PROFIT WARNING

This announcement is made by BetterLife Holding Limited (the "**Company**", together with its subsidiaries, the "**Group**") pursuant to Rule 13.09(2)(a) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Listing Rules**") and the Inside Information Provisions (as defined in the Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

The board of directors of the Company (the "**Board**") hereby notifies the shareholders and potential investors of the Company that, based on the preliminary assessment of the information currently available (including but not limited to the unaudited consolidated management accounts of the Group for the six months ended June 30, 2026 (the "**Period**"), the Group is expected to record a loss attributable to owners of the Company of no more than approximately RMB105.0 million, as compared to the profit attributable to owners of the Company of approximately RMB7.1 million for the six months ended June 30, 2025.

The expected decrease in the profit attributable to owners of the Company was mainly due to the decrease in revenue from sales of automobiles primarily caused by macro-economy and weak market sentiment, which further led to the decrease of the gross profits and gross profits margin for the Period.

Despite the operating loss in the Group's automobile sales segment during the Period due to the weak macro-economic environment, the Group's overall cash flow fundamentals remained resilient and robust, with ample liquidity reserves. Compared with the corresponding period in 2025, the revenue from after-sales services and gross margin for the Period maintained stable performance. As of 30 June 2026, the Group's cash and cash equivalents balance amounted to no less than RMB540 million, and the net cash inflow from operating activities for the Period amounted to no less than RMB230 million, demonstrating the continuous and stable cash generation capability of its core businesses. The Group's current assets can fully cover its current liabilities and all long-term interest-bearing liabilities, and the short-term and long-term debt repayment pressures are manageable. Facing industry cyclical fluctuations, the Group adheres to a prudent and conservative financial control strategy. The sufficient cash reserves and sustained positive operating cash flows will provide solid underlying support for the Group's daily operations, continuous business development, and repayment of all maturing debts. The overall financial structure remains safe and the Group possesses sufficient capacity to withstand risks.

Shareholders and potential investors of the Company should note that the information set out in this announcement is based on a preliminary assessment by the Company based on the unaudited consolidated management accounts of the Group for the Period and other information currently available to the Board, which have not been audited or reviewed by the Company's auditors or reviewed by the audit committee of the Company. Details of the financial information for the Period to be disclosed in the interim results announcement of the Company (which is expected to be published by the end of August 2026) shall prevail. There may be differences between such information and the information set out above.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.
