2. BASIC INFORMATION

(1) Shareholding Structure, Shareholders and Their Changes During the Reporting Period

1) Shareholding structure and its changes^{Note}

Unit: Ten thousand shares

Category	At the beginning of the period		Changes in the number of shares or shareholding percentage during the period				At the end of the period	
	Shares or capital contribution	Percentage (%)	Capital injection by shareholders	Capital reserve transfer and distribution of dividend	Equity transfer	Sub-total	Shares or capital contribution	Percentage (%)
RMB ordinary shares	2,082,353	73.67	–	–	–	–	2,082,353	73.67
Overseas listed foreign shares	744,118	26.33	–	–	–	–	744,118	26.33
Total	2,826,471	100.00	–	–	–	–	2,826,471	100.00

Note: Currently, there is no feature in the shareholders' information enquiry platform that can track down the type of shareholders according to the classification of "state-owned shares, corporate legal shares, foreign invested shares and natural person shares". As such, the above information is presented by the Company based on the shareholding structure as disclosed in its annual report.

2) Effective controller

The effective controller of the Company is the Ministry of Finance of the PRC. As at the end of the reporting period, the equity and controlling relationship between the Company and its effective controller is set out below:

3) *Top ten shareholders (in the descending order of their shareholding percentage in the Company as at the end of the period)*

National Social Security Fund Portfolio 110	Other	–	974	0.03%	–	–
Details of shareholders	1. HKSCC Nominees Limited is a company that holds shares on behalf of the clients of the Hong Kong stock brokers and other participants of the CCASS system. The relevant regulations of Hong Kong Stock Exchange do not require such persons to declare whether their shareholdings are pledged or frozen. Hence, HKSCC Nominees Limited is unable to calculate or provide the number of shares that are pledged or frozen. 2. The Company was not aware of any connected relationship and concerted parties as defined by the “Measures for the Administration of the Takeover of Listed Companies” among the top ten shareholders of the Company. 3. As at the end of the reporting period, except for the unknown situation regarding HKSCC Nominees Limited, none of the other shareholders of the Company as described above have lent their shares through refinancing.					

4) *Shareholdings of the Directors and senior management*

No relevant circumstance occurred during the reporting period.

5) *Equity transfer during the reporting period*

No relevant circumstance required for reporting by the regulatory rules during the reporting period.

(4) Violation of Laws and Regulations

- 1) Administrative punishments imposed on the Company by financial regulators and other governmental departments during the reporting period:

During the reporting period, administrative punishments were imposed on the divisions of the Company at all levels, with an amount of penalty totaling RMB3.698 million. Such punishments included, among others, warning and penalty. For further details, please logon to the official website of the Company (www.e-chinalife.com, route query: Home Page – Public Information Disclosure – Major Events Information) for inspection.

- 2) Administrative punishments imposed on the Directors and senior management of the Head Office of the Company by financial regulators and other governmental departments during the reporting period:

No relevant circumstance occurred during the reporting period.

- 3) Violation of laws by the Directors and management officers at the departmental level of the Head Office or above and senior management officers of the provincial branches of the Company during the reporting period that resulted in them being transferred to judicial authorities:

No relevant circumstance occurred during the reporting period.

- 4) Regulatory measures adopted by the NFRA against the Company during the reporting period:

During the reporting period, no regulatory measure was adopted by the NFRA and its local offices against the Head Office of the Company and there were 65 regulatory measures against its branches at the provincial level and below.

3. KEY INDICATORS

(1) Solvency Ratio Indicators

Unit: RMB million

Items	Figures of the Current Quarter	Figures of the Preceding Quarter	Predicted figures of the Following Quarter under the Basic Scenario
Admitted assets	8,223,638	7,831,650	8,376,720
Admitted liabilities	6,888,950	6,586,147	7,077,500
Actual capital	1,334,688	1,245,503	1,299,220
Core Tier 1 capital	1,004,779	910,273	1,002,808
Core Tier 2 capital	53,387	55,449	47,214
Supplementary Tier 1 capital	273,769	276,990	246,701
Supplementary Tier 2 capital	2,753	2,791	2,497
Minimum capital for capitalizable risk	685,332	625,193	700,860
Minimum capital for control risk	-10,486	-9,566	-10,723
Additional minimum capital	—	—	—
Minimum capital	674,846	615,627	690,137
Core solvency surplus	383,320	350,095	359,885
Comprehensive solvency surplus	659,842	629,876	609,083
Core solvency ratio	156.80%	156.87%	152.15%
Comprehensive solvency ratio	197.78%	202.31%	188.26%

(2) Regulatory and Monitoring Indicators of Liquidity Risk

Unit: RMB million

Name of Indicators	Figures of the Current Quarter	Figures of the Preceding Quarter
Liquidity coverage ratio		
Overall liquidity coverage ratio of the Company under the basic scenario ¹ (LCR1)		
within 3 months	145%	140%
within 12 months	110%	110%
Overall liquidity coverage ratio of the Company under the required testing stressed scenario ² (LCR2)		
within 3 months	1342%	1306%
within 12 months	353%	339%
Liquidity coverage ratio without considering asset realization under the required testing stressed scenario ³ (LCR3)		
within 3 months	79%	83%
within 12 months	59%	58%
Overall liquidity coverage ratio of the Company under the self-testing stressed scenario ² (LCR2)		
within 3 months	4879%	5333%
within 12 months	1118%	1056%
Liquidity coverage ratio without considering asset realization under the self-testing stressed scenario ³ (LCR3)		
within 3 months	353%	418%
within 12 months	236%	228%
Backtracking adverse deviation rate of net cash flow from operating activities ⁴	24%	186%
Cumulative net cash flow of the current year	-14	-8,275
Net cash flow of the preceding fiscal year	58,548	58,548
Net cash flow of the fiscal year prior to the preceding fiscal year	-58,009	-58,009
Net cash flow from operating activities ⁵	283,344	173,020
Comprehensive surrender rate ⁶	0.44%	0.24%
Net cash flow from operating activities of participating account ⁷	84,123	53,018
Net cash flow from operating activities of universal account ⁸	130,575	108,264
Proportion of cash and liquidity management tools ⁹	1.80%	1.93%
Quarterly average of financing leverage ratio ¹⁰	2.34%	2.76%
Proportion of domestic fixed-income assets under (including) class AA ¹¹	0.01%	0.01%
Proportion of listed stock investment with a shareholding of over 5% ¹²	0.56%	0.57%
Proportion of receivables ¹³	0.89%	0.94%
Proportion of holding related-party assets ¹⁴	3.39%	0.97%

Notes:

1. Overall liquidity coverage ratio of the Company under the basic scenario = (Cash inflows of the Company under the basic scenario + Book value of cash and cash equivalents at the valuation date) ÷ Cash outflows of the Company under the basic scenario × 100%
2. Overall liquidity coverage ratio of the Company under the stressed scenario = (Cash inflows of the Company under the stressed scenario + Book value of cash and cash equivalents at the valuation date + Amount of realizable liquid asset reserves) ÷ Cash outflows of the Company under the stressed scenario × 100%
3. Liquidity coverage ratio without considering asset realization under the stressed scenario = (Cash inflows of the Company under the stressed scenario + Book value of cash and cash equivalents at the valuation date) ÷ Cash outflows of the Company under the stressed scenario × 100%
4. Backtracking adverse deviation rate of net cash flow from operating activities = (Actual value of net cash flow from operating activities – Predicted value of net cash flow from operating activities) ÷ Absolute value of the predicted value of net cash flow from operating activities
5. Net cash flow from operating activities = Cumulative cash inflows from operating activities of the current year – Cumulative cash outflows from operating activities of the current year
6. Comprehensive surrender rate = (Cumulative surrender payment for the year + Cumulative surrender payment of insured reserves and investment funds for the year + Cumulative surrender payment of the separate accounts of investment-linked insurance for the year) ÷ (Opening balance of long-term insurance reserves + Opening balance of insured reserves and investment funds + Opening balance of separate account liabilities + Written premiums for the year) × 100%
7. Net cash flow from operating activities of participating account = Cumulative cash inflows from operating activities of participating account of the current year – Cumulative cash outflows from operating activities of participating account of the current year
8. Net cash flow from operating activities of universal account = Cumulative cash inflows from operating activities of universal account of the current year – Cumulative cash outflows from operating activities of universal account of the current year
9. Proportion of cash and liquidity management tools = Book value of cash and liquidity management tools at the end of the period ÷ Ending balance of total assets after deducting the balance of bonds sold under agreements to repurchase and assets held in separate accounts × 100%
10. Quarterly average of financing leverage ratio = Arithmetic average of total balance of inter-bank lending and bonds sold under agreements to repurchase at the end of each month within a quarter ÷ Ending balance of total assets × 100%
11. Proportion of domestic fixed-income assets under (including) class AA = Book value of domestic fixed-income assets under (including) class AA at the end of the period ÷ Ending balance of total assets after deducting the balance of bonds sold under agreements to repurchase and assets held in separate accounts × 100%
12. Proportion of listed stock investment with a shareholding of over 5% = Total book value of listed stock investment with a shareholding of over 5% ÷ Ending balance of total assets × 100%
13. Proportion of receivables = (Book value of premiums receivable at the end of the period + Book value of reinsurance accounts receivable at the end of the period) ÷ Ending balance of total assets × 100%
14. Proportion of holding related-party assets = Total investment assets of counterparties (who are related parties) held ÷ Ending balance of total assets × 100%

(3) Key Operating Indicators

Unit: RMB million

Name of Indicators	Figures of the Current Quarter	Cumulative Figures of the Current Year
Premium income	178,156	536,634
Net profit	114,009	132,801
Total assets	7,873,637	7,873,637
Total equity	654,148	654,148
Insurance contract liabilities	6,910,741	6,910,741
Basic earnings per share (RMB)	4.07	4.76
Total equity yield	18.33%	21.39%
Total assets yield	1.48%	1.74%
Net Investment yield	1.26%	2.38%
Comprehensive investment yield	3.82%	8.82%
Residual margin	929,427	929,427
Number of individual agent at the end of the period	657,193	657,193
13-month persistency rate	96.70%	96.70%
Comprehensive surrender rate	0.20%	0.44%

Note:

The premium income stated in the above table are data under “Accounting Standards for Business Enterprises (“ASBE”) No. 25 – Direct Insurance Contracts”, “ASBE No. 26 – Reinsurance Contracts” (Caikuai [2006] No. 3) and “Regulations regarding the Accounting Treatment of Insurance Contracts” (Caikuai [2009] No. 15). The net investment yield, comprehensive investment yield, average net investment yield for the recent three years and average comprehensive investment yield for the recent three years are data under “ASBE No. 22 – Recognition and Measurement of Financial Instruments” (Caikuai [2006] No. 3) and other standards on financial instruments and calculated in accordance with the formulas specified in the “Solvency Regulatory Rules for Insurance Companies No. 18: Solvency Report”.

The indicators for net profit, total assets, total equity and insurance contract liabilities are disclosed based on the data from the 2026 interim financial report of the Company (which is prepared in accordance with “ASBE No. 22 – Recognition and Measurement of Financial Instruments” (Caikuai [2017] No. 7), “ASBE No. 25 – Insurance Contract” (Caikuai [2020] No. 20) and other ASBE). Basic earnings per share, total equity yield and total assets yield are calculated based on the results of the above indicators and in accordance with the formulas specified in the “Solvency Regulatory Rules for Insurance Companies No. 18: Solvency Report”. The formulas are as follows:

Total equity yield = $\text{Net profit} \div [(\text{Total equity at the beginning of the period} + \text{Total equity at the end of the period}) \div 2] \times 100\%$

Total assets yield = $\text{Net profit} \div [(\text{Total assets at the beginning of the period} + \text{Total assets at the end of the period}) \div 2] \times 100\%$

Net investment yield = $(\text{Investment income} + \text{Fair value changes gains/losses} + \text{Foreign exchange gains/losses} - \text{Impairment loss of investment assets} - \text{Taxes and surcharges of investment} - \text{Interest expense}) \div \text{Average balance of funds application during the reporting period} \times 100\%$

Comprehensive investment yield = $(\text{Investment income} + \text{Fair value changes gains/losses} + \text{Foreign exchange gains/losses} + \text{Net change in fair value of financial assets available for sale} - \text{Impairment loss of investment assets} - \text{Taxes and surcharges of investment} - \text{Interest expense}) \div \text{Average balance of funds application during the reporting period} \times 100\%$

13-month persistency rate = (Number of in-force long-term life insurance policies at the end of the comparable quarter of the previous year that remain in force at the end of the current quarter ÷ Number of in-force long-term life insurance policies at the end of the comparable quarter of the previous year) × 100%

Comprehensive surrender rate = (Surrender payment + Surrender payment of insured reserves and investment funds + Surrender payment of the separate accounts of investment-linked insurance) ÷ (Opening balance of long-term insurance reserves + Opening balance of insured reserves and investment funds + Opening balance of separate account liabilities + Written premiums for the year) × 100%

(4) Net/(Comprehensive) Investment Yield for the Recent Three Years

The average net investment yield and the average comprehensive investment yield of the Company for the recent three years were 3.93% and 4.84%, respectively.

4. RISK MANAGEMENT CAPABILITY

(1) Type of the Company

- 1) In accordance with the requirements under Article 5 and Article 6 of the “Solvency Regulatory Rules for Insurance Companies No. 12: Solvency Aligned Risk Management Requirements and Assessment” with respect to the criteria for classification of companies, the Company is a Type I insurance company.
- 2) The Company is a life insurance company established in Beijing, China on June 30, 2003 according to the Company Law and the Insurance Law of the People’s Republic of China, and was listed overseas in December 2003 and returned to the domestic A-share market for listing in January 2007.
- 3) In 2025, the Company had written premiums of RMB938,600 million (unaudited), total assets of RMB7,399,355 million and 36 provincial branches.

(2) Assessment Results of the Recent Solvency Aligned Risk Management Requirements and Assessment

The Former CBIRC conducted a Solvency Aligned Risk Management Requirements and Assessment (SARMRA) on the Company in 2022. According to the “Letter of Opinions from the Solvency Supervision Department of the CBIRC Regarding the 2022 SARMRA On-site Assessment of China Life Insurance Company Limited” (Yin Bao Jian Chang Fu [2023] No. 14), the Company got a score of 84.83 in the 2022 assessment and the respective scores in nine areas are as follows: 17.05 in the foundation and environment of risk management, 8.01 in the objectives and tools of risk management, 8.5 in insurance risk management, 8.33 in market risk management, 8.5 in credit risk management, 8.38 in operational risk management, 8.74 in strategic risk management, 8.6 in reputational risk management, and 8.72 in liquidity risk management.

(3) Measures for the Improvement of Risk Management Adopted During the Reporting Period and Their Progress

First, the Company's risk management mechanisms were further refined and optimized on a continuous basis. The Company proactively implemented the new anti-money laundering requirements issued by the People's Bank of China, efficiently completed the revision of various internal anti-money laundering control policies, developed a mechanism for beneficial owner identification and differentiated reporting, and facilitated the effective implementation of the new regulatory requirements. With a particular focus on key areas such as sales management and business management, the Company strengthened the construction of its internal control system, issued the 2026 edition of the "Internal Control Manual", and comprehensively upgraded the loss database for operational risks. By centralising the management of the entire data lifecycle, the Company ensured that each data point is fully traceable. In parallel, the Company continued its awareness-raising and education initiatives on anti-money laundering, prevention of illegal fundraising, risk management and compliance, strengthened risk and compliance awareness among staff at all levels, and vigorously fostered an enterprise-wide culture of risk management and compliance.

Second, the Company's risk monitoring system became more scientific and precise. In light of the evolving development environment of the industry, the Company comprehensively updated the "2026 Statement on Risk Appetite", effectively cascading its risk appetite into management processes and coordinating business development with risk control, so as to firmly uphold the risk bottom line. Concurrently, the Company strengthened risk prevention and control for investment projects, undertook a comprehensive restructuring of the monitoring indicator system for asset allocation execution, and balanced short-, medium- and long-term management objectives in order to further optimize its asset allocation profile. In addition, the Company continued to reinforce its monitoring, research, screening and governance efforts in respect of, among others, sales risk, investment risk and money laundering risk, so as to reveal, manage and control relevant risks in a timely manner.

Third, the digital and intelligent transformation of risk control was further accelerated. On one front, the Company continued to promote the application of artificial intelligence, large models and other technologies in risk prevention and control, and developed tools such as big-data early-warning models for sales risk and an intelligent Q&A assistant for internal control, thereby leveraging AI technology to effectively enhance both the quality and efficiency of sales risk management and the risk control capabilities at the front line. On another front, the Company further advanced the application of digital and intelligent technologies by building a full-dimension intelligent platform for risk monitoring and analysis with strong penetration and high accuracy, and by constructing intuitive, three-dimensional risk views that enable a multi-angle, stereoscopic representation of institutional risks. Through refined and penetrating oversight, the Company has strengthened the "four-early" capabilities of risk control – namely early identification, early warning, early exposure and early disposal – thereby reinforcing the risk-control safeguards underpinning the Company's high-quality development.

(4) Self-assessment on Risk Management

The Company continued to proceed with rectification and upgrading measures, sorted out and refined all existing issues on an individual basis, stepped up its efforts to rectify such issues, and continuously enhanced its capability of risk management, after making reference to the assessment opinions of the Former CBIRC's inspection in 2022 and the Company's self-assessment results in 2025, and taking into account the actual situation of its risk management.

5. INTEGRATED RISK RATING (IRR) (CLASSIFICATION REGULATION)

(1) Information of the Company's IRR

To date, according to the C-ROSS Supervision Information System of the NFRA, the results of the IRR of the Company in the fourth quarter of 2025 and the first quarter of 2026 were both AA Category.

(2) Self-assessment on Risks

The Company conducts an assessment on the insurance risk, market risk, credit risk, strategic risk, operational risk, reputational risk, liquidity risk and other risks faced by it on a quarterly basis, and a comprehensive risk management quarterly report will be prepared and submitted to the President's Office of the Company for review.

For strategic risk, the Company focused on conducting proper analysis on macro environment and policies, made accurate risk assessment and identification, and prepared a report of the management team of the Company on business operation and management every six months and an evaluation report on the implementation of medium- to long-term planning every year through the regular monitoring and evaluation of strategic plan implementation, to strengthen the management of strategic risk. In general, the business structure and quality of the Company continued to stay healthy.

For operational risk, the Company consistently optimized the development of three management tools, namely loss data room for operational risk, self-assessment on operational risk, and key risk indicators, further strengthened the construction of intelligent risk prevention and control, and promoted operational risk management by technological means to build an operational risk management system featuring full chain, which fully improved the efficiency in the management and control of operational risks. The Company also conducted the collection and analysis of operational risk events as well as key risk indicators monitoring on a quarterly basis.

For reputational risk, the Company consistently monitored public opinions through the real-time monitoring of media around the clock for seven days a week, and strengthened its efforts to analyze public opinions by actively grasping their main characteristics and development trends, in order to seize the initiative to address the public opinions. The public opinions on the Company remained stable in general and there was no major incident of reputational risk for the Company in this quarter.

For liquidity risk, the Company monitored the regulatory indicators and monitoring indicators for liquidity risk on a quarterly basis and carried out stress tests on cash flows in accordance with the requirements under the “Solvency Regulatory Rules for Insurance Companies No. 13: Liquidity Risk”. The Company constantly stepped up its effort in liquidity risk management pursuant to the regulatory requirements and its own regulations, and the liquidity risk of the Company remained at a lower level.

6. SIGNIFICANT EVENTS

(1) Branches

Provincial branches newly approved for operation during the reporting period:

No event involving major branches occurred.

(2) Material Reinsurance Contracts

1) Material reinsurance inward contracts entered into during the reporting period:

No event involving material reinsurance inward contracts occurred.

2) Material reinsurance outward contracts entered into during the reporting period:

No event involving material reinsurance outward contracts occurred.

(3) Top Three Products During the Reporting Period in Terms of Surrender Payment and Comprehensive Surrender Rate

1) Top three products during the reporting period in terms of surrender payment

Unit: RMB million

Name of products	Type of products	Sales channel	Current quarter		Cumulative figures for the year	
			Surrender payment	Comprehensive surrender rate	Surrender payment	Comprehensive surrender rate
China Life Xin Account Endowment Insurance (Universal Insurance) (Diamond Version) (國壽鑫賬戶兩全保險(萬能型)(鑽石版))	Universal	Exclusive individual agent, etc.	755	0.41%	1,526	0.93%
Kang Ning Whole Life Insurance (康寧終身保險)	Traditional	Exclusive individual agent, etc.	697	0.16%	1,421	0.32%
China Life Joyful Abundance for Life Whole-life Insurance (國壽樂盈一生終身壽險)	Traditional	Bank and postal agency, etc.	643	1.48%	1,134	2.69%

2) Top three products during the reporting period in terms of comprehensive surrender rate

Unit: RMB million

Name of products	Type of products	Sales channel	Current quarter		Cumulative figures for the year	
			Surrender payment	Comprehensive surrender rate	Surrender payment	Comprehensive surrender rate
China Life Supreme Perfect Life Annuity Insurance (Participating Insurance)(國壽美滿人生至尊版年金保險(分紅型))	Participating	Bank and postal agency, etc.	1	3.32%	1	3.34%
China Life Joyful Abundance for Life Whole-life Insurance (國壽樂盈一生終身壽險)	Traditional	Bank and postal agency, etc.	643	1.48%	1,134	2.69%
China Life Sales Elite Group Pension Annuity Insurance (Universal Insurance) (國壽銷售精英團體養老年金保險(萬能型))	Universal	Group Insurance, etc.	1	1.29%	2	2.25%

Note: The data regarding the top three products in terms of surrender payment and comprehensive surrender rate are calculated according to the formulas set out in the “Solvency Regulatory Rules for Insurance Companies No. 18: Solvency Report”:

1. Comprehensive surrender rate = (Surrender payment + Surrender payment of insured reserves and investment funds + Surrender payment of the separate accounts of investment-linked insurance) ÷ (Opening balance of long-term insurance reserves + Opening balance of insured reserves and investment funds + Opening balance of separate account liabilities + Written premiums for the year) × 100%
2. Surrender payment = Surrender payment + Surrender payment of insured reserves and investment funds + Surrender payment of the separate accounts of investment-linked insurance

(4) Major Investments

Major investments made during the reporting period:

Unit: RMB million

No.	Type	Investment target	Time of investment	Investment amount			Book value at the end of the period
				At the beginning of the period	At the end of the period	Change	
1	Joint venture	Beijing Pingzhun Infrastructure Real Estate Equity Investment Fund Partnership (Limited Partnership)	April 2026	110	127	17	148

It was determined after an assessment that the above major investments had no material impact on the solvency ratios of the Company.

(5) Significant Investment Losses

Significant investment losses incurred during the reporting period:

No event involving significant investment losses occurred.

(6) Major Financing Activities

Major financing activities carried out during the reporting period:

No event involving major financing activities occurred.

(7) Major Connected Transactions

Major connected transactions occurred during the reporting period:

Major connected transactions have been disclosed on the official website of the Company. For specific information, please logon to the official website of the Company (www.e-chinalife.com, route query: Home Page – Public Information Disclosure – Information of Special Matters) for inspection.

It was determined after an assessment that the major connected transactions occurred during the reporting period had no material impact on the solvency ratios of the Company.

(8) Material Guarantees

1) Executed material guarantee contracts existed during the reporting period:

No event involving material guarantee contracts occurred.

2) Outstanding material guarantee contracts existed as of the date of the solvency report:

No event involving outstanding material guarantee contracts occurred.

(9) Other Significant Events

No other significant event occurred that had a material effect on the solvency of the Company.

7. MANAGEMENT ANALYSIS AND DISCUSSION

(1) Change of Solvency Ratios and the Reasons therefor

As at June 30, 2026, the core solvency ratio and comprehensive solvency ratio of the Company were 156.80% and 197.78%, respectively, representing decreases of 0.07 percentage point and 4.53 percentage points as compared to those as at the end of the previous quarter. The main reason for the change is divided into two aspects:

Firstly, actual capital increased by RMB89,185 million from the end of the previous quarter, as a result of which the comprehensive solvency ratio increased by 14.49 percentage points. In particular, admitted assets rose by RMB391,988 million from the end of the previous quarter, which was primarily due to an increase of RMB385,746 million in investment assets; and admitted liabilities rose by RMB302,803 million from the end of the previous quarter, which was mainly attributable to an increase of RMB216,322 million in reserve liabilities and an increase of RMB41,498 million in financial liabilities.

Secondly, the minimum capital increased by RMB59,219 million from the end of the previous quarter, as a result of which the comprehensive solvency ratio decreased by 19.02 percentage points. In particular, the minimum capital for insurance risk increased by RMB2,041 million, the minimum capital for market risk increased by RMB63,244 million, and the minimum capital for credit risk decreased by RMB2,580 million.

In general, the core solvency ratio and comprehensive solvency ratio of the Company are well above the regulatory requirements, and the Company has sufficient solvency.

(2) Change of Regulatory Indicators for Liquidity Risk and the Reasons therefor

At the end of the second quarter of 2026, the regulatory indicators for liquidity risk of the Company were conformed to the regulatory standards. There was no significant change in the liquidity coverage ratio as compared to that of the previous quarter. Backtracking of net cash flow from operating activities has shown positive deviation, and the cumulative net cash flow as at the end of second quarter amounted to RMB-14 million. Pursuant to the provisions of the “Solvency Regulatory Rules for Insurance Companies No. 13: Liquidity Risk” and the relevant requirements, the Company has established a well-developed liquidity risk management mechanism to monitor various regulatory indicators for liquidity risk on a quarterly basis, with a view to preventing liquidity risk in an effective manner.

(3) Analysis of the Change in the IRR Results

According to the C-ROSS Supervision Information System of the NFRA, the result of the IRR of the Company in the first quarter of 2026 was AA Category, which was maintained at A Category for 32 consecutive quarters and remained stable.

(4) Analysis of the Key Risks Faced by the Company

In light of the financial environment and capital market, and after taking into account the measures adopted and initiatives taken by it in respect of risks, the Company conducted a comprehensive analysis of the key risks affecting solvency, with the specific details as follows:

Currently, the development of the industry is navigating an increasingly complex and challenging external environment. The heightened tensions in US-Iran conflict have exacerbated economic uncertainty, impacting households' demand for insurance products. Long-term interest rates persist at historically low levels, the equity markets are subject to volatile trends, and the low-interest-rate environment continues, accelerating the reshaping of the industry's operational model. Achieving efficient asset-liability interaction, advancing refined management, and driving product and service innovation are all major challenges facing the industry. In terms of investment returns, achieving a balance and integration between asset safety and returns in a low-interest-rate environment remains a work in progress, necessitating further refinement. The pace of high-quality development also requires acceleration. Moreover, the personal insurance sector is contending with frequent incidents of negative public opinion, which are rapidly and widely disseminated via self-media, and the number of industry complaints continues to rise. In this context, as a leading enterprise in the industry, the Company faces heightened challenges in managing reputational risks, which are becoming increasingly unpredictable, contagious, and external in nature.

8. OPINIONS FROM EXTERNAL INSTITUTIONS

(1) Reports Received from External Institutions During the Reporting Period

1) Audit reports received from auditors during the reporting period:

Ernst & Young Hua Ming LLP, an auditor engaged by the Company, issued an audit report (Ernst & Young Hua Ming (2026) Zhuan Zi No. 70002226_A02), and was of the view that the solvency report of the Company as at December 31, 2025 were prepared, in all material respects, in accordance with the basis of preparation set forth in Note 2 in the notes to the solvency report (such as the "Solvency Regulatory Rules II for Insurance Companies", the "Notice of the CBIRC Regarding the Printing and Issue of the Solvency Regulatory Rules II for Insurance Companies" (Yin Bao Jian Fa [2021] No. 51), the "Notice of the CBIRC Regarding the Matters Relevant to the Implementation of the Solvency Regulatory Rules II for Insurance Companies" (Yin Bao Jian Fa [2021] No. 52), the "Notice of the National Financial Regulatory Administration on Optimizing the Solvency Regulatory Standards for Insurance Companies" (Jin Gui [2023] No. 5) and the "Notice of the National Financial Regulatory Administration on the Adjustment of Risk Factors for the Relevant Businesses of Insurance Companies" (Jin Gui [2025] No. 24) issued by the NFRA, and the 2025 special financial statements and relevant financial and accounting records approved by the business management on March 25, 2026, etc.

2) *Review reports received during the reporting period:*

Ernst & Young Hua Ming LLP, an auditor engaged by the Company, issued a review report (Ernst & Young Hua Ming (2026) Zhuan Zi No. 70002226_A06), stating: “Based on our review of the evidence supporting these assumptions, we have not identified any matters that cause us to believe that these assumptions do not provide a reasonable basis for the stress test. We believe that the solvency stress test report has been prepared and presented based on these assumptions in accordance with the solvency regulatory rules for insurance companies”.

3) *Credit rating reports received from rating agencies during the reporting period:*

To address the requirements of the Company for credit enhancement in underwriting, investment and financing operations, the Company engaged three credit rating agencies, namely S&P Global Ratings Hong Kong Limited, Fitch Ratings (Beijing) Limited (“**Fitch**”), and Moody’s Investors Service Hong Kong Limited (“**Moody’s**”) to conduct credit ratings on the Company’s financial strength. In April 2026, Fitch updated the Company’s ratings, maintaining an insurer financial strength rating of A+ with a stable outlook. In April 2026, Moody’s updated the Company’s ratings, maintaining an insurer financial strength rating of A1 and revising the outlook to stable. These ratings will be continuously monitored and remain valid until the next update.

The Company engaged China Chengxin International Credit Rating Co., Ltd. (“**China Chengxin**”) and China Lianhe Credit Rating Co., Ltd. (“**China Lianhe**”) to rate the capital supplementary bonds issued by the Company in 2024. In June 2026, China Chengxin rated the Company’s corporate credit rating as AAA with a stable outlook and rated the “2024 Capital Supplementary Bonds (Bond Connect) of China Life Insurance Company Limited” as AAA. China Lianhe also rated the Company’s corporate credit rating as AAA with a stable outlook and rated the “2024 Capital Supplementary Bonds (Bond Connect) of China Life Insurance Company Limited” as AAA. These ratings will be continuously monitored and remain valid until the next update.

(2) Change of External Institutions During the Reporting Period

No relevant circumstance occurred during the reporting period.

9. ACTUAL CAPITAL

(1) Admitted Assets

Unit: RMB million

Items	Figures of the Current Quarter			Figures of the Preceding Quarter		
	Book Value	Unadmitted Value	Admitted Value	Book Value	Unadmitted Value	Admitted Value
