Such purchase price was determined following arm's length negotiations between Industrial Bank Financial Leasing and the Company with reference to the carrying value of the Leased Assets as at 30 June 2026 which amounted to approximately RMB100.00 million, after taking into account the estimated depreciation of the Leased Assets over the Lease Period and their serviceable condition and depreciable life. The Purchase Price shall be used by the Company to replenish its working capital.

The total amount of lease payment over the Lease Period shall be paid by the Company to Industrial Bank Financial Leasing in 12 quarterly instalments during the Lease Period.

Ownership of the Leased Assets	:	During the Lease Period, Industrial Bank Financial Leasing will have legal ownership of the Leased Assets.
Lessee's obligation to repurchase the Leased Assets	:	Upon expiry of the Lease Period, the Company shall repurchase the Leased Assets from Industrial Bank Financial Leasing at the consideration of RMB1.00.

The terms of the Finance Lease Agreement, including the lease interest rate, were determined after arm's length negotiations between the respective parties and by reference to, among other things, the value of the Leased Assets, the prevailing market rates for the similar finance leasing arrangement and consideration of other factors such as performance of operation and risk profile of the Leased Assets.
