WORKING CAPITAL SPECIFICALLY FOR EXISTING GREEN ENERGY BUSINESS

The green energy business is a key focus for the Group in the future, which includes provision of design and installation of SPV system which is made up of solar panels, inverters and transformers. These, coupled with our continuing research and development, constitute our own designed energy management system for customers. The Group plans to allocate additional resources to support the operations of this business, including the fulfilment of existing or foreseeable performance obligations, including but not limited to research and development expenditure and the costs of hardwares and installation costs.

GENERAL

Save for the updated information in this announcement, all other information disclosed in the Announcement remain unchanged. This announcement is supplemental to and should be read in conjunction with the Announcement.

Given that the Completion of the Placing may or may not take place, Shareholders and potential investors of the Company are advised to exercise caution when dealing in the Shares.
