Chairman's Statement

Dear Shareholders,

In 2024, the macroeconomic environment in China remained complex and volatile, signified by a relatively weak recovery in domestic consumption. As a result, advertising clients adopted a more cautious approach to overall budgeting, placing greater emphasis on efficiency and actual conversion results in their advertising strategies and, in turn, raising their expectations of marketing service providers. Meanwhile, industry traffic cost continued to rise, leading to a corresponding increase in customer acquisition and operational costs. Along with stricter regulatory requirements by authorities in areas such as false advertising, data falsification, and personal privacy protection, this has resulted in higher compliance costs and increased operational risks. These multiple factors have posed significant challenges to the operating environment of the digital marketing industry.

However, the emergence of artificial intelligence generative content ("**AIGC**") technology has brought new transformative opportunities to the industry. The deep integration of artificial intelligence ("**AI**") with digital marketing operations, along with its large-scale application in content generation, intelligent ad placement, and data optimization, has effectively improved overall operational efficiency and output capacity. By channel, the short-video marketing sector continued to exhibit resilience and strong growth potential. Marketing service providers were actively embracing AI, injecting new impetus into the industry development. As inefficient suppliers continued to be phased out, the market also saw more normalized competition, with players shifting their focus from scale expansion to efficiency improvements and high-quality growth.

Against such backdrop, we remained firmly committed to our strategic positioning. While consolidating our business foundation, we have responded flexibly to market changes, deepened our understanding of customer needs, and actively explored new growth opportunities. In particular, driven by the rapid development of AI technology, we extensively applied it across marketing service scenarios to achieve cost reduction and efficiency gains. We have also actively expanded our overseas presence, aligning with our three strategic directions: "platformization", "diversification", and "internationalization". These efforts have further strengthened our market position and supported our journey toward sustainable development.

Consolidating Business Foundation and Deepening Strategic Partnerships

In a volatile market environment, strengthening our business foundation remains our primary mission. During the year, while solidifying our close cooperation with leading platforms such as Douyin, Kuaishou, and Tencent, we also accelerated our collaboration with emerging media platforms, including Xiaohongshu and Bilibili. Our strategic partnerships with platforms such as Alipay and Youku have also delivered remarkable results, enabling us to maintain a strong position in the first tier among media agencies for these platforms. At the same time, we focused on increasing branded customer stickiness by delivering high-quality services to improve customer satisfaction and loyalty, thereby building long-term relationships based on track record and trust. Leveraging big data analytics and sharp market insights, we were able to capture opportunities in fast-growing industries, laying a solid foundation for steady business development. As of 31 December 2024, the Group had served 35,534 advertising clients across 307 vertical segments, including online games, online services, and financial services. Notably, the number of key account advertising clients also increased by approximately 30% year-on-year to 1,408, supporting sustained revenue growth.

Cultivating New Businesses and Strengthening AI Empowerment

Building on our market-leading position, platform-based operational advantages, and strategic resources across major media platforms, we have actively explored new business opportunities to diversify our revenue streams and maintain our competitive advantage. On the one hand, with deep industry expertise and exceptional execution capabilities, we strived to provide branded customers with comprehensive, multi-layered marketing solutions; on the other hand, we also developed other innovative businesses to meet the increasingly diverse needs of our clients. To this end, we went beyond our scope and boundary, tapping into the micro-short drama business.

We have built a full value chain operating system that encompasses IP innovation and development, content creation and production, end product distribution and marketing, and platform operations management. By the end of the reporting period, our micro-short drama business has achieved a respectable scale and market competitiveness, generating revenue of RMB71.76 million during the year.

Beyond new initiatives, AI remains the overarching direction of global development. We have also seized this wave by actively introducing AIGC and artificial intelligence agent (“**AI Agent**”) technologies into our business system. By pursuing AI empowerment, cloud computing products, and AIGC developments, we have successfully automated multi-modal content generation, significantly improving the throughput of mass content creation. We have also optimized intelligent cross-platform management of media accounts, substantially enhancing service quality and speed, thereby achieving notable cost savings and efficiency improvement.

Driving Sustainable Growth through “Platformization”, “Diversification” and “Internationalization”

To smoothly navigate the rapidly changing environment, we continued to pursue innovation while consolidating our business foundation. Looking ahead, we will further deepen our three underlying strategies of “platformization”, “internationalization” and “diversification” to support our next stage development.

In the wave of digitalization, technology is the core engine driving enterprise growth, and our “platformization” strategy will be our cornerstone for enhancing service capabilities and operational efficiency. Specifically, we will continue to increase R&D investments, with AI-driven technology as the primary focus, to optimize the intelligent generation of diversified marketing materials across text, images, and videos, better aligning with market demands and consumer preferences. We will also actively explore the application of AIGC in marketing strategy formulation and ad placement optimization, leveraging powerful data analytics and forecasting capabilities to optimize resource allocation, improve operational efficiency and output quality, and create greater value for customers.

Under our “diversification” strategy, we intend to fully leverage our technical expertise and operational insights from short-video marketing to pursue breakthroughs and innovations. We aim to accelerate the development of overseas online marketing, e-commerce, and micro-short drama businesses, thereby creating new growth drivers. In e-commerce service solutions, we will deploy our specialized short-video marketing expertise to provide customers with one-stop e-commerce services that meet their diverse needs. In micro-short drama, we will also utilize AIGC to create a diverse range of content, opening up new revenue streams.

Our “internationalization” strategy, centered on the export of services, opens up a much larger market for us. As China’s online social and entertainment models have become mainstream globally, the short-video marketing market is poised for greater growth. Drawing on our extensive brand-servicing experience and proven online marketing capabilities in China, we look forward to actively assisting Chinese brands in going global and helping them shine on the international stage. On the other hand, we will also utilize our domestic resources to assist overseas brands in swiftly entering the Chinese market. By providing customized and intelligent marketing services, we are happy to help foreign enterprises adapt to the Chinese market, laying the foundation for long-term development.

Through the dual-engine drive of “global expansion” and “domestic import”, we have created a diversified business portfolio and an international strategic layout. We will also promote the penetration of our overseas micro-short drama APP, in order to further expand our target audience and enhance Netjoy’s global influence.

Looking ahead, while the macro environment remains full of challenges, AI has become the underlying driver of global development. We believe that market opportunities will belong to enterprises that possess the broadest coverage, the best services, and the most efficient operators. Hence, Netjoy will remain focused on its digital marketing presence, aggressively seeking upgrades for its integrated cloud service ecosystem and expanding AI applications across its operations. We will embrace the changes and seize the opportunities to achieve efficiency enhancement and scale expansion, creating greater long-term value for shareholders.

On behalf of the Board of Directors, I would like to extend our most sincere gratitude to all shareholders, customers, business partners and our hard-working employees. Every step forward would not have been possible without your continued trust and support. Your expectations and encouragement will drive us to keep exploring and forging ahead with purpose and determination.

Management Discussion and Analysis

2024 ANNUAL RESULTS HIGHLIGHTS

In 2024, the global economy recorded a modest growth, while the domestic economy maintained stability and delivered meaningful progress. Despite total retail sales of consumer goods in China reaching RMB48.8 trillion, a year-on-year (“YoY”) increase of 3.5%, the slowdown in the growth rate also pointed to structural changes in the consumer market. On that end, consumers are increasingly looking for value preservation, product practicality, and price competitiveness, with longer decision cycles putting challenges on brands’ marketing strategies and sales conversion. In view of the complex and dynamic situation, the digital marketing services industry faced the dual challenges of diminishing brand budgets and the demand for a shorter advertising value chain. On the one hand, brands were becoming increasingly cautious about large-scale marketing investment, demanding greater resource integration efficiency and tangible conversion results. On the other hand, intensifying market competition and the evolving media landscape have led to a slowdown in user growth across media platforms, resulting in sustained increases in media traffic costs, and rising difficulty and decreasing margins for marketing service providers in acquiring customers. Coupled with industry regulatory requirements targeting areas such as false advertising, data fabrication, and personal information privacy protection, compliance costs and potential operational risks for marketing service providers were also on the rise.

Meanwhile, while artificial intelligence (“AI”) technology has effectively improved operational efficiency in areas such as content generation and intelligent advertisement delivery, it has also created new barriers to entry, forcing marketing service providers to embrace AI and accelerate relevant development to stay competitive. The subsequent market consolidation and shifts in competition dynamics have shifted the industry’s focus from scale expansion to efficiency improvement and high-quality growth, with market players competing across service offerings and operational efficiency. Overall, under the combined effects of factors such as “budget contraction, increased traffic costs, stricter regulations, and intensified competition”, the digital marketing industry was facing greater uncertainties.

Facing such a complex and volatile market environment, the Group has leveraged its in-depth insights and industrial know-how to explore new growth opportunities. On the one hand, the Group has secured stable business volume by capitalizing on the substantial user bases of leading media platforms; on the other hand, the Group has accelerated collaborations with emerging media platforms, diversifying its media channel coverage to counter an increasingly competitive market. In addition, the Group sought new opportunities across the upstream and downstream segments of the industry chain to diversify its exposure and sustain growth. On the breakthrough of advanced AI technologies such as Artificial Intelligence Generated Content (“AIGC”) and AI Agent, the Group has been actively exploring relevant applications in marketing services, so as to improve efficiency and streamline cost. Given the expansion of overseas markets, the Group has also sought to tailor its business expansion strategy to different markets, leveraging its mature business model, data accumulation, and industrial know-how to unlock further business value.

2024 ANNUAL RESULTS HIGHLIGHTS (Continued)

In 2024, the Group's gross billing amounted to approximately RMB7.631 billion. Supported by the (i) ongoing strategic adjustments, under which the Group maintained cooperation with existing media channels and new media channel penetration; and (ii) the Group's diversifying business development, with micro drama business showing initial success and promising revenue growth, the Group's total revenue reached approximately RMB3.150 billion, representing a year-on-year increase of 4.64%. Gross profit decreased by 51.23% from approximately RMB251 million in 2023 to RMB122 million in the Reporting Period, with gross profit margin also decreasing by 4.4 percentage points to 3.9% year-on-year, as a result of the gradual slowdown in the growth rate of internet users, rising competition, traffic and customer acquisition costs. In addition to cost pressures, the Group encountered a major business risk event during the development of its 3C supply chain project, resulting in an associated asset impairment. The Group has made impairment provisions and write-downs on trade receivables, prepayments and other receivables, and has recognised fair value losses and impairment on other financial assets. The combination of the above factors led to a full-year loss of approximately RMB462 million, or an adjusted net loss of RMB445 million for the Reporting Period. As of December 31, 2024, the Group's cash and bank balance was approximately RMB595 million, providing a solid foundation for the Group's sustainable operation and development.

During the Reporting Period, the Group continued to explore integrating AI technology into its core businesses, launching an AIGC content creation platform that significantly enhanced the Group's content creation capabilities, thereby supporting the further development of its Intelligent Marketing Solutions business. By the end of the Reporting Period, the Group had cumulatively provided services to 35,534 advertising customers from 307 industry verticals, covering online games, online services, financial services, culture and media, advertising, e-commerce, and other industries. During the Reporting Period, the number of key account ("KA") customers served by the Group has also increased to 1,408, representing a year-on-year increase of 29.29%.

With its excellence and leading position in integrated platform technology, media resource integration, and big data analysis, the Group has gained broad recognition both within and beyond the industry. In 2024, the Group received a number of industry awards and recognitions, including the "Excellent Annual Agency Awards" at the 2024 Ocean Digital Marketing Ecosystem Summit, the "Gold Award" at the 2024 Magnet Engine Original Advertisement Award, the "Industry Pioneer Award" at the Magnet Engine Brand Asset Management Case Competition, the "Excellent Pioneer Award" at the Magnetic Engine Vertical Channel Center, "Bilibili Key Commercialization Agency," the "Bronze Conversion Award" at the first Rednote Product Recommendations Award, the "Silver Award" in the Agency Group at the 17th ROI Golden Investment Award, the "Silver Award" at the 2024 Effie Performance Marketing Award, the "Excellent Drama Award" at the 2024 Migu Ecology Conference, and the "Baidu Excellent Short Drama Production Institution".

2024 BUSINESS REVIEW

In 2024, the Group continued to advance its three core strategies of “platformization,” “diversification,” and “internationalization,” leveraging AI to enhance its overall operational efficiency, providing diversified and efficient solutions for clients, while exploring potential market opportunities to drive sustainable development.

Intelligent marketing solutions

Intelligent Marketing Solutions remains the Group’s core business, accounting for 95.47% of the Group’s total revenue for the year. As an one-stop intelligent marketing platform, the Group’s services cover marketing strategy formulation, mass content creation, effective cross-platform distribution, and real-time data feedback. Against the backdrop of a rapidly evolving digital economy, these services can effectively help branded clients reach their target audience through short videos. During the Reporting Period, revenue from Intelligent Marketing Solutions increased by 4.96% year-on-year to approximately RMB3.007 billion. As of the end of the Reporting Period, the short videos delivered and distributed by the Group had generated over 1,353.4 billion impressions and over 476.9 billion video views, highlighting the Group’s content creation and precise distribution capabilities.

During the Reporting Period, the Group continued to maintain close cooperation with high-quality clients while venturing into new media channels. Building on solid partnerships with leading platforms such as Douyin, Kuaishou, and Tencent, the Group also strengthened the cooperation with new media platforms such as Rednote and Bilibili during the Reporting Period, with outstanding results from the cooperation with Alipay and Youku, allowing the Group to become one of their first-tier agents. The Group also adjusted its client acquisition strategy in a timely manner, leveraging big data to gain insights and refocus on industries with high growth potential. Considering the above factors, the number of advertising clients served by the Group has increased to 1,408, a year-on-year increase of 29.29%. Among them, the number of new customers served has increased to 819, increased by 19.6% year-on-year. The top three industries served were online games, network services, and financial services, accounting for 29.5%, 28.3%, and 23.5% of segment revenue, respectively.

To further drive the implementation of its “platformization” strategy, the Group continued to enhance the technical capabilities of its cloud service platform during the year. Driven by artificial intelligence and the ability to generate automated multi-modal content, such as automatic video scriptwriting, intelligent image generation, and AI-assisted video generation, the Group’s cloud service platform can greatly improve its mass content creation efficiency. During the Reporting Period, the peak monthly production capacity of the Group’s internal video production team exceeded 27,400 short videos, up 28.33% year-on-year, and the average monthly production capacity per full-time video production team member was 784, up 79.82% year-on-year. Meanwhile, leveraging the Group’s vast data pool across various marketing scenarios, the Group launched AI co-creation projects with leading media platforms, jointly contributing to and shaping the development of the AI marketing industry.

In addition, the cloud service platform is equipped to manage advertising accounts across different platforms in one place, enabling intelligent distribution and management that would greatly boost the Group’s distribution and operating efficiency. As of the end of the Reporting Period, the number of enterprise users of the Group’s self-developed cloud service platform increased to 7,231. With the help of the Group’s cloud service products and AIGC technology, there was a 20-fold increase in the production efficiency of image materials, as well as a 14-fold decrease in the corresponding cost. On top of that, the production efficiency of video materials has increased by about 8 times compared with the previous manual production process, and the corresponding cost has decreased by about 15 times. By leveraging the cloud service platform’s cross-platform intelligent management model, approximately 34,269 hours were saved throughout the year.

2024 BUSINESS REVIEW (Continued)

Intelligent marketing solutions (Continued)

Leveraging its market-leading position and platform-based operation, the Group actively engaged and cooperated with multiple overseas brands. During the Reporting Period, the Group's cross-border marketing business made significant progress, assisting nearly a hundred overseas branded clients in entering the Chinese market.

E-commerce solutions

By fully leveraging its rich media resources and marketing experience, the Group has extended its business coverage across the marketing value chain, expanding into e-commerce service solutions. With its comprehensive e-commerce full-chain solutions covering "people, goods, and fields", the Group has effectively improved its operation capabilities, and has formed competitive advantages in multiple verticals. During the year, it served a total of 35 domestic and foreign brands from high-growth industries such as personal care, pet food, and healthcare products, providing a strong growth impetus to the business. Besides, the Group fully leveraged its extensive local market experience and advanced digital technology capabilities to provide customers with local lifestyle services. During the Reporting Period, the Group has empowered 25 chain restaurant brands, helping 135 physical restaurants achieve efficient digital operations. Considering its comprehensive e-commerce offerings and market intelligence, the Group is also exploring overseas opportunities by helping overseas-branded customers enter the Chinese market, reach its target customers, and build strong brand awareness.

During the Reporting Period, the segment achieved a total merchandise transaction volume ("GMV") of RMB551 million, with revenue increasing by 32.43% year-on-year to RMB70.81 million. As the Group further optimized its e-commerce sales strategy, and achieved a revenue mix enhancement with growing sales contributions from high-margin products, the Group recorded a gross profit of RMB44.13 million during the year, up 41.79% year-on-year, with gross profit margin increasing by 4.1 percentage points year-on-year to 62.3%. However, during the development of the 3C supply chain project, due to irregularities involving external partners, the Group encountered a significant business risk event, resulting in difficulties in recovering approximately RMB143 million in prepayments. In response, the Group has terminated this business and initiated the corresponding legal and asset-preservation procedures. Going forward, the Group will address its management shortcomings and focus on improving internal control segregation, strengthening inventory supervision and implementing new business training, so as to enhance its systemic risk resilience.

Innovative business

Leveraging its mass content-creation capabilities and established short-video distribution model, the Group strives to expand its business coverage and has subsequently tapped into micro drama as a new venture. By building a micro drama ecosystem that integrates IP creation, content production, video distribution, and platform operations, the Group's micro drama business saw steady development, achieving revenue of RMB71.76 million during the Reporting Period. Gross profit for the year was RMB29.67 million, with a gross profit margin of 41.4%.

With the help of its high-quality video creation capabilities, rich creative content reserves, as well as a comprehensive distribution network covering notable third-party platforms such as WeChat mini-programs, Douyin, and Kuaishou, the total number of high-quality micro dramas produced by the Group during the year reached 76, and the total number of high-quality micro dramas distributed reached 93. As of the end of the Reporting Period, the Group's self-operated micro drama mini-program platform has amassed 45.95 million users. To further expand into overseas markets, the Group launched its first overseas micro-drama APP during the Reporting Period in countries and regions such as Hong Kong, the United States, Singapore, Thailand, and Malaysia, striving to bring high-quality micro-drama to the global market.

BUSINESS OUTLOOK

Looking ahead, the Group will continue to focus on its three core strategic directions of “platformization,” “diversification,” and “internationalization.” Through resource integration and technological innovation, the Group will strengthen its industry-leading position while expanding its presence in the global marketing and e-commerce industries, and seek new opportunities from new business models to drive growth.

Regarding “platformization”, the Group will continue to invest in technological innovation, upgrading its self-developed integrated cloud service ecosystem in order to fully empower operations with the latest AI technologies. Potential new applications including AIGC-generated content, AI marketing strategy formulation, and others, are expected to significantly enhance the Group’s operation efficiency, giving the Group higher efficiency to capture a bigger market share.

The Group will also continue to expand into new businesses, achieving a “diversified” business mix with new growth drivers. For example, the Group’s E-commerce Service Solutions business will focus on the customized needs of branded customers and carefully explore other high-growth product categories, such as personal care products. The Group’s Innovative Business will also continue to focus on micro drama, creating high-quality content that meets the public’s aesthetic needs, and actively expanding its content distribution channels and collaboration methods to further diversify revenue streams.

In terms of “internationalization”, the Group will continue to advance both its inbound and outbound strategies. Specifically, drawing on the Group’s extensive experience, it is committed to providing comprehensive services for overseas brands entering the Chinese market, helping them gain access to mainstream media platforms and quickly expand their presence in China. At the same time, the Group is actively exploring overseas opportunities, having recently established partnerships with leading overseas media platforms, laying the groundwork to assist domestic brands with marketing, promotion, and e-commerce operations on overseas platforms. As for its E-commerce Service Solutions business, the Group will also implement region-specific strategies tailored to the industrial and cultural characteristics of different regions, encouraging domestic brands to tap into overseas markets. Leveraging the initial success of its overseas micro drama APP, the Group will also actively expand its overseas distribution channels, enhance its content influence, and achieve economies of scale.

FINANCIAL REVIEW

Revenue

We generate our revenue primarily from the provision of (i) our intelligent marketing solutions to advertisers directly or through advertising agencies; (ii) e-commerce service solutions; and (iii) innovative business. Our total revenue increased by 4.64% from RMB3,009.89 million in 2023 to RMB3,149.63 million in 2024, mainly due to the Group's continuous strategic adjustment, (i) while firmly cooperating with existing media channels, expanding new media channels for in-depth cooperation, thus consolidating its revenue; and (ii) actively developing diversified businesses, and the development of e-commerce service solutions and short play business has achieved initial success, forming a certain income increment.

Revenue by Business Segments

The following table sets forth our revenue by business segments for the years indicated:

	Year ended December 31,

Innovative business ⁽²⁾	71,760	2.3	91,475	3.0
Total	3,149,625	100.0	3,009,891	100.0

Notes:

(1) Intelligent marketing solutions include online marketing solutions, SaaS services and AIGC commercial applications.

(2) Innovative business mainly includes short play business.

We enter into annual framework agreements with our advertising customers and charge them for intelligent marketing solutions based primarily on a mix of oCPM, oCPC and CPC. During the Reporting Period, while cooperating with existing media channels, we actively expanded new media channels for in-depth cooperation, which enabled our intelligent marketing solutions business to develop steadily during the Reporting Period. For the year ended December 31, 2024, the revenue generated by the intelligent marketing solution business accounted for 95.5% of our total revenue.

Total	3,027,350	100.0	2,759,140	100.0

Note:

(1) Others primarily comprise costs in relation to the rental of servers and the outsourcing of content production.

Our cost of sales primarily consists of traffic acquisition costs, employee benefit expenses and others. In 2024, traffic acquisition costs constituted the largest portion of our cost of sales. For the years ended December 31, 2023 and December 31, 2024, our traffic acquisition costs amounted to RMB2,606.9 million and RMB2,853.1 million respectively, accounting for approximately 94.5% and 94.2% respectively, of our total cost of sales for the respective years, which was in line with our business change. For the years ended December 31, 2023 and December 31, 2024, the Group continuously optimized its organizational structure, which led to a reduction in employee benefit expenses from RMB47.9 million to RMB41.7 million, accounting for approximately 1.7% and 1.4% of cost of sales for the respective years. For the years ended December 31, 2023 and December 31, 2024, our other costs amounted to RMB104.3 million and RMB132.6 million, respectively, accounting for approximately 3.8% and 4.4%, respectively, of our total cost of sales for the respective years, the increase of which was attributable to the optimization of quality in short play business and the expansion of e-commerce service solutions business scale.

Gross Profit and Gross Profit Margin

The following table sets forth a breakdown of our gross profit and gross profit margin by service offerings and revenue recognition methods for the years indicated:

	Year ended December 31,			
	2024		2023	
	Gross Profit (RMB'000)	Gross Profit Margin %	Gross Profit (RMB'000)	Gross Profit Margin %
Intelligent marketing solutions ⁽¹⁾	48,472	1.6	163,445	5.7
E-commerce service solutions	44,132	62.3	31,125	58.2
Innovative business ⁽²⁾	29,671	41.3	56,181	61.4
Total	122,275	3.9	250,751	8.3

Notes:

- (1) Intelligent marketing solutions include online marketing solutions, SaaS services and AIGC commercial applications.
- (2) Innovative business mainly includes short play business.

The Group recorded gross profit of RMB122.28 million in 2024, representing a decrease of 51.2% as compared to the gross profit of RMB250.75 million in 2023. Gross profit margin decreased from 8.3% in 2023 to 3.9% in 2024, mainly because the growth rate of Internet users has gradually slowed down, the market has entered the stage of stock competition, and the traffic cost corresponding to income growth has continued to rise; meanwhile, in order to cope with market competition, the cost of obtaining customers has increased, thus compressing the gross profit space.

FINANCIAL REVIEW (Continued)

Other Income and Gains

Our other income and gains decreased from RMB38.16 million for the year ended December 31, 2023 to RMB20.79 million for the year ended December 31, 2024, mainly due to the fact that in 2024, the industries where the Group is located no longer enjoy VAT deduction policy, resulting in a significant decrease in the amount of government subsidies compared with 2023.

Research and Development Expenses

Our research and development expenses primarily comprise (i) employee benefit expenses; (ii) outsourcing development expenses; and (iii) others, mainly consisting of server rental expenses. Our research and development expenses decreased by 29.2% from RMB21.90 million for the year ended December 31, 2023 to RMB15.51 million for the year ended December 31, 2024, which was mainly attributable to adjustments in the research and development system.

Selling and Distribution Expenses

Our selling and distribution expenses primarily consist of (i) employee benefit expenses for our sales and marketing staff; (ii) entertainment expenses for the maintenance and management of customer relationships; and (iii) travelling expenses for the transportation and accommodation of business travels of our sales and marketing staff.

Our selling and distribution expenses increased from RMB91.32 million for the year ended December 31, 2023 to RMB104.35 million for the year ended December 31, 2024, which was mainly attributable to our efforts to expand the diversified business market, and the increase in advertising expenses due to the expansion of e-commerce service solutions business.

General and Administrative Expenses

Our administrative expenses primarily consist of (i) employee benefit expenses; (ii) professional fees; (iii) depreciation and amortization expenses; (iv) office and rental expenses; (v) travelling expenses; and (vi) entertainment expenses for hospitality.

Thanks to continuous organizational optimization, our administrative expenses gradually decreased by 3.66% from RMB96.12 million for the year ended December 31, 2023 to RMB92.60 million for the year ended December 31, 2024.

Other Expenses

Our other expenses increased from RMB6.04 million for the year ended December 31, 2023 to RMB60.43 million for the year ended December 31, 2024, mainly due to the fair value loss of financial investment and financial derivatives tools.

FINANCIAL REVIEW (Continued)

Impairment Losses on Financial Assets, Net

Impairment losses on financial assets, net represent provisions of impairment of trade receivables, prepayments and other receivables, and debt instruments, net of reversal. We recorded impairment losses on financial assets, net of RMB308.88 million in 2024, which was mainly attributable to the impairment provisions of approximately RMB143 million accrued for the other receivables related to 3C supplier chain project and approximately RMB110 million accrued for trade receivables.

Finance Costs

Our finance costs decreased from RMB22.17 million for the year ended December 31, 2023 to RMB22.00 million for the year ended December 31, 2024. The decrease in finance costs was mainly due to the decrease in the interest rate of bank loans, which led to a decrease of RMB1.79 million in the corresponding interest expenses of bank loans.

Income Tax Expenses

For the year ended December 31, 2024, the Group recorded an income tax credit of RMB3.04 million, compared with an income tax expense of RMB1.92 million for the year ended December 31, 2023. This change was primarily attributable to the pre-tax loss of RMB465.14 million recorded during the year, which resulted in a significant decrease in income tax expenses compared to the previous year.

(Loss)/Profit for the Year

As a result of the above, our loss for the year was about RMB462.09 million, while our profit for the year ended December 31, 2023 was RMB7.49 million, representing a year-on-year decrease of 6,269.43%.

Non-IFRS Measure: Adjusted Net (Loss)/Profit

To supplement our consolidated financial statements, which are presented in accordance with IFRS, we also use adjusted net profit as an additional financial measure, which is not required by, or presented in accordance with, IFRS. We believe that this non-IFRS measure facilitates comparisons of operating performance from year to year and company to company by eliminating impacts of items which our management does not consider to be indicative of our operating performance. We believe this measure provides useful information to investors and others in understanding and evaluating our consolidated results of operations in the same manner as it helps our management.

However, our presentation of adjusted net profit may not be comparable to similarly titled measures presented by other companies. The use of this non-IFRS measure has limitations as an analytical tool, and should not be considered in isolation from, or as a substitute for an analysis of, our results of operations or financial condition as reported under IFRS.

The following tables reconcile our adjusted net profit for the years presented to the most directly comparable financial measures calculated and presented in accordance with IFRS:

	Year ended December 31,	
	2024	2023
	(RMB in millions)	
Net (loss)/profit for the year	(462.09)	7.49
Add:		
Share-based compensation	23.61	13.50
Foreign exchange differences	(3.06)	2.05
Income tax (credit)/expense	(3.04)	1.92
Adjusted net (loss)/profit ⁽¹⁾	(444.58)	24.96

Note:

- (1) Adjusted net (loss)/profit is defined as net (loss)/profit for the year after adding back share-based compensation, foreign exchange differences and income tax (credit)/expenses incurred during the respective year.

Liquidity and Financial Resources

Our business operations and expansion plans require a significant amount of capital, including acquiring user traffic from online publishers, enhancing our content production capabilities, improving our big data analytics and AI capabilities, upgrading our proprietary DMP and other infrastructures as well as other working capital requirements. Historically, we financed our capital expenditure and working capital requirements mainly through cash generated from operations, bank and other borrowings, and capital contributions from shareholders of the Company (the “Shareholders”). Our cash and bank balances increased from RMB363.61 million as at December 31, 2023 to RMB595.18 million as at December 31, 2024, mainly attributable to the expansion of business scale, the increased volume of working capital, and the increased bank loans due to the good credit of the Company.

The table below sets out our cash and bank balance (including restricted cash) by currency as at December 31, 2023 and as at December 31, 2024, respectively:

	Year ended December 31,	
	2024 RMB'000	2023 RMB'000
Denominated in RMB	579,163	363,417
Denominated in HKD	4,545	56
Denominated in USD	11,467	132
	595,175	363,605

As at December 31, 2024, our bank loans amounted to approximately RMB603.15 million (as at December 31, 2023: approximately RMB414.94 million), which are denominated in RMB. The interest rates on our bank loans ranged from 1.20% to 4.00% (for the year ended December 31, 2023: 2.30% to 4.30%) per annum and the terms of the loans ranged from six months to one year. We will repay the aforementioned borrowings in due course on maturity.

FINANCIAL REVIEW (Continued)

Capital Expenditures

Our capital expenditures in 2024 primarily consists of expenditures on (i) property, plant and equipment for office equipment and leasehold improvement; and (ii) intangible assets for software and the user right of a website.

The following table sets out our net capital expenditure as at the dates indicated:

	Year ended December 31,	
	2024	2023
	(RMB in millions)	
Property, plant and equipment	0.21	21.52
Intangible assets	–	9.50
Total	0.21	31.02

We incurred capital expenditures of approximately RMB0.21 million for the year ended December 31, 2024, primarily related to fixed assets arising from the purchase of office equipment. We intend to fund our planned capital expenditures through cash generated from operations.

Pledge of Assets

As at December 31, 2024, the Group had no inventory pledged (2023: inventory of RMB5.39 million was pledged) to guarantee other loans granted to the Group. The trade receivables of some customers of the Group have been pledged to guarantee the trade payables of approximately RMB150.00 million granted to the Group (2023: approximately RMB150.00 million). As at December 31, 2024, the Group's bank loans were guaranteed by the Company and its subsidiaries.

Foreign Exchange Risk Management

Foreign exchange risk refers to the risk of loss caused by the changes in foreign exchange rates. The operations of the Group are mainly located in the PRC with most transactions denominated and settled in RMB. The Group will closely monitor the relevant situation and take measures when necessary to ensure that the foreign exchange risk is within the controllable range.

Contingent Liabilities

As at December 31, 2024 and 2023, the Group did not have any material contingent liabilities.

MATERIAL ACQUISITION, DISPOSAL OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES AND SIGNIFICANT INVESTMENT

On May 31, 2024, the Group acquired a 51% equity interest in Shanghai Tetui Cultural Media Co., Ltd. ("**Tetui Cultural**") and its subsidiary Shanghai Chuangjie Network Technology Co., Ltd. ("**Chuangjie Network**") with Tetui Cultural accounting for 76.5% of equity attributable. The acquisition was part of the Group's strategy to expand its market share in intelligent marketing solutions services. The purchase consideration for the acquisition was in the form of cash via capital injection, amounting to RMB1,040,816, and was injected into Tetui Cultural to acquire the equity interest on the acquisition date.

Save as disclosed above, during the Reporting Period, the Group did not acquire or sell subsidiaries, associates and joint ventures. Save as disclosed the consolidated financial statements in this annual report, the Group did not hold any significant investment during the year ended December 31, 2024.

SUBSEQUENT EVENTS

(1) Suspension of trading on the Stock Exchange

Trading in the Company's shares on the Stock Exchange has been suspended with effect from 9:00 a.m. on Tuesday, April 1, 2025, and will remain suspended until the Company meets all resumption guidance, remedies the issues causing its trading suspension and fully complies with the Listing Rules to the Stock Exchange's satisfaction.

(2) Resumption guidance

As stated in the Company's announcement dated July 8, 2025, the Stock Exchange has formulated the following guidelines for the resumption of trading in the Company's Shares: (i) conduct an appropriate independent forensic investigation into the Prepayments and the related transactions, assess the impact on the Company's business operation and financial position, announce the findings and take appropriate remedial actions; (ii) demonstrate that there is no reasonable regulatory concern about the integrity, competence and/or character of the Group's management and/or any persons with substantial influence over the Company's management and operations, which may pose a risk to investors and damage market confidence; (iii) conduct an independent internal control review and demonstrate that the Company has in place adequate internal controls and procedures to meet its obligations under the Listing Rules; (iv) publish all outstanding financial results required under the Listing Rules and address any audit modifications; (v) demonstrate the Company's compliance with Rule 13.24; and (vi) inform the market of all material information for the Company's Shareholders and other investors to appraise its position. Under Rule 6.01A(1) of the Listing Rules, the Stock Exchange may cancel the listing of any securities that have been suspended from trading for a continuous period of 18 months. In the case of the Company, the 18-month period expires on September 30, 2026. If the Company fails to remedy the issues causing its trading suspension, fulfill the resumption guidance and fully comply with the Listing Rules to the Stock Exchange's satisfaction and resume trading in its shares by September 30, 2026, the Listing Division of the Stock Exchange will recommend the Listing Committee of the Stock Exchange to proceed with the cancellation of the Company's listing. Under Rules 6.01 and 6.10 of the Listing Rules, the Stock Exchange also has the right to impose a shorter specific remedial period or to cancel the listing of the Company immediately, where appropriate.

SUBSEQUENT EVENTS (Continued)

(3) Progress in fulfilling resumption guidance

MAIN RELATIONSHIPS WITH EMPLOYEES, CUSTOMERS AND SUPPLIERS (Continued)

Customers

The Group's customers primarily include (i) advertisers and advertising agencies for intelligent marketing solutions; and (ii) individuals for e-commerce service solutions and innovative business. As of December 31, 2024, the Group had accumulatively served approximately 5,030 key advertisers. The Group has maintained business relationships with top five customers for 3 to 6 years (as of December 31, 2024). The Group generally grants customers a credit period of 30 to 180 days, and settles with customers by wire transfer. The Group occasionally requires certain advertising customers to prepay for the Group's intelligent marketing solutions.

Suppliers

The Group's suppliers primarily include (i) media partners, consisting of online publishers (namely, owners of content distribution platforms) and media agents which engage with the Group on behalf of online publishers, for traffic acquisition; and (ii) third-party content distribution partners which conduct content marketing for and bring traffic to the Group's Huabian Platform. The Group has maintained business relationships with top five suppliers for 1 to 7 years (as of December 31, 2024). The suppliers of the Group generally settle with the Group via wire transfer and grant the Group a credit period from 30 to 90 days. Certain suppliers also require for prepayment for acquiring traffic.

PRINCIPAL RISKS AND UNCERTAINTIES

The Group's financial condition, results of operations, and business prospects may be affected by a number of risks and uncertainties directly or indirectly pertaining to the Group's businesses. The followings are the key risks and uncertainties identified by the Group. There may be other risks and uncertainties in addition to those shown below which are not known to the Group or which may not be material now but could turn out to be material in the future.

- The Group acted as a middleman between advertising customers and Supplier A and relied on Supplier A to acquire user traffic for the Group's advertisers. If the Group fails to maintain its business relationship with Supplier A or if Supplier A loses its leading market position or popularity, the Group's business, financial condition and results of operations could be materially and adversely affected.
- If the Group fails to retain the existing advertising customers, deepen or expand its relationships with the advertising customers, or attract new advertising customers, the Group's business, financial condition, results of operations and prospects may be materially and adversely affected.
- If the Group fails to retain the existing media partners, deepen or expand its relationships with the media partners, or attract new media partners, the Group's business, financial condition, results of operations and prospects may be materially and adversely affected.
- If online publishers transact with advertisers directly, the Group may be exposed to the risk of disintermediation.
- Increased governmental regulation of content platforms may subject the Group to penalties and other administrative actions.
- If the online marketing industry fails to continuously develop and grow, or if the online marketing industry develops or grows at a pace slower than expected, the Group's profitability and prospects may be materially and adversely affected.

PRINCIPAL RISKS AND UNCERTAINTIES (Continued)

- Any discontinuation or change in preferential tax treatment or government grants that currently are or may be available to the Group in the future could materially and adversely affect the Group's business, financial condition and results of operations.
- The Group may face certain risks in collecting its trade receivables, and the failure to collect could have a material adverse effect on the Group's business, financial condition and results of operations.
- The Group may be subject to liquidity risks, which could constrain the Group's operational flexibility and materially and adversely affect the Group's business, financial condition and results of operations.
- In 2024, the Group's 3C project (the "**3C project**") encountered difficulties in the collection of prepayments, which involved the overdue delivery of prepayments of approximately RMB170 million. Although the Group has taken legal actions to recover the relevant funds, there are still significant uncertainties in the final recoverable amount, which may have a significant adverse impact on the Group's business, financial position and operating results.
- Trading in the shares of the Group has been suspended on the Stock Exchange since April 1, 2025, and the resumption of trading must meet the resumption guidelines issued by the Stock Exchange. If the Group fails to meet these resumption conditions in time or in full, the trading of shares may continue to be suspended or even face the risk of delisting, which will have a significant adverse impact on the reputation, business and financing ability of the Group.

POST-IPO SHARE OPTION SCHEME

The Company has adopted the Post-IPO Share Option Scheme approved by a written resolution passed by the then Shareholders on November 17, 2020 and has taken effect from the Listing Date.

(a) Purpose of the Post-IPO Share Option Scheme

The purpose of the Post-IPO Share Option Scheme is to provide selected participants with the opportunity to acquire proprietary interests in the Company and to encourage selected participants to work towards enhancing the value of the Company and its Shares for the benefit of the Company and Shareholders as a whole. The Post-IPO Share Option Scheme will provide the Company with a flexible means of retaining, incentivising, rewarding, remunerating, compensating and/or providing benefits to selected participants.

(b) Selected participants to the Post-IPO Share Option Scheme

Any individual, being an employee, director, officer, consultant, advisor, distributor, contractor, customer, supplier, agent, business partner, joint venture business partner or service provider of any member of the Group or any affiliate who the Board or its delegate(s) considers, in their sole discretion, to have contributed or will contribute to the Group is entitled to be offered and granted options.

(c) Maximum number of Shares

The total number of Shares which may be issued upon exercise of all options to be granted under the Post-IPO Share Option Scheme and any other schemes is 80,000,000, being no more than 10% of the Shares in issue (excluding treasury shares) on the date the Shares commence trading on the Stock Exchange (the "**Option Scheme Mandate Limit**") (excluding any Shares which may be issued pursuant to the exercise of the options which may be granted under the Post-IPO Share Option Scheme). As of the date of this report, it accounts for about 10.05% of all issued shares (excluding treasury shares) (i.e. 795,658,000 shares). Options which have lapsed in accordance with the terms of the rules of the Post-IPO Share Option Scheme shall not be counted for the purpose of calculating the Option Scheme Mandate Limit.

(d) Maximum entitlement of a grantee

Unless approved by the Shareholders, the total number of Shares issued and to be issued upon exercise of the options granted and to be granted under the Post-IPO Share Option Scheme and any other share option scheme(s) of the Company to each selected participant (including both exercised and outstanding options) in any 12-month period shall not exceed 1% of the total number of Shares in issue (the "**Individual Limit**"). Any further grant of options to a selected participant which would result in the aggregate number of Shares issued and to be issued upon exercise of all options granted and to be granted to such selected participant (including exercised, canceled and outstanding options) in the 12 month period up to and including the date of such further grant exceeding the Individual Limit shall be subject to separate approval of the Shareholders (with such selected participant and his associates abstaining from voting).

POST-IPO SHARE OPTION SCHEME (Continued)

(e) Options granted to Directors or substantial shareholders

Each grant of options to any director, chief executive or substantial shareholder of the Company (or any of their respective associates) shall be subject to the prior approval of the independent non-executive Directors (excluding any independent non-executive Director who is a proposed recipient of the grant of options).

Where any grant of options to a substantial shareholder or an independent non-executive Director of the Company (or any of their respective associates) would result in the number of Shares issued and to be issued upon exercise of all options already granted and to be granted (including options exercised, canceled and outstanding) to such person in the 12-month period up to and including the date of such grant:

- (i) representing in aggregate over 0.1% (or such other higher percentage as may from time to time be specified by the Stock Exchange) of the Shares in issue; and
- (ii) having an aggregate value, based on the closing price of the Shares as stated in the daily quotations sheets issued by the Stock Exchange on the date of grant, in excess of HK\$5 million (or such other higher amount as may from time to time be specified by the Stock Exchange),

such further grant of options shall be subject to prior approval of the Shareholders (voting by way of poll) in a general meeting. In obtaining the approval, the Company shall send a circular to the Shareholders in accordance with and containing such information as is required under the Listing Rules. The relevant selected participants, their associates, and all core connected persons of the Company shall abstain from voting at such general meeting, except that any connected person may vote against the relevant resolution at the general meeting provided that his intention to do so has been stated in the circular to be sent to the Shareholders in connection therewith.

(f) Time of exercise of an option

An option may, subject to the terms and conditions upon which such option is granted, be exercised in whole or in part by the grantee giving notice in writing to the Company in such form as the Board may from time to time determine stating that the option is thereby exercised and the number of Shares in respect of which it is exercised.

(g) Vesting period

According to the requirements of the Listing Rules, the vesting period of share options granted to participants shall not be less than 12 months. The specific vesting period shall be decided by the Board at its discretion when granting.

POST-IPO SHARE OPTION SCHEME (Continued)

(h) Notice of offer and share option grant

The offer must be made to the selected participants in duplicate, specifying the terms of the grant of options. These terms may include any minimum term in which the share options must be held and/or the minimum target performance that must be achieved before the share options can be exercised in whole or in part, and may also include other terms imposed on individual or general situations at the discretion of the Board.

If the Company receives a copy of the letter of offer (which contains the number of shares accepted) signed by the grantee within 20 business days after sending the letter of offer to the grantee, together with the remittance of HK\$1.00 paid to the Company as the consideration for the share option granted, the offer will be deemed to have been accepted, and the share options related to the offer will be deemed to have been granted and become effective.

Any offer can be accepted for less than the number of shares it offers, provided that the shares accepted are one or more tradable shares. If the offer is not accepted within 20 business days after the date of sending the letter containing the offer to the relevant selected participants, it is deemed to have been irrevocably rejected.

(i) Subscription price

The amount payable for each Share to be subscribed for under an option (the “**Subscription Price**”) in the event of the option being exercised shall be determined by the Board in its absolute discretion but shall be not less than the higher of:

- (i) the closing price of a Share as stated in the daily quotations sheet issued by the Stock Exchange on the date of grant;
- (ii) the average closing price of the Shares as stated in the daily quotations sheets issued by the Stock Exchange for the five Business Days immediately preceding the date of grant; and
- (iii) the nominal value of a Share on the date of grant.

(j) Duration

The Post-IPO Share Option Scheme shall be valid and effective for the period of ten years commencing on the Listing Date (after which, no further options shall be offered or granted under the Post-IPO Share Option Scheme), but in all other respects the provisions of the Post-IPO Share Option Scheme shall remain in full force and effect to the extent necessary to give effect to the exercise of any options granted prior thereto or otherwise as may be required in accordance with the provisions of the rules of the Post-IPO Share Option Scheme.

On December 22, 2023, the Post-IPO Share Option Scheme was replaced by the Amended Post-IPO Share Option Scheme (as defined below), but the options granted under the Post-IPO Share Option Scheme will continue to be valid. As of December 31, 2024, the remaining term of the Post-IPO Share Option Scheme is approximately 6 years.

POST-IPO SHARE OPTION SCHEME (Continued)

(k) Implementation of Post-IPO Share Option Scheme during the Reporting Period

On January 27, 2022 (after trading hours), the Company cancelled a total of 8,808,000 Share Options granted on January 15, 2021 with effect from January 27, 2022. The Company further granted 5,281,600 Share Options under the Post-IPO Share Option Scheme to a total of sixty-eight (68) eligible participants to subscribe for an aggregate of 5,281,600 Shares, and the exercise price per Share Option was HK\$2.462, representing approximately 0.664% of the total issued Shares as of the Latest Practicable Date. For details, please refer to the announcement of the Company dated January 28, 2022.

The Share Options granted shall be valid from January 27, 2022 to January 14, 2031, both days inclusive. The Share Options shall be vested in accordance with the timetable below (for this purpose, the date or each such date on which the Share Options are vested being hereinafter referred to as a "**Vesting Date**"), subject to the grantees' achievement of performance targets as of each Vesting Date:

Vesting Date	Percentage of Share Options to vest
January 27, 2022	Approximately one-third of the total number of Share Options granted
January 14, 2023	Approximately one-third of the total number of Share Options granted
January 14, 2024	Approximately one-third of the total number of Share Options granted

The Remuneration Committee believes that the vesting of Share Options according to the above schedule is more appropriate and in line with the purpose of the post-IPO Share Option Scheme. Because the grantees of the newly granted options are the grantees of the cancelled options, and these grantees have already met the vesting period of the cancelled options, it is fair and reasonable to vest according to the above timetable.

On September 5, 2022 (after trading hours), the Company decided to grant 2,395,588 Share Options to a total of thirteen (13) eligible participants under the Post-IPO Share Option Scheme, and they can subscribe for a total of 2,395,588 shares, with the exercise price of HK\$2.462 per Share, representing approximately 0.301% of the total issued Shares as of the Latest Practicable Date. For details, please refer to the announcement of the Company dated September 5, 2022.

The option is valid for ten (10) years from the date of grant (i.e. September 5, 2022). The Share Options shall vest according to the following schedule (for this purpose, the vesting date of the Share Options), but the grantee shall achieve the performance target on each vesting date.

Vesting Date	Percentage of Share Options to vest
September 5, 2023	Approximately one-third of the total number of Share Options granted
September 5, 2024	Approximately one-third of the total number of Share Options granted
September 5, 2025	Approximately one-third of the total number of Share Options granted

POST-IPO SHARE OPTION SCHEME (Continued)

(k) Implementation of Post-IPO Share Option Scheme during the Reporting Period (Continued)

On July 17, 2023 (after trading hours), the Company decided to grant options to a total of twenty-two (22) eligible participants under the Post-IPO Share Option Scheme (the “Options”), and to subscribe for a total of 63,514,812 shares, with an exercise price of HK\$0.816 per share, accounting for about 7.9827% of the total issued shares on the Last Practical Date. For details, please refer to the announcement of the Company dated July 17, 2023 and the circular of the Company dated July 31, 2023.

The option is valid for ten (10) years from the date of grant (i.e. July 17, 2023). The share options shall vest according to the following schedule (for this purpose, the vesting date of the share options), but the grantee shall achieve the performance target on each vesting date.

Vesting Date	Percentage of share options to vest
July 31, 2024	Approximately one-third of the total number of Share Options granted
July 31, 2025	Approximately one-third of the total number of Share Options granted
July 31, 2026	Approximately one-third of the total number of Share Options granted

Details of valuation of the Share Options during the Reporting Period, including the accounting standard and policy adopted for the Post-IPO Share Option Scheme are set out in Note 28 to the consolidated financial statements in this annual report.

POST-IPO SHARE OPTION SCHEME (Continued)

(k) Implementation of Post-IPO Share Option Scheme during the Reporting Period (Continued)

Notes: (Continued)

- (7) The closing price of the Shares immediately (i.e. January 26, 2022) before the date of which the Share Options were granted, i.e. January 27, 2022, was HK\$2.310. The fair value of the Share Options at the date of grant was HK\$2.310 per Share.
- (8) The closing price of the Shares immediately (i.e. September 2, 2022) before the date of which the Share Options were granted, i.e. September 5, 2022, was HK\$1.310. The fair value of the Share Options at the date of grant was HK\$1.310 per Share.
- (9) The closing price of the Shares immediately (i.e. July 14, 2023) before the date of which the Share Options were granted, i.e. July 17, 2023, was HK\$0.810. The fair value of the Share Options at the date of grant was HK\$0.810 per Share.
- (10) The number of Share Options vested in 2022 was not exercised during 2022. These Share Options have not expired, and participants may choose to exercise these vested Share Options during the duration of the scheme, as long as these Share Options have not expired or been cancelled according to the rules of the scheme. Therefore, as of the beginning and end of 2022, the number of shares subject to the exercise of Options remains unchanged.
- (11) The number of Share Options vested in 2023 was not exercised during 2023. These Share Options have not expired, and participants may choose to exercise these vested Share Options during the duration of the scheme, as long as these Share Options have not expired or been cancelled according to the rules of the scheme. Therefore, as of the beginning and end of 2023, the number of shares subject to the exercise of Options remains unchanged.
- (12) The number of Share Options vested during the Reporting Period was not exercised during the Reporting Period. These Share Options have not expired, and participants may choose to exercise these vested Share Options during the duration of the scheme, as long as these Share Options have not expired or been cancelled according to the rules of the scheme. Therefore, at the beginning and end of the Reporting Period, the number of shares subject to outstanding options remained unchanged.
- (13) Since the date of grant of the Share Options and up to the Reporting Period, none of the Share Options had been exercised, and accordingly, the exercise price is not applicable.

During the Reporting Period, the vesting of the above-mentioned Share Options granted under the Post-IPO Share Option Scheme was not restricted by any performance target of the Group or each eligible participant, which has been reviewed by the Remuneration Committee at the time of grant. Given the purpose of the Grant is to motivate and retain the Grantees by allowing them to share the results achieved by the Group as a result of their efforts and contributions and encourage them to work towards achieving the long-term development of the Group, having considered that: (a) the Grantees' experiences in the Group's business, length of service to the Group and contribution and dedication to the promotion of the Group's business; (b) their contributes to the overall business performance, sustainable development and/or good corporate governance of the Group; and (c) that the Share Options will be vested to them in tranches over a period of three years from the date of grant, where the value of the Share Options will be linked to future prices of the Shares which in turn will depend upon the performance of the Company. In view of the above, especially the minimum vesting period, the Remuneration Committee was of the view that the Grant without performance targets is (i) in line with the purpose of the Share Option Scheme; and (ii) fair and reasonable to the Company and Shareholders as a whole.

POST-IPO SHARE OPTION SCHEME (Continued)

(k) Implementation of Post-IPO Share Option Scheme during the Reporting Period (Continued)

During the Reporting Period, the vesting of the above-mentioned Share Options granted under the Post-IPO Share Option Scheme were subject to clawback mechanism, that is if a participant ceases to be eligible to participate in the Share Option Scheme, the Board may decide that Share Options that have not yet been exercised (regardless of whether they have been vested or have been granted but not yet vested) shall lapse unless the Board otherwise determines that such Share Options shall be exercisable.

During the Reporting Period, except as disclosed above, the Company did not grant or agree to grant other Share Options under the Post-IPO Share Option Scheme. On January 1, 2024 and December 31, 2024, there was no shares that could be granted under the Post-IPO Share Option Scheme. The number of Shares that may be issued in respect of the options granted under the Post-IPO Share Option Scheme during the Reporting Period divided by the weighted average number of Shares in issued (excluding treasury shares) during the Reporting Period was 8.34%. As of the date of this report, the total number of Shares that can be issued under the Post-IPO Share Option Scheme is 63,719,778, accounting for 8.01% of the total number of issued Shares (excluding treasury shares) (i.e. 795,658,000 Shares).

From the date of revision of the Post-IPO Share Option Scheme, the existing Post-IPO Share Option Scheme adopted on November 17, 2020 has been replaced entirely by the Amended Post-IPO Share Option Scheme (as defined below). As of the date of this annual report, 63,719,778 share options (accounting for about 8.01% of the shares issued on the date of this annual report) have been granted to participants under the existing Post-IPO Share Option Scheme, while the number of shares to be issued under the existing Post-IPO Share Option Scheme is zero. The share options granted under the existing Post-IPO Share Option Scheme will continue to be valid and exercisable in accordance with the terms and conditions thereunder, and will not be included in the Scheme Mandate Limit (as defined below).

RESTRICTED SHARE UNIT SCHEME

The Restricted Share Unit Scheme (the “**RSU Scheme**”) was adopted and approved by a resolution of the Board of Directors on October 18, 2021 (the “**Adoption Date**”). The following is a summary of the principal terms of the RSU Scheme:

(a) Purpose

The purpose of the RSU Scheme is to recognize and reward Participants for their contribution to the Group, to attract best available personnel to provide service to the Group, and to provide additional incentives to them to remain with and further promote the success of the Group's business.

(b) Who May Join

The Participants include: (i) full-time employees (including directors, officers and members of senior management) of any member of the Group; (ii) any non-executive directors (including independent non-executive directors) of the Group or any Invested Entity; (iii) any adviser (professional or otherwise), consultant to or expert in any area of business or business development of any member of the Group or any Invested Entity; and (iv) any other group or classes of participants who have contributed or may contribute by way of joint venture, business alliance or other business arrangement to the development and growth of the Group (the “**Participants**”).

RESTRICTED SHARE UNIT SCHEME (Continued)

(c) RSU Limit

The total number of Shares underlying the RSU Scheme (excluding the Shares underlying the RSUs that have lapsed or been cancelled in accordance with the relevant provisions of the RSU Scheme) shall not exceed 80,000,000 Shares (the **"RSU Limit"**), representing 10% of the issued Shares as of the Adoption Date. As of the date of this report, it accounts for about 10.05% of all issued shares (i.e. 795,658,000 shares).

(d) Maximum entitlement of a grantee

Unless otherwise stipulated in the Listing Rules, there is no limit on maximum the maximum entitlement to each grantee of the restricted share unit.

(e) Time for exercising RSU

Subject to limitations and conditions of the RSU Scheme, the Administrator may grant to each of the selected Participants an offer of grant of Award by way of a restricted share unit award agreement or any such notice or document in such form as the Administrator may from time to time determine for acceptance by the selected Participant (the **"Award Agreement"**), subject to additional terms and conditions that the Administrator thinks fit which shall be stated in the Award Agreement.

If the selected Participant intends to accept the Grant as specified in the Award Agreement, he/she is required to sign the Award Agreement to confirm his/her acceptance and return it to the Administrator within the time period and in a manner prescribed in the Award Agreement. Upon the receipt from the selected Participant of a duly executed Award Agreement and payment of total consideration (if any), the RSUs shall be granted to such Participant in respect of a board lot for dealing in the Shares on the Stock Exchange or an integral multiple thereof, and such Participant shall become a Grantee pursuant to the RSU Scheme. To the extent that the Grant or any term or condition set out in the Award Agreement is not accepted by any selected Participant within the time period or in a manner prescribed in the Award Agreement, it shall be deemed that such Grant has irrevocably lapsed and terminated and that the RSUs that would have been granted under the Grant have immediately lapsed.

(f) Vesting period

Upon fulfilment or waiver (by the Administrator in its sole and absolute discretion) of the vesting period and vesting conditions (if any) applicable to a Grantee or a Grant, a vesting notice will be sent to the Grantee by the Administrator, or by the relevant Trustee under the authorization and instruction by the Administrator, confirming (i) the extent to which the vesting period and vesting conditions have been fulfilled or waived; (ii) the number of Shares (and, if applicable, the cash or non-cash income, dividends or distributions and/or the sale proceeds of non-cash and non-scrip distributions in respect of these Shares) or the amount of cash the Grantee will receive; and (iii) where the Grantee will receive Shares, the lock-up arrangements for such Shares (if applicable). The Grantee is required to execute, after receiving the vesting notice, certain documents set out in the vesting notice that the Administrator considers necessary (which may include, without limitation, a certification that he or she has complied with all the terms and conditions set out in the RSU Scheme and the Award Agreement). In the event that the Grantee fails to execute the required documents within 30 Business Days after receiving the vesting notice, the vested RSUs will lapse.

RESTRICTED SHARE UNIT SCHEME (Continued)

(g) Subscription price

The Board or the relevant committee may, at its sole discretion, restrict the purchase price (if any) of the RSUs and the time limit within which any such payment must be made in the notice of grant.

(h) Effective period

Unless the Board may decide to terminate the RSU Scheme in advance according to the terms of the RSU Scheme, the RSU Scheme will take effect from the adoption date (with a validity period often (10) years), and no awards will be granted after the expiration of the validity period, but the provisions of the RSU Scheme shall be fully effective and effective in all other aspects and the awards granted during the RSU Scheme period will continue to take effect according to their respective grant terms.

(i) Implementation of RSU Scheme during the Reporting Period

As at December 31, 2024, the remaining validity period of the RSU Scheme is about 7 years.

As at December 31, 2024, the trustee appointed by the Company to manage the RSU Scheme has purchased a total of 33,302,544 shares in the market, accounting for about 4.19% of the total issued shares (i.e. 795,658,000 shares) as of December 31, 2024.

The grant of RSUs only involves existing shares. After the vesting of the RSUs granted to the grantee of RSUs, the Company will not issue and distribute any new shares. Therefore, the vesting of RSUs will not have any dilution effect on the equity of existing shareholders of the Company.

On September 5, 2022 (after trading hours), the Company granted a total of 1,868,186 RSUs to one director and four employees of the Group under the RSU Scheme, accounting for about 0.235% of the total issued shares as of the Latest Practicable Date. For details, please refer to the announcement issued by the Company on September 5, 2022.

RESTRICTED SHARE UNIT SCHEME (Continued)

(i) Implementation of RSU Scheme during the Reporting Period (Continued)

The term of validity of RSUs is ten (10) years after the date of grant. The 1,868,186 RSUs granted to the grantee of RSUs will be vested as follows:

- (i) About one-third of the RSUs will vest on September 5, 2023;
- (ii) About one third of the RSUs will vest on September 5, 2024; and
- (iii) About one third of the RSUs will vest on September 5, 2025.

On December 28, 2023 (after trading hours), the Company granted a total of 40,000,000 RSUs to four directors and three employees of the Group under the RSU Scheme, accounting for about 5.03% of the total issued shares as at December 31, 2023. The above-mentioned grantee of RSUs is not required to pay fees for any restricted share units granted under the RSU Scheme or for exercising such RSUs. For details, please refer to the announcement issued by the Company on December 28, 2023.

The term of validity of RSUs is ten (10) years after the date of grant. The 40,000,000 RSUs granted to the grantee of RSUs will be vested as follows:

- (i) About one-third of the RSUs will vest on December 28, 2024;
- (ii) About one third of the RSUs will vest on December 28, 2025; and
- (iii) About one third of the RSUs will vest on December 28, 2026.

Notes:

- (1) There are no RSUs granted to suppliers of goods or services or other participants.
- (2) The RSUs granted on September 5, 2022 shall be valid from September 5, 2022 to September 4, 2032 (including the first and last days).
- (3) The RSUs granted on December 28, 2023 shall be valid from December 28, 2023 to December 27, 2033 (including the first and last days).
- (4) The RSUs with a vesting date of December 28, 2024 were not vested during the Reporting Period as the vesting was deferred by mutual agreement between the Company and the relevant participants. These RSUs remain outstanding and have not lapsed or been cancelled.
- (5) The closing price of shares immediately (i.e. September 2, 2022) before the grant date of RSUs, i.e. September 5, 2022 was HK\$1.310. The fair value of the RSUs at the date of grant was HK\$1.310.
- (6) The closing price of shares immediately (i.e. December 27, 2023) before the grant date of RSUs, i.e. December 28, 2023 was HK\$0.540. The fair value of the RSUs at the date of grant was HK\$0.540.

As of the date of this Report, after the grant listed above, there are 44,793,148 shares under the RSU Scheme available for grant in the future, accounting for about 5.63% of the total issued shares (excluding treasury shares) as of the date of this Report.

RESTRICTED SHARE UNIT SCHEME (Continued)

The vesting of the RSUs granted to the Grantee of RSUs was not restricted by any performance target of the Group or the grantee of RSUs. These performance target have been reviewed by the Remuneration Committee at the time of grant. Given the purpose of granting RSUs is to motivate and retain the Grantees by allowing them to share the results achieved by the Group as a result of their efforts and contributions and encourage them to work towards achieving the long-term development of the Group, having considered that: (a) the Grantees' experiences in the Group's business, length of service to the Group and contribution and dedication to the promotion of the Group's business; (b) their contributes to the overall business performance, sustainable development and/or good corporate governance of the Group; and (c) that the RSUs will be vested to them in tranches over a period of three years from the date of grant, where the value of the RSUs will be linked to future prices of the Shares which in turn will depend upon the performance of the Company. In view of the above, especially the minimum vesting period, the Remuneration Committee was of the view that the Grant without performance targets is (i) in line with the purpose of the RSU Scheme; and (ii) fair and reasonable to the Company and Shareholders as a whole.

During the Reporting Period, the vesting of the above-mentioned RSUs granted under the RSU Scheme were subject to clawback mechanism, that is if a participant ceases to be eligible to participate in the RSU Scheme, the Board may decide that RSUs that have not yet been exercised (regardless of whether they have been vested or have been granted but not yet vested) shall lapse unless the Board otherwise determines that such RSUs shall be exercisable.

During the Reporting Period and as of the date of this Report, except as disclosed above, the Company did not grant or agree to grant, vest, transfer, expire or cancel any RSUs according to the RSU Scheme.

AMENDED POST-IPO SHARE OPTION SCHEME

The Amended Post-IPO Share Option Scheme (the "**Amended Post-IPO Share Option Scheme**") was adopted and approved by the EGM of Shareholders on December 22, 2023 (the "**Adoption Date**") to replace the Post-IPO Share Option Scheme. For details, please refer to the company's circular on December 5, 2023 and announcement on December 22, 2023. The following is a summary of the main terms of the Amended Post-IPO Share Option Scheme:

(a) The Purpose of the Amended Post-IPO Share Option Scheme

The purpose of the Amended Post-IPO Share Option Scheme is to provide participants with the opportunity to acquire proprietary interests in the Company and to encourage participants to work towards enhancing the value of the Company and its Shares for the benefit of the Company and its Shareholders as a whole.

(b) The Participants of the Amended Post-IPO Share Option Scheme

The Participants of the Scheme:

- (i) any director or employee (whether full time or part time) of the Company or any of its subsidiaries (and including persons who are granted Option(s) under the Amended Post-IPO Share Option Scheme as an inducement to enter into employment or service contracts with these companies); and
- (ii) any director or employee (whether full time or part time) of the holding companies, fellow subsidiaries or associated companies of the Company.

AMENDED POST-IPO SHARE OPTION SCHEME (Continued)

(c) The maximum number of shares

The total number of shares that can be issued after the exercise of all Options or awards to be granted under the Amended Post-IPO Share Option Scheme, Share Award Scheme and any other share schemes of the Company is 79,565,800, which is at most 10% of the shares issued on the date when the shareholders approve the Amended Post-IPO Share Option Scheme (excluding any shares that can be issued due to the exercise of Options or awards that may be granted under the Amended Post-IPO Share Option Scheme and Share Award Scheme) (the “**Scheme Mandate Limit**”). As of the date of this Report, it accounts for about 10% of all issued shares (i.e. 795,658,000 shares). Share Options that have lapsed according to the terms of the Amended Post-IPO Share Option Scheme will not be included in the calculation of the scheme mandate limit of the Share Option Scheme.

(d) Maximum entitlement of a grantee

Unless approved by the Shareholders, the total number of shares issued or to be issued to each selected participant due to the exercise of the or awards or Options granted or to be granted under Share Award Scheme, Amended Post-IPO Share Option Scheme, and any other share schemes of the Company (including exercised and unexercised awards or Options) within any 12-month period shall not exceed 1% of the total number of shares issued. If the re-granting of awards or Options to the selected participant will cause all the awards or Options granted or to be granted to the selected participant (including exercised, cancelled and unexercised Options or awards) to be exercised within a period of 12 months up to and including the date of re-granting, and the total number of shares issued and to be issued exceeds the individual limit, it must be approved by the Shareholders separately, and the selected participant and their associates shall abstain from voting.

(e) Granting Options to a director or substantial shareholder

Each grant of Options to any director, chief executive or substantial Shareholder of the Company (or any of their respective associates) shall be subject to the prior approval of the independent non-executive directors of the Company (excluding any independent non-executive director who is a proposed recipient of the grant of Options). The number of Shares issued and to be issued if the grant of Share Options to the Company's major shareholders or independent non-executive directors (or any of their respective associates) will result in the exercise of all share Options granted or to be granted to that person (including exercised, cancelled and unexercised share Options) within a period of 12 months up to and including the date of grant: the total is equal to more than 0.1% of the issued shares (or such other higher percentage as the Stock Exchange may specify from time to time) at the closing price set out in the daily quotation sheet issued by the Stock Exchange on the date of grant, then the further grant of share Options must be approved by Shareholders in advance at the Shareholders' meeting (by voting). In order to obtain approval, the Company shall send a circular letter to Shareholders in accordance with the Listing Rules, which shall contain relevant information stipulated in the Listing Rules. Relevant selected participants, their associates and all core related persons of the Company must abstain from voting at the Shareholders' meeting, but related persons can vote against relevant resolutions at the Shareholders' meeting on the condition that they have stated their intentions in the circular sent to Shareholders.

Every share option granted to the directors or senior management of the Company under the Amended Post-IPO Share Option Scheme or any other share scheme set out in Rules 17.03(F) and 17.06B(7) and (8) of the Listing Rules shall be approved by the Remuneration Committee.

AMENDED POST-IPO SHARE OPTION SCHEME (Continued)

(f) Time to exercise Share Options

Subject to the terms and conditions of the grant of the Share Options, the grantee may exercise all or part of the Share Options by sending a written notice to the Company in the form determined by the Board from time to time, stating the number of Shares involved in the exercise of the Share Options thereby.

(g) Vesting

The vesting period of Share Options granted to employee participants may, at the discretion of the Board (or any duly authorized committee or person by the Board), be shorter than 12 months under the following circumstances:

- (i) grants of "make-whole" Share Options to an employee participant who is a new joiner to replace the options he forfeited when leaving his previous employer(s);
- (ii) grants of "make-whole" Share Options to an employee participant who is an existing key personnel of a newly acquired subsidiary of the Company to replace the awards or options he forfeited upon the acquisition of the subsidiary by the Company. In such case, the vesting period may be shorter to reflect the remaining vesting period in respect of the forfeited awards or options;
- (iii) grants of Share Options to an employee participant whose employment is terminated due to death or disability or occurrence of any out of control event. In those circumstances, the vesting of an Option may accelerate;
- (iv) grants of Share Options with performance-based vesting conditions provided in the Amended Post-IPO Share Option Scheme in lieu of time-based vesting criteria;
- (v) grants of Share Options that are made in batches during a year for administrative and compliance reasons. They may include Options that have been granted earlier but had to wait for a subsequent batch. In such cases, the vesting periods may be shorter to reflect the time from which an Option would have been granted;
- (vi) grants of Share Options with a mixed or accelerated vesting schedule such as where the Options may vest evenly over a period of 12 months;
- (vii) the occurrence of an event of change in control of the Company, where by way of offer, merger or scheme of arrangement; or
- (viii) grants of Share Options with a total vesting and holding period of more than 12 months.

AMENDED POST-IPO SHARE OPTION SCHEME (Continued)

(g) Vesting (Continued)

Save for the above, there are no other circumstances that would result in a vesting period of less than 12 months.

The Board may at its discretion specify any condition in the offer letter at the grant of the Share Options which must be satisfied before the Share Options may be vested. Vesting shall only occur upon satisfaction (or where applicable, waived by the Remuneration Committee and the Board) of the conditions imposed by the Remuneration Committee and the Board.

The Company, any subsidiary, related entity or affiliated company shall have the right to withhold, and any grantee shall pay any tax and/or social security contributions related to the grant of Share Options. The Company does not apply to the amount (if any) to be paid when applying for or accepting the Share options, the time limit for payment or notice of payment or the time limit for repayment of the option loan.

(h) Notice of offer and share option grant

The offer must be made to the selected participants in duplicate, specifying the terms of the grant of Share Options. These terms may include any minimum term in which the Share Options must be held and/or the minimum target performance that must be achieved before the Share Options can be exercised in whole or in part, and may also include other terms imposed on individual or general situations at the discretion of the Board.

If the Company receives a copy of the letter of offer (which contains the number of shares accepted) signed by the grantee within 20 business days after sending the letter of offer to the grantee, together with the remittance of HK\$1.00 paid to the company as the consideration for the Share Option granted, the offer will be deemed to have been accepted, and the Share Options related to the offer will be deemed to have been granted and become effective.

Any offer can be accepted for less than the number of shares it offers, provided that the shares accepted are one or more tradable shares. If the offer is not accepted within 20 business days after the date of sending the letter containing the offer to the relevant selected participants, it is deemed to have been irrevocably rejected.

AMENDED POST-IPO SHARE OPTION SCHEME (Continued)

(i) Subscription price

The exercise price shall be such price determined by the Board in its absolute discretion and notified to the participant in the Offer and shall be no less than the higher of:

- (i) the closing price of a Share as stated in the daily quotations sheet issued by the Stock Exchange on the Date of Grant;
- (ii) the average closing price of the Shares as stated in the daily quotations sheets issued by the Stock Exchange for the five business days immediately preceding the Date of Grant (provided that in the event that any Option is proposed to be granted within a period of less than five business days after the trading of the Shares first commences on the Stock Exchange); or (iii) the nominal value of a Share on the Date of Grant.

(j) Duration

The Amended Post-IPO Share Option Scheme is valid and effective for a period of 10 years from the date of adoption (after that, no other Share Options may be proposed or granted under the Amended Post-IPO Share Option Scheme), but the provisions of the Amended Post-IPO Share Option Scheme will remain valid in all other respects, provided that any Share Options granted before the expiration of the Share Option Scheme are effectively exercised or the Share Options are effectively exercised under other circumstances under the Amended Post-IPO Share Option Scheme.

As at December 31, 2024, the remaining term of the Amended Post-IPO Share Option Scheme is approximately nine (9) years.

(k) Implementation of the Amended Post-IPO Share Option Scheme during the Reporting Period

As at December 31, 2024, there were no Share Options granted under the Amended Post-IPO Share Option Scheme. As of the date of this Report, the total number of shares that can be issued under the Amended Post-IPO Share Option Scheme is 79,565,800, accounting for about 10% of the total number of issued shares (excluding treasury shares) (i.e. 795,658,000 shares).

SHARE AWARD SCHEME

The Share Award Scheme (the “**Share Award Scheme**”) was adopted and approved by the EGM of Shareholders on December 22, 2023 (the “**Adoption Date**”). For details, please refer to the company's circular on December 5, 2023 and announcement on December 22, 2023. The following is a summary of the main terms of the Share Award Scheme:

(a) The purpose of the Share Award Scheme

The specific objectives of the Scheme are to:

- (i) recognise the present and historical contributions by certain selected participants with an opportunity to acquire a proprietary interest in the Company;
- (ii) encourage and retain such individuals for the continual operation and development of the Group;
- (iii) provide additional incentives for them to achieve performance goals;
- (iv) attract suitable personnel for further development of the Group; and
- (v) motivate the selected participants to maximize the value of the Company for the benefits of both the selected participants and the Company, with a view to achieving the objectives of increasing the value of the Group and aligning the interests of the selected participants directly to the shareholders of the Company through ownership of Shares.

(b) The Participants of the Share Award Scheme

The Participants of the Scheme:

- (i) any director or employee (whether full time or part time) of the Company or any of its subsidiaries (and including persons who are granted Option(s) under the Amended Post-IPO Share Option Scheme as an inducement to enter into employment or service contracts with these companies); and
- (ii) any director or employee (whether full time or part time) of the holding companies, fellow subsidiaries or associated companies of the Company.

(c) The maximum number of shares

The total number of shares that can be issued after the exercise of all awards or Options to be granted under the Share Award Scheme, Amended Post-IPO Share Option Scheme, and any other share schemes of the Company is 79,565,800, which is at most 10% of the shares issued on the date when the shareholders approve the Amended Post-IPO Share Option Scheme (excluding any shares that can be issued due to the exercise of awards or Options that may be granted under the Share Award Scheme, Amended Post-IPO Share Option Scheme). As of the date of this Report, it accounts for about 10% of all issued shares (i.e. 795,658,000 shares). Awards that have lapsed according to the terms of the Share Award Scheme will not be included in the calculation of the scheme mandate limit of the Share Award Scheme.

SHARE AWARD SCHEME (Continued)

(d) Maximum entitlement of a grantee

Unless approved by the Shareholders, the total number of shares issued or to be issued to each selected participant due to the exercise of the Options or awards granted or to be granted under the Share Award Scheme, Amended Post-IPO Share Option Scheme and any other share schemes of the Company (including exercised and unexercised Options or awards) within any 12-month period shall not exceed 1% of the total number of shares issued. If the re-granting of awards or Options to the selected participant will cause all the awards or Options granted or to be granted to the selected participant (including exercised, cancelled and unexercised awards or Options) to be exercised within a period of 12 months up to and including the date of re-granting, and the total number of shares issued and to be issued exceeds the individual limit, it must be approved by the Shareholders separately, and the selected participant and their associates shall abstain from voting.

(e) Granting share awards to a director or substantial shareholder

Each grant of share awards to any director, chief executive or substantial Shareholder of the Company (or any of their respective associates) shall be subject to the prior approval of the independent non-executive directors of the Company (excluding any independent non-executive director who is a proposed recipient of the grant of Options). The number of Shares issued and to be issued if the grant of share awards to the Company's major shareholders or independent non-executive directors (or any of their respective associates) will result in the exercise of all share awards granted or to be granted to that person (including exercised, cancelled and unexercised share awards) within a period of 12 months up to and including the date of grant: the total is equal to more than 0.1% of the issued shares (or such other higher percentage as the Stock Exchange may specify from time to time) at the closing price set out in the daily quotation sheet issued by the Stock Exchange on the date of grant, then the further grant of share awards must be approved by Shareholders in advance at the Shareholders' meeting (by voting). In order to obtain approval, the Company shall send a circular letter to Shareholders in accordance with the Listing Rules, which shall contain relevant information stipulated in the Listing Rules. Relevant selected participants, their associates and all core related persons of the Company must abstain from voting at the Shareholders' meeting, but related persons can vote against relevant resolutions at the Shareholders' meeting on the condition that they have stated their intentions in the circular sent to Shareholders.

Every share award granted to the directors or senior management of the Company under the Share Award Scheme or any other share scheme set out in Rules 17.03(F) and 17.06B(7) and (8) of the Listing Rules shall be approved by the Remuneration Committee.

(f) Time to exercise share awards

Subject to the terms and conditions of the grant of the share awards, the grantee may exercise all or part of the share awards by sending a written notice to the Company in the form determined by the Board from time to time, stating the number of Shares involved in the exercise of the share awards thereby.

SHARE AWARD SCHEME (Continued)

(g) Vesting

The vesting period for the share awards shall not be less than 12 months or such other period as the Listing Rules may prescribe or permit. Awards granted to an employee participant may be subject to a shorter vesting period under specific circumstances as set out below:

- (i) Grants of "make-whole" awards to an employee participant who is a new joiner to replace the share awards he forfeited when leaving his previous employer(s);
- (ii) Grants of "make-whole" awards to an employee participant who is an existing key personnel of a newly acquired subsidiary of the Company to replace the awards or options he forfeited upon the acquisition of the subsidiary by the Company. In such case, the vesting period may be shorter to reflect the remaining vesting period in respect of the forfeited awards or options;
- (iii) Grants of awards to an employee participant whose employment is terminated due to death or disability or occurrence of any out of control event. In those circumstances, the vesting of an award may accelerate;
- (iv) Grants of awards with performance-based vesting conditions provided in the Share Award Scheme in lieu of time-based vesting criteria;
- (v) Grants of awards that are made in batches during a year for administrative and compliance reasons. They may include awards that have been granted earlier but had to wait for a subsequent batch. In such cases, the vesting periods may be shorter to reflect the time from which an award would have been granted;
- (vi) Grants of awards with a mixed or accelerated vesting schedule such as where the awards may vest evenly over a period of 12 months;
- (vii) The occurrence of an event of change in control of the Company, where by way of offer, merger or scheme of arrangement; or
- (viii) Grants of awards with a total vesting and holding period of more than 12 months.

Save for the above, there are no other circumstances that would result in a vesting period of less than 12 months.

The Board may at its discretion specify any condition in the offer letter at the grant of the award which must be satisfied before the awarded shares may be vested. Vesting shall only occur upon satisfaction (or where applicable, waived by the Remuneration Committee and the Board) of the conditions imposed by the Remuneration Committee and the Board. The Remuneration Committee and the Board or person(s) to which the Remuneration Committee and the Board delegated their authority may either direct and procure the Trustee(s) to release from the Trusts the awarded shares to the selected participants by transferring the number of awarded shares to the selected participants in such manner as determined by the Remuneration Committee and the Board from time to time.

SHARE AWARD SCHEME (Continued)

(g) Vesting (Continued)

The Company, any subsidiary, related entity or affiliated company shall have the right to withhold, and any grantee shall pay any tax and/or social security contributions related to the grant of award. The Company does not apply to the amount (if any) to be paid when applying for or accepting the award, the time limit for payment or notice of payment or the time limit for repayment of the award loan.

(h) Subscription price

The Board or the relevant Committee may, at its sole discretion, award the purchase price of the shares (if any) and the time limit within which any such payment must be made in the notice of grant, which shall be based on considerations such as the current market price of the shares, the purpose of the share awards and the characteristics and profile of the relevant selected participants.

(i) Duration

Except for any early termination that may be decided by the Board according to the Share Award Scheme, the validity period of the Share Award Scheme shall take effect from the adoption date of the Share Award Scheme (the validity period is ten (10) years), and no award will be granted after the expiration of the validity period, but the provisions of the Share Award Scheme shall be fully effective in all other aspects and the awards granted during the period of the Share Award Scheme will continue to take effect according to their respective grant terms.

As at December 31, 2024, the remaining term of the Share Award Scheme is about nine (9) years.

(j) Implementation of the Share Award Scheme during the Reporting Period

As at December 31, 2024, there were no share awards granted under the Share Award Scheme. As of the date of this Report, the total number of shares that can be issued under the Share Award Scheme is 79,565,800, accounting for about 10% of the total number of issued shares (excluding treasury shares) (i.e. 795,658,000 shares).

EQUITY-LINKED AGREEMENT

Except as disclosed in the section headed "Post-IPO Share Option Scheme", "Restricted Share Unit Scheme", "Amended Post-IPO Share Option Scheme" and "Share Award Scheme" above, there was no equity-linked agreement entered into by the Company or subsisting during the year ended December 31, 2024.

PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES

During the year ended December 31, 2024, none of the Company or any of its subsidiaries or its consolidated affiliated entities had purchased, sold or redeemed any of the listed securities of the Company (including treasury shares). As of December 31, 2024, the Company did not hold any treasury shares. Since the adoption of the RSU Scheme and up to December 31, 2024, the trustee of the RSU Scheme had purchased a total of 33,302,544 Shares of the Company on the Hong Kong Stock Exchange.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Articles of Association or the laws of the Cayman Islands that would oblige the Company to offer new shares on a pro-rata basis to the existing Shareholders.

NON-COMPETITION UNDERTAKING

On March 31, 2022, each of the Controlling Shareholders (i.e. the AIC Parties) entered into the Termination Agreement to terminate the acting-in-concert arrangement among them upon mutual agreement, with effect from March 31, 2022. Upon the execution of the Termination Agreement, the AIC Parties are no longer controlling shareholders of the Company, and they will no longer be bound by the Deed of Non-competition according to the terms of the Deed of Non-competition. For details, please refer to the announcement of the Company dated March 31, 2022.

DIRECTORS' INTERESTS IN COMPETING BUSINESS

As of December 31, 2024, Mr. Wang Jianshuo was the chairman of the board of Baixing Net, and together with the persons acting in concert with him, held approximately 40.84% of the registered capital of Baixing Net, which primarily operates one of the largest classified information internet platforms in the PRC (i.e. www.baixing.com) that enables local merchants and consumers to exchange information and conduct business with each other.

As disclosed in the Prospectus, Baixing Net engages in information stream business with a focus on traffic distribution as an advertising agency, which are similar to the online marketing solutions business of the Group. For details of the delineation of the business of the Group and those of Baixing Net, please refer to the section headed "Directors and Senior Management" of the Prospectus.

Save as disclosed above, as of December 31, 2024, none of the Directors or their associates has any interest in any business that directly or indirectly competes with or may compete with the business of the Group.

CONNECTED TRANSACTIONS

Save as disclosed in the section headed "Contractual Arrangements" of this report, during the Reporting Period, there was no other related party transaction or continuing related party transaction set out in Note 33 to the consolidated financial statements in this annual report which constitutes discloseable connected transaction or continuing connected transaction under the Listing Rules. In respect of the connected transactions and the continuing connected transactions, the Company has complied with the disclosure requirements of the Listing Rules (as amended from time to time).

CONTRACTUAL ARRANGEMENTS

Reasons for Entering into Contractual Arrangements

Foreign investment activities in the PRC are mainly governed by the Catalog and the Special Administrative Measures for Access of Foreign Investment (Negative List) (2024 Edition) (the “**Negative List**”, together with the Catalog, the “**Relevant PRC Regulations**”), promulgated and amended from time to time jointly by the Ministry of Commerce of the People’s Republic of China and the National Development and Reform Commission of the People’s Republic of China. Pursuant to the Relevant PRC Regulations, foreign investments in certain industries are subject to restriction or prohibition.

Below table sets out a summary of our businesses and the corresponding business sectors which are subject to foreign investment restriction or prohibition carried out by our PRC operating company under the Relevant PRC Regulations as confirmed by our PRC Legal Advisors:

Operating company of the Group	Description of business	Business sector under the Relevant PRC Regulations	Category under the Relevant PRC Regulations
Netjoy Network	Operating a pan entertainment-oriented content platform	Value-added telecommunications services	Restricted
	Planning and production of short video	Radio and TV programs production and operation services	Prohibited
Tradeplus	Planning and production of short video	Radio and TV programs production and operation services	Prohibited
	Operating a one-stop short video programmatic advertising and data management platform (the businesses carried out by Netjoy Network and Tradeplus are collectively referred to herein as the “ Relevant Businesses ”)	Value-added telecommunications services	Restricted

We also have minority interest in five companies through Netjoy Network and Tradeplus, namely Shanghai Buwei, Horgos Buwei Culture Media Co., Ltd. (霍爾果斯不維文化傳媒有限公司) ("**Horgos Buwei**") (the wholly-owned subsidiary of Shanghai Buwei), and Wuhan Juhaokan Network Technology Co., Ltd. (武漢劇好看網絡科技有限公司) ("**Wuhan Juhaokan**"), and Shaanxi Drama Gravity Culture Communication Co., Ltd. (陝西劇有引力文化傳播有限公司) ("**Shaanxi Drama Gravity**") (the wholly-owned subsidiary of Wuhan Juhaokan), and Shenzhen Jiusong Kunxin Investment Center (Limited Partnership) (深圳九頌坤信投資中心(有限合夥)) ("**Jiusong Kunxin**"), together with Shanghai Buwei and Horgos Buwei and Wuhan Juhaokan and Shaanxi Drama Gravity (the "**Relevant Entities**"). Our PRC Legal Advisors are of the view that the businesses carried on by the Relevant Entities are also subject to foreign investment prohibition or restriction under the Relevant PRC Regulations. The table below sets out the Group's equity interest in the Relevant Entities and their businesses and categories:

Name of entities	Equity interest held by the Group	Description of business	Business sector under the Relevant PRC Regulations	Category under the Relevant PRC Regulations
Shanghai Buwei	20% equity interests held by Netjoy Network	Planning, production and distribution of internet short videos	Radio and TV programs production and operation services	Prohibited

CONTRACTUAL ARRANGEMENTS (Continued)

Reasons for Entering into Contractual Arrangements (Continued)

In order to comply with PRC laws and regulations while availing ourselves of international capital markets and maintaining effective control over all of our business operations, we determined that it was not viable for the Company to hold Netjoy Network and Tradeplus directly through equity ownership. Instead, we decided that, in line with common practice in industries in the PRC subject to foreign investment restrictions, we would gain effective control over Netjoy Network and Tradeplus through the Contractual Arrangements.

Furthermore, as illustrated above, given the fact that the businesses carried on by the Relevant Entities are also subject to foreign investment prohibition or restriction under the current PRC laws and regulations, we determined that it was not viable for the Company to hold the minority interest in the Relevant Entities directly through equity ownership. Instead, we decided that, in line with common practice in industries in the PRC subject to foreign investment prohibition or restriction, we would hold the minority interest in the Relevant Entities through Netjoy Network and Tradeplus under the Contractual Arrangements.

We, through Yunxiang Information, entered into the Contractual Arrangements with the Registered Shareholders of Netjoy Network and the Netjoy Network on March 30, 2020, pursuant to which, Yunxiang Information has acquired effective control over the financial and operational policies of Netjoy Network and has become entitled to all the economic benefits derived from its operations.

We, through Yunxiang Information, entered into the Contractual Arrangements with the Registered Shareholders of Tradeplus and the Tradeplus on June 16, 2021, pursuant to which, Yunxiang Information has acquired effective control over the financial and operational policies of Tradeplus and has become entitled to all the economic benefits derived from its operations.

Given that the Consolidated Affiliated Entities have obtained the necessary radio and television program production license and value-added telecommunication business license for all our business operations, the Board believes that the Consolidated Affiliated Entities are of great significance to the Group.

CONTRACTUAL ARRANGEMENTS (Continued)

Summary of the Material Terms of Contractual Arrangements

(a) Exclusive Business Cooperation Agreements

Yunxiang Information entered into an exclusive business cooperation agreement with each of Netjoy Network and Tradeplus on March 30, 2020 and June 16, 2021, respectively (the “**Exclusive Business Cooperation Agreements**”), pursuant to which, in exchange for a service fee, Yunxiang Information agreed to provide Netjoy Network/Tradeplus with technical support, consultation and other services, including but not limited to:

- the use of any relevant intellectual property rights and software legally owned by the Yunxiang Information;
- development, maintenance and updating of software in respect of the Netjoy Network/Tradeplus business;
- design, installation, daily management, maintenance and updating of network systems, hardware and database;
- providing technical support and staff training services to relevant employees of Netjoy Network/Tradeplus;
- providing assistance in consultancy, collection and research of technology and market information (excluding market research business that wholly foreign owned enterprises are prohibited from conducting under the PRC laws);
- providing corporate management consultation;
- providing corporate strategy and development consultation;
- providing financial consultation and management services;
- providing business operation related information consultation;
- providing marketing and promotional services;
- providing customer order management and customer services;
- transfer, leasing and disposal of equipment or properties; and
- other relevant services requested by Netjoy Network/Tradeplus from time to time to the extent permitted under the PRC laws.

CONTRACTUAL ARRANGEMENTS (Continued)

Summary of the Material Terms of Contractual Arrangements (Continued)

(a) Exclusive Business Cooperation Agreements (Continued)

The service fee under the Exclusive Business Cooperation Agreements shall consist of 100% of the total consolidated profits of Netjoy Network/Tradeplus under IFRSs, after offset by any accumulated deficit in respect of the preceding financial year(s) (if any) and deducting relevant operating costs, expenses, taxes, statutory surplus reserves legally to be withdrawn and other statutory contributions. Notwithstanding the foregoing, Yunxiang Information may adjust the scope and amount of services fees according to PRC tax law and tax practices and with reference to the need of the working capital of Netjoy Network/Tradeplus, and Netjoy Network/Tradeplus will accept such adjustments.

(b) Exclusive Option Agreements

Yunxiang Information, with each of Netjoy Network and its Registered Shareholders and with each of Tradeplus and its Registered Shareholders entered into an exclusive option agreement on March 30, 2020 and June 16, 2021, respectively (the “**Exclusive Option Agreements**”), pursuant to which Yunxiang Information (or its designee(s)) was granted an irrevocable and exclusive right (the “**Exclusive Option Rights**”) to purchase from the Registered Shareholders all or any part of their equity interests in Netjoy Network/Tradeplus, at any time and from time to time, at the amount of the registered capital of Netjoy Network/Tradeplus multiply by the proportion of the purchased equity interests in the total equity interests of Netjoy Network/Tradeplus or a lowest price legally permissible under the applicable laws of PRC, in which case the purchase price shall be the lowest amount under such request. Upon receiving all the duly executed share transfer documents and approvals and after deducting necessary tax expenses, Yunxiang Information or its designee(s) shall pay the purchase price within 10 Business Days to the designated bank accounts of the Registered Shareholders. Subject to relevant PRC laws and regulations, the Registered Shareholders shall return any amount of the purchase price within 10 Business Days after they have received relevant remedies from Yunxiang Information or its designee(s). Upon receiving the notice issued by Yunxiang Information (or its designee(s)) to exercise their Exclusive Option Rights (the “**Notice**”), the Registered Shareholders of Netjoy Network and Netjoy Network or the Registered Shareholders of Tradeplus and Tradeplus, within 30 days, shall execute all other contracts, agreements or documents with relevant parties, and shall take all necessary actions to engage in, complete, or obtain the approval, filing, registration procedures and consent with regulatory authorities without any delay, so that the relevant equity interests in Netjoy Network/Tradeplus as set out in the Notice, without any security interest attached to them, can be effectively transferred to and registered under the name of Yunxiang Information (or its designee(s)).

(c) Equity Pledge Agreements

Yunxiang Information, with each of Netjoy Network and its Registered Shareholders and with each of Tradeplus and its Registered Shareholders entered into an equity pledge agreements on March 30, 2020 and June 16, 2021, respectively (the “**Equity Pledge Agreements**”), pursuant to which the Registered Shareholders agreed to pledge all of their respective equity interests in Netjoy Network/Tradeplus as the first sequence to guarantee the payment of the secured debts of, the performance of the obligations of, and the representations, undertakings, and warrants provided by, Netjoy Network and its Registered Shareholders and Tradeplus and its Registered Shareholders under the Contractual Arrangements.

CONTRACTUAL ARRANGEMENTS (Continued)

Summary of the Material Terms of Contractual Arrangements (Continued)

(d) Powers of Attorneys

Yunxiang Information, with each of Netjoy Network and its Registered Shareholders and with each of Tradeplus and its Registered Shareholders entered into a powers of attorneys on March 30, 2020 and June 16, 2021, respectively (the “**Powers of Attorneys**”), pursuant to which the Registered Shareholders unconditionally and irrevocably appoint Yunxiang Information or its designee(s) (including but not limited to directors of Yunxiang Information and the Company and their successors and liquidators replacing the directors but excluding those non-independent or who may give rise to conflict of interests) as their attorney – in-fact, to exercise on their behalf, pursuant to the instructions of Yunxiang Information, all the rights that they have as the shareholders of Netjoy Network/Tradeplus as set out in the then-valid articles of association of Netjoy Network/Tradeplus.

(e) Spouse Undertakings

The spouse of each of the individual Registered Shareholders, where applicable, has signed an undertaking (collectively, the “**Spouse Undertakings**”) to the effect that, among others, (i) the equity interests (together with any other interests therein) of Netjoy Network/Tradeplus held and to be held by each of the Registered Shareholders do not fall within the scope of communal properties; (ii) she unconditionally and irrevocably waives any rights or interests that may be granted to her under the applicable laws of any jurisdictions in respect of equity interests in Netjoy Network/Tradeplus, and she undertakes not to claim such rights or interests; (iii) no authorization or consent of her is required when performance, modification or termination of the Contractual Arrangements or execution of other documents in place of any agreements under the Contractual Arrangements; (iv) she will execute all necessary documents and take all necessary actions to ensure the appropriate performance of the Contractual Arrangements; (v) she will not, at any time, take any actions in conflict with the Spouse Undertakings and the Contractual Arrangements; and (vi) she will not take any actions to prevent the performances under the Contractual Arrangements in any circumstances, including but not limited to divorce of him or her with spouse.

(f) Confirmation from Registered Shareholders

Each of the individual Registered Shareholders undertakes to Yunxiang Information that, in the event of death, incapacity, divorce, or other circumstances regarding the Registered Shareholders which may affect the exercise of his direct or indirect equity interests (together with any other interests therein) in Netjoy Network/Tradeplus, the Registered Shareholder’s respective spouse, successor, custodian, creditor, and any other person/entity which may as a result of the above events claim rights or other benefits on the equity interests (together with any other interests therein) in Netjoy Network/Tradeplus directly or indirectly shall not prejudice or hinder the enforcement of the Contractual Arrangements.

CONTRACTUAL ARRANGEMENTS (Continued)

Summary of the Material Terms of Contractual Arrangements (Continued)

For further details of the Contractual Arrangements, please refer to the “Contractual Arrangements” section of the Prospectus.

Save as disclosed above, during the Reporting Period, the Group did not enter into, renew and/or reproduce other new contractual arrangements with the Consolidated Affiliated Entities. During the Reporting Period, there were no significant changes in the Contractual Arrangements and/or the circumstances under which the Contractual Arrangements were adopted.

During the Reporting Period, none of the Contractual Arrangements had been unwound on the basis that none of these restrictions that led to the adoption of the Contractual Arrangements had been removed. As of December 31, 2024, the Company did not encounter any interference or hindrance by any PRC regulatory authority when operating its business through the Consolidated Affiliated Entities according to the Contractual Arrangements.

Accounting Aspects of the Contractual Arrangements

As a result of the Exclusive Business Cooperation Agreement and the Exclusive Option Agreement, the Company has obtained control of the Consolidated Affiliated Entities through Yunxiang Information and, at the Company's sole discretion, can receive all of the economic interest returns generated by the Consolidated Affiliated Entities. Accordingly, the Consolidated Affiliated Entities' results of operations, assets and liabilities, and cash flows are consolidated into the Company's financial statements.

Qualification Requirements

On December 11, 2001, the State Council promulgated the Regulations for the Administration of Foreign-Invested Telecommunications Enterprises (《外商投資電信企業管理規定》) (the “**FITE Regulations**”), which were amended on September 10, 2008, February 6, 2016 and March 29, 2022. According to the FITE Regulations, foreign investors are not allowed to hold more than 50% of the equity interests in a company providing value-added telecommunications services, including ICP services. According to the FITE Regulations, foreign investors investing in value-added telecommunications business in the PRC must possess prior experience in operating value-added telecommunications businesses and a proven track record of business operations overseas with good performance (the “**Qualification Requirements**”).

CONTRACTUAL ARRANGEMENTS (Continued)

PRC Laws on Foreign Investment

The Foreign Investment Law (2019) was adopted at the Second Session of the Thirteenth National People's Congress of the PRC on March 15, 2019 and came into force on January 1, 2020 (the "**FIL 2019**"). The FIL 2019 is intended to replace the current foreign investment legal foundation in the PRC consisting of three laws: the Sino-Foreign Equity Joint Venture Enterprise Law (《中外合資經營企業法》), the Sino-Foreign Cooperative Joint Venture Enterprise Law (《中外合作經營企業法》) and the Wholly Foreign-Invested Enterprise Law (《外資企業法》).

Our PRC Legal Advisors are of the view that since Contractual Arrangements are not specified as "foreign investments" under the FIL 2019 and if there is no applicable law or regulation that explains "other means" of foreign investment under the FIL 2019, or if "other means" of foreign investment are specified under applicable laws or regulations not to include Contractual Arrangements, it is unlikely that our Contractual Arrangements will be deemed as "foreign investments" under the FIL 2019 and therefore (i) the Contractual Arrangements shall neither be subject to the "negative list" nor be regulated by relevant authorities in accordance with the requirements of the "negative list;" and (ii) the FIL 2019 would not apply to the Contractual Arrangements as it does not substantially change the principle of recognition and treatment of Contractual Arrangements as compared with the current PRC laws and regulations, and the legality and validity of the Contractual Arrangements would not be affected.

If the operation of our Relevant Businesses is not on the "negative list" and we can legally operate such businesses under PRC laws, Yunxiang Information will exercise the option under the Exclusive Option Agreement to acquire the equity interests of Netjoy Network and unwind the Contractual Arrangements subject to re-approval by the relevant authorities.

If the operation of our Relevant Businesses is on the "negative list", unless applicable laws or regulations define Contractual Arrangements are one of the "other means" of foreign investment, the probability that Contractual Arrangements will be deemed as "foreign investment" under the FIL 2019 and be regulated by relevant authorities in accordance with the requirements of the "negative list," which could result in the Contractual Arrangements being deemed as invalid or being required to meet the requirements of the "negative list", is low. In addition, considering that a number of existing entities are operating under Contractual Arrangements and some of which have obtained listing status abroad, our PRC Legal Advisors are of the view that the PRC government is likely to take a relatively cautious attitude towards the supervision of Contractual Arrangements and the enactment of laws and regulations impacting them, and will make decisions according to different situations in practice.

Implications under Listing Rules and Exemption from Stock Exchange

For the purpose of Chapter 14A of the Listing Rules, and in particular the definition of "connected person", the Consolidated Affiliated Entities will be treated as the Company's wholly-owned subsidiaries, but at the same time, the directors, chief executives or substantial shareholders of the Consolidated Affiliated Entities and their respective associates will be treated as connected persons of the Company (excluding, for this purpose, the Consolidated Affiliated Entities), and transactions between these connected persons and the Group (including, for this purpose, the Consolidated Affiliated Entities), other than those under the Contractual Arrangements, will be subject to requirements under Chapter 14A of the Listing Rules.

Since certain parties to the Contractual Arrangements (namely Mr. Wang, Mr. Xu, Mr. Qin, Mr. Dai and Kijiji) are the Registered Shareholders and connected persons of the Company, according to the Listing Rules, the transactions contemplated under the Contractual Arrangements constitute the continuing connected transactions of the Company.

Implications under Listing Rules and Exemption from Stock Exchange (Continued)

In respect of the Contractual Arrangements, we have applied for, and the Stock Exchange has granted, a waiver from strict compliance with the requirements of (i) the announcement, circular and independent Shareholders' approval under Chapter 14A of the Listing Rules in respect of the transactions contemplated under the Contractual Arrangements pursuant to Rule 14A.105 of the Listing Rules; (ii) setting an annual cap for the transactions under the Contractual Arrangements under Rule 14A.53 of the Listing Rules; and (iii) limiting the term of the Contractual Arrangements to three years or less under Rule 14A.52 of the Listing Rules, for so long as our Shares are listed on the Stock Exchange, subject, however, to the following conditions:

- (a) No change without independent non-executive Directors' approval;
- (b) No change without independent Shareholders' approval;
- (c) The Contractual Arrangements shall continue to enable the Group to receive the economic benefits derived by the Consolidated Affiliated Entities;
- (d) On the basis that the Contractual Arrangements provide an acceptable framework for the relationship between the Company and our subsidiaries in which the Company has direct shareholding, on one hand, and the Consolidated Affiliated Entities, on the other hand, that framework may be renewed and/or reproduced upon the expiry of the existing arrangements or in relation to any existing or new wholly foreign-owned enterprise or operating company (including branch company) engaging in the same business as that of the Group which the Group might wish to establish when justified by business expediency, without obtaining the approval of the Shareholders, on substantially the same terms and conditions as the existing Contractual Arrangements; and
- (e) We will disclose details relating to the Contractual Arrangements on an on-going basis.

CONTRACTUAL ARRANGEMENTS (Continued)

Annual Review by Independent Non-executive Directors and Auditor

During the Reporting Period, the independent non-executive Directors have reviewed the above Contractual Arrangements and confirmed that the Contractual Arrangements have:

- (i) been entered into in the usual and ordinary course of business of the Group;
- (ii) been conducted based on normal commercial terms or better; or been entered into based on the terms no less favorable to the Group than those available from or provided by independent third parties; and
- (iii) been carried out according to the agreements for related transactions with terms that are fair and reasonable and in line with the interests of the Shareholders as a whole.

During the Reporting Period, independent non-executive Directors have also reviewed the above Contractual Arrangements and confirmed that:

- (1) the transactions carried out during the Reporting Period have been entered into in accordance with the relevant provisions of the Contractual Arrangements;
- (2) no dividends or other distributions have been made by the Consolidated Affiliated Entities to the holders of its equity interests which are not otherwise subsequently assigned or transferred to the Group; and
- (3) any new contracts entered into, renewed or reproduced between the Group and the Consolidated Affiliated Entities during the Reporting Period are fair and reasonable, or advantageous to the Shareholders, so far as the Group is concerned and in the interests of the Company and the Shareholders as a whole.

The auditor of the Company carried out review procedures annually on the transactions carried out pursuant to the Contractual Arrangements in compliance with Hong Kong Standard on Assurance Engagements 3000 (Revised) "Assurance Engagements Other Than Audits or Reviews of Historical Financial Information" and with reference to Practice Note 740 "Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules" issued by the Hong Kong Institute of Certified Public Accountants, and provided a letter to the Directors that the transactions have received the approval of the Directors, have been entered into in accordance with the relevant Contractual Arrangements, and that no dividends or other distributions have been made by the Consolidated Affiliated Entities to the holders of its equity interests which are not otherwise subsequently assigned or transferred to the Group.

Risks relating to Contractual Arrangements and Measures Taken to Mitigate Such Risks

The following are some of the risks involved in Contractual Arrangements. For details, please refer to the section headed "Risk Factors" in the Prospectus.

- If the PRC government considers that the agreements that establish the structure for operating our businesses in the PRC do not comply with applicable PRC laws and regulations, or if these laws or regulations or their interpretations change in the future, we could be subject to severe consequences, including the nullification of the Contractual Arrangements and the relinquishment of our interest in the Consolidated Affiliated Entities.
- Our Contractual Arrangements may not be as effective in providing operational control as direct ownership. Netjoy Network and its shareholders and Tradeplus and its shareholders may fail to perform their obligations under our Contractual Arrangements.
- We may lose the ability to use, or otherwise benefit from, the licenses, approvals and assets held by the Consolidated Affiliated Entities that are material to our business operations if the Consolidated Affiliated Entities declare bankruptcy or become subject to a dissolution or liquidation proceeding.
- The shareholders of Netjoy Network/the shareholders of Tradeplus may have conflicts of interest with us, which may materially and adversely affect our business.
- If we exercise the option to acquire equity ownership of Netjoy Network/Tradeplus, the ownership transfer may subject us to certain limitations and substantial costs.
- Our Contractual Arrangements may be subject to scrutiny by the PRC tax authorities, and a finding that we owe additional taxes could substantially reduce our consolidated net income and the value of the Shareholders' investment.

CONTRACTUAL ARRANGEMENTS (Continued)

Risks relating to Contractual Arrangements and Measures Taken to Mitigate Such Risks (Continued)

The Group has adopted the following measures to ensure the effective operation of the Group with the implementation of the Contractual Arrangements and our compliance with the Contractual Arrangements:

- as part of the internal control measures, major issues arising from the implementation and compliance with the Contractual Arrangements or any regulatory enquiries from government authorities will be submitted to our Board, if necessary, for review and discussion on an occurrence basis;
- our Board, particularly our independent non-executive Directors, will review the overall performance of and compliance with the Contractual Arrangements at least once a year, and the confirmation from our independent non-executive Directors will be disclosed in our annual report;
- the Company will disclose the overall performance and compliance with the Contractual Arrangements in our annual reports and interim reports to update the Shareholders and potential investors;
- the Company and the Directors undertake to provide periodic updates in our annual and interim reports regarding (a) our plan and progress in acquiring the relevant experience to meet the Qualification Requirement, (b) our status of compliance with the FIL 2019, and (c) the latest regulatory development in relation with the FIL 2019;
- the Company will engage external legal advisors or other professional advisors, if necessary, to assist our Board to review the implementation of the Contractual Arrangements, review the legal compliance of Yunxiang Information and the Consolidated Affiliated Entities to deal with specific issues or matters arising from the Contractual Arrangements;
- the company seals, financial seals, contract seals and crucial corporate certificates of Netjoy Network/Tradeplus are kept by the Group's finance and legal departments, respectively. Any employee of the Group who wishes to use the seals will have to obtain internal approval from the head of the business, legal and/or finance department(s) (as the case may be) of the Group, as well as approval from relevant superior departments of the Company;
- because the Contractual Arrangements will constitute continuing connected transactions of the Group under the Listing Rules, the Company has applied to the Stock Exchange, and the Stock Exchange has granted a waiver. The Company will consistently comply with the conditions to be prescribed by the Stock Exchange under the waiver given; and

CONTRACTUAL ARRANGEMENTS (Continued)

Risks relating to Contractual Arrangements and Measures Taken to Mitigate Such Risks (Continued)

- our Board (including the independent non-executive Directors) will consistently ensure that Netjoy Network/Tradeplus shall retain and continue to hold all relevant intellectual properties, including trademarks, computer software, copyrights and domain names, required for the purpose of maintaining and renewing its operating licenses and permits as required by relevant PRC government authorities, and going forward and to the extent permissible under PRC laws and regulations, Yunxiang Information or any other legally held member of the Group shall be the registered owner of any other newly developed trademarks which will be material to the business of the Group.

The Group will adjust or unwind (as the case may be) the Contractual Arrangements as soon as practicable in respect of the operation of the Relevant Businesses to the extent permissible and we will directly hold the maximum percentage of ownership interests permissible under relevant PRC laws and regulations which allow the Relevant Businesses to be conducted and operated by owned subsidiaries of the Company without such arrangements in place.

Chairman of the Board

Shanghai • China, June 26, 2026

Corporate Governance Report

The Board is pleased to present this corporate governance report set out in this annual report of the Company for the year ended December 31, 2024.

CORPORATE GOVERNANCE PRACTICES

The Company has adopted the principles and all applicable code provisions of the Corporate Governance Code (the “**Corporate Governance Code**”) as set out in Appendix C1 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**Listing Rules**”) as its corporate governance practices.

Saved as for the deviations from the code provisions disclosed below, the Company has complied with all applicable code provisions of the Corporate Governance Code during the Reporting Period.

- (i) Code Provision B2.2 stipulates that every director (including those with a specified term of office) should be subject to retirement by rotation at least once every three years. The Company was unable to complete the retirement by rotation arrangement of the directors in accordance with the Company’s articles of association and the applicable code provisions as a result of the failure to convene the annual general meeting (the “**AGM**”) during the Reporting Period. The Company will arrange the retirement by rotation process of the directors as soon as possible after the resumption of the convening of the AGM to comply with the relevant code requirements.
- (ii) Code Provision D.1 requires an issuer to publish financial results and reports in a timely manner. Due to the delay in the Company’s audit and certain internal review procedures during the Reporting Period, the following items have been delayed: the announcements of the annual results for 2024, the interim results for 2025, the annual results for 2025, and the annual report for 2024, the interim report for 2025 and the annual report for 2025. The Company has taken measures to strengthen the financial reporting and information disclosure processes to ensure future compliance with the time requirements under the Listing Rules.
- (iii) Code Provision D.2 stipulates that the board of directors should be responsible for maintaining a sound and effective internal control and risk management system. During the Reporting Period, the Company noted uncertainties in the recovery of prepayments made to certain suppliers. In this regard, the Company has engaged an independent internal control consultant to conduct an Internal Control Review on the Company’s internal control procedures and identified certain areas for improvement in internal controls. Relevant details have been disclosed in the Company’s announcement dated June 22, 2026. The Company has taken and will continue to take rectification measures in response to the relevant findings and recommendations to strengthen the internal control system.

CORPORATE GOVERNANCE PRACTICES (Continued)

- (iv) Code Provision F.1 stipulates that the board of directors should be responsible for maintaining ongoing dialogue with shareholders, in particular, communicating with shareholders and encouraging their participation through formal meetings (including general meetings) and other appropriate channels under the issuer's shareholder communication policy. Although the Company did not convene the AGM during the Reporting Period, it has updated its Shareholders via announcements on the findings of the Independent Investigation, Internal Control Review, the progress on complying with the Stock Exchange's resumption guidance, and other material aspect of the company etc. In addition, the Company has kept its investor relations communication channels open to facilitate ongoing engagement with Shareholders. The Company will convene the AGM as soon as circumstances permit and ensure strict compliance with the relevant time requirements in the future.

Saved as disclosed above, during the year ended December 31, 2024, the Company has complied with the remaining applicable principles and code provisions of the Corporate Governance Code and has complied with the majority of the recommended best practice provisions set out in the Corporate Governance Code. The Company will continue to review and monitor its corporate governance practices to ensure compliance with the Corporate Governance Code.

CORPORATE CULTURE AND VALUES

The Board endeavors to promote a strong performance culture in the Group and continually reinforce the desire corporate culture which is aligned with the Group's purpose, values and strategy and promote the corporate culture throughout the Group.

BOARD

Responsibilities

The Board is responsible for the overall leadership of the Group, oversees the Group's strategic decisions and monitors business and performance. The Board has delegated the authority and responsibility for day-to-day management and operation of the Group to the senior management of the Group. To oversee particular aspects of the Company's affairs, the Board has established three Board committees, including the Audit Committee, the Nomination Committee and the Remuneration Committee (collectively, the "**Board Committees**"). The Board Committees should seek independent professional advice to perform their responsibilities at the Company's expense, if necessary. The Company is provided the sufficient resources to the Board Committees to perform their duties. The Board has delegated to the Board Committees responsibilities as set out in their respective terms of reference, which are available for inspection on the websites of the Company and the Stock Exchange.

All Directors shall ensure that they carry out their duties in good faith, in compliance with applicable laws and regulations, and in the interests of the Company and its Shareholders at all times.

The Company has arranged appropriate insurance coverage in respect of liability arising from legal action against its Directors, and will conduct annual review on such insurance coverage.

COMPOSITION OF THE BOARD

During the Reporting Period, the Board comprises three executive Directors, three non-executive Directors and three independent non-executive Directors. As of the date of this Report, the Board comprises one executive Director, two non-executive Directors and three independent non-executive Directors as detailed below:

Executive Directors:

Mr. Xu Jiaqing (*Chairman*)

Mr. Wang Chen (*Resigned as executive Director and Chief Executive Officer on July 30, 2025*)

Ms. Zha Lijun (*Resigned as executive Director on January 23, 2026*)

Non-executive Directors:

Mr. Dai Liquan

Mr. Wang Jianshuo

Mr. Lin Qian (*Resigned as Chief Financial Officer on October 15, 2024, re-designated as a non-executive Director on November 19, 2024, resigned as a non-executive Director on January 17, 2025*)

Independent Non-executive Directors:

Mr. Chen Changhua

Dr. Ru Liyun

Ms. Cui Wen

The biographies of the Directors are set out in section headed “Directors and Senior Management” in this annual report.

For the year ended December 31, 2024, the Board has met the requirements at all times, of Rules 3.10(1) and 3.10(2) of the Listing Rules relating to the appointment of at least three independent non-executive Directors with at least one independent non-executive Director possessing appropriate professional qualifications or accounting or related financial management expertise.

The Company has also complied with Rule 3.10A of the Listing Rules, which relates to the appointment of independent non-executive Directors representing at least one-third of the Board. Each of the independent non-executive Directors has confirmed his/her independence during the year ended December 31, 2024 pursuant to Rule 3.13 of the Listing Rules and the Company considers each of them to be independent.

The Company has adopted a board diversity policy which sets out the approach to achieve and maintain an appropriate balance of perspectives of our Board that are relevant to our business growth. Selection of candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. The ultimate decision will be based on merits and contributions that the selected candidates will bring to the Board. Details of the board diversity policy are available on the website of the Company.

COMPOSITION OF THE BOARD (Continued)

The Directors have a balanced mix of knowledge and skills, including overall management and strategic development, product operation, accounting and financial management, information technology and human resources. They obtained degrees in various majors, including in science and engineering, printing technology, Chinese language and literature, computer science and technology, marketing, and economics. Three independent non-executive Directors have different industry backgrounds, representing at least one-third of the Board. In addition, our Board has a wide range of age, ranging from 38 years old to 63 years old. We have also taken and will continue to take steps to promote gender diversity at all levels of the Company, including but without limitation at the Board and senior management levels. During the Reporting Period, the male to female ratio (including senior management, excluding interns) of the Group is approximately 115:201. The Group targets to enhance the gender equality and continues review and monitor the gender ratio and make the relevant adjustment if necessary to reflect further business development. Taking into account our existing business mode and specific needs as well as the different background of the Directors, we are of the view that the composition of our Board satisfies the Company's board diversity policy. During the Reporting Period, the Board has reviewed the implementation of the Company's board diversity policy and its continued effectiveness.

The Company has established a mechanism to ensure that, after making a request to the Board, each Director can generally seek independent professional advice, opinions and viewpoints under appropriate circumstances, and the expenses shall be borne by the Company. The mechanism covers composition of the Board and its specialized committees; independence assessment; compensation; Board decision making; and review of the policy implementation. The Board has adopted the policy that Directors can seek independent professional advice, and will review the implementation and effectiveness of the mechanism every year. During the Reporting Period, the Board has reviewed the implementation of the mechanism and confirmed that it is still valid.

The Company has reviewed the members, structure and composition of the Board, and believes that the structure of the Board is reasonable, and the Directors possess experience and skills in various aspects and fields, which can enable the Company to maintain operation at a high standard.

Since each of the independent non-executive Directors has confirmed his/her independence during the year ended December 31, 2024 pursuant to Rule 3.13 of the Listing Rules, the Company considers each of them to be independent. The Chairman meets with independent non-executive Directors at least once a year.

Save as disclosed in the biographies of the Directors as set out in the section headed "Directors and Senior Management" of this annual report, none of the Directors has any personal relationship (including financial, business, family or other material/relevant relationship) with any other Directors or any chief executive officer.

All Directors, including independent non-executive Directors, have brought a wide spectrum of valuable business experience, knowledge, and expertise to the Board for its efficient and effective functioning. Independent non-executive Directors are invited to serve on the Board Committees including Audit Committee, Remuneration Committee and Nomination Committee.

As regards to the code provisions under the Corporate Governance Code requiring the Directors to disclose the number and nature of offices held in public companies or organizations and other significant commitments as well as their identity and the time involved to the issuer, the Directors have agreed to disclose their commitments to the Company in a timely manner.

INDUCTION AND CONTINUOUS PROFESSIONAL DEVELOPMENT

All newly appointed Directors would be provided with necessary induction and information to ensure that they have a proper understanding of the Company's operations and businesses as well as their responsibilities under relevant statutes, laws, rules, and regulations. The Company also arranges regular seminars to provide the Directors with updates on latest development and changes in the Listing Rules and other relevant legal and regulatory requirements from time to time. The Directors are also provided with regular updates on the Company's performance, position, and prospects to enable the Board as a whole and each Director to discharge their duties.

The Company encourages continuous professional development training for all the Directors to develop and refresh their knowledge and skills. The company secretary of the Company update and provide the Directors with written training materials in relation to their roles, functions, and duties from time to time.

Based on the information provided by the Directors, a summary of the trainings received by the Directors during the year ended December 31, 2024 is as follows:

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Under Code Provision C.2.1 of the Corporate Governance Code, the roles of chairman of the Board and chief executive officer should be separate and should not be performed by the same individual. In 2024, Mr. Xu Jiaqing is the chairman of the Board, Mr. Wang Chen is the Chief Executive Officer, and the two different positions are clearly defined by their respective functions. The chairman is responsible for providing strategic recommendations and advice in respect of the Group's development, while the Chief Executive Officer is responsible for the day-to-day operations of the Group. Mr. Wang Chen resigned as the executive Director and the Chief Executive Officer of the Company with effect from July 30, 2025. The Company is looking for a suitable candidate for the role of Chief Executive Officer. For details, please refer to the announcement dated July 30, 2025.

APPOINTMENT AND RE-ELECTION OF DIRECTORS

Each of Mr. Xu and Mr. Wang, being the executive Directors, has entered into a service contract with the Company on November 17, 2020. Each service contract is for an initial term of three years commencing from the Listing Date and automatically renewed after the expiration, and can be terminated by either party with not less than one month's written notice or according to the terms of the service contracts. The service contracts may be renewed in accordance with the Articles and the applicable laws, rules and regulations. Mr. Wang terminated his service contract on July 30, 2025.

Both of Ms. Zha Lijun, being the executive Director and Mr. Lin Qian, being the non-executive Director entered into service contracts with the Company on March 31, 2022. Each service contract is for an initial term of three years commencing from March 31, 2022 and automatically renewed after the expiration, and can be terminated by either party with not less than one month's written notice or according to the terms of the service contracts. The service contracts may be renewed in accordance with the Articles and the applicable laws, rules and regulations. Mr. Lin Qian terminated his service contract on January 17, 2025. Ms. Zha Lijun terminated her service contract on January 23, 2026.

Each letter of appointment is for an initial term of three years commencing from the Listing Date and automatically renewed after the expiration, and can be terminated by either party with not less than one month's written notice or according to the terms of the letter of appointment. The letters of appointment may be renewed in accordance with the Articles and the applicable laws, rules and regulations.

APPOINTMENT AND RE-ELECTION OF DIRECTORS (Continued)

None of the Directors has entered into any service contract with the Company or any member of the Group which is not terminable by the Group within one year without compensation (except for statutory compensation).

According to the Articles 109(a), at each AGM, one-third of the Directors for the time being, or, if their number is not three or a multiple of three, then the number nearest to but not less than one-third, shall retire from office by rotation, provided that every Director (including those appointed for a specific term) shall be subject to retirement by rotation at least once every three years. A retiring Director shall be eligible for re-election. The Company at the general meeting at which a Director retires may fill the vacated office.

The procedures and process of appointment, re-election, and removal of Directors are set out in the Articles of Association. The Nomination Committee is responsible for reviewing the Board composition, and for making recommendations and advices to the Directors on the appointment, re-election, and succession planning of Directors.

BOARD MEETINGS

The Company adopts the practice of holding Board meetings regularly, at least four times a year, and at approximately quarterly intervals. Notices of no less than fourteen days are given for all regular Board meetings to provide all Directors with an opportunity to attend and include matters in the agenda for a regular meeting.

For other Board meetings and Board Committee meetings, reasonable notice is generally given by the Company. The agenda and accompanying Board papers are dispatched at least three days before the Board meetings or Board Committee meetings to ensure that the Directors have sufficient time to review the papers and be adequately prepared for the meetings. When the Directors or committee members are unable to attend a meeting, they will be advised of the matters to be discussed and given an opportunity to make their views known to the Chairman prior to the meeting. Minutes of meetings shall be kept by the company secretaries with copies circulated to all Directors for information and records.

Minutes of the Board meetings and Board Committee meetings are recorded in sufficient detail on the matters considered by the Board and the Board Committees and the decisions reached, including any concerns raised by the Directors. Draft minutes of each Board meeting and Board Committee meeting are/will be sent to the Directors for comments within a reasonable time after the date on which the meeting is held. The minutes of the Board meetings are open for inspection by all Directors.

BOARD MEETINGS (Continued)

During the year ended December 31, 2024, the Chairman of the Board of Directors held two meetings with the independent non-executive Directors, and no other executive Directors attended these meetings.

During the Reporting Period, the Board held four Board meetings and one Shareholders' meeting. The attendance of each Director at Board meetings and Shareholders' meeting are as follows:

MODEL CODE FOR SECURITIES TRANSACTIONS

The Group has adopted the Model Code as its code of conduct regarding the securities transactions by Directors and relevant employees (as defined in the Model Code). Specific enquiry has been made to all the Directors, and each of the Directors has confirmed that he/she has strictly complied with the required standards as set out in the Model Code during the Reporting Period.

DELEGATION BY THE BOARD

The Board reserves for its decision on all major matters of the Company, including: approval and monitoring of all policy matters, overall strategies and budgets, internal control and risk management systems, material transactions (in particular those that may involve conflict of interests), financial information, appointment of Directors, and other significant financial and operational matters. The Directors could have recourse to seek independent professional advice in performing their duties at the Company's expense. The Directors are encouraged to access and to consult with the Company's senior management independently.

The daily management, administration, and operation of the Group are delegated to the senior management. The delegated functions and responsibilities are periodically reviewed by the Board. Approval has to be obtained from the Board prior to any significant transactions entered into by the management.

 - (c) Qualifications, including accomplishment and experience in the relevant industries in which the Group's business is involved;
 - (d) Independence of the candidates for a position of independent non-executive Director;
 - (e) Reputation for integrity;
 - (f) Potential contributions that the individual can bring to the Board; and
 - (g) Plan(s) in place for the orderly succession of the Board.
- iii. The Nomination Committee may adopt any process it considers appropriate in evaluating the suitability of the candidates, such as interviews, background checks, presentations and third party reference checks;
- iv. The Nomination Committee will consider a broad range of candidates who are in and outside of the Board's circle of contacts;
- v. Upon considering a candidate suitable for the directorship, the Nomination Committee will hold a meeting and/or by way of written resolutions to, if thought fit, approve the recommendation to the Board for appointment;
- vi. The Nomination Committee will provide the relevant information of the selected candidate to the Remuneration Committee for consideration of the remuneration package of such selected candidate;
- vii. The Nomination Committee will thereafter make the recommendation to the Board in relation to the proposed appointment, and the Remuneration Committee will make the recommendation to the Board on the policy and structure for the remuneration;

DIRECTION NOMINATION POLICY (Continued)

- viii. The Board may arrange for the selected candidate to be interviewed by the members of the Board, who are not members of the Nomination Committee and the Board will thereafter deliberate and decide the appointment as the case may be; and
- ix. All appointment of Directors will be confirmed by the filing of the consent to act as Director of the relevant Director (or any other similar filings requiring the relevant Director to acknowledge or accept the appointment as Director, as the case may be) to be filed with the relevant regulatory authorities, if required.

DIRECTORS' RESPONSIBILITIES FOR FINANCIAL REPORTING IN RESPECT OF FINANCIAL STATEMENTS

The Directors acknowledge their responsibility for preparing the audited consolidated financial statements of the Company for the Reporting Period which give a true and fair view of the affairs of the Company and the Group and of the Group's results and cash flows.

The management has provided to the Board such explanation and information as are necessary to enable the Board to carry out an informed assessment of the Company's audited consolidated financial statements, which are put to the Board for approval. The Company has provided all members of the Board with monthly updates on the Company's performance and prospects.

The Directors were not aware of any material uncertainties relating to events or conditions which may cast significant doubt upon the Group's ability to continue as a going concern.

The statement by the auditors regarding their reporting responsibilities on the audited consolidated financial statements of the Company is set out in the Independent Auditor's Report on pages 141 to 146 of this annual Report.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board acknowledges that it is responsible for the risk management and internal control systems and reviewing their effectiveness on an annual basis. Such systems are designed to manage, rather than eliminate, the risk of failing to achieve business objectives, and can only provide reasonable, rather than absolute, assurance against material misstatements or losses.

The Board is fully responsible for evaluating and determining the nature and degree of risks that the Company is willing to take to achieve its strategic objectives, and establishing and maintaining an appropriate and effective risk management and internal control system.

The Audit Committee assists the Board in leading the management, and supervises the design, implementation and supervision of the risk management and internal control system.

The Company has formulated and adopted certain risk management procedures and guidelines within the defined authority, including policies and procedures that it is considered appropriate for the Company's business operations. In particular, the Company has adopted and implemented risk management policies in business operations such as financial reporting, information systems, regulatory compliance and human resources.

The Company has an internal audit function which aims at helping the Company to accomplish its objectives by continually evaluate and improve the effectiveness of the Group's risk management and internal control systems. In addition, for the year ended December 31, 2024, the Company has engaged an external professional institution, which was independent from the daily operation of the Group, to assist the Audit Committee in internal audit of the Group by evaluating the risk management and internal control systems through interviews, walk-through tests and operational effectiveness tests.

Through the review conducted by the Audit Committee, the Board has reviewed the effectiveness of the Group's financial reporting system, risk management system and internal control system for the year ended December 31, 2024. The scope of the review covers all major aspects, including the adequacy of resources for accounting, internal audit and financial reporting functions, staff qualifications and experience, training plan and budget.

In 2026, the Company set up a dedicated internal control and internal audit department (previously, the internal audit function was undertaken jointly by the legal and financial departments), which are responsible for the implementation and continuous review of risk management and internal control system to ensure the effective operation of the internal control system.

RISK MANAGEMENT AND INTERNAL CONTROL (Continued)

In view of the internal control deficiencies identified in the Independent Investigation, the Board has instructed the management to take immediate and comprehensive remedial measures, including completely terminating relevant high-risk businesses, reorganizing the responsibilities and authorizations of relevant personnel, strengthening independent risk monitoring functions, revising and refining payment and credit approval procedures. Furthermore, the Company has engaged the Internal Control Consultant to conduct a thorough review of the Group's internal controls to identify any deficiencies and to make recommendations to improve the Group's internal controls. For details, please refer to the announcements of the Company dated April 2, 2026 and June 22, 2026. The Group has implemented the rectification recommendations made by the Internal Control Consultant who is currently conducting the Follow-up Review. The Group will strengthen continuous supervision and compliance training to enhance the effectiveness of internal control design and implementation. The Board will continuously review the effectiveness of relevant improvement measures, and believes that, upon full implementation of the rectification measures, the risk management and internal control systems of the Group have been significantly enhanced in identifying, managing and mitigating the risks faced by the Group's business operations.

For the principal risks faced by the Group, please refer to the section "Principal Risks and Uncertainties" under "Directors' Report".

Consistency: The preparation methodology of this ESG Report is broadly consistent with that of the previous year. Any changes in disclosure scope or calculation methods have been explained to ensure data comparability during the Reporting Period.

CHAIRMAN'S SPEECH

On behalf of the Board, I am pleased to present the environmental, social and governance report of Netjoy Holdings Limited ("**Netjoy**" or "**the Company**" and its subsidiaries collectively referred to as "**the Group**").

As the leading intelligent marketing industry platform in China, Netjoy always regards sustainable development as an important part of the core competitiveness of enterprises. We firmly believe that technological innovation not only drives business growth, but also is the key engine to promote green and low-carbon transformation and realize social value. The Board bears the ultimate responsibility for the Group's environmental, social and governance strategies and reports. We continue to optimize the three-tier governance structure of the Board, the Environmental, Social and Governance Working Group and Functional Departments to ensure that substantive issues such as climate risk, data security and artificial intelligence ethics are deeply integrated into daily operations and long-term strategic decisions, and accurately respond to the expectations of the capital market and all sectors of society for sustainable development.

Looking back on the past year, the Group actively exerted the technological advantages driven by big data and artificial intelligence, and achieved remarkable results in promoting green operation, protecting customer privacy, building a diversified workplace and practicing social welfare. The Group comprehensively optimized the computing power allocation of cloud servers and office energy-saving measures, and actively promoted the paperless office process. In terms of talent development, we regard employees as our most valuable assets, and strive to create an equal and inclusive workplace environment. This year, we have continuously increased the total hours for all employees to receive environmental, social and governance and professional skills training. In terms of social dimension, we adhere to the people-oriented principle, strictly implement safety production and occupational health protection, and promise to maintain the index of major safety accidents with zero work-related deaths in the future. The Group strives to promote equality in the workplace. Meanwhile, in the face of the new wave of green transformation of global digital economy, the Group will persist in striving for stability and practice green and low-carbon operation with practical actions.

It is advisable to be open-minded when the scenery is long. Netjoy technology will continue to uphold the initial intention of science and technology to be good, and take into account environmental and social benefits while pursuing economic benefits. Here, I sincerely thank the Board, management, all staff and shareholders and partners for their trust. Let's go hand in hand to create a more digital, green and beautiful sustainable future.

Xu Jiaqing

Chairman of the Board

BOARD STATEMENT AND ESG GOVERNANCE STRUCTURE

BOARD STATEMENT AND ESG GOVERNANCE STRUCTURE

While striving to create value for shareholders, the Group is also committed to fulfilling its corporate social responsibility. We regard ESG commitments as part of our corporate social responsibility and are dedicated to integrating ESG considerations into our decision-making process. To achieve this goal, we have established a core governance framework to ensure that ESG aligns our strategic development, while also promoting the integration of ESG into our business operations. This ESG framework is structured into the Board and the ESG working group.

The Board holds ultimate oversight responsibility for the Group's ESG matters, including its ESG approach, strategies and policies. To effectively manage the Group's ESG performance and identify potential risks, the Board, with the assistance of the ESG Working Group, conducts regular materiality assessments. These assessments incorporate the perspectives of different shareholders and help to evaluating prioritise key ESG-related issues.

The Board confirms that it has reviewed and approved this Report. To the best of its knowledge, this Report fairly presents the identified major issues and discloses the Group's ESG management approach and performance.

ESG WORKING GROUP

Under the leadership of the Board, ESG initiatives are carried out by a designated Working Groups composed of core personnel from different departments to promote the supervision of the Board on ESG affairs. During the Reporting Period, the Working Group undertook all aspects of ESG-related responsibilities, including providing the Board with a comprehensive briefing on ESG goals, strategies and initiatives. The Group also collects and analyses ESG data, monitors and evaluates the Group's ESG performance, and actively assists in the preparation of ESG Report.

The ESG Working Group also holds regular meetings to assess the effectiveness of existing policies and procedures and formulate appropriate solutions to improve the overall performance of ESG policies. During these meetings, the ESG Working Group discusses current plans, mitigates potential risks, and strives to minimise disruptions to business operations. The ESG Working Group reports regularly to the Board of Directors to evaluate the implementation and effectiveness of the internal control mechanism and review the progress of the established objectives and indicators. It will also participate in enterprise risk management to help assess and identify the Group's ESG risks and opportunities.

FUNCTIONAL DEPARTMENTS

Functional departments are responsible for implementing ESG-related measures to ensure the Company makes progress in sustainable development. Their responsibilities include formulating and executing relevant policies, monitoring and evaluating the effectiveness of ESG initiatives, and regularly reporting the progress to the ESG Working Group.

STAKEHOLDER PARTICIPATION

We place great importance on our stakeholders and actively seek their feedback on the Group's business and ESG aspects. To understand their concerns and opinions in these areas, we engage in regular communication with stakeholders. Our key stakeholders are crucial to our policy development, including but not limited to shareholders and investors, customers, employees, suppliers, community and non-governmental organisations, the media and the public, as well as the government and regulatory agencies.

IMPORTANT CATEGORY EVALUATION

Through ongoing communication with stakeholders, the Group gains valuable insight into their expectations and concerns. The identification and evaluation of material topics for 2024 are guided by the global sustainability agenda, international best practices, the Group's operational risks and strategies, as well as stakeholder input. The Group actively engaged with key ESG issues, ensuring that all material aspects are thoroughly considered. Based on the ESG topics identified, a materiality assessment questionnaire was developed to capture stakeholder perspectives and feedback. The findings have been analyzed and are presented in a materiality matrix summarising the Group's key ESG issues for the Reporting Period:

GREEN AND LOW-CARBON, CREATING THE BEAUTY OF GREEN WATER AND GREEN MOUNTAINS

Netjoy upholds the concept of green development, actively responds to the national dual-carbon goals and the energy transition trends, and is fully committed to the comprehensive implementation of its Green Action Plan. We continuously strive to reduce the negative environmental impact of our production and operations, are dedicated to bringing environmental benefits to the value chain and fully fulfill our corporate environmental responsibilities. By collaborating with diverse stakeholders, we aim to foster a greener environment and inject fresh momentum into the preservation of clear waters and green mountains.

We recognise that our business operations may have different degrees of environmental impact. The Group endeavors to protect the environment by implementing control activities and monitoring measures in its business activities and workplaces. We are committed to promoting a green environment by adopting environmentally friendly business practices, educating employees to raise their environmental awareness, and complying with relevant environmental laws and regulations.

Greenhouse Gas (“GHG”) Emission

GHG Emissions are widely recognized as one of the main contributors to climate change and global warming. The Group’s GHG emissions primarily originate from the purchased electricity (Scope 2) and the business trips (Scope 3).

GHG emission types ¹	Unit	2024	2023
Direct GHG Emissions (Scope 1)	tCO ₂ e	0	0
Indirect GHG Emissions (Scope 2)	tCO ₂ e	371.88	338.23
Other Indirect GHG Emissions (Scope 3) – Business Travel	tCO ₂ e	467.77	87.05
Total GHG Emissions	tCO ₂ e	839.65	425.28
Intensity²	tCO ₂ e/Employee	2.66	1.21

Notes:

- GHG emission data is presented in terms of carbon dioxide equivalent and are based on, but not limited to, “The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standards” issued by the World Resources Institute and the World Business Council for Sustainable Development, “How to prepare an ESG Report – Appendix II: Reporting Guidance on Environmental KPIs” issued by the HKEX, the latest released average carbon dioxide emission factor for national electricity in China, published by the Ministry of Ecology and Environment on December 2024.
- As of December 31, 2024, the total number of employees in the Reporting Scope was 316 (as of December 31, 2023: 351). This data is also used for other intensity calculations.

Sewage Discharge

Due to the nature of our business, the Group does not consume a lot of water in our daily operations. Details on water consumption and related conservation measures are provided in the “Water Resource Management” section.

Waste Management

The Group continues to uphold the concept of green operations and strives to minimise resource consumption. In our daily operations, we consistently adheres to the 4R principles: Reduction, Reuse, Recycle and Recovery, aiming to reduce resource waste at the source and optimise the use of resources and materials.

Hazardous Wastes

The main hazardous waste generated by the Group’s operations include ink cartridges, used batteries, fluorescent tubes and used electronic products. To ensure proper disposal of these hazardous materials, we entrust their collection and recycling to professional service providers and property management companies. Given the limited amount of hazardous wastes produced and the Group’s assessment that their environmental impact is minimal, we have decided related data. We will continue to implement environmental protection measures to minimise the environment impact of our operations, and remain committed to building a more sustainable corporate environment.

Waste Management (Continued)

Non-hazardous Wastes

We have established internal waste management guidelines to ensure that all wastes are properly collected and handled by licensed contractors in compliance with local laws and regulations. These guidelines clearly define the personnel responsible and their respective duties, and provide detailed procedures for the collection, storage and disposal of waste.

Our non-hazardous waste includes general waste, paper, glass bottles and plastics. We manage and dispose of these waste materials in accordance with the 4R principles. Our Group fully comply with all relevant environmental laws and regulations, ensuring responsible waste handling throughout our operations.

Summary of Non-Hazardous Waste generation:

Indicators	Unit	2024	2023*
– Paper	Tonnes	2.44	1.71
Total	Tonnes	2.44	1.71
Intensity	Tonnes/employee	0.008	0.005

* The calculation method of paper usage was changed from “usage estimation” to “paper purchase” to improve the accuracy and traceability of data. The relevant data for fiscal year 2023 have been recalculated according to the new method.

For non-recyclable waste, we transport it to the designated waste transfer station to ensure proper handling and prevent environmental pollution. This ensures that our waste management processes complies with established regulations and standards.

In line with our commitment to sustainable development, we prioritise the creation of a green office environment. Our office is equipped with appropriate waste sorting facilities to promote source separation.

The Group has adopted the following waste reduction measures:

- Use double-sided printing;
- Place a wastepaper recycling bin next to the printer;
- Share information via communication devices to reduce paper printing;
- Reduce disposable items (such as stationery, paper towels, paper cups, etc.); and
- Collect recyclable waste and process it for recycling.

A2. Resource Use

The Group is dedicated to implementing effective resource management strategies that enhance energy efficiency and reduce the use of unessential materials. Our policies are designed to strictly control the use of resources, ensuring their responsible and efficient use. We also focus on managing high energy consuming equipment by standardizing operating procedures to ensure optimal performance.

Energy Management

In our daily operations, the Group's main energy consumption comes from the electricity used in offices. To address this, we have established a comprehensive office management guidelines and implemented energy-saving measures (《云想科技控股有限公司職場管理制度V2.0》). We also committed to enhancing employees' environmental awareness and effectively managing energy consumption in daily operations, aiming to reduce greenhouse gas emission throughout the operation process. During the Reporting Period, we continued to advance green office initiatives and implemented several energy-saving measures to minimise energy consumption during the Company's operation.

These measures and initiatives include the following:

- Promote environmental awareness among employees by displaying posters around the office;
- Encourage employees to turn off unused equipment, such as computers and lights, when they are not in use or after work;
- Set the air conditioner to 26°C during summer and 20°C in winter to maintain a comfortable indoor temperature;
- Install energy-efficient lighting in office areas, such as LED tubes and energy-saving bulbs, to reduce electricity consumption;
- Replace all office appliances with energy-efficient models certified by the China Energy Label, including air conditioners, water dispensers, and other key equipment;
- Choose eco-friendly batteries and use FSC-certified paper to support sustainable practices;
- Encourage employees to commute via public transit; and
- Promote paperless office practices and encourage the use of video conferencing to reduce unnecessary business travel.

Water Resource Management

The Group's water is mainly used for domestic water in office operations. Recognising the world spread global issue of water scarcity, we actively implement strategies to address this critical concern. We advocate a culture of water conservation among our employees and have adopted a range of measures to reduce water consumption. The following are the water-saving measures we have developed:

- Strengthen the inspection and maintenance of faucets, and promote repair any leaks to prevent water waste;
- Place 'Conserve Water' posters in visible spots to promote greater awareness about water usage; and
- Adopt water-saving devices to reduce water consumption.

Intensity	m ³ /employee	16.32	14.52

Usage of Packaging Materials

Due to the nature of our business, we do not consume any package materials.

A3. The Environment and Natural Resources

The Group is committed to minimising the adverse environment impact of our business operations. Although our business activities are not expected to have a significant effect on the environment and natural resources, the Group remains vigilant and carefully assesses any potential environmental risks arising from our operations.

GREEN AND LOW-CARBON, CREATING THE BEAUTY OF GREEN WATER AND GREEN MOUNTAINS (Continued)

A4. Climate Change

Greenhouse Gas Emissions are widely recognized as a major contributor to climate change and global warming, significantly impacting different regions and industries worldwide. Acknowledging the urgency of the climate crisis, governments globally have intensified their efforts to address it. Notably, China has announced its goal of achieving carbon neutrality by 2060, while Hong Kong has committed to achieving net-zero carbon emissions by 2050. In response to this urgent call for action, companies must actively participate in solutions by managing both physical and transitional risks. We have incorporated climate change-related risks into our enterprise risk management framework.

Climate risks and opportunities		Potential impact	Mitigation strategy
Entity risk	The frequency and severity of extreme weather events such as severe typhoon rainfall and extreme temperature have increased.	- Due to extreme weather events, the passenger flow is reduced and the project is postponed, resulting in a decrease in revenue. - Increased capital expenditure for implementing the required mitigation measures. - Health and safety incidents lead to increased operating costs. - Due to the continuous exposure to climate risks, the value of assets has declined.	- Improve the flood control standard of buildings; Establish a multi-element microgrid combining green energy and energy storage to ensure power supply is safe when external power is cut off; Deploy off-site backup and cloud backup to ensure instant service switching and uninterrupted operation in case of disaster. - Conduct climate risk assessment and incorporate climate-adaptive design into new projects. - Promote the use of energy-saving systems.

A4. Climate Change (Continued)

Climate risks and opportunities		Potential impact	Mitigation strategy
Transformation risk	Stricter requirements and regulations on energy efficiency and green standards	- Capital expenditure for purchasing energy-saving equipment has increased. - The risk of not complying with the requirements of green standards increases.	Commitment to the government's plan to implement energy-saving measures and purchase energy-saving equipment.
	Strengthen the implementation and application of technology	Capital expenditure on new technology procurement and research and development increased.	Find and introduce technology applications.
	Increased expectations of stakeholders (including banks and investors)	- Long-term opportunities to adopt technology to improve efficiency and brand. - Due to the lack of climate risk management and disclosure, it may have a negative impact on stock prices and investor demand. - It is possible to reduce the cost of capital through green finance.	- Include disclosure of climate risks and opportunities in sustainable development reports. - Actively attract stakeholders such as government authorities, non-governmental organizations and professional organizations to understand their expectations for key sustainable development areas such as climate change.

B1. Employment

The Group is committed to being an employer of choice by prioritising the well-being of its employees. Following a people-oriented approach, we respect and protect the legal rights of all employees, standardise labour and employment management, and ensure occupational health and safety.

To attract and retain talent, we provide all candidates with equal opportunities. Our fair recruitment practices are performance-based and free from any form of unconscious bias. Capability, educational background, actual job requirements, functional knowledge, and language skills are considered key recruitment criteria. The hiring process is transparent, inclusive, and welcoming.

Working Hours and Holidays

Our Group clearly outlines working days and hours in the Employee Handbook and opposes any form of forced labor. Standard positions follow an eight-hour workday and five-day workweek; some management personnel adopt flexible working hours. We promote productivity and discourage unnecessary overtime. If extended work hours or work on rest days or public holidays are needed due to business demands or special circumstances, it must be mutually agreed upon and approved by management. Compensation or time off in lieu will be provided in accordance with relevant labor regulations.

In addition to annual leave, we offer a range of paid holidays such as statutory holidays, marriage leave, maternity leave, paternity leave, and compassionate leave. All attendance, leave, and benefit policies are clearly detailed in employment contracts.

Equal Opportunities, Diversity and Anti-discrimination

The Group is committed to strictly complying with national laws and regulations. We uphold a fair, just and transparent recruitment process and have established policies to prevent discrimination in hiring process. Our goal is to ensure that no individual is subjected to discrimination based on race, social status, religion, nationality, disability, age, marital status, gender, pregnancy, sexual orientation or political views. We strive to provide equal and fair treatment to all employees across all aspects of employment, including recruitment, compensation, training, promotion, termination, and retirement.

If any employee experiences intimidation, humiliation, bullying or harassment (including sexual harassment), we encourage them to raise it with the management through the internal appeal process (email address is survey@netjoy.com). Our Group takes such complaints seriously and will promptly take appropriate action to address and solve the issue upon receipt.

Salary and Benefits

Fair pay and treatment can improve employee satisfaction, team morale and overall performance. The Group offers a wide range of competitive salaries and benefits and reviews them in a timely manner according to market changes. In China, the Group pays “five insurances and one fund” for all mainland employees, namely, pension insurance, medical insurance, unemployment insurance, work injury insurance, maternity insurance and housing accumulation fund. In Hong Kong, the Group provides employees with contributions to the Mandatory Provident Fund (“MPF”). In addition, Netjoy reviews the remuneration package every year to ensure that it meets market standards to attract and retain talents.

B1. Employment (Continued)

Employee Communication

The Group fosters open communication with employees through various management mechanisms and communication channels, such as internal mail system, employee satisfaction questionnaire, and meetings.

To ensure fairness and transparency in the process, clear protocols are outlines in the employee handbook, encouraging employees to report any misconduct or concerns to their supervisors or the Human Resources Departments. All reported cases will be thoroughly investigated, and appropriate actions will be taken to ensure timely and effective resolution. The Group is committed to maintaining strictly confidentiality through the process to protect the privacy and well-being of all parties involved.

As of December 31, 2024, the breakdown of employment is as follows:

B2. Health and Safety

The Group place great importance on the health and safety of our employees, integrating it into the overall business management system as an essential component. We uphold a people-oriented approach and are committed to creating a healthy, safe and comfortable working environment for all employees. Our goal is to identify and eliminate potential health and safety hazards in the workplace, and to implement comprehensive safety management practices across all aspects of our operations.

Occupational Health and Safety

To strengthen employee awareness of safety, all new hires are required to complete pre-employment safety and health training. Current employees must participate in occupational safety education to prepare for emergencies such as traffic accidents and epidemic prevention. In accordance with the Fire Protection Law of China, the Group has established fire safety procedures. Employees have been trained in the use of fire extinguishers and other firefighting equipment, and regular fire drills are conducted. The Group also regularly evaluates our fire evacuation plan to ensure fire safety.

Our Group has achieved zero work-related fatalities for three consecutive years:

Index ⁴	Unit	2024	2023	2022

B3. Development and Training

Investing in future leaders is essential to the Group's long-term success and resilience. We are committed to build a strong talent channels by retaining high-performing individuals and preparing them for leadership roles. To support their growth, the Group offers the right tools and a nurturing environment for professional development. We actively encourage employees to continuously improve, share their knowledge, and contribute their experience to shape the future.

Across the Group, we have implemented a structured skills development program for all employees, recognising their vital role in our operations. Our targeted learning initiatives are designed to address the evolving skill needs of our core business functions and align with employees' career aspirations. These programs are regularly refreshed to stay ahead of market trends and digital transformation demands.

New joiners onboard training: To help new employees quickly understand and integrate into the company culture and work environment, there is 274 new joiners who participated in onboarding training during the Reporting Period. The training covered different topics, including an overview of the group, corporate culture, business profile, job responsibilities, professional conduct, and company operations, comprehensively enhancing new employees' understanding and adaptability.

Management training camp: This training camp aims to enhance the managerial capabilities of junior to mid-level managers. Through a structured curriculum and in-depth exchanges, it helps participants clearly understand the role and responsibilities of a manager. The program covers core competencies such as talent identification, goal setting, effective communication, feedback skills, team coaching, self-management, business management, and collaborative management. It comprehensively strengthens team leadership and supports the management team in becoming a vital force within the company. During the Reporting Period, a total of 16 individuals participated in this program.

Middle and senior management training: This program is primarily designed for the Group's middle and senior management, aiming to comprehensively enhance their business acumen, decision-making capabilities, competitive analysis skills, and leadership. Through a systematic curriculum, it helps managers broaden their perspectives and strengthen practical abilities, thereby driving the company's sustainable, healthy, and efficient growth. During the Reporting Period, a total of 37 middle and senior managers participated in the program.

B4. Labor Standards

Prevention of Child Labor and Forced Labor

The Group has zero tolerance and strictly prohibits the use of child labour and forced labour in our operations. The measures mentioned below have been taken to avoid these illegal employment practices.

Prevention of child labor	During the recruitment process, the Human Resources Department will verify the applicant's identity documents to ensure that they have reached the minimum employment age.
Prohibition of forced labor	The Group specifies overtime compensation provisions in the Employee Handbook. The Group carefully monitors the employees' working time and working schedule to ensure they work voluntarily and freely.

Once illegal employment practices are discovered, the Group will stop their employments immediately. An investigation will be carried out subsequently and the case will be reported to the relevant authorities.

During the Reporting Period, the Group was not aware of any material non-compliance with child and forced labour-related laws and regulations, that would have a significant impact on the Group, include but not limited to the Employment Ordinance of Hong Kong, the Labor Law of the People's Republic of China, and the Labour Contract Law of the People's Republic of China.

B5. Supply Chain Management

The Group recognises that fostering long-term, cooperative relationships with diverse suppliers is essential for success. Suppliers are expected to uphold high standards of business ethics and fulfill their corporate social responsibilities. To ensure quality and compliance, the Group has established clear procurement policies, defined standards, and an annual supplier performance evaluation process. The Supplier Code of Conduct is implemented according to the following process:

- **Understanding:** The Group is committed to building a relationship of mutual trust with its suppliers and ensuring that they have a clear understanding of the relevant guidelines.
- **Communication:** The Group establishes communication channels with its suppliers to ensure that any issues or concerns can be promptly resolved.
- **Monitoring:** The Group regularly reviews the performance of its suppliers to ensure their continued compliance with the standards set out in the guidelines.
- **Follow-up:** If the supplier is found to be in violation during regular inspections, the Group will take appropriate follow-up actions.

GREEN AND LOW-CARBON, CREATING THE BEAUTY OF GREEN WATER AND GREEN MOUNTAINS (Continued)

B5. Supply Chain Management (Continued)

Supplier management Policy and system

The Group maintains a centralized procurement policy that governs purchases of equipment, materials, office supplies, personal protective equipment, construction projects, and various services. Procurement authorizations are tiered by amount – under RMB50,000, RMB50,000 to RMB500,000 and above RMB500,000 – with purchases over RMB500,000 requiring a formal tender process. For each procurement, the team must obtain and compare proposals from at least three suppliers, and the approval workflow is defined by monetary thresholds that require different levels of sign-off accordingly. Payments must strictly follow the contract terms, and procedures for inspection and acceptance of procured goods and services are specified.

Potential Risks of supplier management system

The current supplier management system presents several potential risks. Specifically, the supplier management policy excludes products procurements intended for trading.

For the products procurements intended for trading, stricter financial and legal due diligence should be conducted before the formal signing of the agreement and payment processing, and stricter supplier management will be implemented for the subsequent products procurements intended for trading.

Green Procurement

The Group is committed to fostering innovation and transformation within the supply chain, with the goal of building a healthy and collaborative ecosystem that includes customers, businesses, and suppliers. We place strong emphasis on sustainability by promoting local procurement, reducing turnaround times, and fully integrating sustainable practices into our business operations.

Throughout the procurement process, we prioritise working with local suppliers and sourcing environmentally friendly products and services. By supporting local sourcing, we aim to reduce the carbon footprint of our procurement activities, while also contributing to local economic development and creating employment opportunities within the community.

In 2024, the Group had a total of 672 suppliers, with the distribution details as follows:

Location	FY2024	FY2023
China	672	910

GREEN AND LOW-CARBON, CREATING THE BEAUTY OF GREEN WATER AND GREEN MOUNTAINS (Continued)

B6. Product Responsibility

We always prioritise customer satisfaction and product quality, ensuring that our services and products meet the highest standards while strictly complying with relevant laws and regulations in our operating regions, including the Law of the People's Republic of China on Product Quality Law of China, the Laws of the People's Republic of China on the Protection of Consumer Rights and Interests, and the Company Law of the People's Republic of China.

During the Reporting Period, we continuously strengthened the company's competitive advantages by focusing on three key areas: enhancing our platform technology, expanding the media resource library, and maintaining a high-quality, well-balanced corporate client base. We actively explored new business opportunities, while further developing our online marketing solutions, e-commerce operations, and innovative business. At the same time, we remained focused on enhancing service quality to ensure that every service we provide not only meets but exceeds customer expectations.

Our intelligent marketing solutions are not only the central to our core business but also represent a critical competitive edge as we expand our market footprint. To address the increasingly diverse needs of our clients, we prioritise continuous technological innovation. As a comprehensive intelligent marketing platform, our group offers end-to-end services including strategy development, large-scale content creation, precision cross-platform distribution, and real-time data analytics. In the fast-paced digital economy, we empower brand clients to connect with their target audiences effectively, especially across China's dynamic short video platforms.

During the Reporting Period, we maintain close collaboration with high-quality customers while actively expanding our media partnership. Building on strong relationships with major platforms such as Douyin, Kuaishou, Tencent, we also accelerated cooperation with emerging platforms including Rednote and Bilibili. Notably, we achieved significant progress in our partnerships with Alipay and Youku.

The Group continuously to enhance the technological capabilities of its cloud service platform. Powered by artificial intelligence, the platform enables automated multi-modal content generation including automatic video script writing, intelligent image creation, and AI-assisted video production, significantly improving the efficiency of large-scale content creation. The group has also completed a full upgrade of its short video sales technology, optimizing its proprietary "Tianji" and "Lianshan Zhituo" platforms to provide a one-stop solution encompassing content creation, programmatic precision advertising, big data analysis and budget management.

Furthermore, we have deepened the integration of AIGC⁸ and NLP⁹ technologies, significantly boosting the efficiency and quality of scriptwriting, copy development, and visual presentation. These innovations have reinforced the Group's leadership in the short video marketing sector, empowering us to deliver more valuable and high-impact services to our clients.

Notes:

8. AIGC (AI-Generated Content): refers to the use of artificial intelligence technology to automatically generate or produce content.
9. NLP (Natural Language Processing): refers to the process of translating human natural language into computer-readable instructions.

B6. Product Responsibility (Continued)

E-Commerce Service

As e-commerce service are a key focus of our company's business development, we continue to extend along the marketing industry chain and further expand our e-commerce service system. We have built a framework covering three core sectors: e-commerce operations on behalf of clients, distribution, and local lifestyle services. By establishing a full-chain solution across 'people, products, and platforms,' the Group has significantly enhanced its refined and intelligent operational capabilities. We have developed a competitive edge in various vertical industries and served 35 domestic and international brands throughout the year. These include high-growth sectors such as personal care, pet food, and health and wellness, injecting strong momentum into our continued business growth.

At the same time, we leverage our extensive local market experience and advanced digital technology to provide customised local lifestyle service solutions. During the Reporting Period, we empowered 25 chain restaurant brands, with a total of 135 physical restaurant stores, to implement highly efficient digital operations.

Innovation Development

Building on our large-scale creative production capabilities and an extensive short video marketing and distribution ecosystem, we are actively expanding into innovative micro-drama ventures. With our strong creative reserves and high-quality video production, combined with a robust distribution network across platforms such as WeChat Mini Programs, Douyin, and Kuaishou, our group produced 76 premium short dramas and released 93 titles over the past year.

As a company driven by technological innovation, Netjoy consistently invests its technical resources in developing core assets and pursuing cutting-edge research. We actively explore the transformative potential of artificial intelligence across diverse sectors, with notable achievements in video content generation and metaverse scene development. With AIGC technology, natural language processing, digital AI capabilities, and 3D virtual scene modeling at our core, we are building a more intelligent and dynamic technology application ecosystem.

In the MarTech arena, our long-standing technical foundation and integrated data strategies have enabled us to successfully incorporate AIGC technology into our technical product suite. To meet the evolving demands of the e-commerce landscape, we've developed intelligent AI video tools that enable large-scale, short-form content production across diverse scenarios. At the same time, we are strengthening our core technologies and expanding advanced applications to enhance our overall capabilities. Looking ahead, we aim to empower clients with innovative digital tools that drive impactful and efficient marketing results.

Responsible Marketing

Responsible marketing is the core concept upheld by Netjoy. We emphasis scientific accuracy and content reliability, conducting rigorous reviews of all promotional materials and strictly eliminating exaggerated or false information.

As part of our commitment to social responsibility, we fully implement the Personal Information Protection Law of the People's Republic of China, and actively support the enforcement of the Self-Discipline Convention for Online Live Streaming and Short Video Marketing Platforms.

B6. Product Responsibility (Continued)

Responsible Marketing (Continued)

We also strengthen employees' awareness of responsible marketing through internal training, continuously enhancing the company's professional marketing standards and reflecting our industry leadership.

On the technology and product front, we are focused on developing a comprehensive, end-to-end solution for short video marketing. We have independently launched a suite of cloud-based products, including the cross-platform "Lianshan Zhituo" advertising and data management system, the high-efficiency "Tianji" management tool, and "Yunshi Youke," a TikTok marketing SaaS platform tailored for small and medium-sized enterprises.

These innovative tools provide customers with a one-stop solution, helping them enhance content creation efficiency, improve targeting accuracy, and increase operational automation levels, ensuring that marketing results continue to reach new heights.

Intellectual Property Protection

Netjoy views innovation and research and development as the cornerstone of corporate growth and sees intellectual property protection as an important pillar for long-term development. We actively implement various intellectual property protection measures to ensure that our innovative results and technological assets are fully protected. The company strictly complies with relevant laws and regulations, including the Patent Law of the People's Republic of China, the Trademark Law of the People's Republic of China, and the Copyright Law of the People's Republic of China, and has established a comprehensive intellectual property management system.

We encourage all employees to participate in intellectual property protection efforts and enhance awareness through internal training and promotional activities. To protect the company's data assets and proprietary technologies, we have implemented a series of effective protection measures to ensure that the enterprise maintains a leading position in technological innovation and market competition.

- When entering into an annual framework agreement with clients, it is crucial to clearly define the ownership and usage rights of any advertising content created. Comprehensive communication and formal confirmation should be conducted to ensure that all intellectual property rights of the advertising materials produced by Netjoy are retained by us. Clients may only use the content within advertising campaigns that are launched or managed by Netjoy, thereby minimising the risk of intellectual property infringement.
- The employee handbook should clearly set out the terms regarding intellectual property ownership and confidentiality. The clause should state that, both during and after employment, employees are prohibited from disclosing, transferring, publicly releasing, or using any trade secrets or confidential information outside the Group without the Group's prior written consent. This is to safeguard the Group's proprietary rights to its intellectual property and to prevent any unauthorised use or disclosure of such rights.

During the Reporting Period, the Group was not aware of any incidents of non-compliance with related laws and regulations concerning health and safety, advertising, labelling, and privacy matters relating to products and services provided and methods of redress that would have a significant impact on the Group.

B6. Product Responsibility (Continued)

Privacy Protection

Our group places the highest priority on protecting personal data and fully recognizes its responsibilities in collecting, storing, processing, and using customer information. To ensure the confidentiality of sensitive data, we have implemented a comprehensive business confidentiality agreement policy. Detailed guidance is provided in the Employee Handbook, outlining proper procedures for handling and safeguarding confidential information. All employees are required to adhere to this policy to prevent unauthorized disclosure or misuse of data.

Netjoy strictly adheres to relevant laws and regulations, including the Cybersecurity Law of the People's Republic of China, the Personal Data (Privacy) Ordinance, and the Data Security Management Measures. To uphold the security of data assets and customer information, we have established and implemented a range of internal systems and initiatives, including the Database Protection Mechanism and the Information Confidential Management Regulations. These measures are designed to standardize the management and protection of confidential information.

Data Asset Encryption and Backup

- The Company encrypts internal data before storing it on a cloud server protected by a firewall, and performs daily backups to ensure data security and recoverability;
- The Company employs multiple data backup methods, including MySQL, incremental backups, local backups, and cloud storage, to ensure the security of its data.

Regular Inspection/Review and Monitoring

- Regularly conduct data recovery tests to monitor the status of the backup system;
- The Group strictly limits the scope of data access authorised to each employee based on their qualifications and job responsibilities, maintains detailed access logs, and conducts regular audits;
- The Company has an automated monitoring system in place to track key indicators of business operations and IT infrastructure. Alerts are triggered when monitored metrics exceed defined security thresholds.

Multiple Network Security Initiatives

- The Company assigns experienced personnel to be responsible for data protection and to monitor the operation of its IT infrastructure, ensuring its security, reliability, and stability;
- The Company isolates the database from unauthorized access, and uses complex security procedures for internal and external communication and transmission of encrypted data.

GREEN AND LOW-CARBON, CREATING THE BEAUTY OF GREEN WATER AND GREEN MOUNTAINS (Continued)

B6. Product Responsibility (Continued)

Privacy Protection (Continued)

Internal Publicity

- The Group provides employees with data protection training on an irregular basis and signs confidentiality agreements with them to prevent the misuse or unauthorised disclosure of data.

To strengthen risk management of the information system, the company has implemented a series of security measures. Employees are required to update their computer login passwords every two months to prevent unauthorised access. Staff handling confidential data must encrypt sensitive information and documents used in daily operations, with password management centralised under each department head. For highly sensitive information, a dual encryption mechanism is applied to enhance overall data security. To reduce the risk of malware infection, regular software health checks are conducted, and anti-virus software is integrated into the operating system to provide comprehensive, real-time protection against computer viruses, malicious programs, and spyware.

During the Reporting Period, the Group was not aware of any incidents of non-compliance with related laws and regulations concerning health and safety, advertising, labelling, and privacy matters relating to products and services provided and methods of redress that would have a significant impact on the Group.

B7. Anti-corruption

Anti-corruption Policy

This policy outlines the core objectives of the anti-corruption plan and defines the concept and various forms of corruption. The policy clarifies the distribution of anti-corruption responsibilities, establishes a prevention and control mechanism, and stipulates the procedures for reporting, investigating and recording corruption cases. In addition, the policy also specifies the permanent organizational structure and its functions, provides supervision and guidelines, and lists in detail the applicable remedies and disciplinary actions against corruption.

The main goal of the anti-corruption framework is to standardize the professional behavior of middle and senior managers and all employees. The policy requires strict compliance with relevant laws and regulations, professional ethics and company policies to prevent any behavior that harms the interests of the company and shareholders. This policy applies to all departments, branches and holding subsidiaries of the Group.

Continuously improve the anti-corruption mechanism

The Group is clearly aware that the anti-corruption management mechanism still faces complex challenges in the implementation process. In case of extreme situations such as internal failure to report in time or internal and external collusion to bypass the current control process, it may adversely affect the timeliness of relevant investigations and the effectiveness of internal control. To this end, the Group will continue to optimize the supervision mechanism, guard against systemic compliance risks and ensure the effective implementation of supervision.

During the Reporting Period, there were no closed legal cases involving corruption of the Group or its employees to be disclosed. The Group has planned to strengthen the corruption training mechanism in 2025.

Whistleblowing Policy

The Group encourages its employees and other stakeholders (including customers and suppliers) to raise concerns about suspected misconduct, improper behavior, or malpractice. We have established confidential channels for employees and stakeholders to report any suspicious incidents. We handle all reports in strict confidence, in line with our whistleblowing policy, and ensure that individuals who speak up are protected from any form of retaliation. Allegations involving fraud or corruption are subject to thorough investigation.

Independent Auditor's Report

To the shareholders of Netjoy Holdings Limited

(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Netjoy Holdings Limited (the “**Company**”) and its subsidiaries (the “**Group**”) set out on pages 147 to 227, which comprise the consolidated statement of financial position as at 31 December 2024, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2024, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (“**IASB**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) as issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the “**Code**”), as applicable to audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

KEY AUDIT MATTERS (Continued)

Key audit matter	How our audit addressed the key audit matter
<i>Revenue recognition of intelligent marketing solutions services</i>	
For the year ended 31 December 2024, the Group recognised revenue of RMB3,007,060,000 from the provision of intelligent marketing solutions. The determination of whether revenue should be reported on a gross or net basis is based on the assessment of whether the Group acts as a principal or an agent in the transactions, taking into account the nature of specified services and whether the Group obtains controls of the specified services before transferring to advertisers. We focused on this area due to the judgements involved in determining the Group's role as a principal or an agent in recognising revenue from intelligent marketing solutions service which will impact the presentation of revenue and related costs in the consolidated financial statements. The accounting policies, significant accounting judgements and estimates and disclosures about revenue recognition of intelligent marketing solutions services are included in notes 2.4, 3 and 5 to the consolidated financial statements.	We performed the following procedures to address this key audit matter: 1. Obtaining an understanding of, evaluated and tested the key controls in place over management's assessment of revenue recognition, including management's approval and review of sales contracts and other supporting documents; 2. Discussing with management and obtained an understanding of the indicators and judgements management considered when assessing the revenue recognition on a gross or net basis under each different circumstance; 3. Selecting sales contracts, on a sampling basis, and reviewed the relevant contract terms and checked with management's explanations and other supporting documents regarding the judgements applied for the selected sales contracts; 4. Conducting interviews with different advertisers, on a sampling basis, to assess management's judgements on principal versus agent considerations; and 5. Assessing the adequacy of the Group's disclosures related to revenue recognition of intelligent marketing solutions services in the consolidated financial statements.

KEY AUDIT MATTERS (Continued)

Key audit matter	How our audit addressed the key audit matter
Impairment of trade receivables The Group had net trade receivables amounting to approximately RMB1,271,370,000 as at 31 December 2024. Impairment losses of RMB357,845,000 were recognised as at 31 December 2024. Management recognises a loss allowance for lifetime expected credit losses (ECLs) on the trade receivables. Lifetime ECLs are estimated based on a number of factors which include the ageing of trade receivables, customers' repayment history, customers' financial position, current market conditions and forecast of future economic conditions. Such assessment involves a significant degree of management's judgement and estimation. We focused on this area because the assessment of the loss allowance for trade receivables is inherently subjective and requires significant management judgement, which increases the risk of error or potential management bias. The accounting policies, significant accounting judgements and estimates and disclosures about impairment of trade receivables are included in notes 2.4, 3 and 20 to the consolidated financial statements.	We performed the following procedures to address this key audit matter: 1. Testing the design and operation of internal control over the Group's processes of credit assessment; 2. Assessing the impairment allowance determined by management by reviewing the forward looking information, and evaluating whether the respective debtors experienced significant financial difficulty, default or delinquency in interest or principal payments for impairment allowance determined on an individual assessment basis; 3. Examining management's calculation of expected credit losses in respect of trade receivables by involving our internal valuation specialists to assist us to evaluate the methodology of ECLs calculation and the key parameters used with reference to external available data sources and tested the ageing of trade receivables on a sampling basis; 4. Assessing the management's measurement of expected credit losses by examining subsequent settlements on a sampling basis, taking into account the customers' credit history, business performance and financial capability, and the industry trend and market development; and 5. Assessing the adequacy of the Group's disclosures related to the impairment of trade receivables in the consolidated financial statements.

OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards as issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Shun Lung Wai (practising certificate number: P06860).

- (b) The entities are registered as limited liability companies under PRC law.
- (c) On 30 January, 2024, the name of the entity was changed from Letui Zhixiao (Shanghai) Cultural Communication Co., Ltd. to Shanghai Yunxiang E-commerce Co., Ltd.

During the year, the Group acquired Shanghai Tetui Cultural Media Co., Ltd. Further details of this acquisition are included in note 30 to the financial statements.

The above table lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

1. CORPORATE AND GROUP INFORMATION (Continued)

Information about subsidiaries (Continued)

Netjoy Network and Tradeplus provide value-added telecommunications services and radio and TV program production and operation services to customers. Due to regulatory restrictions on foreign ownership in providing value-added telecommunications services and prohibition on foreign ownership in providing radio and TV program production and operation services in the PRC, a wholly-owned subsidiary of the Company, Yunxiang Information, has entered into contractual arrangements ("**Contractual Arrangements**") with Netjoy Network and Tradeplus and their respective registered shareholders. The Contractual Arrangements enable Yunxiang Information to effectively control, recognise and receive substantially all the economic benefits of the business and operations of Netjoy Network and Tradeplus.

In summary, the Contractual Arrangements enable the Group to, among others:

- receive substantially all of the economic benefits from Netjoy Network and Tradeplus in consideration for the services provided by Yunxiang Information to Netjoy Network and Tradeplus;
- exercise effective control over Netjoy Network and Tradeplus; and
- hold an exclusive option to acquire all or part of the equity interests in and/or the assets of Netjoy Network and Tradeplus when and to the extent permitted by the PRC laws and regulations.

Accordingly, Netjoy Network and Tradeplus are controlled by the Company based on the Contractual Arrangements though the Company does not have any direct or indirect equity interest in Netjoy Network and Tradeplus.

2. ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with IFRS Accounting Standards (which include all International Financial Reporting Standards, International Accounting Standards ("**IASs**") and Interpretations) as issued by the International Accounting Standards Board ("**IASB**") and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for derivative financial instruments, wealth management products and equity investments which have been measured at fair value. These financial statements are presented in Renminbi ("**RMB**") and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

The consolidated financial statements include the financial statements of the Group for the year ended 31 December 2024. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

Year ended 31 December 2024

2.1 BASIS OF PREPARATION (Continued)

Basis of consolidation (Continued)

Generally, there is a presumption that a majority of voting rights results in control. When the Company has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, any non-controlling interest and the exchange fluctuation reserve; and recognises the fair value of any investment retained and any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted amendments to IAS 21 Lack of Exchangeability for the first time for the current year's financial statements. The Group has not early adopted any other standard or amendment that has been issued but is not yet effective.

Amendments to IAS 21 specify how an entity shall assess whether a currency is exchangeable into another currency and how it shall estimate a spot exchange rate at a measurement date when exchangeability is lacking. The amendments require disclosures of information that enable users of financial statements to understand the impact of a currency not being exchangeable. As the currencies that the Group had transacted in and the functional currencies of overseas subsidiaries, and associates for translation into the Group's presentation currency were exchangeable, the amendments did not have any impact on the Group's financial statements.

Year ended 31 December 2024

2.3 ISSUED BUT NOT YET EFFECTIVE IFRS ACCOUNTING STANDARDS

The Group has not applied the following new and amended IFRS Accounting Standards, that have been issued but are not yet effective, in these financial statements. The Group intends to apply these new and amended IFRS Accounting Standards, if applicable, when they become effective.

IFRS 18	<i>Presentation and Disclosure in Financial Statements</i> ²
IFRS 19 and its amendments	<i>Subsidiaries without Public Accountability: Disclosures</i> ²
Amendments to IFRS 9 and IFRS 7	<i>Amendments to the Classification and Measurement of Financial Instruments</i> ¹
Amendments to IFRS 9 and IFRS 7	<i>Contracts Referencing Nature-dependent Electricity</i> ¹
Amendments to IFRS 10 and IFRS 28	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i> ³
Amendments to IAS 21	<i>Translation to a Hyperinflationary Presentation Currency</i> ²
Annual Improvements to IFRS Accounting Standards – Volume 11	<i>Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10 and IAS 7</i> ¹

¹ Effective for annual periods beginning on or after 1 January 2026

² Effective for annual/reporting periods beginning on or after 1 January 2027

³ No mandatory effective date yet determined but available for adoption

Further information about those IFRS Accounting Standards that are expected to be applicable to the Group is described below.

IFRS 18 replaces IAS 1 Presentation of Financial Statements. While a number of sections have been brought forward from IAS 1 with limited changes, IFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Entities are required to classify all income and expenses within the statement of profit or loss into one of the five categories: operating, investing, financing, income taxes and discontinued operations and to present two new defined subtotals. It also requires disclosures about management-defined performance measures in a single note and introduces enhanced requirements on the grouping (aggregation and disaggregation) and the location of information in both the primary financial statements and the notes. Some requirements previously included in IAS 1 are moved to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, which is renamed as IAS 8 Basis of Preparation of Financial Statements. As a consequence of the issuance of IFRS 18, limited, but widely applicable, amendments are made to IAS 7 Statement of Cash Flows, IAS 33 Earnings per Share and IAS 34 Interim Financial Reporting. In addition, there are minor consequential amendments to other IFRS Accounting Standards. IFRS 18 and the consequential amendments to other IFRS Accounting Standards are effective for annual periods beginning on or after 1 January 2027 with earlier application permitted. Retrospective application is required. The Group is currently analysing the new requirements and assessing the impact of IFRS 18 on the presentation and disclosure of the Group's financial statements.

IFRS 19 allows eligible entities to elect to apply reduced disclosure requirements while still applying the recognition, measurement and presentation requirements in other IFRS Accounting Standards. To be eligible, at the end of the reporting period, an entity must be a subsidiary as defined in IFRS 10 Consolidated Financial Statements, cannot have public accountability and must have a parent (ultimate or intermediate) that prepares consolidated financial statements available for public use which comply with IFRS Accounting Standards or IFRS Accounting Standards. IFRS 19 was amended in April 2025 to include IFRS Accounting Standards in the eligibility criteria for applying the standard. The standard was further amended in October 2025 to (i) remove disclosure objectives from IFRS 19; (ii) reduce the disclosure requirements relating to supplier finance arrangements and a specific class of financial liabilities; and (iii) replace disclosure requirements relating to management-defined performance measures with a cross-reference to IFRS 18 for entities that use these measures. Earlier application is permitted. As the Company is a listed company, it is not eligible to elect to apply IFRS 19 and its amendments. Some of the Company's subsidiaries are considering the application of IFRS 19 and its amendments in their specified financial statements.

Year ended 31 December 2024

2.3 ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS (Continued)

Amendments to IFRS 9 and IFRS 7 Amendments to the Classification and Measurement of Financial Instruments clarify the date on which a financial asset or financial liability is derecognised and introduce an accounting policy option to derecognise a financial liability that is settled through an electronic payment system before the settlement date if specified criteria are met. The amendments clarify how to assess the contractual cash flow characteristics of financial assets with environmental, social and governance and other similar contingent features. Moreover, the amendments clarify the requirements for classifying financial assets with non-recourse features and contractually linked instruments. The amendments also include additional disclosures for investments in equity instruments designated at fair value through other comprehensive income and financial instruments with contingent features. The amendments shall be applied retrospectively with an adjustment to opening retained profits (or other component of equity) at the initial application date. Prior periods are not required to be restated and can only be restated without the use of hindsight. Earlier application of either all the amendments at the same time or only the amendments related to the classification of financial assets is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to IFRS 9 and IFRS 7 Contracts Referencing Nature-dependent Electricity clarify the application of the "own-use" requirements for in-scope contracts and amend the designation requirements for a hedged item in a cash flow hedging relationship for in-scope contracts. The amendments also include additional disclosures that enable users of financial statements to understand the effects these contracts have on an entity's financial performance and future cash flows. The amendments relating to the own-use exception shall be applied retrospectively. Prior periods are not required to be restated and can only be restated without the use of hindsight. The amendments relating to the hedge accounting shall be applied prospectively to new hedging relationships designated on or after the date of the initial application. Earlier application is permitted. The amendments to IFRS 9 and IFRS 7 shall be applied at the same time. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to IFRS 10 and IAS 28 address an inconsistency between the requirements in IFRS 10 and in IAS 28 in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss resulting from a downstream transaction when the sale or contribution of assets constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to IFRS 10 and IAS 28 was removed by the IASB.

However, the amendments are available for adoption now.

Amendments to IAS 21 Translation to a Hyperinflationary Presentation Currency require the translation from a non-hyperinflationary functional currency into a hyperinflationary presentation currency at the closing rate. The amendments also require an entity whose functional currency and presentation currency are the currency of a hyperinflationary economy to restate the comparative amounts of a foreign operation whose functional currency is that of a non-hyperinflationary economy, by applying the general price index, in accordance with paragraph 34 of IAS 29 Financial Reporting in Hyperinflationary Economies, to the foreign operation's comparative figures. The amendments introduce certain additional disclosures. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

2.3 ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS (Continued)

Annual Improvements to IFRS Accounting Standards – Volume 11 set out amendments to IFRS 1, IFRS 7 (and the accompanying Guidance on implementing IFRS 7), IFRS 9, IFRS 10 and IAS 7. Details of the amendments that are expected to be applicable to the Group are as follows:

- **IFRS 7 Financial Instruments: Disclosures:** The amendments have updated certain wording in paragraph B38 of IFRS 7 and paragraphs IG1, IG14 and IG20B of the Guidance on implementing IFRS 7 for the purpose of simplification or achieving consistency with other paragraphs in the standard and/or with the concepts and terminology used in other standards. In addition, the amendments clarify that the Guidance on implementing IFRS 7 does not necessarily illustrate all the requirements in the referenced paragraphs of IFRS 7 nor does it create additional requirements. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.
- **IFRS 9 Financial Instruments:** The amendments clarify that when a lessee has determined that a lease liability has been extinguished in accordance with IFRS 9, the lessee is required to apply paragraph 3.3.3 of IFRS 9 and recognise any resulting gain or loss in profit or loss. However, the amendments do not address how a lessee distinguishes between a lease modification as defined in IFRS 16 and an extinguishment of a lease liability in accordance with IFRS 9. In addition, the amendments have updated certain wording in paragraph 5.1.3 of IFRS 9 and Appendix A of IFRS 9 to remove potential confusion. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.
- **IFRS 10 Consolidated Financial Statements:** The amendments clarify that the relationship described in paragraph B74 of IFRS 10 is just one example of various relationships that might exist between the investor and other parties acting as de facto agents of the investor, which removes the inconsistency with the requirement in paragraph B73 of IFRS 10. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.
- **IAS 7 Statement of Cash Flows:** The amendments replace the term "cost method" with "at cost" in paragraph 37 of IAS 7 following the prior deletion of the definition of "cost method". Earlier application is permitted. The amendments are not expected to have any impact on the Group's financial statements.

2.4 MATERIAL ACCOUNTING POLICIES

Investments in associates

An associate is an entity in which the Group has a long-term interest of generally not less than 20% of the equity voting rights and over which it has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The Group's investments in associates are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses.

Year ended 31 December 2024

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Investments in associates (Continued)

The Group's share of the post-acquisition results and other comprehensive income of associates is included in the consolidated statement of profit or loss and other comprehensive income. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates are eliminated to the extent of the Group's investments in the associates, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of associates is included as part of the Group's investments in associates.

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

When an investment in an associate is classified as held for sale, it is accounted for in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*.

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets includes an input and a substantive process that together significantly contribute to the ability to create outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Business combinations and goodwill (Continued)

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

Fair value measurement

The Group measures its equity investments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Year ended 31 December 2024

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Fair value measurement (Continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, contract assets, deferred tax assets, financial assets, and non-current assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, a portion of the carrying amount of a corporate asset (e.g., a headquarters building) is allocated to an individual cash-generating unit if it can be allocated on a reasonable and consistent basis or, otherwise, to the smallest group of cash-generating units.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of the reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to profit or loss in the period in which it arises.

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group, or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
 - (i) the entity and the Group are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
 - (iii) the entity and the Group are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the consolidated statement of profit or loss and other comprehensive income in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Furniture and fixtures	33⅓%
Office equipment	20% to 33⅓%
Leasehold improvements	50%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Intangible assets (other than goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Software and use right of a website

Software and use right of a website are stated at cost less any impairment losses and are amortised on the straight-line basis over the shorter of the lease terms and their estimated useful lives of 3-10 years. The Group determines the useful life of software and use right of a website with reference to the estimated periods that the Group intends to derive future economic benefits from the use of the assets.

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Intangible assets (other than goodwill) (Continued)

Research and development costs

All research costs are charged to the consolidated statement of profit or loss and other comprehensive income as incurred.

Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditure which does not meet these criteria is expensed when incurred.

Deferred development costs are stated at cost less any impairment losses and are amortised using the straight-line basis over the commercial lives of the underlying products not exceeding three to five years, commencing from the date when the products are put into commercial production.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) *Right-of-use assets*

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Leasehold properties

2 years

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Year ended 31 December 2024

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Leases (Continued)

Group as a lessee (Continued)

(b) *Lease liabilities*

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

(c) *Short-term leases and leases of low-value assets*

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases whose values are less than USD5,000.

Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15 in accordance with the policies set out for "Revenue recognition" below.

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Investments and other financial assets (Continued)

Initial recognition and measurement (Continued)

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest (“SPPI”) on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group’s business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

Purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Financial assets at fair value through other comprehensive income (debt instruments)

For debt investments at fair value through other comprehensive income, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in other comprehensive income. Upon derecognition, the cumulative fair value change recognised in other comprehensive income is recycled to profit or loss.

Year ended 31 December 2024

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Investments and other financial assets (Continued)

Subsequent measurement (Continued)

Financial assets designated at fair value through other comprehensive income (equity investments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity investments designated at fair value through other comprehensive income when they meet the definition of equity under IAS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to the statement of profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income. Equity investments designated at fair value through other comprehensive income are not subject to impairment assessment.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in profit or loss.

This category includes derivative instruments and equity investments which the Group had not irrevocably elected to classify at fair value through other comprehensive income. Dividends on the equity investments are also recognised as other income in profit or loss when the right of payment has been established.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent it, has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Impairment of financial assets

The Group recognises an allowance for expected credit losses (“**ECLs**”) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information. The Group considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.

Generally, the Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group.

For debt investments at fair value through other comprehensive income, the Group applies the low credit risk simplification. At each reporting date, the Group evaluates whether the debt investments are considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group reassesses the external credit ratings of the debt investments. In addition, the Group considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Impairment of financial assets (Continued)

General approach (Continued)

Debt investments at fair value through other comprehensive income and financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables which apply the simplified approach as detailed below.

- Stage 1 – Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 – Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 – Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

Simplified approach

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. Except for certain trade receivables that do not share similar characteristics and are individually assessed based on customers' credit and estimated future cash flow, the Group makes collective assessments for trade receivables that share similar characteristics. The collective assessments are based on ageing analysis of customers. The Group has established a provision matrix and individual assessment that are based on its historical credit loss experience, aging periods, adjusted for forward-looking factors specific to the debtors and the economic environment.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as loans and borrowings, or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, interest-bearing bank loans.

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Financial liabilities (Continued)

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by IFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in profit or loss. The net fair value gain or loss recognised in profit or loss does not include any interest charged on these financial liabilities.

Financial liabilities designated upon initial recognition as at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in IFRS 9 are satisfied. Gains or losses on liabilities designated at fair value through profit or loss are recognised in profit or loss, except for the gains or losses arising from the Group's own credit risk which are presented in other comprehensive income with no subsequent reclassification to profit or loss. The net fair value gain or loss recognised in profit or loss does not include any interest charged on these financial liabilities.

Financial liabilities at amortised cost (trade and other payables, and borrowings)

After initial recognition, trade and other payables, and interest-bearing borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the consolidated statement of profit or loss.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the consolidated statement of profit or loss and other comprehensive income.

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash on hand and at banks, and short-term highly liquid deposits with a maturity of generally within three months that are readily convertible into known amounts of cash, subject to an insignificant risk of changes in value and held for the purpose of meeting short-term cash commitments.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and at banks, and short-term deposits as defined above, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in profit or loss net of any reimbursement.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the consolidated statement of profit or loss and other comprehensive income.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Income tax (Continued)

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences; and
- in respect of taxable temporary differences associated with investments in subsidiaries and associates, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences; and
- in respect of deductible temporary differences associated with investments in subsidiaries and associates, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to profit or loss over the expected useful life of the relevant asset by equal annual instalments or deducted from the carrying amount of the asset and released to profit or loss by way of a reduced depreciation charge.

Revenue recognition

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

The Group's main revenue generating activity is the provision of intelligent marketing solutions. Revenues are recognised when relevant services are provided to the advertising customers.

The following is a description of the principal activities from which the Group generates its revenue:

(1) Intelligent marketing solutions

All-in-one service

The Group provides one-stop intelligent marketing solutions, including traffic acquisition from top online publishers, content production, raw data analysis and advertisement campaign optimisation, to advertisers. The Group charges the advertisers mainly based on optimised Cost Per Mille ("oCPM") or optimised Cost Per Click ("oCPC"). In some circumstances, the Group offers rebates to the advertisers as part of its promotion activities. Online publishers grant to the Group rebates in the form of payments for the media publishers' services or cash mainly based on the gross spend of the advertisers.

While none of the factors individually are considered presumptive or determinative, in this arrangement the Group is the primary obligor and is responsible for (i) identifying and contracting with third-party advertisers which the Group views as customers, the Group is primarily responsible for delivering the specified service to the advertisers; (ii) identifying online publishers to provide online spaces where the Group views the online publishers as suppliers; and (iii) bearing the sole responsibility for advertising content integrated and fulfilment of the advertising, the Group acts as the principal of these arrangements and therefore recognises revenue earned and costs incurred related to these transactions on a gross basis. Under this arrangement, the rebates earned from the media publishers are recorded as a reduction of cost of sales.

The performance obligation is satisfied on a user's optimised click (oCPC) on one of the customer-sponsored links or on optimised the number of times that the advertisement has been displayed for cost per thousand impression advertising arrangement (oCPM).

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Revenue recognition (Continued)

The following is a description of the principal activities from which the Group generates its revenue: (Continued)

(1) Intelligent marketing solutions (Continued)

Advertisement distribution service

The advertisers provide their own produced distribution contents and formulate their own advertisement campaign. The Group only provides distribution services to advertisers by publishing the contents on the targeted social media platforms which are determined by advertisers. The Group charges the advertisers mainly based on an oCPM or oCPC.

The Group is not the principal in this arrangement as it does not control the specified service before that service is transferred to the advertiser, because (i) the Group does not provide integrated service. Online publisher, rather than the Group, is primarily responsible for providing the media publishing service; and (ii) the online publisher is identified and determined by the advertisers, not the Group. Therefore, the Group is not the principal in executing these transactions. The Group reports the amount received from the advertisers and the amounts paid to the media publishers related to these transactions on a net basis.

Rebates offered to the advertisers under both business models above are recognised as a deduction of revenue at the time the incentives are granted.

The performance obligation is satisfied on a user's optimised click (oCPC) on one of the customer-sponsored links or on optimised the number of times that the advertisement has been displayed for cost per thousand impression advertising arrangement (oCPM).

SaaS service

The Group provides SaaS service to advertisers which entitle paying subscribers access right to a one-stop short video programmatic advertising and data management platform that is owned, operated and maintained by one of the Group's subsidiaries, which benefits the Group's advertisers and media publishers to have access of data, technologies, knowledge and experience accumulated by the Group. SaaS service is provided on: (i) a commission basis, commission fee is calculated as a percentage of the total consumption of advertisements placed by advertisers on the platform; and (ii) a subscription basis, subscription fee is charged to customers and recognised as revenue over the subscription period on a straight-line basis. The performance obligation is satisfied on a user's optimised click (oCPC) on one of the customer-sponsored links or on optimised the number of times that the advertisement has been displayed for cost per thousand impression advertising arrangement (oCPM) or over the subscription period on a straight-line basis.

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Revenue recognition (Continued)

The following is a description of the principal activities from which the Group generates its revenue: (Continued)

(2) E-commerce service solutions

E-commerce service solutions revenues are mainly from the live streaming business and sales of products through the e-commerce platforms as well as distribution channels.

For the live streaming business, the Group utilises live streamers to promote and sell goods on platforms and charges commissions to customers based on the live broadcast duration and sales of goods completed through platforms with agreed commission rates, respectively. Live streaming business performance obligation is satisfied at the point in time when the live broadcast duration and sale transaction of goods is completed.

Revenues from sales of products through the e-commerce platforms and distribution channels are recognised when control of promised goods is transferred to the customers, which generally occurs upon the acceptance of the goods by the customers.

(3) Innovative business

Innovative business revenues primarily include revenues from the short play business and SaaS service.

For the short play business, the Group operates and maintains mini programs whereby users can enjoy short plays provided by the Group. The Group sells membership services and virtual currencies to users. For membership services, the Group offers membership services which provide users access to all short plays in the mini programs. When the receipt of membership fees is for services to be delivered over a period of time, generally from one month to twelve months, the receipt is initially recorded as “contract liabilities” and revenue is recognised ratably over the membership period as services are rendered. For virtual currencies, once the users purchase virtual currencies, the proceeds are recorded in contract liabilities and recognised in revenue after the virtual currencies are used to watch short plays.

Interest income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Share-based payments

The Company operates share option and Restricted share units (“**RSUs**”) scheme. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services in exchange for equity instruments (“**equity-settled transactions**”). The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value of the share option is determined by an external valuer using a binomial model and the fair value of the RSUs is based on ordinary stock price on grant date, further details of which are given in note 28 to the financial statements.

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group’s best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the consolidated statement of profit or loss and other comprehensive income for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group’s best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification. Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately.

This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Other employee benefits

Pension scheme

The employees of the Group's subsidiary which operates in Chinese Mainland are required to participate in a central pension scheme operated by the local municipal government. This subsidiary is required to contribute a certain percentage of its payroll costs to the central pension scheme. The contributions are charged to profit or loss as they become payable in accordance with the rules of the central pension scheme.

No forfeited contribution (by the Group on behalf of its employees who leave the scheme prior to vesting fully in such contributions) was available to be utilised by the Group to reduce the contributions payable in the future years or to reduce the Group's existing level of contributions to the pension scheme.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividends are disclosed in the notes to the financial statements. Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

Foreign currencies

These financial statements are presented in RMB, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the consolidated statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

2.4 MATERIAL ACCOUNTING POLICIES (Continued)

Foreign currencies (Continued)

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve, except to the extent that the differences are attributable to non-controlling interests. On disposal of a foreign operation, the cumulative amount in the reserve relating to that particular foreign operation is recognised in profit or loss.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into RMB at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into RMB at the weighted average exchange rates for the year.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make significant judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Contractual arrangements

Netjoy Network and Tradeplus provide value-added telecommunications services and radio and TV program production and operation services to customers. Due to regulatory restrictions on foreign ownership in providing value-added telecommunications services and prohibition on foreign ownership in providing radio and TV program production and operation services in the PRC, the Group exercises control over Netjoy Network and Tradeplus and enjoys all economic benefits of Netjoy Network and Tradeplus through the Contractual Arrangements.

The Group considers that it controls Netjoy Network and Tradeplus, notwithstanding the fact that it does not hold a direct equity interest in Netjoy Network and Tradeplus, as it has power over the financial and operating policies of Netjoy Network and Tradeplus and receives substantially all of the economic benefits from the business activities of Netjoy Network and Tradeplus through the Contractual Arrangements. Accordingly, Netjoy Network and Tradeplus have been accounted for as subsidiaries for the year ended 31 December 2024 and 2023.

Year ended 31 December 2024

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Judgements (Continued)

Principal versus agent considerations – revenue from the provision of intelligent marketing solutions services

In determining whether the Group is acting as a principal or as an agent in the provision of intelligent marketing solutions services, judgements and considerations of all relevant facts and circumstances are required. The determination of whether revenue should be reported on a gross or net basis is based on the assessment of whether the Group acts as a principal or an agent in the transactions, taking into account the nature of specified services and whether the Group obtains controls of the specified services before transferring to advertisers. Management considers in combination whether (a) the Group is primarily responsible for fulfilling the promise to provide the target marketing service; (b) the Group bears certain inventory risk, and (c) the Group has discretion in establishing the price. The Group is primarily obligated in a transaction, and has latitude in establishing prices and selecting publishers, or has several but not all of these indicators, the Group records revenues on a gross basis. Otherwise, the Group records the net amount earned as commissions from the services provided.

Deferred tax assets

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits, together with future tax planning strategies.

The Group has tax losses of RMB214,651,000 (2023: RMB100,500,000) carried forward. These losses related to subsidiaries that have a history of losses, have not expired, and may not be used to offset taxable income elsewhere in the Group. The subsidiaries have neither any taxable temporary difference nor any tax planning opportunities available that could partly support the recognition of these losses as deferred tax assets. On this basis, the Group has determined that it cannot recognise deferred tax assets on the tax losses carried forward. Further details are disclosed in note 16 to the financial statements.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Provision for expected credit losses on trade receivables and other receivables

Except for certain trade receivables, other receivables that do not share similar characteristics and the ECLs are individually assessed based on customers' credit, estimated future cash flow, the Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates of trade receivables are based on ageing analysis of customers that have similar loss patterns.

The provision matrix is initially based on the Group's historical observed default rates. The Group calibrates the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic products) are expected to deteriorate over the next year which can lead to an increased number of defaults, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Estimation uncertainty (Continued)

Provision for expected credit losses on trade receivables and other receivables (Continued)

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables and other receivables are disclosed in note 20 and note 21 to the financial statements.

Estimation of the rebates earned from media publishers

In the Group's intelligent marketing solutions services revenue, certain rebates granted by the media publishers are variable and outside the entity's influence. In some circumstances, such as launch of a new rebate program, whereby the management cannot reasonably estimate the amount of rebates that the Group is expected to earn, the Group only recognises the minimum amount of rebates as agreed by the media publishers, which is highly probable that a significant reversal in the amount of cumulative costs recognised will not occur. Management updates its estimate at each reporting date when additional information becomes available.

Estimation of the fair value of certain financial assets at fair value through profit or loss

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Group uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. Further details are contained in note 35 to the financial statements.

4. OPERATING SEGMENT INFORMATION

The Group is principally engaged in providing intelligent marketing solutions services, e-commerce and distribution service and other business to customers in Chinese Mainland.

IFRS 8 *Operating Segments* requires operating segments to be identified on the basis of internal reporting about components of the Group that are regularly reviewed by the chief operating decision-maker in order to allocate resources to segments and to assess their performance. The information reported to the directors of the Company, who are the chief operating decision makers, for the purpose of resource allocation and assessment of performance does not contain discrete operating segment financial information and the directors reviewed the financial results of the Group as a whole. Therefore, no further information about the operating segment is presented.

Geographical information

As the Group generates 98% (2023:97%) of its revenues in Chinese Mainland and the principal assets employed by the Group are located in Chinese Mainland. Therefore, no geographical information is presented.

Information about one major customer

Revenue of approximately RMB282,046,000 (2023: RMB259,245,000) was derived from sales to a single customer, including sales to a group of entities which are known to be under common control with that customer.

(ii) Performance obligations

Information about the Group's performance obligations is summarised below:

Intelligent marketing solutions

The performance obligation is satisfied on a user's optimised click (oCPC) on one of the customer-sponsored links or on the optimised number of times that the advertisement has been displayed for cost per thousand impression advertising arrangement (oCPM). The payment is generally due within 180 days from the date of billing.

E-commerce service solutions

Live streaming business performance obligation is satisfied at the point in time when the live broadcast duration and sale transaction of goods is completed. The payment is generally due within 75 days from the date of billing.

Revenues from sales of products through the e-commerce platforms and distribution channels are recognised when control of the promised goods is transferred to the customers, which generally occurs upon the acceptance of the goods by the customers. Short-term advances are normally required before the delivery of goods.

Innovative business

Short-term advances are normally required before rendering the short play business.

The following table shows the amounts of revenue recognised in the current reporting period that were included in the contract liabilities at the beginning of the reporting period:

	2024 RMB'000	2023 RMB'000
Revenue recognised that was included in contract liabilities at the beginning of the reporting period:	50,360	36,535

There is no revenue recognised in the current reporting period from performance obligations satisfied in previous periods for the years ended 31 December 2024 and 2023, respectively.

The transaction prices allocated to the remaining performance obligations unsatisfied as at 31 December 2024 are RMB99,528,000 (31 December 2023: RMB50,360,000).

All the remaining performance obligations unsatisfied as at 31 December 2024 are expected to be recognised within one year as the performance obligations are part of the contracts that have an original expected duration of one year or less.

10. INCOME TAX

The Group is subject to income tax on an entity basis on profits arising in or derived from the jurisdictions in which subsidiaries of the Group are domiciled and operate:

Cayman Islands

Under the current laws of the Cayman Islands, the Company is not subject to tax on income or capital gains. In addition, upon payments of dividends by the Company to its shareholders, no Cayman Islands withholding tax is imposed.

British Virgin Islands

Under the current laws of the British Virgin Islands (“BVI”), Netjoy Holdings Limited is not subject to tax on income or capital gains. In addition, upon payments of dividends by Netjoy Holdings Limited to its shareholder, no BVI withholding tax is imposed.

Hong Kong

Hong Kong profits tax was provided at the rate of 16.5% (2023: 16.5%) on the estimated assessable profits of the Group’s companies operating in Hong Kong during the year.

Chinese Mainland

Pursuant to the Enterprise Income Tax Law of the PRC and the respective regulations, the subsidiaries which operate in Chinese Mainland are subject to Enterprise Income Tax (“EIT”) at a rate of 25% on the taxable income. Preferential tax treatment is available to Netjoy Network, since it is certified as High and New Technology Enterprises, and Netjoy Network is subject to a preferential income tax rate of 15% from 2024 to 2026.

According to Several Opinions of the State Council on Supporting the Construction of Kashgar and Horgos Economic Development Zones (國務院關於支持喀什霍爾果斯經濟開發區建設的若干意見) promulgated on 30 September 2011, and Notice of the Preferential Policies of Enterprise Income Tax in the Two Special Economic Development Zones of Kashgar and Horgos in Xinjiang (財政部、國家稅務總局關於新疆喀什霍爾果斯兩個特殊經濟開發區企業所得稅優惠政策) promulgated by the Ministry of Finance of the PRC (中國財政部) and the State Administration of Taxation of the PRC (中國國家稅務總局) on 29 November 2011, from 2010 to 2020, the newly established enterprises in Kashgar and Horgos within the Catalog of Encouraged Industries in Poverty Areas of Xinjiang for Preferential Tax Treatment (新疆困難地區重點鼓勵發展產業企業所得稅優惠目錄) granted the preferential tax treatment of five-year EIT exemption beginning from the first taxable year after the becoming profitable. Upon the expires of the tax exemption period, the local share of EIT would be exempted for another five years, and a subsidy would be granted by the Finance Bureau of the Development Zone in the form of rewards. Quantum Culture Media was entitled to the PRC tax bureau for EIT exemption from 1 January 2017 to 31 December 2021 and the exemption of EIT charged by local tax bureau according to Preferential Filing Record of EIT (企業所得稅優惠事項備案表) from 1 January 2022 to 31 December 2026 and obtained the related approval from the PRC tax bureau, which takes account for 40% of the total EIT.

Year ended 31 December 2024

10. INCOME TAX (Continued)

Year ended 31 December 2024

11. DIVIDENDS

The Board did not recommend the payment of any dividend for the year ended 31 December 2024 (2023: Nil).

12. (LOSS)/EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The calculation of the basic (loss)/earnings per share amount is based on the profit for the year attributable to ordinary equity holders of the parent, and the weighted average number of ordinary shares of 764,181,379 (2023: 772,585,362) outstanding during the year.

The calculation of the diluted (loss)/earnings per share amount is based on the profit for the year attributable to ordinary equity holders of the parent. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares outstanding during the year, as used in the basic earnings per share calculation, and the weighted average number of ordinary shares assumed to have been issued at the exercise price on the deemed exercise or conversion of all dilutive potential ordinary shares into ordinary shares.

The calculation of basic (loss)/earnings per share is based on:

	2024 RMB'000	2023 RMB'000
Earnings		
(Loss)/profit attributable to ordinary equity holders of the parent	(459,701)	8,796
	Number of shares	
	2024	2023
Shares		
Weighted average number of ordinary shares outstanding during the year used in the basic earnings per share calculation	764,181,379	772,585,362
Effect of dilution – weighted average number of ordinary shares:		
Restricted share units	–	1,789,500
Total	764,181,379	774,374,862

Because the diluted loss per share amount is increased when taking share options and RSUs into account, RSU and share options had anti-dilutive effect on 2024 diluted loss per share. Therefore, the diluted earnings per share amounts are based on the loss for the year of RMB459,701,000 and the weighted average number of ordinary shares of 764,181,379 outstanding during the year.

16. DEFERRED TAX (Continued)**Deferred tax assets (Continued)**

For presentation purposes, certain deferred tax assets and liabilities have been offset in the statement of financial position. The following is an analysis of the deferred tax balances of the Group for financial reporting purposes:

	2024 RMB'000	2023 RMB'000
Net deferred tax assets recognised in the consolidated statement of financial position	71,018	64,012
Net deferred tax liabilities recognised in the consolidated statement of financial position	33	707

The Group is liable for withholding taxes on dividends distributed by the subsidiaries established in Chinese Mainland in respect of earnings generated from 1 January 2008. The applicable rate is 5% or 10% for the Group.

Deferred tax assets have not been recognised in respect of the following items:

	2024 RMB'000	2023 RMB'000
Unused tax losses	211,000	100,500
Deductible temporary differences	322,600	12,562
Total	533,600	113,062

The tax loss of the Group is arising in Chinese Mainland that will expire in one to five years for offsetting against future taxable profits.

Deferred tax assets have not been recognised in respect of the above items as it is not considered probable that taxable profits will be available against which the above items can be utilised.

As of 31 December 2024, no deferred tax has been recognised for withholding taxes that would be payable on the unremitted earnings that are subject to withholding taxes of the Group's subsidiaries established in Chinese Mainland. In the opinion of the directors, it is not probable that these subsidiaries will distribute such earnings in the foreseeable future. The aggregate amount of temporary differences associated with investments in subsidiaries in Chinese Mainland for which deferred tax liabilities have not been recognised totalled approximately RMB22,147,000 at 31 December 2024 (2023: RMB33,802,000).

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

The Group's trading terms with its customers are mainly on credit, except for new customers, where payment in advance is normally required. The credit period is generally 30 to 180 days. The Group seeks to maintain strict control over its outstanding receivables and overdue balances are reviewed regularly by management. In view of the aforementioned and the fact that the Group's trade receivables relate to a large number of diversified customers, there is no significant concentration of credit risk, except RMB399,201,000 (2023: RMB397,335,000) is derived from one (2023: one) major customer. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

	2024 RMB'000	2023 RMB'000
Less than 1 year	1,244,364	1,507,006

At beginning of year	247,678	207,573
Impairment losses, net (note 7)	110,167	40,105
At end of year	357,845	247,678

Year ended 31 December 2024

20. TRADE AND NOTES RECEIVABLES (Continued)

An impairment analysis is performed at each reporting date. For those trade receivables which do not share similar characteristic, the provision are assessed individually based on customers' credit and estimated future cash flow. For trade receivables that have similar characteristic, the provision rates are based on ageing analysis. The ageing of trade receivables is calculated based on the date of revenue recognition. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

As at 31 December 2024, the accumulated individual impairment was RMB291,107,000 (2023: RMB171,598,000), with carrying amounts before impairment of RMB315,148,000 (2023: RMB171,598,000), respectively. The increasing amounts is mainly due to the impairment of trade receivables due from one of the associates that has turn to significant operation and financial difficulty since 2024.

Set out below is the information about the ageing of the trade receivables as at the end of the reporting period, based on the past due date and credit risk exposure on the Group's trade receivables using a provision matrix:

As at 31 December 2024

	Expected credit loss rates	Gross carrying amounts RMB'000	Impairment RMB'000
Collective impairment:			
Less than 1 year	1.30%	1,256,836	16,315

As at 31 December 2024, trade receivables from certain customers were pledged to secure trade payables amounting to RMB150,000,000 (2023: RMB150,000,000) granted to the Group (note 23).

Year ended 31 December 2024

20. TRADE AND NOTES RECEIVABLES (Continued)

Transferred financial assets that are not derecognised in their entirety

At 31 December 2024, the Group endorsed certain notes receivable accepted by banks in Chinese Mainland (the “**Endorsement**”) with a carrying amount of RMB6,769,000 (2023: RMB6,900,000) to certain banks. In the opinion of the directors, the Group has retained the substantial risks and rewards, which include default risks relating to such Endorsed Bills, and accordingly, it continued to recognise the full carrying amounts of the Endorsed Bills and the associated trade payables settled. Subsequent to the Endorsement, the Group did not retain any rights on the use of the Endorsed Bills, including the sale, transfer or pledge of the Endorsed Bills to any other third parties.

Transferred financial assets that are derecognised in their entirety

At 31 December 2024, the Group endorsed certain notes receivable accepted by banks in Chinese Mainland (the “**Derecognised Bills**”) with a carrying amount in aggregate of RMB15,802,000. The Derecognised Bills had a maturity of five to six months at the end of the reporting period. In accordance with the Law of Negotiable Instruments in the PRC, the holders of the Derecognised Bills may exercise the right of recourse against any, several or all of the persons liable for the Derecognised Bills, including the Group, in disregard of the order of precedence (the “**Continuing Involvement**”). In the opinion of the directors, the risk of the Group being claimed by the holders of the Derecognised Bills is remote in the absence of a default of the accepted banks. The Group has transferred substantially all risks and rewards relating to the Derecognised Bills. Accordingly, it has derecognised the full carrying amounts of the Derecognised Bills. The maximum exposure to loss from the Group’s Continuing Involvement in the Derecognised Bills and the undiscounted cash flows to repurchase these Derecognised Bills is equal to their carrying amounts. In the opinion of the directors, the fair values of the Group’s Continuing Involvement in the Derecognised Bills are not significant.

21. PREPAYMENTS, OTHER RECEIVABLES AND OTHER ASSETS

21. PREPAYMENTS, OTHER RECEIVABLES AND OTHER ASSETS (Continued)

The movements in the loss allowance for impairment of other receivables and deposits are as follows:

	2024 RMB'000	2023 RMB'000
At beginning of year	17,477	15,596
Impairment losses, net (<i>note 7</i>)	182,759	1,881
At end of year	200,236	17,477

The Group applies a general approach in calculating ECL for other receivables and deposits. Other receivables and deposits related to debtors that are in default are classified as Stage 3. The remaining other receivables and deposits are classified as Stage 1 without any significant increase in credit risk since initial recognition. Their recoverability was assessed with reference to the credit status of the debtors, and the expected credit loss as at 31 December 2024 was considered to be insignificant.

In 2024, certain prepayments were made in supply chain business in an amount of RMB170,515,000 to the suppliers and the fund was then transferred to the supply chain transaction customer who subsequently misappropriated the amounts. The Group has filed both criminal and civil proceedings against relevant parties, and the court concluded that these parties should refund to the Group, the Group has recorded the refund receivable in other receivables. In view of the significant uncertainty in recoverability, impairment losses RMB142,555,000 have been recognised on such other receivables to reflect the expected credit losses. The Group terminated this supply chain business in late 2024.

Year ended 31 December 2024

22. CASH AND CASH EQUIVALENTS AND RESTRICTED CASH (Continued)

At the end of the reporting period, the cash and bank balances of the Group denominated in HK\$ and US\$ amounted to RMB16,012,000 (2023: RMB188,000). The RMB is not freely convertible into other currencies, however, under Chinese Mainland's Foreign Exchange Control Regulations and Administration of Settlement, and Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short term time deposits are made for varying periods of between one day and three months depending on the immediate cash requirements of the Group, and earn interest at the respective short term time deposit rates. The bank balances and restricted cash are deposited with creditworthy banks with no recent history of default.

Among of restricted cash, amounting to RMB4,117,000 as at 31 December 2024 (2023: RMB1,146,000) were frozen by the local regulators subject to resolutions of certain disputes.

23. TRADE PAYABLES

The bank borrowings carry interest at rates ranging from 1.2% to 4.00% (2023: 2.30% to 4.30%) per annum.

As at 31 December 2024, no certain loans were secured by the pledge of the Group's inventories (2023: RMB5,387,000).

As at 31 December 2024, certain loans were secured by the pledge of the Group's restricted cash amounting to RMB130,000,000 (2023: nil).

26. CONTRACT LIABILITIES

	2024 RMB'000	2023 RMB'000	2022 RMB'000
Included in current liabilities			
Online marketing solutions services	99,528	50,360	36,535

Contract liabilities include short-term advances received to provide intelligent marketing solutions services. The increase in contract liabilities in 2023 and 2024 was mainly due to the increase in short-term advances received from customers in relation to the provision of intelligent marketing solutions services at the end of the year.

Contract liabilities primarily consist of the unrecognised revenue on the amount prepaid by customers, from online marketing services where there is still an implied obligation to be provided by the Group.

Year ended 31 December 2024

28. SHARE-BASED PAYMENTS

The below stock incentive plans allow the Company to offer the below incentive awards to employees of the Group.

The expense arising from equity-settled share-based payments for the year ended 31 December 2024, was RMB23,611,000 (2023: RMB13,495,000).

(a) Share options

The Company operates a share option scheme (the “**Share Option Scheme**”) for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group’s operations. Eligible participants of the Share Option Scheme include the Company’s directors, including independent non-executive directors, other employees of the Group, the Company’s shareholders, and any non-controlling shareholder in the Company’s subsidiaries. The Share Option Scheme became effective on 17 November 2020 and, unless otherwise cancelled or amended, will remain in force for 10 years from the effective date.

The maximum number of unexercised share options currently permitted to be granted under the Share Option Scheme is an amount equivalent, upon their exercise, to 10% of the shares of the Company in issue at any time. The maximum number of shares issuable under share options to each eligible participant in the Share Option Scheme within any 12-month period is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to shareholders’ approval in a general meeting.

Share options granted to a director, chief executive or substantial shareholder of the Company, or to any of their associates, are subject to approval in advance by the independent non-executive directors. In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, or to any of their associates, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the price of the Company’s shares at the date of grant) in excess of HK\$5 million, within any 12-month period, are subject to shareholders’ approval in advance in a general meeting.

The offer of a grant of share options may be accepted within 20 days from the date of offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determinable by the directors, and commences after a vesting period of one to three years and ends on a date which is not later than five years from the date of offer of the share options or the expiry date of the Share Option Scheme, if earlier.

The exercise price of share options is determinable by the directors, but may not be less than the highest of (i) the Stock Exchange closing price of the Company’s shares on the date of grant of the share options; (ii) the average Stock Exchange closing price of the Company’s shares for the five business days immediately preceding the date of grant; and (iii) the nominal value of a share on the date of grant.

There are no cash settlement alternatives. The Group does not have a past practice of cash settlement for these share options. The Group accounts for the Share Option Scheme as an equity-settled plan.

Share options do not confer rights on the holders to dividends or to vote at shareholders’ meetings.

Year ended 31 December 2024

28. SHARE-BASED PAYMENTS (Continued)

* The exercise price of the share options is subject to adjustment in the case of rights or bonus issues, or other similar changes in the Company's share capital.

Year ended 31 December 2024

28. SHARE-BASED PAYMENTS (Continued)

(a) Share options (Continued)

The expected life of the options is based on the Share Option Scheme and is not necessarily indicative of the exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome.

No other feature of the options granted was incorporated into the measurement of fair value.

At the end of the reporting period, the Company had 63,720,000 share options outstanding under the Share Option Scheme. The exercise in full of the outstanding share options would, under the present capital structure of the Company, result in the issue of 63,720,000 additional ordinary shares of the Company and additional share capital of RMB23,000 (before issue expenses).

At the date of approval of these financial statements, the Company had 59,924,000 share options outstanding under the Share Option Scheme, which represented approximately 8% of the Company's shares in issue as at that date.

(b) RSUs

The Company adopted the plan whereby the Company provided additional incentives to the Group's employees and directors through the issuance of RSUs. The units vest over a requisite service period of 3 years.

The following RSUs were outstanding during the year:

	2024 Number of RSUs 000	2023 Number of RSUs 000
At 1 January	40,820	1,230
Granted during the year	–	40,000
Vested during the year	(223)	(410)
Forfeited during the year	(1,024)	–
At 31 December	39,573	40,820

RSUs were granted on 28 December 2023 with the fair value of HK\$0.55 (5 September 2022: HK\$1.27). The valuation of the RSUs was based on the ordinary stock price on the grant date.

The Group recognised RSU expenses of RMB11,571,000 (31 December 2023: RMB674,000) during the year ended 31 December 2024.

Year ended 31 December 2024

29. RESERVES

The amounts of the Group's reserves and the movements therein for the reporting periods are presented in the consolidated statement of changes in equity of the Group.

Share option reserve

The share-based payment reserve represents the compensation reserve recognised due to equity-settled share-based payment transactions.

Capital reserve

The capital reserve of the Group represents the share premium of the Company and the sum of capital reserves of the entities now comprising the Group, after elimination of intra-group balances, attributable to the controlling shareholder.

Statutory surplus reserve

In accordance with the Company Law of the PRC, the subsidiaries of the Group which are domestic enterprises are required to allocate 10% of their profit after tax, as determined in accordance with the relevant PRC GAAP, to their statutory surplus reserve until the reserve reaches 50% of their registered capital. Subject to certain restrictions set out in the Company Law of the PRC, part of the statutory surplus reserve may be converted to share capital, provided that the remaining balance after the capitalisation is not less than 25% of the registered capital.

Fair value reserve of financial assets at fair value through other comprehensive income

Other comprehensive income represents changes in fair value from financial assets at fair value through other comprehensive income.

30. BUSINESS COMBINATION

On 31 May 2024, the Group acquired a 51% equity interest in Shanghai Tetui Cultural Media Co., Ltd. ("**Tetui Cultural**") and its subsidiary Shanghai Chuangjie Network Technology Co., Ltd. ("**Chuangjie Network**") with Tetui Cultural accounting for 76.5% of equity attributable. The acquisition was part of the Group's strategy to expand its market share in intelligent marketing solutions services. The purchase consideration for the acquisition was in the form of cash via capital injection, amounting to RMB1,040,816, and was injected into Tetui Cultural to acquire the equity interest on the acquisition date.

35. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

Management has assessed that the fair values of cash and cash equivalents, trade receivables, trade payables, current portion of financial assets included in prepayments, other receivables and other assets, current portion of debt instruments, interest-bearing bank borrowings and financial liabilities included in other payables and accruals approximate to their carrying amounts largely due to the short-term maturities of these instruments.

The non-current portion of trade receivables, debt instruments at amortised cost and other liabilities of the Group approximate their fair values because their carrying amounts are present value and the internal rates of return are close to the rates currently available for instruments with similar terms, credit risk and remaining maturities.

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance department reports directly to the finance manager. At each reporting date, the finance department analysed the movements in the values of financial instruments and determined the major inputs applied in the valuation. The valuation was reviewed and approved by the finance manager. The valuation process and results are discussed with the directors once a year for annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The fair values of unlisted equity investments have been estimated based on the comparable companies analysis in terms of a series of key ratios. Management believes that the estimated fair values resulting from the valuation technique, which are recorded in the consolidated statements of financial position, and the related changes in fair values, which are recorded in profit or loss, are reasonable, and that they were the most appropriate values as at 31 December 2024.

The Group has estimated the fair value of its investment in stores with floating repayments, notes receivable and other liabilities using a discounted cash flow valuation model based on the market interest rates of instruments with similar terms and risks.

The fair value of convertible loans included in financial assets at fair value through profit or loss has been determined by reference to the valuation carried out by an external independent valuer by using binomial model. The model involves estimates on time to expiration, risk free rate, share price, expected volatility, discount rates and others. The significant unobservable input used in the fair value measurement is the expected volatility. The fair value measurement is positively correlated to the expected volatility. Any changes in the major inputs used in the model will result in changes in the fair value of financial assets at fair value through profit or loss. The variables and assumptions used in calculating the fair value are based on the directors' best estimate.

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group has various financial assets and liabilities such as cash and cash equivalents, trade receivables, trade payables and other payables, which arise directly from its operations.

The main risks faced by the Group are credit risk and liquidity risk. The Group does not hold or issue derivative financial instruments either for hedging or trading purposes. The board of directors reviews and agrees policies for managing each of the risks which are summarised below:

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables).

The Group trades only with recognised and creditworthy third parties and related parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant.

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2024 and 31 December 2023.

The Group monitors capital using a debt-to-asset ratio which is total liabilities divided by total assets. The debt-to-asset ratios as at the end of the reporting periods were as follows:

	2024 RMB'000	2023 RMB'000
Total liabilities	1,448,882	1,261,274
Total assets	2,394,317	2,646,450
