VOLUNTARY ANNOUNCEMENT

This announcement is made by Q Technology (Group) Company Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) on a voluntary basis. Unless otherwise specified, the statistical basis for sales volume of products referred to in this announcement shall be consistent with those set forth in the announcement of the Company dated 11 November 2025.

The board (the “**Board**”) of directors (the “**Director(s)**”) of the Company wishes to announce that the sales volume of major products of the Group and Kunshan Q Tech Microelectronics (India) Private Limited (“**Q Tech India**”), a joint venture of the Company, in June 2026 is as follows:

I. The Sales Volume of Major Products of the Group

The YoY increase in the total sales volume of camera module and LiDAR products was mainly attributable to the Group's increased share of cooperation with multiple domestic and international mobile phone customers, with significant year-on-year growth in camera modules and LiDAR products in automotive applications; while the MoM decrease was mainly attributable to the customer project cycles.

The MoM and YoY decrease in the sales volume of biological recognition module products was mainly attributable to the customer project cycles and the weak demand in the smartphone market, which was impacted by rising memory prices.
