PROFIT ALERT

This announcement is made by the Company pursuant to Rule 13.09 of the Listing Rules and the Inside Information Provisions under Part XIVA of the SFO.

The Board wishes to inform the shareholders of the Company and potential investors that based on the preliminary assessment by the Board of the unaudited consolidated management accounts of the Group and the information currently available to the Board, the Group is expected to record an increase of not less than 30% in net profit for the Reporting Period as compared to HK$391 million for the six months ended 30 June 2025.

Shareholders of the Company and potential investors should exercise caution when dealing in the securities of the Company.

This announcement is made by PAX Global Technology Limited (the "**Company**", and together with its subsidiaries, the "**Group**") pursuant to Rule 13.09 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Listing Rules**") and the Inside Information Provisions (as defined under the Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Chapter 571, Laws of Hong Kong) (the "**SFO**").

The board of directors (the "**Board**") of the Company wishes to inform the shareholders of the Company and potential investors that based on the preliminary assessment by the Board of the unaudited consolidated management accounts of the Group and the information currently available to the Board, the Group is expected to record an increase of not less than 30% in net profit for the six months ending 30 June 2026 (the "**Reporting Period**") as compared to HK$391 million for the six months ended 30 June 2025, notwithstanding the impairment loss on goodwill in respect of Pax Technology Australia Pty Ltd. of approximately HK$50 million and the unfavourable foreign exchange impacts, which are expected to be recognised during the Reporting Period.

* *For identification purpose only*

The Board considers that the expected increase in net profit is mainly attributable to the revenue growth recorded in the first half of the year, notably driven by growing market demand in the United States of America and Canada (USCA) region, together with the Group's operational savings from enhanced expense control measures.

Despite the expected improvement in the Group's results for the Reporting Period, the Board remains cautious regarding the potential challenges in the second half of the year, particularly upward pricing pressure on certain components. Amid shifts in global semiconductor supply and demand, the rising price trend for certain components, particularly memory chips, may persist and could have negative influence on the Group's gross margins and sales performance. Notwithstanding these challenges, the Board remains confident in the ongoing resilience of the Group's operations.

Information contained in this announcement is based on the preliminary review by the Board of the unaudited consolidated management accounts of the Group which has not been reviewed nor audited by the auditor of the Company and the information currently available to the Board which has not been discussed with the auditor of the Company. Further details and the financial results of the Group for the Reporting Period will be disclosed when the Group publishes its interim results which is expected to be released in August 2026.

Shareholders and potential investors are advised to exercise caution when dealing in the securities of the Company.

By Order of the Board
