VOLUNTARY ANNOUNCEMENT
UPDATED PROGRESS OF GRID-SIDE INDEPENDENT ENERGY STORAGE PROJECT IN SHAOGUAN, GUANGDONG

This announcement is published by Acme International Holdings Limited (the "**Company**", together with its subsidiaries, the "**Group**") on a voluntary basis. This announcement is made to keep the shareholders of the Company (the "**Shareholders**") and potential investors informed of the latest business development of the Group.

Reference is made to the announcement of the Company dated 29 December 2025 (the "**Announcement**"), in relation to, among other things, the Shaoguan Lechang 218MW/436MWh Electrochemical Independent Energy Storage Project ("**Project Phase 1**").

The board of directors (the "**Board**") of the Company is pleased to announce that the Group has achieved phased progress in the expansion of its independent energy storage business since the Announcement. Following the critical progress of Project Phase 1 having been included in the Guangdong Provincial Energy Bureau's Independent Energy Storage Construction Plan (Inclusion Plan) and having obtained the grid connection approval from the Guangdong Power Grid as disclosed in the Announcement, the "Shaoguan Lechang 218MW/436MWh Electrochemical Independent Energy Storage Project (Phase 2)" ("**Project Phase 2**"), a project of the same scale planned by Lechang Green Energy Storage Technology Co., Ltd.* (樂昌綠電儲能科技有限公司), a wholly-owned subsidiary of the Group, has officially obtained the Guangdong Province Enterprise Investment Project Filing Certificate. The filing of Project Phase 2 with Lechang Development and Reform Bureau was completed on 27 May 2026.

BASIC INFORMATION OF PROJECT PHASE 2

Project Phase 2 is located in Hefeng Village, Pingshi Town, Lechang, Shaoguan, Guangdong, China. It is planned at the same site as Project Phase 1 as a separate project, with a construction scale of 218MW/436MWh, and utilises an outdoor containerised energy storage system based on a lithium iron phosphate battery system. Project Phase 2 will primarily focus on integrating the new energy into the regional power grid and take part in the provision of auxiliary services such as grid peak shaving and frequency regulation, thereby ensuring safe and economic operation of the power grid.

The successful filing of Project Phase 2 marks the overall potential capacity of the Group's large-scale independent energy storage power stations in northern Guangdong to reach 436MW/872MWh.

IMPLICATIONS UNDER THE LISTING RULES

If Project Phase 2 is successfully implemented as expected, it may constitute a notifiable transaction on the part of the Company pursuant to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Listing Rules**"). Further announcement(s) will be made by the Company as and when appropriate in compliance with the Listing Rules.

Shareholders and potential investors are advised to exercise caution when dealing in the shares of the Company.

By order of the Board
Acme International Holdings Limited
Kwan Kam Tim
Chairman and Executive Director

Hong Kong, 2 June 2026

As at the date of this announcement, the Board comprises six members, of which Mr. Kwan Kam Tim, Mr. Yip Wing Shing and Mr. Zhang Guangying are the executive Directors; and Prof. Hon. Lau Chi Pang, BBS, J.P., Mr. Chin Wai Keung Richard and Prof. Mo Lai Lan are the independent non-executive Directors.
