Corporate Services Limited, PO Box 309, Ugland House, Grand Cayman, KY1-1104, Cayman Islands.

Suteng Innovation Technology Co., Ltd. (“**Shenzhen Suteng**”), an indirect wholly owned subsidiary of the Company, was incorporated in the PRC in August 2014. The business of the Group was mainly carried out by Shenzhen Suteng and its subsidiaries.

On April 21, 2023, Dr. Qiu Chunxin, Dr. Zhu Xiaorui, and Mr. Liu Letian (collectively the “**Founders**”) entered into the Concert Party Confirmation, to formalize and confirm that they have been parties acting in concert in exercising directors and shareholders’ rights of the Group and aligning their votes in the board and shareholders’ meetings of the Group since the Founders become shareholders or directors of the relevant member of the Group (whichever is earlier).

The Company’s shares have been listed on the Main Board of The Stock Exchange of Hong Kong Limited since January 5, 2024.

This interim condensed consolidated financial information comprises the interim condensed consolidated balance sheet of the Group as of March 31, 2026, the interim condensed consolidated statement of comprehensive income, the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the three-month period then ended, and selected explanatory notes (the “**Interim Financial Information**”).

This Interim Financial Information is presented in Renminbi (“**RMB**”), unless otherwise stated. This Interim Financial Information has been approved for issue by the board of directors on May 27, 2026.

This Interim Financial Information has not been audited but has been reviewed by the independent auditor of the Company.

2 Basis of preparation

The Interim Financial Information has been prepared in accordance with International Accounting Standard (“**IAS**”) 34, “Interim Financial Reporting”. The Interim Financial Information should be read in conjunction with the annual consolidated financial statements of the Group for the year ended December 31, 2025 as set out in the annual report of the Company, which have been prepared in accordance with International Financial Reporting Accounting Standards (“**IFRS**”) and disclosure requirement of the Hong Kong Companies Ordinance Cap. 622 (“**HKCO**”).

3 Material accounting policy information

The accounting policies applied in the preparation of the Interim Financial Information are consistent with those of the annual financial statements of the Company for the year ended December 31, 2025, except for the adoption of new and amended IFRS Accounting Standards effective for the financial period beginning on January 1, 2026.

(a) *New and amended standards adopted by the Group*

The following amendments to standards have been adopted by the Group for the financial period beginning on January 1, 2026:

Amendments	Subject of Amendments
Amendments to IFRS 9 and IFRS 7	Classification and Measurement of Financial Instruments
Amendments to IFRS 9 and IFRS 7	Contracts Referencing Nature-dependent Electricity
Annual improvements to IFRS – Volume 11	Annual improvements

The adoption of the above amendments does not have a material impact on the results and financial position of the Group.

(b) *New and amended standards and interpretations not yet adopted by the Group*

Certain amendments to standards have been issued but are not yet effective and have not been early adopted by the Group during the period. The Group has already commenced an assessment of the impact of these new and amended standards and has concluded on a preliminary basis that adoption of these new and amended standards is not expected to have significant impacts on the financial performance and positions of the Group when they become effective, except for IFRS 18, which will mainly impact the presentation of consolidated financial statements.

Amendments	Subject of amendments	Effective for accounting periods beginning on or after
IFRS 18	Presentation and Disclosure in Financial Statements	January 1, 2027
IFRS 19 and Amendments	Subsidiaries without Public Accountability: Disclosures	January 1, 2027
Amendments to IAS 21	Translation to a Hyperinflationary Presentation Currency	January 1, 2027
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined

4 Revenue and segment information

(a) Segment information

The Group's business activities, for which discrete financial statements are available, are regularly reviewed and evaluated by the chief operating decision-maker ("CODM") who is the Chief Executive Officer of the Company. As a result of this evaluation, the CODM considers that the Group's operations are operated and managed as a single segment. Accordingly, no segment information is presented.

The Company is domiciled in the Cayman Islands while the Group mainly operates its businesses in the PRC and earns the revenue from customers in the PRC and other geographic locations as follows:

	Three months ended March 31,	
	2026	2025
	RMB'000	RMB'000
	(Unaudited)	(Unaudited)
Revenue from:		
PRC	425,619	303,775
Others	33,131	24,067
	458,750	327,842

As of March 31, 2026 and December 31, 2025, substantially all of the non-current assets of the Group were located in the PRC.

(b) Disaggregation of revenue

The breakdown of revenue for the three months ended March 31, 2026 and 2025 is as follows:

	Three months ended March 31,	
	2026	2025
	RMB'000	RMB'000
	(Unaudited)	(Unaudited)
Revenue from:		
Products	441,123	302,290
Solutions	9,964	21,545
Services and others	7,663	4,007
	458,750	327,842

The Group's revenue was recognized at a point in time for the three months ended March 31, 2026 and 2025.

5 Income tax benefits/(expenses)

The income tax benefits/(expenses) of the Group for the three months ended March 31, 2026 and 2025 are analyzed as below:

	Three months ended March 31,	
	2026	2025
	RMB'000	RMB'000
	(Unaudited)	(Unaudited)
Current income tax	1,737	268
Deferred income tax	(2,241)	–
	<u>(504)</u>	<u>268</u>

Income tax benefits/(expenses) are recognised based on management's best estimate of the weighted average annual income tax rate expected for the full financial year.

6 Dividends

No dividends have been paid or declared by the Company during the three months ended March 31, 2026 (three months ended March 31, 2025: Nil).

7 Trade and notes receivables

	As of	As of
	March 31,	December 31,
	2026	2025
	RMB'000	RMB'000
	(Unaudited)	(Audited)
Trade receivables (Note (a))	489,758	616,919
Notes receivables (Note (b))	186,667	202,968
	<u>676,425</u>	819,887
Less: credit loss allowances	(17,717)	(19,620)
	<u>658,708</u>	<u>800,267</u>

(a) As of March 31, 2026 and December 31, 2025, the ageing analysis of the trade receivables based on recognition date is as follows:

	As of	As of
	March 31,	December 31,
	2026	2025
	RMB'000	RMB'000
	(Unaudited)	(Audited)
Up to 6 months	441,943	582,364
6 months to 1 year	28,842	16,940
1 to 2 years	6,980	6,347
Over 2 years	11,993	11,268
	<u>489,758</u>	616,919
Less: credit loss allowances	(17,717)	(19,620)
Trade receivables – net	<u>472,041</u>	<u>597,299</u>

(b) The maturity dates of notes receivables are normally within 6 months.

8 Trade payables

As of March 31, 2026 and December 31, 2025, the aging analysis of the trade payables based on the date of the goods and services received are as follows:

	As of March 31, 2026 RMB'000 (Unaudited)	As of December 31, 2025 RMB'000 (Audited)
Up to 6 months	498,520	540,189
Between 6 months and 1 year	1,324	3,861
Over 1 year	2,732	1,623
	502,576	545,673

9 Events occurring after the reporting period

In April 2026, the Group acquired a 30% equity interest in a private company for a consideration of USD4,373,624 (approximately RMB30 million). Management is still in process of assessing the accounting impact of this investment.

DEFINITIONS

In this announcement, unless the context otherwise requires, the following expression shall have the meanings set out below:

“ADAS”	advanced driver assistance systems, the groups of electronic technologies that assist drivers in driving and parking functions; it also refers to levels 1 to 3 autonomous driving as defined by the Society of Automotive Engineers
“AI”	artificial intelligence
“Audit Committee”	the audit committee of the Company
“Auditor”	PricewaterhouseCoopers, the independent auditor of the Company
“automotive OEM” or “OEM”	the original equipment manufacturer, which assembles and installs automotive parts during the construction of a new vehicle
“Board”	the board of Directors of the Company
