VOLUNTARY ANNOUNCEMENT UPDATED RESEARCH RESULTS ON SATRI-CEL AT THE 2026 ASCO ANNUAL MEETING

This announcement is made by CARsgen Therapeutics Holdings Limited (the “**Company**”, together with its subsidiaries and consolidated affiliated entities, the “**Group**” or “**CARsgen**”) on a voluntary basis to inform the Company’s shareholders and potential investors about the latest business update of the Group.

The board of directors of the Company (the “**Board**”) announces that the long-term analysis research results of satricabtagene autoleucel (“**satri-cel**”, CT041) (an autologous CAR T-cell product candidate against Claudin18.2), as sequential therapy after 1L treatment in patients with advanced gastric/gastroesophageal junction adenocarcinoma (G/GEJA), have been presented as a poster presentation at the 2026 ASCO Annual Meeting on May 30, 2026, 13:30 – 16:30, CDT. Further details have been posted on the corporate website <https://www.carsgen.com>.

The abstract presented at the 2026 ASCO Annual Meeting was titled “Long-term Follow-up of Satricabtagene autoleucel (satri-cel) as Sequential Therapy After First-Line Treatment for Advanced Gastric Cancer – a subgroup analysis”.

ABOUT SATRI-CEL

Satri-cel is an autologous CAR T-cell product candidate against the protein Claudin18.2 that has the potential to be the first-in-class globally. Satri-cel targets the treatment of Claudin18.2-positive solid tumors with a primary focus on gastric/gastroesophageal junction adenocarcinoma (G/GEJA) and pancreatic cancer (PC).

The Center for Drug Evaluation (CDE) of National Medical Products Administration (NMPA) of China has accepted the New Drug Application (NDA) for satri-cel for the treatment of Claudin18.2-positive advanced G/GEJA in patients who have failed at least two prior lines of therapy on June 25, 2025. It has been granted Priority Review in May 2025 and Breakthrough Therapy Designation in March 2025 by the CDE.

The Company is actively expanding satri-cel application in early-line treatment and perioperative treatment of cancer: including an ongoing Phase I clinical trial for PC adjuvant therapy in China (CT041-ST-05, NCT05911217), an IIT for consolidation treatment following adjuvant therapy in patients with resected G/GEJA (CT041-CG4010, NCT06857786) and an IIT for sequential therapy following first-line treatment for G/GEJA (CT041-CG4011, NCT07179484).

ABOUT THE COMPANY

CARsgen is a biopharmaceutical company focusing on developing innovative CAR T-cell therapies to address the unmet clinical needs including but not limited to hematologic malignancies, solid tumors and autoimmune diseases. CARsgen has established end-to-end capabilities for CAR T-cell research and development covering target discovery, preclinical research, product clinical development, and commercial-scale production. CARsgen has developed novel in-house technologies and a product pipeline with global rights to address challenges faced by existing CAR T-cell therapies. Efforts include improving safety profile, enhancing the efficacy in treating solid tumors, and reducing treatment costs, etc. CARsgen's mission is to be a global biopharmaceutical leader that provides innovative and differentiated cell therapies for patients worldwide and makes cancer and other diseases curable.

DEFINITIONS AND GLOSSARY OF TECHNICAL TERMS

“CAR”	chimeric antigen receptor
“CAR T”	chimeric antigen receptor T cell
“Claudin18.2”	a protein found on the cells of certain solid tumors such as gastric cancer and pancreatic cancer, which makes the protein an attractive target for treatment
“IIT”	clinical trial sponsored and conducted by independent investigators
“Phase Ib”	a phase of clinical trials that primarily assesses safety, tolerability and pharmacokinetics/pharmacodynamics at multiple ascending dose levels prior to commencement of a Phase II or Phase III clinical trial
“Phase II clinical trial”	a study in which a drug is administered to a limited patient population to identify possible adverse effects and safety risks, to preliminarily evaluate the efficacy of the drug for a specific targeted disease, and to determine dosage tolerance and optimal dosage
“confirmatory trial” or “pivotal trial”	the controlled trial or study intended to demonstrate the required clinical efficacy and safety evidence before submission for drug marketing approval
“solid tumor”	an abnormal mass of tissue that usually does not contain cysts or liquid areas

Cautionary Statement required by Rule 18A.05 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited: The Company cannot guarantee that it will be able to develop, or ultimately market, satri-cel, successfully. Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.

Cautionary-Language Regarding Forward-Looking Statements

All statements in this announcement that are not historical fact or that do not relate to present facts or current conditions are forward-looking statements. Such forward-looking statements express the Group's current views, projections, beliefs and expectations with respect to future events as of the date of this announcement. Such forward-looking statements are based on a number of assumptions and factors beyond the Group's control. As a result, they are subject to significant risks and uncertainties, and actual events or results may differ materially from these forward-looking statements and the forward-looking events discussed in this announcement might not occur. Such risks and uncertainties include, but are not limited to, those detailed under the heading "Principal Risks and Uncertainties" in our most recent annual report and interim report and other announcements and reports made available on our corporate website, <https://www.carsgen.com>. No representation or warranty is given as to the achievement or reasonableness of, and no reliance should be placed on, any projections, targets, estimates or forecasts contained in this announcement.

By order of the Board
CARsgen Therapeutics Holdings Limited
Dr. Zonghai LI
