VOLUNTARY ANNOUNCEMENT

VEHICLE DELIVERY RESULTS FOR JULY 2026

The board of directors of XPeng Inc. (the "**Company**" or "**XPENG**") is pleased to announce its vehicle delivery results for July 2026.

XPENG delivered 38,027 vehicles in July 2026, marking an increase of 4% year over year. As of July 31, 2026, the Company's cumulative deliveries reached a new milestone of more than 1.2 million units worldwide.

On July 16, 2026, XPENG held its Brand Day and the L03 Global Launch Event in Munich, Germany. The new global model will launch in 65 countries and regions this year, expanding XPENG's international product lineup.

On the global expansion front, earlier this month XPENG officially unveiled its long-term strategy for the Australian market, including plans to launch five all-new models in the second half of 2026 and continue expanding its local sales and service network. XPENG also announced that its NGP (Next Generation Pilot) system, powered by the in-house developed VLA 2.0 model, would begin its global rollout in 2027, bringing its intelligent driving technology to markets around the world.

XPENG's electric vehicles delivered from January to July 2026 are expected to reduce life-cycle greenhouse gas emissions by more than 3.23 million tons compared to internal combustion engine vehicles, equivalent to the carbon absorbed by 53.75 million young trees over 10 years.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the securities of the Company.

By order of the Board
