VOLUNTARY ANNOUNCEMENT
BUSINESS DEVELOPMENT LATEST UPDATE
SUCCESSFUL TRIAL VOYAGE OF
CT VESSELS NEW ENERGY INTELLIGENT VESSELS

This announcement is made by China Strategic Technology Group Limited (the "**Company**", together with its subsidiaries, the "**Group**") on a voluntary basis to inform the shareholders and potential investors of the Company of the latest updates on the business development of the Group in relation to its new energy intelligent vessels business.

SUCCESSFUL TRIAL VOYAGE OF NEW ENERGY INTELLIGENT VESSELS

The board (the "**Board**") of directors (the "**Director(s)**") of the Company is pleased to announce that, on 20 June 2026, the concentrated official trial voyage of the first batch of nine new energy intelligent vessels under China Technology Vessel Holdings Limited ("**CT Vessel**"), a non-wholly owned subsidiary of the Company, has been successfully completed in Nanning City, Guangxi Zhuang Autonomous Region, the People's Republic of China (the "**PRC**").

These vessels cover categories like civilian new energy vessels, commercial new energy vessels and official intelligent service vessels, including various models such as new energy unmanned surface vessels (USVs). They are specially designed to adapt to the green navigation routes of the inland rivers, inner rivers, inland lochs and coastal waters.

The successful completion of the concentrated trial voyage demonstrates the Group's capabilities in technological research and development, product manufacturing, and quality control in the field of new energy intelligent vessels, marking an important step forward in promoting green, intelligent and sustainable shipping solutions.

INFORMATION ABOUT THE GROUP

The Group is a technology-based group of companies centered on aerospace technology, deeply integrating aerospace, precision manufacturing, and energy industries. It is engaged in sectors: 1) CT Aerospace (Aerospace business), comprising (A) aerospace titanium alloy material manufacturing, (B) aerospace satellite component manufacturing, and (C) digital applications for aerospace satellites, (D) small unmanned spacecraft research and development and manufacturing, and 2) CT Precision Manufacturing (Precision manufacturing), comprising (A) electronic manufacturing services (EMS), components of printed circuit boards and fully assembled electronic products (PCBA), (B) energy management and manufacturing services, intelligent control systems and chips management, thermal management and electronic control systems, and (C) sensor manufacturing services, automatic medium- and micro-pressure sensors for industrial use, medium- and micro-pressure sensors for electronic equipment.

Meanwhile, beyond its established businesses, the Group is actively expanding and focusing on the following sectors:

1) CT Vessel (New energy vessel): promoting research and development, manufacturing and sales of new energy small commercial and civilian vessels. The Group strives to achieve deep integration with aerospace technology, energy storage processes and precision manufacturing to manufacture practical and market-competitive green and environmentally friendly new energy vessels, thereby driving the transformation of traditional fuel-powered small vessels into new energy vessels; and

2) CT Biotechnology (Biotechnology): the Group dedicated to the research, development, and application of biotechnology and related technologies, including but not limited to life engineering and biomedicine.

The Group is committed to integrating its aerospace, intelligent manufacturing, shipbuilding, and biotechnology businesses to foster synergistic development, thereby driving diversification and ensuring sustainable growth.

INFORMATION ABOUT CT VESSEL

CT Vessel is a company with limited liability incorporated under the laws of the British Virgin Islands and is a non-wholly owned subsidiary of the Company, primarily engaged in the research and development, manufacturing, sales, and service of new energy intelligent vessels.

The Board believes that the successful trial voyage of the first batch of nine new energy intelligent vessels will help enhance the Group's brand influence and product demonstration effect in the new energy intelligent vessels market, and lay a foundation for subsequent market expansion and business development.

GENERAL

The business development set out in this announcement may not necessarily have a material impact on the Group's short-term financial performance. **Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.**

By Order of the Board
China Strategic Technology Group Limited
Gu Lin
Chairman and Executive Director

Hong Kong, 21 June 2026

As at the date of this announcement, the Board comprises Mr. Gu Lin (Chairman), Mr. Chen Youan (Deputy Chairman), Mr. Lu Huasheng, Mr. Zhang Yuanqi and Mr. Ma Fujun as executive Directors; and Mr. Yao Xinguo, Mr. Boris Tadić and Ms. Chow Yin Kwan Yvonne as independent non-executive Directors.
