The board of directors of the Company (the "**Board**") wishes to inform the shareholders of the Company (the "**Shareholders**") and potential investors that, based on a preliminary assessment of the latest available unaudited consolidated management accounts of the Group for the six months ended 30 June 2026 (the "**Period**"), the Group is expected to record a net profit attributable to owners of the Company in the range of approximately RMB3.5 million to RMB5.5 million for the Period, as compared with a net loss attributable to owners of the Company of approximately RMB36.8 million for the six months ended 30 June 2025. The Group achieved a turnaround from loss to profit as compared to the corresponding period in the first half of last year primarily due to the following factors:

(i) **Significant improvement in revenue and gross profit from core business:** The Group's sales volume and revenue from integrated circuit products increased significantly year-over-year, and overall gross profit from these products rose substantially compared to the same period last year; and

(ii) **Increase in gain from changes in fair value of financial assets held for trading:** Due to fluctuations in the domestic capital markets, the fair value of the Group's financial assets held for trading increased at the end of the Period, resulting in a higher gain from changes in fair value recognised as compared to the same period last year.

The Company is still in the process of preparing and finalising the interim results of the Group for the six months ended 30 June 2026.
