VOLUNTARY ANNOUNCEMENT
A SUBSIDIARY OF OUR COMPANY ENTERED INTO COOPERATION AGREEMENTS WITH YINGDA TAIHE LIFE INSURANCE CO., LTD.

This announcement is voluntarily made by QingSong Health Corporation (the "**Company**", together with its subsidiaries, the "**Group**") for the purpose of providing the shareholders and potential investors of the Company with information on the latest business development of the Group.

The board of directors of the Company (the "**Board**") is pleased to announce that on 25 May, 2026, Beijing QingSong Health Network Technology Co., Ltd.* (北京輕鬆健康網絡科技有限公司), a subsidiary of our Company entered into three health management service cooperation agreements with Yingda Taihe Life Insurance Co., Ltd.* (英大泰和人壽保險股份有限公司) ("**Yingda Life**") through amicable negotiations for a term of one year. The Company officially received the original agreements, with the legal signing procedures duly completed on June 5, 2026. The cooperation content includes, but is not limited to, medical treatment services and chronic disease management, health promotion and disease prevention, as well as rehabilitation and nursing, aiming to jointly build a full-chain health management service system.

This cooperation falls under the integrated health service package business within the healthcare-related services segment of the Company. Under such cooperation model, acting as an integrator of health management services, the Company provides relevant customers of Yingda Life with health management services and related ancillary services, and coordinates both proprietary and third-party medical and health service resources during the service delivery process, thereby forming an integrated service system covering medical treatment, prevention, rehabilitation and other aspects.

According to the official website of Yingda Life, Yingda Life was initiated by State Grid Corporation of China ("**State Grid**") and its affiliated companies, and is an important part of the financial segment of State Grid. As of June 2025, Yingda Life had established 21 provincial-level branches, 103 municipal-level central sub-branches, and 237 county-level marketing service departments/sub-branches. State Grid is a wholly state-owned company directly managed by the central government established in accordance with the Company Law of the People's Republic of China. With the investment, construction and operation of power grids as its core business, it is a super-large state-owned key backbone enterprise vital to national energy security and the lifeline of the national economy. To the best of the Directors' knowledge, information and belief, having made all reasonable enquiries, Yingda Life and its ultimate beneficial owners are third parties independent of the Company and its connected persons (as defined under the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Listing Rules**")).

The Board considers that this cooperation is in line with the long-term development strategy of the Group. Through this cooperation, the Group will establish a deep cooperative relationship with Yingda Life in the field of health management services, which will help to:

1. Leverage Yingda Life's three-tier service network covering provinces, municipalities and counties across the country to provide solid channel support for the cross-regional implementation and large-scale operation of the Group's health management services nationwide, thereby further expanding the service coverage population and market penetration rate;

2. Promote the large-scale implementation and application of the Group's self-developed evidence-based medical agent "QSEVIDENCE" in health management service scenarios. By leveraging Yingda Life's nationwide customer base, it will provide a real and diversified practical validation environment for the AI evidence-based decision-making capabilities of "QSEVIDENCE", accelerating the extension of capabilities from the professional doctor side to the health management service side;

3. Expand the coverage of the Group's health management services in the insurance sector and deepen the business model of "insurance + health management". Fully leverage the Group's service capabilities and resource advantages in medical treatment services, chronic disease management, health consultation, physical examination, health promotion, disease prevention, and rehabilitation and nursing;

4. Further consolidate the Group's market position in the medical and health services sector, and enhance its brand influence and comprehensive competitiveness.

The Group has built an integrated "platform + service" health service ecosystem, possessing comprehensive capabilities in medical and health services, digital platform construction, and health management services. Our health service solutions integrate abundant health management service project resources and content resources, and combined with differentiated proprietary smart platforms, assist Yingda Life in carrying out service process optimization, user health management plan design, and service quality improvement. Meanwhile, the Group is committed to promoting the deep integration of cutting-edge technologies such as artificial intelligence with the healthcare sector, continuously exploring innovative application scenarios. By expanding the comprehensive health service ecosystem and enriching the combinations of health service packages, we will continuously deepen the mutual trust and cooperation with Yingda Life to enhance user lifetime value.

Entering into the cooperation agreements does not constitute a notifiable transaction of the Company under Chapter 14 of the Listing Rules, and is not subject to any reporting, announcement or independent shareholders' approval requirements under the Listing Rules.

Shareholders and potential investors are advised to exercise caution when dealing in the shares of the Company.

By Order of the Board
QingSong Health Corporation
