This resolution is subject to the consideration at the EGM.

LETTER FROM THE BOARD

ii. THE RESOLUTION REGARDING THE PLAN ON THE SPIN-OFF AND LISTING OF SUBSIDIARY JCC COPPER FOIL ON THE MAIN BOARD OF THE STOCK EXCHANGE OF HONG KONG LIMITED

JCC Copper Foil proposes to conduct an initial public offering of shares (H shares) overseas and seek for listing on the Main Board of the Stock Exchange. The preliminary issuance plan related to the Spin-off is as follows:

- (I) Place of listing: Main Board of the Stock Exchange.
- (II) Types and par value of shares to be issued: shares to be issued by JCC Copper Foil in the Issuance will be overseas listed shares (H shares) to be listed on the Main Board of the Stock Exchange, all of which will be ordinary shares. The shares will be denominated in RMB with a par value of RMB1.00 per share and subscribed in foreign currency.
- (III) Method of issuance: method adopted by JCC Copper Foil for the Issuance will be a public offering in Hong Kong and an international placement of new shares. In accordance with international practices and capital market conditions, the international placing may include, but is not limited to: (1) an offshore offering under Regulation S of the U. S. Securities Act of 1933, as amended, (2) a U. S. offering to qualified institutional investors pursuant to Rule 144A (or other exemptions) under the U. S. Securities Act of 1933, as amended. The specific method of issuance shall be determined by the board of directors of JCC Copper Foil and/or its authorised persons as authorised by the general meeting of JCC Copper Foil in accordance with legal requirements, subject to approval from or filing with the regulatory authorities, and based on market conditions.
- (IV) Size of issuance: subject to compliance with regulatory requirements such as the minimum offering ratio, minimum public float and the minimum free float ratio at the place of the Spin-off and Listing, the proposed initial size of the Issuance of H shares shall not exceed 15% of the total share capital of JCC Copper Foil after the issuance (prior to the exercise of the over-allotment option). In the event of strong market demand, an over-allotment may be carried out, and the scale of the over-allotment is proposed to be no more than 15% of the aforementioned initial issue size of H shares. The final issuance ratio and the number of shares to be issued shall be determined by the board of directors of JCC Copper Foil and/or its authorised persons as authorised by the general meeting of JCC Copper Foil in accordance with legal requirements, subject to approval from or filing with the regulatory authorities, and based on market conditions. The increase arising therefrom in the registered capital of JCC Copper Foil shall also be subject to the actual number of new shares issued upon completion of the issue, and shall only be implemented upon obtaining approval from domestic and overseas regulatory authorities, the Stock Exchange and other relevant authorities.

LETTER FROM THE BOARD

- (V) Issuance target: Issuance will be offered globally, targeting institutional investors, enterprises and natural persons outside the PRC, as well as qualified domestic institutional investors and other investors that comply with regulatory requirements.
- (VI) Pricing method: issue price of the Issuance will be determined through negotiations between the board of directors of JCC Copper Foil and/or its authorised persons as authorised by the general meeting of JCC Copper Foil and the lead underwriter, taking into account the interests of existing shareholders of JCC Copper Foil, the acceptance of investors, and the risks of issuance, and in accordance with international practices, based on the capital market conditions at the time of issuance, the general valuation level of the industry in which JCC Copper Foil operates and market subscription conditions, and results from roadshows and book-building.
- (VII) Time of issuance: JCC Copper Foil will choose the appropriate timing and issuance window to complete the Issuance and listing within the validity period of the resolutions of the general meeting of JCC Copper Foil and the approvals from domestic and overseas regulatory authorities. The specific date of issuance will be determined by the board of directors of JCC Copper Foil and/or its authorised persons as authorised by the general meeting of JCC Copper Foil, taking into account the conditions in domestic and overseas capital markets, the progress of obtaining approval from and filing with the domestic and overseas regulatory authorities, and other relevant circumstances.
- (VIII) Principles of offering: number of shares to be allocated to subscribers in the Hong Kong public offering will be determined based on the number of valid applications received from subscribers. The allocation benchmark may vary according to the number of shares validly applied for by subscribers in the Hong Kong public offering, but it shall be allocated in strict accordance with the proportions specified (or waived) by the Listing Rules. Where appropriate, the allotment of shares may also be made by drawing of lots, whereby some subscribers may be allotted more shares than other subscribers who have applied for the same number of shares, while subscribers whose applications are not successful may not be allotted any shares. The ratio between the public offering portion and the international placing will be subject to a “clawback” mechanism in accordance with the oversubscription multiples under the Listing Rules and relevant waiver as may be granted by the Stock Exchange (where applicable).

LETTER FROM THE BOARD

The proportion to be taken up by the international placing depends on the proportion of the Hong Kong public offering (after clawback). The allocation targets and allocation size of the international placing will be determined based on accumulated bids, with due consideration of various factors, including but not limited to the overall oversubscription multiples, the quality of the investors, the importance of the investors and their performance in past transactions, the timing of the investors' orders, the size of the orders, the sensitivity of the price, the level of participation in the pre-roadshows, and the anticipation of such investors' aftermarket behaviour. Priority will be given to the cornerstone investor(s), if any, in the allocation of the international placing in accordance with the relevant agreements with the cornerstone investor(s).

The announcement regarding the Issuance does not constitute an offer to sell the shares and JCC Copper Foil does not induce any person to make an offer to purchase the shares in any country or jurisdiction where the offer or sale of the shares of JCC Copper Foil is not permitted. JCC Copper Foil may not sell the shares or accept an offer to purchase the shares (other than to/from the cornerstone investor(s), if any) until the prospectus has been formally issued.

- (IX) Conversion to a company limited by shares offered and listed overseas: JCC Copper Foil will be converted to a company limited by shares offered and listed overseas in accordance with the requirements of the laws and regulations and the regulatory authorities, and will issue H shares on the terms and conditions set out in the prospectus and be listed on the Main Board of the Stock Exchange.
- (X) Application for conversion of domestic unlisted shares into H shares: subject to compliance with the regulatory policies and requirements of CSRC and relevant regulatory authorities of the jurisdiction where the shares are listed, JCC Copper Foil proposes to apply at an appropriate timing (either prior to the Issuance or following the Issuance and listing) to convert all or a portion of its domestic unlisted shares issued prior to the Issuance into overseas listed shares (H shares) for listing and trading on the Main Board of the Stock Exchange, and to make the relevant filing with the CSRC accordingly.
- (XI) Other matters relating to the Issuance: JCC Copper Foil will further confirm and adjust the strategic placing, use of proceeds, method of underwriting and other matters related to the Issuance based on the implementation of the plan on the Issuance and listing, market conditions, regulatory policies adjustment and the opinions of regulatory authorities.

This resolution is subject to the consideration at the EGM.

Pursuant to the provisions of the relevant laws and regulations including the Provisions on the Spin-off, the Board analysed the objectives, commercial reasonableness, necessity and feasibility of the Spin-off as follows:

(I) Objectives of the Spin-off

1. Seize Strategic Opportunities Brought by Industrial Upgrading of Copper Foil to Boost Core Competitiveness

Electrolytic copper foil is a critical foundational material for strategic emerging industries including electronic information and new energy. Driven jointly by market demand and policies, competition within the copper foil sector now centres on comprehensive strengths such as breakthroughs in core technologies,

LETTER FROM THE BOARD

R&D of high-end products and industrial chain coordination. Market share is continuously concentrating among leading enterprises with technological and scale advantages. The Spin-off will enable JCC Copper Foil to concentrate on its core copper foil business. The company will ramp up the deployment of production lines for high-end copper foil and market expansion efforts, continuously refine its product portfolio, strengthen coordinated support from upstream copper resources, and raise its market share and core competitiveness in this specific market sector.

2. *Leverage Policy Support from the Capital Market to Diversify Financing Channels and Drive High-quality Development*

In 2024, the State Council issued the Several Opinions on Strengthening Supervision, Preventing Risks and Promoting High-quality Development of the Capital Market* (《關於加強監管防範風險推動資本市場高質量發展的若干意見》). The document calls for coordinated advancement of high-standard institutional opening-up and security of the capital market, improvement of cross-border connectivity mechanisms for capital markets, and expansion of overseas listing and financing channels for enterprises. The Implementation Plan for High-quality Development of the Copper Industry (2025–2027)* (《銅產業高質量發展實施方案(2025–2027年)》) clearly directs financial institutions to scale up support for key areas and weak links in the copper industry, and encourages eligible copper enterprises to access financing via capital markets.

The Spin-off will facilitate the independent listing of JCC Copper Foil. It will diversify financing instruments and improve capital allocation efficiency, thereby effectively cutting financing costs and securing sufficient capital for further development of JCC Copper Foil's core and cutting-edge technologies. Meanwhile, the Spin-off will elevate the Company's overall operational capacity, deliver steady investment returns to all shareholders, and support the Company's sustained and sound growth.

(II) Commercial Reasonableness and Necessity of the Spin-off

1. *Further Refocus Core Businesses and Optimise Industrial Layout*

The Company has built a fully integrated copper industrial chain covering exploration, mining, mineral processing, smelting and deep processing. JCC Copper Foil, by contrast, specialises in the R&D, production and sales of high-performance electrolytic copper foil. The two entities differ notably in technical routes, investment cycles, market cycles and operational logic. The Spin-off

LETTER FROM THE BOARD

will further clarify strategic positioning, streamline decision-making processes and clarify operational responsibilities. It allows the Company to pool resources to consolidate its leading position in traditional core segments including copper mining, mineral processing and smelting, and optimise internal resource allocation. At the same time, JCC Copper Foil will gain independent operational autonomy, lifting the Company's overall operational efficiency and refined management capabilities.

2. *Empower Long-term Growth of the Copper Foil Business and Consolidate Core Competitive Edges*

As a world-leading capital market platform, the Stock Exchange will provide JCC Copper Foil with efficient market-based financing instruments, enhancing financing flexibility and efficiency, sustaining business innovation vitality and supporting sound, sustainable development. After the Spin-off, JCC Copper Foil will also enjoy greater brand recognition and social influence, solidify its competitive standing and advantages in this specialised segment, and boost the overall competitiveness of its electrolytic copper foil business.

3. *Establish an Independent Listed Platform for High-end Copper Foil and Unlock Valuation Potential of the Segment*

The Company operates multiple business segments, each subject to distinct valuation methodologies. The Spin-off will help JCC Copper Foil achieve fair market valuation, fully unlock its intrinsic value and lift the Company's overall valuation. Furthermore, following the Spin-off and Listing, JCC Copper Foil can adopt a more agile, streamlined organisational and management framework, roll out incentive schemes tailored to its development trajectory, attract and retain top talent, and fully unleash corporate innovation momentum. Shareholders of the Company will benefit from the expanding high-end copper foil business, maximising overall shareholder value of the Company.

(III) Feasibility of the Spin-off

The Spin-off complies with all relevant requirements set out under the Provisions on the Spin-off governing listed companies seeking to spin off their subsidiaries for independent listing, and is therefore feasible.

This resolution is subject to the consideration at the EGM.

LETTER FROM THE BOARD

x. THE RESOLUTION REGARDING THE AUTHORISATION BY THE GENERAL MEETING TO THE BOARD AND ITS AUTHORISED PERSONS TO DEAL WITH MATTERS RELATING TO THE SPIN-OFF

To ensure smooth implementation of matters in relation to the Spin-off, the Board intends to propose to the general meeting of the Company to authorise the Board and its authorised persons, at their full discretion, to handle all matters regarding the Spin-off, which include but not limited to the following:

1. The Board and its authorised persons are authorised to carry out specific work on behalf of the Company in respect of the Spin-off, including submission of applications, record-filing, communication and coordination with relevant authorities including the CSRC, the Stock Exchange and state-owned assets supervision and administration authorities.
2. The Board and its authorised persons are authorised to handle all matters relating to the Spin-off with full power in light of adjustments to laws, regulations and policies, opinions of regulatory authorities or the implementation progress of the Spin-off, including making adjustments, modifications, supplements and improvements to relevant plans and preliminary plans.
3. In respect of the Spin-off, the Board and its authorised persons are authorised to fully exercise the shareholder rights of the Company in equity enterprises including JCC Copper Foil on behalf of the Company, make resolutions in relation to all matters concerning the Spin-off of JCC Copper Foil which ought to be passed by the general meeting of the Company, and sign legal documents such as resolutions, listing application documents, declarations and undertakings in connection with the Issuance and listing, save for matters which must be resolved by the general meeting of the Company as required by laws and regulations.
4. The Board and its authorised persons are authorised to decide on other specific matters in connection with the Spin-off, including but not limited to the engagement of relevant intermediaries, execution, delivery of necessary agreements and legal documents and relevant information disclosure in accordance with applicable regulatory rules.

LETTER FROM THE BOARD

5. The Board or its authorised persons are authorised to decide whether to convert all or part of the unlisted domestic shares held by the Company in JCC Copper Foil (including the specific proportion and quantity) into overseas listed shares (H shares) for trading on the Main Board of the Stock Exchange before the Issuance or after the Issuance and listing of JCC Copper Foil, formulate a specific full circulation plan, and handle all matters in connection with converting such unlisted domestic shares into overseas listed shares for trading on the Stock Exchange.

The abovementioned authorisation shall be valid for 24 months from the date on which the resolution is considered and approved at the EGM. If JCC Copper Foil has already obtained the approvals or filed documents in respect of the Issuance and listing from the relevant regulatory authorities within the validity period of the resolution, the validity of such resolution shall be automatically extended to the completion date of the Issuance and listing or the exercise of the over-allotment option (if applicable) by the underwriter(s), whichever is later.

This resolution is subject to the consideration at the EGM.

xi. THE RESOLUTION REGARDING PROVIDING ASSURED ENTITLEMENT TO THE H SHAREHOLDERS OF THE COMPANY ONLY IN CONNECTION WITH THE SPIN-OFF AND LISTING OF SUBSIDIARY JCC COPPER FOIL ON THE MAIN BOARD OF THE STOCK EXCHANGE OF HONG KONG LIMITED

Pursuant to the provisions of Practice Note 15 to the Listing Rules (“**Practice Note 15**”), the Company shall have due regard to the interests of its existing shareholders by providing them with an assured entitlement to the new shares to be issued by JCC Copper Foil.

Due to foreign exchange control and the Shanghai Stock Exchange’s “Shanghai-Hong Kong Stock Connect” trading mechanism not providing services for issuance and subscription of new shares, there are impediments arising from legal and policy perspectives for providing the existing A Shareholders of the Company with the assured entitlement to the new shares to be issued by JCC Copper Foil. In order to comply with the requirements of Practice Note 15, the Company proposes that it will only provide the assured entitlement in connection with the Spin-off to the H Shareholders of the Company.

After consultation with the Company’s PRC legal advisers, who have also confirmed that, under the PRC laws and regulations, there are corresponding restrictions on the Company’s ability to provide the assured entitlement to its A Shareholders; and, furthermore, subject to the provisions of the Company Law and the Articles of Association regarding the distribution of profits, the Company is also unable to provide the assured entitlement to its A Shareholders through other lawful alternative means, namely, by distributing the shares of JCC Copper Foil held by the Company to the Shareholders of the Company.

LETTER FROM THE BOARD

It is proposed that the general meeting of the Company authorise the Board and its authorised persons to decide and adjust specific matters such as the quantity and proportion of preferential allocation to H Shareholders before the Issuance of JCC Copper Foil, according to market conditions and in accordance with relevant provisions such as Practice Note 15.

This resolution is subject to separate consideration at the EGM, the A Share Class Meeting and the H Share Class Meeting. If this resolution is not approved at any of the EGM, the A Share Class Meeting or the H Share Class Meeting, the Company will not offer any assured entitlement to any shareholders of the Company for the Spin-off.

The Spin-off will constitute a spin-off within the meaning of Practice Note 15 of the Listing Rules and will be subject to the approval of the Stock Exchange. The Company has submitted an application to the Stock Exchange in respect of the Spin-off pursuant to Practice Note 15. As of the Latest Practicable Date, the Stock Exchange has not yet confirmed whether the Company may proceed with the Spin-off.

Based on the information currently available to the Company, as at the date of the Latest Practicable Date, all applicable percentage ratios calculated under the Listing Rules in respect of the Spin-off are expected to be below 5%, and that the Spin-off will not constitute a discloseable transaction of the Company under Chapter 14 of the Listing Rules. Pursuant to the Listing Rules, the Spin-off does not require approval of the Shareholders. However, under the PRC laws and regulations, the Spin-off is subject to the consideration and approval at the EGM.

Shareholders of the Company and potential investors are advised that the Spin-off and Listing is subject to, among other things, the approval of shareholders of the Company and JCC Copper Foil, the approval of the Stock Exchange, the filing with the CSRC, and is subject to related market conditions. Accordingly, there is no assurance that the Spin-off and Listing will take place or as to when it may take place. The Company will strictly comply with the requirements of the relevant laws, regulations, departmental rules and normative documents, and will perform its information disclosure obligations in a timely manner in light of the progress of the Spin-off. Shareholders of the Company and potential investors should therefore exercise caution when dealing in the securities of the Company.
