- To better reflect each segment's revenue generating model, we grouped our business segments as follows:
  - Fees and interest based: Credit and Alternative Solutions (formerly known as Funds Management)
  - Investment: Investment Management
  - Corporate: Group Management and Support, or GMS
 Certain items previously grouped under Investment Management have been reclassified to GMS.
- We reclassified net gain/(loss) on financial assets and liabilities at fair value through profit and loss as well as dividends from listed and unlisted investments as net investment income starting from the reporting period beginning 1 January 2025.
- Items that are non-cash and/or non-operating in nature are presented separately and excluded to arrive at the adjusted profit attributable to owners of the Company. We believe this allows for a clearer representation of the financial results derived from our core operations.
- Second interim dividend.

The global operating backdrop during the first half of 2026 was marked by lingering geopolitical instability, interest rate uncertainty, and narrow market breadth, with equity gains largely driven by mega-cap technology companies. Escalating geopolitical risks and divergent sector impacts from AI adoption created heightened divergence in asset performance. Against this backdrop, our capital allocation remained disciplined, favouring liquidity, risk mitigation, and tactical positioning around market dislocations.

As a principal-led alternative investment platform, SHK & Co. remains well positioned to navigate market volatility. Approached with discipline, market dislocations create compelling opportunities across alternative strategies. We continued to create value focused on downside protection and risk-adjusted returns backed by our strong balance sheet, liquidity and growing strategic partnerships, as well as our extensive global network. This flywheel effect of revenue and AUM growth has enabled us to begin platform monetisation. Total AUM\* expanded to HK\$29,192.0 million, while total assets grew to HK\$40,388.8 million, reflecting the steady scaling of our platform.

\* Please refer to page 26 of this document for the definition of "Total AUM".

Profit attributable to the owners of the Company was HK\$687.9 million, a decrease of 22.4% year-on-year (“YoY”) (first half of 2025: HK\$887.0 million). A lower reported profit this period was mainly due to the absence of a sizeable liquidity event compared to the preceding period. This was partly offset by an improvement in the Credit business. Basic earnings per share was HK35.2 cents (first half of 2025: HK45.3 cents).

The Board has declared an interim dividend of HK13 cents per share for the six months ended 30 June 2026 (2025 interim dividend: HK12 cents per share), an increase of 8.3% YoY.

During the first half of 2026, the Group repurchased 2.8 million shares, further demonstrating its commitment to disciplined capital management and enhancing long-term shareholder value. Since 1997, the Group has returned HK\$16.2 billion to shareholders through dividends and share buybacks.

The Group also continued to proactively manage its funding profile. During the reporting period, the Group repurchased an aggregate principal amount of medium-term notes (“MTN”) totalling US\$154.2 million (first half of 2025: US\$12.4 million). In January 2026, the Group completed a US\$250.0 million issuance of notes due 2029 under its MTN programme and concurrently tendered US\$152.0 million of its outstanding notes due 2026, thereby extending its debt maturity profile, reducing near-term refinancing risk and further strengthening its financial flexibility.

As of 30 June 2026, the Group’s book value per share was HK\$11.6, an increase of 1.8% from the end of 2025 (HK\$11.4).

### Segment Information

Detailed segmental information on revenue and profit or loss is shown in note 3 to the consolidated financial statements.

## INVESTMENT MANAGEMENT

The Investment Management business recorded a profit before tax of HK\$402.9 million (first half of 2025: HK\$1,006.6 million). A lower reported profit this period was mainly due to the absence of a sizeable liquidity event compared to the preceding period.

As at 30 June 2026, the segment's investment balance stood at HK\$16,880.5 million (31 December 2025: HK\$15,717.4 million). The portfolio is led by Private Equity external funds and direct/co-investments, which comprise 57.4% (31 December 2025: 59.9%) of the total.

The portfolio is well diversified by geography and by sector, and is monitored using a total portfolio approach.

#### By Geography

#### By Sector

In the first half of 2026, investment profit was driven evenly across Private Equity, Special Situations & Structured Credit, and Hedge Funds. Investment income was driven by liquidity events (including IPO and M&A), portfolio markups through new financing rounds of tech investments, and ongoing distributions. Our Fund of Hedge Funds strategy also delivered a strong return which outperformed market benchmarks. The decrease in Direct and Co-investments returns was mainly driven by the lack of a large liquidity event as compared to the first half of 2025. Meanwhile, the Public portfolio recorded a slight loss amid broader market volatility and sector rotation in the second quarter of 2026.

Within our HK\$9.7 billion Private Equity portfolio, around HK\$1.7 billion is publicly listed, providing strong liquidity flexibility. Since inception, this segment has delivered a 15.8% IRR.

Our expanded Special Situations & Structured Credit allocation provided downside protection with meaningful upside. Gains were driven by value appreciation in a US payments co-investment and some special situation funds, alongside steady income from private credit (including Wentworth and a European hotel platform).

New investments in the first half of 2026 focused on Secondaries, Special Situations, and Buyout strategies (namely JC Flowers, Aquilius, Clipway, Hunter Point, the Janus Henderson take-private), prioritising mature, cash-generative assets with clear exit paths.

Overall, these Investment Management’s results reflect our disciplined asset allocation, deal sourcing strength, and value-creation capabilities.

## ALTERNATIVE SOLUTIONS

Sun Hung Kai Capital Partners Limited (“SHKCP”) serves as the Group’s regulated entity for its Alternative Solutions platform (formerly Funds Management). This renaming better reflects the segment’s broad range and diversified investment solutions for clients’ capital. By investing in strong general partners (“GPs”), we provide access to differentiated alternative and private market returns for our clients and also provide capital solutions to our GP partners. Our Group’s own capital and our client’s capital are aligned when we underwrite these investments in partnership.

\* “Total AUM” refers to total value of the following:

1. Assets managed by SHKCP’s fund partners, with which seeding arrangements have been entered.
2. Assets managed by SHKCP, as well as assets under advisory and dealing/distribution services provided by SHKCP.
3. Ownership adjusted AUM of managers in which SHK & Co. has equity stakes.

Please note that (1) our methodology for determining AUM reflects our different business lines and is based on our economic interests and/or control in the assets, this differs from the methodology for calculating our AUM for regulatory filings; and (2) we rely on the AUM figures reported by third party managers, who may apply different methodologies, assumptions and valuation approaches in determining their respective AUMs.

The Alternative Solutions business recorded a nominal pre-tax loss of HK\$0.9 million (pre-tax loss of the first half of 2025: HK\$5 million), narrowing losses significantly by 82.0% YoY. Accelerating growth in fee income (+24.7% YoY) and AUM are the main drivers, partly offset by higher operating expenses.

SHKCP achieved a 17.7% increase in Total AUM\* to US\$3.7 billion. This growth was driven by net capital inflows, the solid performance of various strategies, and new strategic partnerships.

\* Please refer to page 26 of this document for the definition of “Total AUM”.

## Our Partnerships

SHKCP leverages strategic partnerships with leading global alternative and private market GPs to access privileged risk-adjusted returns, in the form of co-investments and other solutions for institutional and family office clients.

This collaborative model is still in its early stages, with the completion of our investment in Aquilius Investment Partners (“Aquilius”) in the second quarter of 2026 and most other partnerships only commencing recently. Even so, it is already generating a flywheel effect that unlocks proprietary deal flow, expands network effects between investors, and enables SHKCP to build long-term recurring revenue.

In the first half of 2026, we strengthened our global platform through additional investments in key strategic alliances. We partnered with Janus Henderson to co-develop and distribute alternative investment solutions, and with Aquilius to secure unique access to Asia-Pacific secondaries transactions. Meanwhile, our alliance with Pinegrove Credit Partners broadens Asian investor access to venture debt in the high-growth tech sector. Beyond generating risk-adjusted returns for SHKCP's clients, these growing partnerships also support group-wide investment returns and capture compelling co-investment opportunities for our Investment Management segment.

## CREDIT BUSINESS

The Group's Credit business principally operates in the Greater China region, where it is subject to the impact of local economic conditions, financing costs, and regulations.

Our Consumer Finance business conducted under United Asia Finance Limited ("UAF"), recorded a pre-tax profit of HK\$565.2 million (first half of 2025: HK\$374.6 million).

During the first half of 2026, business in Hong Kong delivered satisfactory growth in terms of loan transaction volume and profitability. Our disciplined credit underwriting policy and robust credit scoring system enabled us to grow our business while lowering the charge-off ratio. Unsecured personal loans, a major product category for UAF generated growth in transaction volume and loan balance in line with the industry average.

Launched in 2023, the SIM Credit Card business started generating profit, contributing to revenue through growth in card receivables, interest, and fee-based income. Platform enhancements with features such as spending instalment, bill payment, and cash instalment (“loan-on-card facilities”) also support revenue growth. Overall performance, considering rising revenue yields and customer acquisition within younger demographics, remains satisfactory.

As the Chinese Mainland market remains challenging, UAF continues to focus on the secured loan business and adopting tight cost control measures to ensure a positive profit contribution from the region. The consolidated consumer finance gross loan balance amounted to HK\$12,348.9 million.

## CORPORATE GOVERNANCE CODE

During the six months ended 30 June 2026, the Company has applied the principles of, and complied with, the applicable code provisions of the Corporate Governance Code (the "CG Code") as set out in Appendix C1 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"), except for certain deviations which are summarised below:

### (a) Code Provision C.2.1

Code Provision C.2.1 of the CG Code stipulates that the roles of the chairman and chief executive should be separate and should not be performed by the same individual. Under the current organisational structure of the Company, the functions of a chief executive are performed by the Group Executive Chairman, Mr. Lee Seng Huang, in conjunction with the Deputy Chief Executive Officer, Mr. Antony James Edwards ("Mr. Antony Edwards"), and the Group Chief Financial Officer, Mr.

Brendan James McGraw (“Mr. Brendan McGraw”). The Group Executive Chairman oversees the Group’s Investment Management business with support from the management team of the division, as well as its interest in UAF whose day-to-day management lies with its designated Chief Executive Officer. Mr. Antony Edwards assists the Group Executive Chairman on the strategic development of the Group and providing management oversight support to Alternative Solutions business, whilst Mr. Brendan McGraw assists the Group Executive Chairman to oversee the Group’s financial, operational, treasury and risk management functions.

The Board believes that this structure spreads the workload that would otherwise be borne by an individual chief executive, allowing the growing businesses of the Group to be overseen by appropriately qualified and experienced senior executives in those fields. Furthermore, it enhances communications and speeds up the decision-making process across the Company. The Board also considers that this structure will not impair the balance of power and authority between the Board and management of the Company. An appropriate balance can be maintained by the operation of the Board, which holds at least four regular meetings a year to discuss business and operational issues of the Group.

**(b) Code Provisions E.1.2 and D.3.3**

Code provisions E.1.2 and D.3.3 of the CG Code stipulate that the terms of reference of the remuneration committee and audit committee should include, as a minimum, those specific duties as set out in the respective code provisions.

The terms of reference of the Remuneration Committee adopted by the Company are in compliance with the code provision E.1.2 of the CG Code, except that the Remuneration Committee shall make recommendations to the Board on the remuneration packages of the Executive Directors only and not senior management (as opposed to executive directors and senior management under the code provision).

The terms of reference of the Audit Committee adopted by the Company are in compliance with the code provision D.3.3 of the CG Code, except that the Audit Committee shall (i) recommend (as opposed to implement under the code provision) the policy on the engagement of the external auditor to supply non-audit services; (ii) only possesses the effective ability to scrutinise (as opposed to ensure under the code provision) whether management has performed its duty to have effective risk management and internal control systems; (iii) can promote (as opposed to ensure under the code provision) co-ordination between the internal and external auditors; and (iv) can check (as opposed to ensure under the code provision) whether the internal audit function is adequately resourced and has appropriate standing within the Company.

The reasons for the above deviations had been set out in the Corporate Governance Report contained in the Company's annual report for the financial year ended 31 December 2025. The Board considers that the Remuneration Committee and the Audit Committee should continue to operate according to their respective terms of reference as adopted by the Company. The Board will review the terms of reference at least annually and make appropriate changes if considered necessary.
