VOLUNTARY ANNOUNCEMENT

STRATEGIC PARTNERSHIP WITH AMSYS ON SPATIAL INTELLIGENCE AND INTELLIGENT INFRASTRUCTURE

This announcement is published by Seyond Holdings Ltd. (the “**Company**” or “**Seyond**” and, together with its subsidiaries, the “**Group**”) on a voluntary basis to inform the shareholders of the Company and potential investors of the latest business development of the Group.

ESTABLISHMENT OF THE STRATEGIC PARTNERSHIP

The Company is pleased to announce that, in July 2026, the Group established a non-legally binding strategic partnership with AMSYS Group (“**AMSYS**”) to combine the Group’s high-performance LiDAR and three-dimensional sensing technologies with AMSYS’ multimodal artificial intelligence and digital twin platform capabilities, and to jointly explore spatial intelligence and intelligent infrastructure solutions for public-sector and enterprise customers (the “**Strategic Partnership**”).

Under the Strategic Partnership, the parties intend to integrate Seyond’s LiDAR perception technology with AMSYS’ AiMS platform and Operational Digital Twin capabilities to advance applications of real-time spatial perception, multimodal data integration and AI-driven analytics across complex physical environments. The collaboration will initially focus on applications related to the Group’s Smart Spaces business and explore use cases across smart cities, transportation networks and hubs, campuses, public venues, healthcare environments and critical infrastructure.

* For identification purpose only

MAIN AREAS OF COOPERATION

1. Spatial intelligence and multimodal AI: The parties intend to combine the three-dimensional spatial perception capabilities provided by the Group's high-precision LiDAR with AMSYS' AiMS platform, integrating spatial, video, IoT and other sensor, enterprise and operational data to support more comprehensive real-time environmental awareness and operational information.
2. Operational digital twins and real-time operational intelligence: The parties intend to explore integrating LiDAR-based three-dimensional sensing data into AMSYS' Operational Digital Twin platform to create digital representations that can be continuously updated to reflect changes in physical environments, supporting customers in operational monitoring, resource allocation, infrastructure planning, safety management and data analysis.
3. Smart spaces and intelligent infrastructure applications: The parties intend to pursue solution integration, technical validation and project opportunities across smart cities, transportation networks and hubs, campuses, public venues, healthcare environments and critical infrastructure, and to further explore applications involving digital twins, AI-driven analytics, intelligent automation and real-time spatial intelligence based on customer needs.

The Company intends to finance the Strategic Partnership through internal resources.

INFORMATION ABOUT AMSYS

AMSYS Group is a provider of enterprise AI solutions. Through its AiMS platform, AMSYS integrates multimodal AI, digital twin technologies, sovereign infrastructure and intelligent automation to support applications across transportation, healthcare, smart cities, campuses and critical infrastructure. According to publicly available information published by AMSYS, AMSYS was recognized as the "NVIDIA State and Local Government Partner of the Year" as part of the 2026 NVIDIA Partner Network (NPN) Awards.

REASONS FOR AND BENEFITS OF ESTABLISHING THE STRATEGIC PARTNERSHIP

The Company considers that the establishment of the Strategic Partnership is in line with the Group's business development strategy. By combining the Group's technological capabilities in high-performance LiDAR and three-dimensional sensing with AMSYS' capabilities in multimodal AI, operational digital twins, intelligent infrastructure and serving public-sector and enterprise customers, the cooperation is expected to assist in:

- (i) expanding the applications of the Group's LiDAR products and three-dimensional sensing solutions in smart spaces and intelligent infrastructure, further broadening use cases across smart cities, transportation, campuses, public venues and critical infrastructure;

- (ii) facilitating the integration of LiDAR-based spatial perception, multimodal AI and digital twin technologies, advancing the research and development, validation and iteration of perception products and solutions for complex physical environments, and aligning with the Group's long-term direction of expanding applications in Physical AI;
- (iii) leveraging AMSYS' customer reach and ecosystem relationships to further access potential application needs of public-sector and enterprise customers and expand market opportunities for the Group in smart spaces and intelligent infrastructure; and
- (iv) combining the technological, platform and market resources of both parties to advance technical validation, pilot deployment and commercial introduction of relevant solutions, thereby bringing potential business development opportunities to the Group.

In summary, the Company considers that establishing the Strategic Partnership will help the Group capture business opportunities in spatial intelligence, smart spaces and intelligent infrastructure, further extend the application scope of the Group's three-dimensional sensing technologies, and is in line with the Group's long-term development strategy and in the interests of the Company and its shareholders.

LISTING RULES IMPLICATIONS

The establishment of the Strategic Partnership and the cooperation contemplated thereunder do not constitute a notifiable transaction under Chapter 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Listing Rules**") or a connected transaction under Chapter 14A of the Listing Rules.

The Company will make further announcement(s) in accordance with the Listing Rules as and when appropriate to inform the shareholders of the Company and potential investors of any further updates in relation to the above matters.

There is no assurance that any forward-looking statements contained in this announcement regarding the Group's business development, or any matter, will be achieved, will actually occur, will be realised or are complete or accurate. Shareholders of the Company and potential investors are advised to exercise caution when dealing in the securities of the Company.

By order of the Board
Seyond Holdings Ltd.
Dr. Bao Junwei

Executive Director, Chairman, President and Chief Executive Officer

Hong Kong, August 18, 2026

As of the date of this announcement, the Board comprises Dr. Bao Junwei (鮑君威) and Dr. Li Yimin (李義民) as executive Directors, and Dr. Chen Changling (陳長齡), Dr. Costas John Spanos and Dr. Maximilian Ibel as independent non-executive Directors.
