VOLUNTARY ANNOUNCEMENT ENTERING INTO A SOFTWARE SALES CONTRACT

This announcement is made by Nuobikan Artificial Intelligence Technology (Chengdu) Co., Ltd. (the “**Company**”, together with its subsidiaries, the “**Group**”) on a voluntary basis to inform the shareholders and potential investors of the Company of the latest business development of the Company.

Recently, the Company entered into a software sales agreement (the “**Agreement**”) with a domestic AI chip company (the “**Cooperation Partner**”), with a total contract value of RMB50.8 million (inclusive of tax). The Cooperation Partner is a leading domestic provider of AI computing chips and intelligent computing infrastructure, whose products are widely used in key industry sectors such as AI data centers, telecommunications, energy and financial technology.

Pursuant to the Agreement, the Group will supply the Cooperation Partner with the following self-developed software products and ancillary technical services:

- (i) NBK Industry Application Platform V2.0 Series Software (comprising the IoT Monitoring Subsystem, Big Data Processing Subsystem, Intelligent Monitoring Subsystem and Intelligent Damage Assessment Subsystem);
- (ii) GIS Map-assisted Positioning Management System V1.0;
- (iii) Nuobikan Intelligent Robotic Inspection and Electrical Operation Assistance System V1.0;
- (iv) AI Operation and Maintenance Big Data Analysis Software; and
- (v) ancillary technical services for the above software products.

The artificial intelligence industry is currently developing rapidly, while the construction of AI infrastructure such as intelligent computing centers continues to accelerate. Market demand for highly reliable and intelligent computing infrastructure operation and maintenance, automated inspection and multimodal data processing software is growing rapidly. The Company believes that the entering into of the Agreement with the Cooperation Partner for the provision of self-developed software and ancillary services covering core areas such as Internet of Things monitoring, big data processing, intelligent inspection and AI operation and maintenance analysis marks substantive progress in the commercial deployment of the Group's AI industrial software products in intelligent computing center scenarios. It also demonstrates the adaptability of the relevant products to AI infrastructure scenarios, helps enhance the Company's market recognition in the relevant fields and lays a solid foundation for the development of similar businesses in the future.

The Company believes that the Agreement was entered into in the ordinary and usual course of business of the Group and is in the interests of the Company and its shareholders as a whole. If the Agreement is successfully performed, it is expected to have a positive impact on the future operating results of the Company to a certain extent. The performance of the Agreement will not affect the business independence of the Company, nor will the Company become dependent on the counterparty for its business as a result of performing the Agreement. To the best of the Directors' knowledge, information and belief, having made all reasonable enquiries, the Cooperation Partner and its ultimate beneficial owners are third parties independent of the Group and its connected persons (as defined in the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Listing Rules**")). The Agreement does not constitute a notifiable transaction or a connected transaction of the Company under the Listing Rules. If any subsequent transactions carried out pursuant to the Agreement constitute notifiable transactions or connected transactions of the Company as defined under the Listing Rules, the Company will fulfil the announcement and/or shareholders' approval requirements in accordance with the relevant requirements of the Listing Rules.

The performance of the Agreement is subject to factors such as delivery, acceptance, payment by the customer, macroeconomic policies and market conditions, and there is uncertainty as to its actual contribution to the results of the Company. Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company and be mindful of the investment risks involved.

By Order of the Board
Nuobikan Artificial Intelligence Technology (Chengdu) Co., Ltd.
Liao Yu
Chairman and Executive Director

Chengdu, the PRC, August 6, 2026
